11.11 Price provisions.
11.12 Ocean transportation.
11.13 Additional responsibilities of importers and suppliers.
11.14 Saving clause.
11.15 CSS Commodity Offices.

AUTHORITY: §§ 11.1 to 11.15 issued under sec. 102, 68 Stat. 454, E. O. 10560, 19 F. R. 5927. Interpret or apply secs. 2, 101, 68 Stat. 454.

§ 11.1 *Definition of terms.* For the purposes of this subpart:

(a) "The act" shall mean title I of the Agricultural Trade Development and Assistance Act of 1954 (Pub. Law 480, 83d Cong.).

(b) "Form 480–A" shall mean FAS Form 480–A, "Authorization to Purchase Surplus Agricultural Commodities with Foreign Currency," issued to an importing country pursuant to this subpart.

(c) "FAS" shall mean the Foreign Agricultural Service, U. S. Department of Agriculture.

(d) "CCC" shall mean the Commodity Credit Corporation, U. S. Department of Agriculture.

(e) "AMS" shall mean the Agricultural Marketing Service, U. S. Department of Agriculture.

(f) "CSS" shall mean the Commodity Stabilization Service, U. S. Department of Agriculture.

(g) "CSS Offices" shall mean the CSS Divisions, the CSS Commodity Offices listed in § 11.15, and any other offices or agencies which may succeed to the functions of such offices.

(h) "The Administrator" shall mean the Administrator of the Foreign Agricultural Service or his designee.

(i) "The Controller, CCC" shall mean the Controller, Commodity Credit Corporation, or his designee.

(j) "Importing country" shall mean any nation with which an agreement has been negotiated pursuant to section 101 of the act.

(k) "Importer" shall mean any person or organization, governmental or otherwise, to which an importing country makes a sub-authorization under a Form 480–A.

(l) "Approved applicant" shall mean the applicant named in any letter of commitment issued to a banking institution under this subpart and shall include any agent authorized to act on behalf of such an applicant.

(m) "Supplier" shall mean any person or firm which sells any commodity or furnishes ocean freight or insurance to an importer under the terms of a Form 480–A authorization.

(n) "Banking institution" shall mean a banking institution organized under the laws of the United States, any State, or the District of Columbia.

(o) "Delivery" shall mean the transfer to or for the account of an importer of custody and right of possession of the commodity in export channels (e. g. f. o. b. vessel, c. & f., from consignment stocks, etc.).

§ 11.2 *General statement.* This subpart contains the regulations governing the operation of the program for the sale and exportation of surplus agricultural commodities for foreign currencies under the act, including the submission of applications to purchase agricultural commodities for foreign currency under the act, the issuance of authorizations to purchase, and the financing of the sale and exportation of such commodities through private trade channels. Except in the case of cotton, consignment stocks, i. e., stocks shipped from the United States prior to the date of sale under this program, will not be financed unless specifically provided for in the Form 480–A authorization. General information pertaining to the operation of this program and forms prescribed for use thereunder can be obtained upon request to the Director, Foreign Trade Programs Division, FAS, U. S. Department of Agriculture, Washington 25, D. C.

§ 11.3 *Applications.* Importing countries desiring to purchase surplus agricultural commodities under the program shall submit applications covering such commodities and containing such information as may have been requested by the Administrator. Applications shall be submitted in quadruplicate, addressed to the Administrator, FAS, U. S. Department of Agriculture, Washington 25, D. C. Supplementary information with respect to applications may be required from time to time.

§ 11.4 *Authorizations.* (a) The Administrator shall provide for review of each application submitted pursuant to § 11.3 to determine whether approval of the application would be in accordance with the provisions of the act and the policies of the U. S. Government. If such determination is favorable, the Administrator will issue a Form 480–A authorization for such procurement as soon as practicable after agreement by the importing country to the terms thereof.

(b) Each Form 480–A will specify the commodity to be purchased; the approximate quantity which may be purchased pursuant to the authorization and whether such commodity or its equivalent must be obtained by suppliers from CCC stocks; the maximum dollar amount; the method of financing and the CSS office which will administer the financing operation on behalf of CCC; the periods during which contracts between importers and suppliers may be entered into and during which deliveries may be made; provisions governing the deposit of the foreign currency purchase price; and any other provisions deemed necessary by the Administrator.

(c) In order to be eligible for financing under the applicable Form 480–A, contracts between importers and suppliers must be entered into within the specified contracting period and deliveries must be made within the specified delivery period, unless an extension of such contracting period or delivery period is granted in writing by the Administrator.

(d) Each Form 480–A issued shall be deemed to include the following provisions:

(1) *Modification or revocation.* The Administrator reserves the right at any time and from time to time, and for any reason or cause whatsoever, to supplement, modify, or revoke any Form 480–A authorization (including the termination of deliveries thereunder). CCC shall reimburse suppliers for costs incurred in connection with firm sales contracts, and not otherwise recovered, as the result of such action by the Administrator: *Provided, however,* That such reimbursement shall not be made to a supplier if the Administrator determines that such action was taken by him because of failure

by such supplier to comply with the requirements of this program.

(2) *Refund to CCC.* The importing country shall pay in U. S. dollars promptly to CCC upon demand by the Administrator the entire amount financed (or such lesser amount as the Administrator may demand) whenever the Administrator determines that the importing country has violated any undertaking or failed to fulfill any commitment agreed to or made by it in connection with the transaction financed. An equivalent amount (at the agreed exchange rate) of the foreign currency, if deposited for that transaction, will be refunded to the importing country, except to the extent that any currency deposited under this program has been made available to the importing country on a grant basis.

(3) *Discounts.* If a contract provides for one or more discounts, only the invoice amount after discount (supplier's gross price less all discounts) will be eligible for financing.

(4) *Purchasing agent's commissions.* No commission paid or to be paid to an agent, broker, or other representative of an importer will be eligible for financing, whether included in the unit price of the commodity or separately stated.

(5) *Adjustment refunds and adjustment credits.* Any adjustment refund or credit in favor of the importer arising out of the terms of the contract or out of the normal customs of the trade, shall be made by the supplier direct to the importer in U. S. dollars. Upon determination of a claim for an adjustment, the supplier shall immediately give written notice to the CSS office named in the Form 480–A authorization, indicating the Form 480–A authorization number, the name and address of the importer, the date and amount of the original invoice, and the reason for the refund or credit and the amount thereof. The importing country shall pay in U. S. dollars promptly upon demand by the Administrator the amount paid or credited under any such claims. An equivalent amount (at the agreed exchange rate) of the foreign currency, if deposited for that transaction, will be refunded to the importing country.

(6) *Insurance payable to or for the account of the importer.* Where the supplier pays for out-turn, war risk or other marine insurance payable to or for the account of the importer, the policies of insurance shall provide that all claims shall be paid in U. S. dollars and that the underwriter shall notify the CSS office named in the Form 480–A authorization at the time a claim thereunder is paid, indicating the Form 480–A authorization number, the names and addresses of the supplier, importer and payee of the claim, the amount paid, the nature of the claim, the quantity of the commodity involved in the claim, the date of shipment, the bill of lading number, and the name of the vessel. The importing country shall pay in U. S. dollars promptly to CCC upon demand by the Administrator the amount paid under any such claim. An equivalent amount (at the agreed exchange rate) of the foreign currency, if deposited for that transaction, will be refunded to the importing country. This subparagraph applies only where the cost of insurance is covered by the unit price of the commodity pursuant to specific authorization in the applicable Form 480–A. Unless specifically authorized, the cost of insurance will not be financed by CCC and must not be covered by the unit price or net invoice price.

(7) *Ocean freight financed as part of the commodity price.* All export sales contracts requiring payment of ocean freight by the supplier shall provide that demurrage and dispatch both at point of loading and point of discharge, shall be for the account of the supplier. The contract may provide that the importer shall reimburse the supplier for any amount by which demurrage at the point of discharge exceeds dispatch at that point, but any such amount will not be financed by CCC. Discharge costs on shipments under any such contract may be for the account of the vessel only when in accordance with trade custom. This subparagraph applies only where the cost of ocean freight is covered by the unit price of the commodity pursuant to specific authorization in the applicable Form 480–A. In the absence of such specific authorization the cost of ocean freight must not be covered by the unit price or net invoice price.

(8) *Ocean freight financed separately from commodity price.* Reimbursement will not be made for demurrage incurred in excess of dispatch earnings. Amounts earned for dispatch shall be credited first against demurrage, if any, incurred in connection with the same voyage; the balance shall be refunded to CCC. Discharge costs may be for the account of the vessel only when in accordance with trade custom. This subparagraph applies only where the cost of ocean freight is financed separately from the commodity price pursuant to specific authorization in the applicable Form 480–A.

(9) *Airmail distribution of ocean bills of lading.* The importing country shall instruct importers to advise shippers to airmail at the time of loading two nonnegotiable copies (or photostats) of the on-board ocean bill of lading to the Administrator, FAS, U. S. Department of Agriculture, Washington 25, D. C.

(e) FAS will make public, with respect to each Form 480–A, information necessary to enable suppliers to initiate negotiations for sales under the program. Such information will be issued daily or as often as necessary in the form of a public release.

§ 11.5 *Sub-authorizations.* The importing country concerned will make sub-authorizations to importers within the terms of each Form 480–A. The importing country, in sub-authorizing, shall instruct the importer to use the Form 480–A number in placing orders, and shall specify to importers all of the provisions of the Form 480–A which are applicable to the sub-authorization. Each importer to whom a sub-authorization has been made by his Government must inform his supplier that the transaction is to be financed under the act and must give to his supplier the Form 480–A number that has been given to him. The importer must also inform his supplier of any special provisions which affect the supplier in carrying out the transaction. The supplier must put the Form 480–A number on all documents pertaining to the transaction.

§ 11.6 *Commodities eligible for financing.* (a) Only those commodities named in the Form 480–A authorizations will be eligible for financing thereunder. Stocks acquired from CCC under any other CCC program which requires exportation shall not be eligible for financing under this program. Commodities in connection with which financing is received hereunder shall not be eligible under any other export program of CCC or the U. S. Department of Agriculture, notwithstanding any provision of such other program, unless the applicable Form 480–A specifically provides for such eligibility.

(b) (1) If the supplier will be required to obtain the commodity (or its equivalent) from CCC stocks (i. e., stocks owned by, or pledged or mortgaged to, CCC), the Form 480–A authorization covering such commodity will so state and CCC (AMS or CSS) will issue an Announcement containing the terms and conditions under which supplier may purchase the commodity or its equivalent from CCC stocks, or the public release issued in connection with the Form 480–A will specify an existing Announcement under which such purchases shall be made. The stocks exported by the supplier in such a case must be the identical stocks so purchased unless the applicable Announcement authorizes the exportation of (i) private stocks equivalent to those purchased from CCC stocks or (ii) private stocks, with equivalent stocks to be purchased subsequently from CCC stocks by the supplier. The Announcement, in each case, will define "equivalent" as used therein in terms of value, quantity, and/or quality, and in terms of the unprocessed commodity equivalent of a processed commodity, if applicable. The Announcement will also specify the AMS or CSS offices in Washington or in the field which may be contacted for further details.

(2) If the supplier will not be required to obtain the commodity (or its equivalent) from CCC stocks, the Form 480–A authorization covering such commodity will so state. Announcements containing special terms and conditions applicable to the financing of such commodities may be issued by CCC (AMS or CSS) from time to time.

§ 11.7 *Methods of financing the sale and exportation of commodities.* Upon request therefor submitted by importing countries, the Controller, CCC, will issue letters of commitment to banking institutions, obligating CCC to make reimbursement for sight payments made by them through irrevocable commercial letters of credit (hereinafter referred to as "letters of credit") on behalf of an approved applicant. The amount of payments to be made to suppliers, for reimbursement by CCC, will vary under the following circumstances:

(a) If the supplier is required under the provisions of the Form 480–A authorization to obtain the commodity or

its equivalent from CCC stocks, the supplier as a condition of receiving payment under the letter of credit must furnish to the banking institution a statement on CCC Form 330, "Advice of Financial Arrangements", signed by the Director or Acting Director of any CSS office, to the effect that the supplier has obtained or made arrangements to obtain the commodity or its equivalent from CCC stocks. (Unless CCC Form 330 is furnished by the supplier, all payments under the letter of credit shall be made or credited to CCC.) CCC Form 330 will not be issued by CCC until a letter of credit in favor of the supplier has been issued or confirmed by the banking institution on behalf of an approved applicant named in a CCC letter of commitment. Under the letter of credit, the supplier shall be paid the amount of his net invoice price of the commodity sold and exported less any amount payable to CCC as stated on the CCC Form 330, and such amount payable to CCC shall be paid or credited to CCC as required by the letter of commitment. Final accounting, if necessary, will be made directly between CCC and the supplier as soon as possible after final export shipment is made by the supplier under the Form 480–A authorization. CCC may require payment in advance for commodities sold to suppliers or may require such other financial arrangements as CCC deems necessary to protect its interests, prior to issuance of CCC Form 330. The financial arrangements to be required in such cases will be included in the Announcement containing the terms and conditions under which suppliers will purchase the commodity or its equivalent from CCC stocks.

(b) If the supplier is not required under the provisions of the Form 480–A authorization to obtain the commodity or its equivalent from CCC stocks, the amount paid to the supplier shall be his net invoice price, expressed in dollars, of the commodity sold and delivered in export channels. The letter of commitment issued in such cases will specifically provide that the CCC Form 330 will not be required.

§ 11.8 *Letters of commitment to banking institutions.* (a) Letters of commitment issued by CCC to banking institutions under this program will assure reimbursement to the banking institution, not in excess of a specified amount in dollars and in accordance with the terms of such letter of commitment, for sight payments made under letters of credit for the account of an approved applicant. With respect to amounts payable to CCC under the letters of credit, the applicable letters of commitment may require the banking institution to credit such amounts in reduction of the obligation of CCC under such letters of commitment in lieu of disbursing such amounts to CCC and requesting reimbursement. Unless otherwise indicated, the word "payment" as used in this subpart includes the crediting of any such amount to CCC.

(b) The letter of commitment will name the Federal Reserve Bank to which drafts shall be submitted by the banking institution in order to obtain reimbursement of amounts paid under the letters of credit, and will name the CSS office which will administer the financing operation under the letter of commitment on behalf of CCC. Detailed advice of amounts paid under letters of credit (including amounts credited to CCC), upon such form as may be prescribed by the Controller, CCC, and signed by an officer of the banking institution, shall be forwarded (1) to the Federal Reserve Bank with the draft for reimbursement of such amounts or (2) to the CSS office, if such advice relates only to credits made to CCC.

(c) Payments by a banking institution made in anticipation of a letter of commitment and falling within the scope of payments authorized by such a letter of commitment when issued will be deemed to be payments to be reimbursed thereunder.

(d) Each letter of commitment issued to a banking institution shall be deemed to incorporate the following terms and provisions:

(1) The application or request for, and any agreement relating to, any letter of credit issued or confirmed under a letter of commitment to a banking institution, may be in such form and contain such terms and provisions as the approved applicant and banking institution may agree upon, and the approved applicant and banking institution may agree to any extension of the life of, or any other modification of, or variation from, the terms of any such letter of credit: *Provided*, That such terms and provisions and any such extension, modification or variance are in no respect inconsistent with or contrary to the terms and provisions of the letter of commitment, and in case of any inconsistency or conflict, the terms and provisions of the letter of commitment shall control. In any event every application for a letter of credit shall include the substance of the directions as to documentation required by this subpart to support payments made for the account of an approved applicant.

(2) Sight drafts drawn by the banking institution on CCC, and advices of amounts credited in reduction of CCC's obligation under the letter of commitment, shall be supported by the documents required by § 11.9 (a) and any additional documents specified in the applicable Form 480–A authorization or in the letter of commitment.

(3) The banking institution shall have no responsibility for the truth or accuracy of the statements contained in the supplier's certificate or invoice-and-contract abstract. The rights of the banking institution under the letter of commitment will not be affected by the fact that such abstracts may be incomplete, or may indicate non-compliance with any provision of this subpart, or of the Form 480–A authorization, or of the letter of commitment, or may be inconsistent with other required documents.

(4) The banking institution shall furnish the CSS office named in the letter of commitment a copy of each letter of credit issued or confirmed by it, and of any extension or modification thereof. Each letter of credit, modification, or extension shall bear the numbers and dates of the applicable letter of commitment and Form 480–A. The banking institution shall make available to the CSS office named in the letter of commitment, upon request, a copy of each application and agreement relating to such letter of credit; a copy of each document in its possession received by it under the letter of credit; and detailed advice of the interest, commissions, expenses, or other items charged by it in connection with each such letter of credit.

(5) Acceptance by the banking institution of any document in the ordinary course of business in good faith as being genuine and valid and sufficient in the premises, and the delivery thereof to the Federal Reserve Bank or the CSS office, as required, shall constitute full compliance by the banking institution with any provision of this subpart, the Form 480–A authorization, or the letter of commitment requiring delivery of a document of the sort that the document actually so delivered purports to be. The banking institution shall be entitled to receive and retain reimbursement of the amount of all payments made by it against documents so accepted, notwithstanding that such payments may be made in connection with a sale at a price in excess of the maximum specified in § 11.11.

(6) The Administrator reserves the right at any time and from time to time, and for any reason or cause whatsoever, to supplement, modify, or revoke a Form 480–A authorization (including termination of deliveries thereunder): *Provided, however*, That no supplement, modification or revocation shall become effective as to the banking institution until the receipt by it from the Controller, CCC, of written notice of such supplement, modification or revocation, and such supplement, modification or revocation shall in no event affect or impair the right of reimbursement to the extent of any payment made prior to receipt of such notice, or any irrevocable obligation incurred under a letter of credit issued or confirmed prior to receipt of such notice, for which the banking institution has not been repaid by the approved applicant (without, however, any obligation on its part to obtain such repayment). The term "Form 480–A" authorization as used in a letter of commitment shall be deemed to include each such supplement or modification from and after receipt by the banking institution from the Controller, CCC, of written notice of the same, subject always, however, to the foregoing terms and provisions preserving rights of reimbursement in its behalf.

(7) In the event the Administrator shall revoke such Form 480–A authorization or supplement or modify the same in relation to the disposition of any document or documents and the Controller, CCC, shall give the banking institution written notice thereof, the banking institution shall in all respects comply with the instruction of the Controller, CCC, to the extent it may do so without impairing or affecting any irrevocable obligation or liability theretofore incurred by it under any letter of credit issued or confirmed by it, and it shall be repaid and reimbursed by CCC for the costs, expenses and liabilities paid or incurred by it in relation to such instruction. Such repayment and reimbursement shall be made by CCC upon application therefor filed with the CSS office named in the letter of commitment and supported by an itemized statement of the costs, expenses and liabilities, certified to by an officer of the banking institution. The banking institution shall have no obligation or liability whatsoever to the approved applicant for anything done or omitted to be done by it pursuant to such instructions of the Controller, CCC.

(8) Unless the letter of commitment specifically provides otherwise, letters of credit issued or confirmed by the banking institution shall provide that the net amount of all invoices submitted by the supplier under such letters of credit shall be paid or credited to CCC by the banking institution unless a lesser amount is specified on CCC Form 330, "Advice of Financial Arrangements."

(9) The letter of commitment shall inure to the benefit of the banking institution's legal successors and assigns.

§ 11.9 *Documentation*—(a) *Commodity cost (including ocean freight and insurance where financed as part of the commodity cost).* Drafts drawn on CCC by banking institutions for reimbursement of payments made under letters of credit, and advices of credits made to CCC, must be supported by the following documents (each of which must be identified by the appropriate Form 480–A authorization number), except when and to the extent specifically waived in writing by the Controller, CCC.

(1) Supplier's certificate, in duplicate, with invoice-and-contract abstract on the reverse side (CCC Form 329), covering the supplier's net invoice price expressed in dollars. The supplier's certificate, only the original of which should be signed, is as follows:

COMMODITY CREDIT CORPORATION FORM 329
NOVEMBER 1, 1954

SUPPLIER'S CERTIFICATE

The supplier hereby acknowledges notice that the sum indicated on the accompanying invoice as claimed to be due and owing under the terms of the underlying contract, is to be paid out of funds made available by the Commodity Credit Corporation under the Agricultural Trade Development and Assistance Act of 1954 and further certifies and agrees with CCC as follows:

(1) The supplier is entitled under said contract to the payment of the claimed sum, and he will promptly make appropriate refund to the CSS office named in the Form 480–A authorization in the event of his nonperformance, in whole or in part, under said contract, or for any breach by him of the terms of this certificate.

(2) Adjustment refunds or credits arising out of the terms of the contract or the customs of the trade shall be made direct to the buyer by the supplier but the supplier shall promptly notify the CSS office concerning any such adjustment refunds or credits so that appropriate refund may be obtained from the importing country. If any adjustment results in an additional charge to the importer, the supplier will promptly notify the CSS office of such additional charge.

(3) The supplier is in compliance with any conditions and requirements of the Form 480–A authorization with respect to the purchase of commodities from CCC stocks prior to exportation.

(4) The supplier is the producer, processor, or exporter of, or a regular dealer in, the commodity, or is the ocean carrier who furnished transportation under said contract, and has not employed any person to obtain said contract under any agreement for a commission, percentage, or contingent fee, except to the extent, if any, of the payment of a commission to a bona fide established commercial or selling agent employed by the supplier as disclosed on the reverse of this form.

(5) The supplier has not given or received and will not give or receive by way of side payment, "kickbacks," or otherwise, any benefit in connection with said contract except as is disclosed on the reverse of this form, or as is the result of the adjustments referred to in paragraph (2) above.

(6) Unless authorized by the applicable Form 480–A, the net invoice price does not contain any amount to cover the cost of ocean freight or insurance.

(7) If the applicable Form 480–A so authorizes and the export sales contract requires payment by the supplier of ocean freight or ocean freight and insurance, any net dispatch earnings are for the account of the supplier under such contract; discharge costs are for the account of the vessel only if in accordance with trade custom; and the policies of insurance contain a provision requiring the underwriter to notify the CSS office of any claim paid.

(8) If the supplier is the producer, or processor of a commodity, said contract is not a cost plus-a-percentage-of-cost contract.

(9) On the basis of information contained from such sources as are available to the supplier, and to the best of his information and belief, the commodity was grown in the United States and, if processed, such processing was performed in the United States. (This certification is not required where the commodities exported were the identical commodities purchased from CCC.)

(10) On the basis of information obtained from such sources as are available to the supplier, and to the best of his information and belief, his sales price is no higher than the maximum specified in the applicable regulations of the U. S. Department of Agriculture or in the Form 480–A authorization.

(11) The supplier has complied with the applicable requirements of said regulations, and has allowed all discounts, including discounts for quantity purchases and prompt payment, customarily allowed his other customers similarly situated.

(12) If the supplier is an ocean carrier, he shall not be deemed to certify to paragraphs (3), (6), (7), (9), (10) and (11) but instead certifies that the rate indicated on the reverse of this form for ocean transportation does not exceed the prevailing rate for similar freight contracts or the rate paid to the supplier for similar services by other customers similarly situated.

(13) The supplier has filled in the applicable portions of the invoice-and-contract abstract on the reverse hereof, certifies to the correctness of the information shown therein, and will furnish promptly to the CSS office, upon request, such additional information in such form as the CSS office may require concerning price or any other details of the contract.

(Date)

(Authorized signature)

(Title)

NOTE: Any amendments, deletions of applicable provisions, or substitutions will invalidate this certificate.

Before executing the supplier's certificate, the supplier shall fill in the invoice-and-contract abstract on the reverse side in accordance with the instructions attached to the form. The information required by the abstract is generally as follows:

(i) Invoice information, including the supplier's name and address, the importer's name and address, and detailed billing and shipping data.

(ii) Information relating to agents' commissions paid or to be paid.

(iii) Contract and price information expressed in dollars including a reconciliation of the contract and invoice prices applicable.

(2) One non-negotiable copy (or photostat) of on-board bill of lading or, in the case of export rail or truck shipment, one copy of Shipper's Export Declaration authenticated by the appropriate U. S. Customs official.

(3) Two copies (or photostats) of supplier's detailed invoice showing quantity, description, gross sales price and net sales price expressed in dollars (after deducting all discounts and purchasing agents' commissions applicable), and basis of delivery (e. g., f. o. b. vessel, c. i. f., etc.) of the commodities, and either marked "Paid" by the supplier or endorsed by, or accompanied by a certificate of, an officer of the banking institution indicating that payment has been made in the amount shown on the invoice.

(4) One copy of CCC Form 330, "Advice of Financial Arrangements", if applicable (see § 11.8 (d) (8)), which shall be submitted to the Federal Reserve Bank or to the CSS office, as required, with the documents covering the last shipment under the letter of credit.

(5) One copy of CCC Form 106, "Advice of Vessel Approval."

(6) Such additional or substitute documentation, if any, as may be required for reimbursement by the Form 480–A authorization or letter of commitment.

(b) *Cost of ocean transportation where financed separately from commodity cost.* Requests by importing countries to CCC, pursuant to § 11.12 (c) (2), for reimbursement of payments made for ocean transportation, must be supported by the following documents, (each of which must be identified by the appropriate Form 480–A authorization number) except when and to the extent specifically waived in writing by the Controller, CCC:

(1) Supplier's certificate, in duplicate, with invoice-and-contract abstract on the reverse side (CCC Form 329), to be executed by the carrier, covering the dollar cost of ocean transportation.

(2) One non-negotiable copy (or photostat) of on-board ocean bill of lading.

(3) Two copies (or photostats) of carrier's detailed invoice marked "Paid".

(4) One copy of CCC Form 106, "Advice of Vessel Approval".

(5) Such additional or substitute documentation, if any, as may be required by the Form 480–A authorization.

§ 11.10 *Responsibilities of banking institutions.* (a) Documents required to

support advices of credits to CCC and to support drafts for reimbursement are enumerated in § 11.9 (a). Such documents, in either case, are referred to in this section as "required documents".[1] Any additional documents required with respect to any particular transaction will be specified as such in the Form 480–A authorization related to that transaction and to the corresponding letter of commitment, or in the letter of commitment itself. A banking institution holding a letter of commitment is not required by CCC to obtain any documents other than those enumerated in § 11.9 (a) and any additional documents so specified.

(b) A banking institution is not responsible for the truth or accuracy of the statements contained in any of the required documents. A banking institution is not obliged to look beyond these documents nor to make independent investigation as to the accuracy of statements made therein.

(c) (1) A banking institution's examination of the required documents must be made in accordance with good commercial practice. A banking institution is responsible for ascertaining that the required documents are consistent with the related Form 480–A authorization and letter of commitment in the following particulars, and no others:

(i) Delivery, to the extent described in paragraph (d) of this section;

(ii) Destination, to the extent described in paragraph (e) of this section;

(iii) Description, to the extent described in paragraph (f) of this section;

(iv) Discounts and purchasing agents' commissions, to the extent described in paragraph (g) of this section;

(v) Amounts to be paid or credited to CCC, to the extent described in paragraph (h) of this section.

(vi) Vessel approval, to the extent described in paragraph (i) of this section.

(vii) If the banking institution is to be responsible for any additional particulars, these will be specified in the Form 480–A authorization or letter of commitment as addition required documents or as additional statements to be contained in the required documents.

(2) The right of reimbursement for payments made by a banking institution in accordance with good commercial practice will not be affected by the information contained in the invoice-and-contract abstract, nor, except with respect to those particulars listed in subparagraph (1) (i) through (vii) of this paragraph, by the fact that the other documents received by the banking institution or information or notice received from any other source indicate noncompliance with any provision of this subpart, or of the Form 480–A or the letter of commitment.

(3) The foregoing shall not be construed to limit any rights CCC may have against a supplier by reason of statements contained in the supplier's certificate, nor against an importing country under § 11.4 (d) (2).

[1] In paragraphs (c), (e), (f) and (g) of this section, the phrase "required documents" does not include the invoice-and-contract abstract, as to which see § 11.9 (a) (1).

(d) Section 11.4 (c) permits delivery under the Form 480–A authorization at any time within the delivery period specified in the Form 480–A authorization. If any of the documents specified in § 11.9 (a) (2) or in the Form 480–A authorization or in the letter of commitment are dated at any time within that period or any extension thereof granted by the Administrator, they are acceptable.

(e) The Form 480–A authorization will show the importing country. If the required documents are consistent, under good commercial practice, with shipment or transshipment to such country, they are acceptable.

(f) The Form 480–A authorization will describe the commodity. In issuing or confirming letters of credit, a banking institution should see that the commodity description is not inconsistent with the description in the Form 480–A authorization. In making payments under letters of credit the banking institution shall act in accordance with good commercial practice, based on the description contained in the required documents.

(g) A banking institution is not required to make independent inquiry as to whether an invoice price includes either discounts, or commissions payable to purchasing agents, but should not make payment of any such items when disclosed by the required documents.

(h) Unless the letter of commitment specifically provides otherwise, the banking institution is responsible for paying, or if required by the letter of commitment for crediting, CCC with the net amount of the invoice(s) if CCC Form 330, "Advice for Financial Arrangements", is not submitted. If CCC Form 330 is submitted, the banking institution is not required to verify the signature appearing thereon, or to make an independent inquiry as to the correctness of the information shown on the form; the banking institution is responsible for paying or crediting CCC with any amount shown on the CCC Form 330.

(i) The banking institution shall not make payment under the letter of credit unless the name of the vessel shown on the CCC Form 106, "Advice of Vessel Approval", is identical with the name of the vessel shown on the bill of lading. The banking institution is not required to verify the signature appearing on the form or to make an independent inquiry as to the correctness of the information shown thereon.

(j) (1) Section 11.4 sets forth certain provisions to be deemed incorporated in each Form 480–A authorization. The documents required by § 11.9 (a) includes a supplier's certificate showing compliance with some of these provisions. A banking institution is entitled to rely on such certificate. Special certificates may also be required by the terms of particular Form 480–A authorizations or letters of commitment; in such cases, a banking institution is entitled to rely on such certificates.

(2) Certain other provisions of § 11.4 are included solely for the instruction of suppliers, purchasers, and the participating countries themselves, and are not matters for which banks are to assume responsibility. In this category are the provisions of § 11.4 (d) (5), (6), (7), (8) and (9).

(k) Banking institutions financing transactions under letters of commitment are not required to assume responsibility for compliance with the provisions of § 11.4 (c) with respect to the period within which contracts may be entered into.

(l) Section 11.13 contains provisions concerning use of the Form 480–A authorization number, placement of orders, and delivery dates. Banking institutions financing transactions under letters of commitment are not required to assume responsibility for compliance with this section.

(m) The letter of commitment constitutes an obligation to reimburse banking institutions for any drafts negotiated under letters of credit prior to the date of maturity, if any, specified in the letter of commitment, even though such drafts are paid after such date.

(n) Upon demand therefor made by the CSS office named in the letter of commitment, the banking institution shall promptly reimburse CCC for any losses sustained as a direct result of failure on the part of the banking institution to carry out its responsibilities as required by this section.

§ 11.11 *Price provisions.* (a) The supplier's sales price must not exceed the prevailing range of export market prices (or such other maximum price level as may be specified in the Form 480–A authorization) as applied to the method of sale involved, at the time of sale. "Time of sale" shall mean the day as of which the sales price, or the method for determining the price, is established between the importer and the supplier.

(b) In the event the sales price exceeds the maximum permissible under paragraph (a) of this section, the supplier shall refund the amount of such excess to CCC promptly after determination and notification of the amount thereof by CCC. Any appropriate refund of foreign currency will be made to the importing country. If not promptly refunded, such amount may be set-off by CCC against any monies owed by it to the supplier. The making of any such refund to CCC, or any such set-off by CCC shall not, however, prejudice the right of the supplier to challenge the correctness of such determination in a court action brought against CCC for recovery of the amount refunded or set-off.

(c) No claim shall be asserted by CCC under this section unless the supplier is notified of such claim and of the amount thereof within 90 days after the earlier of (1) receipt by CCC of proof of the export sale certified by the supplier and showing the date of sale, the grade and quality of the commodity, the unit price and the price basis or (2) the date the required documents are presented to the banking institution by the supplier.

§ 11.12 *Ocean transportation.* (a) unless otherwise specifically provided in the applicable Form 480–A, the terms of all charters (whether single voyage charters, consecutive voyage charters or time charters) and the terms of all liner bookings must be submitted to the Director, Transportation and Warehousing Division, CSS, U. S. Department of Agriculture, Washington 25, D. C., for review and approval prior to the fixture of vessels. Such submission shall be made on CCC Form 105 "Ocean Shipment Data—Title I, P. L. 480". Approvals of charters and liner bookings will be given on CCC Form 106 "Advice of Vessel Approval", signed by the Director or the Acting Director of the Transportation and Warehousing Division. A copy of each charter party and ocean booking contract shall be forwarded to the Director of the Transportation and Warehousing Division.

(b) If the Form 480–A requires that a part of the commodity be shipped on privately owned United States-flag commercial vessels, suppliers or shippers must obtain from the Director or Acting Director of the Transportation and Warehousing Division a determination as to the quantity of the commodity, under each sale, which must be shipped on United States-flag vessels. Where it is required that the commodity be shipped on a United States-flag vessel the Form 106 will set forth the amount of the ocean freight differential, if any, which CCC will recognize as existing between the prevailing foreign-flag vessel rate and the United States-flag vessel rate.

(c) CCC will not finance the cost of ocean transportation on flag vessels of the importing country either as part of the commodity cost (i. e., c. i. f., c & f.) or separate therefrom. The cost of ocean transportation will be financed by CCC on flag vessels of other than the importing country only when specifically provided for in the applicable Form 480–A authorization. Where ocean transportation is so provided for, the following shall apply:

(1) Where ocean transportation is covered by the commodity unit price, CCC will pay the amount of the ocean freight differential, if any, stated on the Form 106, for the tonnage involved, directly to the supplier of the commodity. Such payment will be made by the CSS office named in the Form 480–A, upon presentation of proper invoice.

(2) Where the ocean transportation is procured separate from the commodity, CCC, upon presentation to the Fiscal Division, CSS, U. S. Department of Agriculture, Washington 25, D. C., of the documents required under § 11.9 (b), will reimburse the importing country for payments made for ocean transportation, subject to the following conditions:

(i) The rate charged by the supplier of ocean transportation shall not exceed the prevailing rate for similar freight contracts.

(ii) Reimbursement will be made for the cost of shipment from points of loading to points of discharge at rates established in the applicable charter party or ocean booking contract, but not to exceed, in the case of dry cargo liner shipments, the conference rate for such service, if any.

(iii) In the case of dry bulk cargo shipments, reimbursement will be made of 90 percent of the cost of the shipment on presentation of documents covering at least 90 percent of the cost of the shipment, and the balance, if any, supported by the vessel's signed laytime statement(s) will be paid after final settlement of dispatch/demurrage claims.

(iv) Loading, trimming and other related shipping expenses will not be financed by CCC as items separate from ocean freight. Discharge costs may be covered by the ocean freight financed by CCC only when in accordance with trade custom.

(v) The importing country will not be required to deposit foreign currency for the amount of ocean freight differential, stated on the Form 106, for the tonnage involved.

(d) CCC will not finance the cost of ships' dollar disbursements.

§ 11.13 *Additional responsibilities of importers and suppliers.* (a) Each importer to whom a sub-authorization has been made by his Government must inform his supplier that the transaction is to be financed under the act and must give to his supplier the Form 480–A number that has been given to him. The importer must also inform his supplier of any special provisions which affect the supplier in carrying out the transaction.

(b) The supplier must put the Form 480–A number on all documents required by § 11.9 (a).

(c) An importer must comply with the contract and delivery dates specified in his sub-authorization by the importing country. A supplier must not accept orders identified by a Form 480–A number unless he expects to comply with the contract and delivery dates specified.

(d) It is the responsibility of the supplier to assure that he does not make shipments or deliveries of commodities prior to the issuance or confirmation by a banking institution in the United States of an irrevocable commercial letter of credit in his favor.

(e) The rate of exchange and the deposit to the account of the United States of the foreign currency purchase price of the commodity will be arranged between the Governments of the United States and the importing country. The supplier will not be responsible for assuring that the foreign currency is so deposited.

§ 11.14 *Saving clause.* The Administrator, if he deems such action desirable in order to accomplish the purposes of the act, may waive, withdraw, or amend at any time, or from time to time any or all of the provisions of this subpart.

§ 11.15 *CSS Commodity Offices.* The addresses of the CSS Commodity Offices are as follows:

CSS Commodity Office, U. S. Department of Agriculture, 623 South Wabash Avenue, Chicago 5, Ill.

CSS Commodity Office, U. S. Department of Agriculture, 3306 Main Street, Dallas 26, Tex.

CSS Commodity Office, U. S. Department of Agriculture, Fidelity Building, 911 Walnut Street, Kansas City 6, Mo.

CSS Commodity Office, U. S. Department of Agriculture, 1006 West Lake Street, Minneapolis 8, Minn.

CSS Commodity Office, U. S. Department of Agriculture, 515 Southwest Tenth Ave., Portland 5, Oreg.

CSS Commodity Office, U. S. Department of Agriculture 1010 Broadway, Cincinnati 2, Ohio.

CSS Commodity Office, U. S. Department of Agriculture, Wirth Bldg., 120 Marais St., New Orleans 16, La.

Done at Washington, D. C., this 19th day of November 1954. Witness my hand and the seal of the Department of Agriculture.

[SEAL] EARL L. BUTZ,
Acting Secretary of Agriculture.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 6210]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

K. C. SNOW CROP DISTRIBUTORS, INC., ET AL.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Payment or acceptance of commission, brokerage or other compensation under 2 (c): § 3.800 *Buyers' agents.* I. In connection with the purchase of food products in commerce, and on the part of respondent, Stoops & Wilson Brokerage Co., and its officers, and on the part of the individual respondents, Wendell R. Stoops and G. Arlon Wilson, individually and as officers of said Stoops & Wilson Brokerage Co., and their respective representatives, etc., receiving or accepting, directly or indirectly, from any seller, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon any purchase of food products by or for the account of K. C. Snow Crop Distributors, Inc., where either of the respondents G. Arlon Wilson or Wendell R. Stoops, or both, are the agents, representatives, or other intermediaries acting for, or in behalf of, or are subject to the direct or indirect control of the said K. C. Snow Crop Distributors, Inc., or any other buyer; and II, in connection with the purchase of food products in commerce, and on the part of respondent, K. C. Snow Crop Distributors, Inc., and its officers, and on the part of said individual respondents, G. Arlon Wilson and Wendell R. Stoops, individually and as either officers or majority stockholders of said corporation, and on the part of their respective representatives, etc., receiving or accepting, directly or indirectly, from any seller anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon any purchase of food products by or for the account of K. C. Snow Crop Distributors, Inc., or where either of the respondents G. Arlon Wilson or Wendell R. Stoops, or both, are the agents, representatives, or other intermediaries acting for, or in behalf of, or are subject to the direct or indirect control of the said K. C. Snow Crop Distributors, Inc., or any other buyer; prohibited.

(Secs. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13) [Cease and desist order, K. C. Snow Crop Distributors, Inc., et al., Kansas City Mo., D. 6210, Oct. 28, 1954]

In the Matter of K. C. Snow Crop Distributors, Inc., a Corporation; Stoops & Wilson Brokerage Company, a Corporation; G. Arlon Wilson, Individually and as Vice President of Stoops & Wilson Brokerage Company; Wendell R. Stoops, Individually and as President of Stoops & Wilson Brokerage Company

This proceeding was heard by John Lewis, hearing examiner, upon the complaint of the Commission which charged respondents with having violated section 2 (c) of the Clayton Act, as amended by the Robinson-Patnam Act, and upon a stipulation for consent order, entered into by respondents, which provided that respondents admitted all the jurisdictional allegations of the complaint and waived the requirement for issuance of a decision containing findings of fact and conclusions of law, and further procedural steps before the hearing examiner and the Commission to which respondents might be entitled under the Clayton Act, as amended, or the rules of practice of the Commission.

By the terms of said stipulation respondents consented to the entry of an order to cease and desist in the form therein provided for, with the same force and effect as if said order had been made after a full hearing, presentation of evidence, and findings and conclusions thereon, and waived any and all right, power, or privilege to challenge or contest the validity of said order, it being further provided by said stipulation that the signing thereof and consent by respondents to the entry of the aforesaid order was for settlement purposes only and did not constitute an admission of any facts, other than those pertaining to jurisdiction, or that respondents had violated the law as alleged in the complaint.

Thereafter, the aforesaid stipulation for consent order and an accompanying affidavit of respondent G. Arlon Wilson having been submitted to said hearing examiner, theretofore duly designated by the Commission, for appropriate action in accordance with Rule V of the Commission's rules of practice, and it appearing to said examiner that said stipulation afforded the basis for an appropriate disposition of the proceeding, said stipulation and accompanying affidavit were accepted and ordered filed as part of the record in the proceeding and in accordance therewith said hearing examiner made his initial decision [1] setting forth the aforesaid matters, his jurisdictional findings,[1] and his order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII of the Commission's rules of practice, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order, accordingly, under the provisions of said Rule XXII became the decision of the Commission on October 28, 1954.

Said order is as follows:

It is ordered, That the respondent, Stoops & Wilson Brokerage Company, a corporation, its officers, and the individual respondents Wendell R. Stoops and G. Arlon Wilson, individually and as officers of said Stoops & Wilson Brokerage Company, and their respective representatives, agents, and employees, directly or indirectly, or through any corporate or other device in connection with the purchase of food products in commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from receiving or accepting, directly or indirectly, from any seller, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon any purchase of food products by or for the account of K. C. Snow Crop Distributors, Inc., where either of the respondents G. Arlon Wilson or Wendell R. Stoops, or both, are the agents, representatives or other intermediaries acting for, or in behalf of, or are subject to the direct or indirect control of the said K. C. Snow Crop Distributors, Inc., or any other buyer.

It is further ordered, That the respondent, K. C. Snow Crop Distributors, Inc., a corporation, its officers and the individual respondents, G. Arlon Wilson and Wendell R. Stoops, individually and as either officers or majority stockholders of said corporation, and their respective representatives, agents and employees, directly or through any corporate or other device, in connection with the purchase of food products in commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from receiving or accepting, directly or indirectly, from any seller anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon any purchase of food products by or for the account of K. C. Snow Crop Distributors, Inc., or where either of the respondents G. Arlon Wilson or Wendell R. Stoops, or both, are the agents, representatives, or other intermediaries acting for, or in behalf of, or are subject to the direct or indirect control of the said K. C. Snow Crop Distributors, Inc., or any other buyer.

By "Decision of the Commission and Order to File Report of Compliance", Docket 6210, October 28, 1954, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: October 28, 1954.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[Docket 6213]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

O. A. SUTTON CORP.

Subpart—*Advertising falsely or misleadingly:* § 3.170 *Qualities or properties of product or service.* In connection with the offering for sale, sale, or distribution of electric fans in commerce, representing, directly or by implication, the ventilating capacity or ventilating performance of respondent's said fans, through the use of a numerically expressed rating or otherwise, which rating or other statement as to capacity or performance is in excess of the amount of cubic feet of air per minute that such fan is capable of drawing through its blades under ordinary operating conditions, into or away from any place or area to be ventilated; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, O. A. Sutton Corporation, Wichita, Kans., Docket 6213, Nov. 4, 1954]

This proceeding was heard by Abner E. Lipscomb, hearing examiner, upon the complaint of the Commission which charged respondent with false and misleading advertising in the offer and sale of its "Vornado Turnabout Window Fans", in violation of the Federal Trade Commission Act; and upon a stipulation for consent order, submitted in lieu of an answer, entered into by respondent with counsel supporting the complaint, and duly approved by the Director and Assistant Director of the Bureau of Litigation.

By the terms of said stipulation respondent admitted all the jurisdictional allegations in the complaint and stipulated that the record in the matter might be taken as if the Commission had made findings of jurisdictional facts in accordance with such allegations; expressly waived the filing of an answer to the complaint and further proceedings before the hearing examiner and the Commission; agreed that the order contained in said stipulation should have the same force and effect as if made after a full hearing, presentation of evidence and findings and conclusions thereon, and expressly waived all right, power, and privilege to contest the validity of said order.

Said stipulation further provided that the complaint might be used in construing the terms of the order contained therein, and that said order might be altered, modified, or set aside in the manner prescribed by statute for orders of the Commission, and agreed also that said stipulation, together with the complaint in the matter, should constitute the entire record in the proceeding—interpreted by said examiner in his initial decision, for reasons there stated, as meaning that it was agreed that the complaint and stipulation for consent order should constitute the entire record upon which the initial decision in the matter should be based.

Noting in his said initial decision in which he set forth the aforesaid matters, the further agreement in said stipulation that the order contained therein might be entered without further notice upon the record, in disposition of the proceeding, and that the additional inclusion of the word "ventilating" in said order served merely to clarify the limitations of the default order appended to the complaint, he concluded that said stipulation for consent order should be accepted and that such action, together with the issuance of the order contained in the stipulation, would resolve all the issues arising by reason of the complaint in the proceeding, and would safeguard the public interest to the same extent as could be accomplished by full hearing and all other adjudicative procedure waived in said stipulation; and accordingly, in consonance with the terms of said agreement, accepted the stipulation for consent order submitted, and issued order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII of the Commission's rules of practice, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision,[1] including said order, accordingly, under the provisions of said Rule XXII became the decision of the Commission on November 4, 1954.

Said order is as follows:

It is ordered, That respondent O. A. Sutton Corporation, a corporation, and its officers, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of electric fans in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or by implication, the ventilating capacity or ventilating performance of its said fans, through the use of a numerically-expressed rating or otherwise, which rating or other statement as to capacity or performance is in excess of the amount of cubic feet of air per minute that such fan is capable of drawing through its blades under ordinary operating conditions, into or away from any place or area to be ventilated.

By "Decision of the Commission and Order to File Report of Compliance", Docket 6213, November 4, 1954, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That respondent O. A. Sutton Corporation, a corporation, shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: November 4, 1954.

By the Commission.

[Docket 6216]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

WOOSTER RUBBER CO.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Payment for services or facilities for processing, or sale, under 2 (d): § 3.825 *Allowances for services or facilities;* [*Discriminating in price under section 2, Clayton Act, as amended*]—furnishing services or facilities for processing, handling, etc., under 2 (e): § 3.830 *Furnishing services or facilities.* In, or in connection with, the offering for sale, sale, or distribution of household or kitchen or automobile accessories or equipment made of rubber, or of which rubber is a part, or any other household or kitchen or automobile accessories or equipment, in commerce: (a) Paying, or contracting for the payment of, anything of value to or for the benefit of any customer of respondent as compensation or in consideration for any advertising services or facilities furnished by or through such customer in connection with the processing, handling, sale, or offering for sale of any products manufactured or sold by respondent, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products; (b) discriminating, directly or indirectly, among competing purchasers of its products, by contracting to furnish, or furnishing, or contributing to the furnishing of any demonstrator services or facilities connected with the processing, handling, sale, or offering for sale of any products manufactured or sold by respondent to any purchaser upon terms not accorded to all competing purchasers on proportionally equal terms; and (c) the commission of any other like or related acts or practices to those set forth in prohibitions (a) and (b) above; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13). [Cease and desist order, Wooster Rubber Company, Wooster, Ohio, Docket 6216, Oct. 31, 1954]

This proceeding was heard by William L. Pack, hearing examiner, upon the complaint of the Commission, which charged respondent with violation of subsections (d) and (e) of Section 2 of the Clayton Act, as amended, in connection with the making of advertising allowances and the furnishing of demonstrator services incident to the sale of respondent's "Rubbermaid" kitchen and household accessories and automobile mats; and upon a stipulation entered into by respondent and counsel supporting the complaint.

Said stipulation provided, among other things, that respondent admitted all of the jurisdictional allegations of the complaint; that the filing of an answer thereto was waived; that the complaint and stipulation should constitute the entire record in the proceeding; and that the inclusion of findings of fact and conclusions of law in the decision disposing of the matter was also waived, together with any further procedural steps before the hearing examiner and the Commission to which respondent might be entitled under the Clayton Act, as amended, or the rules of practice of the Commission.

By said stipulation it was further provided that the order set forth might be entered in disposition of the proceeding, with the same force and effect as if made after a full hearing, presentation of evidence and findings and conclusions thereon, respondent specifically waiving any and all right, power, and privilege to challenge or contest the validity thereof; that the complaint might be used in construing the terms of the order; that it might be altered, modified, or set aside in the manner provided by statute for other orders of the Commission; and that the signing of the stipulation was for settlement purposes only and did not constitute an admission by respondent that it had violated the law as alleged in the complaint.

Thereafter said examiner made his initial decision in which he set forth the aforesaid matters and that the stipulation was accepted and made a part of the record, and issued order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII of the Commission's rules of practice, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision,[1] including said order, accordingly, under the provisions of said Rule XXII became the decision of the Commission on October 31, 1954.

Said order is as follows:

It is ordered, That respondent, Wooster Rubber Company, a corporation, directly or indirectly, through its officers, directors, agents, representatives or employees, or through any corporate or other device, or otherwise, in, or in connection with, the offering for sale, sale or distribution of household or kitchen or automobile accessories or equipment made of rubber, or of which rubber is a part, or any other household or kitchen or automobile accessories or equipment, in commerce, as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from:

(a) Paying, or contracting for the payment of, anything of value to or for the benefit of any customer of respondent as compensation or in consideration for any advertising services or facilities furnished by or through such customer in connection with the processing, handling, sale or offering for sale of any products manufactured or sold by respondent, unless such payment or consideration is available on proportionally equal terms to all other customers competing in the distribution of such products.

(b) Discriminating, directly or indirectly, among competing purchasers of its products, by contracting to furnish, or furnishing or contributing to the furnishing of any demonstrator services or facilities connected with the processing, handling, sale or offering for sale

[1] Filed as part of the original document.

[F. R. Doc. 54-9235; Filed, Nov. 22, 1954; 8:45 a. m.]

be entered without further notice upon

of any products manufactured or sold by respondent to any purchaser upon terms not accorded to all competing purchasers on proportionally equal terms.

(c) The commission of any other like or related acts or practices to those herein set forth in paragraphs (a) and (b) of this order.

By "Decision of the Commission and Order to File Report of Compliance", Docket 6216, October 29, 1954, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondent herein shall within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: October 29, 1954.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[Docket 6217]

PART 3—DIGEST OF CEASE AND DESIST ORDERS[1]

BRONCO MFG. CORP. ET AL.

Subpart—*Misbranding or mislabeling:* § 3.1330 *Specifications or standards conformance.* In the offering for sale, sale, or distribution of wearing apparel in commerce, or of any other garments, representing, directly or by implication, by marking, branding, labeling, tagging, or in any other manner contrary to fact, that such merchandise was manufactured for the Armed Forces of the United States or in accordance with specifications of said Armed Forces; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, Bronco Mfg. Corp. et al., New York, N. Y., Docket 6217, Oct. 28, 1954]

In the Matter of Bronco Mfg. Corp., a Corporation, and Murray Spiewak and Peter Spiewak, Individually and as Officers of Said Corporation.

This proceeding was heard by John Lewis, hearing examiner, upon the complaint of the Commission which charged respondents with the use of unfair and deceptive acts and practices and unfair methods of competition in commerce in violation of the provisions of the Federal Trade Commission Act, and upon a stipulation for consent order, entered into by them, which provided that the answer theretofore filed by them was withdrawn and expressly waived a hearing before a hearing examiner or the Commission, the making of findings of fact or conclusions of law by the hearing examiner or the Commission, and the filing of exceptions and oral argument before the Commission, and all further and other procedure before the hearing examiner or the Commission to which respondents might be entitled under the Federal Trade Commission Act or the rules of practice of the Commission.

By the terms of said stipulation, respondents consented to the entry of an order to cease and desist in the form therein provided for, to have the same force and effect as if made after a full hearing, presentation of evidence, and findings and conclusions thereon, and respondents waived any and all right, power, or privilege to challenge or contest the validity of said order, it being further provided by said stipulation that the signing thereof was for settlement purposes only and did not constitute an admission of violation by respondents, except that respondents admitted all the jurisdictional allegations of the complaint.

Thereafter, it appearing that said stipulation, which had been submitted to said hearing examiner, theretofore duly designated by the Commission, for his consideration in accordance with Rule V of the Commission's rules of practice, provided for an appropriate disposition of the proceeding, said stipulation was accepted and ordered filed as part of the record in the matter by said examiner, who, after considering the complaint and said stipulation, found that the proceeding was in the interest of the public, and made his initial decision[1] setting forth the aforesaid matters, his jurisdictional findings,[1] and his order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII of the Commission's rules of practice, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order, accordingly, under the provisions of said Rule XXII became the decision of the Commission on October 28, 1954.

Said order is as follows:

It is ordered, That respondents Bronco Mfg. Corp., a corporation, and Murray Spiewak and Peter Spiewak, individually and as officers of said corporate respondent and respondents' agents, representatives, and employees, directly or through any corporate or other device, in the offering for sale, sale or distribution of wearing apparel in commerce, as "commerce" is defined in the Federal Trade Commission Act, or of any other garments, do forthwith cease and desist from representing, directly or by implication, by marking, branding, labeling, tagging, or in any other manner contrary to fact, that such merchandise was manufactured for the Armed Forces of the United States or in accordance with specifications of said Armed Forces.

By "Decision of the Commission and Order to File Report of Compliance", Docket 6217, October 28, 1954, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: October 28, 1954.

By the Commission.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

I. SPIEWAK & SONS, INC., ET AL.

Subpart—*Misbranding or mislabeling:* § 3.1330 *Specifications or standards conformance.* In the offering for sale, sale, or distribution of wearing apparel in commerce, or of any other garments, representing, directly or by implication, by marking, branding, labeling, tagging, or in any other manner contrary to fact, that such merchandise was manufactured for the Armed Forces of the United States or in accordance with specifications of said Armed Forces; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, I. Spiewak & Sons, Inc., et al., New York, N. Y., Docket 6220, Oct. 19, 1954]

In the Matter of I. Spiewak & Sons, Inc., a Corporation, and Philip Spiewak, Gerald Spiewak, and Robert Spiewak, Individually and as Officers of Said Corporation

This proceeding was heard by John Lewis, hearing examiner, upon the complaint of the Commission which charged respondents with the use of unfair and deceptive acts and practices and unfair methods of competition in commerce in violation of the provisions of the Federal Trade Commission Act, and upon a stipulation for consent order, entered into by them, which provided that the answer theretofore filed by them was withdrawn and expressly waived a hearing before a hearing examiner or the Commission, the making of findings of fact or conclusions of law by the hearing examiner or the Commission, and the filing of exceptions and oral argument before the Commission, and all further and other procedure before the hearing examiner or the Commission to which respondents might be entitled under the Federal Trade Commission Act or the rules of practice of the Commission.

By the terms of said stipulation, respondents consented to the entry of an order to cease and desist in the form therein provided for, to have the same force and effect as if made after a full hearing, presentation of evidence, and findings and conclusions thereon, and respondents waived any and all right, power, or privilege to challenge or contest the validity of said order, it being further provided by said stipulation that the signing thereof was for settlement purposes only and did not constitute an admission of violation by respondents, except that respondents admitted all the jurisdictional allegations of the complaint.

Thereafter, it appearing that said stipulation, which had been submitted to said hearing examiner, theretofore duly designated by the Commission, for his consideration in accordance with Rule V of the Commission's rules of practice, provided for an appropriate disposition of the proceeding, said stipulation was accepted and ordered filed as part of the record in the matter by said examiner, who, after considering the complaint and said stipulation, found that the proceeding was in the interest of the public, and made his initial decision[1] setting forth the aforesaid matters, his jurisdictional findings,[1] and his order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII of the Commission's rules of practice, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order, accordingly, under the provisions of said Rule XXII became the decision of the Commission on October 19, 1954.

Said order is as follows:

It is ordered, That respondents I. Spiewak & Sons, Inc., a corporation, and Philip Spiewak, Gerald Spiewak, and Robert Spiewak, individually and as officers of said corporate respondent, and respondents' agents, representatives and employees, directly or through any corporate or other device, in the offering for sale, sale or distribution of wearing apparel in commerce, as "commerce" is defined in the Federal Trade Commission Act, or of any other garments, do forthwith cease and desist from representing, directly or by implication, by marking, branding, labeling, tagging, or in any other manner contrary to fact, that such merchandise was manufactured for the Armed Forces of the United States or in accordance with specifications of said Armed Forces.

By "Decision of the Commission and Order to File Report of Compliance", Docket 6220, October 19, 1954, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: October 19, 1954.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F. R. Doc. 54-9226; Filed, Nov. 22, 1954; 8:45 a. m.]

[1] Filed as part of the original document.

admission of violation by respondents, except that respondents admitted all the jurisdictional allegations of the complaint.

Thereafter, it appearing that said stipulation, which had been submitted to said hearing examiner, theretofore duly designated by the Commission, for his consideration in accordance with Rule V of the Commission's rules of practice, provided for an appropriate disposition of the proceeding, said stipulation was accepted and ordered filed as part of the record in the matter by said examiner, who, after considering the complaint and said stipulation, found that the proceeding was in the interest of the public, and made his initial decision[1] setting forth the aforesaid matters, his jurisdictional findings,[1] and his order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII of the Commission's rules of practice, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision, including said order, accordingly, under the provisions of said Rule XXII became the decision of the Commission on October 19, 1954.

Said order is as follows:

It is ordered, That respondents I. Spiewak & Sons, Inc., a corporation, and Philip Spiewak, Gerald Spiewak, and Robert Spiewak, individually and as officers of said corporate respondent, and respondents' agents, representatives and employees, directly or through any corporate or other device, in the offering for sale, sale or distribution of wearing apparel in commerce, as "commerce" is defined in the Federal Trade Commission Act, or of any other garments, do forthwith cease and desist from representing, directly or by implication, by marking, branding, labeling, tagging, or in any other manner contrary to fact, that such merchandise was manufactured for the Armed Forces of the United States or in accordance with specifications of said Armed Forces.

By "Decision of the Commission and Order to File Report of Compliance", Docket 6220, October 19, 1954, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: October 19, 1954.

By the Commission.

[Docket 6223]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

LAFAYETTE FOODS, INC.

Subpart—*Discriminating in price under section 2, Clayton Act, as amended*—Payment or acceptance of commission, brokerage or other compensation under 2 (c): § 3.820 *Direct buyers.* In connection with the purchase of frozen foods or other commodities in commerce, receiving or accepting, directly or indirectly, from any seller, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon or in connection with any purchase of frozen foods or other commodities made for its own account, or while acting for or in behalf of a buyer as an intermediate agent, or subject to the direct or indirect control of such buyer; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 2, 38 Stat. 730, as amended; 15 U. S. C. 13) [Cease and desist order, Lafayette Foods, Inc., Lafayette, Ind., Docket 6223, Oct. 28, 1954]

This proceeding was heard by J. Earl Cox, hearing examiner, upon the complaint of the Commission, which charged respondent with having violated subsection (c) of section 2 of the Clayton Act as amended, by receiving and accepting from sellers, commissions, brokerage fees or other compensation, or allowances or discounts in lieu thereof, on purchases of frozen foods for its own account; and upon a stipulation, following the filing of respondent's answer, entered into by respondent and counsel supporting the complaint.

Said stipulation provided that respondent admitted all the jurisdictional allegations of the complaint and agreed that the order set forth in said stipulation should have the same force and effect as if made after a full hearing, presentation of evidence, and findings and conclusion thereon; specifically waived any and all right, power, or privilege to challenge or contest the validity of the order entered in accordance therewith; and provided, among other things, that all the parties requested that the answer of respondent be withdrawn, and that they waived a hearing before a hearing examiner of the Commission, the making of findings of fact or conclusions of law, the filing of exceptions and oral argument before the Commission, and all further and other procedure before the hearing examiner or the Commission to which the respondent might be entitled under the Clayton Act, as amended, or the rules of practice of the Commission.

All parties further agreed that the stipulation, together with the complaint, should constitute the entire record in the matter; that the order to be set forth might be entered in disposition of the proceeding without further notice; that the complaint might be used in construing the terms of said order which might be altered, modified, or set aside in the manner provided by the statute for the orders of the Commission; and that the signing of the stipulation and consent by respondent to the entry of such order were for settlement purposes only and did not constitute an admission by respondent that it had violated the law as alleged in the complaint.

Thereafter said examiner made his initial decision in which he set forth the aforesaid matters and the granting of the request that the answer of the respondent be withdrawn; his finding that the proceeding was in the public interest; and his order, in conformity with the terms of the stipulation, to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII of the Commission's rules of practice, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision,[1] including said order, accordingly, under the provisions of said Rule XXII became the decision of the Commission on October 28, 1954.

Said order is as follows:

It is ordered, That respondent Lafayette Foods, Inc., a corporation, its officers, and its respective representatives, agents, or employees, directly or indirectly, or through any corporate or other device, in connection with the purchase of frozen foods or other commodities in commerce as "commerce" is defined in the aforesaid Clayton Act, do forthwith cease and desist from:

Receiving or accepting, directly or indirectly, from any seller, anything of value as a commission, brokerage, or other compensation, or any allowance or discount in lieu thereof, upon or in connection with any purchase of frozen foods or other commodities made for its own account, or while acting for or in behalf of a buyer as an intermediate agent, or subject to the direct or indirect control of such buyer.

By "Decision of the Commission and Order to File Report of Compliance", Docket 6223, October 28, 1954, which announced and decreed fruitition of said initial decision, report of compliance was required as follows:

It is ordered, That respondent Lafayette Foods, Inc., a corporation shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: October 28, 1954.

By the Commission.

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1954—CROP GRAIN SORGHUMS LOAN AND PURCHASE AGREEMENT PROGRAM

SUPPORT RATES

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service published in 19 F. R. 2117, 2203, 2561, 3467, and 4555, and containing the specific requirements for the 1954-Crop Grain Sorghums Price Support Program are hereby amended as follows:

1. Section 421.533 (a) (1) is amended by adding the following to the list of terminal markets and basic support rates per 100 pounds:

Port Arthur, Texas	$2.88

2. Section 421.533 (a) (5) is amended to provide a deduction from the terminal rate for grain sorghums received by truck at Port Arthur, Texas so that the amended subparagraph reads as follows:

§ 421.533 *Support rates.* • • •

(a) *Basic support rates at designated terminal markets.* • • •

(5) For grain sorghums received by truck and stored at any designated terminal market, the support rate shall be determined by making a deduction from the terminal rate as follows:

Terminal market:	*Amount of deduction (cents per 100 pounds)*
Los Angeles, Calif., San Francisco, Calif	22
Omaha, Nebr., Sioux City, Iowa, Kansas City, Mo., St. Louis, Mo	23
Corpus Christi, Tex., Galveston, Tex., Houston, Tex., Port Arthur, Tex., New Orleans, La., Memphis, Tenn	25

3. Section 421.533 (c) (1) is amended by adding the following to the list of basic county support rates:

VIRGINIA

County	*Rate per cwt.*
All counties	$2.45

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 5, 62 Stat. 1072; secs. 301, 401, 63 Stat. 1053; 15 U. S. C. 714; 7 U. S. C. 1447, 1421)

Issued this 17th day of November 1954.

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.237]

PART 41—VISAS: DOCUMENTATION OF NONIMMIGRANT ALIENS UNDER THE IMMIGRATION AND NATIONALITY ACT

PART 42—VISAS: DOCUMENTATION OF IMMIGRANTS UNDER THE IMMIGRATION AND NATIONALITY ACT

MISCELLANEOUS AMENDMENTS

Parts 41 and 42, Chapter I, Title 22 of the Code of Federal Regulations, are hereby amended in the following respects:

1. Paragraph (b) *Application procedure* of § 41.20 *Nonresident aliens' border-crossing identification cards* is amended to read as follows:

(b) *Application procedure.* An application for a nonresident alien's border-crossing identification card shall be made on Form I–190 at a United States consular office in Canada or Mexico. The applicant shall appear in person, shall execute the application in triplicate under oath or by affirmation before the consular officer, and shall be fingerprinted in accordance with the provisions of § 41.19. Four identical photographs of the alien, as described in § 41.9 (d) shall be submitted with the application. One of such photographs shall be attached to each copy of the application form and to the identification card which is issued to the applicant. The photograph requirement may, in the discretion of the consular officer, be waived in the case of an alien under fourteen years of age at the time of issuance of the card. The original of application Form I–190, duly executed, shall be attached to the identification card issued to the alien for delivery to the immigration officer at the time of application for admission into the United States.

2. Paragraph (b) of § 41.110 *Representatives of foreign press, radio, film, or other information media* is amended to read as follows:

(b) An alien who will be engaged in the United States in news gathering activities between the United States and the country of which he is a national shall, if otherwise qualified, be classified as a nonimmigrant under the provisions of section 101 (a) (15) (I) of the act, notwithstanding the fact that such alien may also be classifiable as a nonimmigrant under the provisions of section 101 (a) (15) (E) of the act.

3. Paragraph (b) *Termination of derivative registration* of § 42.21 *Aliens included in single registration* is amended to read as follows:

(b) *Termination of derivative registration.* The privilege of derivative registration accorded a spouse or child un-

der the provisions of paragraph (a) of this section, whose name has not been previously recorded on a waiting list, shall terminate only upon the occurrence of any one of the conditions specified in § 42.23 for the removal of names from a quota-waiting list.

4. Paragraph (i) of § 42.23 *Removal of names of registrants from quota-waiting list* is revoked.

5. Paragraph (c) *Attaching supporting documents* of § 42.41 *Procedure in issuing immigrant visa* is revoked, and paragraphs (d), (e) and (f) of § 42.41 are redesignated paragraphs (c), (d) and (e), respectively.

6. Section 42.42 *Classes of aliens ineligible to receive immigrant visas* is amended to read as follows:

§ 42.42 *Classes of aliens ineligible to receive immigrant visas.* (a) The following implementation of section 212 of the act shall govern the issuance or refusal of immigrant visas in pertinent cases:

(1) *Feeble-mindedness.* [Reserved.]

(2) *Insanity.* [Reserved.]

(3) *One or more attacks of insanity.* [Reserved.]

(4) *Psychopathic personality, epilepsy, or mental defect.* [Reserved.]

(5) *Narcotic drug addicts or chronic alcoholics.* [Reserved.]

(6) *Tuberculosis, leprosy, or dangerous contagious disease.* A determination of ineligibility to receive an immigrant visa under the provisions of sections 212 (a) (1) to (6), inclusive, of the act, shall be based upon the finding of a competent medical examiner as referred to in § 42.37: *Provided,* That in the case of an alien who applies for an immigrant visa at a consular office where no medical officer of the United States Public Health Service has been assigned or detailed, and the consular officer knows or has reason to believe that such alien is a drug addict, a chronic alcoholic, or is afflicted with psychopathic personality by reason of sexual deviation, a finding of ineligibility to receive an immigrant visa under the provisions of section 212 (a) (4) or (5) of the act may be based on facts or circumstances other than the finding of an examining physician.

(7) *Physical defect, disease or disability affecting alien's ability to earn a living.* An alien within the purview of section 212 (a) (7) of the act may be issued an immigrant visa, if otherwise qualified therefor, upon receipt of notice by the consular officer from the Department of the giving of a bond or undertaking, as provided in section 221 (g) of the act.

(8) *Paupers, professional beggars, or vagrants.* [Reserved.]

(9) *Crime involving moral turpitude.* (i) An alien shall not be ineligible to receive a visa under the provisions of section 212 (a) (9) of the act (*a*) solely by reason of the conviction of a single offense which, if committed in the United States, would be a misdemeanor punishable by imprisonment not to exceed one year, and for which the penalty actually imposed was imprisonment not to exceed six months or a fine not to exceed $500, or both; or (*b*) solely by reason of the admission of the commission of a single offense or the commission of acts constituting the essential elements of a single offense which, if committed in the United States, would be a misdemeanor punishable by imprisonment not to exceed one year.

(ii) The term "purely political offense", as used in sections 212 (a) (9) and (10) of the act, shall include offenses which, the evidence presented to the consular officer clearly establishes, were involved in convictions obviously based on trumped-up charges or predicated upon repressive measures against racial, religious, or political minorities. The admission by an immigrant that he has committed acts which would have been punishable under the laws or decrees of a foreign country shall be considered an admission of the commission of a purely political offense within the meaning of section 212 (a) (9) of the act if the evidence presented to the consular officer clearly establishes that such laws or decrees were predicated upon the repression of racial, religious, or political minorities. The mere fact that an alien is or was a member of a racial, religious, or political minority shall not be considered as sufficient in itself to warrant a conclusion that the crime of which he was convicted was a purely political offense.

(10) *Conviction of two or more offenses.* [Reserved.]

(11) *Polygamy.* Aliens who are members of religious organizations which tolerate polygamy are not ineligible to receive immigrant visas under the provisions of section 212 (a) (11) of the act, unless such aliens themselves are polygamists, or unless they practice or advocate the practice of polygamy.

(12) *Prostitutes.* The fact that an immigrant may have ceased to engage in prostitution shall not remove the immigrant's ineligibility to receive a visa under the provisions of section 212 (a) (12) of the act.

(13) *Immoral sexual act.* [Reserved.]

(14) *Skilled or unskilled laborers*—(i) *Certification by Secretary of Labor required.* No immigrant shall be considered ineligible to receive a visa under the provisions of section 212 (a) (14) of the act, even if he is migrating to the United States under a contract or other prearrangement of employment of any kind in the United States, until the Secretary of Labor shall have made the certification to the Secretary of State and the Attorney General as provided in clauses (A) or (B) of section 212 (a) (14) of the act concerning the availability of such labor in the locality of the alien's destination, or the effect of the immigration of such foreign labor on conditions of workers in the United States. The existence or the cancellation of such a certification by the Secretary of Labor shall be recognized by the consular officer only upon the basis of an official notification from the Department.

(ii) *Prearranged employment immaterial to ineligibility.* When the Secretary of Labor makes the certification referred to in subdivision (i) of this subparagraph, with respect to a particular occupation, the provisions of section 212 (a) (14) of the act shall apply to an immigrant who is seeking to enter the United States for the purpose of performing skilled or unskilled labor, even if such immigrant has no offer, promise, contract of employment, or any other form of pre-arranged employment in such occupation, unless such alien falls within one of the exempt categories specified in subdivision (iii) of this subparagraph.

(iii) *Exemptions.* Notwithstanding the fact that a consular officer has been officially notified of a determination and certification by the Secretary of Labor, as referred to in subdivision (i) of this subparagraph, the provisions of section 212 (a) (14) of the act shall have no application to the following classes of immigrants:

(*a*) Parents, spouses, or sons and daughters regardless of age or marital status, of United States citizens;

(*b*) Parents, spouses, or children of aliens lawfully admitted to the United States for permanent residence;

(*c*) Brothers or sisters of United States citizens;

(*d*) Immigrants whose services are determined by the Attorney General to be needed urgently in the United States because of the high education, technical training, specialized experience, or exceptional ability of such immigrants, and to be substantially beneficial prospectively to the national economy, cultural interests, or welfare of the United States;

(*e*) Aliens classifiable as nonquota immigrants under the provisions of sections 101 (a) (27) (B), (F), and (G) of the act.

(15) *Public charges.* (i) Any conclusion that an immigrant is ineligible to receive a visa under the provisions of section 212 (a) (15) of the act shall be predicated upon the existence of facts or circumstances which indicate a reasonable probability that the immigrant will become a charge upon the public after entry into the United States.

(ii) A petition approved under the provisions of section 205 of the act shall have no bearing on the question of whether the beneficiary thereof will become a public charge after his arrival in the United States.

(iii) An alien within the purview of section 212 (a) (15) of the act may be issued an immigrant visa, if otherwise qualified therefor, upon receipt of notice by the consular officer from the Department of the giving of a bond or undertaking, as provided in section 221 (g) of the act.

(16) *Aliens excluded and deported.* An alien who was excluded and deported from the United States within the meaning of section 212 (a) (16) of the act shall be required to obtain permission from the Attorney General to reapply for admission if he applies for a visa within one year from the date of his deportation.

(17) *Aliens arrested and deported or removed from the United States.* (i) An alien who was arrested and deported from the United States, or who was removed from the United States within the meaning of section 212 (a) (17) of the act shall be required to obtain permission from the Attorney General to reapply for admission into the United States,

regardless of the period of time which may have elapsed since his deportation or removal.

(ii) No alien who is required to obtain permission from the Attorney General to reapply for admission, as provided in sections 212 (a) (16) and (17) of the act, shall be considered eligible to receive an immigrant visa until such alien shall have obtained the necessary permission to reapply for admission, and shall have been found to be otherwise eligible to receive an immigrant visa under the act and the regulations contained in this part.

(18) *Stowaways.* [Reserved.]

(19) *Fraud and misrepresentation.* (i) An alien (*a*) who seeks to procure, or has sought to procure, or has procured a visa or other documentation by fraud, or by willfully misrepresenting a material fact, for the purpose of gaining admission into the United States, regardless of whether such fraud or misrepresentation occurred before or after December 24, 1952, or (*b*) who entered or who seeks to enter the United States on or after December 24, 1952 by fraud, or by willfully misrepresenting a material fact, shall be ineligible to receive an immigrant visa under the provisions of section 212 (a) (19) of the act: *Provided,* That the provisions of this subdivision shall not be applicable in the case of a *bona fide* refugee if such fraud or misrepresentation was committed in connection with the alien's entry into, or sojourn in, a foreign country and consisted of obtaining travel documents or of misrepresenting his place of birth, and the refugee was in fear of being repatriated to his former homeland if he had disclosed the facts in his case: *Provided further,* That such fraud or misrepresentation was not committed for the purpose of evading the quota restrictions of the United States immigration laws, or investigation of the alien's record at the place of his former residence or elsewhere in connection with an application for a United States visa. The fact that an alien may be or may have been a bona fide refugee shall not be considered as sufficient in itself to remove the alien from any excludable class.

(ii) Subject to the conditions stated in subdivision (i) of this subparagraph, an alien who, upon review of his case, is found by the consular officer to have made a willful misrepresentation within the meaning of section 10 of the Displaced Persons Act of 1948, as amended (62 Stat. 1013, 64 Stat. 225; 50 App. U. S. C. 1950), for the purpose of gaining admission into the United States as an eligible displaced person, or to have made a material misrepresentation within the meaning of section 11 (e) of the Refugee Relief Act of 1953, as amended (67 Stat. 405, 8 U. S. C. 1182) for the purpose of gaining admission into the United States as an alien eligible thereunder, shall be considered ineligible to receive an immigrant visa under the provisions of section 212 (a) (19) of the act.

(20) *Immigrant documentary requirements.* [Reserved.]

(21) *Noncompliance with section 203 of the act.* [Reserved.]

(22) *Ineligibility to citizenship.* [Reserved.]

(23) *Illicit traffic in narcotic drugs.* [Reserved.]

(24) *Aliens arriving in foreign contiguous territory or adjacent islands on nonsignatory or noncomplying transportation lines.* The provisions of section 212 (a) (24) of the act shall not be applicable to the following classes of immigrants:

(i) Aliens who are described in section 101 (a) (27) (B) of the act;

(ii) Aliens who are native-born citizens of countries enumerated in section 101 (a) (27) (C) of the act;

(iii) Aliens who, prior to December 24, 1952, arrived in one of the adjacent islands from which they are seeking to enter the United States;

(iv) Aliens who are natives of adjacent islands or foreign contiguous territory and who are seeking to enter the United States directly from an adjacent island or from foreign contiguous territory;

(v) Aliens who proceeded from one adjacent island or foreign contiguous territory to another by signatory carrier and who are seeking to enter the United States from the last island or territory, regardless of the method by which they first entered an adjacent island or foreign contiguous territory;

(vi) Aliens who proceeded from the United States by nonsignatory carrier to adjacent islands or foreign contiguous territory from which they seek to reenter the United States: *Provided,* That such aliens, as of the time of their last entry into the United States, would not have been ineligible to receive an immigrant visa under the provisions of section 212 (a) (24) of the act.

(25) *Illiterates.* [Reserved.]

(26) *Nonimmigrant documentary requirements.* [Reserved.]

(27) *Activities prejudicial to the public interest, or endangering the welfare, safety or security of the United States.* [Reserved.]

(28) *Other subversive classes*—(i) *Members or affiliates.* The provisions of section 212 (a) (28) of the act shall be considered to relate to the ineligibility of aliens to receive visas because of their present or former voluntary membership in, or affiliation with, the classes described therein, including voluntary membership in, or affiliation with, the proscribed parties, organization, and groups as specified therein, regardless of the purpose of such aliens in coming to the United States.

(*a*) The term "affiliate", as used in section 212 (a) (28) of the act with reference to an organization, means an organization substantially directed, dominated, or controlled by one of the parties within the statutory proscription, which is or was used or operated by such party to help maintain its control over the country, or to help disseminate its economic and governmental doctrines or ideology;

(*b*) Service, whether voluntary or not, in the armed forces of any country shall not be regarded, of itself, as constituting or establishing an alien's membership in, or affiliation with, any proscribed party or organization, and shall not, of itself, constitute a ground of ineligibility to receive a visa;

(*c*) Voluntary service in a political capacity, such as a political commissar with the armed forces of any country, shall constitute affiliation with the political party or organization in power at the time of such service;

(*d*) Membership or affiliation, whether voluntary or not, which ended before an alien reached his sixteenth birthday shall not constitute a ground of ineligibility to receive a visa. If an alien continues or continued his membership or affiliation beyond his sixteenth birthday, the question whether his membership or affiliation after his sixteenth birthday is or was voluntary shall be determined as in the case of any other alien. In that connection, the facts relating to his activities only after his sixteenth birthday may be considered in determining whether the continuation of his membership or affiliation is or was voluntary;

(*e*) The term "operation of law", as used in section 212 (a) (28) (I) of the act, shall include any case wherein the alien without his acquiescence automatically becomes or became a member or affiliate of a proscribed party or organization by official act, proclamation, order, edict, or decree.

(ii) *Totalitarianism.* In accordance with the definition of "totalitarian party" contained in section 101 (a) (37) of the act, former or present voluntary members of, or aliens who were, or are, voluntarily affiliated with a non-communist party, organization, or group, or of any section, subsidiary, branch, affiliate or subdivision thereof, which during the time of its existence did not or does not advocate the establishment in the United States of a totalitarian dictatorship, shall not be considered ineligible under the provisions of section 212 (a) (28) of the act to receive visas, unless such aliens are known or believed by the consular officer to advocate, or to have advocated, personally, the establishment in the United States of a totalitarian dictatorship or totalitarianism, as defined in the act. Aliens who are, or have been, voluntary members of, or voluntarily affiliated with, the Communist party, or any of its sections, subsidiaries, branches, affiliates, or subdivisions, in any country, shall be considered, as specifically declared by the act, to be ineligible to receive visas, except as provided in subdivision (iii) of this subparagraph. If any other party is found to be a "totalitarian party", as defined in section 101 (a) (37) of the act, former or present voluntary membership in or affiliation with such party, or any of its sections, subsidiaries, branches, affiliates, or subdivisions, shall render an alien ineligible to receive a visa, except as provided in subdivision (iii) of this subparagraph.

(iii) *Defectors.* The term "defector" includes an alien who was a voluntary member of, or was voluntarily affiliated with, a proscribed party or organization, or the section, subsidiary, branch, or affiliate or subdivision thereof, which exists, as well as a proscribed party or organization, or the section, subsidiary, branch, or affiliate or subdivision thereof, which no longer exists but which did exist within the period of the last 5 years prior to the date of the application for a visa. The five-year period of defection

required by the provisions of section 212 (a) (28) (I) (ii) of the act shall be considered as having begun to run from the established date of an alien's cessation of voluntary membership or affiliation or from the date such party or organization, or the section, subsidiary, branch, or affiliate or subdivision thereof, ceased or ceases to exist. The words "actively opposed", as used in section 212 (a) (28) (I) (ii) of the act, shall be considered as embracing speeches, writings, and other overt or covert activities, during a period of at least 5 years prior to the application for a visa, in opposition to the doctrine, program, principles, and ideology of the party or organization, or the section, subsidiary, branch, or affiliate or subdivision thereof, of which the alien was formerly a member or affiliate. An alien shall not be required, except in questionable circumstances, to show that he has actively opposed the doctrine, program, principles, and ideology of a proscribed party or organization, or the section, subsidiary, branch, or affiliate or subdivision thereof during the time it did not exist. However, such alien shall be required to show that during the period of non-existence of the party or organization, or the section, subsidiary, branch, or affiliate or subdivision thereof, he did not personally advocate the doctrine, program, principles, and ideology of such party or organization, or of the section, subsidiary, branch, or affiliate or subdivision thereof, within the meaning of the act.

(iv) *Public interest with regard to visas.* Consular officers shall maintain a coordinated and uniform interpretation and appraisal of what constitutes the public interest in issuing or refusing visas to defectors. Such coordination and uniformity shall be accomplished by a reference of the consular officer's opinion to the Secretary of State for possible consultation with the Attorney General.

(v) *War criminals.* No alien who was convicted of being a war criminal or was properly charged as such but escaped trial or punishment by departing the jurisdiction, or who was guilty of, or who advocated or acquiesced in, activities or conduct contrary to civilization and human decency on behalf of a power which was at war with the United States during World War II shall be considered as a defector under the provisions of section 212 (a) (28) (I) (ii) of the act or the regulations contained in this part.

(29) *Activities relating to espionage, sabotage, public disorder, or other subversive activity.* An alien who was convicted of being a war criminal or who was properly charged as such but who escaped trial or punishment by departing the jurisdiction, or an alien who is guilty of, or who advocated or acquiesced in, activities or conduct contrary to civilization and human decency on behalf of a power which was at war with the United States during World War II may be considered ineligible to receive a visa under the provisions of section 212 (a) (27) or (29) of the act.

(30) *Alien accompanying another alien ordered excluded and deported.* [Reserved.]

(31) *Alien contributing to illegal entry.* [Reserved.]

(b) *Failure of application to comply with act.* An immigrant's visa application shall be considered as failing to comply with the provisions of the act if:

(1) The applicant fails to furnish the information to be included in such application as required by the act and the regulations contained in this part.

(2) Such application contains a false or incorrect statement.

(3) Such application is not supported by the necessary documents required under the provisions of the act or the regulations contained in this part.

(4) The applicant refuses to be fingerprinted as required by the act.

(5) The necessary fee is not paid for such application or for the immigrant visa.

(6) The alien fails to swear to, or affirm, the application before the consular officer.

(7) The visa application otherwise fails to meet the specific requirements of the act for reasons for which the alien is responsible.

7. Section 42.47 *Validity of immigrant visa* is amended by the addition of the following paragraph (d) at the end thereof:

(d) An alien who is returning to Hawaii from a temporary visit abroad, and who (1) establishes that he entered Hawaii without an immigration visa between May 1, 1934, and July 3, 1946, inclusive, pursuant to the last sentence of section 8 (a) (1) of the act of March 24, 1934, as amended (48 Stat. 456), and that he was on the date of such entry a citizen of the Philippine Islands, or (2) establishes that he was admitted to Hawaii as a national of the United States, shall be considered classifiable as a nonquota immigrant under the provisions of section 101 (a) (27) (B) of the act, and, if otherwise qualified, shall be issued a nonquota immigrant visa limited in validity to application for admission only to Hawaii. *Provided,* That this limitation shall not apply in the case of an alien who is within a class declared to be nonquota immigrants under the provisions of section 101 (a) (27) of the act, other than subparagraph (C) thereof, and other than subparagraph (B) thereof in the case of an alien admitted to Hawaii only and subject to the restrictions prescribed in section 212 (d) (7) of the act. In any case in which a visa is limited in validity to application for admission only to Hawaii, such limitation shall be noted conspicuously on the face of the visa.

8. Subparagraph (5) of paragraph (b) *Exceptions* of § 42.36 *Passport requirement for immigrants* is amended to read as follows:

(5) An immigrant who is the parent, spouse, or child of a United States citizen;

The regulations contained in this order shall become effective upon publication in the FEDERAL REGISTER. The provisions of section 4 of the Administrative Procedure Act (60 Stat. 238; 5 U. S. C. 1003) relative to notice of proposed rule making and delayed effective date are inapplicable to this order because the regulations contained therein involve foreign affairs functions of the United States.

(Sec. 104, 66 Stat. 174; 8 U. S. C. 1104)

Dated: November 15, 1954.

SCOTT MCLEOD,
Administrator of the Bureau of Inspection, Security, and Consular Affairs.

[F. R. Doc. 54-9232; Filed, Nov. 22, 1954; 8:47 a. m.]

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Treasury

Subchapter J—Procurement

[CGFR 54-51]

PART 116—PROCEDURES FOR PURCHASING

PART 118—CONTRACTS

MISCELLANEOUS AMENDMENTS

The amendments to §§ 116.01-3, 116.01-4, 116.01-8, 116.01-43, 116.01-44, 116.01-46, 116.01-85, 116.01-165, 116.02-2, 118.01-15, 118.02-21, 118.02-22, and 118.02-23 are editorial in nature to clarify requirements of existing procedure.

The amendment to § 116.01-2 sets forth additional procurement term definitions.

The amendment to § 116.01-5 sets forth authority and responsibility of contracting officers.

The amendment to § 116.01-7 prescribes requirements to be met before entering into contracts.

The amendment to § 116.01-42 sets forth Federal Supply Schedule classes for which procurement by the Coast Guard is mandatory.

The amendment to § 116.01-160 authorizes the use of Standard Form 44, U. S. Government Purchase Order-Invoice-Voucher, for service station deliveries of gasoline and lubricating oils when credit cards are unavailable.

The amendment to § 116.02-47 eliminates the requirement for security classification of correspondence relating to debarred or ineligible firms or individuals and lists of such firms or individuals.

A new section designated § 118.01-19 defines the difference between contract change orders and supplemental agreements.

A new section designated § 118.04-6 sets forth administrative instructions for the Walsh-Healey Public Contracts Act.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), the following amendments are prescribed:

1. Section 116.01-2 is amended to read as follows:

§ 116.01-2 *Definition of terms*—(a) *Scope of section.* The terms defined in the following paragraphs apply to procurement procedures set forth in Parts 116, 118, and 120 of this subchapter.

(b) *Department.* The term "Department" means the Department of the Treasury, in which the Coast Guard has the status of a Bureau.

(c) *Secretary.* The term "Secretary" means the Secretary of the Treasury.

(d) *Agency head.* The term "Agency Head" means the Commandant, U. S. Coast Guard, who is responsible for the procurement policies and activities of the Coast Guard under the Armed Services Procurement Act of 1947 (Pub. Law 413, 80th Cong.; 41 U. S. C. 151-161).

(e) *Contracting officer.* The term "contracting officer" means any officer or civilian employee of the Coast Guard who has been or shall be designated a contracting officer (and whose designation has not been terminated or revoked) with the authority to enter into and administer contracts and make determinations and findings with respect thereto, or any part of such authority as hereinafter provided. The term "contracting officer" is construed to include his duly appointed successor or authorized representative acting within the limits of his authority.

(f) *Contracts.* The term "contracts" means all types of agreements and orders for the procurement of supplies or services. It includes, by way of description and without limitation, awards and preliminary notices of award; contracts of a fixed-price, cost, cost-plus-a-fixed-fee, or incentive type; contracts providing for the issuance of job orders, task orders or task letters thereunder; letter contracts, letters of intent, and purchase orders. It also includes amendments, modifications, and supplemental agreements with respect to any of the foregoing.

(g) *Procurement.* The term "procurement" includes, by way of description and without limitation, purchasing, renting, leasing, or otherwise obtaining supplies or services.

(h) *Supplies.* The term "supplies" means all property except land or interests in land. It includes, by way of description and without limitation, public works, buildings, facilities; ships, floating equipment, and vessels of every character, type and description, together with parts and accessories thereto; aircraft and aircraft parts, accessories, and equipment; machine tools; and the alteration or installation of any of the foregoing.

(i) *Source of supplies.* (1) For contracting purposes, the term "source of supplies" shall include only (i) manufacturers, (ii) construction contractors, and (iii) regular dealers in the supplies to be procured. See § 116.02-46 (a) (3) (iii) for the definition of a "regular dealer." The above descriptions shall not apply to contracts for supplies no part of which will be manufactured or furnished within the geographic limits of the continental United States, Alaska, Hawaii, Puerto Rico, the Virgin Islands, or the District of Columbia.

(2) A manufacturer, construction contractor, or regular dealer may bid, negotiate and contract through an authorized agent: *Provided,* That the agency is disclosed, and the agent acts and contracts in the name of his principal. In this connection, see §§ 118.04-8 through 118.04-14 of this subchapter re contractors' statements of contingent or other fees.

(j) *Services.* The term "services" includes, by way of description and without limitation, personal or professional services of individuals or organizations; nonpersonal services; educational or training services; architectural or engineering services; maintenance or repair services; transportation; utility services; experimental, developmental or research work; and construction work.

2. Section 116.01-3 *General limitations upon the use of negotiation* is hereby revoked.

3. Section 116.01-4 *Certain negotiations restricted to Headquarters* is hereby revoked.

4. Section 116.01-5 is amended to read as follows:

§ 116.01-5 *Contracting officers*—(a) *General authority of contracting officers.* Properly designated contracting officers are granted all authority conferred by law, this part, directives promulgated by the Commandant in the form of circulars, memoranda, general messages, etc., and local instructions prescribed by district commanders and/or commanding officers to implement the requirements of the foregoing conveyances of authority, but only to the extent as limited therein and as that authority may be further limited in the orders designating them as contracting officers.

(1) Contracting officers are agents of the Government and must act in accordance with the law and within their prescribed duties and limited authority. The acts of a contracting officer bind the Government only when the action is authorized.

(2) Contracting officers may enter into, amend, modify, and take other action with respect to contracts provided:

(i) Approval of award has been obtained, if approval is required by these regulations, and the contract embodies the award, as approved;

(ii) The contract is written on a standard or an approved form of contract;

(iii) The contract is authorized by law and complies with the provisions of this part and current supplementary directives with respect to the use of contract clauses and does not contain any clause or involve matters in conflict with the established policy of higher authority; and

(iv) Compliance has been effected with all other requirements of law, these regulations, current supplementary directives, and local implementing instructions prescribed by district commanders and/or commanding officers.

(b) *Designation of contracting officers.* See §§ 116.01-23 to 116.01-24.

(c) *General responsibility of contracting officers*—(1) Contracting officers are primarily responsible for the execution and administration of contracts, to safeguard the interests of the United States in contractual relationships, and to determine the facts under contracts.

(2) Contracting officers shall personally sign all contracts and modifications entered into by them. This authority cannot be delegated to others. The signing of contractual documents will not be accomplished by facsimile stamps or by proxy.

(3) Contracting officers are responsible under law and regulations for their acts as contracting officers.

(4) Contracting officers shall be bound in all their actions to exercise reasonable care, skill, and judgment.

(5) Contracting officers must assure themselves that the contract is authorized by law, that funds are available, and of their authority to subject the Government or its property to any risk.

(6) Contracting officers are responsible for maintaining constant cognizance with respect to compliance on the part of the contractor.

(7) Contracting officers are responsible for the legal, technical, and administrative sufficiency of the contracts they make. They should not hesitate to secure legal and technical advice within the Coast Guard.

(8) Contracting officers are responsible for performing or having performed any legal or administrative actions necessary to properly assure the satisfactory performance of their contracts.

(9) Contracting officers are responsible for knowing the scope and limitations of their authority.

(d) *Contracting officers' representatives.* See § 116.01-25.

5. Section 116.01-7 is amended to read as follows:

§ 116.01-7 *Contract requirements*—(a) *General requirements to be met before entering into contracts.* Irrespective of whether procurement is to be effected by formal advertising or by negotiation, a contract may be entered into by a contracting officer only if:

(1) All applicable requirements of law, of this part, of current directives promulgated by the Commandant in the form of circulars, memoranda, general messages, etc., and of local instructions prescribed by district commanders and/or commanding officers to implement the foregoing requirements have been met.

(2) Such business clearances or approvals as are prescribed by this part and by applicable supplementary instructions have been obtained.

(3) The contract is written on a standard or an approved form of contract.

(4) The contract does not contain any unauthorized clauses or involve any matter which is inconsistent or in conflict with the established policy of higher authority.

(b) *Approval of work projects.* The Commandant's approval of the project or work is required prior to the execution of a contract under the following conditions:

(1) When the proposed contract involves major overhaul of aircraft and/or aircraft engines.

(2) Under the conditions prescribed by current Coast Guard engineering directives.

(3) A change in, or establishment of, an aid to navigation.

(4) New construction or special fund projects.

(c) *Restrictions on specific contracts for supplies and services.* Contracting

officers are authorized to execute specific contracts for supplies and services required by their units within the monetary limitations set forth in § 116.01–6:

(1) When allotted funds are available to defray the cost of procurement.

(2) When the items are not readily available from Coast Guard, Navy, or other Government sources of supply.

(3) When the items are not prohibited for the use intended.

(4) When the items are not in excess of authorized allowances.

(d) *Term or open end contracts.* See §§ 118.01–6, 118.01–7 (b), 118.01–10, and 118.01–11 of this subchapter.

6. Section 116.01–8 *Referral to Headquarters* is hereby revoked.

7. Section 116.01–42 is amended by revising paragraphs (a) and (c) and adding a new paragraph (g) to read as follows:

§ 116.01–42 *Federal supply schedule contracts*—(a) *General.* The Federal Supply Service, General Services Administration, enters into open end contracts on a national, zone, regional, or other area basis for many classes of supplies and services in common use by Federal agencies which normally do not lend themselves to definite quantity consolidated buying or to distribution from General Services Administration stores stock. The use of certain of these contracts (known as Federal Supply Schedule contracts) by the Coast Guard is mandatory (see paragraph (c) of this section). Federal Supply Schedule contracts provide that for a definite period, the contractor will be obligated to deliver all mandatory items that may be ordered thereunder, subject to any stated minimum and maximum amounts of any order. The General Services Administration is responsible for inspection at the factory. The Coast Guard is responsible for inspection upon receipt, shipment in the case of f. o. b. origin contracts, and payment or for taking appropriate action if the contractor defaults (see § 116.01–12). Federal Supply Schedule contracts are summarized on "Federal Supply Schedules" which are published in catalog style and list, under major commodity classifications, the supplies or services to be purchased from the contractors named therein.

• • • • •

(c) *Mandatory use.* When supplies or services required are not available from designated Coast Guard or Navy supply support activities, procurement of items available on Federal Supply Service contracts will be effected by placing orders under such contracts to the extent required by the mandatory use conditions of related Federal Supply Schedule Check Lists. Such mandatory use conditions extend not only to items listed in such schedules, but also require that orders for items similar in end use and purpose, but not identical, to items listed in such schedules will be filled by ordering similar schedule items (see paragraph (e) (3) of this section). However, the mandatory use conditions of such schedules have no application when items similar to the required items are not included in such schedules, or when the items listed in such schedules are not mandatory. Federal Supply Service standard stock classes of supplies and services, the procurement of which generally is mandatory under Federal Supply Schedule contracts, include, but are not limited to the following:

Federal Supply Service Class and Material	
2, 4, 42	Tear and nauseating gas arms, cartridges, grenades, and hand irons.
4	Explosives and blasting accessories.
7, 14	Gasoline and lubricating oil, service station deliveries.
7, 14	Gasoline, fuel oil, and kerosene, provided they are not included in Navy contracts applicable to the Coast Guard.
8	Brake linings, clutch facings, oil filters, tire chains, etc.
8	Tires and tubes (other than aircraft).
17	Electric lamps (includes Alaska and points outside continental United States).
17	Household and quarters lamps.
17	Spark plugs.
18	Purchase, maintenance, repair, and rental of microphotographic equipment and supplies.
26	Household and quarters furniture.
26	Office furniture.
27	Floor coverings.
28	Marginally punched continuous forms.
35	Books, periodicals, and law books.
53	Drafting room and office supplies.
54	Offset duplicating blankets and plates.
54, 104	Typewriters and other office equipment (see § 116.01–155).
66	Vacuum cleaners and repair parts, accessories, and attachments.
83	Aircraft tires (casings and tubes).
103	Recording and transcription.

Additional items are mandatory for Washington, D. C., and the contiguous area. Many variations and limitations exist among classes and the current Federal Supply Schedule Check List, and applicable schedules must be reviewed carefully by the procurement officer for detailed coverage applicable only to individual classes and localities.

• • • • • •

(g) *Defective supplies or services.* In accordance with § 116.01–12, a written report shall be made to the General Services Administration regional office executing the contract whenever supplies or services are received in an unsatisfactory condition or manner, or equipment is found to be defective or inoperative upon installation. Full details of the transaction should be included in the report, a copy of which shall be furnished the Commandant (FS).

8. Section 116.01–43 is amended by revising paragraph (b) (1) (v) to read as follows:

§ 116.01–43 *Federal supply service stores depots.* • • •

(b) *Mandatory procurement.* • • •

(1) *Exceptions.* • • •

(v) Purchases in Alaska of items under Federal Supply Classification Group 89, Subsistence.

9. Section 116.01–44 *Federal Prison Industries, Inc.* is amended by revising the term "Purchase orders" to read "Delivery orders" at the beginning of the first sentence in subparagraphs (1) and (2) of paragraph (b).

10. Section 116.01–46 *Blind-made products* is amended by revising the term "Purchase orders" to read "Delivery orders" at the beginning of the first sentence in paragraph (b) (1) (i).

11. Section 116.01–85 *Statistics to be reported* is amended by revising the term "FS contracts" to read "Federal Supply Schedule contracts."

12. Section 116.01–160 *Purchase of gasoline and lubricating oil by credit cards* is amended by revising the last sentence of paragraph (a) to read as follows: "Service station deliveries may be obtained on Standard Form 44, U. S. Government Purchase Order-Invoice-Voucher, when credit cards are not available."

13. Section 116.01–165 is amended by revising paragraph (c) to read as follows:

§ 116.01–165 *Procurement of envelopes and other articles bearing penalty indicia.* • • •

(c) *Copies of delivery orders required by Post Office Department.* Field units will furnish copies of all delivery orders for articles bearing penalty indicia to the Commandant. The Commandant will accumulate copies of all Coast Guard delivery orders for penalty indicia articles, which will be transmitted at the end of each quarter to the Division of Accounting, Bureau of Comptroller, Post Office Department, Washington, D. C.

14. Section 116.02–2 is amended by adding a headnote to paragraph (a) and revising paragraph (b) to read as follows:

§ 116.02–2 *Use of formal advertising*—(a) *General.* • • •

(b) *Classified procurement.* Procurement classified as Confidential or higher shall not be effected by formal advertising, except when the Commandant has determined this method to be in the interest of the Government.

15. Section 116.02–47 is amended by revising paragraph (a) to read as follows:

§ 116.02–47 *Debarment of bidders*—(a) *General*—(1) *Scope.* This section prescribes policies and procedures relating to the debarment of bidders for any cause and ineligibility of bidders under section 1 (a) of the Walsh-Healey Public Contracts Act (41 U. S. C. 35a). It is applicable to both advertised and negotiated procurement.

(2) *Administrative and Buy American Act debarments.* When the public interests warrant the administrative debarment of a firm or individual for any of the causes listed in paragraph (e) of this section, or for violation of section 3 (a) of the Buy American Act (Pub. Law 428 72d Cong., 47 Stat. 1520; 41 U. S. C. 10–b (b)), a detailed report shall be submitted to the Commandant (FS). The Commandant will review the evidence submitted, make the necessary debarment determination, and advise all Coast Guard contracting officers and other agencies concerned of any debarment made as a result of such determination.

16. Section 118.01–15 is amended by revising paragraph (b) to read as follows:

§ 118.01–15 *Maintenance and use of the Contract Register.* • • •

(b) At the close of each month the duplicate copy of the Contract Register shall be ruled off and signed by the contracting officer. The completed duplicate shall be forwarded to the Commandant (FS) in time to be received by the 10th of the following month. The original of the Contract Register shall be retained in the unit for the files of the contracting officer. The original need not be ruled off or signed.

17. Part 118 is amended by adding a new § 118.01–19 reading as follows:

§ 118.01–19 *Contract modification*—(a) *General.* Change orders and supplemental agreements are types of contract modifications. Regardless of the form of contract employed, the distinction as to whether a supplemental agreement or a change order is required rests upon whether the contractor is bound by existing contract to perform the proposed change or whether such change cannot be required of him without his consent and acceptance. In connection with change orders and supplemental agreements, it is a requirement that contracts can be modified only in the interests of the United States.

(b) *Change orders.* A change order is ordinarily the proper medium for effecting changes under a contract containing provisions permitting such changes under specified circumstances similar to the standard Changes Clause used in Coast Guard contracts. Such change orders are confined to changes which the contract authorized the Government to make, and since the contract authorizes such changes to be made and since the contractor has agreed that the Government can make such changes (including, under certain circumstances, an equitable adjustment in price), change orders may be issued without the consent of the contractor.

(c) *Supplemental agreements.* A supplemental agreement is the proper medium for effecting changes to a contract which require the consent of the contractor. Supplemental agreements shall be in writing, signed by both parties, and appended to the basic contract.

18. Section 118.02–21 is amended to read as follows:

§ 118.02–21 *Coding of orders, contracts, and contract bulletins*—(a) *General.* Under the provisions of the Armed Services Procurement Act of 1947, approved February 19, 1948 (62 Stat. 21) (41 U. S. C. 151–161), as implemented by instructions issued by the President, the Coast Guard is required to assemble information pertaining to (1) all procurement from small business concerns, and (2) procurement under each of the several circumstances authorizing negotiation. In order to obtain the information for statistical use, appropriate code symbols have been prescribed for use on all purchase or delivery orders, contracts, and contract bulletins pertaining to procurement (see §§ 118.02–22 and 118.02–23).

(b) *Use of code symbols.* All orders issued to commercial suppliers shall bear the applicable code symbols as to (1) Source of Procurement and (2) Circumstances Governing Procurement, in order that the information will be available to permit proper filing of reports in accordance with §§ 116.01–83 to 116.01–86 of this subchapter. When contract bulletins are issued by contracting officers, the applicable code symbols pertaining to each contract shall be shown for the information of all ordering offices.

19. Section 118.02–22 *Coding sources of procurement* is amended by revising the term "Federal Supply Service contracts" to read "Federal Supply Schedule contracts" in paragraph (c).

20. Section 118.02–23 *Coding circumstances governing procurement* is amended by revising the term "Federal Supply Service contracts" to read "Federal Supply Schedule contracts" in paragraph (c).

21. Part 118 is amended by adding a new § 118.04–6 reading as follows:

§ 118.04–6 *Walsh-Healey public contracts act*—(a) *Statutory requirement.* In accordance with the requirement of the Walsh-Healey Public Contracts Act (act of June 30, 1936, as amended; 41 U. S. C. 35–45), all contracts entered into by any Department for the manufacture or furnishing of supplies in any amount exceeding $10,000 shall incorporate by reference the representations and stipulations required by said act pertaining to such matters as minimum wages, maximum hours, child labor, convict labor, safe and sanitary working conditions, and the contractor's status as a manufacturer or regular dealer.

(b) *Applicability.* The requirement set forth in paragraph (a) of this section applies to contracts for the manufacture or furnishing of "materials, supplies, articles, and equipment" which are to be performed within the geographic limits of the continental United States, Alaska, Hawaii, Puerto Rico, Virgin Islands, or the District of Columbia, and which exceed or may exceed $10,000 in amount. Pursuant to the Walsh-Healey Act, the Secretary of Labor has issued detailed regulations and interpretations as to the coverage of said act, and exemptions and procedures thereunder. These regulations and interpretations are compiled in a document entitled "Walsh-Healey Public Contracts Act, Rulings and Interpretations." In addition to the interpretations stated in that document, attention is directed to an opinion of the Department of Labor that contracts which are originally $10,000, are subject to the Walsh-Healey Act; and that contracts in an amount exceeding $10,000, which are subsequently modified to a figure of $10,000 or less, are not subject to said act with respect to work performed after such modification, if modification is effected by mutual agreement.

(c) *Responsibilities of contracting officers.* Whenever the Walsh-Healey Public Contracts Act is applicable, the Contracting Officer shall:

(1) Inform prospective contractors of the possible applicability of minimum wage determinations.

(2) Furnish to the Contractor a form letter (Department of Labor Form PC–12) explaining the Walsh-Healey Act.

(3) Furnish to the Contractor a poster (Department of Labor Form PC–13).

(4) Prepare and forward Standard Form 99 to the Department of Labor in accordance with § 118.01–14.

(5) Report to the Department of Labor, via the Commandant (FS), any violation of the representations or stipulations required by the Walsh-Healey Act.

(62 Stat. 21; 41 U. S. C. 151–161)

Dated: November 16, 1954.

[SEAL] A. C. RICHMOND,
Vice Admiral, U. S. Coast Guard,
Commandant.

PROPOSED RULE MAKING

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Bureau of Federal Credit Unions, Social Security Administration

[45 CFR Parts 301, 302, 310, 315, 320]

PROPOSED MISCELLANEOUS AMENDMENTS

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946 (60 Stat. 238, 5 U. S. C. 1003) that the regulations set forth in tentative form below are proposed to be prescribed by the Director of the Bureau of Federal Credit Unions with approval of the Commissioner of Social Security and the Secretary of Health, Education, and Welfare. The proposed regulations are designed to amend existing regulations by eliminating reference to the Federal Security Agency, by changing designation of payee on checks, drafts, and money orders representing payment of fees by Federal credit unions to the Bureau of Federal Credit Unions and by changing the formula to be used by Federal credit unions for computing transfers to the special reserve for delinquent loans.

Prior to the official adoption of the proposed regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in duplicate to the Director of the Bureau of Federal Credit Unions, Department of Health, Education, and Welfare, Washington 25, D. C., within a period of 15 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under authority contained in section 16 (a) of the Federal Credit Union Act, as amended (48 Stat. 1221, 12 U. S. C. 1766, and sec. 2 of the act of June 29, 1948 (62 Stat. 1091).

Dated: November 9, 1954.

[SEAL] J. DEANE GANNON,
Director,
Bureau of Federal Credit Unions.

Approved:

CHARLES I. SCHOTTLAND,
Commissioner of Social Security.

Approved: November 17, 1954.

OVETA CULP HOBBY,
Secretary of Health, Education, and Welfare.

1. Section 320.6 is hereby amended by striking out the words "Federal Security Agency" and substituting in lieu thereof the words "Department of Health, Education, and Welfare". Sections 301.1 (a), 320.2, and 320.5 are hereby amended by striking out the words "Social Security Administration, Federal Security Agency". Section 301.3 is hereby amended by striking out the words "Federal Security Agency" wherever they may appear therein.

2. Sections 301.1 (b), 301.6 (c), 301.6 (d), 301.7 (e) and 310.12 (a) are hereby amended by striking out the words "Treasurer of the United States" and substituting in lieu thereof the words "Bureau of Federal Credit Unions".

3. In Part 302—Reserves, § 302.3 *Special Reserve for Delinquent Loans* paragraphs (a) and (b) are hereby amended to read as follows:

(a) The Regular Reserve of each Federal credit union shall be supplemented by a special reserve to be known as the Special Reserve for Delinquent Loans, which shall be equal to the excess of the sum of 10 percent of the unpaid balances of loans delinquent more than two months and less than six months, plus 25 percent of the unpaid balances of loans delinquent from 6 months to less than 12 months, and plus 80 percent of the unpaid balances of loans delinquent 12 months or more over the balance in the Regular Reserve. In the event it is necessary to supplement the Regular Reserve by a Special Reserve for Delinquent Loans, the transfer to the Special Reserve for Delinquent Loans shall be made as of December 31 of each year from Undivided Earnings before any distribution of dividends. The maintenance of a Special Reserve for Delinquent Loans shall not eliminate the necessity for transferring net earnings as of December 31 each year to the Regular Reserve as required by paragraph (a) of § 302.2. In the event the required transfer exceeds the balance of Undivided Earnings, only the balance of Undivided Earnings shall be transferred to the Special Reserve for Delinquent Loans.

(b) When, as of December 31 of any year, the amount in the Special Reserve for Delinquent Loans exceeds the amount required by the regulations in this part, the board of directors of the Federal credit union may authorize the transfer of the excess to Undivided Earnings.

TENNESSEE PRODUCTION CO. AND TENNESSEE GAS TRANSMISSION CO

NOTICE OF APPLICATIONS AND ORDER DENYING REQUEST FOR SHORTENED PROCEDURE, CONSOLIDATING PROCEEDINGS, AND FIXING HEARING

In the matters of Tennessee Production Company, Docket Nos. G-2648 and G-4227; Tennessee Gas Transmission Company, Docket No. G-4226.

Tennessee Production Company (Tennessee Production), a Delaware corporation having its principal place of business at Houston, Texas, filed, for itself and for others, an application on August 31, 1954, which was supplemented on September 10, 15, and 17, 1954, in Docket No. G-2648 for authorization pursuant to section 7 of the Natural Gas Act to sell natural gas for resale in interstate commerce as described in the application on file with the Commission, and open to public inspection.

Tennessee Gas Transmission Company (Tennessee Transmission), a Delaware corporation having its principal place of business at Houston, Texas, filed application on October 8, 1954, in Docket No. G-4226 for authorization pursuant to section 7 of the Natural Gas Act to acquire and operate the facilities of Tennessee Production Company as described in the application on file with the Commission and open to public inspection.

Concurrently with the filing of the application by Tennessee Transmission in Docket No. G-4226, Tennessee Production Company filed a companion application in Docket No. G-4227 for authorization to discontinue and abandon its natural gas sales and service subject to the jurisdiction of the Commission, pursuant to section 7 of the Natural Gas Act, as described in the application and open to public inspection.

Tennessee Production and Tennessee Transmission have requested that these proceedings be disposed of under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure.

The Commission finds:

(1) Good cause has not been shown that this proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure.

(2) It is appropriate, reasonable, and in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, to give notice of the aforesaid applications, to consolidate the above-entitled proceedings for purpose of hearing, and to hold a public hearing therein, all as hereinafter provided and ordered.

The Commission orders:

(A) Due notice be given, including publication in the FEDERAL REGISTER, of this notice of applications and order.

(B) The requests that the proceedings be disposed of under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure be and the same hereby are denied.

(C) The aforesaid proceedings on applications filed in Docket Nos. G-2648, G-4226 and G-4227 be and the same hereby are consolidated for the purpose of hearing.

(D) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 2, 1954, at 10:00 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issue presented by the aforesaid applications.

(E) Protests or petitions to intervene may be filed with the Commission in accordance with its rules of practice and procedure, §§ 1.8 and 1.10 (18 CFR 1.8 and 1.10), on or before November 29, 1954.

(F) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: November 15, 1954.

Issued: November 17, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket Nos. G-3774, G-3896]

ARKANSAS LOUISIANA GAS CO.

NOTICE OF APPLICATIONS AND ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

Take notice that Arkansas Louisiana Gas Company (Applicant), a Delaware corporation with its principal office in Shreveport, Louisiana, filed applications for certificates of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, for authority to construct and operate taps, laterals, and incidental facilities to serve firm natural gas to the Town of Wilton, Arkansas (Wilton) and the Town of Emerson, Arkansas (Emerson), as hereinafter described:

Community and docket No.	Date of filing	Fifth year requirements (Mcf)		Size and length of lateral (feet of 2-inch)
		Peak day	Annual	
Wilton, Ark., G-3774	Sept. 30, 1954	180	13,920	23,800
Emerson, Ark., G-3896	Oct. 1, 1954	160	11,775	11,450

Applicant also proposes to construct and operate distribution systems in Wilton and Emerson.

Applicant has requested that its applications be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. The applications are on file with the Commission and open to public inspection.

The Commission finds:

(1) It is appropriate and in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, that due notice of these applications, including publication in the FEDERAL REGISTER, be given as hereinafter provided.

(2) It is appropriate and in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, that said applications be consolidated for purposes of hearing and decision.

(3) It is appropriate and in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, that the applications filed herein on September 30, 1954, and October 1, 1954, should be set down for public hearing as hereinafter provided and ordered.

The Commission orders:

(A) Due notice of these applications be given, including publication in the FEDERAL REGISTER, of this notice of applications and order.

(B) The above-entitled applications be and the same hereby are consolidated for the purpose of hearing and decision.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 2, 1954, at 9:45 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the applications: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(D) Protests or petitions to intervene may be filed with the Commission in accordance with its rules of practice and procedure, §§ 1.8 or 1.10 (18 CFR 1.8 or 1.10), on or before November 30, 1954.

(E) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: November 15, 1954.

Issued: November 17, 1954.

By the Commission.

G-3966	do	do	do	Nome Field, Jefferson County, Tex.
G-4311	Shell Oil Co., a Delaware corporation.	New York, N. Y.	Oct. 28, 1954	Do.

By order issued June 23, 1954, the proceedings at Docket Nos. G-2405 and G-2406 were consolidated for the purpose of hearing.

Due notice, including publication in the FEDERAL REGISTER on November 11, 1954 (19 F. R. 7324–7325), has been given with respect to the filing of applications at Docket Nos. G-2753, G-2788, G-2789, G-2794, G-2795, G-2812, G-2817, G-2830, G-2935, G-3163, G-3606, G-3607, G-3631, G-3637, G-3787, G-3964, G-3965, G-3966, and G-4311.

In addition to the applications above referred to, the Texas Gas Corporation, a Texas corporation having its principal place of business at Houston, Texas, filed, on September 21, 1954, its application at Docket No. G-2935 for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, to transport natural gas, pursuant to an agreement between Texas Gas Corporation and the Texas Gas Pipe Line Corporation, dated April 7, 1954, as amended June 28, 1954.

The above-named applicants, at Docket Nos. G-2794, G-2795, G-2812, G-2817, G-2830, G-2935, G-3163, G-3606, G-3607, G-3965, G-3966, and G-4311 have requested that their applications be heard under the shortened procedure provided by § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)). Such applications are on file with the Commission and open to public inspection.

Also request for temporary certificates of public convenience and necessity have been requested in the following designated matters: G-2753, G-2812,[1] G-2817, G-2935, G-3606, G-3607 and G-4311.

[1] Request for temporary certificate of public convenience and necessity by the Fidelity Oil and Royalty Company, at Docket No. G-2812, denied September 29, 1954.

The reopened proceedings at Docket Nos. G-2405 and G-2406, which reconvened on November 15, 1954, after having previously been adjourned, was further adjourned on request of counsel by the Presiding Examiner to November 29, 1954.

The Commission finds:

(1) Good cause has not been shown for granting the requests of the above-named applicants that their applications be heard under the shortened procedure, as provided by the Commission's rules of practice and procedure.

(2) The foregoing applications, above-referred to, for temporary certificates of public convenience and necessity do not set forth circumstances within the purview of section 7 (c) of the Natural Gas Act which would warrant the issuance of such temporary authorization, and said requests should be denied.

(3) It is reasonable and appropriate in the public interest, in carrying out the provisions of the Natural Gas Act, and good cause exists to further consolidate the proceedings in the above-designated matters and hold a public hearing as hereinafter ordered.

(4) It is reasonable and in the public interest, and good cause exists for fixing the date of hearing in this consolidated proceeding less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders:

(A) The requests of the Applicants above-designated that their applications be heard under the shortened procedure, as provided by the Commission's rules of practice and procedure, be and the same are hereby denied.

(B) The foregoing applications filed for temporary certificates of public convenience and necessity be and the same are hereby denied.

(C) The aforesaid proceedings in the above-designated dockets be and the same are hereby consolidated for the purpose of hearing.

(D) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a public hearing be held in the above-consolidated matters, commencing on November 29, 1954, at 10:00 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the applications herein.

(E) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: November 15, 1954.

Issued: November 17, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 54-9230; Filed, Nov. 22, 1954; 8:46 a. m.]

DEPARTMENT OF AGRICULTURE

Office of the Secretary

NORTH CAROLINA, OKLAHOMA, AND TEXAS; DISASTER ASSISTANCE

DELINEATION AND CERTIFICATION OF COUNTIES CONTAINED IN DROUGHT AREAS

Pursuant to Public Law 875, 81st Congress (42 U. S. C. 1855 et seq.), the President determined on the dates indicated that a major disaster occasioned by drought existed in the following States:

North Carolina	September 23, 1954.
Oklahoma	August 2, 1954.
Texas	July 21, 1954.

Pursuant to the authority delegated to me by the Administrator, Federal Civil Defense Administration (18 F. R. 4609; 19 F. R. 2148; 19 F. R. 5364) and for the purposes of section 2 (d) of Public Law 38, 81st Congress, as amended by Public Law 115, 83d Congress, and section 301 of Public Law 480, 83d Congress, certain counties in the State of North Carolina were on September 23, 1954 (19 F. R. 6417) as amended (19 F. R. 6557; 19 F. R. 6836); certain counties in the State of Oklahoma were on August 10, 1954 (19 F. R. 5155), as amended (19 F. R. 5956, 19 F. R. 6127); and certain counties in the State of Texas were on August 10, 1954 (19 F. R. 5155) as amended (19 F. R. 5388; 19 F. R. 5957; 19 F. R. 6127; 19 F. R. 6417; 19 F. R. 6557) determined to be the areas affected by the major disaster by drought.

Pursuant to the aforesaid delegations the Delineations and Certifications of Counties in Drought Areas, as above described, are herewith amended by adding the counties set forth below, on the dates indicated, to the major disaster areas in the designated States:

NORTH CAROLINA

OCTOBER 29, 1954

Alamance.	Montgomery.
Davie.	Orange.
Durham.	Rowan.
Franklin.	Warren.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29932]

SUPERPHOSPHATE FROM IOWA AND NEBRASKA TO WICHITA, KANS.

APPLICATION FOR RELIEF

NOVEMBER 18, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Superphosphate (acid phosphate), other than ammoniated, in bulk, carloads.

From: Mason City and Perry, Iowa, Omaha and South Omaha, Nebr.

To: Wichita, Kans.

Grounds for relief: Competition with rail carriers, and circuitous routes.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. A-4057, supp. 4.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3299]

WISCONSIN ELECTRIC POWER CO. AND WISCONSIN MICHIGAN POWER CO.

SUPPLEMENTAL ORDER RELEASING JURISDICTION WITH RESPECT TO FEES AND EXPENSES FOR LEGAL AND ACCOUNTING SERVICES

NOVEMBER 17, 1954.

The Commission on October 18, 1954 having issued its order herein pursuant to sections 6, 7, 10 and 12 of the Public Utility Holding Company Act of 1935 and Rules U-43, U-46 and U-50 thereunder, authorizing the following transactions: (1) Issuance and sale at competitive bidding of $3,000,000 principal amount of First Mortgage Bonds by Wisconsin Michigan Power Company ("Wisconsin Michigan"), a public utility company; (2) issuance and sale of 50,000 shares of common stock for a consideration of $1,000,000 by Wisconsin Michigan to its parent Wisconsin Electric Power Company ("Wisconsin Electric"), a registered holding company; (3) issuance of 75,000 shares of common stock by Wisconsin Michigan to Wisconsin Electric as a stock dividend; and

The Commission in said order having reserved jurisdiction over the legal and accounting fees and expenses to be paid in connection with said transactions, including the fees and expenses of counsel for the underwriters; and

Wisconsin Michigan having caused to be filed supplemental data with respect to such fees and expenses which are proposed to be paid as follows: Sullivan & Cromwell, company counsel, a fee of $8,000 and expenses of $375 and Price Waterhouse & Co., accountants, a fee of $3,800 and expenses of $180.20. Cahill, Gordon, Reindel & Ohl, counsel for the underwriters, are to be paid a fee of $4,500 and expenses not in excess of $200.00 by the successful bidders for the mortgage bonds of Wisconsin Michigan; and

The Commission having examined the evidence submitted with respect to the aforesaid fees and expenses and finding that the amounts proposed to be paid are not unreasonable and that it is appropriate in the public interest to release the jurisdiction heretofore reserved:

It is ordered, That the jurisdiction heretofore reserved with respect to the payment of the aforesaid fees and expenses be, and the same hereby is, released.

By the Commission.

[File No. 1-1190]

PATCHOGUE-PLYMOUTH MILLS CORP.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION AND OF OPPORTUNITY FOR HEARING

NOVEMBER 16, 1954.

The American Stock Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 promulgated thereunder, has made application to strike from listing and registration the Common Stock, No Par Value, of Patchogue-Plymouth Mills Corporation.

The reasons alleged in the application for striking this security from listing and registration include the following: As of August 31, 1954, some 26,889 of the 29,180 outstanding shares had been acquired by Pilot International Corporation pursuant to an offer of $55 per share which expired July 21, 1954, and 310 shares were owned by two officers of the issuer. The remaining 1,981 shares were owned by 78 stockholders of record. There has been no trading in said stock on the Exchange for several months and public holdings have become so reduced as to make inadvisable further dealings upon the Exchange.

Upon receipt of a request, prior to December 3, 1954, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-3312]

STANDARD POWER AND LIGHT CORP.

NOTICE OF FILING OF APPLICATION-DECLARATION REGARDING PROPOSED ACQUISITION BY PARENT OF SECURITIES TO BE DISTRIBUTED BY SUB-HOLDING COMPANY UNDERGOING LIQUIDATION AND PROPOSED CASH DISTRIBUTION BY PARENT OUT OF EARNED AND CAPITAL SURPLUS

NOVEMBER 17, 1954.

Notice is hereby given that an application-declaration has been filed with this Commission by Standard Power and Light Corporation ("Power"), a registered holding company, under sections 10 and 12 of the Public Utility Holding Company Act of 1935 ("act") and Rule U-46 promulgated thereunder in respect of certain proposed transactions which are summarized as follows:

Power owns 1,160,000 shares of the common stock of Standard Gas and Electric Company ("Standard"), a registered holding company, which in turn owns all of the outstanding common stock of Philadelphia Company ("Philadelphia"), also a registered holding company. Power, Standard and Philadelphia have been ordered by this Commission to liquidate and dissolve. (See Holding Company Act Release Nos. 3607, 8242, 8773 and 10717.) There are pending before the Commission plans filed by Standard, pursuant to section 11 (e) of the act, to effectuate compliance with the required liquidation of Standard and Philadelphia. (See File Nos. 54-191 and 54-173.)

On October 8, 1954, Standard filed amendments to said plans which provide, among other things, for the distribution by Philadelphia to Standard of 224,467 shares of common stock of Duquesne Light Company ("Duquesne"), a public-utility subsidiary of Philadelphia, and the distribution by Standard to its common stockholders, in partial liquidation, of 216,260.7 shares of Duquesne common stock on the basis of one-tenth (1/10th) share of Duquesne stock for each share of Standard stock. (See Holding Company Act Release No. 12703.)

The application-declaration filed by Power herein requests approval of the acquisition by it of its distributive share (116,000 shares) of the Duquesne common stock to be distributed by Standard.

Power also proposes to make a cash distribution of 40 cents per share, in part out of earned surplus to the full extent thereof and the balance out of capital surplus, to each holder of record of its outstanding 1,320,000 shares of common stock and 110,000 shares of common stock, Series B, on a record date to be fixed by the company. In 1953 and 1954 Power made cash distributions out of capital surplus of 25 cents and 30 cents per share. (See Holding Company Act Release Nos. 12208, 12338, 12555, and 12638.) In connection with such distributions, the Commission reserved jurisdiction to determine and pass upon the extent, if any, to which Power may be liable to H. M. Byllesby and Company ("Byllesby"), a former stockholder, by reason of the payment of such dividends. Such rights as Byllesby may have arise under an agreement dated June 28, 1940, pursuant to which Byllesby surrendered to Power for cancellation 330,000 shares of the latter's common stock, Series B, reserving the right to receive its proportionate share of the assets of Power upon any distribution thereof whether upon dissolution, merger, consolidation, or otherwise, on a parity basis with the holders of the common stock and the common stock, Series B, of Power. (See 7 S. E. C. 596.) Byllesby's rights under said agreement are the subject of a proceeding in which the Commission approved a plan filed by Power under section 11 (e) of the act embodying a settlement agreement between Byllesby and Power. The plan would fix Byllesby's rights with respect to the distribution now proposed by Power but consummation of such plan is conditioned upon its approval by an appropriate court. (See Holding Company Act Release No. 12695.) At the request of Power, the Commission has applied to the United States District Court for the District of Delaware to enforce the terms and provisions of the plan. Power requests the Commission, if it approves the proposed 40 cents per share distribution, to reserve jurisdiction to determine the extent, if any, of Power's liability to Byllesby by reason of such proposed distribution in the event the plan and settlement of Byllesby's rights are not approved by the Court.

At September 30, 1954 Power's only obligations senior to its common stock were a bank loan in the amount of $1,500,000 which matures on July 29, 1955, current liabilities of $34,500 and a reserve for legal and other fees and expenses of $142,598. It had earned surplus of $201,527 and a capital surplus of $130,741,163. Its investment in portfolio securities stated on its books at $133,844,638 had a market value of $30 491,121. Power represents that the proposed distribution will not adversely affect the aforesaid bank loan or impair or prejudice such rights as Byllesby may have if the aforesaid settlement agreement and plan are not approved by the Court.

The application-declaration states that no commission other than this Commission has jurisdiction over the proposed transactions. The fees and expenses to be incurred in connection with the proposed transactions, exclusive of counsel fees, are estimated not to exceed $500. Counsel fees will not be separately billed but will be included in counsel's retainers or in any fee application to the Commission in connection with services rendered under section 11 of the act.

Notice is further given that any interested person may, not later than December 2, 1954, at 5:30 p. m., request the Commission in writing that a hearing be held on such matters stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert, or may request that he be notified if the Commission orders a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File Nos. 811-127, 811-130]

INDEPENDENCE FUND TRUST CERTIFICATES ET AL.

NOTICE OF FILING OF APPLICATIONS FOR ORDERS TERMINATING REGISTRATION AS INVESTMENT COMPANY

NOVEMBER 17, 1954.

In the matter of Independence Fund Trust Certificates, National Securities & Research Corporation, File No. 811-127; First Mutual Trust Fund, National Securities & Research Corporation, File No. 811-130.

Notice is hereby given that National Securities & Research Corporation ("National Securities"), sponsor and underwriter of Independence Fund Trust Certificates ("Independence"), a registered unit investment company, and of First Mutual Trust Fund ("First Mutual"), a registered open-end investment company, has filed separate applications, with amendments thereto, seeking entry of an order, pursuant to section 8 (f) of the act, declaring that Independence and First Mutual, respectively, have ceased to be investment companies.

Independence was organized pursuant to trust agreement dated as of July 1, 1931, between National Securities, the Empire Trust Company, successor trustee, and the holders of certificates issued by Independence. Certificates of Independence have not been publicly offered since December 1937. Payments on all of the outstanding certificates of Independence were invested in shares of First Mutual Trust Fund.

Shares of First Mutual were issued under a trust agreement dated as of March 1, 1937, between National Securities, Empire Trust Company, Trustee, and the holders from time to time of shares of First Mutual. Shares of First Mutual have not been publicly offered since June 30, 1952.

On September 19, 1952, this Commission entered its order (Investment Company Act Release No. 1794) permitting National Securities Series, an open-end diversified management company, sponsored by National Securities, to offer to the holders of certificates of Independence and the holders of shares of First Mutual, the right to purchase, at no sales load, such number of shares of National Securities Series—Balanced Series, as could be purchased from the proceeds of liquidation of their holdings in Independence and First Mutual, respectively.

According to the applications all certificates or shares of Independence and First Mutual have been liquidated and the proceeds either utilized for the purchase of shares of National Securities Series—Balanced Series or, with the exception noted below, paid to such holders in cash.

The amended applications state that all certificates or shares have been liquidated, as shown above; that neither Independence or First Mutual have any assets or liabilities; that pursuant to the deeds of trust under which these companies were organized, disposition of all assets and filing of necessary tax returns effects termination of the trust; that the expenses incurred in the termination of the trusts were nominal and paid by National Securities; and that there is on deposit in the custodian account of Empire Trust Co. the amounts of $2,260 and $2,235 held for the sole benefit of two holders of unsurrendered certificates of shares of First Mutual, respectively.

Section 8 (f) of the act provides, in relevant part, that whenever the Commission, on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 3, 1954, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-9250; Filed, Nov. 22, 1954; 8:49 a. m.]

[File No. 70-3302]

EASTERN UTILITIES ASSOCIATES

NOTICE OF FILING REGARDING SALE OF BONDS AT COMPETITIVE BIDDING

NOVEMBER 17, 1954.

Notice is hereby given that a declaration and an amendment thereto have been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935 (the "act"), by Eastern Utilities Associates ("EUA"), a registered holding company. EUA has designated sections 7 and 12 of the Act and Rules U-42 (b) (2) and U-50 thereunder as applicable to the proposed transactions, which are summarized as follows:

EUA proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $7,250,000 principal amount of Collateral Trust Bonds, __ Percent Series due 1979. The proposed bonds will be secured by an Indenture and Deed of Trust, dated October 1, 1953, as supplemented by a First Supplemental Indenture, dated as of December 1, 1954. Under said Indenture EUA has pledged all of the voting stock it now holds of its public-utility subsidiaries, Blackstone Valley Gas and Electric Company ("Blackstone"), Brockton Edison Company ("Brockton"), and Fall River Electric Light Company ("Fall River") and all such stock hereafter acquired will likewise be pledged. The interest rate applicable to the proposed bonds (which is to be a multiple of 1/8 of 1 percent) and the price to be paid EUA (which is to be not less than 100 percent or more than 102.75 percent of the principal amount) are to be fixed at competitive bidding.

EUA presently has outstanding $6,930,000 principal amount of 4 3/8 percent bonds due 1978. It is stated that the proceeds to be derived from the proposed bonds will be used to redeem and retire the bonds of the 1978 series and for the purpose of paying call premium at 4 1/4 percent on such bonds and one month's interest aggregating approximately $320,000.

EUA has agreed that so long as any of the proposed bonds remain outstanding, if at the end of any calendar year the consolidated equity ratio of EUA and its subsidiaries applicable to its common shares is less than 30 percent of total consolidated capitalization, or if at the end of any calendar year the consolidated funded debt ratio is in excess of 60 percent of such total capitalization, EUA will initiate, within 90 days after the year-end figures have been determined, appropriate proceedings, to be approved by this Commission, designed to bring such equity ratio above 30 percent or such debt ratio below 60 percent as the case may be. EUA reserves the right to request the Commission for modification of such agreement if future circumstances make such action desirable.

The fees and expenses in connection with the issue and sale of the proposed bonds are estimated as follows:

Securities and Exchange Commission filing fee	$750
Federal original issue taxes	7,975
Legal fee and disbursements of Gaston, Snow, Rice & Boyd, counsel for EUA	6,750
Legal fee and disbursements of Bingham, Dana & Gould, counsel for the indenture trustee	1,500
Legal fee and disbursements of Edwards & Angell, counsel for Blackstone	500
Legal fee and disbursements of Corcoran, Foley & Flynn, counsel for Blackstone	250
Legal fee and disbursements of Keith, Reed & Wheatley, counsel for Brockton	500
Legal fee and disbursements of Richard K. Hawes, Esquire, counsel for Fall River	500
Costs and fees for qualifying under "Blue Sky Laws"	1,500
Printing and engraving	15,000
Fee of indenture trustee	5,000
Accountants' fees and expenses of Patterson, Teele & Dennis	1,000
Miscellaneous expenses	2,775

It is stated that no State or Federal commission other than this Commission has jurisdiction over the proposed issue and sale of said bonds.

EUA requests that the Commission's order herein become effective upon the issuance thereof.

Notice is further given that any interested person may, not later than November 29, 1954, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or

reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the declaration, as filed or as further amended, may be permitted to become effective.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 811-328]

CAPITAL ADMINISTRATION CO., LTD.

NOTICE OF FILING OF APPLICATION FOR ORDER DECLARING THAT COMPANY HAS CEASED TO BE INVESTMENT COMPANY

NOVEMBER 17, 1954.

Notice is hereby given that Tri-Continental Corporation ("Tri-Continental"), a registered closed-end, diversified investment company under the Investment Company Act of 1940, the surviving corporation in the merger between Tri-Continental and Capital Administration Company, Ltd. ("Capital Administration"), also a registered closed-end, diversified investment company, has filed an application pursuant to section 8 (f) of the act for an order of the Commission declaring that Capital Administration has ceased to be an investment company.

The application states that the Articles of Merger, dated as of April 8, 1953, between Tri-Continental and Capital Administration, providing for the merger of Capital Administration into Tri-Continental, became effective on that date and thereupon, the separate existence and corporate organization of Capital Administration, except insofar as continued by statute, ceased. By an Opinion and Order dated March 6, 1953 (Investment Company Act Release 1845) this Commission granted an exemption from sections 17 (a) (1) and (2) of the act with respect to said merger.

Section 8 (f) of the act provides, in part, that whenever the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and that upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 7, 1954, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

DEPARTMENT OF JUSTICE

Office of Alien Property

JEAN JOSEPH MARTIN LAMBERT MARCHAND

NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Pursuant to section 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of publication hereof, the following property located in Washington, D. C., including all royalties accrued thereunder and all damages and profits recoverable for past infringement thereof, after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., and Property

Jean Joseph Martin Lambert Marchand, The Hague, Netherlands, Claims Nos. 41840 and 41860; property described in Vesting Order No. 671 (8 F. R. 5004, April 17, 1943) relating to United States Letters Patent No. 2,124,858; and property described in Vesting Order No. 1187 (8 F. R. 7036, May 27, 1943) relating to United States Patent Application Serial Nos. 469,105 (now United States Letters Patent No. 2,443,470) 469,106 (now United States Letters Patent No. 2,416,398) and Serial No. 684,277 being a division of original Patent Application Serial No. 469,106.

Executed at Washington, D. C., on November 16, 1954.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND, *Assistant Attorney General, Director, Office of Alien Property.*

[F. R. Doc. 54-9237; Filed, Nov. 22, 1954; 8:48 a. m.]

ABRAHAM MOSHE (MAURICE) KRIEGLER

NOTICE OF INTENTION TO RETURN VESTED PROPERTY

Pursuant to section 32 (f) of the Trading With the Enemy Act, as amended, notice is hereby given of intention to return, on or after 30 days from the date of publication hereof, the following property, subject to any increase or decrease resulting from the administration thereof prior to return, and after adequate provision for taxes and conservatory expenses:

Claimant, Claim No., Property, and Location

Abraham Moshe (Maurice) Kriegler, Jerusalem, Israel. Claim No. 60891, Vesting Order Nos. 4236 and 5664; $448.15 in the Treasury of the United States.

Executed at Washington, D. C., on November 17, 1954.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND, *Assistant Attorney General, Director, Office of Alien Property.*

UNITED STATES TARIFF COMMISSION

[Investigation 39]

HARDWOOD PLYWOOD

NOTICE OF HEARING

The United States Tariff Commission announces a public hearing, to begin at 10 a. m., e. s. t., on March 22, 1955, in the Hearing Room of the Tariff Commission, Eighth and E Streets NW., Washington, D. C., in connection with Investigation No. 39 under section 7 of the Trade Agreements Extension Act of 1951, as amended, and section 332 of the Tariff Act of 1930, instituted September 16, 1954, with respect to hardwood plywood, described in the public notice of this investigation previously given (19 F. R. 6091).

Request to appear at hearings. Parties interested will be given opportunity to be present, to produce evidence, and to be heard at the above-mentioned hearing. Such parties desiring to appear at the hearing should notify the Secretary of the Commission, in writing, at least three days in advance of the date of hearing.

I certify that the above hearing was ordered by the Tariff Commission on the 17th day of November 1954.

Issued: November 18, 1954.

[SEAL] DONN N. BENT, *Secretary.*

VOLUME 19 NUMBER 228

Washington, Wednesday, November 24, 1954

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10578

CREATING AN EMERGENCY BOARD TO INVESTIGATE A DISPUTE BETWEEN CERTAIN CARRIERS REPRESENTED BY THE EASTERN, WESTERN, AND SOUTHEASTERN CARRIERS' CONFERENCE COMMITTEES AND CERTAIN OF THEIR EMPLOYEES

WHEREAS a dispute exists between certain carriers represented by the Eastern, Western, and Southeastern Carriers' Conference Committees which are designated in List A attached hereto and made a part hereof, and certain of their employees represented by the Order of Railway Conductors and Brakemen, a labor organization; and

WHEREAS this dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS this dispute, in the judgment of the National Mediation Board, threatens substantially to interrupt interstate commerce to a degree such as to deprive the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U. S. C. 160), I hereby create a board of three members, to be appointed by me, to investigate the said dispute. No member of the said board shall be pecuniarily or otherwise interested in any organization of employees or any carrier.

The board shall report its findings to the President with respect to the said dispute within thirty days from the date of this order.

As provided by section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by any of the carriers involved or their employees in the conditions out of which the said dispute arose.

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
November 23, 1954.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 141b—STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN-(OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 141c—CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE-(OR TETRACYCLINE-) CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 146b—CERTIFICATION OF STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS

PART 146c—CERTIFICATION OF CHLORTETRACYCLINE (OR TETRACYCLINE) AND CHLORTETRACYCLINE- (OR TETRACYCLINE-) CONTAINING DRUGS

PART 146d—CERTIFICATION OF CHLORAMPHENICOL AND CHLORAMPHENICOL-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371; 67 Stat. 18), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR Parts 141b, 141c; 19 F. R. 1141) and certification of antibiotic and antibiotic-containing drugs (21 CFR Parts 146b, 146c, 146d; 19 F. R. 673, 1141, 2696, 3563, 5333) are amended as indicated below:

1. Part 141b is amended by adding the following new section:

§ 141b.127 *Streptomycin-chlortetracycline-chloramphenicol-bacitracin dental cement; dihydrostreptomycin-chlortetracycline-chloramphenicol-bacitracin dental cement*—(a) *Potency*—(1) *Streptomycin or dihydrostreptomycin content*—(i) *Reagents.* (*a*) Sodium nitroprusside solution, 10 percent (w/v).

(*b*) Potassium ferricyanide solution, 10 percent (w/v).

(*c*) Sodium hydroxide solution, 10 percent (w/v).

(*d*) Oxidized nitroprusside solution.

Mix equal volumes of the 10-percent sodium nitroprusside, 10-percent potassium ferricyanide, and 10-percent sodium hydroxide solutions in the order named. A deep-red color is formed which changes to a yellow green after standing at room temperature for approximately 15 minutes. Dilute 1.0 milliliter of this yellow-green solution with water to 100 milliliters and shake. This is the oxidized nitroprusside solution to be used in the test. It should be prepared fresh daily. Each of the 10-percent solutions described is stable for at least 2 months when stored in amber bottles.

(*e*) 0.3 percent piperidine in acetone.

(*f*) Acetone.

(ii) *Preparation of standard.* Prepare aqueous solutions of the working standards of streptomycin or dihydrostreptomycin containing 0.2 milligram per milliliter. Transfer 1.0, 2.0, 3.0, 4.0, 5.0, 6.0, and 7.0 milliliter portions to small flasks. Add sufficient water to give each a 10-milliliter volume.

(iii) *Preparation of sample.* Place an accurately weighed portion of approximately 700 milligrams of the dental cement in a sintered-glass filter funnel and wash with three successive 5-milliliter portions of 0.3-percent piperidine in acetone. Remove any residual piperidine with two 5-milliliter portions of acetone and suck dry with vacuum. To the residue on the filter add 10 milliliters of distilled water and 10 milliliters of the oxidized nitroprusside solution. Shake, and after 6 minutes filter and read the color as directed below.

(iv) *Blank.* Use 10 milliliters of distilled water.

(v) *Procedure.* To each flask containing 10 milliliters of the standard and blank add 10 milliliters of the oxidized nitroprusside solution and allow the color to develop at room temperature for 6 minutes. Determine the optical density of each of the standard solutions and the sample at 490 millimicrons, using a suitable spectrophotometer. The blank is used to set the instrument to zero optical density. The orange-red color produced is stable for 30 minutes. Prepare a standard curve on coordinate graph paper, plotting the optical density on the ordinate scale and the concentration of streptomycin or dihydrostreptomycin base on the abscissa. For the sample, the optical density found is used to obtain the concentration of streptomycin or dihydrostreptomycin directly from the standard curve. To obtain the potency of the sample, multiply the concentration found by the appropriate factors in accordance with the dilutions made. Its content of streptomycin or dihydrostreptomycin is satisfactory if it contains not less than 85 percent of the number of milligrams that it is represented to contain.

(2) *Chlortetracycline content*—(i) *Reagents.* Mix 8 volumes of 20-percent (w/v) K_2HPO_4 with 1 volume of 20-percent (w/v) KH_2PO_4.

(ii) *Apparatus.* (*a*) A Coleman electronic photofluorometer (Model 12) or a similar instrument, equipped with filter b–1 for incident light and filter b–2 for emitted fluorescence.

(*b*) Matched 18 x 150-millimeter Pyrex test tubes.

(iii) *Preparation of standards.* (*a*) Prepare the fluorometric standard by dissolving 20 milligrams of U. S. P. quinine sulfate in 1 liter of 0.1 *N* H_2SO_4. Dilute 5 milliliters of this stock standard to 200 milliliters with 0.1 *N* H_2SO_4. Store these standards in the dark.

(*b*) Prepare solutions of the chlortetracycline hydrochloride working standard to contain 5, 10, and 20 micrograms per 10 milliliters.

(iv) *Procedure.* Using the diluted quinine standard, set the fluorometric reading at 35.0. Make a homogenous slurry of 500 milligrams of the dental cement in 500 milliliters of water. Place a 10-milliliter portion of the slurry in one of the matched test tubes and add 2.0 milliliters of the buffer reagent. Centrifuge for 3 minutes at 3,000 r. p. m. and immediately read the blank fluorescence of this solution. Stir the solution and heat on a steam bath for 5 minutes. Cool, and wipe the inside surface of the test tube with a swab of glass wool. Centrifuge for 5 minutes at 3,000 r. p. m. and read the fluorescence within 1 hour. Subtract the initial blank fluorescence reading. Calculate the chlortetracycline content by reference to a standard curve prepared by treating the chlortetracycline standard solutions in a similar fashion. It is not necessary to centrifuge the standard solutions. Its content of chlortetracycline is satisfactory if it contains not less than 85 percent of the number of milligrams that it is represented to contain.

(3) *Chloramphenicol content*—(i) *Reagents.* (*a*) Ethyl acetate.

(*b*) Sodium hydrosulfite.

(*c*) 0.1 *N* NaOH.

(*d*) 5-percent $NaNO_2$.

(*e*) Concentrated HCl.

(*f*) 5-percent ammonium sulfamate.

(*g*) 0.5-percent N(1-naphthylethylenediamine dihydrochloride).

(ii) *Standard.* Prepare the standard by dissolving 20 milligrams of chloramphenicol working standard in 500 milliliters of water.

(iii) *Procedure.* Place 500 milligrams of the dental cement in a 50-milliliter volumetric flask and add 25 milliliters of ethyl acetate. Heat to boiling on a steam bath. Cool and dilute to mark with ethyl acetate. Centrifuge, and place 15 milliliters of the clear solution in a 100-milliliter volumetric flask. Evaporate to dryness on a steam bath with the aid of a stream of compressed air. Dissolve the residue in a 3-milliliter portion of 0.1 *N* NaOH, add 25 milligrams of sodium hydrosulfite, and let stand at room temperature for 15 minutes. Add 0.5 milliliter of 5-percent $NaNO_2$ and 5 to 10 drops of concentrated HCl. After 2 minutes, add 1 milliliter of ammonium sulfamate. Wait 2 minutes and add 0.5 milliliter of N(1-naphthylethylenediamine dihydrochloride). Make to 100 milliliters and after 2 hours read the absorbance at 558 millimicrons in a 2-centimeter cell against a reagent blank, using a suitable spectrophotometer. To 4.0, 5.0, and 6.0 milliliter portions of the standard chloramphenicol solution add 3 milliliters of 0.1 *N* NaOH and proceed as above, beginning with the addition of 25 milligrams of sodium hydrosulfite. From the readings obtained plot a standard curve and calculate the quantity of chloramphenicol in the sample from the standard curve. Its content of chloramphenicol is satisfactory if it contains not less than 85 percent of the number of milligrams that it is represented to contain.

(4) *Bacitracin content.* Weigh 2 grams of the dental cement and transfer to a sintered-glass funnel of medium porosity. Wash the cement six times with 5-milliliter portions of 0.3 percent piperidine in acetone solution, using an Erlenmeyer suction flask and vacuum. Wash the residue with four 10-milliliter portions of distilled water. Withdraw under vacuum, pool washings, and add sufficient water to give a bacitracin concentration of 2 units per milliliter. To a 10-milliliter portion of this solution add 2 milliliters of a buffer solution consisting of 8 parts of a 20-percent dibasic potassium phosphate solution and 1 part of a 20-percent monobasic potassium phosphate solution. Heat this solution with steam for 3½ minutes and cool immediately. Adjust to pH 6.0 with approximately 1.5 milliliters of 1 *N* HCl and add enough sterile distilled water to give a final bacitracin concentration of 1 unit per milliliter. Assay by the method prescribed in § 141a.49 of this chapter, using the dihydrostreptomycin-resistant strain of M. flavus (P. C. I. 16 R. D.). Its content of bacitracin is satisfactory if it contains not less than 85 percent of the number of units that it is represented to contain.

(b) *Moisture.* Proceed as directed in § 141a.5 (a) of this chapter.

2. In § 141c.206 *Chlortetracycline ophthalmic*, the headnote and paragraph (a) are amended to read:

§ 141c.206 *Chlortetracycline ophthalmic; tetracycline hydrochloride ophthalmic*—(a) *Potency.* If it is tetracycline hydrochloride ophthalmic, proceed as directed in § 141c.218 (a); if it is chlortetracycline ophthalmic, proceed as directed in § 141c.201 (a). Its potency is satisfactory if it contains not less than 85 percent of the number of milligrams that it is represented to contain.

3. Section 146c.202 (c) (1) (iii) is republished for codification purposes:

§ 146c.202 *Chlortetracycline ointment* • • •

(c) *Labeling.* • • •

(1) • • •

(iii) The statement "Expiration date ---------," the blank being filled in with the date which is 24 months, if it is chlortetracycline calcium ointment or tetracycline hydrochloride ointment, or 36 months, if it is chlortetracycline hydrochloride ointment, after the month during which the batch was certified: *Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container.

4. Part 146b is amended by adding the following new section:

§ 146b.122 *Streptomycin-chlortetracycline-chloramphenicol-bacitracin dental cement, dihydrostreptomycin-chlortetracycline-chloramphenicol-bacitracin dental cement*—(a) *Standards of identity, strength, quality, and purity.* Streptomycin - chlortetracycline - chloramphenicol-bacitracin dental cement and dihydrostreptomycin-chlortetracycline-chloramphenicol-bacitracin dental cement are streptomycin or dihydrostreptomycin, chlortetracycline, chloramphenicol, and bacitracin in a base composed of suitable and harmless inert inorganic salts and oxides. Its moisture content is not more than 1 percent. It contains not less than 1.0 milligram of streptomycin or dihydrostreptomycin, not less than 1.0 milligram of chlortetracycline, not less than 1.0 milligram of chloramphenicol, and not less than 50 units of bacitracin per gram. The streptomycin used conforms to the standards prescribed by § 146b.101 (a), except § 146b.101 (a) (2), (4), and (5). The dihydrostreptomycin used conforms to the standards prescribed by § 146b.103, except the standards for sterility, pyrogens, and histamine. The chlortetracycline used conforms to the standards prescribed by § 146c.201 (a) of this chapter, except § 146c.201 (a) (2), (4), and (5). The chloramphenicol used conforms to the standards prescribed by § 146d.301 (a) of this chapter, except § 146d.301 (a) (2), (4), and (5). The bacitracin used conforms to the standards prescribed by § 146e.401 (a) of this chapter, except § 146e.401 (a) (2) and (4). Each other ingredient used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

(b) *Packaging.* Each batch of dental cement shall be packaged in immediate containers of transparent glass that meet the test for tight containers as defined by the U. S. P., and so sealed that the contents cannot be used without destroying such seal. The immediate container and closure shall be such as will not cause any change in the strength, quality, or purity of the contents beyond any limit therefor in applicable standards, except that minor changes so caused that are normal and unavoidable in good packaging, storage, and distribution practice shall be disregarded.

(c) *Labeling.* Each package shall bear on its label or labeling, as hereinafter indicated, the following:

(1) On the outside wrapper or container and the immediate container:

(i) The batch mark.

(ii) The number of milligrams of streptomycin or dihydrostreptomycin, chlortetracycline, and chloramphenicol and the number of units of bacitracin in each gram of the batch.

(iii) The statement "Expiration date ---------," the blank being filled in with the date that is 12 months after the month during which the batch was certified: *Provided, however,* That such expiration date may be omitted from the immediate container if such immediate container is packaged in an individual wrapper or container.

(2) On the outside wrapper or container, the statement "Caution: Federal law prohibits dispensing without prescription."

(3) On the circular or other labeling within or attached to the package, if it is packaged for dispensing, adequate directions and warnings for its use by practitioners licensed by law to administer such drug.

(d) *Request for certification; samples.* (1) In addition to complying with the requirements of § 146.2 of this chapter, a person who requests certification of a batch shall submit with his request a statement showing the batch mark, the number of packages of each size in such batch, the batch mark and (unless they were previously submitted) the dates of the latest tests and assays of the streptomycin or dihydrostreptomycin, chlortetracycline, chloramphenicol, and bacitracin used in making the batch.

(2) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request results of the tests and assays listed after each of the following, made by him on an accurately representative sample of:

(i) The batch: Potency and moisture.

(ii) The streptomycin or dihydrostreptomycin used in making the batch: Potency, toxicity, moisture, pH, streptomycin content if it is dihydrostreptomycin, and crystallinity if it is crystalline dihydrostreptomycin sulfate.

(iii) The chlortetracycline used in making the batch: Potency, toxicity, moisture, and pH.

(iv) The chloramphenicol used in making the batch: Potency, toxicity, pH, specific rotation, melting point, and extinction coefficient.

(v) The bacitracin used in making the batch: Potency, toxicity, moisture, and pH.

(3) Except as otherwise provided by subparagraph (4) of this paragraph, such person shall submit in connection with his request, in the quantities hereinafter indicated, accurately representative samples of the following:

(i) The batch: 1 package for each 500 packages in the batch, but in no case less than 6 packages nor more than 12 packages.

(ii) The streptomycin or dihydrostreptomycin used in making the batch: 5 packages containing approximately equal portions of not less than 0.5 gram.

(iii) The chlortetracycline used in making the batch: 10 packages, each containing approximately equal portions of not less than 60 milligrams.

(iv) The chloramphenicol used in making the batch: 10 packages, each containing approximately equal portions of not less than 300 milligrams.

(v) The bacitracin used in making the batch: 6 packages, each containing approximately equal portions of not less than 0.5 gram.

(vi) In case of an initial request for certification, each other ingredient used in making the batch: 1 package of each containing approximately 5 grams.

(4) No result referred to in subparagraph (2) (ii); (iii), (iv), and (v) of this paragraph, and no sample referred to in subparagraph (3) (ii), (iii), (iv), and (v) of this paragraph, is required if such result or sample has been previously submitted.

(e) *Fees.* The fee for the services rendered with respect to each batch under the regulations in this part shall be:

(1) $4.00 for each package in the samples submitted in accordance with paragraph (d) (3) (i), (ii), (iii), (iv), (v), and (vi) of this section.

(2) If the Commissioner considers that investigations other than examination of such packages are necessary to determine whether or not such batch complies with the requirements of § 146.3 of this chapter for the issuance of a certificate, the cost of such investigations.

The fee prescribed by subparagraph (1) of this paragraph shall accompany the request for certification unless such fee is covered by an advance deposit maintained in accordance with § 146.8 (d) of this chapter.

5. Section 146c.206 *Chlortetracycline ophthalmic* • • • is amended as follows:

a. The section headnote and paragraph (a) are amended to read:

§ 146c.206 *Chlortetracycline ophthalmic (chlortetracycline hydrochloride ophthalmic); tetracycline hydrochloride ophthalmic*—(a) *Standards of identity, strength, quality, and purity.* Chlortetracycline ophthalmic and tetracycline hydrochloride ophthalmic is crystalline chlortetracycline or crystalline tetracycline hydrochloride, with or without one or more suitable and harmless preservatives, buffer substances, and diluents. It is sterile. Its moisture content is not more than 5 percent. The chlortetracycline or tetracycline hydrochloride is of such quantity that when dissolved as directed the potency of such solution is not less than 1,000 micrograms per milliliter and maintains its labeled potency after it has been kept for 2 days at a temperature of 15° C. (59° F.). Such solution has a pH of 8.2, ± 0.2. The chlortetracycline used conforms to the requirements of § 146c.201 (a) except subparagraphs (2), (4), and (5) and the tetracycline hydrochloride used conforms to the requirements of § 146c.218 (a) except subparagraphs (2), (4), and (5). Each other buffer and diluent used, if its name is recognized in the U. S. P. or N. F., conforms to the standards prescribed therefor by such official compendium.

b. Paragraph (b) *Packaging* is amended by deleting the words "of chlortetracycline ophthalmic" from the first sentence.

c. Paragraph (c) *Labeling* is amended by changing the words "36 months" in the first sentence of subparagraph (1) (iii) to read "12 months if it is tetracycline hydrochloride ophthalmic or 36 months if it is chlortetracycline ophthalmic".

d. In paragraph (d) *Request for certification; samples,* subparagraph (1) is amended by deleting the words "of chlortetracycline ophthalmic" and by changing the words "chlortetracycline used" to read "chlortetracycline or tetracycline hydrochloride used".

e. Paragraph (d) (2) (ii) is amended to read:

(ii) The chlortetracycline or tetracycline hydrochloride used in making the batch; potency, toxicity, moisture, pH, crystallinity, and extinction coefficient, if it is tetracycline hydrochloride.

f. Paragraph (d) (3) (ii) is amended by changing the word "chlortetracycline" to read "chlortetracycline or tetracycline hydrochloride".

6. In § 146d.305 *Chloramphenicol palmitate,* paragraph (c) (3) is amended by changing the number "24" to "36".

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: November 18, 1954.

OVETA CULP HOBBY,
Secretary.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix C—Public Land Orders

[Public Land Order 1032]

ALASKA

WITHDRAWING PUBLIC LANDS FOR USE OF THE DEPARTMENT OF THE ARMY IN CONNECTION WITH THE HAINES-FAIRBANKS PRODUCTS PIPELINE SYSTEM

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described public lands in Alaska are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved under jurisdiction of the Department of the Army, for terminal facilities in connection with the Haines-Fairbanks Products Pipeline System, as authorized by the act of September 28, 1951 (65 Stat. 336):

COPPER RIVER MERIDIAN

T. 30 S., R. 59 E.,
Sec. 15, N½NW¼SE¼, N½N½S½NW¼SE¼.

The areas described aggregate approximately 25 acres.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

NOVEMBER 17, 1954.

[F. R. Doc. 54-9255; Filed, Nov. 23, 1954; 8:45 a. m.]

[Public Land Order 1033]

OREGON

WITHDRAWING PUBLIC LANDS FOR USE OF THE DEPARTMENT OF THE ARMY FOR FLOOD CONTROL PURPOSES

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 11, 36; 16 U. S. C. 473) and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Subject to valid existing rights, the following-described lands within the Willamette National Forest are hereby withdrawn from all forms of appropriation under the public land laws, including the mining and mineral-leasing laws, and reserved for use in construction of the Lookout Point Dam Project, Oregon, under the supervision of the Department of the Army, as authorized by the act of June 28, 1938 (52 Stat. 1215):

WILLAMETTE MERIDIAN

T. 20 S., R. 1 E.,
Sec. 2, lot 7;
Sec. 3, lots 5, 7, and 8, NE¼SW¼ and SE¼SE¼;
Sec. 11, NW¼.
T. 20 S., R. 2 E.,
Sec. 19, N½NE¼, SE¼NE¼;
Sec. 21, lots 1 to 7, inclusive, SW¼SW¼, and S½NW¼SE¼;
Sec. 27, lots 1, 2, 3, 6 and 8, W½NE¼, NE¼NW¼, NW¼SE¼, that part of lot 7 lying northeasterly of the northeast boundary of the right-of-way of the Willamette Highway (State Highway No. 58) and that part of lot 7 lying east of a straight line extending from the northwest corner of said lot 6 to the northeast corner of said lot 1.

The areas described aggregate 856.94 acres.

This order shall take precedence over but not otherwise affect existing withdrawals of the lands for national forest and power site purposes.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

NOVEMBER 17, 1954.

[F. R. Doc. 54-9256; Filed, Nov. 23, 1954; 8:45 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 115]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is canceled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURES

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for air route operation in the particular area or as set forth below.

City and State; airport name; radio facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—), side of final course; initial approach altitude (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility for procedure; final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. h. or less	Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized minimums after passing facility within distance specified, or if landing not accomplished
1	2	3	4	5	6		8	9	10	11
BELLINGHAM, WASH Bellingham, 158' SBRAZ-DTV BLI Procedure No. 1 Effective: December 25, 1954. Amendment No. 7 Supersedes M-6 dated December 19, 1952. Major changes: New format; delete unnecessary notes. 2. The automatic direction finding procedures prescribed in § 609.8 are amended to read in part:

ADF STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an ADF instrument approach is conducted at this below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility: class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. h. or less	Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

3. The very high frequency omnirange procedures prescribed in § 609.9 (a) are amended to read in part:

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in statute miles unless otherwise indicated. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.
If a VOR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure authorized by the Administrator for Civil Aeronautics for such airport. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

City and State; airport name, elevation; facility; class and identification; procedure No.; effective date	Initial approach to facility from—	Course and distance	Minimum altitude (ft.)	Procedure turn (—) side of final approach course (outbound and inbound); altitudes; limiting distances	Minimum altitude over facility on final approach course (ft.)	Course and distance, facility to airport	Ceiling and visibility minimums: Condition	Type aircraft: 75 m. p. b. or less	Type aircraft: More than 75 m. p. h.	If visual contact not established at authorized landing minimums after passing facility within distance specified, or if landing not accomplished

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Orange Reg. 267]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.707 *Orange Regulation 267*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of all oranges, except Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than November 25, 1954. Shipments of all oranges, except Temple oranges, grown in the State of Florida, are currently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and, unless sooner terminated, will so continue until November 29, 1954; the recommendation and supporting information for continued regulation subsequent to November 24, 1954, and in the manner herein provided, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 22; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of all oranges, except Temple oranges; and compliance with this section will not require any special preparation on the part of the person subject thereto which cannot be completed by the effective time hereof.

(b) *Order.* (1) Orange Regulation 265 (7 CFR 933.701; 19 F. R. 6989) is hereby terminated at 12:01 a. m., e. s. t., November 25, 1954.

(2) During the period beginning at 12:01 a. m., e. s. t., November 25, 1954, and ending at 12:01 a. m., e. s. t., December 27, 1954, no handler shall ship:

(i) Any oranges, except Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet; or

(ii) Any oranges, except Temple oranges, grown in the State of Florida, which are of a size smaller than $2^{10}/_{16}$ inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of oranges smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the revised United States Standards for Florida oranges (§§ 51.1140 to 51.1186 of this title): *Provided*, That in determining the percentage of oranges in any lot which are smaller than $2^{10}/_{16}$ inches in diameter, such percentage shall be based only on those oranges in such lot which are of a size $2^{13}/_{16}$ inches in diameter and smaller.

(3) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida oranges (§§ 51.1140 to 51.1186 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 23, 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 54-9350; Filed, Nov. 23, 1954; 11:48 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter G—Procurement

PART 591—PROCUREMENT BY FORMAL ADVERTISING

PART 592—PROCUREMENT BY NEGOTIATION

PART 595—FOREIGN PURCHASES

PART 601—LABOR

PART 602—GOVERNMENT PROPERTY

PART 606—SUPPLEMENTAL PROVISIONS

MISCELLANEOUS AMENDMENTS

The Army Procurement Procedure, Parts 590–606, is amended as follows:

1. So much of Subchapter G as reads "Under Secretary of the Army" and "Assistant Chief of Staff, G–4" is changed to read "Assistant Secretary of the Army (Logistics and Research and Development)" and "Deputy Chief of Staff for Logistics", respectively.

2. In § 591.202–4 (a), revise subparagraph (1) as follows:

§ 591.202–4 *Publishing in newspapers.* • • •

(a) *Authority.* (1) Authority to approve the publication of paid advertisements in newspapers, magazines, and other periodicals in connection with the dissemination of procurement information (invitations for bids and proposed purchases), recruitment of both military and civilian personnel, and all other forms of advertising authorized by law has been delegated by the Secretary to:

(i) The Assistant Secretary of the Army (Logistics and Research and Development).

(ii) The Deputy Chief of Staff for Logistics, Department of the Army.

(iii) Chief, Procurement Division, Office of the Deputy Chief of Staff for Logistics, Department of the Army.

(iv) Chief, Purchases Branch, Office of the Deputy Chief of Staff for Logistics, Department of the Army.

(v) The Adjutant General, for recruiting purposes only.

(vi) Commanding generals and their deputies, continental armies, for recruiting purposes only.

(vii) Chief of Engineers, for real estate and construction matters in CONUS and overseas.

(viii) Chief of Transportation, for advertising Army-owned interchange freight and passenger car equipment in official train equipment registers.

(ix) Division engineers, Corps of Engineers, for civil and military construction only.

Such delegated authority shall not be redelegated.

• • • • • •

3. In § 592.605–50, revise paragraph (a) and add subparagraph (4) to paragraph (c), as follows:

§ 592.605–50 *Instructions for use.* (a) Purchases with this form will be accomplished by the ordering officer as indicated under the space by this designation on Standard Form 44 (Purchase Order—Invoice-Voucher). The ordering officer will be the contracting officer and/or other officers as may be designated by the commanding officer of the installation, if deemed to be practicable. For example, representatives of the post repair shop, post supply offices, organizational units, and other offices may be appointed as ordering officers to facilitate the accomplishment of such purchases for the user. The appointment of such ordering officers should define the scope and limitations of their authority, such as the supplies or services that may be purchased.

• • • • • •

(c) Standard Form 44 may be used for the purchase of supplies or services under the following conditions:

• • • • •

(4) To place delivery orders under open end or call type contracts of the military departments.

• • • • • •

4. Sections 595.104 (i) and 595.105 are revised to read as follows:

§ 595.104 *Authority to grant exceptions to Buy American Act.* • • •

(i) Complete justification for purchase of item of foreign source, including information relative to the following criteria:

(1) *Strategic considerations.* (i) An appraisal of the reliability of the competing foreign source, taking into consideration:

(*a*) Whether the competing foreign source has adequate or limited capacity;

(*b*) the degree of political or economic stability of the area which the competing foreign source is located.

(ii) Whether domestic self-sufficiency must be fostered because of the strategic importance of the articles, materials, supplies or their United States production facilities.

(iii) Whether an appreciable advantage to collective security would result from maintaining or increasing production capacity in the foreign source country concerned.

(2) *Domestic economic considerations.* (i) Whether the furnishing of scarce materials or production equipment which would be required from the United States would unduly interfere with United States military production or the development of the United States industrial mobilization base.

(ii) Whether the competing domestic source would be a facility or facilities designated as "small business" by the Small Business Administration.

(iii) Whether the competing domestic source would be located in an area which has been designated by the Department of Labor as being one of substantial labor surplus, i. e., classified by the Department of Labor as "Group IV" area.

(iv) Whether competing domestic sources are found in an industry which is depressed or which is characterized by widespread open capacity.

§ 595.105 *Supplies excepted from Buy American Act.* The list of supplies excepted from the Buy American Act by § 405.105 of this title is interpreted as being limited to:

(a) Raw materials, bearing the names listed, which have not been processed, refined, or treated beyond the first form or state suitable for industrial use in the United States, and

(b) Other supplies specifically listed in § 405.105 of this title.

5. Add § 601.404–1 as follows:

§ 601.404–1 *General.* All policy matters that will involve contact between a Head of a Procuring Activity and other Government agencies as authorized by this part will be coordinated with the Judge Advocate General, Department of the Army (Chief, Industrial Relations Branch).

6. In § 601.404–2 (c), revise subparagraph (2) to read as follows:

§ 601.404–2 *Wage determinations.* • • •

(c) *Manner of requesting determination.* • • •

(2) Form DB–11 will be prepared in full and signed by the Contracting Officer. Under "Department, Agency, or Bureau" insert only "Department of the Army." If the project is not located within a city or village, the distance and direction from the nearest city or village will be indicated.

• • • • • •

7. In § 601.404–3, revise paragraph (g) and add paragraph (h), as follows:

§ 601.404–3 *Additional classifications.* • • •

(g) Written and signed statements containing opinions of management and labor as to proper classification and wage rate. When the interested parties have agreed to a new classification, these opinions will be put in the form of an agreement by the interested parties to an additional classification. Such statements or agreement may be signed for the employees by an official of a union representing them, in which case the union and the official's connection with it should be identified; otherwise signatures of all the affected employees should be obtained.

(h) If an apprentice classification is proposed, a determination that the employees involved are employed in a bona fide apprenticeship program registered with a State Apprenticeship Council which is recognized by the Federal Committee on Apprenticeship, or if no such recognized Council exists in a State, in a program registered with the Bureau of Apprenticeship, including identification of the program.

8. Sections 601.404–8, 601.404–9 (b), 601.404–11, and 601.404–12 are revised to read as follows:

§ 601.404–8 *Reports of violations.* Where the case investigated can be closed satisfactorily without formal correspondence with the Department of Labor or the Department of Justice (correspondence to ascertain whether an apprentice is properly registered shall not constitute formal correspondence for the purpose of this section), it may be closed by the investigating officer. Where, however, formal correspondence with the Department of Labor or the Department of Justice is required (as, e. g., when the case of one which was initiated by correspondence from the Department of Labor, or which involves more than $200 restitution or which may warrant criminal prosecution, litigation, or placing the Contractor on the Comptroller General's list of ineligible persons or firms), the investigating officer should forward a report of all material gathered by his investigation (including the information, findings, and conclusions set forth in § 601.404–7 (b), and evidence sufficient to support said findings and conclusions) through channels to The Judge Advocate General (Attn: Chief, Industrial Relations Branch) (except that reports of investigation on Corps of Engineers contracts not involving recommendations of criminal or civil action against the Contractor or placing the Contractor on the Comptroller General's list of ineligible persons or firms, or facts supporting any such recommendations will be processed in accordance with the procedure established by the Office of the Chief of Engineers). Such findings and recommendations shall not be communicated by the investigating officer to the Regional Attorney, United States Department of Labor.

§ 601.404–9 *Suspensions and deductions of contract payments.* • • • (b) (1) When investigation reveals that restitution is due the Contractor's employee because of violation of the Davis-Bacon Act, the Contracting Officer will forward to the Disbursing Officer who normally makes disbursement to the Contractor, the forms required by § 411.404–9 of this title, indicating the purpose of same, and listing the name and address of each employee involved and the amount due him. Employees to whom restitution is due will be advised that, upon approval of the withholding by the Department of Labor, they will be paid on application to the General Accounting Office, which will hold funds withheld from the Contractor for restitution to workers in a special account for this purpose. Employee applications for payment may be forwarded with the forms required by § 411.404–9 of this title; such applications should include the employee's name, address, and classification; the name of the employer; and a statement identifying the contract involved. Withholding must be accomplished even though an employee cannot be located in order to complete restitution.

(2) When investigation reveals that restitution is due the Contractor's employees because of violation of the Eight-Hour Law, such funds as have been withheld under paragraph (a) of this section may not be paid over to the employees. Instead, when it is clear that the Contractor will not make restitution, the Contracting Officer will inform the Disbursing Officer who normally makes disbursement under the contract and the appropriate fiscal officer of this fact, specifying the amount of restitution owed each employee, so that the funds withheld may be deobligated up to the total of such amounts.

• • • • • •

§ 601.404–11 *Contract terminations.* Whenever a contract is terminated for violation of labor standards provisions, a report containing the information set forth in § 411.404–11 of this title shall be forwarded by the Contracting Officer through channels to The Judge Advocate General (Attn: Chief, Industrial Relations Branch). This report shall be accomplished by a report of the investigations of the violations resulting in termination setting forth the information required by § 601.404–7 (b). If such investigation has not been completed, an interim report, setting sorth as much of the information required by § 601.404–7 (b) as is currently available, shall accompany the report of termination, and the complete report shall be forwarded when available.

§ 601.404–12 *Cooperation with the Department of Labor.* In connection with the enforcement of labor standards, either the Contracting Officer or an officer conducting an investigation is free to call upon the Department of Labor Regional Attorney for informal opinions, advice, or assistance, except as otherwise set forth in this part. The addresses of the Regional Attorneys and their geographical jurisdictions are the same as those set forth for the Regional Offices in § 601.653. All contact with the national offices of the Department of Labor will be coordinated with The Judge Advocate General (Attn: Chief, Industrial Relations Branch) in accordance with § 601.101 (b) (1), except when otherwise provided by this part.

9. Sections 602.1502–1, 602.1502–2, and 602.1502–3 (c) (2) are revised to read as follows:

§ 602.1502–1 *Scope.* Exchange of personal property by the Army Establishment and the application of the exchange allowance or proceeds of sale of personal property in the acquisition of personal property by the Army Establishment under section 201 (c), Federal Property and Administrative Services Act of 1949 (63 Stat. 383; 40 U. S. C. 481 (c)), shall be made only in accordance with the provisions of §§ 602.1502 to 602.1502–5.

§ 602.1502–2 *General authorization.* Subject to the provisions of §§ 602.1502 to 602.1502–5, Heads of Procuring Activities and such officers and individuals as they may designate are hereby authorized, in acquiring personal property within the United States or elsewhere, to exchange or sell similar items and apply the exchange allowance or the proceeds of sale in such cases, in whole or in part payment for the property acquired. Any transactions carried out under this authorization shall be evidenced in writing.

§ 602.1502–3 *Restrictions and limitations.* • • •

(c) This section shall not be construed to authorize: • • •

(2) The acquisition of personal property by a procuring activity in contravention of (i) any restriction upon the procurement of a commodity or commodities, or (ii) any replacement policy or standard, prescribed by the President or by the Administrator of General Services pursuant to the Federal Property and Administrative Services Act of 1949 (Public Law 152, 81st Congress) (63 Stat. 377, 40 U. S. C. 481).

• • • • • •

10. In § 606.204–1 (a), revise subparagraph (1) (ii) and the opening portion of subparagraph (2), as follows:

§ 606.204–1 *Personal or professional services*—(a) *Contracts for employment of experts or consultants*—(1) *Statutory authority.* • • •

(ii) Section 701 of the Department of Defense Appropriation Act, 1955 (Public Law 458, 83d Congress), approved June 30, 1954, provides that:

During the current fiscal year, the Secretary of Defense and the Secretaries of the Air Force, Army, Navy, respectively, if they should deem it advantageous to the national defense, and if in their opinion, the existing facilities of the Department of Defense are inadequate, are authorized to procure services in accordance with section 15 of the Act of August 2, 1946 (5 U. S. C. 55a), but at rates for individuals not in excess of $50 per day, and to pay in connection therewith travel expenses of individuals, including actual transportation and per diem in lieu of subsistence while traveling from their homes or places of business to official duty station and return as may be authorized by law: Provided, That such contracts may be renewed annually.

(2) *Approval required.* The following classes of contracts are authorized by section 15 of the act of August 2, 1946, and section 701 of the Department of Defense Appropriation Act of 1955 and as such require the approval of the Secretary except to the extent that approval authority has heretofore or may hereafter be delegated:

• • • • • •

11. Section 606.204–4 is revised as follows:

§ 606.204–4 *Architect-engineer contracts.* (a) Awards of architect-engineer contracts for both the production and delivery of designs, plans, drawings, and specifications (commonly referred to as Title I services) and the supervision and inspection of construction (commonly referred to as Title II services) will, until June 30, 1955, be submitted to the Deputy Chief of Staff for Logistics, Department of the Army, Attn: Chief, Purchases Branch, for approval of the Assistant Secretary of the Army (Logistics and Research and Development) in all cases where:

(1) The fee (inclusive of the architect-engineer contractor's costs) for the production and delivery of designs, plans, drawings, and specifications (commonly referred to as Title I services) exceeds $500,000, or the fee (inclusive of the architect-engineer contractor's costs) for the supervision and inspection of construction (commonly referred to as Title II services) exceeds $500,000.

(2) Prior to increasing the architect-engineer fee for either category of services from an amount less than $500,000 to an amount exceeding $500,000.

(3) Each time the cumulative total of additional supplements for either category of services entered into after the latest required approval (as to the applicable category of services) by the Secretary of the Army, results in an increment of more than $500,000 for that category of services, except under the conditions set forth in the following sentence. In the case of supplements to existing contracts for either category of services of a nonpersonal services nature, the approval of the Secretary of the Army will not be required regardless of the amount of a proposed supplement, provided in each case the proposed supplement pertains to a basic contract previously approved (as to the applicable category of services) by the Secretary of the Army or the Deputy Chief of Staff for Logistics, Department of the Army (or a representative of the Deputy Chief of Staff for Logistics, as provided for in an appropriate delegation of authority), or as basic contract having a previous supplement which has been so approved; and provided, further, that all the following conditions are met:

(i) The proposed supplement contains no deviations from procurement regulations which were not authorized for use in the previously approved basic contract or supplement.

(ii) The profit or fixed fee does not exceed any limitation imposed on the Head of the Procuring Activity.

(iii) The terms and conditions of the proposed supplement are such that there is no statutory requirement for approval by higher authority.

(iv) The proposed supplement applies to an approved program for which funds are available.

(b) Subject to the foregoing conditions, authority to approve awards of architect-engineer services, including authority to extend, amend, and modify such contracts, has been delegated as follows with further authority to redelegate to such other officers and individuals as the delegates may personally designate:

(1) Chief of Engineers, in the amount of $500,000 for each category of architect-engineer services.

(2) Commander-in-Chief, U. S. European Command, in the amount of $500,000 for each category of architect-engineer services.

(3) Deputy Commander-in-Chief, U. S. European Command, in the amount of $500,000 for each category of architect-engineer services.

(4) Commanding General, Army Forces Far East, in the amount of $300,000 for each category of architect-engineer services.

(5) Commanding Generals, First, Fourth, Fifth, and Sixth Armies, in the amount of $10,000 for each category of architect-engineer services.

(c) Awards approved under the foregoing authority must conform with the following further conditions:

(1) All contracts will contain required standard clauses as well as such standard optional clauses as may be necessary to fully protect the interest of the Government.

(2) Standard price redetermination clauses shall be included in all fixed-price contracts wherein no data are available to indicate reasonableness of price. Government estimates, independently prepared, may be used to determine reasonableness of price.

(3) In order to minimize competition between Continental Army Commanders and the Corps of Engineers for architect-engineer services, Army plans for entering into an architect-engineer contract will be coordinated with the appropriate District Engineer prior to any Army negotiations.

(4) To the extent the authority delegated herein may be redelegated to Continental Army Commanders, this delegation specifically excludes any authority to negotiate or award any architect-engineer contracts relating to Master Planning.

(5) The selection, negotiation, and contract award will be in accordance with the applicable parts and related classified exhibits of the "Uniform Standard for the Employment and Payment of Architect-Engineer Services," dated September 1, 1952.

(6) Compensation for architect-engineer services shall be as follows:

(i) The amount of the fee (inclusive of the architect-engineer contractor's costs) for the production and delivery of designs, plans, drawings, and specifications shall not exceed 6 percent of the estimated construction cost of the related project. The estimated construction cost shall be exclusive of the profit or fixed fee for such construction project and the fee for the architect-engineer services.

(ii) In the case of contracts for architect-engineer services of a nonpersonal services nature, the rate of profit in fixed-price contracts and the rate of fixed fee in cost-plus-a-fixed-fee contracts shall be the minimum that can be negotiated.

(iii) In the case of contracts for architect-engineer services of a personal services nature:

(*a*) For organizations, the rate of profit in fixed-price contracts and the rate of fixed fee in cost-plus-a-fixed-fee contracts shall be the minimum that can be negotiated.

(*b*) For individuals, compensation shall, to the maximum extent practicable, be substantially equivalent to that of the corresponding Civil Service grade, but shall not in any case exceed $50 per day, plus travel expenses of individuals, including actual transportation and per diem in lieu of subsistence while traveling from their homes or places of business to official duty station and return as may be authorized by law.

(7) In the case of contracts for architect-engineer services of a personal services nature:

(i) Provision shall not be made therein for the performance of services after 30 June 1955, except that this requirement shall not apply to contracts obligating funds which are available for expenditure during a period in excess of a fiscal year.

(ii) The approving authority shall certify in writing that the contract is advantageous to and necessary for the national defense, that existing facilities of the Department of the Army are inadequate to accomplish the required services, and that the compensation specified therein is considered reasonable. In addition, the approving authority shall certify in writing that the employment of the proposed Contractor will not be in excess of the civilian personnel authorization established by the Department of the Army for that Procuring Activity.

(iii) The Chief, Armed Forces Special Weapons Project, has been delegated authority, and is authorized, to approve the award of architect-engineer contracts in amounts not exceeding $10,000 in connection with repairs and utilities projects under the jurisdiction of that agency.

12. In § 606.308, items 15 and 16 are revised to read as follows:

§ 606.308 *Instructions for preparation of DD Form 350 (Individual Procurement Action Report).*

* * * * *

Item 15—Contract placement. Place an "X" mark in appropriate box to show whether action is:

(1) *Interservice.* The term "interservice" refers to procurements within the Department of Defense only. It covers (i) Orders placed by one military Department against contracts entered into by another military Department. (ii) Orders placed by activities of one military Department against contracts entered into by other activities of the same military Department. (iii) Orders placed against contracts entered into by joint procuring agencies, viz: ASPPA, ASMPA.

(2) *Interdepartmental.* The term "interdepartmental" refers to procurements from or through Federal departments, agencies, institutions, and corporations other than those of the Department of Defense. It covers (i) Orders placed by a military Department or agencies thereof, against contracts entered into by any Federal department, agency, institution, or corporation outside the Department of Defense. (ii) Contracts placed by a military Department, or agency thereof, with any Federal department, agency, institution, or corporation outside the Department of Defense.

(3) *Advertised.* Secured on bids as a result of formal advertising. (See § 401.101 of this title).

(4) *Negotiated.* Negotiated in accordance with the exceptions authorized by Public Law 413, 80th Congress, and described in §§ 402.201–402.217 of this title and §§ 592.201–592.217 of this subchapter.

(5) *Modification authorized by existing contract, which was advertised, and* (6) *which was negotiated* will not be used; that is; no notation will be made concerning modifications authorized by existing contracts.

NOTE: If block (1) or (2) has been checked, do not fill out item 16, 18, 19, 21, or 22. That is item 17, "Labor Surplus Area," and item 20, "Contract Purpose," will be filled out for Interservice and Interdepartmental contracts, even though the instructions printed in item 15 of the form indicate otherwise.

Item 16—Negotiated under exception Public Law 413. All negotiated procurement for the duration of the present emergency will be accomplished under § 402.201 of this title and contracts will cite as authority 2 (c) (1) Armed Services Procurement Act of 1947. Enter in block (2) the authority for negotiation which would have been used had section 2 (c) (1) of the act not been available for citation (that is, section 2 (c) (2) through 2 (c) (17) of the Armed Services Procurement Act of 1947) (§ 592.201–2 (d)).

* * * * *

13. In § 606.906–1, paragraph (b) is revised to read as follows:

§ 606.906–1 *Bid evaluation and award.*

* * *

(b) Provision will be made for the application of a differential to bids or proposals based on all or part foreign wool for purposes of bid or proposal evaluation. The differential will be 10 percent of the average of the current loan value of representative types and grades of domestic wools. On the basis of military specification requirements domestic wools may be broken down into three broad categories as follows:

Grades 60s and finer

Category 1. Approximately 75 percent is Staple and Good French (worsted type).

Category 2. 25 percent is Short French Combing and Clothing (woolen type).

Grades 50s–60s

Category 3. Approximately 86 percent is Staple and Good French (worsted).

Category 4. Approximately 14 percent woolen type.

Grades below 50s

Category 5. All Staple and Good French.

For items the specifications for which require use of the above categories, the differential will be 10 percent of the average of the loan value established by the Department of Agriculture determined as follows:

Category 1. The average of the grades listed under classes A–2 of Territory Original Bag Wools, B–1 of Graded Territory and Texas, and A–2 and B–1 of Graded Fleece Wools.

Category 2. The average of the grades listed under classes A–6 of Territory Original Bag Wools, B–2 of Graded Territory and Texas, and A–3 and B–2 of Graded Fleece Wools.

Category 3. The average of the grades listed under classes C–1 and D–2 of Graded Territory and Texas, and C–1 and D–2 of Graded Fleece Wools.

Category 4. The average of grades listed under classes C–2 and D–3 of Graded Territory and Texas, and C–2 and D–3 of Graded Fleece Wools.

Category 5. The average of the grades listed under classes E–1 and F–1 of Graded Fleece Wools.

Examples of the determination of the differential for several military items are set forth in § 606.907.

Chapter VII—Department of the Air Force

Subchapter F—Reserve Forces

PART 861—OFFICERS' RESERVE

MOBILIZATION AND TRAINING

Sections 861.1001 to 861.1010 supersede §§ 861.1001 to 861.1009 (18 F. R. 2399, 7493; 19 F. R. 2258):

Sec.
861.1001 General.
861.1002 Definitions.
861.1003 Filling mobilization positions.
861.1004 Mobilization assignment.
861.1005 Mobilization designation.
861.1006 Training attachment.
861.1007 Requests for mobilization assignment or designation.
861.1008 Requisitioning Air Force Reserve personnel.
861.1009 Relief from mobilization position.
861.1010 Training.

AUTHORITY: §§ 861.1001 to 861.1010 issued under sec. 251, 66 Stat. 495; 50 U. S. C. 1002. Interpret or apply secs. 101–259, 601–603, 66 Stat. 481–498, 501; 50 U. S. C. 901–1010, 1091–1093.

DERIVATION: AFR 45–3.

§ 861.1001 *General.* Sections 861.1001 to 861.1010 establish procedures for the assignment or designation of Air Force Reserve personnel to specific mobilization positions.

§ 861.1002 *Definitions*—(a) *Mobilization position.* Additional or existing military personel authorizations (augmentation or replacement) required to be filled in Air Force commands and activities in the event of full or partial mobilization. A mobilization position is filled by either a mobilization assignee or designee.

(b) *Mobilization assignee.* A member of the Air Force Reserve not on extended active duty who requires regular and frequent training to attain or retain proficiency in his mobilization position. Such a person may be a member of the Ready or Standby Reserve, is eligible for inactive duty training pay, and is authorized active duty training.

(c) *Mobilization designee.* A member of the Air Force Reserve not on extended active duty who, by virtue of previous military experience and/or the similarity of his civilian occupation to his Duty, Air Force Specialty Code, is capable of filling a mobilization position with a minimum of training. Such a person may be either a Ready or a Standby Reservist. A mobilization designee is not eligible for inactive duty training pay, but is eligible for active duty training, subject to the availability of funds.

(d) *Training attachment.* The attachment, for training purposes only, of a member of the Air Force Reserve having a mobilization assignment or designation, to an appropriate unit or activity of the Regular Air Force, Air Force Reserve, or the Air National Guard of the United States (subject to the approval of the Air National Guard of the United States unit commander concerned), other than the unit or activity with which mobilization position is held.

§ 861.1003 *Filling mobilization positions.* (a) The total mobilization positions authorized for each major air command will be established by Headquarters USAF based on mobilization requirements, the training capacity of the command, the availability of qualified Reservists. Mobilization positions will be filled by mobilization assignees and mobilization designees. The number of persons holding mobilization assignments to mobilization positions may be limited by the funds available for inactive duty training pay. In this case, the remaining mobilization positions may be filled by mobilization designees.

(b) Within mobilization personnel authorizations allotted by Headquarters USAF, each major air command will individually determine which mobilization positions constitute a replacement requirement and which positions constitute an augmentation requirement. Mobilization positions (replacement) are primarily, but not limited to, those presently authorized active establishment positions for which it has been determined that the incumbent should be a rated officer on flying status. Commanders must assume that active establishment combat readiness training (formerly minimum individual training) rated personnel presently assigned to these positions will be available to meet attritional and rotational rated replacement requirements after mobilization. Mobilization positions (augmentation) will constitute those additional military personnel spaces, required to be filled by the command in the event of full or partial mobilization.

(c) Each major air command, at its discretion and within command mobilization plans, will individually determine which mobilization assignment positions are appropriate for the assignment of Ready or Standby Reservists. Those positions designated as Ready Reserve should constitute the anticipated individual augmentation and/or replacement requirements under limited emergency conditions short of full mobilization. All other positions will be designated as Standby.

(d) Persons assigned to designated Ready Reserve mobilization assignment positions will be members of the Ready Reserve and must comply with § 861.1004.

(e) Persons assigned to designated Standby Reserve mobilization assignment positions may be members of the Ready or Standby Reserve and must comply with § 861.1004 (a) (1). An applicant who by law is a Ready Reservist may be considered for assignment to a position designated as Standby Reserve, if otherwise qualified.

§ 861.1004 *Mobilization assignment*—(a) *Eligibility.* (1) A mobilization assignment may be given to a member of the Air Force Reserve not on extended active duty who volunteers for such assignment: *Provided,* That:

(i) He is qualified in accordance with §§ 861.1 to 861.13 and holds the Availability Classification Code necessary for assignment to this program element or accepts award of the appropriate code.

(ii) The person signifies in writing, by submission of AF Form 1288, "Application for Reserve Assignment," his willingness to accept such assignment.

(2) In addition, persons who are applying for a Ready Reserve mobilization assignment and are Standby Reservists, or Ready Reservists who are eligible to elect Standby status, must accomplish the signed statement contained in AF Form 1288, indicating acceptance or retention of Ready Reserve status for a period of 2 or 5 years. The period selected will be contingent upon the desires of the person.

(b) *Eligibility of Department of Defense employees.* Reservists who are civilian employees of the Department of Defense or any of its military departments may be given mobilization assignments: *Provided,* That each copy of the application for assignment has attached a certificate, which has been signed by their immediate military or civilian chief.

(c) *Ineligibility.* (1) Reservists who are civilian employees of the Department of Defense or any of its military departments may not be given mobilization assignments to the same position, or within the immediate activity in which they are employed as civilians, but will be encouraged to accept mobilization designations if the activity is authorized such personnel. Commanders will insure strict compliance with the spirit and intent of this policy, in order to preserve the privilege of eligibility for mobilization assignments for such personnel in accordance with paragraph (b) of this section.

(2) Mobilization assignments will not be given to Reservists who are serving on extended active duty in any status.

§ 861.1005 *Mobilization designation*—(a) *Eligibility.* (1) A mobilization designation may be given to a member of the Air Force Reserve not on extended active duty who is qualified in accordance with §§ 861.1 to 861.13 and who volunteers for such assignment.

(2) Such persons must meet the criteria for assignment to the mobilization designation reserve section of training category D, as established in §§ 861.1 to 861.13 and must signify, in writing, willingness to accept such assignment.

(b) *Ineligibility.* Mobilization designations will not be given to Reservists who are serving on extended active duty in any status.

(c) *Rotation of mobilization assignees and designees.* Persons filling mobilization positions will not be rotated between assignee and designee status to permit additional personnel to receive inactive duty training pay.

§ 861.1006 *Training attachment*—(a) *Mobilization assignees.* (1) Commanders of major air commands will insure that training attachments for mobilization assignees are made when distance or other reasons prevent participation in training at the place of mobilization assignment.

(2) Training attachments will not be given to mobilization assignees to any units or activities not capable of providing the persons concerned with adequate and effective training in their mobilization assignment capacities. If a person is unable to participate in training at his place of mobilization assignment and a suitable training attachment cannot be provided, a mobilization assignment will not be made.

(3) Mobilization assignees may not be given inactive duty training attachments with Air Force Reserve units, but may be given such attachments to the various Continental Air Command Reserve training centers.

(b) *Mobilization designees.* (1) A mobilization designee may be given a training attachment when distance or other reasons prevent participation in training at the place of mobilization designation.

(2) A mobilization designee may be given an inactive duty training attachment to an Air Reserve group or squadron, with the consent of the unit commander and the commander of the activity with which the person holds a designation.

§ 861.1007 *Requests for mobilization assignment or designation*—(a) *Specific requests.* An individual Reservist desiring a mobilization position may request the position by applying on AF Form 1288, to the headquarters of the major air command concerned. Applications of applicants not selected will be returned to the Air Reserve Records Center. The Air Reserve Records Center will notify these Reservists of their nonselection.

(b) *Unspecified requests.* A person who desires to request a mobilization position without specifying the major air command of assignment may submit his

application to the Air Reserve Records Center. These applications will be used by the Air Reserve Records Center in filling the requisitions referred to in § 861.1008.

(c) *Limiting requests.* Individual requests for a mobilization position will not be submitted to more than one command at a time.

§ 861.1008 *Requisitioning Air Force Reserve personnel.* (a) Major air commands will requisition from the Air Reserve Records Center (ConAC), 3800 York Street, Denver, Colorado, Reserve personnel by grade and Air Force Specialty Code to fill mobilization positions for which applicants are not available (see § 861.1007). Requisitions will include sufficient data (grade, Air Force Specialty Code, location of vacancies, and so forth), to enable the Air Reserve Records Center to identify and list on rosters only those Reservists who have the desired qualifications and who, by virtue of residing in proximity to the unit having a vacancy (within 50 to 100 miles), may be considered potential applicants. Using these rosters, major air commands will contact personnel listed for possible assignment to mobilization positions. When the persons contacted indicate a willingness to participate in the mobilization program and further information is desired by the major air command, a request will be forwarded to the Air Reserve Records Center requesting career summaries by name. Major Air Commands will select persons for assignment and request the Air Reserve Records Center to issue appropriate assignment orders, inclosing a copy of the application for assignment for placement in the Reservist's master personnel record. Career summaries on persons not desired for assignment will be returned to the Air Reserve Records Center with a remark to that effect.

(b) Major air commands desiring the assignment of persons known by name may request the Air Reserve Records Center to furnish career summaries on such personnel, prior to corresponding with the person regarding the assignment, or may request that the individuals be assigned without reference to career summaries.

§ 861.1009 *Relief from mobilization position.* (a) In the event a Reservist is found to be surplus or unsuitable for a mobilization position, the major air command concerned will issue appropriate orders relieving him from the mobilization position and assignment to the command, and will reassign him to Headquarters Continental Air Command (Nonaffiliated Reserve Section), Air Reserve Records Center. A statement with regard to the reason for relief will be included in the orders.

(b) A member of the Air Force Reserve ordered to extended active duty who holds a mobilization position will be relieved of such position.

§ 861.1010 *Training—(a) Inactive duty training with activity in which assignment is held.* Whenever practicable, a person having a mobilization assignment or designation will accomplish inactive duty training with the unit or activity with which such mobilization assignment or designation is held.

(b) *Inactive duty training with other activities.* A Reservist having a mobilization assignment or designation to a unit or activity with which it is not practicable for the person to participate in inactive duty training may be attached to another activity or unit for training. (See § 861.1006).

(c) *Training requirements for mobilization assignees.* Twelve paid inactive duty training periods and a minimum of 12 nonpaid inactive duty training periods will be made available annually, and persons will be encouraged to participate in such training to the maximum in order to attain the individual proficiency which is desired.

(1) Mobilization assignees will be required to participate in a minimum of five inactive duty training periods each fiscal quarter.

(2) Mobilization assignees will be required to perform a normal 15-day active duty tour each fiscal year. Persons assigned subsequent to 1 July will be encouraged but not required to accomplish short tours during the balance of that fiscal year. Any special tour or tour for school training approximating 15 or more days is acceptable in place of this requirement.

(3) Tours of active duty during a quarter may be credited toward the training period requirement for that quarter on the basis of 1 day of active duty equal to one training period.

(4) Mobilization assignees who fail to accomplish the minimum number of training periods a quarter or the fiscal year active duty training requirement, will be relieved of assignment.

(d) *Active duty training of mobilization assignees.* Active duty training of mobilization assignees normally will be accomplished with the unit or activity of assignment, or active duty training may be accomplished with the unit or activity to which attached for training. In exceptional instances only, where it is considered that better training can be afforded the person, an assignee may accomplish such training with other Regular Air Force, Reserve Training Category A, or Air National Guard of the United States units or activities not further distant from the place where he is currently residing than his unit or activity of assignment. Applications for training will be submitted on AF Form 1289, "Application for Active Duty Training."

(e) *Waivers of training requirements for mobilization assignees.* (1) In exceptional instances only, and upon written request of the person concerned, major air commands may waive the quarterly inactive duty training requirement once in any fiscal year.

(2) On the basis of personal hardship only and upon the written request of the person concerned, major air commands may excuse a person from meeting the active duty training requirement once in any period of 3 full fiscal years.

(3) A person will not be excused from the active duty training requirement and receive a quarterly inactive duty training waiver in the same fiscal year.

(4) This authority may be further delegated to subordinate air commands such as numbered air forces of Continental Air Command, air defense forces of the Air Defense Command, and so forth.

(f) *Training requirements for mobilization designees.* Mobilization designees must participate in authorized training activities to the extent of accruing a minimum of 30 points annually. The 15 gratuitous points granted annually for being a member of the active Reserve and points awarded for active duty will be counted toward meeting this requirement.

(g) *Active duty training of mobilization designees.* Active duty training performed by mobilization designees will be accomplished in accordance with paragraph (d) of this section.

(h) *Waivers of training requirements for mobilization designees.* Minimum participation requirements may be waived for mobilization designees whose civilian occupations are so directly allied with the Duty Air Force Specialty Codes of the mobilization positions for which they have been designated that proficiency is considered to be retained by virtue of the civilian occupation. Individual applications for waivers will be submitted by military letter, through channels for approval action, to the major air command of assignment, or to the Air Reserve Records Center for personnel under the jurisdiction of Continental Air Command. Such letters will include a complete description of the person's civilian occupation. Waivers which are approved will be effective until there is a change in the person's Reserve assignment, Duty Air Force Specialty Code, or civilian occupation. In each instance, a copy of approved waivers will be forwarded to the Air Reserve Records Center, for inclusion in the person's master personnel record.

(i) *Responsibility for training for proficiency.* The training of a person for proficiency in his mobilization assignment or mobilization designation will be the responsibility of the major air command in which such mobilization assignment or designation is held.

[SEAL] E. E. TORO,
Colonel, U. S. Air Force,
Air Adjutant General.

TIME FOR FILING FINANCIAL STATEMENTS AND STANDARD COMMERCIAL ARTICLE REPORTS UNDER RENEGOTIATION ACT OF 1951, AS AMENDED [1]

1. Every person having a fiscal year beginning in 1953 and ending on or after November 30, 1954, shall file on or before April 1, 1955, the financial statement for such fiscal year required of such person by section 105 (e) (1) of the Renegotiation Act of 1951, as amended. Every such person shall be entitled to file a Standard Commercial Article Report pursuant to Part 1467 of the Renegotiation Board Regulations at any time before February 1, 1955.

2. Every person having a fiscal year beginning in 1953 and ending before November 30, 1954, is hereby granted an extension of time, until March 1, 1955, for filing the financial statement for such year required of such person. Every such person shall be entitled to file a Standard Commercial Article Report at any time before February 1, 1955. If the Standard Commercial Article Report is so filed, such person shall not be required to file the financial statement until March 1, 1955, or until the thirtieth day after the Board sends to such person a written notice of the action of the Board on the claim for exemption, whichever occurs later. If the Standard Commercial Article Report is not filed by such person before February 1, 1955, it shall be filed on or before March 1, 1955, with the financial statement for such fiscal year required of such person.

(Sec. 109, 65 Stat. 22; 50 U. S. C. App. 1219)

Dated: November 19, 1954.

By order of The Renegotiation Board.

CHARLES F. MILLS,
Acting Chairman.

[F. R. Doc. 54-9289; Filed, Nov. 23, 1954; 8:51 a. m.]

CERTAIN AMENDMENTS AND ADDITIONS TO SUBCHAPTER

The Renegotiation Board hereby adopts the proposed Part 1467 and the proposed amendments to Parts 1454, 1456 and 1470 which were published on October 2, 1954 (19 F. R. 6380–6384), certain changes having been made therein. Said part and amendments as adopted read as set forth below.

Dated: November 19, 1954.

CHARLES F. MILLS,
Acting Chairman,
The Renegotiation Board.

PART 1454—PARTIAL MANDATORY EXEMPTION OF PRIME CONTRACTS AND SUBCONTRACTS FOR NEW DURABLE PRODUCTIVE EQUIPMENT

This part is amended in the following respects:

1. The title of the part is deleted in its entirety and the new title reads as set forth above.

2. The words "Subpart A—Fiscal Years Ending Before June 30, 1953" are inserted as a heading before § 1454.1.

3. Section 1454.1 *Statutory provision* is amended by deleting the words "Section 106 (c) of the act provides as follows" and inserting in lieu thereof the following: "With respect to fiscal years ending before June 30, 1953, section 106 (c) of the act provides as follows".

4. Section 1454.2 *Application of act to subcontracts for new durable productive equipment* is amended by inserting the words "in a fiscal year ending before June 30, 1953" in the first sentence between the words "received or accrued" and the words "after the effective date".

5. Subpart B, consisting of new §§ 1454.21 to 1454.28, is added to read as follows:

SUBPART B—FISCAL YEARS ENDING ON OR AFTER JUNE 30, 1953

Sec.
1454.21 Statutory provision.
1454.22 Purpose of exemption.
1454.23 Application of exemption.
1454.24 What constitutes prime contract for new durable productive equipment.
1454.25 What constitutes subcontract for new durable productive equipment.
1454.26 Components of new durable productive equipment.
1454.27 Prime contracts and subcontracts related to prime contracts for new durable productive equipment.
1454.28 Limitation on exemption of prime contracts for new durable productive equipment.

AUTHORITY: §§ 1454.21 to 1454.28 issued under sec. 109, 65 Stat. 22; 50 U. S. C. App. 1219.

§ 1454.21 *Statutory provision.* With respect to fiscal years ending on or after June 30, 1953, section 106 (c) of the act provides as follows:

(1) *In general.* The provisions of this title shall not apply to receipts or accruals (other than rents) from *contracts* or subcontracts for new durable productive equipment, except (*A*) to that part of such receipts or accruals which bears the same ratio to the total of such receipts or accruals as five years bears to the average useful life of such equipment as set forth in Bulletin F of the Bureau of Internal Revenue (1942 edition) or, if an average useful life is not so set forth, then as estimated by the Board and (*B*) *to receipts and accruals from contracts for new durable productive equipment in cases in which the Board finds that the new durable productive equipment covered by such contracts cannot be adapted, converted, or retooled for commercial use.*

(2) *Definition.* For the purpose of this subsection, the term "durable productive equipment" means machinery, tools, or other equipment which does not become a part of an end product, or of an article incorporated therein, and which has an average useful life of more than five years. [Matter in italics added by Pub. Law 764, 83d Cong., approved September 1, 1954.]

§ 1454.22 *Purpose of exemption.* The purpose of the amendments contained in the foregoing exemption was stated as follows in the report of the Senate Committee on Finance ((1954) S. Rept. 643, 83d Cong. 3, to accompany H. R. 6287):

The fact that many Government purchases of machine tools at the present are for stockpiling purposes makes this amendment essential. By making sales of this type to the Government, the industry is, in effect, destroying the future market for its products because the eventual release of the Government stockpile will serve to satisfy normal demand. Thus, the amendment merely requires recognition of the fact that defense use can be expected to represent only a portion of the useful life of the equipment sold under prime contracts.

§ 1454.23 *Application of exemption—*(a) *Prime contracts.* The foregoing amended exemption has the effect of making the act applicable to prime contracts for new durable productive equipment only to the extent of that part of the amounts received or accrued in any fiscal year ending on or after June 30, 1953 which bears the same ratio to the total of such amounts received or accrued as five years bears to the average useful life of such equipment as set forth in Bulletin F of the Bureau of Internal Revenue (1942 edition) or, if an average useful life is not so set forth, then as estimated by the Board. A description of the methods of determining the amount of renegotiable business under prime contracts for new durable productive equipment is set forth in § 1456.4 (a) of this subchapter.

(b) *Subcontracts.* With respect to subcontracts for new durable productive equipment, amounts received or accrued in fiscal years ending on or after June 30, 1953, are exempt to the same extent as amounts received or accrued in fiscal years ending before that date. However, with respect to fiscal years ending on or after June 30, 1953, subcontracts under which the purchaser of new durable productive equipment has acquired such equipment for the account of the Government are not excluded from the term "subcontracts for new durable productive equipment", and therefore are within the partial exemption.

§ 1454.24 *What constitutes prime contract for new durable productive equipment; in general.* A prime contract for new durable productive equipment is a contract with a Department for such equipment. The term includes pool orders and similar commitments.

§ 1454.25 *What constitutes subcontract for new durable productive equipment; in general.* A purchase order or agreement for new durable productive equipment is a subcontract subject to the act if such equipment is required for the performance of a prime contract or subcontract subject to the act. (See § 1452.4 of this subchapter.)

§ 1454.26 *Components of new durable productive equipment.* In order for a subcontract to qualify as a subcontract for new durable productive equipment, it is immaterial whether the equipment is used directly in the processing of an end product or of an article incorporated therein, or is incorporated in another item of such equipment. In order for a prime contract to qualify as a prime contract for new durable productive equipment, it is immaterial whether or not the equipment is incorporated by the

[1] This affects §§ 1470.3 (d) and 1467.4 (d).

active duty training with the unit or

delegated to subordinate air commands

8:51 a. m.]

This affects §§ 1470.3 (d) and 1467.4 (d). 6287);

not the equipment is incorporated by the

Government in another item of such equipment.

§ 1454.27 *Prime contracts and subcontracts related to prime contracts for new durable productive equipment.* The extent to which the act applies to receipts or accruals from prime contracts and subcontracts for new durable productive equipment which is incorporated in another item of such equipment will be determined by reference to the average useful life of the equipment in question and not by reference to the life of the equipment of which it becomes a part. Prime contracts and subcontracts for equipment or other materials which are not new durable productive equipment are not covered by the exemption set forth in this part even though the equipment or other materials are incorporated in new durable productive equipment. The extent to which the act applies to receipts or accruals from such prime contracts and subcontracts will be determined according to the provisions of § 1456.5 of this subchapter.

§ 1454.28 *Limitation on exemption of prime contracts for new durable productive equipment.* Prime contracts for new durable productive equipment are not covered by the exemption set forth in this part when such equipment cannot practicably be adapted, converted or retooled for commercial use. (See § 1456.4 (a) (2) (i) of this subchapter.)

PART 1456—METHODS OF SEGREGATING RENEGOTIABLE AND NONRENEGOTIABLE SALES

This part is amended in the following respects:

1. Section 1456.4 *How to determine receipts or accruals subject to renegotiation; new durable productive equipment* is amended by deleting paragraph (a) in its entirety and inserting in lieu thereof the following:

(a) *Prime contracts.* (1) With respect to fiscal years ending before June 30, 1953 (see Subpart A of Part 1454 of this subchapter), receipts and accruals under prime contracts for new durable productive equipment shall be determined in the same manner as receipts or accruals under all other prime contracts (see § 1456.3 (a)).

(2) With respect to fiscal years ending on or after June 30, 1953 (see Subpart B of Part 1454 of this subchapter), receipts and accruals under prime contracts for new durable productive equipment shall be determined in the following manner:

(i) The seller shall first classify such equipment according to whether it can or cannot be adapted, converted or retooled for commercial use. When the seller knows or ascertains that any such equipment cannot practicably be so adapted, converted or retooled, its sales of such equipment are not within the partial mandatory exemption but are wholly renegotiable and are not to be included in the calculation made pursuant to this subparagraph. Upon the request of the Board, the seller shall furnish such information and data available to the seller as the Board may require to enable it to determine whether the equipment can or cannot practicably be adapted, converted or retooled for commercial use.

(ii) Having determined which equipment can practicably be adapted, converted or retooled for commercial use, the seller shall then classify such equipment according to the average useful life thereof. Average useful life of new durable productive equipment shall be determined by reference to Bulletin F of the Bureau of Internal Revenue (1942 edition). If the average useful life of equipment of a particular type is not set forth in Bulletin F and if the Board has not yet made an estimate of the average useful life of equipment of such type, the seller shall estimate the average useful life of the equipment in question, taking into consideration the average useful life of comparable equipment as set forth in Bulletin F. It should be noted that equipment having an average useful life of 5 years or less is not covered by the partial mandatory exemption of prime contracts for new durable productive equipment.

(iii) The seller shall then determine the amount of receipts or accruals referable to each class of equipment having the same average useful life. The seller may make this determination on an over-all basis or on a contract by contract basis.

(iv) The seller shall next apply to the receipts or accruals determined in the manner set forth in subdivision (iii) of this subparagraph, with respect to each group of equipment having the same average useful life, a ratio equal to the ratio that 5 years bears to the average useful life of such equipment. The aggregate of the resulting figures represents the amount of the seller's renegotiable receipts or accruals from prime contracts for new durable productive equipment.

2. Section 1456.4 is further amended by deleting the last sentence of paragraph (b) (1) and inserting in lieu thereof the following: "It should be noted that with respect to fiscal years ending before June 30, 1953, equipment which is acquired by the purchaser for the account of the Government or which becomes a part of an end product acquired by the Government under a renegotiable prime contract, is not new durable productive equipment as defined in section 106 (c) of the act."

3. Section 1456.5 *How to determine receipts or accruals subject to renegotiation; materials other than new durable productive equipment not incorporated in end product* is amended by deleting the same in its entirety and inserting in lieu thereof the following:

§ 1456.5 *How to determine receipts or accruals subject to renegotiation; materials other than new durable productive equipment not incorporated in end product.* This section applies to materials which do not constitute new durable productive equipment and which are not incorporated in an end product delivered to a Department. Sales of such materials under prime contracts are wholly renegotiable unless otherwise exempted. Sales of such materials under subcontracts shall be considered renegotiable on the basis of the use of such materials (that is, whether the use is for renegotiable or non-renegotiable production). When the extent of the use cannot be readily established, such sales shall be considered renegotiable in substantially the same proportion as the production of the purchasers of such material is subject to renegotiation.

PART 1467—MANDATORY EXEMPTION OF CONTRACTS AND SUBCONTRACTS FOR STANDARD COMMERCIAL ARTICLES

Sec.
1467.1 Statutory provision.
1467.2 Basis of exemption.
1467.3 Application of exemption.
1467.4 Filing of information and data pertaining to standard commercial articles.
1467.5 Exemption denied when article fails to qualify as standard commercial article.
1467.6 Specific findings of sufficient competitive conditions.
1467.7 Specific findings of insufficient competitive conditions.
1467.8 Exemption not applicable to related subcontracts.

AUTHORITY: §§ 1467.1 to 1467.8 issued under sec. 109, 65 Stat. 22; 50 U. S. C. App. 1219. Interpret or apply sec. 106, 65 Stat. 17, as amended; 50 U. S. C. App. 1216.

§ 1467.1 *Statutory provision.* Section 106 (a) (8) of the act (added by Pub. Law 764, 83d Cong., approved September 1, 1954) exempts the following:

(8) any contract or subcontract for the making or furnishing of a standard commercial article, unless the Board makes a specific finding that competitive conditions affecting the sale of such article are such as will not reasonably prevent excessive profits. This paragraph shall apply to any such contract or subcontract only if (1) the contractor or subcontractor files, at such time and in such form and detail as the Board shall by regulations prescribe, such information and data as may be required by the Board under its regulations for the purpose of enabling it to reach a decision with respect to the making of a specific finding under this paragraph, and (2) within a period of six months after the date of filing of such information and data, the Board fails to make a specific finding that competitive conditions affecting the sale of such article are such as will not reasonably prevent excessive profits, or (3) within such six-month period, the Board makes a specific finding that competitive conditions affecting the sale of such article are such as will reasonably prevent excessive profits. Any contractor or subcontractor may waive the exemption provided in this paragraph with respect to receipts or accruals in any fiscal year by including a statement to such effect in the financial statement filed by such contractor or subcontractor for such fiscal year pursuant to section 105 (e) (1). Any specific finding of the Board under this paragraph shall not be reviewed or redetermined by any court or agency other than by The Tax Court of the United States in a proceeding for a redetermination of the amount of excessive profits determined by an order of the Board. For the purpose of this paragraph—

(A) the term "article" includes any material, part, component, assembly, machinery, equipment, or other personal property;

(B) the term "standard commercial article" means an article—

(1) which, in the normal course of business, is customarily manufactured for stock, and is customarily maintained in stock by

the manufacturer or any dealer, distributor, or other commercial agency for the marketing of such article; or

(2) which is manufactured and sold by more than two persons for general civilian industrial or commercial use, or which is identical in every material respect with an article so manufactured and sold;

(C) the term "identical in every material respect"-means of the same kind, manufactured of the same or substitute materials, and having the same industrial or commercial use or uses, without necessarily being of identical specifications; and

(D) the term "persons" does not include any person under control of, or controlling, or under common control with any other person considered for the purposes of subparagraph (B) (2) of this paragraph.

[The statutory provision set forth above applies to contracts with the Departments and subcontracts only to the extent of the amounts received or accrued by a contractor or subcontractor after December 31, 1953.]

§ 1467.2 *Basis of exemption.* The basis of this exemption was stated as follows in the report of the Senate Committee on Finance ((1954) S. Rept. 643, 83d Cong. 4, to accompany H. R. 6287):

The Committee believes that in the case of standard commercial articles there is in most cases no basis or need for renegotiation since cost and pricing experience has already been acquired and prices made in a competitive market. It is believed that in the few cases where renegotiation is necessary to insure the Government against excessive prices, the public interest will be protected by giving the Board authority to make specific findings as to the lack of proper competitive conditions in such cases.

§ 1467.3 *Application of exemption—*(a) *Effective date.* The exemption provided in section 106 (a) (8) of the act, and the regulations contained in this part, are applicable only to amounts received or accrued after December 31, 1953, under prime contracts with the Departments and subcontracts. The exemption applies to such amounts without regard to whether such prime contracts or subcontracts were made on, before or after that date. Amounts received or accrued on or before December 31, 1953, under any such prime contracts or subcontracts are not exempt under section 106 (a) (8) of the act.

(b) *Effect.* Pursuant to the foregoing exemption, when it is not waived by the contractor, receipts or accruals after the effective date under any prime contract or subcontract for the making or furnishing of a standard commercial article are exempt if the contractor files the information and data required in § 1467.4 within the time therein prescribed and if, within six months thereafter, the Board makes a specific finding that competitive conditions affecting the sale of such article are such as will reasonably prevent excessive profits, or fails within such six-month period to make a specific finding to the contrary.

(c) *Procedure.* When a contractor claims that the exemption provided in section 106 (a) (8) of the act is applicable to some or all of its receipts or accruals for a fiscal year, the applicability of the exemption to such receipts or accruals will be determined by the Board before the Board takes action with respect to any other receipts or accruals of the contractor in such fiscal year. To facilitate this procedure, the Board has prescribed that the amount of receipts or accruals claimed to be within the exemption shall be reported separately in the Standard Commercial Article Report described in § 1467.4 and may, for the purposes of such report, be estimated by the contractor (see § 1467.4 (b) (2)).

(d) *Initial treatment of standard commercial article sales.* If the amounts received or accrued under prime contracts with the Departments and subcontracts during the fiscal year by the contractor and all related contractors, including receipts or accruals from sales of standard commercial articles, aggregate less than the applicable minimum amount for renegotiation prescribed in section 105 (f) (1) or (2) of the act, the contractor shall not file the Standard Commercial Article Report set forth in § 1467.4 but shall file the Statement of Non-Applicability set forth in § 1470.91 of this subchapter. Except as stated in the preceding sentence, every contractor who claims that the exemption provided in section 106 (a) (8) of the act is applicable to any of its receipts or accruals for a fiscal year shall file the Standard Commercial Article Report as provided in § 1467.4. If in addition the contractor has other renegotiable receipts or accruals in the same fiscal year, the contractor shall also file a financial statement pursuant to section 105 (e) (1) of the act with respect to such other receipts or accruals (see § 1470.3 of this subchapter). Unless before such financial statement is filed the Board shall have determined that the exemption is not applicable to the receipts or accruals claimed by the contractor to be within the exemption, such receipts or accruals shall be excluded in computing the aggregate of the renegotiable receipts or accruals of the contractor and all related contractors in the fiscal year to which such statement relates and in determining whether the financial statement which the contractor is required to file for such fiscal year is the Standard Form of Contractor's Report or the Statement of Non-Applicability.

(e) *Waiver.* Section 106 (a) (8) of the act provides that the exemption therein granted may be waived by the contractor with respect to receipts or accruals in any fiscal year by including a statement to such effect in the financial statement filed by such contractor for such fiscal year pursuant to section 105 (e) (1). The contractor shall be entitled to waive the exemption with respect to prime contracts and subcontracts for any standard commercial articles (by class), and to claim the exemption with respect to prime contracts and subcontracts for any other standard commercial articles (by class). For this purpose, articles may be grouped into such product classes as the contractor uses regularly in its own accounting system. The exemption may not be claimed with respect to certain prime contracts or subcontracts for standard commercial articles (by class), and waived with respect to other prime contracts or subcontracts for the same articles. Nor may the exemption be claimed with respect to certain receipts or accruals under a prime contract or subcontract, and waived with respect to other receipts or accruals in the same fiscal year under the same prime contract or subcontract. A waiver made in the Standard Form of Contractor's Report shall be effective only with respect to the fiscal year to which such report relates, and shall not be effective for any other year. If the Board agrees to accept a waiver of this exemption from a contractor who has not included such waiver in its Standard Form of Contractor's Report, such waiver, when accepted, will be deemed a part of the Standard Form of Contractor's Report of such contractor with the same force and effect as if it had been set forth therein when such report was filed. Once made, a waiver of this exemption may not be withdrawn except with the permission of the Board.

§ 1467.4 *Filing of information and data pertaining to standard commercial articles—*(a) *Form.* No printed form of report is prescribed for the filing of information and data pertaining to prime contracts and subcontracts for standard commercial articles. However, the information and data prescribed in paragraph (b) of this section will be known as the "Standard Commercial Article Report." The information and data required by this report shall be furnished in writing, shall be entitled "Standard Commercial Article Report," and shall be set forth in numbered parts and paragraphs corresponding with the numbers in paragraph (b) of this section. Attention is called to the fact that the submission of such information and data is subject to the penalty provisions of section 105 (e) (1) of the act.

(b) *Contents of Standard Commercial Article Report; extent of filing required.* The Standard Commercial Article Report shall consist of Parts I and II and shall contain the information and data set forth in this paragraph. Part I shall be filed by every contractor who claims the exemption provided in section 106 (a) (8) of the act. Part II may be filed with Part I by any contractor who desires to do so, but must always be filed with Part I if the statement made in Part I under subparagraph (4) is in the negative. Contractors are invited to include in their reports the information and data described in subparagraphs (5) or (10). The contents of the Standard Commercial Article Report shall be as follows:

PART I

(1) A brief description of the articles (by class) claimed to be exempt as standard commercial articles, including representative catalogs or brochures, if available. For this purpose, articles may be grouped into such product classes as the contractor uses regularly in its own accounting system.

(2) Actual or estimated total net sales of such articles (by class) during the fiscal year under review, and the estimated percentage of such sales made under prime contracts with the Departments and subcontracts. These estimates (which are for the purposes of this report only) may be based upon the experience of the contractor in prior years or available information for the year under review. It is not required that detailed segregation methods be employed for the purpose of making such estimates.

(3) A statement of the pricing policy of the contractor with respect to whether the sales claimed to be exempt were made at prices equal to or higher than or lower than prices charged on sales of similar articles in comparable amounts for nonrenegotiable use.

(4) A statement that the articles (by class) claimed to be exempt, in the normal course of business, are or are not customarily manufactured for stock, and customarily maintained in stock by the manufacturer or any dealer, distributor, or other commercial agency for the marketing of such articles. If only some of the articles included in any product class of the contractor are customarily manufactured for and maintained in stock as described in this subparagraph, the report should so indicate and should state the estimated percentage of the sales thereof. Other articles included in such product class should be reported, if appropriate, under Part II.

(5) Any other pertinent information and data which, in the opinion of the contractor, tends to establish that competitive conditions affecting the sale of such articles during the fiscal year under review were such as would reasonably prevent excessive profits.

PART II

(6) With respect to the articles (by class) claimed to be exempt, set forth the names and addresses of not less than two other persons, not related to the contractor and known or believed by the contractor to be not related to each other, who manufactured and sold such articles (or articles identical therewith in every material respect) for general civilian industrial or commercial use during the fiscal year under review.

(7) If any such article was not manufactured and sold during the fiscal year by more than two persons for general civilian industrial or commercial use, but is claimed to be identical in every material respect with an article so manufactured and sold, set forth the information required by subparagraph (6) with respect to such other article, together with information sufficient to establish that both of such articles are of the same kind, are manufactured of the same or substitute materials, and have the same industrial or commercial use or uses.

(8) A statement indicating generally the extent to which the prime contracts, if any, of the contractor for such articles were negotiated or resulted from formal advertising and competitive bidding in conformity with the requirements of section 3 of the Armed Services Procurement Act of 1947 (Pub. Law 413, 80th Cong.).

(9) A statement indicating generally the extent to which the subcontracts, if any, of the contractor for such articles were negotiated or resulted from competitive bidding.

(10) Any other pertinent information and data which, in the opinion of the contractor, tends to establish that competitive conditions affecting the sale of such articles during the fiscal year under review were such as would reasonably prevent excessive profits.

(c) *Duty to furnish additional information.* The filing of a Standard Commercial Article Report in accordance with the provisions of this section will not relieve any prime contractor or subcontractor of the duty to furnish such other information, records or data which are determined by the Board to be necessary to carry out its responsibilities under section 106 (a) (8) of the act.

(d) *Time for filing Standard Commercial Article Report.* Except as set forth in the first sentence of § 1467.3 (d), the following rules shall apply:

(1) Every contractor who claims that the exemption provided in section 106 (a) (8) of the act is applicable to all of its receipts or accruals in a fiscal year under prime contracts with the Departments and subcontracts, and who does not waive the exemption with respect to any of such receipts or accruals, shall file the Standard Commercial Article Report as soon as practicable, either before or after the close of such fiscal year, but in no event later than the date upon which the contractor, if it did waive the exemption with respect to all of such receipts or accruals, would be required to file the Standard Form of Contractor's Report with respect to such fiscal year.

(2) If, in addition to receipts or accruals claimed to be within the exemption, the contractor also had other renegotiable receipts or accruals in its fiscal year, the Standard Commercial Article Report may be filed, at the election of the contractor, at any time before the first day of the third calendar month following the close of such fiscal year. If the Standard Commercial Article Report is so filed, the contractor shall not be required to file its financial statement with respect to such other receipts or accruals until the date prescribed in § 1470.3 (d) (1) of this subchapter for the filing of such financial statement or until the thirtieth day after the Board sends to the contractor written notice of the action of the Board on the claim for exemption, whichever occurs later. If the Standard Commercial Article Report is not filed within the time specified in the first sentence of this subparagraph, it shall be filed by the contractor with its Standard Form of Contractor's Report or its Statement of Non-Applicability, as the case may be, for such fiscal year.

(e) *Effect of filing*—(1) *In general.* When the Standard Commercial Article Report is filed, it will be considered that the contractor has filed the information and data prescribed in paragraph (8) of section 106 (a) of the act, and the six-month period prescribed in said paragraph will thereupon begin to run, except as provided in subparagraphs (2), (3) and (4) of this paragraph.

(2) *When report is defective.* If, within sixty (60) days after the filing of a Standard Commercial Article Report, the Board sends to the contractor a written notice that such report is in the opinion of the Board incomplete or otherwise defective in any material respect, and that exception has been taken thereto in such respect, the filing of such Standard Commercial Article Report will not be considered to be the filing of the information and data prescribed in paragraph (8) of section 106 (a) of the act, sufficient to start the running of the six-month period prescribed in said paragraph, and such period will not begin to run until such defect has been corrected by the filing of the information or data specified in the notice of the Board. If the contractor fails to correct the defect within a reasonable time, the Board may deny the application of the contractor for the exemption.

(3) *When additional information is required.* If, within sixty (60) days after the filing of a Standard Commercial Article Report, the Board sends to the contractor a written request to furnish specific additional information or data to support the claim for exemption, the filing of such Standard Commercial Article Report will not be considered to be a filing of information and data sufficient to start the running of the six-month period prescribed in section 106 (a) (8) of the act, and such period will not begin to run until a complete and satisfactory filing of the additional information or data so requested has been made. If such additional filing is complete and satisfactory, the Board as soon as possible thereafter will send to the contractor a written notice that the additional information and data is complete and satisfactory and that the six-month period began to run on the date of such additional filing. If the contractor fails to furnish the additional information or data within a reasonable time, the Board may deny the application of the contractor for the exemption.

(4) *When material misstatement occurs.* If the Standard Commercial Article Report filed by any contractor contains a material misstatement of fact, the six-month period prescribed in section 106 (a) (8) of the act will not begin to run until such misstatement has been corrected, notwithstanding that the Board previously may have notified the contractor that such report had been accepted as complete and satisfactory.

§ 1467.5 *Exemption denied when article fails to qualify as standard commercial article.* If within the six-month period prescribed in section 106 (a) (8) of the act, computed in accordance with the provisions of § 1467.4 (e), the Board determines that any article claimed by the contractor to be exempt is not a standard commercial article, the Board will give written notice of such determination to the contractor and will advise the contractor that the sales of such article in the fiscal year under review are not exempt under section 106 (a) (8) of the act.

§ 1467.6 *Specific findings of sufficient competitive conditions.* If within the six-month period prescribed in section 106 (a) (8) of the act, computed in accordance with the provisions of § 1467.4 (e), the Board determines that any article claimed by the contractor to be exempt is a standard commercial article and makes a specific finding that competitive conditions affecting the sale of such article during the fiscal year under review were such as would reasonably prevent excessive profits, the Board will give written notice of such determination and finding to the contractor and, except as provided in § 1467.4 (e) (4), the exemption of all sales of such article so reported shall thereupon become fixed and final.

§ 1467.7 *Specific findings of insufficient competitive conditions*—(a) *When Board fails to make specific finding.* If within the six-month period prescribed in section 106 (a) (8) of the act, computed in accordance with the provisions of § 1467.4 (e), the Board fails to determine that any article claimed by the contractor to be a standard commercial article is not a standard commercial article as that term is defined in section 106 (a) (8) of the act, or fails to make a specific finding that competitive conditions affecting the sale of such article during the fiscal year under review were such as would not reasonably prevent excessive profits, then, except as provided in § 1467.4 (e) (4), the exemption of all sales of such article so reported shall thereupon become fixed and final.

(b) *When Board makes specific finding.* If within the six-month period prescribed in section 106 (a) (8) of the act, computed in accordance with the provisions of § 1467.4 (e), the Board makes a specific finding that competitive conditions affecting the sale of any standard commercial article claimed by the contractor to be exempt were such as would not reasonably prevent excessive profits, the Board will give written notice of such finding to the contractor and will advise the contractor that the sales of such article in the fiscal year under review are not exempt under section 106 (a) (8) of the act.

§ 1467.8 *Exemption not applicable to related subcontracts*—(a) *Statutory provision.* Section 106 (a) (7) of the act exempts the following:

(7) any subcontract directly or indirectly under a contract or subcontract to which this title does not apply by reason of *any paragraph, other than paragraph (8)*, of this subsection;

[Matter in italics added by Pub. Law 764, 83d Cong., approved September 1, 1954, and applies to contracts with the Departments and subcontracts only to the extent of the amounts received or accrued by a contractor or subcontractor after December 31, 1953.]

(b) *Effect.* The exemption provided in paragraph (8) of section 106 (a) of the act is limited to prime contracts and subcontracts with respect to which the conditions prescribed in said paragraph are shown to exist. It does not extend to related subcontracts. With respect to any such subcontracts, the exemption, if claimed, must be independently established.

PART 1470—PRELIMINARY INFORMATION REQUIRED OF CONTRACTORS

Section 1470.3 *Filing of financial statement* is amended in the following respects:

1. Paragraph (a) *Form* and paragraph (b) *By whom filed* are deleted in their entirety and the following is inserted in lieu thereof:

(a) *When renegotiable sales exceed statutory "floor".* In accordance with the requirements of the first sentence of section 105 (e) (1) of the act, the "Standard Form of Contractor's Report" (as set forth in § 1470.99) is hereby prescribed as the form of financial statement required to be filed by every person who holds renegotiable prime contracts or subcontracts when the aggregate renegotiable receipts or accruals of such person and all other persons under control of or controlling or under common control with such person exceed the applicable minimum amount for renegotiation prescribed in section 105 (f) (1) or (2) of the act. This includes brokers and manufacturers' agents and others whose principal business falls within the definition of subcontracts set forth in section 103 (g) (3) of the act. The Standard Form of Contractor's Report is composed of two parts (RB1 and RB 1B). No special form is prescribed for construction contractors, architects and engineers. Such contractors shall adapt the Standard Form of Contractor's Report to their particular needs.

(b) *When renegotiable sales are less than statutory "floor".* In accordance with the requirements of the first sentence of section 105 (e) (1) of the act, the "Statement of Non-Applicability of the Renegotiation Act of 1951, as amended" (as set forth in § 1470.91) is hereby prescribed as the form of financial statement required to be filed by every person who holds renegotiable prime contracts or subcontracts when the aggregate renegotiable receipts or accruals of such person and all other persons under control of or controlling or under common control with such person do not exceed the applicable minimum amount for renegotiation prescribed in section 105 (f) (1) or (2) of the act.

2. Paragraph (d) *Time for filing* is amended by deleting subparagraph (1) in its entirety and inserting in lieu thereof the following:

(1) *In general.* Except as otherwise provided in § 1467.4 (d) (2) of this subchapter, the Standard Form of Contractor's Report, including both RB Form 1 and RB Form 1B, or the Statement of Non-Applicability, whichever is appropriate, shall be filed on or before the first day of the fifth calendar month following the close of the fiscal year of the contractor, whether or not any specific request for filing has been made.

3. A new § 1470.91 is added to read as follows:

§ 1470.91 *Statement of non-applicability of the Renegotiation Act of 1951, as amended.*

STATEMENT OF NON-APPLICABILITY OF THE RENEGOTIATION ACT OF 1951, AS AMENDED

We hereby declare that our aggregate receipts or accruals (together with those of all below-listed persons, firms or corporations under control of or controlling or under common control with the undersigned) under contracts and subcontracts subject to the Renegotiation Act of 1951, as amended, hereinafter referred to as the act, did not exceed $----------[1] for our fiscal year ended
(Insert amount)
---------- (Insert month, day and year). In computing such receipts or accruals, we have excluded brokerage commissions and other income under subcontracts described in section 103 (g) (3) of the act.

We further declare that brokerage commissions and other income, if any, received or accrued by us (together with those of all below-listed persons, firms or corporations under control of or controlling or under common control with the undersigned), under subcontracts described in section 103 (g) (3) of the act, did not exceed 25,000 for our fiscal year ended ----------
(Insert month, day, and year)

We represent that we do not expect to receive or accrue any further amounts subject to renegotiation which will bring total receipts or accruals, for the fiscal year involved, above the $---------- floor
(Insert amount)
or the $25,000 floor.

The following persons, firms or corporations, and no others, controlled or were under control of or under common control with the undersigned during such fiscal year (if none, write "None"; do not insert your own name).

Name of person, firm, or corporation	*Address*

To be filled in only if this form is filed for a fiscal year ending after December 31, 1953: The standard commercial article exemption is not applicable ( ) waived ( ) claimed ( ) waived in part and claimed in part ( ). If claimed in whole or in part, the Standard Commercial Article Report will be filed ( ) has been filed ( ). If preciously filed, it is awaiting action ( ) was approved ( ) was denied ( ) date of action ----------, 19--. *See instructions on reverse side.*

In submitting this statement, we are aware that section 105 (e) (1) of the act provides in part as follows: "• • • Any person who willfully fails or refuses to furnish any statement, information, records, or data required of him under this subsection, or who knowingly furnishes any such statement, information, records, or data containing information which is false or misleading in any material respect, shall, upon conviction thereof, be punished by a fine of not more than $10,000 or imprisonment for not more than one year, or both."

Exact name of contractor (not abbreviated)

State of incorporation

Mailing address (Street, City and State)

Date of incorporation

Signature: ----------
Principal officer, partner or proprietor

Title

Date of this report: ----------

If a proprietorship or partnership give date business established

INSTRUCTIONS

For fiscal years ending before June 30, 1953: If renegotiable receipts or accruals are $250,000 or less, use this form and insert "$250,000" in the blank spaces indicated. Exclude receipts or accruals under prime contracts and subcontracts exempted by the act or by The Renegotiation Board.

For fiscal years ending on or after June 30, 1953, but not later than December 31, 1953: If renegotiable receipts or accruals are $500,000 or less, use this form and insert "$500,000" in the blank spaces indicated. Exclude receipts or accruals under prime contracts and subcontracts exempted by the act or by The Renegotiation Board.

For fiscal years ending after December 31, 1953: Under the Renegotiation Act of 1951, as amended September 1, 1954, receipts or accruals after December 31, 1953, from contracts and subcontracts for standard commercial articles are exempt unless the Board makes a specific finding that competitive conditions affecting the sale of such articles are such as will not reasonably prevent excessive profits. A standard commercial article is defined in section 106 (a) (8) of the act, as amended.

[1] Fill in amount as follows (prorate if fiscal year is less than 12 months and state beginning and ending dates):

For any fiscal year ending on or after June 30, 1953, $500,000.

For any fiscal year ending before June 30, 1953, $250,000.

In determining whether you are entitled to use the form on the reverse side, the following rules should be observed (see RBR 1467.3 (d)):

(a) If renegotiable receipts or accruals are $500,000 or less (including sales of standard commercial article), use this form.

(b) If renegotiable receipts or accruals are $500,000 or less only when sales of standard commercial articles are excluded, use this form for such receipts or accruals and file Standard Commercial Article Report to support claim for exemption of standard commercial article sales.

(c) If renegotiable receipts or accruals are more than $500,000 (exclusive of sales of standard commercial articles), use Standard Form of Contractor's Report (RB Forms 1 and 1B) for such receipts or accruals and file Standard Commercial Article Report to support claim for exemption of standard commercial article sales.

(d) In computing renegotiable receipts or accruals for the above purposes, amounts received or accrued under prime contracts and subcontracts for standard commercial articles should be included or excluded as indicated above, and amounts received or accrued under all other prime contracts and subcontracts exempted by the act or by The Renegotiation Board should be excluded in all cases. If claim for exemption of standard commercial article sales has previously been submitted and denied, such sales should be included.

(Sec. 109, 65 Stat. 22; 50 U. S. C. App. 1219)

[F. R. Doc. 54-9287; Filed, Nov. 23, 1954; 8:51 a. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 54-1405]

[Rules Amdts. 1-69 and 9-7]

PART 1—PRACTICE AND PROCEDURE

PART 9—AVIATION SERVICES

APPLICATION FORMS

In the matter of adoption of Revised FCC Form 404, Application for Aircraft Radio Station License, deletion of FCC Form 404-A, Application for Private Aircraft Radio Station License, and amendment of Parts 1 and 9 of the Commission's rules to implement the revised form.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of November 1954, the Commission considered adoption of a revised FCC Form 404, Application for Aircraft Radio Station License, and amendment of Parts 1 and 9 of the Commission's rules in order to permit use of the revised form for several classes of aircraft previously applied for and licensed on separate and different forms.

On June 28, 1954, the Commission amended § 9.105 (a) (2) and (3) of Part 9 of its rules to provide that air carriers may specify on a single application form the total number of air carrier aircraft radio stations in the fleet and request a single instrument of authorization for the operation of all radio stations aboard the aircraft of the fleet. The rules also permit any scheduled U. S. air carrier, conducting operations pursuant to an interchange or lease agreement authorized by the Civil Aeronautics Board, to request permission to temporarily transfer the control of any of its air carrier aircraft radio stations to another U. S. scheduled air carrier with whom it has such an interchange or lease agreement, in order to enable such air carrier to operate the station while the interchange or lease agreement is in effect. Provision for inclusion of this information has necessitated revision of aircraft application forms. Use of a single fleet license has necessitated relaxation of the rule requiring posting of the station license in aircraft to the extent that a photocopy may be substituted for the original license in each aircraft of the fleet.

Two separate application forms and three separate license forms have been used for applying for and licensing aircraft. In order to facilitate preparation by the applicant, and examination of the application and issuance of the license by the Commission, all forms have been combined into a single, four part, perforated form, composed of the Application, License, FCC Record Copy, and Aeronautical Enroute Station Licensee Record Copy, to be completed by the applicant. The application and record copy parts are to be retained in the Commission's files. The license part is to be returned to the applicant as his official station license after authentication. The aeronautical enroute station licensee record part, when completed by the applicant as evidence of arrangements made with the aeronautical en route station licensee for service pursuant to § 9.431 of the rules, is to be furnished to the land station licensee by the Commission in lieu of the license carbon copy previously furnished in certain cases to signify Commission approval of the application.

Certain necessary editorial changes have been made in the questions and instructions for use of the form, in order to include in a single form the information previously contained in several different forms. Other questions are no longer required by the Commission and have been deleted.

In order to comply with current practices permitted by the Commission concerning use of foreign frequencies, the rule requiring that frequencies used when operating under foreign jurisdictions be reported to the Commission has been deleted.

The license term for private aircraft, heretofore, has been two years, whereas the term for other classes of aircraft stations has been from one to five years, and licenses normally have been granted for four years. In order to permit application and license on a single form for aircraft having multiple installations now covered by different license terms, the license term has been made uniform, permitting issuance of a four year license for all classes.

The revision of the form and the majority of the amendments to the rules are procedural in nature and with respect to them notice of proposed rule making pursuant to section 4 (a) of the Administrative Procedure Act is not necessary. Notice of proposed rule making with respect to the amendment which makes the term of all classes of aircraft licenses four years would unduly delay the use of the new form and the amendment is non-controversial in nature and, therefore, such notice would be impracticable, unnecessary and contrary to the public interest. For the same reasons, the revision of the form and the amendments of the rules may be made effective immediately.

Authority to revise the form and amend these rules is contained in sections 4 (i), 301, 303 (e), 303 (r) and 308 (b) of the Communications Act, as amended.

It is ordered, That revised FCC Form 404,[1] Application for Aircraft Radio Station License, is hereby adopted.

It is further ordered, That Part 1 of Commission rules is amended as set forth below:

1. Amend "Table showing forms currently in effect and where they are referred to in Part 1 of the Rules and Regulations", as follows:

Add to 404	"1.319 (b) (8)"
Delete "404-A	1.318 (b) (4) 1.319 (b) (8)"

2. In § 1.318, delete paragraph (b) (4).

3. In § 1.319, delete the present language of paragraph (b) (8) and substitute "FCC Form 404, 'Application for Aircraft Radio Station License'."

It is further ordered, That Part 9 of Commission rules is amended as follows:

1. In § 9.105 (a) (1), delete the present language and substitute the following:

(1) Application for new or modified aircraft radio station license shall be submitted on FCC Form 404, Application for Aircraft Radio Station License.

2. In § 9.105 (b), delete the present language and substitute the following:

(b) Application for renewal of aircraft radio station license shall be submitted on FCC Form 405-A, Application for Renewal of Radio Station License (Short Form). Unless otherwise directed by the Commission, each application for renewal of license shall be filed during the last 60 days of the license term. In any case in which the licensee has, in accordance with the Commission's rules made timely and sufficient application for renewal of license, no license with reference to any activity of a continuing nature shall expire until such application shall have been finally determined.

3. In § 9.107, delete the present language and substitute the following:

§ 9.107 *Transfer and assignment of aircraft.* Upon the sale, assignment or transfer of any aircraft, a new application for license shall be submitted in accordance with § 9.105 (a) (1).

4. In § 9.116, delete the present language and substitute the following:

§ 9.116 *License period.* For all stations in the Aviation Services, the license period shall be as follows:

(a) Each station license will be issued for a term of from one to five years from the effective date of grant, the term varying as may be necessary to permit the orderly scheduling of renewal applications.

(b) Each station license normally will be renewed, upon proper application, for a term of four years from the effective date of renewal.

5. In § 9.118 (b), delete the present language of this paragraph and substitute the following:

(b) The current authorization for aircraft radio stations may be posted or kept at a convenient easily accessible location in the aircraft. Air carriers licensed by means of a single instrument of authorization for the operation of all fleet aircraft may post or keep in a conveniently accessible location in each aircraft a photocopy of the original authorization.

6. In § 9.312 (k), delete the proviso.

It is further ordered, That the amendments to Parts 1 and 9 of the Commission's rules and revised FCC Form 404 shall become effective immediately: *Provided, however*, That applications for aircraft radio licenses not involving air carrier fleet licenses filed on existing FCC Forms 404 and 404-A will be accepted by the Commission until March 1, 1955.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 308; 48 Stat. 1081, 1082, 1085; 47 U. S. C. 301, 303, 308)

Released: November 18, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 11129; FCC 54-1415]

[Rules Amdt. 3-28]

PART 3—RADIO BROADCAST SERVICES

TABLE OF ASSIGNMENTS FOR TELEVISION BROADCAST STATIONS

In the matter of amendment of § 3.606 *Table of assignments*, rules governing Television Broadcast Stations; Docket No. 11129; Rules Amdt. 3-28.

1. The Commission has under consideration its notice of proposed rule making issued on August 11, 1954 (FCC 54-1012), and published in the FEDERAL REGISTER on August 14, 1954 (19 F. R. 5154), proposing to assign Channel 11 to San Juan, Puerto Rico, to be reserved for educational use instead of Channel 6 and to assign Channel 6 to Caguas instead of Channel 11, in response to a petition filed by Radio Americas Corporation.

2. Comments were filed by three parties: Radio Americas Corporation, applicant for a new television station to be operated on Channel 5 at Mayaguez and petitioner in this proceeding, the Department of Education of Puerto Rico, applicant for a new educational television station to be operated on Channel 6 at San Juan, and Jose Ramon Quinones, permittee of Station WAPA-TV on Channel 4 at San Juan.

3. In support of its request, Radio Americas urged that the proposed change in channels can be accomplished without any decrease in total assignments now provided by the Table and would conform to the Commission's allocation principles; that it would resolve the conflict between the Radio Americas and Department of Education applications; and that it would effectuate the early establishment of additional television service in Puerto Rico.

4. The Department of Education opposes the proposed change to Channel 11 in San Juan and offers the following counterproposals, in order of preference:

a. Waiver of the spacing requirements of § 3.610 (b).

b. A change in the educational reservation from Channel 6 to Channel 4 in San Juan and the issuance of a Show Cause Order to WAPA-TV requiring it to shift from Channel 4 to Channel 6.

c. Assign high-band VHF Channel 7, 9, 11 or 13 to Mayaguez by deleting a channel from Ponce, Caguas, or Arecibo and substituting UHF Channels 14 and 20 therefor.

d. Assign UHF Channels 14, 20, and 26 to Mayaguez and delete VHF Channels.

5. The Department of Education objects to the use of a high-band VHF assignment at San Juan, urging that it is important that the only educational station in Puerto Rico reach as much of the Island as possible; that coverage of the Island on a high-band channel would be inadequate because of the rugged terrain and the poorer propagation properties of these channels; and that a high-band channel would be unsatisfactory because of the existence of low-band only receiving antennas in the area and the increased cost, estimated at approximately $100,000, that such operation would entail. In support of its first alternative counter-proposal for a waiver of the minimum adjacent-channel separation, the Department of Education urges that a waiver is warranted in Puerto Rico because of the rugged terrain; that such a waiver would not constitute a precedent for the Mainland; and that this solution would least restrict its proposed educational service. In support of the third alternative, which would place the high-band VHF channel in Mayaguez instead of San Juan, the Department urges that the problems which it would face with respect to receiving antennas and the need for wide area coverage of the educational station would not be faced by Radio Americas in Mayaguez. Further, the Department argues that the increased cost to Radio Americas would be less than that for the Department if it were required to shift and could more easily be borne by a commercial broadcaster.

6. Jose Ramon Quinones, permittee of Station WAPA-TV on Channel 4 at San Juan, opposes the second counterproposal of the Department of Education which would shift WAPA-TV to Channel 6, urging that no reasons for the adoption of this proposal have been advanced which have not already been considered and rejected by the Commission; that Station WAPA-TV has been operating for some time on Channel 4; that a change in assignment at this late date would cause irreparable injury in light of the public's association of Channel 4 with Station WAPA-TV; and that much labor and expense would be involved in carrying out the proposed change.

7. In reply to the Department's counterproposals which would place a high-band channel in Mayaguez, Radio Americas urges that these proposals entail a loss of an assignment in some other city and, therefore, involve a basic change in the allocation structure for Puerto Rico. It also argues against the assignment of UHF only to Mayaguez. Radio Americas submits that the Department's contention concerning the increased cost is without merit since a higher gain antenna can be used with a lower-powered transmitter for Channel 11 in order to obtain the required effective radiated power. As for differences in propagation, Radio Americas argues that such differences are recognized and taken care of by the Commission in that higher median fields are required with attendant greater power on the higher channels.

8. The problem which prompted the instant request for rule making is the choice of sites specified by two applicants in Puerto Rico which would result in a sub-standard spacing: Radio Americas for a station on Channel 5 at Mayaguez and the Department of Education for an educational station on adjacent Channel 6 at San Juan. Both sites are at high elevations, removed from the principal cities, and only 58.6 miles apart instead of the required 60 miles.

9. This matter was before the Commission twice before. The first time (Memorandum Opinion and Order issued on October 23, 1953, FCC 53-1379) the Commission denied the joint request of Radio Americas and the Department of Education for a waiver of the spacing provision in § 3.610 (b) of the rules, pointing out that the conflict could be removed by an appropriate rule-making request for the assignment of another channel in either city. The second time (Memorandum Opinion and Order issued on February 5, 1954, FCC 54-162) the Commission denied a request of the Department of Education to reserve Channel 4 for education in lieu of Channel 6 and to issue a Show Cause Order to WAPA-TV, the permittee on Channel 4, to change frequency. Here again, the Commission suggested that a solution could be found by assigning some other channel to either San Juan or Mayaguez. The instant request seeks to resolve the conflict of sites by an exchange of assignments between San Juan and Caguas. There are no applications for Caguas on Channel 11.

10. The Department of Education in opposition to the Radio Americas petition advances four alternative counterproposals: (a) Waiving the minimum spacing requirements; (b) changing the reservation from Channel 6 to Channel 4 in San Juan and directing the existing station on Channel 4 to shift to Channel 6; (c) assigning a high-band VHF channel (7, 9, 11 or 13) to Mayaguez by deleting a channel from Ponce, Caguas or Arecibo and substituting UHF channels

in these communities; and (d) deleting the VHF assignments in Mayaguez and substituting UHF channels.

11. The first two counterproposals suggested by the Department of Education—waiving the minimum spacing requirements or changing the reservation to Channel 4—were previously rejected by the Commission and it is the Commission's view that they are without merit and should be denied. With respect to the Department of Education's suggestion that the minimum mileage spacing requirements be waived since no overlap would result because of the rugged terrain, it should be pointed out that there is no known method for accurately evaluating propagation data in such terrain. Furthermore, with respect to the Department of Education's contention that a waiver can be granted in this instance since it would not constitute a precedent elsewhere, we believe that there would be cases within the continental limits of the United States where the principle applied in the instant case might also be appropriate. We are of the view that the minimum separations represent a basic cornerstone of the Table of Assignments and that no sub-standard spacings should be authorized.

With respect to the Department of Education's second alternative—shifting the reservation to Channel 4—this suggestion necessitates changing the frequency of WAPA-TV, an existing station. The Department of Education previously offered this proposal and it was rejected by the Commission, and WAPA-TV has been operating on Channel 4 for some time since this action. It would not appear that changing this station's frequency at this time is warranted.

12. The fourth suggestion offered by the Department of Education is that the VHF assignments be deleted in Mayaguez and replaced by UHF channels. These would represent the first UHF assignments on the Island. The Commission believes that this proposal is without merit and should be rejected.

13. There remains for consideration the question of whether a high-band VHF channel should be assigned in San Juan as proposed by Radio Americas Corporation, or whether the high-band channel should be placed in Mayaguez as proposed by the Department of Education in its third alternative counterproposal. Upon our consideration of the entire record in this proceeding we have concluded that the Radio Americas proposal to assign Channel 11 to San Juan is more meritorious and is to be preferred. The Radio Americas proposal can be accomplished very simply and would result in a more effective utilization of the spectrum: This proposal would merely shift the assignments of Channel 6 and 11 between San Juan and Caguas, and would not entail the loss of any assignments in any other Puerto Rico community. Granting the proposal of the Department of Education, however, would require that we eliminate the only assignment in Arecibo (28,659 persons) or Caguas (33,759 persons), or that we reduce from two to one the assignments in Ponce (99,492 persons). While the proposal we are adopting may require some adjustment in the antennas in the San Juan area in order to receive the transmissions of a station on Channel 11, we believe the benefit attained by adopting the Radio Americas proposal outweighs such difficulties. We are also confident that the operation of a station in San Juan on VHF Channel 11 will afford satisfactory coverage in the San Juan area. Accordingly, we are adopting the proposal of Radio Americas and are rejecting the counterproposal of the Department of Education.

14. Authority for the adoption of the amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r) and 307 (b) of the Communications Act of 1934, as amended.

15. In view of the foregoing: *It is ordered*, That effective December 31, 1954, the Table of Assignments contained in § 3.606 of the Commission's rules and regulations is amended, insofar as the communities named are concerned, as follows:

City:	Channel No.
Caguas, P. R.	6+
San Juan, P. R.	2+, 4−, *11+

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies secs. 301, 303, 307, 48 Stat. 1081, 1082, 1084; 47 U. S. C. 301, 303, 307)

Adopted: November 17, 1954.

Released: November 18, 1954.

[Rules Amdts. 6-7 and 9-8]

PART 6—PUBLIC RADIO COMMUNICATION SERVICES (OTHER THAN MARITIME MOBILE)

PART 9—AVIATION SERVICES

PROHIBITION OF OPERATION OF FIXED STATIONS ON FREQUENCIES NOT ALLOCATED TO THE FIXED SERVICE IN THE ATLANTIC CITY TABLE OF FREQUENCY ALLOCATIONS (1947)

In the matter of amendment of Parts 6 and 9 of the Commission's rules to prohibit operation by fixed stations on frequencies not allocated to the fixed service in the Atlantic City Table of Frequency Allocations (1947); Docket No. 11115; Rules amdts. 6-7 and 9-8.

1. The Commission having under consideration its proposal adopted July 28, 1954 in the above-entitled matter.

2. In accordance with the requirements of section 4 (a) of the Administrative Procedure Act, notice of proposed rule making in this matter which made provision for the submission of written comments by interested parties, was duly published in the FEDERAL REGISTER 19 F. R. 4880 August 4, 1954, and the period for the filing of comments has now expired.

3. Comments were filed in this proceeding by the American Telephone and Telegraph Company (AT&T), the Hawaiian Telephone Company, (HTC), the Mackay Radio and Telegraph Company (MRT) and Aeronautical Radio Inc. (ARINC).

4. The first two above-mentioned parties desired certain exception to be made in the Commission's proposal with respect to the assignment of frequencies above 30 Mc. The MRT indicated no objection to the proposal and ARINC objected and proposed alternate language to be used in the amendments to the rules.

5. The Commission intended that its proposal should have the effect of requiring the fixed service to operate inband in accordance with its table of frequency allocations and did not intend to amend its rules with respect to the assignment of frequencies to the fixed service in cases where the national allocation may not conform to the international allocation. In view of the above, the actual wording of the amended rules is being modified in this respect and thereby meets the points brought out by the AT&T and the HTC.

6. Comments received from ARINC are directed to the following points:

(a) It recommended that only footnote 18 to § 9.443 should be amended. The text of this footnote, under the ARINC recommendation, would read as follows: "[18] Effective beginning as of December 1, 1954, frequencies assignable to stations in the aeronautical fixed service shall be within the radio frequency bands allocated to the fixed service under effective international and regional agreements, except as may be otherwise expressly provided in any particular proceeding. Any existing assignments not in conformance with this provision shall be subject to modification by show cause order or other action."

(b) ARINC comments with respect to the Commission's proposal state that "it is believed that the second, third, fourth and last sentences are unnecessary and undesirable and will serve no useful purpose. The first sentence of the proposal is defective as to required procedure and is actually more restrictive than the substitute proposal which, for example, gives effect to applicable provisions of the Fourth Inter-American Radio Conference (Washington, 1949), as well as prospective agreements."

(c) ARINC suggested that other sections of Part 9 were "relatively more in need of revision to conform with presently effective allocations".

7. With respect to (a) above, the Commission points out that § 2.104 (a) of Part 2 is the Commission's table of frequency allocations and includes effective international tables. In some instances the allocations made by the Commission limit the use of frequencies further than indicated in international agreement and in other instances the Commission, through rule making proceedings, has found it in the public interest to derogate portions of the international table. In view of this, the points brought out in the first two sentences of the recommended footnote 18 are considered by the Commission to be already covered in its table of frequency allocations. However in order that the intent of the amendments may be made completely clear, the Commission is utilizing in the finalized amendments the term, "in accordance with § 2.104 (a) of the Commission's rules and regulations" in lieu of the originally proposed term, "within the bands allocated to the fixed service by the Atlantic City Table of Frequency Allocations (1947)".

8. The Commission is of the opinion that the last sentence recommended by ARINC for footnote 18 is unnecessary since, on the effective date of these amendments, there will be no existing assignments which are not in conformance to § 2.104 (a). In view of this, there is no reason for adopting the suggested wording and it is not being included in the finalized amendments.

9. In regard to (b) above, the Commission considers that the second, third, fourth and last sentences in the proposed amendment are desirable since they explain the procedure of handling applications for frequencies and therefore they are not being deleted as suggested by ARINC. The adoption of the language referring to § 2.104 (a) in lieu of "The Atlantic City Table" is considered to meet the objections of ARINC with respect to the first sentence of the proposed amendment.

10. With respect to (c) above, ARINC's comment is not germane to this proceeding and has not therefore been considered at this time.

11. In view of the above, the Commission is adopting the amendments to Parts 6 and 9 of its rules and regulations as indicated below.

12. It appearing, that the public interest, convenience and necessity will be served by amendments herein ordered, the authority for which is contained in section 303 (c), (f) and (r) of the Communications Act of 1934, as amended;

13. *It is ordered*, That, effective December 1, 1954 Parts 6 and 9 of the Commission's rules are amended as set forth below.

(Sec. 4, 48 Stat. 1066 as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Adopted: November 17, 1954.

Released: November 18, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

1. Section 6.20 of the Commission's rules and regulations is amended to read as follows:

§ 6.20 *Assignment of frequencies.* Effective December 1, 1954 only those frequencies which are in accordance with § 2.104 (a) of this chapter may be authorized for use by stations in the Fixed Public and Fixed Public Press services. Selection of specific frequencies within such bands shall be made by the applicants therefore. After an application has been filed with the Commission for a particular frequency, its availability for assignment as requested will be determined by study of the probabilities of interference to and from existing services assigned on the same or adjacent frequencies and if necessary, by coordination with other agencies utilizing frequencies in these ranges. The applicant will be notified of the results of such study and coordination. All new assignments of frequencies may be made subject to certain conditions as may be required to minimize the possibility of harmful interference to existing services.

2. Section 9.443 of the Commission's rules and regulations is amended to read as follows:

§ 9.443 *Assignment of frequencies.* Effective December 1, 1954, except for aeronautical fixed stations in the Territory of Alaska, only those frequencies which are in accordance with § 2.104 (a) of this chapter may be authorized for use by aeronautical fixed stations. The applicant shall request specific frequencies within such bands when making an application for an aeronautical fixed station. The availability for assignment of such frequencies will be determined in the Commission by study of the probabilities of interference to and from existing services assigned on the same or adjacent frequencies and, if necessary, by appropriate coordination with other agencies. All new assignments of frequencies will be subject to such conditions as may be required to minimize the possibility of harmful interference to existing services. The assignment of frequencies and the operation of aeronautical fixed stations in the Territory of Alaska are subject to the proceedings in Docket No. 11080.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1939) Part 175]

TRAFFIC IN CONTAINERS OF DISTILLED SPIRITS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Commissioner of Internal Revenue, Attention: Director, Alcohol and Tobacco Tax Division, Washington 25, D. C., within the period of 30 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 2871 of the Internal Revenue Code (53 Stat. 331; 26 U. S. C. 2871).

[SEAL] M. B. FOLSOM,
Acting Secretary of the Treasury.

In order (a) to liberalize the marking requirements for liquor bottles, (b) to place both domestic and imported liquor bottles on the same basis, (c) to require all manufacturers of liquor bottles, including earthenware, to qualify in the same manner as manufacturers of glass liquor bottles, (d) to authorize the Commissioner, in his discretion, to prescribe the use of other suitable materials (glass and earthenware being specifically authorized by regulations) in the manufacture of liquor bottles, (e) to modify the procedure for approving and classifying distinctive liquor bottles, (f) to extend the means of marking indicia on liquor bottles to include etching, sandblasting, or any other method of marking approved by the Commissioner, (g) to remove the requirement that bottle manufacturers and bottlers submit monthly reports on Forms 146 and 147, respectively, (h) to specifically state that bottles bearing the indicia selected by a bottler for use by himself or any of his wholly-owned subsidiaries may be used interchangeably with bottles bearing indicia of the particular premises where the bottling is to be conducted, (i) to relax requirements with respect to off-premises bottle storage for bottlers and manufacturers, (j) to permit bottlers to store miscellaneous items of equipment and supplies in off-premises bottle storage places, (k) to conform Part 175 to the reorganization procedure by delegating certain functions, hitherto reserved for the Commissioner, to the Assistant Regional Commissioner, (l) to clarify the procedure to be followed in investigating applications for permits, and (m) to place permits (on Form 98) for the procurement, use, and importation of liquor bottles on a continuing rather than an annual basis, Part 175 of Title 26, Code of Federal Regulations, is hereby amended as follows:

PARAGRAPH 1. There is inserted immediately following § 175.8 the following new section:

§ 175.8a *Assistant Regional Commissioner.* "Assistant Regional Commissioner" shall mean the Assistant Regional Commissioner, Alcohol and Tobacco Tax, who is responsible to, and functions under the direction and supervision of, the Regional Commissioner of Internal Revenue in each of the Internal Revenue Regions.

PAR. 2. There is inserted immediately following § 175.10 the following new section:

§ 175.10a *Container.* "Container" shall mean a liquor bottle of a capacity of one-half pint or greater.

PAR. 3. Section 175.12 is revoked.

PAR. 4. Section 175.15 is amended as follows:

(A) By striking the words "glass container" and inserting in lieu thereof the words "vessel of glass or earthenware, or of other suitable material approved by the Commissioner,".

(B) By striking out the words "Regulations 5".

PAR. 5. Section 175.32 is amended to read as follows:

§ 175.32 *Storage of liquor bottles by manufacturer.* Any person authorized to manufacture liquor bottles may store such bottles off his permit premises in a room or warehouse securely constructed and adequately protected under permit issued by the Assistant Regional Commissioner of the region in which such storage space is located, pursuant to application Form 98.

PAR. 6. Section 175.33, as amended by Treasury Decision 6053, approved November 23, 1953, is further amended by striking out the word "glass" in the two places it appears.

PAR. 7. Section 175.34, as amended by Treasury Decision 6053, is further amended to read as follows:

§ 175.34 *Indicia for domestic liquor bottles.* There shall be legibly blown, etched, sand-blasted, marked by underglaze coloring, or otherwise permanently marked by any method approved by the Commissioner, in either the bottom or the body of each liquor bottle (a) the permit number of the manufacturer, (b) the year of manufacture (which shall be indicated by the last two numerals), and (c) a symbol and number assigned by the Assistant Regional Commissioner, or by the Commissioner in the case of States, to represent the name of the bottler procuring the same; and there shall be similarly marked on the shoulder of each such bottle the words "Federal Law Forbids Sale or Reuse of This Bottle": *Provided,* That liquor bottles which are authorized by the Commissioner under §§ 175.56, 175.56a, and 175.56b may be manufactured and shipped, consigned, or delivered, as excepted from the markings required by this section.

PAR. 8. Section 175.40 is amended to read as follows:

§ 175.40 *General.* Liquor bottles shall bear labels showing the brands and marks prescribed by this subpart.

PAR. 9. Section 175.42 is amended to read as follows:

§ 175.42 *Net contents.* The net contents of liquor bottles shall be shown on the label, unless the statement of the net contents is legibly marked, in the manner prescribed in § 175.34, in the bottles.

PAR. 10. The headnote to Subpart E is amended to read as follows: "Subpart E—Use of Containers of Domestic Manufacture for Packaging Distilled Spirits."

PAR. 11. Section 175.55, as amended by Treasury Decision 6053, and the headnote thereof are amended to read as follows:

§ 175.55 *Containers of domestic manufacture for distilled spirits.* The use for packaging distilled spirits for sale at retail of containers of domestic manufacture of one-half pint capacity or greater, not marked as prescribed by this part, is prohibited except as provided in §§ 175.56, 175.56a and 175.56b.

PAR. 12. Section 175.56, as amended by Treasury Decision 6053, and the headnote thereof are amended to read as follows:

§ 175.56 *Distinctive liquor bottles (not costly) for distilled spirits.* Upon application (Form 98) by any bottler, the Assistant Regional Commissioner of the region in which the plant of such bottler is situated may, by the issuance of an appropriate permit, authorize the procurement and use by such bottler of liquor bottles which are found by the Commissioner to be of distinctive shape or design (but not costly of manufacture), and which bear the indicia required by § 175.34 anywhere on the bottle, for the packaging of distilled spirits, including liqueurs, cordials, and specialties.

PAR. 13. Section 175.56a, as added by Treasury Decision 6053, and the headnote thereof are amended to read as follows:

§ 175.56a *Distinctive liquor bottles (costly).* Upon application (Form 98) by any bottler, the Assistant Regional Commissioner of the region in which the plant is situated may, by the issuance of an appropriate permit, authorize the procurement and use by such bottler, for the packaging of any distilled spirits, of liquor bottles, not marked as required by § 175.34, which, because of their unique or distinctive shape or design and cost to the bottler, are found by the Commissioner not to afford a jeopardy to the revenue.

PAR. 14. There is inserted immediately following § 175.56a the following new section:

§ 175.56b *Distinctive liquor bottles for liqueurs and cordials.* Upon application (Form 98) by any bottler, the Assistant Regional Commissioner of the region in which the plant of such bottler is situated may, by the issuance of an appropriate permit, authorize the procurement and use by such bottler of liquor bottles which are found by the Commissioner to be of distinctive shape or design for the packaging of liqueurs, cordials, bitters, cocktails, gin fizzes, and such other specialties as may be specified from time to time by the Commissioner, not marked as required by § 175.34.

PAR. 15. Section 175.57, as amended by Treasury Decision 6053, is revoked.

PAR. 16. Section 175.57a, as added by Treasury Decision 6053, and the headnote thereof are amended to read as follows:

§ 175.57a *Approval of distinctive liquor bottles.* Application in letter form for the approval of any distinctive liquor bottle, accompanied by a specimen bottle (or an authentic model or other representation acceptable to the Commissioner), and 25 photographs thereof, size 5" by 7", shall be submitted to the Commissioner. In the case of liquor bottles which the applicant intends to qualify under the provisions of § 175.56a, the application shall include a statement of the cost of each such bottle to the bottler. Approval of the distinctive bottle by the Commissioner will be obtained, prior to submission of an application (Form 98) to the Assistant Regional Commissioner. Such application (Form 98) shall specify the number of the bottle assigned by the Commissioner.

PAR. 17. Section 175.58 is revoked.

PAR. 18. Section 175.59 is amended as follows:

(A) By striking out the second sentence, which begins "The bottler shall", and inserting in lieu thereof the following sentences: "The bottler shall furnish notification of such selection to the Assistant Regional Commissioner of each region where such indicia is to be used. The symbol and number so selected may be used interchangeably with the symbol and number assigned to the particular premises where the bottling is to be conducted."

(B) By striking out the word "district" in the last sentence and inserting in lieu thereof the word "region".

PAR. 19. Section 175.59a, as added by Treasury Decision 6053, is revoked.

PAR. 20. Section 175.61 and the headnote thereof are amended to read as follows:

§ 175.61 *Use and resale of liquor bottles.* No bottler shall use any liquor bottle, except for packaging distilled spirits or resell any liquor bottle except in connection with the sale of its contents, or divert any liquor bottle or other authorized marked container from his own use except upon application (Form 98) to and authorization by the Assistant Regional Commissioner, as provided by § 175.115.

PAR. 21. Section 175.62 is amended as follows:

(A) By amending the headnote thereof to read *"Reuse of liquor bottles."*

(B) By striking the words "or other authorized marked containers, as defined in this part,".

PAR. 22. Section 175.63 is amended to read as follows:

§ 175.63 *Storage of liquor bottles.* Each person authorized to bottle distilled spirits, including any parent company that selects one symbol and number to be blown in liquor bottles for use by it and by one or more of its wholly-owned subsidiaries as authorized by § 175.59, shall store new and used liquor bottles bearing the indicia assigned to him in a safe and secure place on the qualified premises: *Provided,* That such person, under permit issued by the Assistant Regional Commissioner of the region pursuant to an application filed on Form 98, may store such liquor bottles off his qualified premises, in a room or warehouse securely constructed and adequately protected. The bottler may store used liquor bottles bearing permit numbers of other authorized bottlers for the purpose of facilitating their return to the respective bottlers. He may also store liquor bottles used for packaging imported distilled spirits for exportation as authorized by § 175.96, and miscellaneous items of equipment and supplies. An importer, under permit issued by the Assistant Regional Commissioner of the region in which the storage place is located, pursuant to an application filed on Form 98, may store liquor bottles used for packaging imported distilled spirits, for exportation as authorized by § 175.96, in a room or warehouse securely constructed and adequately protected. He may also store liquor bottles used for packaging domestic distilled spirits, bearing permit numbers of authorized bottlers, for the purpose of facilitating their return to the respective bottlers. Each such bottler or importer must maintain suitable commercial records covering the receipt, disposition, and stocks of all such liquor bottles. Report of shipment to the bottling premises of used liquor bottles for packaging domestic distilled spirits as prescribed by § 175.71 and notice of receipt as prescribed by § 175.72 are not required.

PAR. 23. Section 175.70 is amended as follows:

(A) By amending the headnote thereof to read *"Orders for shipment."*

(B) By striking the words "and other authorized marked containers".

PAR. 24. The headnote to § 175.71 is amended to read *"Report of shipment."*

PAR. 25. The headnote to § 175.72 is amended to read *"Notice of receipt."*

PAR. 26. Sections 175.74, 175.75, 175.76 and 175.77 are revoked.

PAR. 27. Section 175.78 and the headnote thereof are amended to read as follows:

§ 175.78 *Requirements.* Each manufacturer, bottler, and importer shall keep such records and furnish such inventories and reports relating to the manufacture, shipment, delivery, purchase, use, or sale of all containers designed or intended for the packaging of distilled spirits, as the Commissioner or the Assistant Regional Commissioner may from time to time require.

PAR. 28. Section 175.79 is amended to read as follows:

§ 175.79 *Inspection of stocks and records of containers.* The records required to be kept under the provisions of this subpart, and all stocks of liquor bottles in the hands of liquor-bottle manufacturers and bottlers, shall at all times be available for inspection by the Assistant Regional Commissioner and other duly authorized officers of the Internal Revenue Service.

PAR. 29. The undesignated center heading immediately following Subpart G is amended to read "Importation of Empty Liquor Bottles".

PAR. 30. Section 175.85 is amended to read as follows:

§ 175.85 *General.* The importation into the United States of liquor bottles of one-half pint capacity or greater for use in packaging distilled spirits for sale at retail is prohibited, except as provided in §§ 175.87 to 175.87c.

PAR. 31. Section 175.86 is revoked.

PAR. 32. Section 175.87 and the headnote thereof are amended to read as follows:

§ 175.87 *Indicia for empty liquor bottles.* Upon application (Form 98) by any importer or bottler, the Assistant Regional Commissioner of the region in which the applicant is situated may in his discretion, by the issuance of an appropriate permit, authorize the importation, for the packaging of either domestic or imported distilled spirits, of empty liquor bottles. The Assistant Regional Commissioner issuing the permit will furnish a copy to the Assistant Regional Commissioner of the region in which the port of entry is situated. There shall be legibly blown, etched, sand-blasted, marked by underglaze coloring, or otherwise permanently marked by any method approved by the Commissioner, in the shoulder of each such bottle imported under this provision, the words "Federal Law Forbids Sale or Reuse of This Bottle," and either in the bottom or in the body thereof, the name of, and the name of the city or country of address of the manufacturer, and the permit symbol and number of the bottler: *Provided,* That liquor bottles which are authorized by the Commissioner under §§ 175.87a to 175.87c may be imported, as excepted from the markings required by this section.

PAR. 33. There is inserted immediately following § 175.87 the following new sections:

§ 175.87a *Empty distinctive liquor bottles (not costly) for distilled spirits.* Upon application (Form 98) by any importer or bottler, the Assistant Regional Commissioner of the region in which the applicant is situated may, by the issuance of an appropriate permit, authorize the importation by such applicant of empty liquor bottles which are found by the Commissioner to be of distinctive shape or design (but not costly of manufacture), and which bear the indicia required by § 175.87 anywhere on the bottle, for the packaging of distilled spirits including liqueurs, cordials, and specialties.

§ 175.87b *Empty distinctive liquor bottles (not costly).* Upon application (Form 98) by any importer or bottler, the Assistant Regional Commissioner of the region in which the applicant is situated may, by the issuance of an appropriate permit, authorize the importation by such applicant of empty liquor bottles (for the packaging of any distilled spirits), not marked as required by § 175.87, which, because of their unique design and cost to the applicant, are found by the Commissioner not to afford a jeopardy to the revenue.

§ 175.87c *Empty distinctive liquor bottles for liqueurs and cordials.* Upon application (Form 98) by any importer or bottler, the Assistant Regional Commissioner of the region in which the applicant is situated may, by the issuance of appropriate permit, authorize the importation by such applicant of empty liquor bottles which are found by the Commissioner to be of distinctive shape or design for the packaging of liqueurs, cordials, bitters, cocktails, gin fizzes, and such other specialties as may be specified from time to time by the Commissioner, not marked as required by § 175.87.

PAR. 34. Section 175.88 is amended as follows:

(A) By striking the word "district" in the two places it appears in the first sentence and inserting in lieu thereof the word "region".

(B) By striking the word "glass" in the second and third sentences, which begin "The certified copy" and "Upon receipt", respectively.

PAR. 35. Section 175.89, and the headnote thereof, as amended by Treasury Decision 6053, are further amended to read as follows:

§ 175.89 *General.* No distilled spirits for sale at retail may be imported into the United States in containers of one-half pint capacity or greater other than liquor bottles, as defined in § 175.15, which conform to the provisions of §§ 175.90–92b and 175.95. The provisions of this section shall not apply to the importation of distilled spirits in bulk containers of a capacity of 5 wine gallons or greater.

PAR. 36. Section 175.90, as amended by Treasury Decision 6053, is further amended to read as follows:

§ 175.90 *Indicia.* There shall be legibly blown, etched, sand-blasted, marked by underglaze coloring, or otherwise permanently marked by any method approved by the Commissioner, either in the bottom or in the body of all liquor bottles containing distilled spirits imported from foreign countries the name, and the name of the city or country of address, of the manufacturer of the spirits, or of the exporter abroad, or the name, and the name of the city of address, of the importer in the United States, and there shall be similarly marked in the shoulder of each such bottle the words "Federal Law Forbids Sale or Reuse of This Bottle," except as provided in §§ 175.91 to 175.92b and § 175.95.

PAR. 37. Section 175.91 and the headnote thereof are amended to read as follows:

§ 175.91 *Distinctive liquor bottles (not costly) for distilled spirits.* Upon application (Form 98) the Assistant Regional Commissioner of the region in which the port of entry is situated may, in his discretion, issue a permit authorizing the importation by such applicant of distilled spirits including liqueurs, cordials, and specialties in liquor bottles which are found by the Commissioner to be of distinctive shape or design (but not costly of manufacture), and which bear the indicia required by § 175.90 anywhere on the bottle.

PAR. 38. Section 175.92 and the headnote thereof are amended to read as follows:

§ 175.92 *Distinctive liquor bottles (costly).* Upon application (Form 98)

the Assistant Regional Commissioner of the region in which the port of entry is situated may issue a permit authorizing the importation of any distilled spirits in liquor bottles not marked as required by § 175.90 which, because of their unique or distinctive shape or design and cost to the importer, are found by the Commissioner not to afford a jeopardy to the revenue.

PAR. 39. There is inserted immediately after § 175.92 the following new sections:

§ 175.92a *Distinctive liquor bottles for liqueurs and cordials.* Upon application (Form 98) the Assistant Regional Commissioner of the region in which the port of entry is situated may, in his discretion, issue a permit authorizing the importation of liqueurs, cordials, bitters, cocktails, gin fizzes, and such other specialties as may be specified from time to time by the Commissioner in bottles which are found by the Commissioner to be of distinctive shape or design, not marked as required by § 175.90.

§ 175.92b *Vintage spirits.* Upon application (Form 98), the Assistant Regional Commissioner of the region in which the port of entry is situated may, in his discretion, issue a permit authorizing the importation, in bottles not marked as provided by § 175.90 of vintage spirits, if accompanied by authenticated certificates of origin establishing such spirits to be as defined in § 175.19.

PAR. 40. Section 175.93 and § 175.94, as amended by Treasury Decision 6053, are revoked.

PAR. 41. Section 175.94a, as added by Treasury Decision 6053, and the headnote thereof are amended to read as follows:

§ 175.94a *Approval of distinctive liquor bottles.* Approval of distinctive liquor bottles shall be procured in accordance with the procedure prescribed by § 175.57a.

PAR. 42. Section 175.106 is amended to read as follows:

§ 175.106 *Investigation.* The Assistant Regional Commissioner shall make such investigation of any application as may be necessary to ascertain any facts required to be taken into account by him in acting thereon.

PAR. 43. Section 175.107 is amended by inserting the phrase ", if any," immediately following the words "by investigation."

PAR. 44. Section 175.112 is amended by striking the period at the end of the last sentence and adding: ": *Provided*, That a permit (Form 98) issued for the importation, procurement, or use of liquor bottles which conform to the applicable provisions of this part shall continue in effect until suspended, revoked, or voluntarily surrendered."

PAR. 45. Section 175.115, as amended by Treasury Decision 6053, and the headnote thereof are amended to read as follows:

§ 175.115 *Disposition of stocks of liquor bottles.* When the permit of a bottle manufacturer or bottler is suspended, revoked, or surrendered, stocks of liquor bottles on hand or in process may be destroyed or disposed of under permit to a person authorized to receive liquor bottles, in accordance with the directions of the Assistant Regional Commissioner of the region in which the applicant is located. When a bottler permanently discontinues the use of a particular size or type of liquor bottle the stocks of such liquor bottle on hand may be disposed of under permit to a person authorized to receive liquor bottles in accordance with the directions of the Assistant Regional Commissioner. Applications shall be made on Form 98 by such person for permission to acquire the entire stock, regardless of place of storage or persons or concerns holding title thereto, and submitted to the Assistant Regional Commissioner: *Provided*, That, where it is found that the entire stock cannot be disposed of to one authorized bottler, the Assistant Regional Commissioner may authorize the disposal of such containers, in lots, by size or type, to more than one bottler if he finds that such authorization will not afford a jeopardy to the revenue. The application on Form 98 shall be supported by a statement filed by the vendor setting forth whether the Form 98 covers his entire stock, or his entire stock of a particular size or type of bottle. If such stocks are not disposed of in accordance with the directions of the Assistant Regional Commissioner, they shall be seized and forfeited.

PAR. 46. The headnote to Subpart I is amended to read as follows: "Subpart I—Purchase, Sale, and Possession of Used Liquor Bottles."

PAR. 47. Section 175.120 and the headnote thereof are amended to read as follows:

§ 175.120 *Purchase or sale of used liquor bottles.* The purchase or sale of used liquor bottles except as provided in this part, is prohibited.

PAR. 48. Section 175.121 is amended as follows:

(A) By amending the headnote thereof to read *"Reuse of liquor bottles."*

(B) By striking the words "or other authorized container" in the two places they appear.

PAR. 49. Section 175.122 is amended as follows:

(A) By amending the headnote thereof to read *"Possession of used liquor bottles."*

(B) By striking the words "or other authorized marked containers."

PAR. 50. Section 175.130 is amended by adding at the end the following new sentence: "The functions of the Commissioner as provided in this part shall be exercised by the Director of the Alcohol and Tobacco Tax Division."

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 962]

FRESH PEACHES GROWN IN GEORGIA

ORDER DIRECTING THAT A REFERENDUM BE CONDUCTED; DESIGNATION OF REFERENDUM AGENTS TO CONDUCT SUCH REFERENDUM; AND DETERMINATION OF REPRESENTATIVE PERIOD

Pursuant to the applicable provisions of Marketing Agreement No. 99, as amended, and Order No. 62, as amended (7 CFR Part 962), and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.), it is hereby directed that a referendum be conducted among the growers who, during the calendar year 1954 (which period is hereby determined to be a representative period for the purpose of such referendum), were engaged, in the State of Georgia, in the production of peaches for market to determine whether such growers favor the termination of the said amended marketing agreement and order. Minard F. Miller and G. A. Nahstoll of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, are hereby designated as agents of the Secretary of Agriculture to perform, jointly or severally, the following functions in connection with the referendum:

(a) Conduct said referendum in the manner herein prescribed:

(1) By giving opportunity to each of the aforesaid growers to cast his ballot, in the manner herein authorized, relative to the aforesaid termination of the amended marketing agreement and order, on a copy of the appropriate ballot form. A cooperative association of such growers, bona fide engaged in marketing fresh peaches grown in the State of Georgia or in rendering services for or advancing the interests of the growers of such peaches, may vote for the growers who are members of, stockholders in, or under contract with, such cooperative association (such vote to be cast on a copy of the appropriate ballot form), and the vote of such cooperative association shall be considered as the vote of such growers.

(2) By determining the time of commencement and termination of the period of the referendum and by giving public notice, as prescribed in paragraph (a) (3) hereof, (i) of the time during which the referendum will be conducted, (ii) that any ballot may be cast by mail, and (iii) that all ballots so cast must be addressed to Minard F. Miller, Field Representative, Fruit and Vegetable Division, Agricultural Marketing Service, P. O. Box 19, Lakeland, Florida, and the time prior to which such ballots must be postmarked.

(3) By giving public notice (i) by utilizing available agencies of public information (without advertising expense), including both press and radio facilities in the State of Georgia; (ii) by mailing a notice thereof (including a copy of the appropriate ballot form) to each such cooperative association and to each grower whose name and address are known; and (iii) by such other means as said referendum agents or any of them may deem advisable.

(4) By conducting meetings of growers and arranging for balloting at the meeting places, if said referendum agents or any of them determine that voting shall be at meetings. At each such meeting, balloting shall continue until all of the growers who are present, and who desire to do so, have had an opportunity to vote. Any grower may cast his ballot at any such meeting in lieu of voting by mail.

(5) By giving ballots to growers at the meeting; and receiving any ballots when they are cast.

(6) By securing the name and address of each person casting a ballot, and inquiring into the eligibility of such person to vote in the referendum.

(7) By giving public notice of the time and place of each meeting authorized hereunder by posting a notice thereof, at least two days in advance of each such meeting, at each such meeting place, and in two or more public places within the applicable area; and, so far as may be practicable, by giving additional notice in the manner prescribed in paragraph (a) (3) hereof.

(8) By appointing any county agricultural agent in the State of Georgia, and any other persons deemed necessary or desirable, to assist the said referendum agents in performing their duties hereunder. Each county agricultural agent and other person so appointed shall serve without compensation and may be authorized, by the said referendum agents or any of them, to perform any or all of the functions set forth in paragraphs (a) (5), (6), (7), and (8) hereof (which, in the absence of such appointment of subagents, shall be performed by said referendum agents) in accordance with the requirements herein set forth; and shall forward to Minard F. Miller, Field Representative, Fruit and Vegetable Division, Agricultural Marketing Service, P. O. Box 19, Lakeland, Florida, immediately after the close of the referendum, the following:

(i) A register containing the name and address of each grower to whom a ballot form was given;

(ii) A register containing the name and address of each grower from whom an executed ballot was received;

(iii) All of the ballots received by the respective referendum agent in connection with the referendum, together with a certificate to the effect that the ballots forwarded are all of the ballots cast and which were received by the respective agent during the referendum period;

(iv) A statement showing when and where each notice of referendum posted by said agent was posted and, if the notice was mailed to growers, the mailing list showing the names and addresses to which the notice was mailed and the time of such mailing, and

(v) A detailed statement reciting the method used in giving publicity to such referendum.

(b) Upon receipt by Minard F. Miller of all ballots cast in accordance with the provisions hereof, he shall canvass the ballots and prepare and submit to the Secretary a detailed report covering the results of the referendum, the manner in which the referendum was conducted, the extent and kind of public notice given, and all other information pertinent to the full analysis of the referendum and its results; and shall forward such report, together with the ballots and other information and data, to the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C.

(c) Each referendum agent and appointee pursuant hereto shall not refuse to accept a ballot submitted or cast; but should they, or any of them, deem that a ballot should be challenged for any reason, or if such ballot is challenged by any other person, said agent or appointee shall endorse above his signature, on the back of said ballot, a statement that such ballot was challenged, by whom challenged, and the reasons therefor; and the number of such challenged ballots shall be stated when they are forwarded as provided herein.

(d) All ballots shall be treated as confidential.

The Director of the Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, is hereby authorized to prescribe additional instructions, not inconsistent with the provisions hereof, to govern the procedure to be followed by the said referendum agents and appointees in conducting said referendum.

Copies of the text of aforesaid amended marketing agreement and order may be examined in the Office of the Hearing Clerk, United States Department of Agriculture, Washington, D. C., and at the office of W. E. Leigh, Manager, Industry Committee, Georgia Peach Marketing Agreement and Order, currently at 2300 North Slappey Drive, Albany, Georgia.

Ballots to be cast in the referendum may be obtained from any referendum agent, and any appointee hereunder.

Dated: November 18, 1954.

[SEAL] EARL L. BUTZ,
Acting Secretary of Agriculture.

[7 CFR Part 970]

IRISH POTATOES GROWN IN MAINE

EXEMPTION CERTIFICATES AND SAFEGUARDS

Notice is hereby given that the Secretary of Agriculture is considering the approval of rules and regulations, hereinafter set forth, which were recommended by the Maine Potato Marketing Committee, established under Order No. 70 (19 F. R. 5469), regulating the handling of Irish Potatoes grown in Maine, issued under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

Consideration will be given to any data, view, or arguments pertaining thereto mailed in triplicate to the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 15 days following publication of this notice in the FEDERAL REGISTER.

The proposed rules and regulations are as follows:

GENERAL

Sec.
970.100 Communications.

DEFINITIONS

970.110 Order.
970.111 Marketing Agreement.
970.112 Terms.
970.113 Area determinations.
970.114 Pack or packs.

EXEMPTIONS

970.120 Application.
970.121 Investigations.
970.122 Issuance.
970.123 Disposition of certificates.
970.124 Reports.
970.125 Appeals.

SAFEGUARDS

970.130 Application for Certificate of Privilege.
970.131 Issuance.
970.132 Reports.
970.133 Denial and appeal.

AUTHORITY: §§ 970.100 to 970.133, inclusive, issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c.

GENERAL

§ 970.100 *Communications.* Unless otherwise provided in the marketing agreement and order, or by specific direction of the administrative committee, all reports, applications, submittals, requests, and communications in connection with the marketing agreement and order shall be addressed to the Maine Potato Administrative Committee at its principal office.

DEFINITIONS

§ 970.110 *Order.* "Order" means Order No. 70 (7 CFR Part 970, 19 F. R. 5469) regulating the handling of Irish potatoes grown in Maine.

§ 970.111 *Marketing Agreement.* "Marketing Agreement" means Marketing Agreement No. 122.

§ 970.112 *Terms.* Terms used in this subpart shall have the same meaning as when used in the marketing agreement and order.

§ 970.113 *Area determinations.* "Immediate area of production" and "immediate shipping area", respectively, are synonymous with "District".

§ 970.114 *Pack or packs.* Pursuant to § 970.17, each of the following weight limits when used in combination with any grade, as such term is defined in § 970.9, is approved as a pack, and applies only to the original package and not to a combination of such packages:

100 pounds.
75 pounds.
50 pounds.
25 pounds.
15 pounds.
10 pounds.
7½ pounds.
5 pounds.
3 pounds.

EXEMPTIONS

§ 970.120 *Application.* Any producer or handler applying for exemption from regulations issued pursuant to § 970.52 shall file such application with the administrative committee, or its duly authorized agent for such purpose, on forms to be furnished by such committee. Each application shall state the name and address of the applicant; the grade, size, and quality regulations from which exemption is requested; and facts demonstrating that the potatoes, for which exemption is requested, were adversely affected by acts beyond his control or by acts beyond the applicant's reasonable expectation. Each application for an exemption certificate must be accompanied by a Federal-State Inspection Certificate covering the lot of potatoes for which exemption is requested: *Provided*, That the committee may authorize the submission of such Federal-State Inspection Certificate subsequent to the filing of the application for exemption and prior to consideration of such application. Applications shall set forth such additional information as the administrative committee may find necessary in making determinations with respect thereto, including, without limitation thereto, the information required on producers' applications by paragraphs (a) and (b) of this section, and the information required on handlers' applications by paragraphs (c) and (d) of this section:

(a) The location of the farm on which potatoes for which exemption is requested were produced, or, if such potatoes are stored, the location of the storage where such potatoes are held, the location where such potatoes are to be processed, and the loading point from which such potatoes are to be shipped if exemption is granted;

(b) Acreage and quantity (by grade, size, quality, and variety) of potatoes harvested prior to the date of application and to be harvested, subsequent to such date, during the remainder of the season or specific portion thereof (as may be determined pursuant to this part); the quantity (by grade, size quality, and variety) of potatoes disposed of prior to the date of application and to be disposed of subsequent to such date; the location of the potatoes to be disposed of, together with the place where such potatoes will be handled; an estimate of the portion of such potatoes which can be handled under regulation issued pursuant to § 970.52, during the remainder of the season; and the reasons why all of such potatoes cannot be handled under such regulations;

(c) The quantity (by grade, size, quality, and variety) of potatoes acquired by the applicant and stored during and immediately following the digging season, with appropriate identification of the location of individual storage bins, and a statement as to the reasons why the specified quantity of such potatoes remaining in storage cannot be handled under regulations in effect on and subsequent to the date of the application;

(d) The quantity (by grade, size, quality, and variety) of potatoes acquired by the applicant and stored during and immediately following the digging season, which were handled prior to the date of the application; and

(e) Any applicant who is a producer of potatoes and a handler of potatoes produced by others may be required by the administrative committee to distinguish between his producer and handler operations in submitting reports and data with respect to any application for exemption.

§ 970.121 *Investigations.* The administrative committee may authorize investigations of applications by its employees, Federal-State inspectors, and such other persons as may be necessary to procure adequate information to pass upon the merits of such applications.

§ 970.122 *Issuance.* (a) The administrative committee, or its duly authorized agents, shall give prompt consideration to all statements and facts relating to each application for exemption, and, pursuant to applicable provisions of this part, a determination shall be made as to whether or not the application is approved. The determination, if approving the application, shall be evidenced by the issuance of a certificate of exemption pursuant to § 970.72: *Provided*, That more than one certificate may be issued, at the request of an applicant, where the applicant ships or causes to be shipped the total quantity of exempted potatoes in more than one lot, in which case each certificate so issued shall be limited to the quantity of exempted potatoes to be contained in the respective lots shipped and the total quantity of exempted potatoes covered by such certificates shall not exceed the total quantity of such potatoes which would be authorized if only one certificate were issued to such applicant.

(b) The applicant shall be notified in writing if his request for exemption is denied.

(c) Each exemption certificate issued pursuant to this subpart shall be on a form duly approved by the administrative committee and signed by an authorized representative of such committee. At least one copy of each exemption certificate issued shall be retained in the administrative committee records. Each such certificate shall contain the name and address of the recipient, the location of all potatoes authorized to be shipped thereunder, the quantity (by grade, size, quality, and variety) of potatoes which will be permitted in the exempted shipments, and such other information as may be deemed necessary by the administrative committee to provide such committee, the recipient, or both, with adequate and specific information regarding such exempted potatoes.

§ 970.123 *Disposition of certificates.* Each lot of potatoes handled under an exemption certificate shall be accompanied by such certificate, or such appropriate identifying information with respect to such certificate, as the administrative committee may require, to facilitate the administration of regulatory provisions applicable thereto.

§ 970.124 *Reports.* Handlers of potatoes exempted from regulation under exemption certificates shall, at such time as may be specified in such certificates, report thereon to the administrative committee the names and addresses of the persons to whom such potatoes were shipped, the quantity shipped (by grade, size, quality, and variety), the inspection certificates issued with respect thereto, the dates of such shipments, and such other information as may be requested by such committee in order to administer the regulatory provisions applicable thereto.

§ 970.125 *Appeals.* If any applicant is dissatisfied with the determination of the administrative committee regarding an application for an exemption certificate, or any duly issued exemption certificate, an appeal by such applicant may be taken to such committee in accordance with § 970.74.

SAFEGUARDS

§ 970.130 *Application for Certificate of Privilege.* (a) Whenever shipments are regulated pursuant to § 970.53, each handler desiring to make shipments of potatoes for any of the following purposes shall, prior thereto, apply to the administrative committee for and obtain a Certificate of Privilege permitting such shipment:

(1) Export;
(2) Livestock feed;
(3) Canning or freezing;
(4) Dehydration;
(5) Charitable purposes;
(6) Potato chips; and
(7) Other specified products.

(b) Applications for Certificates of Privilege shall be made on forms furnished by the administrative committee. Each application shall contain the name and address of the handler, and such other information as such committee may require, such as, but not limited to, the quantity (by grade, size, quality, and variety) of potatoes to be shipped, the mode of transportation, consignee, destination, and other appropriate information or documents necessary to safeguard against the entry of such potatoes into trade channels other than those for which the Certificate of Privilege is granted.

§ 970.131 *Issuance.* The administrative committee, or its duly authorized agents, shall give prompt consideration to each application for a Certificate of Privilege and shall determine whether the application is approved. Approval of an application shall be evidenced by the issuance of a Certificate of Privilege authorizing the applicant named therein to ship potatoes for a specified purpose for a specified period of time.

§ 970.132 *Reports.* Each handler shipping potatoes under and pursuant to a Certificate of Privilege shall supply the administrative committee with a report thereon within the time specified on the application for such certificate (except shipments of less than 15 hundredweight which shall be reported within 30 days after such shipment) showing the name and address of the shipper, car or truck identification, loading point, destination, consignee, and, when inspection is required, the Federal-State Inspection Certificate number.

§ 970.133 *Denial and appeal.* The administrative committee may rescind a Certificate of Privilege issued to a handler, or deny a Certificate of Privilege to a handler, upon proof satisfactory to such committee, that such handler has shipped potatoes contrary to the provisions of this subpart. Such administrative committee action denying a Certificate of Privilege shall apply to and not exceed a reasonable period of time as determined by such committee. Any handler who has been denied a Certificate of Privilege, or who has had a Certificate of Privilege rescinded, may appeal to the administrative committee for reconsideration. Such appeal shall be in writing.

Done at Washington, D. C., this 19th day of November 1954.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Division.

[7 CFR Part 988]

[Docket No. AO-195-A7]

HANDLING OF MILK IN THE KNOXVILLE, TENNESSEE MARKETING AREA

DECISION WITH RESPECT TO A PROPOSED AMENDMENT TO TENTATIVE MARKETING AGREEMENT AND TO ORDER AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Knoxville, Tennessee on September 29–October 2, 1954, pursuant to notice thereof which was issued September 23, 1954 (19 F. R. 6166), upon proposed amendments to the tentative marketing agreement and to the order as amended regulating the handling of milk in the Knoxville, Tennessee marketing area.

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on November 1, 1954, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision. Said decision containing notice of opportunity to file written exceptions thereto was published in the FEDERAL REGISTER on November 5, 1954 (19 F. R. 7182).

Within the period reserved therefor, interested parties filed exceptions to certain of the findings, conclusions and actions recommended by the Deputy Administrator. In arriving at the findings, conclusions, and regulatory provisions of this decision, each of such exceptions was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that findings, conclusions and actions decided upon herein are at variance with any of the exceptions, such exceptions are overruled.

To the extent that suggested findings and conclusions proposed by interested persons are inconsistent with the findings and conclusions contained herein, the specific or implied requests to make such findings and reach such conclusions are denied on the basis of the facts found and stated in connection with the conclusions herein set forth.

The material issues, findings and conclusions, and general findings of the recommended decision (19 F. R. 7182, Doc. 54-8714) are hereby approved and adopted as the issues, findings and conclusions, and general findings of this decision as if set forth in full herein, subject to the following modifications described with reference to Federal Register Doc. 54-8714, 19 F. R. 7182:

1. At the end of the second full paragraph beginning in column 1, page 7184 add the following undesignated paragraphs:

The record discloses that producer milk used for Class II disposition at some seasons can be handled more efficiently by having it delivered directly from the farm to a manufacturing plant. Diversion of milk in this manner eliminates some duplication in handling.

The period when the volume of milk exceeds Class I needs by the largest margin occurs during the spring and summer months. Only a limited volume of producer milk is utilized in Class II during the fall and winter months. Any excess of milk above Class I needs which may arise during these periods may be expected on week-ends, or holidays. In order to allow for necessary diversion, but to assure that producer milk will be available at pool plants as needed, diversion should be recognized any time during the months of flush production, and recognized on no more than 10 days in any month during the base forming period.

2. On page 7187, third column, third full paragraph, first and second lines, change the words "February through August" to "March through July."

3. On page 7187, third column, fourth full paragraph, first and second lines, change the words "September through January" to "August through February."

4. Before the first full paragraph beginning on page 7188 insert the following undesignated paragraphs:

It is concluded that the rate of payment provided for the months of lowest production will reflect the cost at the producer level of other source milk available during these months more nearly than any other rate which can be established on the basis of the hearing record.

It is not the purpose of this provision to require payments which are contingent upon the availability of producer milk. The purpose of the payment is to provide that milk not priced under the order may not be used for Class I use at an advantage because of its unregulated status as compared with producer milk. The competitive position of producer milk in the market may be jeopardized any time when other source milk is available at a cost lower than that for milk priced under the order. This is true without regard to whether supplies of producer milk available at any time are less than Class I sales or equal to any specified percentage of such sales. The compensatory payment is based therefor on a rate which is deemed to be necessary to remove any advantage from the purchase of unregulated milk for Class I use. The purpose of the payment is not to assure any producer, or group of producers of a Class I market for their milk.

5. Before the first full paragraph beginning in column 2, page 7188 insert the following undesignated paragraphs:

The prices to be used in calculating payments should be adjusted for butterfat and location at the same rate as adjustments for class prices fixed under the order. In calculating payments on unpriced milk as for other purposes throughout the order, it should be assumed that the products received from the nearest sources were used for Class I use. In the case of any product which has not been condensed by the removal of water, the rate of location adjustment should be calculated on the basis of the hundredweight of product moved. If water has been removed from a product used for Class I disposition, the location adjustment rate should be based on the rate which would apply to an equivalent fluid product containing the milk solids of such condensed product, including the water normally associated with such solids.

If inventories of different condensed milk products to which location differentials must be applied are held in a pool plant, the market administrator shall consider that the product to which the lowest differential would be applied was used first.

6. At the end of the fourth full paragraph beginning in column 1, page 7190 insert the following undesignated paragraphs:

The record discloses that one of the milk plants which may be subject to regulation pursuant to this amended order, receives milk packaged in two-quart containers from a nonpool plant. Milk, which would be producer milk under the order is transferred to the aforesaid nonpool plant in volumes approximately equal to the volume of milk received in two-quart containers. The plants involved in this transaction are relatively small.

It was contended that the volume of milk involved in this transaction was insufficient to justify the installation of a two-quart bottling machine in the pool plant. In the absence of a special provision for custom bottling, however, the pool plant may be charged with a duplication of Class I sales and a compensatory payment on other source milk so received.

It is concluded that the order should be amended so that receipts of packaged milk from nonpool plants may be offset against pooled milk which is transferred to such nonpool plant and classified as Class I milk. Any excess of receipts of such packaged milk or of disposition to such nonpool plant should be treated in the regular manner.

Order of the Secretary Directing the Conduct of a Referendum: Determination of a Representative Period: and Designation of Referendum Agent

Pursuant to section 8c (19) of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 608c (19)), it is hereby directed that a referendum be conducted among the producers (as defined in the order, as amended, and as hereby proposed to be further amended, regulating the handling of milk in the Knoxville, Tennessee milk marketing area) who, during the month of September 1954, which month is hereby determined to be the representative period for such referendum, were engaged in the production of milk for sale in the marketing area specified in the aforesaid order, to determine whether such producers favor the issuance of the order as hereby proposed to be amended.

Cleo Taylor is hereby designated agent of the Secretary to conduct such referendum in accordance with the procedure for the conduct of referenda to determine producer approval of milk marketing orders as published in the FEDERAL REGISTER on August 10, 1950 (15 F. R. 5177), such referendum to be completed on or before the 10th day from the date this decision is filed with the Hearing Clerk, United States Department of Agriculture.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Marketing agreement and order, as amended. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Knoxville, Tennessee, Marketing Area," and "Order Amending the Order as Amended Regulating the Handling of Milk in the Knoxville, Tennessee, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered that all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended and proposed to be hereby further amended.

This decision filed at Washington, D. C., this 18th day of November 1954.

[SEAL] EARL L. BUTZ,
Acting Secretary of Agriculture.

§ 988.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Knoxville, Tennessee, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Knoxville, Tennessee marketing area shall be in conformity to and in compliance with the following terms and conditions:

The provisions of §§ 988.1 to 988.111, both inclusive, of the order, contained in the recommended decision issued by the Deputy Administrator, Agricultural Marketing Service (19 F. R. 7182; F. R. Doc. 54–8714) shall be and are the terms and conditions of this order, as amended, and as hereby further amended, as if set forth in full herein, subject to the following revisions described with reference to Federal Register Doc. 54–8714, 19 F. R. 7182:

1. Delete § 983.8 and substitute therefor the following:

§ 988.8 *Approved plant.* "Approved plant" means the premises, buildings and facilities of any milk processing or packaging plant from which Grade A milk or skim milk is shipped during the month to a pool plant, or from which Class I milk is disposed of during the month on routes (including routes operated by vendors and sales through plant stores) in the marketing area: *Provided*, That if the appropriate health authority does not permit a portion of such plant to be used for the handling of milk or milk products to be distributed under a Grade A label, such portion of the plan shall not be considered as part of the approved plant.

2. Delete § 988.12 and substitute therefor the following:

§ 988.12 *Producer.* "Producer" means any person except a producer-handler who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority which milk is received at a pool plant: *Provided*, That if such milk is diverted for his account by a handler from a pool plant to a nonpool plant (a) any day during the months of March through August, or (b) on not more than 10 days during the month in any of the other months of the year, the milk so diverted shall be deemed to have been received by the diverting handler at a pool plant at the location of the plant from which it was diverted.

3. In § 988.32 (b) delete the word "weight" and substitute therefor "weigh".

4. In § 988.46 (a) (1) delete the words "Class I milk" and substitute therefor "Class II milk".

5. Renumber subparagraphs (2), (3), (4), (5), (6) and (7) of § 988.46 (a) and all references to them wherever they occur in the order to (3), (4), (5), (6), (7), and (8) respectively and add a new § 988.46 (a) (2) as follows:

(2) Subtract from the total pounds of skim milk in Class I milk the pounds of other source skim milk in products defined as Class I milk pursuant to § 988.41 (a) received in consumer packages from a nonpool plant or the pounds of skim milk classified as Class I milk and transferred during the month to such nonpool plant whichever is less.

6. At the end of the second line in § 988.46 (a) (2) add the word "remaining".

7. Delete § 988.50 (c) and substitute therefor the following:

(c) The price per hundredweight computed as follows: Multiply by 4.0 the arithmetical average of daily wholesale prices per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the month, add 20 percent thereof, and add to such sum 3¾ cents for each full ½ cent that the arithmetical average of carlot prices per pound of nonfat dry milk solids, spray and roller process, for human consumption, f. o. b. Chicago area manufacturing plants, for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department of Agriculture is above 5 cents.

8. In the proviso of § 988.53 delete the reference "§ 988.46 (a) (1), (2) and (3)" and substitute therefor "§ 988.46 (a) (1) through (4)".

9. Delete § 988.70 and substitute therefor the following:

§ 988.70 *Computation of value of milk.* The value of producer milk received during each month by each handler shall be a sum of money computed by the market administrator as follows: (a) Multiply the pounds of such milk in each class by the applicable class price; (b) add together the resulting amounts; (c) add the amounts computed by multiplying the pounds of overage deducted from each class by the applicable class price; (d) add or subtract, as the case may be, an amount necessary to adjust for errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months; and (e) add an amount calculated by multiplying the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 988.46 (a) (3) and (b) by the rate of payment on unpriced milk determined pursuant to § 988.93 adjusted where required by the location differential applicable at the nearest nonpool plant(s) from which an equivalent amount of other source skim milk or butterfat was received: *Provided*, That if the nonpool plant source of any milk or milk product received at a pool plant is not clearly established such milk or product shall be considered to have been received from a source at the location of the pool plant where it is classified.

10. Insert "(a)" before the word "Butterfat" in the first line of § 988.85 and delete the "(a)" in the second line of said paragraph.

Agricultural Research Service

[7 CFR Part 363]

CERTIFICATION OF USEFULNESS OF PESTICIDE CHEMICALS UNDER SECTION 408 (I) OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT, AS AMENDED

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Secretary of Agriculture, pursuant to the provisions of section 408 (I) of the Federal Food, Drug, and Cosmetic Act, as amended (68 Stat. 516), is considering the issuance of the following regulations, to appear in Part 363, Title 7, Code of Federal Regulations, relating to the certification by the Secretary of Agriculture of usefulness of pesticide chemicals for which the establishment of a tolerance or exemption has been requested under the Federal Food, Drug, and Cosmetic Act, as amended.

§ 363.1 *Words in the singular form.* Words in this part in the singular form shall be deemed to import the plural, and vice versa, as the case may demand.

§ 363.2 *Definitions.* Unless the context otherwise requires, the following terms shall be construed, respectively, to mean:

(a) "Act" means the Federal Food, Drug, and Cosmetic Act (21 U. S. C. 301 et seq.), as amended by Public Law 518, 83d Congress, 2d Session, "An Act to amend the Federal Food, Drug, and Cosmetic Act with respect to residues of pesticide chemicals in or on raw agricultural commodities" (68 Stat. 511).

(b) "Chief" means the Chief of the Plant Pest Control Branch, Agricultural Research Service, United States Department of Agriculture, Washington, D. C.

(c) "Department" means the United States Department of Agriculture.

(d) "Pesticide chemical" shall have the same meaning as it has in paragraph (q) of section 201 of the act.

(e) "Economic poison" shall have the same meaning as it has under the Federal Insecticide, Fungicide, and Rodenticide Act (7 U. S. C. 135–135k) and the regulations issued thereunder (7 CFR Part 362).

(f) "Person" means individuals, partnerships, corporations, and associations.

(g) "Certification" means a certification by the Chief to the Secretary of Health, Education, and Welfare that a pesticide chemical is useful for the purpose for which a tolerance or exemption is sought under the act.

(h) "Petition" means a petition filed with the Secretary of Health, Education, and Welfare pursuant to section 408 (d) (1) of the act.

§ 363.3 *Administration.* The Chief is authorized to take such action as, in his discretion, may be necessary to carry out the provisions of sections 408 (i) and 408 (l) of the act and the regulations in this part.

§ 363.4 *Filing of requests for certification.* All requests for a certification shall be made in writing to the Chief. Action upon such a request will not be undertaken unless (a) the person making the request has, pursuant to the provisions of the Federal Insecticide, Fungicide, and Rodenticide Act, registered or submitted an application for the registration of an economic poison consisting of or containing the pesticide chemical for which the certification is sought and (b) the request is accompanied by a copy of the petition.

§ 363.5 *Material in support of the request for certification.* In addition to the data required by section 408 (d) (1) of the act to be included in the petition, the request for certification should be supported by the following material, to the extent it is relied upon by the petitioner:

(a) A complete report of the results of any experimental work by the petitioner on the effectiveness of the pesticide chemical for the purposes intended;

(b) Data relating to the usefulness of the pesticide chemical obtained by other qualified investigators;

(c) Any other material which the petitioner believes will justify a finding of usefulness.

If such material is fully shown in the petition, it need not be set forth separately in the request for certification.

§ 363.6 *Certification limited to economic poison uses.* If the product for which a certification is sought is intended for both economic poison and noneconomic poison uses, any certification relative to the usefulness of such product will refer only to economic poison uses. No action will be taken with respect to the noneconomic poison uses of such product.

§ 363.7 *Factors considered in determining usefulness.* In determining whether a pesticide chemical is useful for the purpose for which a tolerance or exemption is sought, consideration will be given, among other things, to:

(a) The results of any experimental work by the petitioner on the effectiveness of the pesticide chemical for the purposes intended.

(b) Data relating to the usefulness of the pesticide chemical obtained by other qualified investigators.

(c) Reports of other experimental work before the Chief in publications, the official files of the Department, or otherwise.

(d) Opinions of experts qualified in the fields involved.

§ 363.8 *Basis for determination of usefulness.* Usefulness of a pesticide chemical for the purposes intended will be determined upon the basis of its practical pesticidal, or biological, effectiveness. Pesticidal effectiveness may be established in terms of percentage reduction or control of pests or, when appropriate, increase in yield or quality of crop following application of the specified pesticide under the conditions prescribed, compared with the results from adequate controls. Consideration may also be given to other economic gain or practical benefit, including: Economy or ease of production, harvest, or storage of crop; flexibility as regards the time of planting or harvest, even at the possible sacrifice of yield; and general benefit to livestock, plants, or human welfare.

§ 363.9 *Proposed certification; notice; request for hearing.* (a) If, upon the basis of the data before him, it appears to the Chief that the pesticide chemical is not useful for the purpose or purposes for which a tolerance or exemption is sought, or is useful for only some of the purposes for which a tolerance or exemption is sought, the Chief shall notify the person requesting the certification of his proposal to so certify to the Secretary of Health, Education, and Welfare.

Notice of such proposed certification will be given by registered mail.

(b) Within one week after receipt of such notice of proposed certification the person requesting the certification may, by filing a request with the Chief, (1) request that the certification be made on the basis of the proposed certification; (2) request a hearing on the proposed certification or the parts objected to; (3) request both such certification and such hearing; or (4) withdraw the request for certification as provided for in § 363.10 hereof. If no such request or withdrawal is filed with the Chief within such time, the certification will be made as proposed.

§ 363.10 *Withdrawal of request for certification.* In some cases it may be necessary for the Chief to notify the petitioner of his proposal to certify that the pesticide chemical does not appear to be useful for some or all of the purposes for which a tolerance or exemption is sought only because the data submitted by the petitioner are not sufficiently clear or complete to justify a finding of usefulness. In such cases the petitioner may withdraw his request for certification pending its clarification or the obtaining of additional data, and no further action will be taken with respect to the making of the certification until the request for certification is resubmitted. Upon the resubmission of the request for certification, the time limitation within which final certification is required to be made will begin to run anew from the date of the resubmission.

§ 363.11 *Registration under the Federal Insecticide, Fungicide, and Rodenticide Act.* (a) Since in most cases there can be no determination of the adequacy of the directions for use or the warning or caution statements appearing on the labeling of an economic poison until a tolerance or exemption has been established for the pesticide chemical which is, or is a part of, such economic poison, it will not ordinarily be possible to register the economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act until such tolerance or exemption has been established.

(b) Factors other than pesticidal, or biological, effectiveness are considered in the granting of registration under the Federal Insecticide, Fungicide, and Rodenticide Act. Therefore, the criteria for registration are not all applied in considering the certification of usefulness, and the fact that such a certification has been made does not mean that the economic poison can be registered for the uses concerned.

§ 363.12 *Opinion as to residue.* (a) In forming an opinion whether the tolerance or exemption proposed by the petitioner reasonably reflects the amount of residue likely to result when the pesticide chemical is used in the manner proposed, consideration will be given, among other things, to:

(1) Data furnished by the petitioner showing (i) the results of tests to ascertain the amount of residue remaining, including a description of the analytical methods used, and (ii) practicable methods for removing residue which exceeds any proposed tolerance;

(2) Reports of other experimental work before the Chief in publications, the official files of the Department, or otherwise;

(3) Opinions of experts qualified in the fields involved.

(b) If a tolerance proposed by the petitioner is reasonably to reflect the amount of residue likely to result when a pesticide chemical is used, it must be large enough to include all residue which is likely to result when the pesticide chemical is used in the manner proposed by the petitioner, but not larger than needed for this purpose. The tolerance proposed by the petitioner may take into account reduction of residue by washing, brushing, or other applicable method.

(c) If there is insufficient information before the Chief to support an opinion as to whether the tolerance proposed by the petitioner reasonably reflects the amount of residue likely to result, the opinion will so state.

All persons who desire to submit written data, views, or arguments in connection with this matter should file the same with the Chief, Plant Pest Control Branch, Agricultural Research Service, United States Department of Agriculture, Washington 25, D. C., within thirty days from the date of publication of this notice in the FEDERAL REGISTER. All persons who desire to present such data, views, or arguments orally should file a request for an oral hearing with such official within the period specified above.

Done at Washington, D. C., this 19th day of November 1954.

[SEAL] M. R. CLARKSON,
Acting Administrator,
Agricultural Research Service.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 545]

HOMEWORKERS IN THE NEEDLEWORK AND FABRICATED TEXTILE PRODUCTS INDUSTRY IN PUERTO RICO

NOTICE OF PROPOSED RULE MAKING

Section 16 (c) of the Fair Labor Standards Act of 1938, as amended (29 U. S. C. 201 et seq.), authorizes the Administrator to supervise the payment of unpaid minimum wages or unpaid overtime compensation owing to any employee or employees under section 6 or section 7 of the act. An employee who agrees to accept such payment and is paid in full waives his independent statutory rights with respect to such back pay. Experience in administering the act indicates that it is necessary that the Administrator have a record of such payments available to him.

Effective November 8, 1954, Part 516 of Title 29 of the Code of Federal Regulations was amended to require such a record with respect to employers of homeworkers on the mainland (19 F. R. 6498). It is now proposed to take similar action with respect to the record-keeping provisions under regulations, Part 545, applicable to homeworkers in the Needlework and Fabricated Textile Products Industry in Puerto Rico.

Accordingly, notice is given that the Administrator, pursuant to authority vested in him by sections 6 (a) (2) and 11 (c) of the Fair Labor Standards Act of 1938, as amended, proposes to amend the regulations contained in this part in the following manner:

Amend § 545.7 by adding a new paragraph designated as (d), to read as follows:

(d) Every employer who makes retroactive payment of wages or compensation under the supervision of the Administrator pursuant to section 16 (c) of the act, shall:

(1) Record and preserve, as an entry on his payroll or other pay records, the amount of such payment to each employee, the period covered by such payment, and the date of payment.

(2) Prepare a report of each such payment on the receipt form provided or authorized by the Wage and Hour Division, and (i) preserve a copy as part of his records, (ii) deliver a copy to the employee, and (iii) file the original, which shall evidence payment by the employer and receipt by the employee, with the Administrator or his authorized representative within 10 days after payment is made.

Interested persons may, within 15 days from the date of publication of this notice in the FEDERAL REGISTER, submit in writing to the Administrator, Wage and Hour and Public Contracts Divisions, U. S. Department of Labor, Washington 25, D. C., their views and arguments relative to the proposed amendments.

Signed at Washington, D. C., this 18th day of November 1954.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

[29 CFR Part 681]

HOMEWORKERS IN INDUSTRIES IN PUERTO RICO OTHER THAN NEEDLEWORK INDUSTRIES

NOTICE OF PROPOSED RULE MAKING

Section 16 (c) of the Fair Labor Standards Act of 1938, as amended (29 U. S. C. 201 et seq.), authorizes the Administrator to supervise the payment of unpaid minimum wages or unpaid overtime compensation owing to any employee or employees under section 6 or section 7 of the act. An employee who agrees to accept such payment and is paid in full waives his independent statutory rights with respect to such back pay. Experience in administering the act indicates that it is necessary that the Administrator have a record of such payments available to him.

Effective November 8, 1954, Part 516 of Title 29 of the Code of Federal Regulations was amended to require such a record with respect to employers of homeworkers on the mainland (19 F. R. 6498). It is now proposed to take similar action with respect to the record-keeping provisions under regulations, Part 681, applicable to homeworkers in industries in Puerto Rico other than the Needlework Industries.

Accordingly, notice is given that the Administrator, pursuant to authority vested in him by sections 6 (a) (2) and 11 (c) of the Fair Labor Standards Act of 1938, as amended, proposes to amend the regulations contained in this part in the following manner:

Amend § 681.7 by adding a new paragraph designated as (d), to read as follows:

(d) Every employer who makes retroactive payment of wages or compensation under the supervision of the Administrator pursuant to section 16 (c) of the act, shall:

(1) Record and preserve, as an entry on his payroll or other pay records, the amount of such payment to each employee, the period covered by such payment, and the date of payment.

(2) Prepare a report of each such payment on the receipt form provided or authorized by the Wage and Hour Division, and (i) preserve a copy as part of his records, (ii) deliver a copy to the employee, and (iii) file the original, which shall evidence payment by the employer and receipt by the employee, with the Administrator or his authorized representative within 10 days after payment is made.

Interested persons may, within 15 days from the date of publication of this notice in the FEDERAL REGISTER, submit in writing to the Administrator, Wage and Hour and Public Contracts Divisions, U. S. Department of Labor, Washington 25, D. C., their views and arguments relative to the proposed amendments.

Signed at Washington, D. C., this 18th day of November 1954.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

HOMEWORKERS IN INDUSTRIES IN THE VIRGIN ISLANDS

NOTICE OF PROPOSED RULE MAKING

Section 16 (c) of the Fair Labor Standards Act of 1938, as amended (29 U. S. C. 201 et seq.), authorizes the Administrator to supervise the payment of unpaid minimum wages or unpaid overtime compensation owing to any employee or employees under section 6 or section 7 of the act. An employee who agrees to accept such payment and is paid in full waives his independent statutory rights with respect to such back pay. Experience in administering the act indicates that it is necessary that the Administrator have a record of such payments available to him.

Effective November 8, 1954, Part 516 of Title 29 of the Code of Federal Regulations was amended to require such a record with respect to employers of homeworkers on the mainland (19 F. R. 6498). It is now proposed to take similar action with respect to the record-keeping provisions under regulations, Part 695, applicable to homeworkers in industries in the Virgin Islands.

Accordingly, notice is given that the Administrator, pursuant to authority vested in him by sections 6 (a) (2) and 11 (c) of the Fair Labor Standards Act of 1938, as amended, proposes to amend the regulations contained in this part in the following manner:

Amend § 695.6 by adding a new paragraph designated as (d), to read as follows:

(d) Every employer who makes retroactive payment of wages or compensation under the supervision of the Administrator pursuant to section 16 (c) of the act, shall:

(1) Record and preserve, as an entry on his payroll or other pay records, the amount of such payment to each employee, the period covered by such payment, and the date of payment.

(2) Prepare a report of each such payment on the receipt form provided or authorized by the Wage and Hour Division, and (i) preserve a copy as part of his records, (ii) deliver a copy to the employee, and (iii) file the original, which shall evidence payment by the employer and receipt by the employee, with the Administrator or his authorized representative within 10 days after payment is made.

Interested persons may, within 15 days from the date of publication of this notice in the FEDERAL REGISTER, submit in writing to the Administrator, Wage and Hour and Public Contracts Divisions, U. S. Department of Labor, Washington 25, D. C., their views and arguments relative to the proposed amendments.

Signed at Washington, D. C., this 18th day of November 1954.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 8333]

DAYTIME SKYWAVE TRANSMISSIONS OF STANDARD BROADCAST STATIONS

NOTICE OF EXTENSION OF TIME FOR FILING COMMENTS

In re promulgation of rules and regulations and Standards of Good Engineering Practice concerning Daytime Skywave Transmissions of Standard Broadcast Stations; Docket No. 8333.

1. On March 12, 1954 the Commission issued a proposed report and order, notice of further rule making and order (FCC 54-525) in the above-entitled matter which specified the date that comments with respect to the applicability of the proposed rules to existing Class I or Class II stations were to be filed. The date for the filing of comments is presently set for December 6, 1954.

2. The Commission is of the view that a further extension of the time for the filing of comments in the above-entitled proceeding would serve the public interest; convenience and necessity, and is warranted.

3. In view of the foregoing: *It is ordered,* That the date for filing comments in the above-entitled proceeding is extended to January 17, 1955; and the date for filing replies to such comments is extended to February 1, 1955.

Adopted: November 18, 1954.

Released: November 19, 1954.

[Docket No. 11194]

TELEVISION BROADCAST STATIONS; TABLE OF ASSIGNMENTS

NOTICE OF EXTENSION OF TIME WITHIN WHICH TO FILE REPLIES TO COMMENTS

In the matter of amendment of § 3.606 *Table of assignments,* rules governing Television Broadcast Stations; Docket No. 11194.

1. On October 7, 1954 the Commission issued a notice of proposed rule making (FCC 54-1270) in the above-entitled matter which specified that comments were to be filed on or before November 22, 1954 and replies thereto within 10 days from that date. Williamsport Radio Broadcasting Associates, Inc., one of the petitioners in this proceeding, has requested an extension of time until December 2, 1954, in which to file replies to comments. Williamsport states that due to the number of comments, some of which contain complex channel changes, it will not have sufficient time to study and prepare replies to these comments and counterproposals by November 22, 1954.

2. It is our view that a sufficient showing has been made to warrant the extension of time for filing replies to comments beyond November 22, 1954. Accordingly, notice is hereby given that the time for filing replies to comments filed in the above-entitled matter is extended to December 2, 1954.

Adopted: November 18, 1954.

Released: November 19, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

IDENTIFICATION OF SHIP STATION

ORDER WITHDRAWING NOTICE OF PROPOSED RULE MAKING AND CLOSING PROCEEDINGS

In the matter of amendment of § 8.51 of Part 8 of the rules and regulations governing Ship Service to require the use of the English language in transmitting the identification of radiotelephone stations aboard ship; Docket No. 8703.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of November 1954;

It appearing that a notice of proposed rule making in the above-captioned matter, Docket No. 8703, was adopted by the Commission on December 23, 1947, and duly published in the FEDERAL REGISTER on January 3, 1948 (13 F. R. 33); and

It further appearing that subsequent to the adoption of the notice of proposed rule making, the Commission on April 23, 1952, adopted a Report and Order in Docket No. 9797 amending Part 8 of the Commission's rules (published in the FEDERAL REGISTER on May 6, 1952 (17 F. R. 4159)) in which was included the subject matter of the proposal in Docket 8703; and

It further appearing that by reason of these facts, the outstanding notice of proposed rule making is obsolete and should be withdrawn;

It is ordered, That the notice of proposed rule making in Docket No. 8703 is hereby withdrawn and the proceedings in that Docket are closed.

Released: November 18, 1954.

NOTICES

DEPARTMENT OF THE TREASURY

Bureau of Customs

[T. D. 53670; 473.22]

WOOL NOODLES AND CLIPS

TARIFF CLASSIFICATION

NOVEMBER 18, 1954.

In the case of Mattoon & Co., Inc. (A/C Philip Senegram Co.) v. United States, published as C. A. D. 563 and decided April 9, 1954, "New Pastel Worsted Noodles" and "New Worsted Sweater Clips" were held classifiable under the provisions of paragraph 1555, Tariff Act of 1930, as modified, for waste, not specially provided for. In so doing the court overruled the decision of the Customs Court published as C. D. 1525, in which the collector's classification of the merchandise as wool rags under the provisions of paragraph 1105 was sustained.

The Bureau has been informed that the Customs Section, Civil Division, Department of Justice, believes that evidence can now be obtained to support the Government's position and proposes to retry the issue involved.

Therefore you shall limit the application of C. A. D. 563 to the merchandise which was the subject of that action pending a new ruling by the court.

[SEAL] RALPH KELLY,
Commissioner of Customs.

ORDER CONTINUING HEARING

In re applications of Triad Television Corporation, Parma, Michigan, Docket No. 11169, File No. BPCT-1846; Booth Radio & Television Stations, Inc., Parma, Michigan, Docket No. 11170, File No. BPCT-1866; Television Corporation of Michigan, Inc., Onondaga, Michigan, Docket No. 11171, File No. BPCT-1870; Jackson Broadcasting & Television Corporation, Parma, Michigan, Docket No. 11172, File No. BPCT-1871; Michigan State Board of Agriculture, Onondaga, Michigan, Docket No. 11173, File No. BPCT-1885; for construction permits for new television stations (Channel 10).

The Commission having under consideration a petition for continuance, filed by Jackson Broadcasting & Television Corporation on November 12, 1954, and oral argument thereon, heard November 17, 1954, at which all parties were represented;

It appearing that good cause has been shown for the continuance of the prehearing conference for exchange of direct cases, now scheduled for December 1, 1954, until December 20, 1954, and that the subsequent prehearing conference and hearing should be rescheduled for January 10 and 14, 1955, respectively:

It is ordered, This 17th day of November 1954, that the prehearing conferences heretofore scheduled for December 1 and 9, 1954, are continued until 10:00 a. m. on December 20, 1954, and 10:00 a. m. on January 10, 1955, respectively; the hearing heretofore scheduled for December 10, 1954, is continued until 10:00 a. m. on January 14, 1955; and the above petition is granted to the extent indicated.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[Docket No. 11221]

SOUTHERN BELL TELEPHONE AND TELEGRAPH CO.

ORDER ASSIGNING MATTER FOR HEARING

In the matter of the application of Southern Bell Telephone and Telegraph Company for a certificate under section 221 (a) of the Communications Act of 1934, as amended, to acquire certain telephone plant and properties of L. R. Hagin d/b as Bethany-Converse Telephone Company, Greenwood, Louisiana; Docket No. 11221, File No. P-C-3523.

The Commission having under consideration an application filed by Southern Bell Telephone and Telegraph Company for a certificate under section 221 (a) of the Communications Act of 1934, as amended, that the proposed acquisition by it of certain telephone plant and properties of L. R. Hagin d/b as Bethany-Converse Telephone Company furnishing telephone service in and around Greenwood, Louisiana will be of advantage to the persons to whom service is to be rendered and in the public interest;

It is ordered, This 16th day of November 1954, that pursuant to the provisions of section 221 (a) of the Communications Act of 1934, as amended, the above application is assigned for public hearing for the purpose of determining whether the proposed acquisition will be of advantage to the persons to whom service is to be rendered and in the public interest;

It is further ordered, That the hearing upon said application be held at the offices of the Commission in Washington, D. C., beginning at 10:00 a. m., on the 15th day of December, 1954, and that a copy of this order shall be served upon Southern Bell Telephone and Telegraph Company, L. R. Hagin, d/b as Bethany-Converse Telephone Company, the Governor of Louisiana, Louisiana Public Service Commission and the Postmasters of Greenwood, Kickapoo, Longstreet, Naborton and Converse, Louisiana;

It is further ordered, That within ten days after the receipt from the Commission of a copy of this order, the applicant herein shall cause a copy hereof to be published in a newspaper or newspapers having general circulation in the communities in which the properties are located and shall furnish proof of such publication at the hearing herein.

Released: November 18, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

INTERSTATE COMMERCE COMMISSION

[Notice No. 35]

MOTOR CARRIER APPLICATIONS

NOVEMBER 19, 1954.

Protests, consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the form of affidavits. Any interested person, not a protestant, desiring to receive notice of the time and place of any hearing, prehearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operation of motor carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

APPLICATIONS OF MOTOR CARRIERS OF PROPERTY

No. MC 665 Sub. 44. MISSOURI-ARKANSAS TRANSPORTATION COMPANY, a corporation, 1300 West 10th St., Joplin, Mo. For authority to operate as a *common carrier*, over regular routes, transporting: *Class A and B explosives*, between Joplin, Mo., and Fort Smith,

Ark., from Joplin over U. S. Highway 71 to junction U. S. Highway 71 and Missouri Highway 88 at Lanagan, Mo., thence over Missouri Highway 88 to junction Missouri Highway 88 and Arkansas Highway 100 at the Missouri-Arkansas State line, thence over Arkansas Highway 100 to junction Arkansas Highway 100 and U. S. Highway 71 at Bentonville, Ark., thence over U. S. Highway 71 to Fort Smith, and return over the same route, serving all intermediate points except Camp Crowder, McElhaney, Goodman, Anderson, Lanagan, Pineville and Jane, Mo. Applicant is authorized to conduct operations in Kansas, Missouri, and Oklahoma.

No. MC 8989 Sub 153, HOWARD SOBER, INC., 2400 West St. Joseph Street, Lansing 4, Mich. Applicant's attorney: George S. Dixon, Guardian Bldg., Detroit 26, Mich. For authority to operate as a *common carrier* over irregular routes, transporting (1) *New automobiles* and *new automobile chassis*, in initial movements, in truck-away service, from Kenosha, Wis., to points in Michigan, Ohio, Pennsylvania, New York and that part of West Virginia north of U. S. Highway 60 and west of a line extending from Charleston along U. S. Highway 119 to junction West Virginia Highway 16, and thence north along West Virginia Highway 16 to the Ohio River, including points on the indicated portions of the highways specified; and (2) *New automobiles* and *new automobile chassis*, in initial movements, in driveaway service, from Kenosha, Wis. to Hartford, Conn., Newark, N. J. and points in Michigan, Ohio, Pennsylvania, New York, Rhode Island, Maryland and the District of Columbia. RESTRICTION: Authority applied for to be restricted to transportation of vehicles manufactured by the Hudson Motor Car Division of American Motors, Inc. Applicant is authorized to conduct operations in Connecticut, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, West Virginia and the District of Columbia.

No. MC 11910 Sub 10, ST. LOUIS-NASHVILLE FREIGHT LINES, INC., 1313 North 13th Street, St. Louis 6, Mo. For authority to operate as a *common carrier*, over a regular route, transporting: *General commodities*, except those of unusual value, Class A and B explosives, inflammable articles, livestock, and commodities in bulk, between Vincennes, Ind., and Chicago, Ill., over U. S. Highway 41, serving no intermediate points, as an alternate route in connection with carrier's regular-route operations between Chicago, Ill., and Evansville, Ind. Applicant is authorized to conduct operations in Illinois, Indiana, Kentucky, Missouri, and Tennessee.

No. MC 17002 Sub 18, CASE DRIVEWAY, INC., 6001 U. S. Route 60, Huntington, W. Va. Applicant's attorney: Chas. T. Dodrill, West Virginia Building, Huntington, W. Va. For authority to operate as a *common carrier*, over irregular routes, transporting: *Motor vehicles*, in initial movements, in truckaway and driveaway service, from points in Wayne County, Mich., and Warren Township, Macomb County, Mich., to points in Virginia east of U. S. Highway 220 and north of U. S. Highway 60. Applicant is authorized to conduct operations in Michigan, Ohio, Kentucky, Indiana, West Virginia, Virginia, North Carolina and South Carolina.

No. MC 20697 Sub 27, THE WILLETT COMPANY, 700 S. Desplaines Street, Chicago, Ill. For authority to operate as a *contract carrier*, over irregular routes, transporting: *Pipe, valves, fittings, bathroom and kitchen fixtures and equipment, laundry fixtures, hot water heaters, heaters* and *furnaces* and *accessories, air conditioners, boilers*, and *radiators*, from Waukegan, Ill., to job sites (new construction or repair sites) and plumbing contractor shops located within points in Kenosha County, Wis., and *empty containers or other such incidental facilities* (not specified) used in transporting the commodities specified on return. Applicant is authorized to conduct operations in Illinois and Indiana.

No. MC 23939 Sub 80. ASBURY TRANSPORTATION CO., a corporation, 2222 East 38th St., Vernon, Calif. Applicant's attorney: William B. Adams, Pacific Building, Portland 4, Oreg. For authority to operate as a *common carrier*, over irregular routes, transporting: *Petroleum and petroleum products* in bulk, in tank vehicles, between Ferndale (Neptune Beach) and Anacortes, Wash., and points within 10 miles of each, on the one hand, and on the other, points in Washington. Applicant is authorized to conduct operations in Oregon, Washington, Idaho, and California.

No. MC 30319 Sub 48, SOUTHERN PACIFIC TRANSPORT COMPANY, a corporation, 810 N. San Jacinto, P. O. Box 4054, Houston, Tex. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Dallas, Tex., and Houston, Tex. Applicant seeks to remove the key point of Hearne, Tex., which is intermediate of Dallas and Houston, Tex., as contained in the third restrictive paragraph on page 7 of Corrected Certificate No. MC 30319 dated May 14, 1954, and proposes in this application to change said paragraph to read: No shipment shall be transported by carrier between any of the following points, or through, or to, or from, more than one of said points: Dallas, Austin, Houston, San Antonio, Beaumont, and Corpus Christi, Tex., except that Houston shall not be considered as a key point in respect of shipments which have an immediately prior or immediately subsequent movement by rail or water, and which are transported from Beaumont or from Corpus Christi. Applicant is authorized to conduct operations in Louisiana and Texas.

No. MC 30837 Sub 176, KENOSHA AUTO TRANSPORT CORPORATION, 4519 76th Street, Kenosha, Wis. Applicant's attorney: Louis E. Smith, 316–318 Chamber of Commerce Bldg., Indianapolis 4, Ind. For authority to operate as a *common carrier*, over irregular routes, transporting: *Motor truck rebuilding kits* and *motor truck conversion kits*, from Chicago, Ill., to all points in the United States.

No. MC 36473 Sub 54, (Amended) Published Page 7141, issue of November 3, 1954, CENTRAL TRUCK LINES, INC., 1001 Jackson Street, Tampa, Fla. For authority to operate as a *common carrier*, over regular routes, transporting: *General commodities*, except those of unusual value, Class A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, (1) Between Shiloh, Fla., and Tropic, Fla., over Florida Highway 3, serving the intermediate points of Allenhurst, Courtenay, Georgiana, Lotus, Orsino, and Wilson, Fla., (2) Between Canaveral, Fla., and Canova Beach, Fla., over Florida Highway A–1–A, serving the intermediate points of Artesia, Canaveral Harbor, and Port Canaveral, Fla. (3) Between Yulee, Fla., and Fernandina Beach, Fla., over Florida Highway 200, serving the intermediate point of Fernandina, Fla. (4) Between Jacksonville, Fla., and Greenland, Fla., over Alternate U. S. Highway 1, John E. Matthews Bridge, and Florida Highways 10 and 115, serving no intermediate points, as an alternate route for operating convenience only, in connection with carrier's authorized operations. (5) Between junction Florida Highway 520 and Florida Highway 50 (said junction located between Bithlo and Christmas, Fla.,) and Cocoa, Fla., over Florida Highway 520, as an alternate route, for operating convenience only, in connection with carrier's authorized operations, serving no intermediate points. (6) Serving the off-route point of Angel City, Fla., located 3 miles south of Florida Highway 520 on Banana River (Banana River Drive), over an unnumbered highway, in connection with carrier's authorized regular route operations. (7) Between Jacksonville, Fla., and Folkston, Ga., over U. S. Highway 17 and Georgia Highway 40, serving the intermediate point of Yulle, Fla. Applicant is authorized to conduct operations in Florida and Georgia.

No. MC 39123 Sub 5, MASTERS FAST FREIGHT SERVICE, INC., 9 Gypsum Street, South Kearny, New Jersey. Applicant's attorney: Edward M. Alfano, 36 West 44th Street, New York 36, N. Y. For authority to operate as a *common carrier*, over irregular routes, transporting: *Army vehicles*, by way of tow-bars, in towaway service, between Army installations located in Morris, Bergen, Passaic, Essex, Union, Hudson, Middlesex, Monmouth, and Somerset Counties, N. J., on the one hand, and, on the other, Military ports of embarkation located in the New York, N. Y., Commercial Zone, as defined by the Commission.

No. MC 43038 Sub 393, COMMERCIAL CARRIERS, INC., 3399 E. McNichols, Detroit, Mich. Applicant's attorney: James W. Wrape, Sterick Bldg., Memphis, Tenn. For authority to operate as a *common carrier*, over irregular routes, transporting: *Automobile show cars*, and *automobile show car chassis* of special or experimental design and not for sale, and *automobile show equipment and paraphernalia* moving in the same equipment with automobile show cars and automobile show car chassis,

in truckaway service, (1) in initial movements, from points of manufacture and assembly located in Wayne and Macomb Counties, Mich., to points of display in the United States and the District of Columbia, and (2) in secondary movements, between points of display in the United States and the District of Columbia, and return to original points of origin. (Upon grant of the requested authority, applicant is agreeable to elimination of all duplications of its existing permanent authority.) Applicant is authorized to conduct operations in Alabama, Arkansas, Colorado, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Mississippi, Missouri, Nebraska, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Wisconsin and Wyoming.

[4th Sec. Application 29933]

ASPHALT AND TAR FROM NEW JERSEY, PENNSYLVANIA, DELAWARE, AND MARYLAND, TO POINTS IN NEW YORK

APPLICATION FOR RELIEF

NOVEMBER 19, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin, Agent, for carriers parties to his tariff I. C. C. No. A–890.

Commodities involved: Asphalt (asphaltum), and tar, paving or roofing, in tank-car loads.

From: Points in New Jersey, Pennsylvania, Delaware, and Maryland.

To: Hot mixing plants in New York.

Grounds for relief: Rail competition, circuity, competition with motor-water carriers, and market competition.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29934]

CAUSTIC SODA FROM BATON ROUGE, LA., TO JACKSONVILLE AND TUSCOLA, ILL.

APPLICATION FOR RELIEF

NOVEMBER 19, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to Agent W. P. Emerson, Jr.'s tariff I. C. C. No. 417.

Commodities involved: Caustic soda, in tank-car loads.

From: Baton Rouge and North Baton Rouge, La.

To: Jacksonville and Tuscola, Ill.

Grounds for relief: Rail competition, circuity, and to apply rates constructed on the basis of the short line distance formula.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing,

Applicants' attorneys: Floyd F. Shields, [illegible] nesota. Vendee is authorized to operate [illegible]

upon a request filed within that period, may be held subsequently.

COMMODITY RATES IN TEXAS

APPLICATION FOR RELIEF

NOVEMBER 19, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the aggregate-of-intermediates provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Lee Douglass, Alternate Agent, for carriers parties to schedule listed below.

Commodities involved: Various commodities, carloads and less-than-carloads.

Between: Points in Texas.

Grounds for relief: Rail competition, circuity, to meet intrastate rates, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: J. F. Brown, Agent, I. C. C. No. 807, supp. 62.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 29937]

BITUMINOUS FINE COAL FROM KANSAS, MISSOURI AND OKLAHOMA TO CARROLL, IOWA

APPLICATION FOR RELIEF

NOVEMBER 19, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedules listed below.

Commodities involved: Bituminous fine coal, carloads.

From: Points in Kansas, Missouri, and Oklahoma.

To: Carroll, Iowa.

Grounds for relief: Competition with rail carriers, market competition, and competition with natural gas.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. A-3969, supp. 22; F. C. Kratzmeir, Agent, I. C. C. No. 3920, supp. 94.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 29938]

IRON AND STEEL ARTICLES FROM KANSAS CITY, MO.-KANS., TO ILLINOIS TERRITORY

APPLICATION FOR RELIEF

NOVEMBER 19, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: W. J. Prueter, Agent, for carriers parties to schedule listed below.

Commodities involved: Iron and steel articles, carloads.

From: Kansas City, Mo.-Kans.

To: Points in Illinois territory.

Grounds for relief: Competition with rail carriers, market competition, to maintain grouping, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: W. J. Prueter, Agent, I. C. C. No. A-3821, supp. 24.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

FEDERAL REGISTER

VOLUME 19 NUMBER 229

Washington, Thursday, November 25, 1954

TITLE 7—AGRICULTURE

Chapter XI—Agricultural Conservation Program Service, Department of Agriculture

[ACP-1955-Hawaii, Supp. 1]

PART 1105—AGRICULTURAL CONSERVATION; HAWAII

SUBPART—1955

CONSTRUCTING OR LINING DAMS, PITS, AND PONDS TO IMPOUND SURFACE WATER FOR IRRIGATION

Pursuant to the authority vested in the Secretary of Agriculture under sections 7–17 of the Soil Conservation and Domestic Allotment Act, as amended, and the Department of Agriculture Appropriation Act, 1955, the 1955 Agricultural Conservation Program for Hawaii, approved September 22, 1954 (19 F. R. 6206), is amended as follows:

Section 1105.449 is amended by revising the headnote and the first sentence following the headnote to read as follows:

§ 1105.449 *Practice 17: Constructing or lining dams, pits, and ponds to impound surface water for irrigation.* No cost-sharing will be allowed for material moved in cleaning or maintaining a reservoir, or for dams, pits, or ponds, the primary purpose of which is to bring additional land into agricultural production. • • •

(Sec. 4, 49 Stat. 164; 16 U. S. C. 590d. Interprets or applies secs. 7–17, 49 Stat. 1148, as amended, 68 Stat. 304; 16 U. S. C. 590g–590q)

Done at Washington, D. C., this 19th day of November 1954.

[SEAL] EARL L. BUTZ,
Acting Secretary of Agriculture.

[F. R. Doc. 54-9320; Filed, Nov. 24, 1954; 8:48 a. m.]

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 2536]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

LUSTBERG, NAST & CO., INC.

Subpart—*Advertising falsely or misleadingly:* § 3.30 *Composition of goods.* Subpart—*Misbranding or mislabeling:* § 3.1185 *Composition.* Subpart—*Using misleading name—Goods:* § 3.2280 *Composition.* In connection with the offering for sale, sale, and distribution of coats, shirts, mackinaws, jackets, or other garments in commerce: (1) Using the term "Buck Skein," either alone or in conjunction with the outline of a deer's head, or any other colorable simulation of the word "buckskin," in advertising, or otherwise, to describe, designate, or refer to any product which is not made from the skin of a deer or elk; and (2) representing directly or by implication in any advertisement, or on labels, or otherwise, that any product made of wool or cotton or any other woven fabric is made of buckskin or other type of leather; prohibited, subject to the proviso, however, that nothing contained in said first prohibition shall be construed to prohibit the respondent from using the words "Buck Skein Brand" on labels and in advertising for garments which neither simulate nor resemble leather.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Modified cease and desist order, Lustberg, Nast & Company, Inc., New York, N. Y., Docket 2536, November 8, 1954.]

This proceeding was heard by the Federal Trade Commission upon the record and the Commission, having made its findings as to the facts and its conclusion that the respondent had violated the provisions of the Federal Trade Commission Act, issued its order to cease and desist on July 10, 1942. Thereafter, the respondent filed its petition for review of such order in the United States Circuit Court of Appeals for the Second Circuit, and on May 29, 1944, pursuant to motion jointly filed by counsel, that Court entered its decree dismissing said petition for review and affirming and enforcing the order to cease and desist.

On August 18, 1954, the respondent filed with the Commission a petition requesting modification of the said order to cease and desist, and the Commission having duly considered and granted such petition, and having issued its order reopening the proceeding and modifying the order to cease and desist in the respects set out therein, now issues this, its modified order to cease and desist:

It is ordered, That respondent Lustberg, Nast & Company, Inc., a corporation, its officers, directors, representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of coats, shirts, mackinaws, jackets, or other garments, in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the term "Buck Skein," either alone or in conjunction with the outline of a deer's head, or any other colorable simulation of the word "buckskin," in advertising, or otherwise, to describe, designate, or refer to any product which is not made from the skin of a deer or elk: *Provided, however*, That nothing herein shall be construed to prohibit the respondent from using the words "Buck Skein Brand" on labels and in advertising for garments which neither simulate nor resemble leather.

2. Representing directly or by implication in any advertisement, or on labels, or otherwise, that any product made of wool or cotton or any other woven fabric is made of buckskin or other type of leather.

It is further ordered, That the respondent shall, within sixty (60) days after service upon it of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which it has complied with this order.

Issued: November 8, 1954.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

[F. R. Doc. 54-9316; Filed, Nov. 24, 1954; 8:48 a. m.]

[Docket 6218]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

ALL AMERICAN SPORTSWEAR CO., INC., ET AL.

Subpart—*Misbranding or mislabeling:* § 3.1330 *Specifications or standards conformance.* In connection with the offering for sale, sale, or distribution of jackets, parkas, or other wearing apparel, in commerce, representing, directly or by implication, by marking, branding, labeling, tagging, or in any other manner, contrary to fact, that such merchandise was manufactured for the Armed Forces of the United States or in accordance with specifications of said Armed Forces; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719; 15 U. S. C. 45) [Cease and desist order, All American Sportswear Company, Inc., et al., New York, N. Y., Docket 6218, Nov. 9, 1954]

In the Matter of All American Sportswear Company, Inc., a Corporation, and Samuel Werber and Nathan Klimerman, Individually and as Officers of Said Corporation

This proceeding was heard by J. Earl Cox, hearing examiner, upon the complaint of the Commission, which charged respondents with engaging in unfair and deceptive acts and practices and in unfair methods of competition in commerce, in violation of the provisions of the Federal Trade Commission Act, in falsely representing that certain heavy outerwear made, sold, and distributed by them was made for the Armed Forces and in accordance with their specifications; and upon a stipulation entered into by respondents and counsel supporting the complaint.

Said stipulation set forth that respondents admitted all the jurisdictional allegations in the complaint and agreed that the order set forth in the stipulation should have the same force and effect as if made after a full hearing, presentation of evidence and findings and conclusions thereon; specifically waived any and all right, power, or privilege to challenge or contest the validity of the order entered in accordance with the stipulation; and also provided, among other things, that all the parties waived the filing of answer, a hearing before a hearing examiner of the Commission, the making of findings of fact or conclusions of law, the filing of exceptions and oral argument before the Commission, and all further and other procedure before the hearing examiner and the Commission to which respondents might be entitled under the Federal Trade Commission Act as amended, or the rules of practice of the Commission.

All parties agreed that the stipulation, together with the complaint, should constitute the entire record in the matter; that the order set forth might be entered in disposition of the proceeding without further notice; that the complaint might be used in construing the terms of the order which might be altered, modified, or set aside in the manner provided by the statute for the orders of the Commission; and that the signing of the stipulation was for settlement purposes only and did not constitute an admission by respondents that they had violated the law as alleged in the complaint.

Thereafter said examiner made his initial decision in which he set forth the aforesaid matters; that the stipulation was made a part of the record in the matter; and his finding that the proceeding was in the public interest; and in which, in conformity with the terms of the stipulation, he set forth order to cease and desist.

No appeal having been filed from said initial decision of said hearing examiner, as provided for in Rule XXII of the Commission's rules of practice, nor any other action taken as thereby provided to prevent said initial decision becoming the decision of the Commission thirty days from service thereof upon the parties, said initial decision,[1] including said order, accordingly, under the provisions of said Rule XXII became the decision of the Commission on November 9, 1954.

Said order is as follows:

It is ordered, That respondents All American Sportswear Company, Inc., a corporation, and Samuel Werber and Nathan Klimerman, individually and as officers of said corporation, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of jackets, parkas, or other wearing apparel, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or by implication, by marking, branding, labeling, tagging, or in any other manner, contrary to fact, that such merchandise was manufactured for the Armed Forces of the United States or in accordance with specifications of said Armed Forces.

By "Decision of the Commission and Order to File Report of Compliance," Docket 6218, November 9, 1954, which announced and decreed fruition of said initial decision, report of compliance was required as follows:

It is ordered, That respondents All American Sportswear Company, Inc., a corporation, and Samuel Werber and Nathan Klimerman, individually and as officers of said corporation, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

Issued: November 9, 1954.

By the Commission.

[SEAL] ROBERT M. PARRISH, *Secretary.*

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

PART 141d—CHLORAMPHENICOL AND CHLORAMPHENICOL-CONTAINING DRUGS; TESTS AND METHODS OF ASSAY

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

PART 146b—CERTIFICATION OF STREPTOMYCIN (OR DIHYDROSTREPTOMYCIN) AND STREPTOMYCIN- (OR DIHYDROSTREPTOMYCIN-) CONTAINING DRUGS

PART 146d—CERTIFICATION OF CHLORAMPHENICOL AND CHLORAMPHENICOL-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended by 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371; 67 Stat. 18), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR Part 141d; 19 F. R. 1141) and certification of antibiotic and antibiotic-containing drugs (21 CFR Parts 146, 146a, 146b, 146d); 19 F. R. 671, 1141, 1461) are amended as indicated below:

1. Section 141d.306 (a) is amended to read as follows:

§ 141d.306 *Chloramphenicol palmitate oral suspension*—(a) *Potency.* Using a hypodermic syringe, transfer 1.0 milliliter of the suspension to a separatory funnel containing 10 milliliters of water and 25 milliliters of chloroform. Shake for 1 minute, allow the layers to separate, and filter the lower chloroform

layer through a pledget of cotton. Transfer a 1.0-milliliter portion of the clear chloroform filtrate to a 100-milliliter volumetric flask, make to volume with absolute ethanol, and mix. With a suitable spectrophotometer, determine the absorbance of this solution at 271 millimicrons, using as a blank 1.0 milliliter of chloroform U. S. P. diluted to 100 milliliters with absolute ethanol. The number of milligrams of chloramphenicol contained in each milliliter of chloramphenicol palmitate oral suspension is obtained by the following calculation:

$$C = \frac{A \times 25{,}000 \times 0.575}{178}$$

where:

C = the number of milligrams of chloramphenicol in 1.0 milliliter of the chloramphenicol palmitate suspension;
A = the absorbance of the solution at 271 millimicrons;
25,000 = dilution factor;
0.575 = the factor for converting chloramphenicol palmitate to chloramphenicol;
178 = extinction coefficient of chloramphenicol palmitate at 271 millimicrons.

The potency of chloramphenicol palmitate oral suspension is satisfactory if it contains not less than 85 percent of the number of milligrams per milliliter that it is represented to contain.

2. Part 141d is amended by adding the following new section:

§ 141d.311 *Chloramphenicol palmitate-streptomycin oral suspension; chloramphenicol palmitate-dihydrostreptomycin oral suspension*—(a) *Potency*—(1) *Chloramphenicol content.* Proceed as directed in § 141d.306 (a). Its content of chloramphenicol is satisfactory if it contains not less than 85 percent of the number of milligrams that it is represented to contain.

(2) *Steptomycin or dihydrostreptomycin content.* Proceed as directed in § 141b.101 of this chapter except § 141b.101 (b), and if it contains dihydrostreptomycin use the dihydrostreptomycin working standard as the standard of comparison. Its content of streptomycin or dihydrostreptomycin is satisfactory if it contains not less than 85 percent of the number of milligrams that it is represented to contain.

(b) *pH.* Using the undiluted suspension, proceed as directed in § 141a.5 (b) of this chapter.

3. Section 146.26 *Animal feed containing penicillin* • • • is amended by adding the following new paragraph (u):

(u) It is intended for use solely in the prevention of outbreaks of coccidiosis in poultry flocks and it contains nicarbazin (4,4'-dinitrocarbanilide complex with 2-hydroxy-4,6-dimethylpyrimidine) in a quantity by weight of feed of not less than 0.01 percent and not more than 0.02 percent, and there has been submitted to the Commissioner, in triplicate, the information referred to in § 146.7, as well as any additional information necessary to establish the safety and efficacy of the article and to guarantee its identity, strength, quality, and purity. The exemption shall expire at the beginning of any act changing the composition or labeling of such drug or the methods used in its manufacturing, processing, or packaging or the facilities and controls used for such manufacturing, processing, or packaging, unless the person who obtained the exemption has submitted to the Commissioner, in triplicate, amended information describing such proposed changes, and such amendment has been accepted by the Commissioner.

4. In § 146a.35 *Penicillin sulfonamide powder* • • •, paragraph (c) (1) (iii) is amended by changing the number "18" to "24".

5. In § 146b.104 *Streptomycin tablets* • • •, paragraph (a) is amended by changing the word "kaolin" to read "kaolin or other suitable and harmless absorbent ingredients".

6. Part 146d is amended by adding the following new section:

§ 146d.311 *Chloramphenicol palmitate-streptomycin oral suspension; chloramphenicol palmitate-dihydrostreptomycin oral suspension.* Chloramphenicol palmitate-streptomycin oral suspension and chloramphenicol palmitate-dihydrostreptomycin oral suspension conform to all requirements and are subject to all procedures prescribed by § 146d.306 for chloramphenicol palmitate oral suspension, except that:

(a) It contains not less than 30 milligrams of streptomycin or dihydrostreptomycin per milliliter. The streptomycin used conforms to the standards prescribed by § 146b.101 (a) of this chapter, except § 146b.101 (a) (2), (4), and (6). The dihydrostreptomycin used conforms to the standards prescribed therefor by § 146b.103 of this chapter, except the standards for sterility, pyrogens, and moisture.

(b) In lieu of the directions for labeling prescribed by § 146d.306 (c) (1) (ii) and (iv), each package shall bear on the outside wrapper or container and the immediate container the number of milligrams of chloramphenicol and the number of milligrams of streptomycin or dihydrostreptomycin per milliliter, and its expiration date shall be 24 months after the month during which the batch was certified.

(c) In addition to complying with the requirements of § 146d.306 (d), a person who requests certification of a batch shall submit with his request a statement showing the batch mark and (unless they were previously submitted) the results and date of the latest tests and assays of the streptomycin or dihydrostreptomycin used in making the batch for potency, toxicity, histamine content, pH, streptomycin content if it is dihydrostreptomycin, and crystallinity if it is crystalline dihydrostreptomycin. He shall also submit in connection with his request a sample consisting of not less than 6 packages of the batch and (unless it was previously submitted) a sample consisting of not less than 5 packages containing approximately equal portions of not less than 0.5 gram each of the streptomycin or dihydrostreptomycin used in making the batch, packaged in accordance with the requirements of § 146b.101 (b) of this chapter.

(d) The fee for the services rendered with respect to each immediate container in the sample of streptomycin or dihydrostreptomycin submitted in accordance with the requirements prescribed therefor by this section shall be $10.00.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry, since it would be against public interest to delay providing for the aforesaid amendments, and since it conditionally relaxes existing requirements.

I further find that animal feeds that contain certifiable antibiotic drugs and nicarbazin and which are intended solely for the prevention of outbreaks of coccidiosis in poultry flocks need not comply with the requirements of sections 502 (l) and 507 of the Federal Food, Drug, and Cosmetic Act in order to insure the safety and efficacy of such feeds when used for their intended purpose.

This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Dated: November 19, 1954.

[SEAL] OVETA CULP HOBBY, *Secretary.*

[F. R. Doc., 54-9329; Filed, Nov. 24, 1954; 8:50 a. m.]

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.235]

PART 75—INTERNATIONAL TRAFFIC IN ARMS, COMMUNICATION, AND IMPLEMENTS OF WAR

MISCELLANEOUS AMENDMENTS

Correction

In F. R. Doc. 54-9032, appearing at page 7405 of the issue for Wednesday, Nov. 17, 1954, the following change should be made:

Under Item 2, which amends paragraph (a) of § 75.1, the word "of" in the third line of the paragraph should read "or".

TITLE 24—HOUSING AND HOUSING CREDIT

Chapter II—Federal Housing Administration, Housing and Home Finance Agency

MISCELLANEOUS AMENDMENTS TO CHAPTER

The following miscellaneous amendments are made to Chapter II of Title 24:

Subchapter B—Property Improvement Loans

PART 201—CLASS 1 AND CLASS 2 PROPERTY IMPROVEMENT LOANS

Section 201.7 (a) (1) is amended by striking the item "Venetian blinds."

(Sec. 2, 48 Stat. 1246, as amended; 12 U. S. C. 1703)

Subchapter C—Mutual Mortgage Insurance and Servicemen's Mortgage Insurance

PART 221—MUTUAL MORTGAGE INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING ONE- TO FOUR-FAMILY DWELLINGS

1. Section 221.4 (a) is amended to read as follows:

§ 221.4 *Approval of other institutions.* (a) General requirements: Any mortgagee not identified in §§ 221.1 to 221.3 may be approved as a mortgagee if it is a chartered institution or other permanent organization having succession, which has sound capital funds properly proportioned to its liabilities and to the character and extent of its operations, and which meets the requirements of either paragraph (b), (c) or (d) of this section.

2. In § 221.4 (c) the introductory text is amended to read as follows:

(c) Special requirements — non-supervised institutions: A mortgagee not subject to inspection and supervision of a governmental agency as provided in the preceding paragraph shall have as its principal activity the lending or investment of funds under its own control in real estate mortgages; shall have sound capital funds of a value of not less than $100,000; shall submit a detailed audit of its books made by an accountant satisfactory to the Commissioner, reflecting a condition satisfactory to him; shall file with the Commissioner similar audits at least once in each calendar year so long as its approval as mortgagee continues; shall submit at any time to such examination of its books and affairs as the Commissioner may require; and shall comply with any other conditions that the Commissioner may impose. Prior to the approval of any such mortgagee, it shall submit an agreement in writing—

• • • • • •

3. Section 221.22 (b) is amended by adding at the end thereof the following: "Notwithstanding the limitation on maximum mortgage amount in this paragraph, the mortgagee may charge an annual service charge as provided in this paragraph with respect to any mortgage of the character described in § 221.42 (f)."

(Sec. 2, 48 Stat. 1246, as amended; 12 U. S. C. 1703)

PART 222—MUTUAL MORTGAGE INSURANCE; RIGHTS AND OBLIGATIONS OF THE MORTGAGEE UNDER THE INSURANCE CONTRACT

1. Section 222.3 (b) (5) is amended to read as follows:

§ 222.3 *Prepayment premiums.* • • •

(b) • • •

(5) Where payment in full is made within 60 days after the date the mortgage is endorsed for insurance, provided the mortgagee submits to the Commissioner a certificate signed by the mortgagor certifying that such payment was made in connection with the sale of the property to a veteran, as defined in § 221.11 (c) of this subchapter, for his occupancy as a home.

2. In § 222.13 the introductory text of paragraph (a) is amended to read as follows:

§ 222.13 *Condition of property when transferred; delivery of debentures and certificate of claim.* (a) If the default is not cured as aforesaid, and if the mortgagee has otherwise complied with the provisions of § 222.12 and at any time within 30 days (or such further time as may be necessary to complete the title examination and perfect such title) after acquiring possession of the mortgaged property by foreclosure, or by other means in accordance with § 222.12 (a), the mortgagee shall either (1) tender to the Commissioner a satisfactory conveyance of title and transfer of possession (free of occupants if the Commissioner so requires) under a deed containing a covenant which warrants against the acts of the mortgagee and all claiming by, through, or under it, or (2) with the prior approval of the Commissioner, tender to the Commissioner a satisfactory conveyance of title and transfer of possession (free of occupants if the Commissioner so requires) under a deed or other satisfactory instrument of conveyance from the mortgagor or other appropriate grantor, such deeds or instrument of conveyance conveying good merchantable title (evidenced as provided in § 222.14) to such property, undamaged by fire, earthquake, flood, or tornado, and undamaged by waste, except as hereinafter in this section provided, and assigns (without recourse or warranty) any and all claims which it has acquired in connection with the mortgage transaction, and as a result of the foreclosure proceedings or other means by which it acquired or tendered such property, except such claims as may have been released with the approval of the Commissioner, the Commissioner shall promptly accept conveyance of such property and such assignment, and shall deliver to the mortgagee—

• • • • • •

3. In § 222.14 paragraph (d) is redesignated as paragraphs (d) and (e) reading as follows:

§ 222.14 *Satisfactory title evidence.* • • •

(d) The Commissioner will not object to title by reason of the following matters, provided that they are not such as to impair the value of the property for residence purposes, or provided they have been brought to the attention of the insuring office for consideration in fixing the valuation:

(1) Customary easements for public utilities, party walls, driveways and other purposes; customary building or use restrictions for breach of which there is no reversion and which have not been violated to a material extent;

(2) Such restrictions, when coupled with a reversionary clause, provided there has been no violation prior to the date of the deed to the Commissioner;

(3) Outstanding oil, water or mineral rights, which, in the opinion of the Commissioner, do not impair the value of the property for residence purposes, or which are customarily waived by prudent lending institutions and leading attorneys generally in the community.

(e) The Commissioner will not object to title by reason of the following matters:

(1) Violations of a restriction based on race, color or creed, even where such restriction provides for a penalty of reversion or forfeiture of title or a lien for liquidated damage, provided that there has not been an adverse judgment or pending suit in connection with the violation existing on the date the property is conveyed to the Commissioner;

(2) Easements for public utilities along one or more of the property lines and extending not more than 10 feet therefrom and for drainage or irrigation ditches along the rear 10 feet of the property, provided the exercise of the rights thereunder do not interfere with any of the buildings or improvements located on the subject property;

(3) Easements for underground conduits which are in place and do not extend under any buildings on the subject property;

(4) Mutual easements for joint driveways constructed partly on the subject property and partly on adjoining property, provided the agreements creating such easements are of record;

(5) Encroachments on the subject property by improvements on adjoining property where such encroachments do not exceed 1 foot, provided such encroachments do not touch any buildings or interfere with the use of any improvements on the subject property;

(6) Encroachments on adjoining property by eaves and overhanging projections attached to improvements on subject property where such encroachments do not exceed 1 foot;

(7) Encroachments on adjoining property by hedges, wooden or wire fences belonging to the subject property;

(8) Encroachments on adjoining property by driveways belonging to subject property where such encroachments do not exceed 1 foot, provided there exists a clearance of at least 8 feet between the buildings on the subject property and the property line affected by the encroachment;

(9) Variations between the length of the subject property lines as shown on the application for insurance and as shown by the record or possession lines, provided such variations do not interfere with the use of any of the improvements on the subject property and do not involve a deficiency of more than 2 percent with respect to the length of the front line or more than 5 percent with respect to the length of any other line;

(10) Encroachments by garages or improvements other than those which are attached to or a portion of the main dwelling structure over easements for public utilities, provided such encroachment does not interfere with the use of the easement or the exercise of the rights of repair and maintenance in connection therewith.

(Sec. 2, 48 Stat. 1246, as amended; 12 U. S. C. 1703)

Subchapter D—Multifamily and Group Housing Insurance

PART 232—MULTIFAMILY HOUSING INSURANCE: ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING MULTIFAMILY HOUSING

1. Section 232.25 (b) is amended to read as follows:

§ 232.25 *Form of contract.* • • •

(b) If it is determined by the Commissioner that the mortgagor, its officers, directors or stockholders have any interest, financial or otherwise, in the builder, contractor, or any subcontractor, the form of contract shall provide for payment of the actual cost of construction, not to exceed an upset price and may provide for payment of a builder's fixed fee in addition thereto. The builder's fixed fee shall not exceed a reasonable allowance therefor as established by the Commissioner, in accordance with customary practices in the area.

2. Section 232.26 (b) is amended to read as follows:

§ 232.26 *Certificate of actual cost.* • • •

(b) When the work has been completed under a contract as described in § 232.25 (b), the mortgagor's certification shall be on the form prescribed therefor by the Commissioner and shall indicate all amounts as required in paragraph (a) of this section, plus the allowance for the builder's fee as established by the Commissioner. This form of certification shall be accompanied by a certification by the builder on the form prescribed therefor by the Commissioner, indicating all actual costs paid for labor, materials, and subcontract work under the general contract exclusive of the builder's fee and less any kickbacks, rebates, trade discounts, or other similar payments to the builder or mortgagor corporation or any of its officers, directors, or stockholders. The mortgagor shall keep records as required in paragraph (a) of this section and shall in turn require the builder to keep available similar records.

(Sec. 211, as added by sec. 3, 52 Stat. 23; 12 U. S. C. 1715b)

PART 233—RENTAL HOUSING INSURANCE; RIGHTS AND OBLIGATIONS OF MORTGAGEE

1. Section 233.2 (c) is amended to read as follows:

§ 232.2 *First, second and third premiums.* • • •

(c) Where the credit instrument is initially and finally endorsed for insurance pursuant to a Commitment to Insure Upon Completion, the mortgagee on the date of the first principal payment shall pay a second premium equal to one-half of one percent of the average outstanding principal obligation of the mortgage for the year following such first principal payment date which shall be adjusted so as to accord with such date and so that the aggregate of the said two premiums shall equal the sum of one-half of one percent per annum of the average outstanding principal obligation of the mortgage for the period from the date of the insurance endorsement to one year following the date of the first principal payment.

2. Section 233.8 (a) (2) (i) is amended to read as follows:

§ 233.8 *Insurance benefits requirement.* • • •

(a) • • •

(2) • • •

(i) With and subject to the consent of the Commissioner provide for transfer of title from the mortgagor or other appropriate grantor to the Commissioner or shall acquire by means other than foreclosure of the mortgage possession of and title to the mortgaged property; or

• • • • • •

(Sec. 211, as added by sec. 3, 52 Stat. 23; 12 U. S. C. 1715b)

PART 241—COOPERATIVE HOUSING INSURANCE; ELIGIBILITY REQUIREMENTS FOR PROJECT MORTGAGE

1. Section 241.18 is amended by striking the last two sentences and inserting in lieu thereof the following: "The mortgage may provide for the collection by the mortgagee of a 'late charge', not to exceed 2 cents for each dollar of each payment to interest and/or principal more than 15 days in arrears, to cover the extra expense involved in handling delinquent payments. Late charges, if not collected, may not be deducted from any aggregate monthly payment."

2. Section 241.23 is amended by striking the first sentence and inserting in lieu thereof the following:

§ 241.23 *Regulation and restriction of mortgagors.* The regulation or restriction of mortgagors of the character described in § 241.20 (a) will be set forth in the certificate of incorporation or other instrument under which the mortgagor is created (hereinafter referred to as the "charter") and will be made effective through the issuance of certain shares of special stock (or other evidence of a beneficial interest in the mortgagor) which stock or interest will enable the Commissioner in his discretion to exercise majority voting rights in the event of violation of a provision of the charter or at any time during the period between initial and final endorsement for mortgage insurance by the Commissioner whether or not such violation has occurred. By the exercise of these majority voting rights, the Commissioner may remove any or all of the existing directors of the mortgagor corporation and elect new directors to serve in their place. Any directors so elected by the Commissioner in the event of a violation shall serve only for a period coexistent with the duration of such violation or until the Commissioner is assured in a manner satisfactory to him against future violations of a similar nature. Directors so elected by the Commissioner during the period between initial and final endorsement for mortgage insurance shall not serve after the time of such final endorsement.

Subchapter F—Rehabilitation and Neighborhood Conservation Housing Insurance

PART 262—HOME REHABILITATION INSURANCE; RIGHTS AND OBLIGATIONS OF MORTGAGEE UNDER INSURANCE CONTRACT

Part 262 is amended by adding a new § 262.2a as follows:

§ 262.2a *No vested right in fund.* Neither the mortgagee nor the mortgagor shall have any vested or other right in the Section 220 Housing Insurance Fund.

(Sec. 211, as added by sec. 3, 52 Stat. 23; 12 U. S. C. 1715b)

PART 266—HOME RELOCATION INSURANCE; ELIGIBILITY REQUIREMENTS OF MORTGAGE COVERING SINGLE FAMILY DWELLINGS

Section 266.6 (a) is amended to read as follows:

§ 266.6 *Maximum mortgage amount; loan-to-value limitation.* • • •

(a) 95 percent of the appraised value, as of the date the mortgage is accepted for insurance, where the mortgagor is the occupant of the property, or

• • • • • •

(Sec. 607, as added by sec. 1, 55 Stat. 61; 12 U. S. C. 1742. Interprets or applies sec. 608, as added by sec. 11, 56 Stat. 303, as amended; 12 U. S. C. 1743)

Subchapter I—War Rental Housing Insurance

PART 282—MULTIFAMILY WAR HOUSING INSURANCE; RIGHTS AND OBLIGATIONS OF MORTGAGEE UNDER INSURANCE CONTRACT

1. Section 282.8 (b) (1) is amended to read as follows:

§ 282.8 *Benefits of insurance.* • • •

(b) • • •

(1) With and subject to the consent of the Commissioner provide for transfer of title from the mortgagor or other appropriate grantor to the Commissioner or shall acquire by means other than foreclosure of the mortgage possession of and title to the mortgaged property; or

• • • • • •

2. Section 282.10 is amended to read as follows:

§ 282.10 *Computation of benefits received by conveyance.* If the mortgagee elects to proceed under, and does proceed under and in accordance with the provisions of § 282.8 (b) and at any time within thirty (30) days (or such further time as may be allowed by the Commissioner in writing), tenders to the Commissioner possession thereof and a deed thereto containing a covenant which warrants against acts of the mortgagee and of all parties claiming by, through, or under the mortgagee, conveying title to such property satisfactory to the Commissioner, together with a Bill of Sale covering any personal property to which the mortgagee is entitled by reason of the mortgage transaction conveying title to such property satisfactory to the Commissioner, as provided in § 282.11, and assigns (without recourse or warranty) any and all claims which it has acquired in connection with the mortgage transaction and as a result of the foreclosure proceedings or other means by which it acquired such property, including but not limited to any claims on account of title insurance and fire or other hazard insurance, except such claims as may have been released with the prior approval of the Commissioner, the Commissioner shall promptly accept conveyance to such property and such assignments, notwithstanding that the buildings or improvements thereon shall be incomplete or may have been destroyed, damaged, or injured in whole or in part, and shall deliver to the mortgagee debentures and Certificate of Claim as provided in § 282.9, except that the one percent (1%) deduction set out in paragraph (a) (3) (i) thereof with respect to the amount of debentures shall not apply.

(Sec. 607, as added by sec. 1, 55 Stat. 61; 12 U. S. C. 1742. Interprets or applies sec. 608, as added by sec. 11, 56 Stat. 303, as amended; 12 U. S. C. 1743)

Subchapter N—National Defense Housing Insurance

PART 295—NATIONAL DEFENSE HOUSING INSURANCE; RIGHTS AND OBLIGATIONS OF MORTGAGEE UNDER INSURANCE CONTRACT

In § 295.11 (a) the introductory text is amended to read as follows:

§ 295.11 *Condition of property when transferred; delivery of debentures; certificate of claim and definition of the term "waste".* (a) If the default is not cured as aforesaid, and if the mortgagee has otherwise complied with the provisions of § 295.10, and at any time within thirty days (or such further time as may be necessary to complete the title examination and perfect such title) after acquiring possession of the mortgaged property by foreclosure, or by other means in accordance with § 295.10 (a), the mortgagee shall either tender to the Commissioner a satisfactory conveyance of title and transfer of possession (free of occupants if the Commissioner so requires) under a deed containing a covenant which warrants against the acts of the mortgagee and all claiming by, through, or under it, or with the prior approval of the Commissioner, tender to the Commissioner a satisfactory conveyance of title and transfer of possession (free of occupants if the Commissioner so requires) under a deed or other satisfactory instrument of conveyance from the mortgagor or other appropriate grantor, such deeds or instrument of conveyance, conveying good merchantable title (evidenced as hereinafter provided in § 295.12) to such property undamaged by fire, earthquake, flood, or tornado, and undamaged by waste, except as hereinafter in this section provided, and assigns (without recourse or warranty) any and all claims which it has acquired in connection with the mortgage transaction, and as a result of the foreclosure proceedings or other means by which it acquired or tendered such property, except such claims as may have been released with the approval of the Commissioner, the Commissioner shall promptly accept conveyance of such property and such assignment and shall deliver to the mortgagee:

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

Subchapter B—Carriers by Motor Vehicle

PART 211—SCOPE OF OPERATING AUTHORITY; ROUTES

USE OF NEW YORK STATE THRUWAY BY MOTOR CARRIERS AUTHORIZED TO OPERATE OVER SPECIFIED PARALLEL HIGHWAYS

At a session of the Interstate Commerce Commission, Division 5, held at its office in Washington, D. C., on the 16th day of November A. D. 1954.

The above-entitled matter being under consideration:

It appearing, that this Commission has received inquiries from the New York State Thruway Authority and certain motor carriers regarding the entry of a general order authorizing the use of the New York State Thruway between the Buffalo interchange (Barrier Control No. 50) and the Suffern interchange (No. 15) as an alternate route by motor carriers holding authority to operate over other State and Federal highways between those points;

It further appearing, that the New York State Thruway is a modern toll highway in which there are improvements in design and construction over other highways in that region, including the elimination of cross traffic, reduction in grades, lengthening of curves, and widening of the pavement; that its use as an alternate route by motor carriers holding authority to operate over other highways which parallel the said Thruway between the points specified would promote economical operation, improve the service rendered to the public, serve purposes of national defense, and contribute to the promotion of safety on the highways; and that only in special and unusual instances will there exist reasons for denying to any carrier operating over such parallel highways permission to use the segment of the Thruway indicated as an auxiliary highway;

And it further appearing, that in general the use of the said segment of the Thruway as an alternate route as above indicated is and will be required by public convenience and necessity, in the case of common carriers, and consistent with the public interest and the national transportation policy declared in the Interstate Commerce Act, in the case of contract carriers, and the Commission so finding; therefore,

It is ordered, That Part 211 be, and it is hereby, amended by deleting the entire context of § 211.10 and substituting in lieu thereof the following:

§ 211.10 *Use of the New York State Thruway by motor carriers authorized*

to operate over specified parallel highways—(a) *Conditions.* The segment of the New York State Thruway extending between the Buffalo interchange (Barrier Control No. 50) and the Suffern interchange (No. 15), and such additional highways as may be required in traveling by the shortest practicable route between authorized highways and the segment of the Thruway indicated in performing authorized operations, may be used as an alternate route, without obtaining prior authority therefor, by motor carriers subject to the Interstate Commerce Act who are authorized to operate in or through New York over U. S. Highways 9, 9W, and 20, and/or New York Highways 5, 5S, 7, 8, 9G, 9H, 9J, 17, 20, 28, 29, 31, 32, 33, 49, 67, 78, 96, 143, 144, 168, 169, 173, 250, 263, 324, 332, 365, and 385, subject in all instances to the following conditions:

(1) The carrier in each case shall give notice to the Commission, by letter, setting forth (i) a complete description by highway numbers of the carrier's authorized route between the point where it proposes to leave its authorized route and the point where it proposes to return to such route, (ii) a complete description by highway numbers of the proposed deviation route, including the portion of the Thruway to be used, between the point where it proposes to leave its authorized route and the point where it will return to such route, and (iii) a list of all known competitors, with a statement that a copy of such letter notice has been served on each of those listed.

(2) The letter shall contain a statement to the effect that the carrier filing the notice will continue to furnish reasonable and adequate service at all points it is now authorized to serve, that it will not serve new points or points it is not now authorized to serve, and that the use of the Thruway will not enable the carrier to engage in transportation between any points where because of the circuity of its present routes, or otherwise, such operation is not now practicable.

(3) The right to use the Thruway as an alternate route shall continue only so long as the carrier is entitled to use the highway or portion thereof described in its Certificate or Permit which parallels the Thruway, in performing service authorized under the Interstate Commerce Act, and only so long as the conditions specified herein are observed.

(b) *Protests.* Any party in interest may file a protest within 30 days from the date a carrier gives notice of intent to operate over the Thruway. Such protest may be in the form of a letter, should contain facts and information to support protestant's opinion that the carrier filing such notice cannot meet the terms of the above-specified conditions, and should reflect that a copy of the protest has been furnished to the carrier filing the notice. If such a protest is filed the Commission will give due consideration to all facts of record in the particular case, including the notice and protest, and will make a determination in accordance with those facts.

(c) *When applications required.* Motor carriers holding authority to operate over specified regular routes in New York which do not include any of the highways designated in paragraph (a) of this section and who desire to use the segment of the Thruway specified above as an alternate route in performing their authorized service, must apply for and obtain such authority, using Form BMC 78, before operating over the Thruway. If it appears that the use of the Thruway by any such applicant would not result in a substantial change in the service between terminal points or to or from intermediate and off-route points, and would not enable the carrier to render service, which is now impracticable because of the circuity of the carrier's presently authorized route, or otherwise, consideration will be given to the granting of authority without hearing and with or without restrictions.

(d) *Irregular-route operations.* If a motor carrier is authorized to operate within or through New York over irregular routes, no specific authority is required from this Commission to use the Thruway in performing its authorized service.

It is further ordered, That this order shall supersede the order entered herein on August 20, 1954, which is hereby vacated.

And it is further ordered, That motor carriers operating over any portion of the segment of the Thruway extending between the Buffalo interchange and the Westmoreland interchange pursuant to the order herein dated June 24, 1954, or the referred-to order of August 20, 1954, shall not be required to file any further notice with this Commission concerning the use of that portion of the Thruway as an alternate route. If, however, it is desired to operate over the segment extending between the Westmoreland interchange and the Suffern interchange, or any other segment or segments which hereafter may be authorized by a further general order or orders, further notice is required but only as relates to such other segment or segments.

Notice of this order shall be given to motor carriers and the general public by depositing a copy in the office of the Secretary of the Commission, Washington, D. C., and by filing a copy with the Director, Division of Federal Register.

(49 Stat. 546, as amended; 49 U. S. C. 304. Interprets or applies 49 Stat. 552, as amended, 553, as amended; 49 U. S. C. 308, 309)

By the Commission, Division 5.

[SEAL] GEORGE W. LAIRD, *Secretary.*

PROPOSED RULE MAKING

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 130]

KLAMATH INDIAN IRRIGATION PROJECT, OREGON

OPERATION AND MAINTENANCE CHARGES

NOVEMBER 17, 1954.

Pursuant to section 4 (a) of the Administrative Procedure Act of June 11, 1946 (60 Stat. 238; U. S. C. 1001), and authority contained in the acts of Congress approved August 1, 1914, and March 7, 1928 (38 Stat. 583, 45 Stat. 210; 25 U. S. C. 385, 387), and by virtue of authority delegated by the Commissioner of Indian Affairs to the Area Director by Order No. 551, Amendment No. 1, approved June 5, 1951 (16 F. R. 5457), notice is hereby given of intention to modify § 130.47 of Title 25, Code of Federal Regulations, dealing with the operation and maintenance charges on assessable lands under the Klamath Indian Irrigation Project, Oregon, as follows:

By increasing the annual operation and maintenance charge per acre from $3.00 to $3.85 for each irrigable acre of land within the Modoc Point Unit of the Klamath Indian Irrigation Project.

The foregoing proposed change is to become effective for the irrigation season 1955 and to continue in effect thereafter until further notice.

Interested persons are hereby given opportunity to participate in preparing the proposed amendments by submitting their views and data or argument in writing to Don C. Foster, Area Director, Bureau of Indian Affairs, P. O. Box 4097, Portland 8, Oregon, within 30 days from the date of publication of this notice of intention in the daily issue of the FEDERAL REGISTER.

PERRY E. SKARRA, *Acting Area Director.*

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

ROY AKARD LIVESTOCK COMMISSION CO., IDABEL, OKLA.

POSTING OF STOCKYARD

The Secretary of Agriculture has information that the Roy Akard Livestock Commission Company, Idabel, Oklahoma, is a stockyard as defined in section 302 of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 202), and should be made subject to the provisions of that act.

Therefore, notice is hereby given that the Secretary of Agriculture proposes to issue a rule designating the stockyard named above as a posted stockyard subject to the provisions of the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), as is provided in section 302 of that act. Any interested person who desires to do so may submit within 15 days of the publication of this notice, any data, views or arguments, in writing, on the proposed rule to the Director, Livestock Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C.

Done at Washington, D. C., this 22d day of November 1954.

[SEAL] DAVID M. PETTUS, *Acting Director, Livestock Division, Agricultural Marketing Service.*

[7 CFR Part 27]

SPOTTED COTTON STANDARDS

EXTENSION OF FIELD TRIAL

On June 18, 1953 a notice of proposed rule making was published in the FEDERAL REGISTER (18 F. R. 3485) providing for a field trial of one year, subject to such extension of time as needed, of proposed physical standards for spotted cotton in the grades Strict Middling Spotted, Middling Spotted, Strict Low Middling Spotted and Low Middling Spotted. The purpose of the field trial is to determine the practicability of physical form standards for spotted cotton. The notice provided that any interested person could submit written data, views, or arguments concerning experiences with the field trial boxes to the United States Department of Agriculture not later than one year after publication of the notice in the FEDERAL REGISTER.

Notice is hereby given that such field trial is extended until April 15, 1956. Boxes of the standards for use in the field trial will continue to be available at the following prices: $5.00 per 6-sample box f. o. b. Washington, D. C., for shipments within the continental United States, and $6.50 each delivered to destination for shipments outside of the continental United States. Application with remittance should be mailed to the Cotton Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C.

Any interested person who desires to submit written data, views, or arguments concerning his experiences with the field trial boxes may do so by filing them with the Director, Cotton Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than April 15, 1956.

The descriptive standards for spotted cotton (7 CFR 27.158 to 27.162) will continue to be the official cotton standards of the United States for spotted cotton until further notice.

Done at Washington, D. C., this 22d day of November 1954.

[SEAL] ROY W. LENNARTSON, *Deputy Administrator, Agricultural Marketing Service.*

[7 CFR Part 56]

GRADING AND INSPECTION OF SHELL EGGS AND UNITED STATES STANDARDS, GRADES, AND WEIGHT CLASSES FOR SHELL EGGS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance of revised regulations governing the grading and inspection of shell eggs and United States standards, grades, and weight classes for shell eggs. The revision would bring the regulations, standards, and grades for shell eggs together under a single new Part 56 of the Code of Federal Regulations. The program is currently in effect pursuant to regulations contained in Part 55 and U. S. Standards, Grades, and Weight Classes contained in Part 42. Upon promulgation of Part 56, the provisions of Parts 55 and 42 applicable to shell eggs will be superseded. The provisions of Part 55 applicable to the inspection of egg products will not be changed by this action.

The proposed revision of the regulations and standards hereinafter set forth establishes requirements for facilities and operating procedures with respect to grading and packing eggs that are to bear a grade mark, prescribes the form of the grade mark, and changes the standards of quality and weight classes for shell eggs.

All interested persons who desire to submit written data, views, or arguments in connection with this proposed revision should file the same in triplicate with the Chief of the Standardization and Marketing Practices Branch, Poultry Division, Agricultural Marketing Service, U. S. Department of Agriculture, Room 2099 South Building, Washington 25, D. C., not later than thirty (30) days following publication of this proposal in the FEDERAL REGISTER.

The proposed regulations are as follows:

SUBPART A—RULES GOVERNING THE GRADING AND INSPECTION OF SHELL EGGS

DEFINITIONS

Sec.
56.1 Meaning of words.
56.2 Terms defined.

ADMINISTRATION

56.3 Administration.

GENERAL

56.4 Basis of service.
56.5 Accessibility and condition of products.
56.6 Supervision.
56.7 Publications.
56.8 Other applicable regulations.

LICENSED GRADERS, INSPECTORS, SAMPLERS, AND SUPERVISORS OF PACKAGING

56.10 Who may be licensed.
56.11 Limited license may be issued.
56.12 Suspension of license.
56.13 Cancellation of license.
56.14 Surrender of license.
56.15 Political activity.
56.16 Identification.

APPLICATION FOR GRADING, INSPECTION, AND SAMPLING

56.20 Who may obtain grading, inspection, and sampling service.
56.21 How to make application for grading.
56.22 Filing of application.
56.23 Form of application.
56.24 When application may be rejected.
56.25 When application may be withdrawn.
56.26 Authority of applicant.
56.27 Order of service.

VIOLATIONS

56.30 Report of violations.
56.31 Denial of service.

IDENTIFYING AND MARKING PRODUCTS

56.35 Authority to use official identification.
56.36 Approval of official identification.
56.37 Information required on grade mark.
56.38 Form of grade mark.

PREREQUISITES TO PACKAGING PRODUCTS WITH GRADE IDENTIFICATION LABELS

56.40 Supervisor of packaging required.
56.41 Candling and grading requirements of shell eggs for packaging with grade identification labels.
56.42 Check-grading officially identified eggs.
56.43 Limitations applicable to grade marking consumer packages of A and AA grade eggs.

FEES AND CHARGES

56.45 Payment of fees and charges.
56.46 On a fee basis.
56.47 Fees for appeal grading.
56.48 Fees for additional copies of grading certificates.
56.49 Travel expenses and other charges.
56.50 Egg grading fees.
56.51 Additional charges.
56.52 On a contract basis.
56.53 Fees for grading service performed under cooperative agreement.

GRADING CERTIFICATE

56.55 Grading certificates and sampling report forms.
56.56 Grading certificate issuance.
56.57 Disposition of grading certificates.
56.58 Advance information.

REGRADING AND APPEAL GRADING

56.60 Regrading of a graded product.
56.61 When appeal grading may be requested.
56.62 How to obtain appeal grading.
56.63 Record of filing time.
56.64 When an application for an appeal grading may be refused.
56.65 When an application for an appeal grading may be withdrawn.
56.66 Order in which appeal gradings are performed.
56.67 Who shall make appeal gradings.
56.68 Appeal grading certificate.
56.69 Superseded certificates.

FACILITY REQUIREMENTS

56.75 Applicability of facility and operating requirements.
56.76 Minimum facility and operating requirements for shell egg grading and packing plants.

SUBPART B—FORMS AND INSTRUCTIONS

56.100 Application for grading service with respect to shell eggs.
56.101 Application for the privilege to use official identification and grade labels on consumer packages of graded products.

SUBPART C—UNITED STATES STANDARDS, GRADES, AND WEIGHT CLASSES FOR SHELL EGGS

UNITED STATES STANDARDS FOR QUALITY OF INDIVIDUAL SHELL EGGS

56.200 Application.
56.201 AA quality.
56.202 A quality.
56.203 B quality.
56.204 C quality.

Sec.
56.203 Dirty.
56.206 Check.
56.207 Leaker.
56.208 Terms descriptive of the shell.
56.209 Terms descriptive of the air cell.
56.210 Terms descriptive of the white.
56.211 Terms descriptive of the yolk.
56.212 General terms.

UNITED STATES CONSUMER GRADES AND WEIGHT CLASSES FOR SHELL EGGS

56.215 General.
56.216 Grades.
56.217 Summary of grades.
56.218 Weight classes.

UNITED STATES PROCUREMENT GRADES AND WEIGHT CLASSES FOR SHELL EGGS

56.220 General.
56.221 Grades.
56.222 Summary of grades.
56.223 Weight classes.

UNITED STATES WHOLESALE GRADES AND WEIGHT CLASSES FOR SHELL EGGS

56.225 General.
56.226 Grades.
56.227 Summary of grades.
56.228 Weight classes.

SUBPART A—GRADING AND INSPECTION OF SHELL EGGS

DEFINITIONS

§ 56.1 *Meaning of words.* Under the regulations in this part, words in the singular shall be deemed to import the plural and vice versa, as the case may demand.

§ 56.2 *Terms defined.* For the purpose of the regulations in this part, unless the context otherwise requires, the following terms shall be construed, respectively, as follows:

(a) "Act" means the applicable provisions of the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.), or any other act of Congress conferring like authority.

(b) "Administrator" means the Administrator of the Agricultural Marketing Service of the Department or any other officer or employee of the Department to whom there has heretofore been delegated, or to whom there may hereafter be delegated the authority to act in his stead.

(c) "Applicant" means an interested party who requests any grading service, appeal grading, or regrading with respect to any product.

(d) "Class" means any subdivision of a product based on essential physical characteristics that differentiate between major groups of the same kind, species, or method of processing.

(e) "Condition" means any condition (including, but not being limited to, the state of preservation, cleanliness, soundness, wholesomeness, or fitness for human food) of any product which affects its merchantability.

(f) "Department" means the United States Department of Agriculture.

(g) "Eggs of current production" means shell eggs which have moved through usual marketing channels since the time they were laid, and have not been held in refrigerated storage in excess of 60 days.

(h) "Grader" means any employee of the Department authorized by the Secretary, or any other person to whom a license has been issued by the Secretary, to investigate and certify, in accordance with the act and this part, to shippers of products and other interested parties the class, quality, quantity, and condition of such products.

(i) "Grading" or "grading service" means: (1) The act whereby a grader determines, according to the regulations in this part, the class, quality, quantity, or condition of any product by examining each unit thereof or each unit of the representative sample thereof drawn by a grader or sampler and issues a grading certificate with respect thereto, except that with respect to grading service performed on a contract basis the issuance of a grading certificate shall be pursuant to a request therefor by the applicant or the Service; (2) the act whereby the grader identifies, according to the regulations in this part, the graded product; (3) continuous supervision, in an official plant, of the handling or packaging of any product; and (4) any regrading or any appeal grading of a previously graded product.

(j) "Grading certificate" means a statement, either written or printed, issued by a grader pursuant to the act and this part, relative to the class, quantity, quality, or condition of products.

(k) "Inspector" means any employee of the Department authorized by the Secretary, or any other person to whom a license has been issued by the Secretary, to inspect and certify the condition of products.

(l) "Interested party" means any person financially interested in a transaction involving any grading, appeal grading, or regrading of any product.

(m) "National supervisor" means (1) the officer in charge of the egg grading service of the Agricultural Marketing Service, and (2) such other employee of the Service as may be designated by him.

(n) "Office of grading" means the office of any grader or sampler.

(o) "Official identification" means the symbol represented by a stamp, label, seal, mark, or other device approved by the Administrator, affixed to any product or to any container thereof, stating that the product was graded or inspected and indicating the class, quality, grade, or condition of such product as determined by a grader.

(p) "Official plant" means any plant in which the facilities and methods of operation therein have been found by the Administrator to be suitable and adequate for grading service in accordance with this part and in which grading service is carried on.

(q) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(r) "Product" or "products" means shell eggs of the domesticated chicken.

(s) "Quality" means the inherent properties of any product which determine its relative degree of excellence.

(t) "Regulations" means the provisions in this part.

(u) "Sampler" means any employee of the Department authorized by the Secretary, or any other person to whom a license has been issued by the Secretary, to draw samples of products for grading by a grader or for lot analysis under the act and this part.

(v) "Sampling" means the act of taking samples of any product for grading.

(w) "Sampling report" means a statement, either written or printed, issued by a sampler, identifying samples taken by him for grading.

(x) "Secretary" means the Secretary of the Department or any other officer or employee of the Department to whom there has heretofore been delegated, or to whom there may hereafter be delegated, the authority to act in his stead.

(y) "Service" means the Agricultural Marketing Service of the Department.

(z) "Supervisor of packaging" means any employee of the Department authorized by the Secretary, or any other person to whom a license has been issued by the Secretary, to supervise the packaging and grade labeling of products.

(aa) "Case" means, when referring to containers, an egg case, as used in commercial practice in the United States, holding 30 dozens of shell eggs.

ADMINISTRATION

§ 56.3 *Administration.* The Administrator shall perform, for and under the supervision of the Secretary, such duties as the Secretary may require in the enforcement or administration of the provisions of the act and this part. The Administrator is authorized to waive for limited periods any particular provisions of the regulations in this part to permit experimentation so that new procedures, equipment, and processing techniques may be tested to facilitate definite improvements and at the same time to determine full compliance with the spirit and intent of the regulations in this part.

GENERAL

§ 56.4 *Basis of grading service.* (a) Any grading service in accordance with the regulations in this part shall be for class, quality, quantity, or condition or any combination thereof. Grading service with respect to the determination of the quality of products shall be on the basis of the "United States Standards, Grades, and Weight Classes" as contained in Subpart C of this part. However, grading service may be rendered with respect to products which are bought and sold on the basis of institutional contract specifications and such service, when approved by the Administrator, shall be rendered on the basis of the specifications of such contract. The supervision of packaging shall be in accordance with such instructions as may be approved or issued by the Administrator.

(b) Unless otherwise approved by the area supervisor, continuous grading service in an official plant may be rendered only when a majority of the grader's time each month is utilized in performing grading for quality on the basis of the United States Standards set forth in Subpart C of this part.

(c) Whenever grading service is performed on a representative sample basis, such sample shall be drawn and consist of not less than the minimum number

of cases as indicated in the following table:

MINIMUM NUMBER OF CASES COMPRISING A REPRESENTATIVE SAMPLE

Case in lot:	Cases in sample
1 case	1
2 to 10, inclusive	2
11 to 25, inclusive	3
26 to 50, inclusive	4
51 to 100, inclusive	5
101 to 200, inclusive	8
201 to 300, inclusive	11
301 to 400, inclusive	13
401 to 500, inclusive	14
501 to 600, inclusive	16

For each additional 35 cases, or fraction thereof, in excess of 600 cases, one additional case shall be included in the sample.

§ 56.5 *Accessibility and condition of product.* (a) Each product for which grading service is requested shall be so conditioned and placed as to permit a proper determination of the class, quality, quantity, or condition of such product.

(b) Notwithstanding other applicable provisions of this part, product may be graded on the basis of a sample drawn by an employee of a public warehouse; and any certificate issued with respect to such product shall have the words "SAMPLE DRAWN BY WAREHOUSE EMPLOYEES," in all capital letters, typed thereon.

§ 56.6 *Supervision.* All grading service shall be subject to supervision at all times by the applicable State supervisor, circuit supervisor, area supervisor, and national supervisor. Such service shall be rendered where the facilities and conditions are satisfactory for the conduct of the service, and the requisite graders, inspectors, and samplers are available. Whenever the supervisor of a grader has evidence that such grader incorrectly graded a product, such supervisor shall take such action as is necessary to correct the grading and to cause any improper grade marks which appear on the product or the containers thereof to be corrected prior to shipment of the product from the place of initial grading.

§ 56.7 *Publications.* Publications under the act and this part shall be made in the FEDERAL REGISTER, the Service and Regulatory Announcements of the Department, and such other media as the Administrator may approve for the purpose.

§ 56.8 *Other applicable regulations.* Compliance with the regulations in this part shall not excuse failure to comply with any other Federal, or any State, or municipal applicable laws or regulations.

LICENSED GRADERS, INSPECTORS, SAMPLERS, AND SUPERVISORS OF PACKAGING

§ 56.10 *Who may be licensed.* (a) Except as otherwise provided in paragraph (c) of this section, any person possessing proper qualifications, as determined by an examination for competency, and who is to perform grading service may be licensed by the Secretary as a grader.

(b) All licenses issued by the Secretary shall be countersigned by the officer in charge of the poultry grading service of the Agricultural Marketing Service or any other designated officer of such Service.

(c) No person may be licensed to grade, inspect, or sample any product in which he is financially interested.

§ 56.11 *Limited license may be issued.* To any person possessing proper qualifications, as determined by the Administrator, there may be issued a limited license by the Secretary to candle and grade eggs on the basis of the "United States Standards for quality of Individual Shell Eggs," with respect to eggs purchased from producers or eggs to be packaged with official identification. No person to whom a limited license is issued by the Secretary shall have the authority to issue any grading certificate; and all eggs which are graded by any such person shall thereafter be check-graded by a grader. All limited licenses, issued by the Secretary, are to be countersigned by the officer in charge of the poultry grading service of the Agricultural Marketing Service or by any other official of such service designated by such officer.

§ 56.12 *Suspension of license.* Pending final action by the Secretary, the aforesaid officer in charge of the poultry grading service may, whenever he deems such action necessary, suspend any license or limited license issued pursuant to this part, by giving notice of such suspension to the respective licensee or limited licensee, accompanied by a statement of the reasons therefor. Within seven days after the receipt of the aforesaid notice and statement of reasons by such licensee or limited licensee, he may file an appeal in writing, with the Secretary supported by any argument or evidence that he may wish to offer as to why his license or limited license should not be suspended or revoked. After the expiration of the aforesaid seven day period and consideration of such argument and evidence, the Secretary will take such action as he deems appropriate with respect to such suspension or revocation. When no appeal is filed within the prescribed seven days, the license is revoked.

§ 56.13 *Cancellation of license.* Upon termination of his services as a grader, inspector, sampler, or supervisor of packaging, each licensee and limited licensee shall surrender his license immediately for cancellation.

§ 56.14 *Surrender of license.* Each license and each limited license which is cancelled, suspended, or has expired shall immediately be surrendered by the licensee or limited licensee to the office of grading serving the area in which he is located.

§ 56.15 *Political activity.* All graders, inspectors, and samplers are forbidden during the period of their respective appointments or licenses, to take an active part in political management or in political campaigns. Political activities in city, county, State, or national elections, whether primary or regular, or in behalf of any party or candidate, or any measure to be voted upon, is prohibited. This applies to all appointees, including, but not being limited to, temporary and cooperative employees, and employees on leave of absence with or without pay. Wilful violation of this section will constitute grounds for dismissal in the case of appointees and revocation of licenses in the case of licensees.

§ 56.16 *Identification.* All graders, inspectors, samplers, supervisors of packaging, and persons holding limited licenses shall each have in possession at all times, and present upon request, while on duty, the means of identification furnished by the Department to such person.

APPLICATION FOR GRADING, INSPECTION, AND SAMPLING

§ 56.20 *Who may obtain grading, inspection, and sampling service.* An application for grading, inspection, or sampling service may be made by any interested person, including, but not being limited to, the United States, any State, county, municipality, or common carrier, and any authorized agent of the foregoing.

§ 56.21 *How to make application for grading—*(a) *On a fee basis.* An application for any grading service may be made in any office of grading, or with any grader, sampler, or inspector at or nearest the place where the service is desired. Such application for service may be made orally (in person or by telephone), in writing, or by telegraph. If an application for grading service is made orally, the office of grading, grader, sampler, or inspector with whom such application is made, or the Administrator, may require that the application be confirmed in writing.

(b) *On a contract basis.* An application for continuous grading service on a contract basis to be rendered in an official plant must be made in writing on forms approved by the Administrator and filed with the Administrator.

§ 56.22 *Filing of application.* An application for grading, inspection, or sampling of a specified lot of any product shall be regarded as filed only when made pursuant to this part.

§ 56.23 *Form of application.* Each application for grading, inspecting, or sampling a specified lot of any product shall include such information as may be required by the Administrator in regard to the product and the premises where such product is to be graded, inspected, or sampled.

§ 56.24 *When application may be rejected.* An application for grading service, inspection service, or sampling service may be rejected by the Administrator (a) whenever the applicant fails to meet the requirements of the regulations prescribing the conditions under which the service is made available; (b) whenever the product is owned by or located on the premises of a person currently denied the benefits of the act; (c) where any individual holding office or a responsible position with or having a substantial financial interest or share in the applicant is currently denied the benefits of the act or was responsible in whole or in part for the current denial of the benefits of the act to any person; or (d) where he determines that the application is an attempt on the part of

a person currently denied the benefits of the act to obtain grading or inspection service. Each such applicant shall be promptly notified by registered mail of the reasons for the rejection. A written petition for reconsideration of such rejection may be filed by the applicant with the Administrator if postmarked or delivered within 10 days after the receipt of notice of the rejection. Such petition shall state specifically the errors alleged to have been made by the Administrator in rejecting the application. Within 20 days following the receipt of such a petition for reconsideration, the Administrator shall approve the application or notify the applicant by registered mail of the reasons for the rejection thereof.

§ 56.25 *When application may be withdrawn.* An application for grading service may be withdrawn by the applicant at any time before the service is performed upon payment, by the applicant, of all expenses incurred by the Service in connection with such application.

§ 56.26 *Authority of applicant.* Proof of the authority of any person applying for any grading service may be required at the discretion of the Administrator.

§ 56.27 *Order of service.* Grading service shall be performed, insofar as practicable, in the order in which applications therefor are made except that precedence may be given to any application for an appeal grading. The service shall not be liable in damages accruing through acts of commission or omission in the administrative of this part.

VIOLATIONS

§ 56.30 *Report of violations.* Each grader, inspector, sampler, and supervisor of packaging shall report, in the manner prescribed by the Administrator, all violations and noncompliances under the act and this part of which such grader, inspector, sampler, or supervisor of packaging has knowledge.

§ 56.31 *Denial of service.* (a) The following acts or practices may be deemed sufficient cause for the debarment of any person by the Administrator from any or all benefits of the act for a specified period, after notice and opportunity for hearing has been accorded him:

(1) *Misrepresentation, deceptive, or fraudulent act or practice.* Any wilful misrepresentation or any deceptive or fraudulent act or practice found to be made or committed by any person in connection with:

(i) The making or filing of any application for any grading service, inspection service, or sampling service, appeal, or regrading service;

(ii) The making of the product accessible for sampling, grading, or inspection;

(iii) The use of any grading certificate or inspection certificate issued pursuant to the regulations in this part or the use of any official stamp, label, or identification;

(iv) The use of the terms "United States," or "U. S." in conjunction with the grade of the product;

(v) The use of any of the aforesaid terms or an official stamp, label, or identification in the labeling or advertising of any product; or

(vi) The use of the terms "Government graded," "Federal-State graded," "U. S. Inspected," "Government inspected," or terms of similar import in the labeling or advertising of any product.

(2) *Use of facsimile forms.* The unauthorized use of a form which simulates in whole or in part any official certificate, stamp, label, or identification authorized to be issued or used under the regulations in this part to evidence the inspection or grade of any product.

(3) *Wilful violation of the regulations.* Any wilful violation of the regulations in this part.

(4) *Interfering with a grader or inspector.* Any interference with or obstruction of any grader or inspector in the performance of his duties by intimidation, threat, bribery, assault, or any other improper means.

(5) *Misleading labeling.* The use of the terms "Government graded," "Federal-State graded," or terms of similar import in the labeling of any product without stating in the label the U. S. grade of the product as determined by an authorized grader.

(6) *Miscellaneous.* The existence of any of the conditions set forth in § 56.24 constituting a basis for the rejection of an application for grading or inspection service.

(b) Whenever the Administrator has reason to believe that any person, or his employee, agent, or representative has flagrantly or repeatedly committed any of the acts or practices specified in paragraph (a) of this section, he may without hearing direct that the benefits of the act be denied such person pending investigation and hearing and shall give notice thereof by registered mail. A written petition for reconsideration of such interim denial may be filed with the Administrator by any person so denied the benefits of the act if postmarked or delivered within 10 days after notice of the interim denial. Such petition shall state specifically the errors alleged to have been made by the Administrator in denying the benefits of the act pending investigation and hearing. Within 20 days following the receipt of such a petition for reconsideration, the Administrator shall reinstate the benefits of the act or notify the petitioner by registered mail of the reasons for continued interim denial.

IDENTIFYING AND MARKING PRODUCTS

§ 56.35 *Authority to use official identification.* Whenever the Administrator determines that the granting of authority to any person to package any product, graded pursuant to this part, and to use official identification, pursuant to §§ 56.36 to 56.43, both inclusive, will not be inconsistent with the act and this part, he may authorize such use of official identification. An application for such authority shall be submitted to the Administrator in such form as he may require.

§ 56.36 *Approval of official identification.* Any label or packaging material which bears any official identification shall be used only in such manner as the Administrator may prescribe. No label or packaging material bearing official identification may be used unless finished copies or samples of such labels and packaging material have been approved by the Administrator. No label bearing the official identification shall be printed for use until the printer's final proof has been approved by the Administrator; and no label bearing any official identification shall be used until finished copies or samples of such label have been approved by the Administrator. A label which bears official identification shall not bear any statement that is false or misleading. If the label is printed or otherwise applied directly to the container, the principal display panel of such container shall for this purpose be considered as the label. The label shall contain the name and address of the packer or distributor of the product, the name of the product and a statement of the net contents of the container

§ 56.37 *Information required on grade mark.* Except as otherwise authorized, each grade mark which is to be used shall conspicuously indicate the letters "USDA," the U. S. grade of the product it identifies and if not shown prominently elsewhere on the labeling material, the appropriate weight class of the eggs. The plant number of the official plant where the eggs were graded and packed shall be set forth if it does not appear elsewhere on the packaging material. In addition, one of the following terms shall be included: "Graded Under Federal-State Supervision," or "Graded Under U. S. and (State) Supervision," or an appropriate term of similar import. Such grade marks shall be contained within the outline of a shield of such design as may be approved by the Administrator. When eggs have been graded pursuant to this part and are packaged, the grade mark affixed to each such package shall have stamped thereon the date of grading unless such label is printed on the carton, in which case the date of grading shall be legibly applied to the carton in a manner satisfactory to the Administrator.

§ 56.38 *Form of grade mark.* The grade mark permitted to be used to officially identify cartons containing one dozen shell eggs, which are graded pursuant to the regulations in this part, shall be contained in a shield of the form and design indicated in the examples in Figure 1 of this section. The information (including the form and arrangement of its wording) which is to be included in such marks shall be: (1) The letters "USDA," (2) the U. S. grade, such as, "U. S. A Grade," (3) the size or weight class of the product, such as, "large," and (4) shall include one of the following phrases: "Graded Under Federal-State Supervision," or "Graded Under U. S. and (State) Supervision," or a term of similar import. The grade mark shall be printed on the carton or on a label used to seal the carton. When the grade mark is printed on a tape used to seal the carton automatically, the size or weight class of the product may

be shown on the main panel of the carton rather than within the grade mark and in such instances the form of the grade mark shall be as indicated in Figure 2 of this section. The grade mark shall also include the plant number of the official plant where the product was packed, if the appropriate plant number does not appear elsewhere on the packaging material. In addition, the date the eggs were graded shall be shown either on the grade mark used to seal the carton or applied in a legible manner elsewhere on the carton and such date of the grading shall be expressed as the month and day or as the consecutive day of the year. The grade mark shall not be less than 1⅛ inches in height, and should not exceed 1¾ inches in height. The size of the letters designating the grade and size shall be not less than ¼ inch in height. The size of the print and the arrangement of the other information within the shield shall be in approximately the same proportion as is shown in the examples in Figures 1 and 2 of this section.

FIGURE 1.

FIGURE 2.

PREREQUISITES TO PACKAGING PRODUCTS WITH GRADE IDENTIFICATION LABELS

§ 56.40 *Supervisor of packaging required.* The official identification of any graded or inspected product, as provided in §§ 56.36 to 56.43, both inclusive, shall be done only under the supervision of a grader, inspector, or supervisor of packaging. The authority to use grade identification labels may be granted by the Administrator only to applicants who make the services of a grader, inspector, or supervisor of packaging available for use in accordance with this part. The grader, inspector, or supervisor of packaging shall have supervision over the use and handling of all material bearing any official identification.

§ 56.41 *Candling and grading requirements of shell eggs for packaging with grade identification labels.* Shell eggs shall not be packaged with any grade identification label unless such eggs are first candled and graded (a) by a grader, or (b) by a limited licensee, pursuant to § 56.11 and thereafter check-graded by a grader.

§ 56.42 *Check-grading officially identified eggs.* Shell eggs which have been officially graded and which bear a grade mark or grade identification label, if temporarily held at the place where graded in excess of four days from the time they were graded, shall be check-graded prior to shipment from the place of initial grading. Such check-grading shall be in addition to any check-gradings which are made to determine the initial grade of the lot.

§ 56.43 *Limitations applicable to grade marking consumer packages of A and AA grade eggs.* Eggs which are to be grade marked as U. S. A or AA grade and packed in consumer packages shall be packed from eggs of current production. Eggs possessing undesirable odors and flavors shall not be officially identified as U. S. Grade A or AA.

FEES AND CHARGES

§ 56.45 *Payment of fees and charges.* (a) Fees and charges for any grading service shall be paid by the interested party making the application for such grading service, in accordance with the applicable provisions of this section and §§ 56.46 to 56.53, both inclusive; and, if so required by the grader, inspector, or sampler, such fees and charges shall be paid in advance.

(b) Fees and charges for any grading service shall, unless otherwise required pursuant to paragraph (c) of this section, be paid by the interested party making application for such grading service by check, draft, or money order payable to the Treasurer of the United States and remitted promptly to the Service.

(c) Fees and charges for any grading service under a cooperative agreement with any State or person shall be paid in accordance with the terms of such cooperative agreement by the interested party making application for any such grading service.

§ 56.46 *On a fee basis.* (a) Unless otherwise provided in this part, the fees to be charged and collected for any service (other than for an appeal grading) performed, in accordance with this part, on a fee basis shall be based on the applicable rates specified in § 56.50.

(b) In the event the aforesaid applicable rates are deemed by the Administrator to be inadequate fully to reimburse the Service for all costs and other items paid or incurred by the Service in connection with such service, the fees for such service shall not be based on the rates specified in § 56.50, but shall be based on the time required to perform such service and the travel of each sampler, grader, inspector, and supervisor of packaging at the rate of $4.00 per hour for the time actually required.

(c) If an applicant requests that any grading service be performed on a holiday or a non-work day, he may be charged for such service at a rate one and one-half times the rate which would otherwise be applicable for such service if performed other than on a holiday or non-work day.

§ 56.47 *Fees for appeal grading.* The fees to be charged for any appeal grading shall be double the fee specified in the grading certificate from which the appeal is taken: *Provided*, That, the fee for any appeal grading requested by the United States, or any agency or instrumentality thereof, shall be the same as set forth in the grading certificate from which the appeal is taken. If the fee on the certificate from which the appeal is taken is based on a contract, then the fee for such appeal grading shall be double the amount specified in § 56.50 for the applicable volume of product appeal graded. If the result of any appeal grading discloses that a material error was made in the grading appealed from, no fee shall be required.

§ 56.48 *Fees for additional copies of grading certificates.* Additional copies of any grading certificates, other than those provided for in § 56.57, may be supplied to any interested party upon payment of a fee of $1.50 for each set of five or fewer copies.

§ 56.49 *Travel expenses and other charges.* Charges shall be made to cover the cost of travel and other expenses incurred by the Service in connection with the performance of any grading service. Such charges shall include the costs of travel, per diem, and other expenses, plus a charge of 10 percent of the amount charged for said travel, per diem, and other expenses to cover administrative costs of the Department. When travel and other expenses are incurred in connection with any grading the minimum charge which shall be made shall be $0.50.

§ 56.50 *Egg grading fees.* For each grading, or regrading pursuant to § 56.60, of any lot of eggs, the following fees shall be applicable and shall be computed on the basis of the number of packages in such lot, except in instances where more than one lot of eggs is involved in a single grading for contract acceptance of products to be delivered to an individual receiver the charge for examining each lot in excess of one may be based on the time required at the rate specified in § 56.46 (b):

	Fee
For 10 packages or less	$1.80
For 11 to 25 packages, inclusive	3.00
For 26 to 50 packages, inclusive	4.00
For 51 to 100 packages, inclusive	5.50
For 101 to 200 packages, inclusive	8.50
For 201 to 300 packages, inclusive	11.50
For 301 to 400 packages, inclusive	13.50
For 401 to 500 packages, inclusive	15.50
For 501 to 600 packages, inclusive	17.50
For each additional 35 packages, or fraction thereof, in excess of 600 packages	1.00

§ 56.51 *Additional charges.* With respect to any grading service performed in a freight or express car or any other place where the entire lot of the product is not readily accessible to the grader, inspector, or sampler, if the time required for the performance of such service is greater than would otherwise be required if the entire lot were readily accessible, as aforesaid, a fee of $4.00 shall be

charged in addition to the applicable rates specified in § 56.50.

§ 56.52 *On a contract basis.* Fees to be charged and collected for any service, other than for an appeal grading, on a contract basis shall be such as are provided in such contract. The fees to be charged for any appeal grading shall be as provided in § 56.47.

§ 56.53 *Fees for grading service performed under cooperative agreement.* The fees to be charged and collected for any service performed under cooperative agreement shall be those provided for by such agreement.

GRADING CERTIFICATES

§ 56.55 *Grading certificates and sampling report forms.* Grading certificates and sampling report forms shall be issued on forms approved by the Administrator.

§ 56.56 *Grading certificate issuance.* Each grader shall issue a grading certificate covering each product graded except that with respect to grading service performed on a contract basis the issuance of a grading certificate shall be pursuant to a request therefor by the applicant or the Service. A grader shall not sign any certificate covering any product not graded by him.

§ 56.57 *Disposition of grading certificates.* The original of any grading certificate, issued pursuant to § 56.56, and not to exceed three copies thereof, shall, immediately upon issuance, be delivered or mailed to the applicant or person designated by him. One copy shall be filed in the office of grading serving the area in which the grading service was performed, and all other copies shall be filed in such manner as the Administrator may approve. Additional copies of any such certificate may be supplied to any interested party as provided in § 56.48.

§ 56.58 *Advance information.* Upon request of an applicant, all or part of the contents of any grading certificate issued to such applicant may be telephoned or telegraphed to him, or to any person designated by him, at his expense.

REGRADING AND APPEAL GRADING

§ 56.60 *Regrading of a graded product*—(a) *Application for regrading.* An application for a regrading may be made by any interested party who questions the representativeness of the sample upon which a previous grading was made, if the identity of the product has not been lost, and the product has not been subjected to conditions which may have caused a change in the product. Such application shall be made within two days following the day on which the grading was performed. Upon approval of the Administrator, the time within which such application for a regrading may be made may be extended. An application for a regrading may be granted only after the original grading certificate covering the product in question has been surrendered by the applicant to the Service.

(b) *Regrading procedure.* A regrading of a previously graded lot shall be made by examining an additional sample drawn from the product in question. The additional sample shall be not less than the minimum number of cases specified in § 56.4 (c). The grade assigned to the regraded product shall be determined on the basis of the averaged findings of both the original and regrade samples.

(c) *Regrading certificate.* Immediately after a regrading has been completed, a regrading certificate shall be issued showing the results of such regrading; and such certificate shall supersede the grading certificate previously issued for the product involved. Each regrading certificate shall clearly identify the number and date of the grading certificate it supersedes, and such supersedure shall be effective as of the time of issuance of such regrading certificate. The provisions of §§ 56.55 to 56.58, both inclusive, shall, whenever applicable, also apply to regrading certificates except that copies of such regrading certificates shall be furnished each interested party of record.

§ 56.61 *When appeal grading may be requested.* An application for an appeal grading may be made by any interested party who is dissatisfied with any determination stated in any grading certificate, if the identity of the samples, or the product, has not been lost; and such application for an appeal grading shall be made within two days following the day on which the grading was performed. Upon approval by the Administrator, the time within which an application for an appeal grading may be made may be extended.

§ 56.62 *How to obtain appeal grading.* Appeal grading may be obtained by filing a request therefor (a) with the Administrator, (b) with the grader or inspector who issued the grading certificate with respect to which the appeal grading is requested, (c) with the immediate superior of such grader or inspector, or (d) with the officer in charge of any office of grading. The application for appeal grading shall state the reasons therefor and may be accompanied by a copy of the aforesaid grading certificate or any other information the applicant may have secured regarding the product, at the time of grading, from which the appeal is requested. Such application may be made orally (in person or by telephone), in writing, or by telegraph. If made orally, written confirmation may be required.

§ 56.63 *Record of filing time.* A record showing the date and hour when each such application for appeal grading is received shall be maintained in such manner as the Administrator may prescribe.

§ 56.64 *When an application for an appeal grading may be refused.* If it appears to the Administrator that the reasons for an appeal grading are frivolous or not substantial, or that the quality or condition of the products has undergone a material change since the grading from which the appeal is made, or the identical products graded cannot be made accessible for regrading, or the act or this part has not been complied with, the Administrator may refuse the applicant's request for the appeal grading; and such applicant shall be promptly notified of the reasons for such refusal.

§ 56.65 *When an application for an appeal grading may be withdrawn.* An application for appeal grading may be withdrawn by the applicant at any time before the appeal grading is made upon payment, by the applicant, of all expenses incurred by the Service in connection with such application.

§ 56.66 *Order in which appeal gradings are performed.* Appeal gradings shall be performed, insofar as practical, in the order in which applications therefor are received; and any such application may be given precedence pursuant to § 56.27.

§ 56.67 *Who shall make appeal gradings.* An appeal grading of any graded product shall be made by any grader (other than the one from whose grading the appeal is made) designated for this purpose by the Administrator; and, whenever practical, such appeal grading shall be conducted jointly by two such graders.

§ 56.68 *Appeal grading certificate.* Immediately after an appeal grading has been completed, an appeal grading certificate shall be issued showing the results of such appeal grading; and such certificate shall supersede the grading certificate previously issued for the product involved. Each appeal grading certificate shall clearly identify the number and date of the grading certificate which it supersedes; and such certificate shall thereupon supersede the grading certificate for the product involved, and such supersedure shall be effective as of the time of issuance of the grading certificate with respect to which the appeal is made. The provisions of §§ 56.55 to 56.58, both inclusive, shall, whenever applicable, also apply to appeal grading certificates except that copies of such appeal grading certificates shall be furnished each interested party of record.

§ 56.69 *Superseded certificates.* Whenever any grading certificate is superseded in accordance with this part, such certificate shall become null and void and, after the effective time of the supersedure, shall no longer represent the class, quality, quantity, or condition of the product described therein. If the original and all copies of such superseded certificate are not delivered to the person issuing the regrading or appeal grading certificate, he shall notify such persons as he considers necessary to prevent fraudulent use of the superseded certificate.

FACILITY REQUIREMENTS

§ 56.75 *Applicability of facility and operating requirements.* The provisions of § 56.76 shall become effective January 1, 1956, and shall apply to grading service with respect to shell eggs that are graded and packed in consumer packages (such as one-dozen cartons) and which bear a grade mark. The provisions of § 56.76 also shall be applicable to any grading service that is provided on a resident or contract basis.

§ 56.76 *Minimum facility and operating requirements for shell egg grading and packing plants*—(a) *General requirements for buildings and plant facilities.* (1) Buildings shall be of sound construction so as to prevent, insofar as practicable, the entrance or harboring of vermin.

(2) Grading and packing rooms shall be of sufficient size to permit installation of necessary equipment and the conduct of grading and packing in a sanitary manner. These rooms shall be kept reasonably clean during grading and packing operations and shall be thoroughly cleaned at the end of each operating day.

(3) Adequate lavatory and toilet accommodations shall be provided; and toilet and locker rooms shall be kept in a clean and sanitary condition.

(b) *Grading room requirements.* The grading room shall be adequately darkened to make possible accurate quality determination of the candled appearance of eggs.

(1) There shall be no crossbeams of light, and light reflection from candling lights shall be kept at a minimum.

(2) Candling benches shall be constructed so as to permit cleaning and provide ample shelf space for convenient placement of the different grades to be packed.

(3) The candling lights shall be capable of delivering reasonably uniform intensity of light at the candling aperture to facilitate accurate quality determinations; and the lights shall provide ample case light for detection of stained and dirty shells and the condition of the packing material.

(4) Individual egg scales shall be provided to check accuracy of weight classing.

(5) Weighing equipment, whether manual or automatic, shall be protected against dust and shall be capable of ready adjustment.

(6) Adequate ventilation shall be provided.

(c) *Cooler room requirements.* (1) Cooler rooms shall have refrigeration facilities capable of reducing within 24 hours and holding the maximum volume of eggs handled to 50° F., if eggs are to be held not longer than one week. If eggs are held for longer periods than one week, refrigeration facilities sufficient to hold the eggs at 40° F. or below are required.

(2) Cooler rooms shall be free from objectionable odors and from mold, and shall be maintained in a sanitary condition.

(d) *Shell egg treating operations.* Shell egg treating (oil processing) operations shall be conducted in a manner as will avoid contamination of the product and maximize conservation of its quality.

(1) Eggs with apparent moisture on the shell shall not be shell treated.

(2) The processing oil shall always be warmer than the eggs.

(3) Oil having any off odor, or that is obviously contaminated, shall not be used in shell egg treatment.

(4) Processing oil that has been previously used and which has become contaminated shall be filtered and heat treated at 180° F. for three minutes prior to use.

(5) Shell egg processing equipment shall be washed, rinsed, and treated with a bactericidal agent each time the oil is removed. It is preferable to filter and heat treat processing oil, and clean processing equipment daily when in use.

(6) Adequate coverage and protection against dust and dirt shall be provided when the equipment is not in use.

(e) *Shell egg cleaning operations.* (1) Shell egg cleaning equipment shall be kept in good repair and shall be cleaned after each day's use or more frequently if necessary.

(2) The wash water temperature shall always be warmer than the eggs.

(3) The wash water shall be replaced frequently and the detergent and sanitizer shall be kept at an effective level at all times.

(4) Washed eggs shall be dry before casing.

(f) *Requirements for eggs to be officially grade marked.* (1) Shell eggs which are to bear the official grade mark shall meet the following temperature requirements: They shall be cooled or tempered to within 45° F. to 70° F. before the official grading is made. Eggs which are to be temporarily held in the plant shall be placed under refrigeration of 50° F. or below within 24 hours after grading. If held longer than one week, they shall be held at 40° F. or below.

(2) Every reasonable precaution shall be exercised to prevent "sweating" of eggs.

(3) Only new or good used (free from obvious stains, mold, dirt, off odor, or breakage, and of sufficient strength and durability to adequately protect the product during normal distribution) packing materials and cases shall be used for eggs which are officially identified.

SUBPART B—FORMS AND INSTRUCTIONS

APPLICATION FOR GRADING SERVICE

§ 56.100 *Application for grading service with respect to shell eggs.*

Application is hereby made, in accordance with the applicable provisions of the regulations (7 CFR Part 56) governing the grading and inspection of shell eggs and the United States standards, grades, and weight classes for shell eggs, for grading service to be performed at the plant hereinafter designated:

(Name of plant) (Street address)

(City and State)

(a) Upon approval of this application by the Agricultural Marketing Service, United States Department of Agriculture (hereinafter referred to as "AMS"), AMS will furnish grading service in accordance with the terms and conditions hereof.

(b) In making this application, the applicant agrees to comply with the terms and conditions of the aforesaid regulations (including such applicable instructions as may be issued from time to time by the Administrator), and such other conditions as hereinafter enumerated.

(c) The applicant agrees to pay for the full cost of the grading service covered hereby to AMS at the time the respective invoices are rendered by AMS. The full costs shall comprise such of the following items as may be due and may be included, from time to time, in the invoices covering the period or periods during which the grading service may be rendered:

(i) A charge of $4.00 per hour and expenses for the initial survey of the designated plant and its premises prior to the performance by the Service of the grading service covered hereby;

(ii) A charge of $100.00 for the final survey and inauguration of the grading service including the assignment of one grader and one alternate grader;

(iii) A charge of $50.00 for each additional grader or replacement of a previously assigned grader to the designated plant: *Provided*, That, in the sole discretion of the Service no such charge will be made for a temporary replacement when such replacement is made by the use of a regular employee of the Service, or when the replacement is made necessary by the transfer of an employee of the Service for the sole benefit of the Service.

(iv) A charge equal to the salary costs paid to each grader assigned to the applicant's plant by AMS, including earned annual leave and, if necessary, earned sick leave: *Provided*, That, no charge is to be made for salary costs of any assigned grader of the designated plant while temporarily reassigned by AMS to perform grading service for other than the applicant except when the assigned grader is performing inspections for the Department of Defense on products accepted for delivery by the applicant to the Department of Defense, in which case the applicant will be given credit for the service rendered based on a formula concurred in jointly by the Departments of Defense and Agriculture.

(v) A charge equal to the salary costs, travel expenses and per diem paid by AMS to any grader whose services are required for relief purposes when regular graders are on annual or sick leave;

(vi) A charge for the actual cost to AMS of any travel and per diem incurred by each grader assigned to the plant while in the performance of grading service rendered the applicant;

(vii) A charge, at the sole discretion of AMS, of an amount not in excess of the actual cost to AMS of the travel (including the cost of movement of household goods and dependents) and per diem with respect to each grader who is transferred from an official station to the designated plant;

(viii) A charge included in salary costs equal to the Employer's tax imposed under the United States Internal Revenue Code (26 U. S. C.) for Old Age and Survivor's benefits under the Social Security System; and

(ix) An administrative service charge based upon the aggregate number of thirty-dozen cases of shell eggs handled in the plant per month, and computed in accordance with the following table:

COMPUTATION OF ADMINISTRATIVE SERVICE CHARGES

0 to 500 cases	$25.00
501 to 1,750 cases	33.25
1,751 to 2,750 cases	38.00
2,751 to 3,750 cases	42.75
3,751 to 5,000 cases	47.50
5,001 to 6,000 cases	52.25
6,001 to 7,000 cases	57.00
7,001 to 8,000 cases	61.75
8,001 to 9,000 cases	66.50
9,001 to 10,000 cases	71.25
10,001 to 11,000 cases	76.00
11,001 to 12,000 cases	80.75
12,001 to 13,000 cases	85.50
13,001 to 14,000 cases	90.25
14,001 and over	95.00

(x) A charge of $4.00 per hour plus actual costs to AMS for per diem and travel costs incurred in rendering services not specifically covered by this contract; such as, surveys in addition to the initial and final.

(d) The applicant shall designate, in writing, the employees of the applicant who will be required and authorized, to furnish each grader with such information as may be necessary for the performance of the grading service.

It is agreed that:

(a) AMS will provide an adequate number of graders to perform the grading service covered hereby;

(b) At the sole discretion of AMS the graders may be either a Federal or State employee or a licensed employee of the applicant;

(c) AMS shall not be responsible for damages accruing through any acts of commission or omission on the part of any grader;

(d) The provisions hereof shall continue in full force and effect from its effective date until suspended, withdrawn, or terminated, by (i) mutual consent of the applicant and AMS, (ii) written notice given by either party to the other to take effect on a specific date not less than 30 days from the date of the giving of such notice; (iii) one (1) day's written notice by AMS to the applicant, if the applicant fails to honor any invoice within thirty (30) days after date of invoice covering the cost of the grading service as herein provided; or (iv) termination of the services requested herein pursuant to the provisions in the following paragraph (e);

(e) The services to be rendered hereunder shall be terminated by AMS at any time AMS, acting pursuant to any applicable laws, rules, or regulations, debars the applicant from receiving any further benefits of the service, or the services hereunder may be suspended or terminated at any time AMS concludes that the applicant has not conformed, or cannot conform, hereto;

(f) All terms used herein shall have the same meaning as when used in the aforesaid regulations and instructions;

(g) A federally employed grader will be required to confine his activities to those duties necessary in the rendering of grading service and such closely related activities as may be approved by AMS: *Provided*, That, in no instance will the federally employed grader assume the duties of management;

(h) No member of or Delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of this agreement or to any benefit that may arise therefrom unless derived through the agreement made with a corporation for its general benefit.

§ 56.101 *Application for the privilege to use official identification and grade labels on consumer packages of graded products.*

Application is hereby made, in accordance with the provisions of the regulations (7 CFR Part 56) governing the grading and inspection of shell eggs and the United States standards, grades, and weight classes for shell eggs, for the privilege of using, subject to such regulations, official identification and grade labels on consumer packages of shell eggs.

In requesting this privilege, the applicant agrees to conform to the aforesaid regulations and such instructions covering grading and inspection of shell eggs as may be issued by the Administrator of the Agricultural Marketing Service. The applicant further agrees to furnish the official identification and grade labels at no cost to the Government, and to place them in the custody of the supervisor of packaging or grader who is designated for such purpose by the Administrator.

The applicant further agrees not to package any graded product bearing official identification or grade label under a trade name other than that of the applicant unless such trade name is submitted, together with the proper address, to the Administrator at the time approval is requested of the cartons, packaging material, grade labels, and official identification to be used in packaging such graded shell eggs.

In the event the privilege to use official identification or grade labels on graded products is withdrawn in accordance with the applicable provisions of the regulations, the applicant agrees promptly to deliver or cause to be delivered into the custody of the immediate superior officer of the grader or supervisor of packaging all supplies of the official identification and of the grade labels, together with all packaging and packing materials bearing printed reference to the graded character of the products for such subsequent use by the applicant as may be approved by the Administrator.

All terms which are used herein shall have the meaning applicable to such terms when used in the aforesaid regulations.

This application is submitted in triplicate.

SUBPART C—UNITED STATES STANDARDS, GRADES, AND WEIGHT CLASSES FOR SHELL EGGS

UNITED STATES STANDARDS FOR QUALITY OF INDIVIDUAL SHELL EGGS

§ 56.200 *Application.* (a) The United States standards for quality of individual shell eggs contained in this subpart are applicable only to eggs that are the product of the domesticated chicken hen and are in the shell. Such standards are with respect to individual eggs with clean or dirty unbroken shells, and checked or cracked shells.

(b) Interior egg quality specifications for these standards are based on the apparent condition of the interior contents of the egg as it is twirled before the candling light. Any type or make of candling light may be used that will enable the particular grader to make consistently accurate determinations of the interior quality of shell eggs. It is desirable to break out an occasional egg and, by use of the USDA color chart "Interior Quality of Eggs," compare the broken-out and candled appearance, thereby aiding in correlating candled and broken-out appearance.

§ 56.201 *AA Quality.* The shell must be clean, unbroken, and practically normal. The air cell must not exceed $\frac{1}{8}$ inch in depth and be practically regular. The white must be clear and firm so that the yolk appears well centered and its outline only slightly defined when the egg is twirled before the candling light. The yolk must be free from apparent defects.

§ 56.202 *A Quality.* The shell must be clean, unbroken, and practically normal. The air cell must not exceed $\frac{3}{16}$ inch in depth and must be practically regular. The white must be clear and at least reasonably firm so that the yolk appears at least fairly well centered and its outline only fairly well defined when the egg is twirled before the candling light. The yolk must be practically free from apparent defects.

§ 56.203 *B Quality.* The shell must be unbroken and may be slightly abnormal and may show slight stains but no adhering dirt, provided, that they do not appreciably detract from the appearance of the egg. When the stain is localized, approximately $\frac{1}{16}$ of the shell surface may be slightly stained, and when the slightly stained areas are scattered, approximately $\frac{1}{8}$ of the shell surface may be slightly stained. The air cell must not exceed $\frac{3}{8}$ inch in depth, may show unlimited movement, and may be free but not bubbly. The white must be clear and may be slightly weak so that the yolk may appear off-center, with its outline well defined when the egg is twirled before the candling light. The yolk may appear slightly enlarged or slightly flattened and may show other definite, but not serious, defects.

§ 56.204 *C Quality.* The shell must be unbroken and may be abnormal and may have slight to moderate stained areas but no adhering dirt. Prominent stains are not permitted. The air cell may be over $\frac{3}{8}$ inch in depth and be free or bubbly. The white may be weak or watery so that the yolk may appear off-center and its outline plainly visible when the egg is twirled before the candling light. The yolk may appear dark, enlarged, and flattened, and may show clearly visible germ development but no blood due to such development. It may show other serious defects that do not render the egg inedible. Small blood clots or spots may be present.

§ 56.205 *Dirty.* The shell must be unbroken and it has adhering dirt or prominent stains.

§ 56.206 *Check.* An individual egg that has a broken shell or crack in the shell but with its shell membranes intact and its contents do not leak.

§ 56.207 *Leaker.* An individual egg that has a crack or break in the shell and shell membranes to the extent that the egg contents are exuding or free to exude through the shell. An egg which has a portion of the shell missing (in excess of an area ¼ inch square) is considered a leaker even though the shell membrane is intact.

§ 56.208 *Terms descriptive of shell.* (a) *Clean.* A shell that is free from foreign material and from stains or discolorations that are readily visible. An egg may be considered clean if it has only very small specks or stains, if such specks or stains are not of sufficient number or intensity to detract from the generally clean appearance of the egg. Eggs that show traces of processing oil on the shell are considered clean unless otherwise soiled.

(b) *Dirty.* A shell which has dirt adhering to its surface or which has prominent stains.

(c) *Practically normal.* A shell that approximates the usual shape and that is of good even texture and strength and is free from rough areas or thin spots. Slight ridges and rough areas that do not materially affect the shape, texture, and strength of the shell are permitted.

(d) *Slightly abnormal.* A shell that may be somewhat unusual in shape or that may be slightly faulty in texture or strength. It may show definite ridges but no pronounced thin spots or rough areas.

(e) *Abnormal.* A shell that may be decidedly misshapen or faulty in texture or strength or that may show pronounced ridges, thin spots, or rough areas.

§ 56.209 *Terms descriptive of the air cell.* (a) *Depth of air cell (air space between shell membranes, normally in the large end of the egg).* The depth of the air cell is the distance from its top to its bottom when the egg is held air cell upward.

(b) *Practically regular.* An air cell that maintains a practically fixed position in the egg and shows a fairly even outline with not more than $\frac{3}{16}$-inch movement in any direction as the egg is rotated.

(c) *Free air cell.* An air cell that moves freely toward the uppermost point in the egg as the egg is rotated slowly.

(d) *Bubbly air cell.* A ruptured air cell resulting in one or more small separate air bubbles usually floating beneath the main air cell.

§ 56.210 *Terms descriptive of the white.* (a) *Clear.* A white that is free from discolorations or from any foreign bodies floating in it. (Prominent chalazas should not be confused with foreign bodies such as spots or blood clots.)

(b) *Firm.* A white that is sufficiently thick or viscous to permit but limited movement of the yolk from the center of the egg, thus preventing the yolk outline from being more than slightly defined or indistinctly indicated when the egg is twirled.

(c) *Reasonably firm.* A white that is somewhat less thick or viscous than a firm white. A reasonably firm white permits the yolk to move somewhat more freely from its normal position in the center of the egg and approach the shell more closely. This would result in a fairly well defined yolk outline when the egg is twirled.

(d) *Slightly weak.* A white that is lacking in thickness or viscosity to an extent that permits the yolk to move quite freely from its normal position in the center of the egg. A slightly weak white will cause the yolk outline to appear well defined when the egg is twirled.

(e) *Weak and watery.* A white that is thin and generally lacking in viscosity. A weak and watery white permits the yolk to move freely from the center of the egg and to approach the shell closely, thus causing the yolk outline to appear plainly visible and dark when the egg is twirled.

(f) *Blood clots and spots (not due to germ development).* Blood clots or spots on the surface of the yolk or floating in the white. These blood clots may have lost their characteristic red color and appear as small spots or foreign material commonly referred to as meat spots. If they are small (aggregating not more than $\frac{1}{8}$ inch in diameter), the egg may be classed as "C Quality." If larger, or showing diffusion of blood in the white surrounding them, the egg shall be classified as loss.

(g) *Bloody white.* An egg, the white of which has blood diffused through it. Such a condition may be present in newlaid eggs. Eggs with bloody whites are classed as loss.

§ 56.211 *Terms descriptive of the yolk.* (a) *Well centered.* A yolk that occupies the center of the egg and moves only slightly from that position as the egg is twirled.

(b) *Fairly well centered.* A yolk that is not more than one-fourth of the distance from its normal central position toward the ends of the egg and swings not more than one-half of the distance from its normal position toward the sides of the egg as it is twirled.

(c) *Off center.* A yolk which is distinctly above or below center and swings close to the sides of the egg as it is twirled.

(d) *Outline slightly defined.* A yolk outline that is indistinctly indicated and appears to blend into the surrounding white as the egg is twirled.

(e) *Outline fairly well defined.* A yolk outline that is discernible but not clearly outlined as the egg is twirled.

(f) *Outline well defined.* A yolk outline that is quite definite and distinct as the egg is twirled.

(g) *Outline plainly visible.* A yolk outline that is clearly visible as a dark shadow when the egg is twirled.

(h) *Slightly enlarged and slightly flattened.* A yolk in which the yolk membranes and tissues have weakened somewhat causing it to appear slightly enlarged and slightly flattened.

(i) *Enlarged and flattened.* A yolk in which the yolk membranes and tissues have weakened and moisture has been absorbed from the white to such an extent that it appears definitely enlarged and flat.

(j) *Free from defects.* A yolk that shows no spots or areas on its surface indicating the presence of germ development or other defects.

(k) *Practically free from defects.* A yolk that shows no germ development but may show other very slight defects on its surface.

(l) *Definite but not serious defects.* A yolk that may show definite spots or areas on its surface but with only slight indication of germ development or other pronounced or serious defects.

(m) *Other serious defects.* A yolk that shows well developed spots or areas and other serious defects, such as olive yolks, which do not render the egg inedible.

(n) *Clearly visible germ development.* A development of the germ spot on the yolk of a fertile egg that has progressed to a point where it is plainly visible as a definite circular area or spot with no blood in evidence.

(o) *Blood due to germ development.* Blood caused by development of the germ in a fertile egg to the point where it is visible as definite lines or as a blood ring. Such an egg is classified as inedible.

§ 56.212 *General terms.* (a) *Loss.* An egg that is inedible, smashed, or broken so that contents are leaking, cooked, frozen, contaminated, or containing bloody whites, large blood spots, large unsightly meat spots, or other foreign material.

(b) *Inedible eggs.* Eggs of the following descriptions are classed as inedible: black rots, white rots, mixed rots (addled eggs), sour eggs, eggs with green whites, eggs with stuck yolks, moldy eggs, musty eggs, eggs showing blood rings, eggs containing embryo chicks (at or beyond the blood ring stage), and any eggs that are adulterated as such term is defined pursuant to the Federal Food, Drug, and Cosmetic Act.

UNITED STATES CONSUMER GRADES AND WEIGHT CLASSES FOR SHELL EGGS

§ 56.215 *General.* (a) These grades are applicable to edible shell eggs in "lot" quantities rather than on an "individual" egg basis. A lot may contain any quantity of 2 or more eggs. Reference in these standards to the term "case" means 30 dozen egg cases as used in commercial practice in the United States.

(b) Terms used in this part that are defined in the United States standards for quality of individual shell eggs (§ 56.200 et seq.) have the same meaning in this part as in those standards.

(c) An aggregate tolerance of 20 percent is permitted within each consumer grade only as an allowance for variable efficiency and interpretation of graders, normal changes under favorable conditions during reasonable periods between grading and inspection, and reasonable variation of inspector's interpretation.

(d) Substitution of higher qualities for the lower qualities specified is permitted.

§ 56.216 *Grades.* (a) "U. S. Consumer Grade AA" shall consist of eggs of which at least 80 percent are AA Quality. Within the maximum tolerance of 20 percent, which may be below AA Quality, not more than 5 percent may be of the qualities below A, in any combination, but not including Dirties and Leakers.

(b) "U. S. Consumer Grade A" shall consist of eggs of which at least 80 percent are A Quality or better. Within the maximum tolerance of 20 percent which may be below A Quality, not more than 5 percent may be of the qualities below B, in any combination but not including Dirties and Leakers.

(c) "U. S. Consumer Grade B" shall consist of eggs of which at least 80 percent are B Quality or better. Within the maximum tolerance of 20 percent which may be below B Quality, 10 per-

(d) The applicant shall designate, in writing, the employees of the applicant who will be required and authorized, to furnish each grader with such information as may be necessary for the performance of the grading service.

It is agreed that:

(a) AMS will provide an adequate number of graders to perform the grading service covered hereby;

(b) At the sole discretion of AMS the graders may be either a Federal or State employee or a licensed employee of the applicant;

(c) AMS shall not be responsible for damages accruing through any acts of commission or omission on the part of any grader;

(d) The provisions hereof shall continue in full force and effect from its effective date until suspended, withdrawn, or terminated, by (i) mutual consent of the applicant and AMS, (ii) written notice given by either party to the other to take effect on a specific date not less than 30 days from the date of the giving of such notice; (iii) one (1) day's written notice by AMS to the applicant, if the applicant fails to honor any invoice within thirty (30) days after date of invoice covering the cost of the grading service as herein provided; or (iv) termination of the services requested herein pursuant to the provisions in the following paragraph (e);

(e) The services to be rendered hereunder shall be terminated by AMS at any time AMS, acting pursuant to any applicable laws, rules, or regulations, debars the applicant from receiving any further benefits of the service, or the services hereunder may be suspended or terminated at any time AMS concludes that the applicant has not conformed, or cannot conform, hereto;

(f) All terms used herein shall have the same meaning as when used in the aforesaid regulations and instructions;

(g) A federally employed grader will be required to confine his activities to those duties necessary in the rendering of grading service and such closely related activities as may be approved by AMS: *Provided*, That, in no instance will the federally employed grader assume the duties of management;

(h) No member of or Delegate to Congress, or Resident Commissioner, shall be admitted to any share or part of this agreement or to any benefit that may arise therefrom unless derived through the agreement made with a corporation for its general benefit.

Agricultural Marketing Service,
U. S. Department of Agriculture.

§ 56.101 *Application for the privilege to use official identification and grade labels on consumer packages of graded products.*

Application is hereby made, in accordance with the provisions of the regulations (7 CFR Part 56) governing the grading and inspection of shell eggs and the United States standards, grades, and weight classes for shell eggs, for the privilege of using, subject to such regulations, official identification and grade labels on consumer packages of shell eggs.

In requesting this privilege, the applicant agrees to conform to the aforesaid regulations and such instructions covering grading and inspection of shell eggs as may be issued by the Administrator of the Agricultural Marketing Service. The applicant further agrees to furnish the official identification and grade labels at no cost to the Government, and to place them in the custody of the supervisor of packaging or grader who is designated for such purpose by the Administrator.

The applicant further agrees not to package any graded product bearing official identification or grade label under a trade name other than that of the applicant unless such trade name is submitted, together with the proper address, to the Administrator at the time approval is requested of the cartons, packaging material, grade labels, and official identification to be used in packaging such graded shell eggs.

In the event the privilege to use official identification or grade labels on graded products is withdrawn in accordance with the applicable provisions of the regulations, the applicant agrees promptly to deliver or cause to be delivered into the custody of the immediate superior officer of the grader or supervisor of packaging all supplies of the official identification and of the grade labels, together with all packaging and packing materials bearing printed reference to the graded character of the products for such subsequent use by the applicant as may be approved by the Administrator.

All terms which are used herein shall have the meaning applicable to such terms when used in the aforesaid regulations.

This application is submitted in triplicate.

cent may be of C Quality, and not over 10 percent may be Dirties or Checks in any combination.

(d) "U. S. Consumer Grade C" shall consist of eggs of which at least 80 percent are C Quality or better, and the balance may be Dirties or Checks in any combination.

(e) *Additional tolerances.* (1) Within the maximum tolerance permitted, an allowance will be made at receiving points or shipping destination for ½ percent Leakers in U. S. Consumer Grades AA, A, and B, and 1 percent in Grade C.

(2) In lots of two or more cases, no individual case may fall below 70 percent of the specified quality and no individual case may contain more than double the tolerance specified for the respective grade (i. e., in lots of Grade A, not more than 10 percent of the qualities in individual cases within the sample may be C or Check, provided the average is not over 5 percent).

(f) "No grade" means eggs of possible edible quality that fail to meet the requirements of an official U. S. Grade or that have been contaminated by smoke, chemicals, or other foreign material which has seriously affected the character, appearance, or flavor of the eggs.

§ 56.217 *Summary of grades.* The summary of the U. S. Consumer Grades for Shell Eggs follows as Table I of this section:

TABLE I—SUMMARY OF U. S. CONSUMER GRADES FOR SHELL EGGS

U. S. consumer grade	At least 80 per cent (lot over age) [1] must be—	Tolerance permitted [2]	
		Percent	Quality
Grade AA	AA Quality	15 to 20	A.
		Not over 5 [3]	B, C, or Check.
Grade A	A Quality or better.	15 to 20	B.
		Not over 5 [3]	C or Check.
Grade B	B Quality or better.	10 to 20	C.
		Not over 10 [3]	Dirty or Check.
Grade C	C Quality or better.	Not over 20	Dirty or Check.

[1] In lots or two or more cases, no individual case may fall below 70 percent of the specified quality and no individual case may contain more than double the tolerance specified for the respective grade (i. e., in lots of Grade A, not more than 10 percent of the qualities in individual cases within the sample may be C or Check, provided the average is not over 5 percent).

[2] Within tolerance permitted, an allowance will be made at receiving points or shipping destination for ½ percent leakers in Grades AA, A, and B, and 1 percent in Grade C.

[3] Substitution of higher qualities for the lower qualities specified is permitted.

§ 56.218 *Weight classes.* (a) The weight classes for U. S. Consumer Grades for Shell Eggs shall be as indicated in Table I of this section and shall apply to all consumer grades.

TABLE I—U. S. WEIGHT CLASSES FOR CONSUMER GRADES FOR SHELL EGGS

Size or weight class	Minimum net weight per dozen	Minimum net weight per 30 dozen	Minimum weight for individual eggs at rate per dozen
	Ounces	*Pounds*	*Ounces*
Jumbo	30	56	29
Extra large	27	50½	26
Large	24	45	23
Medium	21	39½	20
Small	18	34	17
Peewee	15	28	----------

(b) Minimum weights listed for individual eggs at the rate per dozen are permitted in the various size classes only to the extent that they will not reduce the net weight per dozen below the required minimum.

(c) Effective January 1, 1956, the weight classes for U. S. Consumer Grades for Shell Eggs shall be as indicated in Table II of this section and shall thereupon supersede the weight classes set forth in Table I of this section.

TABLE II—U. S. WEIGHT CLASSES FOR CONSUMER GRADES FOR SHELL EGGS

Size or weight class	Minimum net weight of individual eggs weight per per dozen [1]	Minimum net weight per 30 dozen case
	Ounces	*Pounds*
Jumbo	30	56
Extra large	27	50½
Large	24	45
Medium	21	39½
Small	18	34
Peewee	15	28

[1] A tolerance of not more than 5 percent of the individual eggs within the lot may be less than the minimum net weight for individual eggs specified for the respective weight class but such eggs shall weigh not less than the specified minimum weight for the next lower weight class.

UNITED STATES PROCUREMENT GRADES AND WEIGHT CLASSES FOR SHELL EGGS

§ 56.220 *General.* (a) These procurement grades are applicable only to shell eggs in lot quantities. They are designed primarily for Government and institutional procurement. A lot may contain any quantity of one or more cases. Reference to the term "case" means a 30-dozen egg case as used in commercial practice in the United States.

(b) All terms in the United States standards for quality of individual shell eggs (§ 56.200 et seq.) shall, when used in this part have the same meaning as is given to them in such standards.

(c) Substitution of higher qualities for the lower qualities specified is permitted.

§ 56.221 *Grades.* (a) "U. S. Procurement Grade I" shall consist of eggs of which at least 80 percent are A Quality or better. Within the maximum of 20 percent which may be below A Quality, not more than 5 percent may be of the qualities below B. Said maximum tolerance of 5 percent may consist of C Quality, not more than 3 percent Checks, and not more than 3/10 percent Dirties, Leakers, and Loss combined.

(b) "U. S. Procurement Grade II" shall consist of eggs of which at least 60 percent are A Quality or better. Within the maximum of 40 percent which may be below A Quality, not more than 10 percent may be of the qualities below B. Said maximum tolerance of 10 percent may consist of C Quality, not more than 3 percent Checks, and not more than 3/10 percent Dirties, Leakers, and Loss combined.

(c) "U. S. Procurement Grade III" shall consist of eggs of which at least 40 percent are A Quality or better. Within the maximum of 60 percent which may be below A Quality, not more than 11.7 percent may be of the qualities below B. Said maximum tolerance of 11.7 percent may consist of C Quality, not more than 3 percent Checks, and not more than 3/10 percent Dirties, Leakers, and Loss combined.

(d) "U. S. Procurement Grade IV" shall consist of eggs of which at least 20 percent are A Quality or better. Within the maximum of 80 percent which may be below A Quality, not more than 11.7 percent may be of the qualities below B. Said maximum tolerance of 11.7 percent may consist of C Quality, not more than 3 percent Checks, and not more than 3/10 percent Dirties, Leakers, and Loss combined.

(e) *Individual case tolerance within a lot applying to each of the procurement grades.* (1) Individual cases may contain not over 10 percent less A Quality eggs than specified for any procurement grade provided the average percentage of A Quality eggs for the lot is not less than the percentage specified. In lots of 200 cases or more, one case in each 10 examined may contain not over 20 percent less A Quality eggs than the minimum percentage specified for the grade.

(2) Individual cases may contain not over 18 percent eggs below B Quality provided the average percentage for the lot is not more than is specified for the grade.

§ 56.222 *Summary of grades.* The summary of the U. S. Procurement Grades for Shell Eggs follows as Table I of this section:

TABLE I—SUMMARY OF U. S. PROCUREMENT GRADES FOR SHELL EGGS

U. S. Procurement Grade	A quality or better (lot average) at least [1]	Maximum tolerance permitted [2] (lot average)	
	Percent	Percent	Quality
I	80	15 to 20	B.
		Not over 5	C, Check, Dirty, Leaker, and Loss.
II	60	30 to 40	B.
		Not over 10	C, Check, Dirty, Leaker, and Loss.
III	40	48.3 to 60	B.
		Not over 11.7	C, Check, Dirty, Leaker, and Loss.
IV	20	68.3 to 80	B.
		Not over 11.7	C, Check, Dirty, Leaker, and Loss.

[1] Individual cases may contain not over 10 percent less A Quality eggs than permitted for the lot, provided the average for the lot is not more than the tolerance permitted in any grade. In lots of 200 cases or more, one case in each 10 examined may contain not over 20 percent less A Quality eggs than is permitted in any grade.

[2] Within each tolerance for qualities below B, each of the grades may contain not over 3 percent Checks, and a combined total of not over 3/10 percent Dirties, Leakers, and Loss. Individual cases may contain not over 18 percent of qualities below B, provided the average for the lot does not exceed the tolerances permitted in any grade.

§ 56.223 *Weight classes.* (a) The weight classes for United States Procurement Grades for Shell Eggs shall be as indicated in Table I of this section and shall apply to all procurement grades.

TABLE I—WEIGHT CLASSES FOR UNITED STATES PROCUREMENT GRADES

Weight classes	Average net weight on lot basis 30-dozen case	Minimum net weight individual 30-dozen case	Minimum weight for individual eggs, at the rate per dozen	Maximum average percent of individual eggs below minimum weight lot average [1]
	Pounds	*Pounds*	*Ounces*	*Percent*
Extra large	50.5	50	26	3.33
Large	45	44.5	23	3.33
Medium	39.5	39	20	3.33
Small	34	33.5	17	3.33

[1] Individual cases may contain not over 10 percent of individual eggs below minimum weights.

(b) Effective January 1, 1956, the weight classes for United States Procurement Grades for Shell Eggs shall be as indicated in Table II of this section and shall thereupon supersede the weight classes indicated in Table I of this section.

TABLE II—WEIGHT CLASSES FOR UNITED STATES PROCUREMENT GRADES

Weight classes	Minimum net weight of individual eggs at weight per dozen [1]	Minimum net weight per 30-dozen case [2]
	Ounces	*Pounds*
Extra large	27	50½
Large	24	45
Medium	21	39½
Small	18	34
Peewee	15	28

[1] A tolerance of 5 percent is permitted for individual eggs weighing less than the minimum specified in any weight class, but such eggs shall weigh not less than the minimum specified for the next lower weight class. Individual cases may contain not more than 10 percent of individual eggs below minimum weight.

[2] A tolerance of ½ pound per individual case is permitted in each of the listed weight classes but only to the extent that will not reduce the required minimum net weight per case of the lot on a lot average basis.

UNITED STATES WHOLESALE GRADES AND WEIGHT CLASSES FOR SHELL EGGS

§ 56.225 *General.* (a) These wholesale grades are applicable only to shell eggs.

(b) All terms in the United States standards for quality of individual shell eggs (§ 56.200 et seq.) shall, when used in this part, have the same meaning as is given to them in such standards.

(c) Substitution of higher qualities for the lower qualities specified is permitted.

(d) The term "refrigerator eggs" means eggs which have been held under refrigeration for a period of not less than 30 days.

§ 56.226 *Grades.* (a) "U. S. Specials __% AA Quality" shall consist of eggs of which at least 20 percent are AA Quality; and the actual percentage of AA Quality eggs shall be stated in the grade name. The balance may be A Quality except for permitted tolerances, per 30 dozen of eggs, of which 27 eggs (7.5 percent) may be B Quality, C Quality, Dirties, or Checks in any combination, and 6 eggs (1.7 percent) may be Loss.

(b) "U. S. Extras __% A Quality" shall consist of eggs of which at least 20 percent are not less than A Quality; and the actual total percentage of A Quality and better quality eggs shall be stated in the grade name. The balance may be B Quality except for permitted tolerances, per 30 dozen of eggs, of which 42 eggs (11.7 percent) may be of C Quality, Dirties, or Checks in any combination, and 8 eggs (2.2 percent) may be Loss. For the period beginning on August 1 of any year and extending through January 31 of the next year, the permitted tolerance for Loss with respect to "refrigerator eggs" is 12 eggs (3.3 percent).

(c) "U. S. Standards __% B Quality" shall consist of eggs of which at least 20 percent are not less than B Quality; and the actual total percentage of B Quality and better quality eggs shall be stated in the grade name. The balance may be C Quality except for permitted tolerances, per 30 dozens of eggs, of which 42 eggs (11.7 percent) may be Dirties or Checks in any combination, and 10 eggs (2.8 percent) may be Loss. For the period beginning on August 1 of any year and extending through January 31 of the next year, the permitted tolerance of Loss with respect to "refrigerator eggs" is 15 eggs (4.2 percent).

(d) "U. S. Trades __% C Quality" shall consist of eggs of which at least 83.3 percent are not less than C Quality; and the actual total percentage of C Quality and better quality eggs shall be stated in the grade name. The permitted tolerances, per 30 dozen of eggs, are 42 eggs (11.7 percent) which may be Dirties or Checks in any combination, and 18 eggs (5 percent) may be Loss.

(e) "U. S. Dirties" shall consist of eggs that are Dirty and contain, per 30 dozen of eggs, not more than 42 eggs (11.7 percent) which are Checks, and 18 eggs (5 percent) which may be Loss.

(f) "U. S. Checks" shall consist of eggs that are Checks and contain, per 30 dozen of eggs, not more than 18 eggs (5 percent) that are Loss.

(g) "No grade" means eggs of possible edible quality that fail to meet the requirements of an official U. S. Grade or that have been contaminated by smoke, chemicals, or other foreign material that has seriously affected the character, appearance, or flavor of the eggs.

(h) Effective January 1, 1956, the percentage of Loss eggs permitted in U. S. Specials __% AA Quality, U. S. Extras __% A Quality, and U. S. Standards __% B Quality, will be 2.0 percent, 3.0 percent, and 4.0 percent, respectively and will thereupon supersede the requirements of paragraphs (a), (b), and (c) of this section with respect to Loss.

§ 56.227 *Summary of grades.* A summary of the United States Wholesale Grades for Shell Eggs follows as Table I of this section:

TABLE I—SUMMARY OF UNITED STATES WHOLESALE GRADES FOR SHELL EGGS

Wholesale grade designation	Minimum percentage of eggs of specific qualities required [1]				Tolerances in terms of maximum number and percentage of eggs, for each 30 dozen of eggs									
	AA Quality	A Quality or better	B Quality or better	C Quality or better	B Quality, C Quality, Dirties, and Checks		C Quality, Dirties, and Checks		Dirties and Checks		Checks		Loss	
					Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
U. S. Specials ____% AA Quality [2]	20	Balance	None permitted except for tolerances		27	7.5	------	------	------	------	------	------	6	1.7
U. S. Extras ____% A Quality [2]	------	20	Balance	None permitted except for tolerances	------	------	42	11.7	------	------	------	------	8	[3] 2.2
U. S. Standards ____% B Quality [2]	------	------	20	Balance	------	------	------	------	42	11.7	------	------	10	[3] 2.8
U. S. Trades ____% C Quality [2]	------	------	------	83.3	------	------	------	------	42	11.7	------	------	18	5
U. S. Dirties	------	------	------	------	------	------	------	------	------	------	42	11.7	18	5
U. S. Checks	------	------	------	------	------	------	------	------	------	------	------	------	18	5

[1] Substitution of eggs possessing higher qualities for those possessing lower specified qualities is permitted.

[2] The actual total percentage must be stated in the grade name.

[3] For the period beginning on August 1 of one year and extending through January 31 of the next year, the permitted tolerance for loss with respect to "refrigerator eggs" is 12 eggs (3.3 percent) and 15 eggs (4.2 percent) for U. S. Extras ____% A Quality and U. S. Standards ____% B Quality, respectively.

§ 56.228 *Weight classes.* (a) The weight classes for the United States Wholesale Grades for Shell Eggs shall be as indicated in Table I of this section and, subject to the stated tolerance of 10 percent, shall apply to all wholesale grades except U. S. Dirties and U. S. Checks. There are no weight classes for U. S. Dirties or U. S. Checks.

TABLE I—WEIGHT CLASSES FOR UNITED STATES WHOLESALE GRADES FOR SHELL EGGS

Weight classes	Per 30 dozen eggs		Weights for individual eggs at rate per dozen	
	Average net weight on a lot [1] basis	Minimum net weight individual case [2] basis	Minimum weight	Weight variation tolerance for not more than 10 percent, by count, of individual eggs
	At least—			
Extra large	50½ pounds	50 pounds	26 ounces	Under 26 but not under 24 ounces.
Large	45 pounds	44 pounds	23 ounces	Under 23 but not under 21 ounces.
Medium	39½ pounds	39 pounds	20 ounces	Under 20 but not under 18 ounces.
Small	34 pounds	None	None	None.

[1] Lot means any quantity of 30 dozen or more eggs.
[2] Case means standard 30 dozen egg case as used in commercial practice in the United States.

(b) Effective January 1, 1956, the weight classes for United States Wholesale Grades for Shell Eggs shall be as indicated in Table II of this section and shall thereupon supersede the weight classes indicated in Table I of this section.

TABLE II—WEIGHT CLASSES FOR UNITED STATES WHOLESALE GRADES FOR SHELL EGGS

Weight classes	Minimum net weight of individual eggs at weight per dozen [1]	Minimum net weight per 30 dozen case [2]
	Ounces	*Pounds*
Extra large	27	50½
Large	24	45
Medium	21	39½
Small	18	34
Peewee	15	28

[1] A tolerance of not more than 5 percent of the individual eggs may be below the minimum weights specified but such eggs shall weigh not less than the specified minimum weight for the next lower weight class. No individual case may contain more than 10 percent of eggs below the weight specified for a particular weight class.
[2] A tolerance of ½ pound per case is permitted for individual cases within the lot but only to the extent that the average weight of the lot is not reduced below the required minimum.

(Sec. 206, 60 Stat. 1090; 7 U. S. C. 1624 et seq.)

Issued at Washington, D. C., this 19th day of November 1954.

NOVEMBER 22, 1954.

I. *Offering of certificates.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions from the people of the United States for certificates of indebtedness of the United States, designated 1⅛ percent Treasury Certificates of Indebtedness of Series D–1955, in exchange for which any of the following listed securities, singly or in combinations aggregating $1,000 or multiples thereof, may be tendered:

1⅞ percent Treasury Notes of Series B–1954, maturing December 15, 1954.

2 percent Treasury Bonds of 1952–54 (dated December 1, 1944), maturing December 15, 1954.

2 percent Treasury Bonds of 1951–55, called for redemption on December 15, 1954.

Exchanges will be made at par with an adjustment of interest as set forth in section IV hereof. The amount of the offering under this circular will be limited to the amount of the eligible securities of the three issues enumerated above tendered in exchange and accepted. The books will be open only on November 22 through November 24 for the receipt of subscriptions for this issue.

2. In addition to the offering under this circular, holders of the eligible securities are also offered the privilege of exchanging all or any part of such securities for 1¼ percent Treasury Certificates of Indebtedness of Series E–1955 or 2½ percent Treasury Bonds of 1963, which offerings are set forth in Department Circulars Nos. 951 and 952, issued simultaneously with this circular.

II. *Description of certificates.* 1. The certificates now offered will be an addition to and will form a part of the series of 1⅛ percent Treasury Certificates of Indebtedness of Series D–1955 issued pursuant to Department Circular No. 947, dated August 3, 1954, will be freely interchangeable therewith, are identical in all respects therewith, and (except that there are hereby authorized additional denominations of $100,000,000 and $500,000,000) are described in the following quotation from Department Circular No. 947:

1. The certificates will be dated August 15, 1954, and will bear interest from that date at the rate of 1⅛ percent per annum, payable at the maturity of the certificates on August 15, 1955. They will not be subject to call for redemption prior to maturity.

2. The income derived from the certificates shall be subject to all taxes, now or hereafter imposed under the Internal Revenue Code, or laws amendatory or supplementary thereto. The certificates shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The certificates will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer certificates with one interest coupon attached will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. The certificates will not be issued in registered form.

5. The certificates will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States certificates.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject or reduce any subscription, and to allot less than the amount of certificates applied for; and any action he may take in these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for certificates allotted hereunder must be made on or before December 15, 1954, or on later allotment, and may be made only in the securities of the three issues enumerated in Section I hereof, which will be accepted at par, and should accompany the subscription. All bearer securities should be surrendered with December 15, 1954, coupons attached, and subsequent coupons as well in the case of the Treasury Bonds of 1951–55. The full six months' interest due December 15, 1954, will be credited, and accrued interest from August 15 to December 15 on the certificates to be issued will be charged, as shown in the table below. The difference will be paid subscribers, in the case of bearer securities, following their acceptance, and in the case of registered bonds, following discharge of registration.

INTEREST ADJUSTMENTS PER $1,000

Securities surrendered	Accrued interest to be credited	Accrued interest to be charged	Net
1⅞ percent Treasury Notes, Series B–1954	$9.38	$3.76[illegible]	[illegible]
2 percent Bonds of 1952–54 (dated Dec. 1, 1944)	10.00	3.76[illegible]	[illegible]
2 percent Bonds of 1951–55	10.00	3.76[illegible]	[illegible]

V. *Assignment of registered bonds.* 1. Treasury bonds of the two eligible issues in registered form tendered in payment for certificates offered hereunder should be assigned by the registered payees or assignees thereof to "The Secretary of the Treasury for exchange for 1⅛ percent Certificates of Indebtedness of Series D–1955 to be delivered to ----------", in accordance with the general regulations of the Treasury Department governing assignments for transfer or exchange, and thereafter should be presented and surrendered with the subscription to a Federal Reserve Bank or Branch or to the Office of the Treasurer of the United States, Washington. The bonds must be delivered at the expense and risk of the holders.

VI. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for certificates allotted, to make delivery of certificates on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive certificates.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] M. B. FOLSOM,
Acting Secretary of the Treasury.

1¼ PERCENT TREASURY CERTIFICATES OF INDEBTEDNESS OF SERIES E–1955

OFFERING OF CERTIFICATES

NOVEMBER 22, 1954.

I. *Offering of certificates.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par, from the people of the United States for certificates of indebtedness of the United States, designated 1¼ percent Treasury Certificates of Indebtedness of Series E–1955, in exchange for which any of the following listed securities, singly or in combinations aggregating $1,000 or multiples thereof, may be tendered:

1⅞ percent Treasury Notes of Series B–1954, maturing December 15, 1954.

2 percent Treasury Bonds of 1952–54 (dated December 1, 1944), maturing December 15, 1954.

2 percent Treasury Bonds of 1951–55, called for redemption on December 15, 1954.

The amount of the offering under this circular will be limited to the amount of the eligible securities of the three issues enumerated above tendered in exchange and accepted. The books will be open only on November 22 through November 24 for the receipt of subscriptions for this issue.

2. In addition to the offering under this circular, holders of the eligible securities are also offered the privilege of exchanging all or any part of such securities for 1⅛ percent Treasury Certificates of Indebtedness of Series D–1955 to be delivered to ----------", in accordance with the general regulations of the Treasury Department governing assignments for transfer or exchange, and thereafter should be presented and surrendered with the subscription to a Federal Reserve Bank or Branch or to the Office of the Treasurer of the United States, Washington. The bonds must be delivered at the expense and risk of the holders.

VI. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for certificates allotted, to make delivery of certificates on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive certificates.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] M. B. FOLSOM,
Acting Secretary of the Treasury.

[1954 Dept. Cir. 952]

2½ PERCENT TREASURY BONDS OF 1963

OFFERING OF BONDS

NOVEMBER 22, 1954.

I. *Offering of bonds.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites subscriptions, at par, from the people of the United States for bonds of the United States, designated 2½ percent Treasury Bonds of 1963, in exchange for which any of the following listed securities, singly or in combinations aggregating $500 or multiples thereof may be tendered:

1⅞ percent Treasury Notes of Series B–1954, maturing December 15, 1954.

2 percent Treasury Bonds of 1952–54 (dated December 1, 1944), maturing December 15, 1954.

2 percent Treasury Bonds of 1951–55, called for redemption on December 15, 1954.

The amount of the offering under this circular will be limited to the amount of the eligible securities of the three issues enumerated above tendered in exchange and accepted. The books will be open only on November 22 through November 24 for the receipt of subscriptions for this issue.

2. In addition to the offering under this circular, holders of the eligible securities are also offered the privilege of exchanging all or any part of such securities for 1⅛ percent Treasury Certificates of Indebtedness of Series D–1955, or 1¼ percent Treasury Certificates of Indebtedness of Series E–1955, which offerings are set forth in Department Circulars Nos. 950 and 951, issued simultaneously with this circular.

II. *Description of Bonds.* 1. The bonds will be dated December 15, 1954, and will bear interest from that date at the rate of 2½ percent per annum, payable on a semiannual basis on August 15, 1955, and thereafter on February 15 and August 15 in each year until the principal amount becomes payable. They will mature August 15, 1963, and will not be subject to call for redemption prior to maturity.

2. The income derived from the bonds shall be subject to all taxes now or hereafter imposed under the Internal Revenue Code, or laws amendatory or supplementary thereto. The bonds shall be subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but shall be exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The bonds will be acceptable to secure deposits of public moneys.

4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of $500, $1,000, $5,000, $10,000, $100,000, $1,000,000, $100,000,000, and $500,000,000. Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury.

5. The bonds will be subject to the general regulations of the Treasury Department, now or hereafter prescribed, governing United States bonds.

III. *Subscription and allotment.* 1. Subscriptions will be received at the Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Washington. Banking institutions generally may submit subscriptions for account of customers, but only the Federal Reserve Banks and the Treasury Department are authorized to act as official agencies.

2. The Secretary of the Treasury reserves the right to reject or reduce any subscription, and to allot less than the amount of bonds applied for; and any action he may take in these respects shall be final. Subject to these reservations, all subscriptions will be allotted in full. Allotment notices will be sent out promptly upon allotment.

IV. *Payment.* 1. Payment at par for bonds allotted hereunder must be made on or before December 15, 1954, or on later allotment, and may be made only in the securities of the three issues enumerated in section I hereof, which will be accepted at par, and should accompany the subscription. Final interest due on December 15 on bearer securities surrendered will be paid by payment of December 15, 1954, coupons, which should be detached by holders before presentation of the securities. Coupons dated June 15, 1955, and December 15, 1955, must be attached to Treasury Bonds of 1951–55 when surrendered. In the case of registered bonds, final interest due on December 15, 1954, will be paid by check drawn in accordance with the assignments on the bonds surrendered, or by credit in any account maintained by a banking institution with the Federal Reserve Bank of its District.

V. *Assignment of registered bonds.* 1. Treasury bonds of the two eligible issues in registered form tendered in payment for bonds offered hereunder should be assigned by the registered payees or assignees thereof, in accordance with the general regulations of the Treasury Department governing assignments for transfer or exchange, in one of the forms hereafter set forth, and thereafter should be presented and surrendered with the subscription to a Federal Reserve Bank or Branch or to the Office of the Treasurer of the United States, Washington, D. C. The bonds must be delivered at the expense and risk of the holders. If the new bonds are desired registered in the same name as the bonds surrendered, the assignment should be to "The Secretary of the Treasury for exchange for 2½ percent Treasury Bonds of 1963"; if the new bonds are desired registered in another name, the assignment should be to "The Secretary of the Treasury for exchange for 2½ percent Treasury Bonds of 1963 in the name of _____"; if new bonds in coupon form are desired, the assignment should be to "The Secretary of the Treasury for exchange for 2½ percent Treasury Bonds of 1963 in coupon form to be delivered to _____".

VI. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive subscriptions, to make allotments on the basis and up to the amounts indicated by the Secretary of the Treasury to the Federal Reserve Banks of the respective Districts, to issue allotment notices, to receive payment for bonds allotted, to make delivery of bonds on full-paid subscriptions allotted, and they may issue interim receipts pending delivery of the definitive bonds.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] M. B. FOLSOM,
Acting Secretary of the Treasury.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Dissolution Order 108]

AVONZEL CORP.

Whereas, by (1) Vesting Order Number 30, dated June 18, 1942 (7 F. R. 4633, June 23, 1942), and Executive Order No. 9788, dated October 14, 1946 (11 F. R. 11981, October 15, 1946), and (2) Vesting Order Number 13249, dated May 12, 1949 (14 F. R. 2603, May 17, 1949), there is vested in the Attorney General of the United States (hereinafter referred to as "Attorney General") all of the issued and outstanding capital stock of Avonzel Corporation (hereinafter referred to as "the Company"), a New York corporation;

Whereas, a Certificate of Dissolution was issued by the Secretary of State of New York on October 20, 1954, certifying that it appeared that the Company had complied with section 105 of the Stock Corporation Law of the State of New York and that the Company is dissolved; and

Whereas, the Company has been substantially liquidated.

Now, therefore, under the Trading With the Enemy Act, as amended, and Executive Orders 9095, as amended, and 9788 and pursuant to law, the undersigned, after investigation:

1. Finding that there are no known debts of the Company and that the Company's known assets consist of cash in the amount of $1,256,592.31; United States Treasury 2½ percent Bonds, having a total face value of $100,000.00; and four bonds (secured by mortgages), having a total unpaid balance of $62,950.00; and

2. Having determined that it is in the national interest of the United States that the Company be dissolved, that its affairs be wound up and that its assets be distributed;

Hereby orders, that the officers and directors of the Company (and their successors, or any of them) wind up the affairs of the Company and distribute the assets of the Company coming into their possession as follows:

1. They shall first pay current expenses, if any, and necessary charges in effecting the dissolution of the Company and winding up of its affairs; and

2. They shall then pay all federal, state, and local taxes, if any, owed by or accruing against the Company; and

3. They shall then pay over, transfer, assign and deliver to the Attorney General all funds and property of whatsoever kind and nature (including after discovered assets) and any and all claims of whatsoever kind and nature (including any claims for refund of taxes and or the proceeds of any such refund), the same to be applied by the Attorney General as follows: first, in satisfaction of such claim, if any, as the Attorney General may have for monies advanced or services rendered to or on behalf of the Company, and second, as a liquidating distribution of assets to the Attorney General, as holder of all of the issued and outstanding stock of the Company; and further orders, that nothing herein set forth shall be construed as prejudicing the rights under the Trading With the Enemy Act, as amended, of any person who may have a claim against the Company to file such claim with the Attorney General against any funds or property received by the Attorney General hereunder:

Provided, however, That nothing herein contained shall be construed as creating additional rights in such person: *Provided further,* That any such claim against said Company shall be filed with or presented to the Attorney General within the time and in the form and manner prescribed for such claims by the Trading With the Enemy Act, as amended, and applicable regulations and orders issued pursuant thereto; and further orders, that all actions taken and acts done by the officers and directors of the Company pursuant to this order and the directions contained herein shall be deemed to have been taken and done in reliance on and pursuant to section 5 (b) (2) of the Trading With the Enemy Act, as amended (50 U. S. C. App. 5), and the acquittance and exculpation provided therein.

Executed in Washington, D. C., on November 15, 1954.

For the Attorney General.

[SEAL] DALLAS S. TOWNSEND,
Assistant Attorney General,
Director, Office of Alien Property.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

ALASKA PUBLIC SALE ACT CLASSIFICATION NO. 17

NOVEMBER 19, 1954.

Pursuant to the authority delegated to me under section 2.21 of Order No. 1, Bureau of Land Management, Area 4, approved by the Acting Secretary of the Interior, August 20, 1951 (16 F. R. 8625, 8627), the following described land is classified for disposal under the Alaska Public Sale Act of August 30, 1949 (63 Stat. 679; 43 U. S. C. 364a–364e), for commercial and industrial purposes:

Commencing at a point on Kodiak Island near Narrow Cape identified by a temporary post at approximate Latitude 57°28' North, Longitude 152°20'20" West, thence easterly 1,320 feet, thence northerly 660 feet, thence westerly 1,320 feet, thence southerly 660 feet to the point of beginning, being 20 acres more or less, depending upon survey.

The above land will be offered for sale in accordance with regulations contained in 43 CFR 75.23 to 75.40. If no bid at the minimum acceptable price or above is made, the land may be held for future offering or the classification may be rescinded.

HAROLD T. JORGENSON,
Area Lands and Minerals Officer.

[F. R. Doc. 54-9298; Filed, Nov. 24, 1954; 8:45 a. m.]

ALASKA

NOTICE OF FILING PLATS OF SURVEY

NOVEMBER 17, 1954.

Notice is given that the plats of original survey of the following described lands, accepted October 28, 1954, will be officially filed in the Land Office, Anchorage, Alaska, effective at 10:00 a. m. on the 35th day after the date of this notice.

SEWARD MERIDIAN

T. 11 N., R. 4 W.,
Secs. 1, 2, 3, 4, 5, 9, 10, 15, 22, 23, 25, and 26.

The area described contains 4,039.13 acres.

Of the land described, the following land is withdrawn by Public Land Order 576 of March 29, 1949, to wit:

T. 11 N., R. 3 W.,
Sec. 3: W½NW¼NW¼, SE¼NW¼NW¼, SW¼NW¼, W½SE¼NW¼, SW¼;
Sec. 4: All;
Sec. 5: All (Lot 1);
Sec. 9: All (Lots 1 and 2);
Sec. 10: All;
Secs. 15, 22, 23, 25, and 26.
T. 11 N., R. 3 W.,
Sec. 5: All (Lot 1) is also subject to Section 24 of the act of June 10, 1920 (Federal Power Act).

The lands are located on the Anchorage Seward Highway beginning about 12 miles from Anchorage, at Potter. Most of the land to the east of the highway is extremely hilly extending to the foothills of the Chugach Range. It is covered with birch, spruce and alder and a fair portion of the land is considered agricultural.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order except that the lands are now open to application, petition, location, or selection under applicable laws, subject to valid existing rights, the requirements for classification, and withdrawal limitations. Pursuant to law, preference in consideration of competing applications will be granted as follows:

Priority category	Preferred applicant	Types of applications	Priority period closing dates (all days start at 10 a. m.)	How competing applications will be considered
1	Holders of individual preference rights based on valid settlement, statutory preference, or equitable claims.	As specified by law or regulation.	120 days from date of this notice.	Priority of right.
2	Veterans of World War II and of the Korean conflict, and other beneficiaries of the act of Sept. 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended.	Homestead, small-tract, homesite.	35 days from date of this notice.	Drawing at the close of the priority period.
3	do	do	91 days from the end of the second priority period.	Order of filing during the priority period.
4	Any other qualified person.	Any type	120 days from date of this notice.	Drawing at the close of the priority period.
5	Any qualified person	do	Anytime after the end of the fourth priority period.	Order of filing.

Persons claiming veterans' preference rights under Priority Categories 2 and 3 must enclose with their applications proper evidence of military or naval service preferably a complete photostatic copy of the certificate of honorable discharge.

Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their applications, setting forth all facts relevant to their claims.

Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations, as follows:

Subject:	Part and sections
General	295.8 and 296.
Homesteads	65 and 66.
Headquarters site	64.6.
Homesite	64.10.
Small tracts	257.
Veterans' preference	181.35–181.47.

Inquiries concerning these lands and applications for them shall be addressed to Virgil O. Seiser, Manager, Land Office, Box 1740, Anchorage, Alaska.

VIRGIL O. SEISER,
Manager.

[F. R. Doc. 54-9299; Filed, Nov. 24, 1954; 8:45 a. m.]

[Montana 013687]

MONTANA

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

NOVEMBER 18, 1954.

In an exchange of lands made under the provisions of section 8 of the Act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976, 43 U. S. C. sec. 315g), the following described lands have been reconveyed to the United States:

MONTANA PRINCIPAL MERIDIAN

T. 7 S., R. 60 E.,
Sec. 1: Lots 3, 4, S½NW¼.

The area described contains 159.53 acres.

The topography of these lands is gently rolling and slopes easterly towards the Little Missouri River. There is a fair to good growth of bluestem and grama grasses, scattered weeds and cactus, and a substantial growth of big sage. There are no trees or water upon the tract and no portion of the tract is susceptible to cultivation or irrigation.

No application for these lands will be allowed under the homestead, desert land, small tract, or any other nonmineral public land law, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application. Any application

that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

This order shall not otherwise become effective to change the status of the described land until 10:00 a. m. on the 35th day after the date of this order. At that time the said land shall become subject to application, petition, location and selection under the applicable public-land laws, subject to valid existing rights, the provisions of existing withdrawals, the requirements of applicable laws, and the 91-day preference right filing period for veterans and others entitled to preference under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284), as amended. All applications filed pursuant to the Veterans' Preference Act of 1944, on or before 10:00 a. m. of the 35th day after the date of this order shall be treated as though simultaneously filed at that time. All other applications under the public-land laws filed on or before 10:00 a. m. of the 126th day after the date of this order shall be treated as though simultaneously filed at that time.

Inquiries concerning these lands shall be addressed to the State Supervisor, Bureau of Land Management, 1245 North 29th Street, Billings, Montana.

THEO. E. ANHDER,
Acting State Supervisor.

[F. R. Doc. 54-9300; Filed, Nov. 24, 1954; 8:45 a. m.]

NORTH DAKOTA AND SOUTH DAKOTA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

NOVEMBER 19, 1954.

An application, serial number Montana 013826(SD) for the withdrawal from all forms of appropriation under the public land laws, including mining and mineral leasing laws of the lands described below was filed on October 26, 1953, by the Department of the Army.

The purposes of the proposed withdrawal: For the operation and maintenance of the Oahe Reservoir Project, North and South Dakota.

For a period of thirty days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the State Supervisor, Bureau of Land Management, Department of the Interior at Billings, Montana. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

BLACK HILLS MERIDIAN, SOUTH DAKOTA

This withdrawal will not preclude the issuance of leases under the mineral leasing laws, subject to approval of the Corps of Engineers and such stipulations as they may require.

The areas described, including both public and non-public lands therein, aggregate approximately 12,621 acres.

R. D. NIELSON,
State Supervisor.

[F. R. Doc. 54-9301; Filed, Nov. 24, 1954; 8:45 a. m.]

NORTH DAKOTA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

NOVEMBER 19, 1954.

An application, serial number Montana 013948(ND), for the withdrawal from all forms of appropriation under the public land laws, except mining and mineral leasing laws of the lands described below was filed on April 2 and August 13, 1952, by the Fish and Wildlife Service.

The purposes of the proposed withdrawal: For use of the State Fish and Wildlife Service as wildlife refuges, public shooting grounds, or game management units.

For a period of thirty days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the State Supervisor, Bureau of Land Management, Department of the Interior at Billings, Montana. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

NEW MEXICO

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

NOVEMBER 17, 1954.

An application, serial number New Mexico 016634, for the withdrawal from all forms of appropriation under the public land laws, including the mining laws but not the mineral-leasing laws, of the lands described below was filed on October 26, 1954, by the United States Department of Agriculture.

The purposes of the proposed withdrawal: Administrative sites and other purposes as indicated.

For a period of thirty days from the date of publication of this notice persons having cause to object to the proposed withdrawal may present their objections in writing to the State Supervisor, New Mexico, Bureau of Land Management, Department of the Interior at P. O. Box 1251, Santa Fe, New Mexico. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a notice of determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

LINCOLN NATIONAL FOREST

CADASTRAL ENGINEERING STAFF OFFICER, AREA II, ET AL.

REDELEGATION OF AUTHORITY TO TAKE ACTION WITH RESPECT TO CERTAIN MATTERS

NOVEMBER 19, 1954.

Pursuant to the authority contained in Order No. 541 of April 21, 1954, of the Director, Bureau of Land Management, and subject to the limitations contained therein, the employees specified in this order are hereby authorized to perform in accordance with the existing policies, regulations, and procedures of the Department of the Interior, the functions of the Area Administrator, Area II, as provided herein.

(a) The Cadastral Engineering Staff Officer, Area II, may take the following actions:

(1) Perform all functions pertaining to the survey and resurvey of the public lands in Area II pursuant to section 453 of the Revised Statutes (43 U. S. C. sec. 2), except the acceptance of plats of survey and resurvey.

(2) Appoint mineral surveyors and approve and accept their bonds, pursuant to section 2334 of the Revised Statutes (30 U. S. C. sec. 39).

(3) Issue mineral survey orders and approve plats and field notes of mineral surveys and certify expenditures pursuant to 43 CFR 280.3.

(b) The Cadastral Engineer, Phoenix, Arizona, may issue mineral survey orders and approve plats and field notes of mineral surveys and certify expenditures, pursuant to 43 CFR 280.3, made upon the claims in the State of Arizona.

(c) The Cadastral Engineer, Reno, Nevada, may issue mineral survey orders and approve plats and field notes of mineral surveys and certify expenditures, pursuant to 43 CFR 280.3, made upon the claims in the State of Nevada.

(d) The Office Cadastral Engineer, Salt Lake City, Utah, may issue mineral survey orders and approve plats and field notes of mineral surveys and certify expenditures, pursuant to 43 CFR 280.3, made upon the claims in the State of Utah.

(e) The Cadastral Engineer (Mining), Boise, Idaho, may issue mineral survey orders and approve plats and field notes of mineral surveys and certify expenditures, pursuant to 43 CFR 280.3, made upon the claims in the State of Idaho.

H. BYRON MOCK,
Area Administrator, Area II.

Approved:

EDWARD WOOZLEY,
Director.

Office of the Secretary

[Order 2774]

BONNEVILLE POWER ADMINISTRATION

DELEGATION OF AUTHORITY WITH RESPECT TO CONTRACTS FOR PROCUREMENT OF ENGINEERING AND ARCHITECTURAL SERVICES

SECTION 1. *Delegation of authority.* The Bonneville Power Administrator is authorized to exercise the authority delegated to the Secretary of the Interior by the Administrator of General Services (19 F. R. 7422) to enter into contracts for engineering and architectural services in connection with the activities of the Bonneville Power Administration, without advertising pursuant to section 302 (c) (4) and (9) of the Federal Property and Administrative Services Act of 1949, as amended (41 U. S. C., 1952 ed., sec. 252), subject to all provisions of Title III of the said act with respect to negotiated contracts, and to all other provisions of law.

SEC. 2. *Redelegation.* The Bonneville Power Administrator may, in writing, redelegate or authorize written redelegation of the authority granted in section 1 of this order. Each such redelegation

shall be published in the FEDERAL REGISTER.

DOUGLAS MCKAY,
Secretary of the Interior.

NOVEMBER 18, 1954.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

GOSHEN LIVESTOCK SALES COMMISSIONS, TORRINGTON, WYO.

DEPOSTING OF STOCKYARD

It has been ascertained that the Goshen Livestock Sales Commissions, Torrington, Wyoming, originally posted on March 4, 1952, as being subject to the Packers and Stockyards Act, 1921, as amended (7 U. S. C. 181 et seq.), no longer comes within the definition of a stockyard under said act for the reason that it is no longer being conducted or operated as a public livestock market. Therefore, notice is given to the owners of the stockyard and to the public that such livestock market is no longer subject to the provisions of the act.

Notice of public rule making has not preceded promulgation of the foregoing rule since it is found that the giving of such notice would prevent the due and timely administration of the Packers and Stockyards Act and would, therefore, be impractical. There is no legal warrant or justification for not deposting promptly a stockyard which no longer is within the definition of that term contained in said act.

The foregoing is in the nature of a rule granting an exemption or relieving a restriction and, therefore, may be made effective in less than 30 days after publication thereof in the FEDERAL REGISTER.

(42 Stat. 159, as amended and supplemented; 7 U. S. C. 181 et seq.)

Done at Washington, D. C., this 22d day of November 1954.

[SEAL] DAVID M. PETTUS,
Acting Director, Livestock Division, Agricultural Marketing Service.

[F. R. Doc. 54-9332; Filed, Nov. 24, 1954; 8:51 a. m.]

NOTICE OF STUDY OF RICE PROGRAM

Section 315 of the Agricultural Act of 1954 provides as follows:

The Secretary of Agriculture is directed to make a study of the various two-price systems of price support and marketing which could be made applicable to rice and to submit to Congress on or before March 1, 1955, a detailed report thereon. The Secretary may conduct such hearings and receive such statements and briefs in connection with such study as he deems appropriate.

Pursuant to such statute, the Secretary of Agriculture is making a study of the various two-price systems of price support and marketing which could be made applicable to rice with the view of submitting a detailed report thereon to the Congress on or before March 1, 1955.

Any interested person may submit any statement or brief concerning any two-price system of price support and marketing applicable to rice. All submissions should be addressed to the Secretary of Agriculture, U. S. Department of Agriculture, Washington 25, D. C. Submissions should be made as soon as possible but in no event later than January 1, 1955, in order that they may be analyzed thoroughly.

Done at Washington, D. C., this 22d day of November 1954.

[SEAL] FREDERICK V. WAUGH,
Director, Agricultural Economics Division, Marketing Research and Statistics.

FEDERAL POWER COMMISSION

[Docket No. G-2860]

LLANO GRANDE CORP.

ORDER FIXING DATE OF HEARING

This proceeding is a proper one for disposition under the provisions of § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, Applicant having requested that its application, filed September 20, 1954, pursuant to section 7 of the Natural Gas Act, for authorization to sell natural gas for resale in interstate commerce as described in said application, be heard under the shortened procedure provided by the aforesaid rule for noncontested proceedings, provided that no request to be heard, protest or petition is filed subsequent to the giving of due notice of the filing of the application including publication in the FEDERAL REGISTER on October 16, 1954 (19 F. R. 6683).

The Commission orders:

Docket No.	Purchaser	Date filed	Location of field
G-3010	United Gas Pipeline Co.	Sept. 23, 1954	DeLarge Field, Terrebonne Parish, La.
G-3145	Southern Natural Gas Co.	Sept. 27, 1954	Spider Field, DeSoto Parish, La.
G-3146	do	do	Gwinville Field, Jefferson Davis County, Miss.
G-3147	Louisiana Nevada Transit Co.	do	Cotton Valley Unit Field, Webster Parish, La.

Applicant has requested that its applications be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure. The applications are on file with the Commission for public inspection.

The Commission finds:

(1) It is appropriate in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, that due notice of the applications herein, including publication in the FEDERAL REGISTER, be given as hereinafter ordered.

(2) It is reasonable and appropriate in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, to consolidate the proceedings in the above designated Dockets for purpose of hearing; and to hold a public hearing in the above-entitled proceedings as hereinafter ordered.

(3) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)), heard under the shortened procedure provided for by the aforesaid rule for noncontested proceedings: *Providing, however*, That no request to be heard, protest or petition is filed raising an issue of substance.

The Commission orders:

(A) Due notice of these applications be given, including publication in the FEDERAL REGISTER, of this notice of applications and order.

(B) The aforesaid proceedings in the above designated Dockets be and the same hereby are consolidated for purposes of hearing.

(C) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 10, 1954, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the application: *Provided, however*, That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Adopted: November 17, 1954.

Issued: November 18, 1954.

By the Commission.

[SEAL] LEON M. FUQUAY,
Secretary.

[Docket No. G-3153]

JOE A. WORSHAM

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Joe A. Worsham (Applicant), an individual with his principal office in Dallas, Texas, filed on September 27, 1954, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in his application filed herein.

Applicant produces natural gas in the Panhandle Field, Moore County, Texas, which he sells to Shamrock Oil and Gas Corporation for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 3d day of December 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 15, 1954, at 9:50 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: November 17, 1954.

Issued: November 18, 1954.

By the Commission.

MIDSTATES OIL CORP.

ORDER SUSPENDING PROPOSED CHANGES IN RATES

Midstates Oil Corporation on October 27, 1954, tendered for filing proposed changes in presently effective rate schedules for sales subject to the jurisdiction of the Commission. The proposed changes, which constitute increased rates and charges, are contained in the following designated filing which is proposed to become effective on the date shown:

Description	Purchaser	Rate schedule designation	Effective date[1]
Notice of change, undated...	Louisiana-Nevada Transit Co.	Supplement No. 3 to FPC gas rate schedule No. 32.	Nov. 26, 1954.

[1] The stated effective date is the first day after expiration of the required thirty days' notice, or the effective date proposed by Respondent if later.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed changes, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act, a public hearing be held upon a date to be fixed by further order concerning the lawfulness of said proposed changes in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and it is hereby suspended and the use thereof deferred for a period of five months beyond the above-stated effective date and for such further time until it is made effective in the manner prescribed by the Natural Gas Act, subject to further order of the Commission.

(B) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: November 17, 1954.

Issued: November 18, 1954.

By the Commission.

ORDER RECONVENING HEARING

In the matters of Midstates Oil Corporation, Docket No. G-3551; Crown Central Petroleum Corporation, Docket No. G-3804; Coltexo Corporation, Docket No. G-3870; Rebstock & Reeves Drilling Company, Docket No. G-3907; Jay Simmons, Docket No. G-4007; Ted Weiner, et al., Docket No. G-4079; Ted Weiner, et al., Docket No. G-4110; Shell Oil Company, Docket No. G-4289; Shell Oil Company (Gulf Coast Division), Docket No. G-4350.

The notice of applications and order consolidating proceedings and fixing date of hearing for November 15, 1954, in the above-entitled proceeding was published in the FEDERAL REGISTER on November 17, 1954 (19 F. R. 7421). The hearing was convened on November 15, 1954, and recessed until November 17, 1954. The Presiding Examiner on the latter date adjourned the proceedings subject to further order of the Commission in order to provide adequate notice.

The Commission orders:

(A) The hearing in this proceeding reconvene on November 29, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C.

(B) Protests or petitions to intervene may be filed with the Commission in accordance with its rules of practice and procedure, §§ 1.8 and 1.10 (18 CFR 1.8 and 1.10), on or before November 26, 1954.

Adopted: November 17, 1954.

Issued: November 18, 1954.

By the Commission.

[Docket Nos. G-2952, G-4450, G-4671]

DEEP SOUTH OIL CO. OF TEXAS ET AL.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

In the matters of Deep South Oil Company of Texas, Docket No. G-2952; Wesley West, Docket No. G-4450; Shell Oil Company, Docket No. G-4671.

Wesley West, an individual with offices in Houston, Texas, filed a petition on October 18, 1954, for a declaratory order determining status. Mr. West produces gas in the Vienna Field, Lavaca County, Texas, which he sells to Texas Eastern Transmission Corporation (Texas Eastern). The petition alleges that delivery is made at a point of interconnection between Texas Eastern's 24-inch transmission line and a 1,342-foot gathering line operated by Mr. West. The petition avers that the gathering line is an auxiliary of and appurtenant to the lease and well and that it forms a part of the production and gathering facilities owned and operated by Mr. West, and that the gas is sold to Texas Eastern as a part of the process of production or gathering. Mr. West claims that said sale is consummated by him outside of and not within the jurisdiction of the Commission.

Shell Oil Company (Shell), a Delaware corporation with its principal place of business in New York, New York, filed its petition on November 5, 1954, for a declaratory order determining status. Shell produces "casinghead" gas in the McElroy Field, Crane and Upton Counties, Texas, as a constituent part of the crude oil which it produces, refines and markets. The petition avers that said "casinghead" gas is sold by Shell at the outlet side of its separators to Phillips Petroleum Company (Phillips). The gas is then conveyed along with other such gas through Phillips' gathering lines to its Crane Natural Gasoline Plant, where natural gasoline and other liquid hydrocarbons are manufactured. The petition alleges that the resulting residue gas is sold by Phillips at the outlet side of the plant to El Paso Natural Gas Company for resale for ultimate public consumption.

Shell, on November 5, 1954, also filed a motion to consolidate the above petition for a declaratory order with the petition of Deep South Oil Company of Texas for declaratory order in Docket No. G-2952, filed on September 22, 1954. The proceedings in Docket No. G-2952 have been set for hearing on November 29, 1954, by order of the Commission issued October 28, 1954. The motion to consolidate avers the existence of common questions of law and fact.

The Commission finds:

(1) Common questions of law and fact are involved in Docket Nos. G-2952, G-4450, and G-4671.

(2) Good cause exists for fixing a date of hearing less than 15 days after publication of this order in the FEDERAL REGISTER.

The Commission orders:

(A) The proceedings involved in Docket Nos. G-2952, G-4450 and G-4671 are consolidated for purposes of hearing.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 14, 15, and 16 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on November 29, 1954, at 10:00 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented in the proceedings consolidated in paragraph (A) hereof.

(C) Protests or petitions to intervene in Docket Nos. G-4450 and G-4671 may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 26th day of November 1954. The applications are on file with the Commission for public inspection.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Adopted: November 17, 1954.

Issued: November 18, 1954.

By the Commission.

GENERAL SERVICES ADMINISTRATION

SECRETARY OF SMITHSONIAN INSTITUTION

DELEGATION OF AUTHORITY TO NEGOTIATE CONTRACTS FOR RESTORING AND REPAIRING VALUABLE MUSEUM OBJECTS

1. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, herein called the act, authority is hereby delegated to the Secretary of the Smithsonian Institution to negotiate, without advertising, under section 302 (c) (4) and (9) of the act, contracts for restoring and repairing objects of art, paintings and other valuable museum objects.

2. This authority shall be exercised in accordance with applicable limitations and requirements in the act, particularly sections 304 and 307, and in accordance with the policies, procedures, and controls prescribed by the General Services Administration.

3. The authority herein delegated may be redelegated to any official or employee of the Smithsonian Institution.

4. This delegation shall be effective as of the date hereof.

Dated: November 19, 1954.

INTERSTATE COMMERCE COMMISSION

[No. MC-C-1520]

MULTIPLE DELIVERIES; NEW ENGLAND

SECOND SUPPLEMENTAL ORDER WITH RESPECT TO RATES AND CHARGES

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D. C., on the 3d day of November A. D. 1954.

There being under consideration the matter of rates and charges, and the rules, regulations and practices affecting such rates and charges, applicable in connection with the transportation, in interstate and foreign commerce, of all property, except household goods as defined in Practices of Motor Common Carriers of Household Goods, 17 M. C. C. 467, livestock, automobiles, dangerous explosives, and commodities of unusual size or value, by motor common carriers, between points within an area embracing all of the states of Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont, and between points within that territory, on the one hand, and, on the other, points within the state of New Jersey in Hudson, Passaic, and Somerset Counties and points within the state of New York in Albany, Schenectady, and Orange Counties, and good cause appearing therefor:

It is ordered, That the pending investigation be, and it is hereby, broadened upon our own motion, to include the reasonableness and lawfulness otherwise of the rules, regulations and practices affecting rates and charges so far as they authorize or permit single shipments to be consigned to more than one consignee, when such shipments of the property described, and between the points referred to in the preceding paragraph of this order, move in interstate or foreign commerce, with a view to the making of such findings and orders in the premises as the facts and circumstances shall appear to warrant.

It is further ordered, That all common carriers of property by motor vehicle subject to the Interstate Commerce Act, operating between the points and participating in the transportation referred to in this order be, and they are hereby, made respondents to this proceeding; that a copy of this order be served upon each of the said respondents; and that notice to the public be given by posting a copy of this order in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of Federal Register, Washington, D. C.

By the Commission, Division 2.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3220]

CITIES SERVICE CO. ET AL.

ORDER AMENDING TAX RECITALS IN PREVIOUS ORDER

NOVEMBER 18, 1954.

In the matter of Cities Service Company, the Gas Service Company, Gas Advisers, Inc.

The Commission having, by its order of April 6, 1954, entered in the above proceeding, granted and permitted to become effective an application-declaration regarding, among other things, the sale by Cities Service Company ("Cities") of 1,500,000 shares of $10 par value common stock of the Gas Service Company ("Gas Service") pursuant to sections 11 and 12 of the Public Utility Holding Company Act of 1935; and

Said order having contained in the last paragraph thereof certain recitals for the purposes of Supplement R of the Internal Revenue Code of 1939, among which was one providing for the application by Cities of the proceeds from the sale of the Gas Service stock to the purchase by Cities of additional shares of common stock of Empire Gas and Fuel Company, a wholly owned subsidiary of Cities; and

Said sale of the Gas Service stock having been consummated but the proceeds thereof not having been applied as yet by Cities; and Cities having now filed an application stating that it has determined that it would be more desirable to invest such proceeds as a contribution to

the capital of Empire Gas and Fuel Company rather than to purchase additional common stock of that company, and requesting that the last paragraph of said order of April 6, 1954, be amended to provide for such capital contribution in lieu of the purchase of additional common stock of Empire Gas and Fuel Company; and

It appearing to the Commission that such amendment may appropriately be made:

It is ordered, That the Commission's order herein of April 6, 1954, be, and the same hereby is, amended by substituting for the last paragraph thereof, a new paragraph reading as follows:

It is further ordered, recited and found, That the sale and transfer by Cities of the 1,500,000 shares of common stock of the par value of $10 per share of Gas Service to the purchasers, and the investment by Cities of the proceeds in the amount of $33,045,000 (or an amount equal thereto) to be received from such sale as a contribution to the capital of Empire Gas and Fuel Company, a wholly owned subsidiary, all as herein authorized, approved, and directed, are necessary or appropriate to the integration or simplification of the holding company system of which Cities and Gas Service are members, and are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 within the meaning of sections 371, 373 (a) and 1808 (f) of the Internal Revenue Code of 1939, as amended, and corresponding provisions of the Internal Revenue Code of 1954, and that jurisdiction is reserved to amend, supplement or modify, upon the petition or application of Cities, the recitals, itemizations and specifications required by the Internal Revenue Code of 1939, as amended, and corresponding provisions of the Internal Revenue Code of 1954, with respect to the above-described transactions.

It is further ordered, That said amendment be effective as of April 6, 1954, the date of the issuance of the order in its original form.

By the Commission.

[File No. 70-3313]

COLUMBIA GAS SYSTEM, INC., AND CUMBERLAND AND ALLEGHENY GAS CO.

NOTICE REGARDING PROPOSED SALE OF COMMON STOCK BY SUBSIDIARY COMPANY TO PARENT

NOVEMBER 18, 1954.

Notice is hereby given that the Columbia Gas System, Inc. ("Columbia"), a registered holding company, and its public utility subsidiary company, Cumberland and Allegheny Gas Company ("Cumberland"), have filed a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 (b), 9, 10, and 12 (f) thereof and Rule U-43 promulgated thereunder as applicable to the following proposed transactions:

Columbia, which owns all of the outstanding securities of Cumberland, proposes to purchase and Cumberland proposes to issue and sell at par 36,000 shares of common stock, $25 par value. The stock will be sold as funds are required up to March 31, 1955.

It is stated that the proposed transactions are to be consummated in order to complete financing commenced earlier in 1954 to provide Cumberland with the needed funds for its 1954 construction program involving estimated expenditures of $1,604,900 for gas wells, transmission and distribution lines, and other facilities. Cumberland has thus far raised $700,000 for this program of which $100,000 is represented by 4,000 shares of $25 par value common stock and $600,000 is represented by 3½ percent installment promissory notes, all of which were sold by Cumberland and purchased by Columbia pursuant to the Commission's order of July 30, 1954. (Holding Company Act Release No. 12606.)

The estimated fees and expenses aggregate $150 for Columbia and $1,190 for Cumberland. Included in the latter amount is $990 for Federal Original Issue Tax.

Cumberland has applied to the Public Service Commission of West Virginia for approval of the proposed issuance and sale of common stock.

Applicants-declarants request that this Commission's order become effective upon issuance.

Notice is further given that any interested person may, not later than December 2, 1954, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues of fact or law, if any, raised by the said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 54-9317; Filed, Nov. 24, 1954; 8:48 a. m.]

[File No. 70-3318]

WESTERN KENTUCKY GAS CO.

NOTICE OF FILING REGARDING MERGER OF PUBLIC UTILITY SUBSIDIARY OF REGISTERED HOLDING COMPANY WITH PARENT COMPANY

NOVEMBER 19, 1954.

Notice is hereby given that Western Kentucky Gas Company ("Western"), a registered holding company, has filed a declaration with this Commission pursuant to the provisions of the Public Utility Holding Company Act of 1935 ("act"). Declarant has not designated any section of the act or any rule promulgated thereunder as applicable to said declaration but asks for such relief to which it may be entitled.

All interested persons are referred to said declaration, which is on file in the offices of the Commission, for a statement of the transactions proposed therein, which are summarized as follows:

Western, a Delaware corporation, is engaged in the distribution of natural gas at retail in 47 communities in central and western Kentucky, the principal ones being Owensboro, Bowling Green and Paducah.

Western owns all of the 3,800 shares, $5.00 par value, of the outstanding common stock of Shelbyville Gas Company ("Shelbyville"), a Delaware corporation, which constitutes all of its outstanding securities. Shelbyville is engaged in the distribution at retail of liquified petroleum gas in the Town of Shelbyville, Kentucky, and environs.

Shelbyville proposes to transfer to Western, and Western proposes to acquire, all of Shelbyville's properties, assets and business. In consideration therefor, Western proposes to surrender, and Shelbyville proposes to acquire and cancel, all of the outstanding shares of Shelbyville's common stock. Shelbyville will thereafter dissolve.

Notice is further given that any interested person may, on or before December 7, 1954, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason or reasons for such request, and the issues of fact or law, if any, raised by said declaration which he proposes to controvert, or he may request to be notified if the Commission should order a hearing thereon. Any such request shall bear the caption of the Notice and shall be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after December 7, 1954, said declaration, as filed or as it may hereafter be amended, may be permitted to become effective pursuant to Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

By the Commission.

FEDERAL REGISTER

VOLUME 19 NUMBER 230

Washington, Saturday, November 27, 1954

TITLE 3—THE PRESIDENT

PROCLAMATION 3078

NATIONAL SALVATION ARMY WEEK

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS the high spiritual and humanitarian role of the Salvation Army has long been an important part of American life; and

WHEREAS, through its welfare and religious institutions in our country, the Salvation Army has befriended, aided, and given new hope to men, women, and children, regardless of race or creed; and

WHEREAS the Congress, by a joint resolution approved August 31, 1954, 68 Stat. 997, has requested the President to issue a proclamation designating the week beginning November 28 as National Salvation Army Week:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby proclaim the week beginning November 28, 1954, and ending December 4, 1954, as National Salvation Army Week; and I urge all of our citizens to honor the Salvation Army during that week for its work in the United States in the past seventy-five years. Let us remember that the banner of this organization, and the principles for which it stands, are stalwart bulwarks for the protection of the spiritual and physical needs of our people, and let us salute this great body of unselfish men and women during Salvation Army Week, with the knowledge that they have earned our esteem and praise in the fullest measure.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this 24th day of November in the year of our Lord nineteen hundred and fifty-four, and of the Independence of the United States of America the one hundred and seventy-ninth.

[SEAL]

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES, *Secretary of State.*

Chapter I—Farm Credit Administration

Subchapter D—Federal Intermediate Credit Banks

[FCA Order No. 610]

PART 42—LOANS AND DISCOUNTS

RATES OF INTEREST OR DISCOUNT CHARGED NOTEMAKERS BY FINANCING INSTITUTIONS

Section 42.6 is hereby amended to read as follows:

§ 42.6 *Rates of interest or discount charged notemakers by financing institutions.* On and after November 16, 1954, the rates of interest or discount charged farmers and stockmen on notes or other obligations that may be discounted for, or accepted as collateral for loans to, production credit associations and other financing institutions shall not exceed by more than 4 per centum per annum the loan and discount rate of the Federal intermediate credit bank in effect at the time the loan is made: *Provided, however*, That in the event the said loan and discount rate of the Federal intermediate credit bank is less than 2 per centum per annum, the rate of interest or discount on said notes or other obligations may be equal to but not in excess of 6 per centum per annum. 726.604 Findings and determinations with respect to the national marketing quota for Virginia sun-cured tobacco for the marketing year beginning October 1, 1955.

AUTHORITY: §§ 726.601 to 726.604 issued under sec. 375, 52 Stat. 66, 7 U. S. C. 1375. Interpret or apply secs. 301, 312, 313, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1312, 1313.

§ 726.601 *Basis and purpose.* (a) Sections 726.601 to 726.604 are issued (1) to announce the reserve supply level and the total supply of fire-cured tobacco, dark air-cured tobacco, and Virginia sun-cured tobacco for the marketing year beginning October 1, 1954, (2) to establish the amounts of the national marketing quotas for fire-cured, dark air-cured, and Virginia sun-cured tobacco for the marketing year beginning October 1, 1955, and (3) to apportion the national marketing quotas among the several States. The findings and determinations contained in §§ 726.602 to 726.604 have been made on the basis of the latest available statistics of the Federal Government, and after due consideration of the data, views, and recommendations received from fire-cured, dark air-cured, and Virginia sun-cured tobacco producers and others as provided in a notice (19 F. R. 6481) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003).

(b) Since the Agricultural Adjustment Act of 1938, as amended, requires the holding of referenda of fire-cured and dark air-cured tobacco producers within 30 days after the issuance of the proclamation of the national marketing quotas to determine whether such producers favor marketing quotas and requires, insofar as practicable, the mailing of notices of farm acreage allotments to farm operators prior to the date of the referenda, it is hereby found that compliance with the 30-day effective date provision of the Administrative Procedure Act is impractical and contrary to the public interest. Therefore, the proclamation and apportionment of the quotas contained herein shall become effective upon the date of filing with the FEDERAL REGISTER.

§ 726.602 *Findings and determinations with respect to the national marketing quota for fire-cured tobacco for the marketing year beginning October 1, 1955*[1]—(a) *Reserve supply level.* The reserve supply level for fire-cured tobacco is 172,600,000 pounds calculated as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 37,000,000 pounds and a normal year's exports of 38,000,000 pounds.

(b) *Total supply.* The total supply of fire-cured tobacco for the marketing year beginning October 1, 1954, is 194,200,000 pounds consisting of carryover of 134,000,000 pounds and estimated 1954 production of 60,200,000 pounds.

(c) *Carryover.* The estimated carryover of fire-cured tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1955, is 124,200,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1954, of 70,000,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of fire-cured tobacco which will make available during the marketing year beginning October 1, 1955, a supply of fire-cured tobacco equal to the reserve supply level of such tobacco is 48,400,000 pounds and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 48,400,000 pounds would result in undue restriction of marketings during the 1955–56 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for fire-cured tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1955, is 58,100,000 pounds.

(e) *Apportionment of the quota.* The national marketing quota proclaimed in paragraph (d) of this section is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment*
Illinois	1
Kentucky	19,211
Tennessee	21,394
Virginia	9,803
Reserve[1]	253

[1] Acreage reserved for establishing allotments for farms upon which no fire-cured tobacco has been grown during the past five years.

§ 726.603 *Findings and determinations with respect to the national marketing quota for dark air-cured tobacco for the marketing year beginning October 1, 1955*[1]—(a) *Reserve supply level.* The reserve supply level for dark air-cured tobacco is 86,100,000 pounds calculated as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 25,000,000 pounds and a normal year's exports of 8,000,000 pounds.

(b) *Total supply.* The total supply of dark air-cured tobacco for the marketing year beginning October 1, 1954, is 98,900,000 pounds consisting of carryover of 72,100,000 pounds and estimated 1954 production of 26,800,000 pounds.

(c) *Carryover.* The estimated carryover of dark air-cured tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1955, is 66,100,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1954, of 32,800,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of dark air-cured tobacco which will make available during the marketing year beginning October 1, 1955, a supply of dark air-cured tobacco equal to the reserve supply level of such tobacco is 20,000,000 pounds and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 20,000,000 pounds would result in undue restriction of marketings during the 1955–56 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for dark air-cured tobacco in terms of the total quantity of such tobacco which may be marketed during the marketing year beginning October 1, 1955, is 24,000,000 pounds.

(e) *Apportionment of the quota.* The national marketing quota proclaimed in paragraph (d) of this section is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment*
Kentucky	17,837
Tennessee	2,956
Indiana	73
Missouri	1
Reserve[1]	105

[1] Acreage reserved for establishing allotments for farms upon which no dark air-cured tobacco has been grown during the past five years.

[1] Rounded to the nearest tenth of a million pounds.

§ 726.604 *Findings and determinations with respect to the national marketing quota for Virginia sun-cured tobacco for the marketing year beginning October 1, 1955*[1]—(a) *Reserve supply level.* The reserve supply level for Virginia sun-cured tobacco is 10,395,000 pounds calculated as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 3,300,000 pounds and a normal year's exports of 500,000 pounds.

(b) *Total supply.* The total supply of Virginia sun-cured tobacco for the marketing year beginning October 1, 1954, is 8,448,000 pounds consisting of a carryover of 3,733,000 pounds and estimated 1954 production of 4,715,000 pounds.

(c) *Carry-over.* The estimated carryover of Virginia sun-cured tobacco at the beginning of the marketing year for such tobacco beginning October 1, 1955, is 4,695,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1954, of 3,753,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of Virginia sun-cured tobacco which will make available during the marketing year beginning October 1, 1955, a supply of Virginia sun-cured tobacco equal to the reserve supply level of such tobacco is 5,700,000 pounds and a national marketing quota of such amount is hereby proclaimed.

(e) *Apportionment of the quota.* Since Virginia sun-cured tobacco is grown only in the State of Virginia, the quota is apportioned only to that State under section 313 (a) of the Agricultural Adjustment Act of 1938, as amended. The national marketing quota proclaimed in paragraph (d) of this section, less 28,000 pounds reserved for establishing allotments for farms upon which no Virginia sun-cured tobacco has been grown within the past five years, becomes the State marketing quota for Virginia. The State marketing quota is hereby converted in accordance with section 313 (g) of the act into a State acreage allotment of 5,735 acres. Likewise, the reserve of 28,000 pounds for establishing allotments for farms upon which no Virginia sun-cured tobacco has been grown within the past five years is hereby converted into 28 acres.

Done at Washington, D. C., this 22d day of November 1954. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 54-9352; Filed, Nov. 26, 1954; 8:47 a. m.]

PART 727—MARYLAND TOBACCO

PROCLAMATION OF NATIONAL MARKETING QUOTA FOR THE 1955-56 MARKETING YEAR, AND APPORTIONMENT OF THE QUOTA AMONG THE SEVERAL STATES

§ 727.601 *Basis and purpose.* (a) Sections 727.601 and 727.602 are issued to announce the reserve supply level and the total supply of Maryland tobacco for the marketing year beginning October 1, 1954, to establish the amount of the national marketing quota for Maryland tobacco for the marketing year beginning October 1, 1955, and to apportion the quota among the several States. The findings and determinations by the Secretary contained in § 727.602 have been made on the basis of the latest available statistics of the Federal Government, and after due consideration of data, views, and recommendations received from Maryland tobacco producers and others as provided in a notice (19 F. R. 6481) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003).

(b) Since the Agricultural Adjustment Act of 1938, as amended, requires the holding of a referendum of tobacco producers within 30 days after the issuance of the proclamation of the national marketing quota to determine whether such producers favor marketing quotas and requires, insofar as practicable, the mailing of notices of farm acreage allotments to farm operators prior to the date of the referendum, it is hereby found that compliance with the 30-day effective date provision of the Administrative Procedure Act is impractical and contrary to the public interest. Therefore, the proclamation and apportionment of the quota contained herein shall become effective upon the date of filing with the FEDERAL REGISTER.

§ 727.602 *Findings and determinations with respect to the national marketing quota for Maryland tobacco for the marketing year beginning October 1, 1955*[1]—(a) *Reserve supply level.* The reserve supply level for Maryland tobacco is 102,000,000 pounds, calculated, as provided in the Agricultural Adjustment Act of 1938, as amended, from a normal year's domestic consumption of 30,500,000 pounds and a normal year's exports of 8,000,000 pounds.

(b) *Total supply.* The total supply of Maryland tobacco for the marketing year beginning October 1, 1954, is 108,100,000 pounds consisting of carryover of 69,000,000 pounds and estimated 1954 production of 39,100,000 pounds.

(c) *Carryover.* The estimated carryover of Maryland tobacco on January 1, 1956 is 69,500,000 pounds calculated by subtracting the estimated disappearance for the marketing year beginning October 1, 1954, of 38,600,000 pounds from the total supply of such tobacco.

(d) *National marketing quota.* The amount of Maryland tobacco which will make available during the marketing year, beginning October 1, 1955, a supply of Maryland tobacco equal to the reserve supply level of such tobacco is 32,500,000 pounds, and a national marketing quota of such amount is hereby proclaimed. It is determined, however, that a national marketing quota in the amount of 32,500,000 pounds would be inadequate to meet market demands during the 1955-56 marketing year and such amount is hereby increased by 20 percent. Therefore, the amount of the national marketing quota for Maryland tobacco in terms of the total quantity of tobacco which may be marketed during the marketing year beginning October 1, 1955 is 39,000,000 pounds.

(e) *Apportionment of the quota.* The national marketing quota proclaimed in paragraph (d) of this section is hereby apportioned among the several States pursuant to section 313 (a) of the Agricultural Adjustment Act of 1938, as amended, and converted into State acreage allotments in accordance with section 313 (g) of the act as follows:

State:	*Acreage allotment:*
Maryland	46,701
Virginia	41
Delaware	1
Kentucky	1
North Carolina	1
Tennessee	8
Reserve[1]	294

[1] Acreage reserved for establishing allotments for farms upon which no Maryland tobacco has been grown during the past five years.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 312, 313, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1312, 1313)

Done at Washington, D. C., this 22d day of November 1954. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 34]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.334 *Navel Orange Regulation 34*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 19 F. R. 2941), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel organes, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on November 24, 1954, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of navel oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., November 28, 1954, and ending at 12:01 a. m., P. s. t., December 5, 1954, is hereby fixed as follows:

(i) District 1: 600,600 boxes;
(ii) District 2: Unlimited movement;
(iii) District 3: 57,750 boxes;
(iv) District 4: Unlimited movement.

(2) Navel oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "boxes," "District 1," "District 2," "District 3," and "District 4" shall have the same meaning as when used in said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 26, 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 54-9463; Filed, Nov. 26, 1954; 11:25 a. m.]

[Navel Orange Reg. 35]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.335 *Navel Orange Regulation 35*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 19 F. R. 2941), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on November 18, 1954, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., November 28, 1954, and ending at 12:01 a. m., P. s. t., June 5, 1955, no handler shall handle any navel oranges, grown in District 1, in District 3, or in District 4 which are of a size smaller than 2.31 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit: *Provided*, That not to exceed 5 percent, by count, of the oranges contained in any type of container may measure smaller than 2.31 inches in diameter.

(2) As used in this section, "handle," "handler," "District 1," "District 3," and "District 4," shall have the same meaning as when used in said amended order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 23, 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 54-9379; Filed, Nov. 26, 1954; 8:50 a. m.]

[Docket No. AO-72-A19]

PART 930—MILK IN THE TOLEDO, OHIO, MARKETING AREA

ORDER AMENDING THE ORDER, AS AMENDED, REGULATING HANDLING

§ 930.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order, as amended, and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Toledo, Ohio, on March 29 through April 1, 1954, upon a proposed amendment to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Toledo, Ohio, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

[1] Rounded to the nearest tenth of a million pounds.

[2] Rounded to nearest thousand pounds.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, which is marketed within the Toledo, Ohio, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who, during the determined representative period (July 1954), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the Toledo, Ohio, marketing area, shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. Amend § 930.6 to read as follows:

§ 930.6 *Fluid milk plant.* "Fluid milk plant" means a milk plant (a) where milk is processed and packaged and from which milk is disposed of as Class I milk in the marketing area, either on the premises or to wholesale or retail stop(s) or (b) from which milk, skim milk or cream is transferred to a plant or to plants described in paragraph (a) of this section: *Provided*, That any such transferring plant shall not be included in this definition during any month in which no such transfers are classified as Class I milk or during any of the months of September through December in which shipments of milk, skim milk, or cream from such plant are made to a plant or to plants described in paragraph (a) of this section on less than 15 days or during any other month in which such shipments are made on less than 7 days.

2. Delete paragraphs (b) and (c) of § 930.42, and substitute therefor the following:

(b) Skim milk and butterfat disposed of in the form of milk, skim milk or cream by a handler to a nonhandler's plant located less than 250 miles from the City Hall at Toledo, Ohio, by the shortest highway distance as determined by the market administrator, shall be Class I milk, unless (1) utilization in Class II is indicated in writing to the market administrator by the handler on or before the 5th day after the end of the month within which such transfer was made, (2) the nonhandler had actually used in the month of such transfer an equivalent amount of skim milk and butterfat in Class II, and (3) the nonhandler maintains books and records showing the utilization of all skim milk and butterfat at his plant which are made available if requested by the market administrator for the verification of such mutually indicated utilization.

(c) Skim milk and butterfat disposed of in the form of milk, skim milk, or cream by a handler to a nonhandler's plant located 250 miles or more from the City Hall at Toledo, by the shortest highway distance as determined by the market administrator, shall be Class I milk.

(d) For the purposes of paragraphs (b) and (c) of this section, skim milk and butterfat shall not be deemed to have been "disposed of" to a nonhandler's plant if merely retained in or transferred between trucks or other vehicles which enter the premises or come within the orbit of such plant in the course of movement elsewhere.

3. Delete the last phrase of § 930.75 (a) and substitute therefor the phrase "and a certification that the association has an unterminated membership contract with each producer, which contract authorizes the claimed deduction."

4. Delete § 930.80 (c).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 23d day of November 1954, to be effective on and after January 1, 1955.

[SEAL] EARL L. BUTZ,
Assistant Secretary of Agriculture.

[F. R. Doc. 54-9386; Filed, Nov. 26, 1954; 8:52 a. m.]

[Grapefruit Reg. 213]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.708 *Grapefruit Regulation 213*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than November 29, 1954. Shipments of grapefruit, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order and will so continue until November 29, 1954; the recommendation and supporting information for continued regulation subsequent to November 28, 1954, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 22; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., November 29, 1954, and ending at 12:01 a. m., e. s. t., December 27, 1954, no handler shall ship:

(i) Any white seeded grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet;

(ii) Any pink seeded grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2;

(iii) Any seedless grapefruit, grown in the State of Florida, which do not grade at least U. S. No. 2;

(iv) Any white seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 70 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box;

(v) Any pink seeded grapefruit, grown in the State of Florida, which are of a size smaller than a size that will pack 80 grapefruit, packed in accordance with the requirements of a standard pack, in a standard nailed box; or

(vi) Any seedless grapefruit, grown in the State of Florida, which are of a size smaller than $3\frac{11}{16}$ inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of seedless grapefruit smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the revised United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title).

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 1 Russet," "U. S. No. 2," "standard pack," and "standard nailed box" shall have the same meaning as when used in the revised United States Standards for Florida Grapefruit (§§ 51.750 to 51.790 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 23, 1954.

[Orange Reg. 268]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.710 *Orange Regulation 268*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of Temple oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than November 29, 1954. Shipments of Temple oranges, grown in the State of Florida, are currently subject to regulation by grades, pursuant to the amended marketing agreement and order and will so continue until November 29, 1954; the recommendation and supporting information for continued regulation subsequent to November 28, 1954, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 22; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of Temple oranges; and compliance with this section will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., November 29, 1954, and ending at 12:01 a. m., e. s. t., December 27, 1954, no handler shall ship:

(i) Any Temple oranges, grown in the State of Florida, which do not grade at least U. S. No. 1 Russet.

(2) As used in this section, the terms "handler," "ship," and "Growers Administrative Committee" shall each have the same meaning as when used in said amended marketing agreement and order; and the term "U. S. No. 1 Russet" shall have the same meaning as when used in the revised United States Standards for Florida Oranges (§§ 51.1140 to 51.1186 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 23, 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Tangerine Reg. 153]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.709 *Tangerine Regulation 153*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than November 29, 1954. Shipments of tangerines, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order and will so continue until November 29, 1954; the recommendation and supporting information for continued regulation subsequent to November 28, 1954, was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on November 22; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., e. s. t., November 29, 1954, and ending at 12:01 a. m., e. s. t., December 27, 1954, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 2;

(ii) Any tangerines, grown in the State of Florida, which grade U. S. No. 2, that are of a size smaller than the size that will pack 176 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions $9\frac{1}{2}$ x $9\frac{1}{2}$ x $19\frac{1}{8}$ inches, capacity 1,726 cubic inches); or

(iii) Any tangerines, grown in the State of Florida, which grade U. S. No. 1 Russet, U. S. No. 1 Bronze, U. S. No. 1 or U. S. Fancy, that are of a size smaller than $2\frac{5}{16}$ inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of tangerines, smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the ap-

plication of tolerances, specified in the revised United States Standards for Florida Tangerines (§§ 51.1810 to 51.1836 of this title).

(2) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 2," "U. S. No. 1 Russet," "U. S. No. 1 Bronze," "U. S. No. 1," "U. S. Fancy," and "standard pack" shall have the same meaning as when used in the revised United States Standards for Florida Tangerines (§§ 51.1810 to 51.1836 of this title).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 23, 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 54-9382; Filed, Nov. 26, 1954; 8:51 a. m.]

[Docket No. AO 231-A5]

PART 943—MILK IN THE NORTH TEXAS MARKETING AREA

ORDER AMENDING THE ORDER, AS AMENDED, REGULATING HANDLING

§ 943.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the North Texas marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order, as amended, effective not later than December 1, 1954. Any delay beyond that date will seriously threaten the orderly marketing of milk in the North Texas marketing area.

The provisions of the said order are known to handlers. The decision of the Assistant Secretary containing all amendment provisions of this order was issued November 17, 1954. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective December 1, 1954 and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (See section 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order, amending the order, as amended, which is marketed within the North Texas marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (September 1954), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof, the handling of milk in the North Texas marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

Delete § 943.51 (a) (2) and substitute therefor the following:

(2) The Class I milk price for the months of December 1954 and January 1955 shall not be less than such price for November 1954.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 23d day of November 1954, to be effective on and after December 1, 1954.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

[F. R. Doc. 54-9385; Filed, Nov. 26, 1954; 8:52 a. m.]

[Lemon Reg. 565]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.672 *Lemon Regulation 565*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on November 23, 1954, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., November 28, 1954, and ending at 12:01 a. m., P. s. t., December 5, 1954, is hereby fixed as follows:

(i) District 1: 35 carloads;
(ii) District 2: 190 carloads;
(iii) District 3: 15 Carloads.

(2) As used in this section, "handled," "carloads," "District 1," "District 2," and "District 3" shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: November 24, 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 54-9425; Filed, Nov. 26, 1954; 8:53 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 44]

PART 600—DESIGNATION OF CIVIL AIRWAYS

EXPLANATION OF "MILE"

In accordance with the intent of the Knot Nautical Mile Plan now used in air navigation, the term "mile" wherever it appears in this part, means "statute mile" unless otherwise specifically stated herein. Since the substance of this amendment is of a minor nature, compliance with the notice procedures and effective date provisions of section 4 of the Administrative Procedure Act is unnecessary.

Part 600 is amended as follows:

1. Section 600.2 *Explanation of terms* is amended by adding a new paragraph (c) to read as follows:

§ 600.2 *Explanation of terms.* • • •

(c) As used in this part the term "mile" means "statute mile" unless otherwise specified in this part.

(Sec. 205, 52 Stat. 984, amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 986, as amended; 49 U. S. C. 452)

This amendment shall become effective upon publication in the FEDERAL REGISTER.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-9341; Filed, Nov. 26, 1954; 8:45 a. m.]

[Amdt. 44]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

EXPLANATION OF "MILE"

In accordance with the intent of the Knot/Nautical Mile Plan now used in air navigation, the term "mile" wherever it appears in this part, means "statute mile" unless otherwise specifically stated herein. Since the substance of this amendment is of a minor nature, compliance with the notice procedures and effective date provisions of section 4 of the Administrative Procedure Act is unnecessary.

Part 601 is amended as follows:

1. Section 601.2 *Explanation of terms* is amended by adding a new paragraph (d) to read as follows:

§ 601.2 *Explanation of terms.* • • •

(d) As used in this part the term "mile" means "statute mile" unless otherwise specified in this part.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective upon publication in the FEDERAL REGISTER.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-9342; Filed, Nov. 26, 1954; 8:45 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter IV—Joint Regulations of the Armed Forces

Subchapter A—Armed Services Procurement Regulation

PART 400—GENERAL PROVISIONS

SUBPART F—DEBARRED, INELIGIBLE AND SUSPENDED BIDDERS

Portions of this subpart have been revised to provide that the debarment or suspension of a firm or individual by the Secretary of a Department or his authorized representative shall operate to debar or suspend such firm or individual throughout the Department of Defense. The revised sections read as follows:

§ 400.604 *Causes and conditions under which departments may debar contractors.* The Secretary of each Department or his authorized representative is authorized to debar in the public interest a firm or an individual for any of the causes and under all conditions set forth in § 400.604–1. Debarment of a firm or individual by the Secretary of a Department or his authorized representative shall operate to debar such firm or individual throughout the Department of Defense.

§ 400.604–1 *Causes for debarment.* (a) Conviction by or a judgment obtained in a court of competent jurisdiction for (1) commission of fraud or a criminal offense as an incident to obtaining, attempting to obtain, or in the performance of a contract, and (2) violation of the Federal antitrust statutes arising out of the submission of bids or proposals. In the event appeal taken from such conviction or judgment results in reversal, the debarment shall be removed upon receipt of notification thereof. (Note, however, that the foregoing do not necessarily require that the firm or individual be debarred, and that the decision to debar is still within the discretion of the Secretary of the Department concerned or his authorized representative. The seriousness of the offense, the civil satisfaction received by or available to the Government, and all mitigating factors should be considered in making the determination to debar.)

(b) Clear and convincing evidence of violation of contract provisions, as set forth below, when such violations are of a character regarded by the Secretary of the Department involved or his authorized representative to be so serious as to justify debarment actions.

(1) Wilful failure to deliver in accordance with the specifications or within the times of delivery provided in a contract.

(2) A history of failure to perform or of unsatisfactory performance in accordance with the terms of one or more contracts, provided that the previous failure or failures by the Contractor are within a reasonable period of time preceding the determination to debar. Failure to perform caused by acts beyond the control of the Contractor shall not be considered.

(3) Violation of the contractual provision against contingent fees.

(4) Violation of the contractual provision against gratuities, as determined by the Secretary of a Department in accordance with the provisions of the gratuities clause.

(c) Debarment for any of the above causes by some other executive agency of the Government. Such debarment may be based entirely upon the record of facts obtained by the original debarring agency, or upon a combination of additional facts with the record of facts of the original debarring agency.

The requirement to furnish a copy of the notice of debarment action to the Comptroller General has been deleted from § 400.604–31 (b).

§ 400.604–3 *Notice of debarment.* (a) The firm or individual concerned shall be furnished with written notice of the debarment within 30 days after determination of debarment has been made. The notice shall state, as a minimum, (1) the period of debarment, including effective dates; (2) the reasons for debarment, including a statement of the specific instances of dereliction; and (3) that the debarment is effective throughout the Department of Defense. The notice shall also afford the contractor a reasonable opportunity to present information for consideration in his behalf.

(b) Copies of the notice of debarment action taken under the authority of paragraphs (c) and (d) of § 400.602 and of any removals from such debarments shall be furnished to the General Services Administration.

The provision that the debarment or suspension of a firm or individual by the Secretary of a Department or his

authorized representative shall operate to suspend such firm or individual throughout the Department of Defense has been added to § 400.605–1 as follows:

§ 400.605 *Suspension of bidders.*

§ 400.605–1 *Causes and conditions under which departments may suspend contractors.* The Secretary of a Department or his authorized representative may, in the interest of the Government, suspend a firm or individual suspected of having committed fraud or a criminal offense as an incident to obtaining, attempting to obtain, or in the performance of a contract. Suspension of a firm or individual by the Secretary of a Department or his authorized representative shall operate to suspend such firm or individual throughout the Department of Defense.

(R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21; 41 U. S. C. 151–161)

T. P. PIKE,
Assistant Secretary of Defense (Supply and Logistics).

[F. R. Doc. 54–9337; Filed, Nov. 26, 1954; 8:45 a. m.]

PART 405—FOREIGN PURCHASES

APPLICABILITY OF BUY AMERICAN ACT

A new § 405.103–3 has been added, clarifying the applicability of the Buy American Act to supplies manufactured from scrap metals. The former §§ 405.103–3 and 405.103–4 become §§ 405.103–4 and 405.103–5, respectively, as follows:

§ 405.103 *Applicability of Buy American Act.*

§ 405.103–3 *Secondary materials.* The prohibitions of the Buy American Act do not apply to supplies manufactured in the United States substantially all from scrap generated, collected, and prepared for processing in the United States.

§ 405.103–4 *Geographical application.* The Buy American Act applies only to (a) supplies for public use within the United States and (b) construction work on public buildings or public works within the United States. As used in the Buy American Act and in this section, the term "United States" includes the United States, its territories and possessions.

§ 405.103–5 *Nonavailability of supplies or materials.* The Buy American Act does not apply (a) to supplies which are not mined, produced, or manufactured, as the case may be, in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality, or (b) to such materials from which the supplies to be used are manufactured, as are not mined, produced, or manufactured, as the case may be, in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality, except that this does not permit delivery of supplies manufactured outside the United States if such supplies are manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality. This section shall be applied and used only in accordance with procedures prescribed by each respective Department.

(R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21; 41 U. S. C. 151–161)

T. P. PIKE,
Assistant Secretary of Defense (Supply and Logistics).

[F. R. Doc. 54–9338; Filed, Nov. 26, 1954; 8:45 a. m.]

PART 406—CONTRACT CLAUSES AND FORMS

REQUIRED CLAUSES; NONDISCRIMINATION IN EMPLOYMENT

The references in §§ 406.103–18 and 406.203–18 are changed from § 411.803 to § 411.804, as follows:

§ 406.103 *Required clauses.* • • •

§ 406.103–18 *Nondiscrimination in employment.* Insert the clause set forth in § 411.804 of this subchapter.

§ 406.203 *Required clauses.* • • •

§ 406.203–18 *Nondiscrimination in employment.* Insert the contract clause set forth in § 411.804 of this subchapter.

(R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21; 41 U. S. C. 151–161)

T. P. PIKE,
Assistant Secretary of Defense (Supply and Logistics).

[F. R. Doc. 54–9339; Filed, Nov. 26, 1954; 8:45 a. m.]

PART 411—LABOR

SUBPART H—NONDISCRIMINATION IN EMPLOYMENT

Subpart H has been revised in its entirety as follows:

Sec.
411.801 Basic requirement.
411.802 Applicability.
411.803 Special requirements or emergencies.
411.804 Contract clause.
411.805 Administration.
411.805–1 Educational responsibility.
411.805–2 Posting of notices.
411.805–3 Compliance reviews.
411.805–4 Complaints.
411.805–5 Incomplete complaints.
411.805–6 Processing of complaints.
411.805–7 Reporting channels.

AUTHORITY: §§ 411.801 to 411.805–7 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply 62 Stat. 21; 41 U. S. C. 151–161.

§ 411.801 *Basic requirement.* In accordance with the requirements of Executive Order 10557, dated September 3, 1954, contracts entered into by the Departments, with certain exceptions as set forth in § 411.802, are required to contain a clause, prescribed by the Executive Order, obligating the Contractor not to discriminate against any employee or applicant for employment because of race, religion, color or national origin, and further obligating the Contractor to insert a similar provision in his subcontracts.

§ 411.802 *Applicability.* The nondiscrimination requirements are applicable to prime contracts and first-tier subcontracts as herein provided.

(a) The nondiscrimination clause set forth in § 411.804 shall be included in all contracts involving the employment of labor except: (1) Contracts to be performed outside the continental United States where no recruitment of workers within the continental United States is involved, and (2) contracts to meet other special requirements or emergencies, if recommended by the Committee on Government Contracts. See § 411.803.

(b) The Contractor is required to insert paragraph (a) of the nondiscrimination clause set forth in § 411.804 in his subcontracts involving the employment of labor, except (as provided in the Executive Order) subcontracts of the kind described in paragraph (a) (1) and (2) of this section and subcontracts for standard commercial supplies or raw materials.

§ 411.803 *Special requirements or emergencies.* Where it is determined that special requirements or emergencies involved in a particular procurement are such that use of the clause set forth in § 411.804 in a contract or subcontract is impracticable, the Contracting Officer may request authority to omit the clause. Such requests will be submitted in accordance with Departmental procedures, together with all pertinent facts, to the Assistant Secretary of Defense (Supply and Logistics). The request shall then be coordinated with the President's Committee on Government Contracts.

§ 411.804 *Contract clause.* The nondiscrimination clause required by § 411.801 shall be as follows:

NONDISCRIMINATION IN EMPLOYMENT

(a) In connection with the performance of work under this contract, the Contractor agrees not to discriminate against any employee or applicant for employment because of race, religion, color, or national origin. The aforesaid provision shall include, but not be limited to, the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Contractor agrees to post hereafter in conspicuous places, available for employees and applicants for employment, notices to be provided by the Contracting Officer setting forth the provisions of the nondiscrimination clause.

(b) The Contractor further agrees to insert the foregoing provision in all subcontracts hereunder, except subcontracts for standard commercial supplies or raw materials.

§ 411.805 *Administration.* The Administration of the nondiscrimination clause shall be in accordance with the following policies and procedures.

§ 411.805–1 *Educational responsibility.* (a) Contracting officers and other personnel concerned with procurement shall, in accordance with Departmental procedures, be apprised of their responsibility in obtaining compliance with the nondiscrimination clause through education, and, where appropriate, mediation, conciliation, and persuasion.

(b) The Department shall publicize the nondiscrimination policy to prospective contractors and shall make available to contractors information concerning their responsibilities under the nondiscrimination clause.

§ 411.805–2 *Posting of notices.* To the extent required by § 411.804, Contracting Officers shall provide to prime Contractors copies of the notice (Dept. of Labor Req. No. 1074, GPO Jacket No. 300378) referred to in the nondiscrimination clause. Prime Contractors shall be required to obtain from the Contracting Officer copies for first-tier subcontractors.

§ 411.805–3 *Compliance reviews.* (a) Departmental procedures governing contract administration shall include a requirement for review and appraisal of Contractors' compliance with the provisions of the nondiscrimination clause. Where contract administration customarily includes review of subcontractors' performance, review, and appraisal of subcontractor, compliance with the nondiscrimination provision shall be required.

(b) Special reviews of representative contractors shall be conducted by the Departments in order to measure progress in the nondiscrimination program and to furnish educational data in connection with the program.

§ 411.805–4 *Complaints.* The Departments will promptly investigate complaints based upon alleged noncompliance with the provisions of the nondiscrimination clause, provided such complaints contain the following identifying information:

(a) The name and address of the Contractor or subcontractor alleged to have violated the provisions of the nondiscrimination clause;

(b) A description of the acts believed to be in violation of the nondiscrimination clause, including, where known, names of Contractor's personnel involved, and dates of alleged incidents;

(c) The name and address of each person who believes himself aggrieved by the alleged violation of the clause, and

(d) Other pertinent information which will assist investigation and resolution of the complaint.

§ 411.805–5 *Incomplete complaints.* To avoid unwarranted investigation of allegations which do not provide the essential information set forth in § 411.805–4, Departments may return such allegations to the originating source, specifying the additional information required.

§ 411.805–6 *Processing of complaints.* Complaints may be submitted to the President's Committee on Government Contracts, the Secretary of Defense, or the Military Departments. Normally, complaints should be submitted to the Military Department concerned through the cognizant Contracting Officer. Complaints submitted to the Military Departments in accordance with § 411.805–4, and determined to involve a Government contract or subcontract, shall be processed in accordance with departmental procedures which will assure:

(a) Prompt investigation of statements and allegations contained in the complaint. Such investigation should include, where necessary, (1) A review of the pertinent personnel practice of the Contractor or subcontractor concerned, (2) the circumstance under which the discriminatory action is alleged to have taken place, and (3) such other factors which may determine whether the Contractor or subcontractor in the particular case complied with the provisions of the nondiscrimination clause set forth in the contract concerned.

(b) Resolution of complaints by conciliatory means whenever possible.

(c) The preparation and submission, through prescribed channels, of a report to the President's Committee on Government Contracts setting forth (1) a copy of the complaint together with a summary of the investigative action performed by the Department concerned, (2) corrective action taken or recommended by the Department where investigation discloses a need for such action, (3) recommendations or comments in connection with the complaints which investigation disclosed as unfounded, and (4) information that the Department considers should be brought to the attention of the President's Committee.

§ 411.805–7 *Reporting channels.* Reports in connection with complaints shall be forwarded, in duplicate, through Departmental channels to the Assistant Secretary of Defense (Supply and Logistics) for transmittal to the President's Committee on Government Contracts.

T. P. PIKE,
Assistant Secretary of Defense (Supply and Logistics).

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order VII–7, Amdt. 2]

DMO VII–7—MAINTENANCE OF THE MOBILIZATION BASE

MISCELLANEOUS AMENDMENTS

Defense Mobilization Order VII–7 is hereby amended as follows:

1. In subparagraph 3A2, delete the last sentence.

2. Delete subparagraph 4A4.

3. Add a new paragraph 5 reading as follows:

5. The Department of Defense, the Atomic Energy Commission and the Maritime Administration shall furnish the Director of the Office of Defense Mobilization with such periodic and special reports as he may require of their activities affecting the maintenance of the mobilization base.

4. Renumber old paragraph 5 to read "6".

This amendment shall take effect immediately.

OFFICE OF DEFENSE MOBILIZATION,
ARTHUR S. FLEMMING,
Director.

PROPOSED RULE MAKING

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 240]

WINE

NOTICE OF PROPOSED RULE-MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to the final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, *in duplicate*, to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., within the period of 15 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805, of the Internal Revenue Code (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

PART 240—WINE

Preamble: 1. These regulations, Part 240, Title 26, of the Code of Federal Regulations, shall, on and after January 1, 1955, supersede Regulations 7, 1945 edition (26 CFR Part 178; 10 F. R. 12307) as amended by Treasury Decisions 5575 (12 F. R. 5947), 5584 (12 F. R. 7858), 5717 (14 F. R. 4898), 5738 (14 F. R. 5521), 5798 (15 F. R. 4783), 5824 (16 F. R. 122), 5830 (16 F. R. 1675), 5895 (17 F. R. 3640), 6032 (18 F. R. 4401), 6045 (18 F. R. 6732), 6075 (19 F. R. 4025) and 6084 (19 F. R. 5059).

2. These regulations shall not affect any act done or any liability or right accruing or accrued, or any suit or proceeding had or commenced in any civil cause before the effective date of these regulations.

Subpart A—Scope

Sec.
240.1 Production and removal of wine.
240.2 Forms prescribed.

Subpart B—Definitions

240.10 Meaning of terms.
240.11 Agricultural wine.
240.12 Allied products.
240.13 Amelioration.
240.14 Artificially carbonated wine.
240.15 Assistant Regional Commissioner.
240.16 Bonded wine cellar.
240.17 Commissioner.
240.18 Container.
240.19 Director, Alcohol and Tobacco Tax Division.
240.20 District director.
240.21 Effervescent wine.
240.22 Foreign wine.
240.23 Fruit wine.
240.24 Gallon.
240.25 General bonded area.
240.26 Heavy bodied blending wine.
240.27 In bond.
240.28 Including.
240.29 Inclusive language.
240.30 Intermediate storage.
240.31 I. R. C.
240.32 Juice.
240.33 Lees.
240.34 Natural wine.
240.35 Own production.
240.36 Permanent storage.
240.37 Proof.
240.38 Proof gallon.
240.39 Proprietor.
240.40 Pure sugar.
240.41 Regional Commissioner.
240.42 Reserve inventory.
240.43 Same kind of fruit.
240.44 Sparkling wine.
240.45 Special natural wine.
240.46 Specially sweetened natural wine.
240.47 Standard agricultural wine.
240.48 Standard wine.
240.49 Still wine.
240.50 Taxpaid wine.
240.51 Total solids.
240.52 U. S. C.
240.53 United States wine.
240.54 Wine.
240.55 Wine spirits.
240.56 Exception.

Subpart C—Establishment of Premises

240.120 Bonded wine cellars.
240.121 Wine warehouses.
240.122 Designation of premises.
240.123 Bonded premises heretofore established.
240.124 Bottling of taxpaid wine.

Subpart D—Use of Bonded Wine Cellars

240.130 Activity on bonded wine cellar premises.
240.131 Segregation of operations.
240.132 Commercial fruit products and by-products.
240.133 Storage of taxpaid wine.

Subpart E—Construction

240.140 Buildings or rooms of bonded wine cellars.
240.141 Means of ingress and egress.
240.142 Wine spirits storage room.
240.143 Government office.
240.144 Government cabinet.
240.145 Taxpaid room.

Subpart F—Equipment

240.160 Location of tanks.
240.161 Catwalks for tanks.
240.162 Capacity of tanks.
240.163 Markings on fermenting and storage tanks.
240.164 Markings on other tanks.
240.165 Markings on puncheons and barrels.
240.166 Wine spirits storage tanks, weighing tanks, and measuring tanks.
240.167 Securing of wine spirits storage tanks, weighing tanks, and measuring tanks.
240.168 Measuring devices.
240.169 Wine spirits pipelines.
240.170 Taxpayment tank.
240.171 Taxpaid wine pipeline.
240.172 Other wine pipelines.
240.173 Other equipment, instruments and measures.
240.174 Test weights.

Subpart G—Qualifying Documents

240.190 Application, Form 698.
240.191 Permit required.
240.192 Operating name.
240.193 Designation as bonded winery.
240.194 Location of premises.
240.195 Description of premises.
240.196 Description of buildings and rooms.
240.197 Description of equipment.
240.198 Wine spirits addition tanks.
240.199 Amended and supplemental applications.
240.200 New application may be required.
240.201 Bonded wine warehouse application.
240.202 Individual owners, copartnerships, or associations.
240.203 Corporate documents.
240.204 List of stockholders.
240.205 Power of attorney, Form 1534.
240.206 Execution of power of attorney.
240.207 Duration of power of attorney.
240.208 Bond, Form 700.
240.209 Plat.
240.210 Additional information.
240.211 Authority to approve.
240.212 Disposition of documents.
240.213 Retention of documents.

Subpart H—Bonds and Consents of Surety

240.220 General requirements.
240.221 Bond, Form 700.
240.222 Tax deferral bond, Form 2053.
240.223 Export bond, Form 186.
240.224 Transportation bond, Form 1580.
240.225 Bond, Form 1676.
240.226 Corporate surety.
240.227 Two or more corporate sureties.
240.228 Powers of attorney.
240.229 Collateral security.
240.230 Deposit of collateral.
240.231 Consents of surety.
240.232 Strengthening bonds.
240.233 New bond.
240.234 Superseding bond.

APPROVAL OR DISAPPROVAL OF BONDS

240.235 Authority.
240.236 Disapproval.
240.237 Appeal to Director.
240.238 Disapproval of Director final.

Subpart I—Termination of Bonds

240.250 Termination of bonds, Forms 700 or 2053.
240.251 Termination of bonds, Form 186, Form 1580, or Form 1676.

APPLICATION OF SURETY FOR RELIEF FROM BOND

240.252 Application by surety.
240.253 Extent of relief, Form 700.
240.254 Extent of relief, Form 2053.
240.255 Extent of relief, Form 186, Form 1580 and Form 1676.

NOTICE OF RELEASE OR TERMINATION

240.256 Release or termination of Form 700 or Form 2053.
240.257 Release or termination, Form 186, Form 1580 or Form 1676.

RELEASE OF COLLATERAL

240.258 Release of collateral, Form 700 or Form 2053.
240.259 Release of collateral, Form 186, Form 1580, or Form 1676.

Subpart J—Plat

240.270 Plat required.
240.271 Preparation.
240.272 Depiction of premises.
240.273 Contiguous or adjacent premises.
240.274 Certificate of accuracy.

Subpart K—Requirements Governing Changes in Name, Proprietorship and Control

240.280 General requirements.

CHANGE IN INDIVIDUAL, FIRM, OR CORPORATE NAME

240.281 Amended application, Form 698, and amended basic permit.
240.282 Amended articles of incorporation, etc.

Sec.
240.283 Amended articles of copartnership or association.
240.284 Records.

CHANGE IN PROPRIETORSHIP

240.285 Nonfiduciary successor.
240.286 Fiduciary.
240.287 Exception.
240.288 Failure of receiver or trustee of bonded wine cellar to qualify.
240.289 Consent of surety.
240.290 Plat.
240.291 Approval required.
240.292 Successor to bonded wine cellar with bonded wine warehouse.

OTHER CHANGES IN PROPRIETORSHIP OR CONTROL

240.293 Change in partnership.
240.294 Exception.
240.295 Reincorporation.
240.296 Changes in stockholders of a corporation.

Subpart L—Requirements Governing Changes in Location, Premises, and Equipment

240.310 Change in location.
240.311 Change in premises.
240.312 Changes in construction, use, and equipment.
240.313 Approval required.

Subpart M—Discontinuance of Business

240.320 Notice.
240.321 Final report, Form 702.
240.322 Discontinuance of bonded wine warehouse.

Subpart N—Special (Occupational) Taxes

240.340 Wholesale and retail liquor dealer.
240.341 Exemption of proprietor.
240.342 Place of exemption.
240.343 Annual special tax.
240.344 Business commenced after July 31.

Subpart O—Production of Wine

240.350 Kinds of wine authorized.
240.351 Production on standard wine premises.
240.352 Other wine production.
240.353 Concentrated fruit juice.
240.354 Sugar.
240.355 Exemption from rectification tax.
240.356 Use of essences, flavors, or colors, prohibited.

Subpart P—Production and Treatment of Natural Grape Wine

240.360 General.

PRODUCTION WITHOUT THE USE OF SUGAR

240.361 Materials.
240.362 Crushing and fermentation.
240.363 Use of grape juice and concentrated grape juice for sweetening.
240.364 Acids.

PRODUCTION WITH THE USE OF SUGAR

240.365 Materials.
240.366 Limitations on amelioration.
240.367 Record of production.
240.368 Sweetening in permanent storage.
240.369 Reserve inventory.
240.370 Sweetening of grape wine in reserve inventory.
240.371 Limitations on grape wine in reserve inventory.
240.372 Transfer of wine from reserve inventory.
240.373 High acid grape wine not transferred to reserve inventory.

ADDITION OF WINE SPIRITS

240.374 General.
240.375 Application for release of wine spirits.
240.376 Gauge of wine spirits.
240.377 Wine spirits in tanks.
240.378 Wine spirits in packages.
240.379 Report of addition of wine spirits.
240.380 Samples.
240.381 Addition of wine spirits to other grape wine.
240.382 Addition of wine spirits to juice or concentrated juice.
240.383 Storage of juice and concentrated juice to which wine spirits have been added.

OTHER CELLAR TREATMENT

240.384 Baking of wine.
240.385 Production of Flor sherry wine.
240.386 Blending.

Subpart Q—Production and Treatment of Natural Fruit Wine

240.400 General.

PRODUCTION WITHOUT THE USE OF SUGAR

240.401 Materials.
240.402 Crushing and fermentation.
240.403 Use of juice and concentrated juice for sweetening.
240.404 Acids.

PRODUCTION WITH THE USE OF SUGAR

240.405 Materials.
240.406 Ameliorating and sweetening with dry sugar only.
240.407 Limitations on other amelioration.
240.408 Record of production.
240.409 Reserve inventory.
240.410 Fruit wine not transferred to reserve inventory.
240.411 Addition of wine spirits.
240.412 Blending.

Subpart R—Specially Sweetened Natural Wine

240.430 Production.
240.431 Blending.

Subpart S—Special Natural Wine

240.440 Materials.
240.441 Formula required.
240.442 Formulas previously approved.
240.443 Production by fermentation.
240.444 Use of natural wine in production of special natural wine.
240.445 Essences.
240.446 Essences produced on the premises.
240.447 Essences made elsewhere.
240.448 Blending.

Subpart T—Agricultural Wine

240.460 General.

PRODUCTION

240.461 Raisin wine.
240.462 Other dried fruits.
240.463 Honey wine.
240.464 Other agricultural products.
240.465 Formula required.
240.466 Prohibited agricultural products.

Subpart U—Wine Other Than Standard Wine

240.480 Use of premises.
240.481 Classes of wine other than standard wine.
240.482 Formula required.
240.483 High fermentation wine.
240.484 Heavy bodied blending wine.
240.485 Spanish type blending sherry.
240.486 Distilling material.
240.487 Vinegar stock.
240.488 Other wines.
240.489 Spoiled wine.

Subpart V—Refermentation of Wine and Wine Lees

240.500 General.
240.501 Application.

Subpart W—Production of Effervescent Wine

240.510 General.
240.511 Segregation of operations.
240.512 Process and materials.
240.513 Statement of process for effervescent wine.

Subpart X—Storage and Finishing of Wine

240.520 Storage of wine.
240.521 Sun baking of wine.
240.522 Marking storage containers.
240.523 Sterilizing and preserving.
240.524 Finishing of wine.
240.525 Use of tannin.
240.526 Stabilizing grape wine.
240.527 Removal of excessive color in white wine.
240.528 Filter aids.
240.529 Materials authorized for treatment of wine.
240.530 Notice.

Subpart Y—Tax-Free Production

PRODUCTION FOR FAMILY USE

240.540 Registered producer.
240.541 Limitations of exemption.
240.542 Registration, Form 1541.
240.543 Removal of wine.

CIDER

240.544 General.

EXPERIMENTAL WINE

240.545 General.
240.546 Application.
240.547 Commencement of operations.
240.548 Procurement of wine spirits.
240.549 Records.
240.550 Discontinuance of experimental wine operations.

Subpart Z—Containers for Removal of Wine

240.560 Kinds of containers.
240.561 Serial numbers.
240.562 Marks.
240.563 Labels and tags.
240.564 Other marks.
240.565 Destruction of marks.
240.566 Alcohol content.
240.567 Fractional parts of gallons.
240.568 Route board on tank trucks and tank cars.
240.569 Single compartment trucks and cars.
240.570 Multiple compartment trucks and cars.
240.571 Tank ships, barges, and deep tanks of vessels.
240.572 Application for authority to use tank ships, barges and deep tanks of vessels.
240.573 Sealing of tanks.
240.574 Reused barrels.
240.575 Remarking containers received from other premises.
240.576 Pipeline to or from tank cars or ships.
240.577 Shipments by tank car to and from premises without railroad siding facilities.
240.578 Contents of packages and bottles.
240.579 Labeling bottled wine.

LABELS AND MARKS SUBJECT TO APPROVAL

240.580 Certificates of approval or exemption.
240.581 Certificates to be exhibited.
240.582 Relabeling bottled wine.
240.583 Proprietor's responsibility.

Subpart AA—Taxpayment of Wine

240.590 Time for determination of tax liability.
240.591 Time for payment of tax.
240.592 Failure to pay tax at the time required.
240.593 Prepayment of tax.
240.594 Tax on wine.
240.595 Marking of containers.

REMOVAL FOR TAXPAYMENT BY PIPELINE

240.596 General.
240.597 Procedure for determination of tax.

Subpart BB—Transfer of Wine in Bond to Other Bonded Wine Cellars

Sec.
240.610 General.
240.611 Marking containers.
240.612 Transfer of wine by pipeline.
240.613 Use of Form 703.
240.614 Preparation and handling of Form 703.
240.615 Receipt of wine in bond.
240.616 Losses in transit.
240.617 Reconsignment of in-bond shipments of wine.
240.618 Reconsignment by consignor.
240.619 Reconsignment by consignee.

Subpart CC—Removal of Wine for Use as Distilling Material

240.630 General.
240.631 Pipeline to distillery or alcohol plant.
240.632 Special natural wine.
240.633 Report of removal.
240.634 Marking of containers.

Subpart DD—Removal of Still Wine for Manufacture of Vinegar

240.650 General.
240.651 Removal to adjacent vinegar plant.
240.652 Consent of surety.
240.653 Removal to vinegar plant covered by bond, Form 1676.
240.654 Removals by pipeline.
240.655 Marking containers.
240.656 Receipt of wine at vinegar plants.
240.657 Vinegar plant records.
240.658 Inspection of vinegar plants.

REMOVAL OF SOURED WINE AS VINEGAR

240.659 General.
240.660 Application for removal.
240.661 Marking containers.
240.662 Records.

Subpart EE—Exportation of Wine Free of Tax

240.670 General.
240.671 Application and entry, Form 711.
240.672 Marking containers.
240.673 Delivery or consignment to Collector of Customs, wine exported by vessel or aircraft.
240.674 Customs inspection when exported by vessel or aircraft.
240.675 Evidence of fraud.
240.676 Delay in lading at port.
240.677 Bill of lading.
240.678 Exportation through frontier port, by railway car, motor truck, or other conveyance.
240.679 Exportation in sealed railroad cars or trucks from port of entry through another port.
240.680 Inspection at frontier port.
240.681 Shipment to American possessions.

Subpart FF—Withdrawal of Wine Free of Tax for Use on Certain Vessels and Aircraft

240.690 Withdrawal free of tax.
240.691 Reciprocating foreign countries.
240.692 Procedure.
240.693 Application and entry for use on vessels, Form 711–B.
240.694 Application and entry for use on aircraft, Form 711–B.
240.695 Marking of containers.
240.696 Delivery or consignment of supplies for vessels.
240.697 Delivery or consignment of supplies for aircraft.
240.698 Customs inspection of wine laden on vessels.
240.699 Wine for use as supplies on aircraft.
240.700 Certificate of use for wine used as supplies on aircraft.
240.701 Certificate of receipt of wine for use on vessels.

Subpart GG—Transfer of Wine to Customs Manufacturing Bonded Warehouse

240.710 General.
240.711 Application and entry, Form 711–A.
240.712 Marking containers.
240.713 Consignment of wine.
240.714 Customs inspection.
240.715 Evidence of fraud.

Subpart HH—Removal of Wine for Federal or State Use

240.720 General.

USE OF THE UNITED STATES

240.721 Marking containers.
240.722 Bill of lading and report of shipment.

USE OF STATES, TERRITORIES, AND DISTRICT OF COLUMBIA

240.723 Application.
240.724 Approval of application.
240.725 Marking containers.
240.726 Bill of lading and report of shipment.

Subpart II—Other Tax-Free Removals

240.730 Removal for family use.

REMOVAL OF WINE FOR EXPERIMENTAL OR RESEARCH PURPOSES

240.731 Application.
240.732 Shipment of wine.

Subpart JJ—Tax-Free Samples of Wine

240.740 General.

SAMPLES FOR USE OFF BONDED WINE CELLAR PREMISES

240.741 Application.
240.742 Disposition of samples.
240.743 Records.
240.744 Labeling of samples.

SAMPLES FOR USE ON BONDED WINE CELLAR PREMISES

240.745 For analysis.
240.746 For tasting and testing.

Subpart KK—Destruction of Wine

240.750 General.
240.751 Application to assistant regional commissioner.
240.752 Explanation required.
240.753 Record of destruction.

Subpart LL—Disposition of Lees, Including Filter Wash and Other Residues

240.760 Removal as by-product.
240.761 Removal as distilling material.
240.762 Application for destruction or removal.
240.763 Record.

Subpart MM—Change of Sparkling and Artificially Carbonated Wine Into Still Wine

240.770 Conversion into still wine.
240.771 Conversion of 30 gallons or more.
240.772 Conversion of less than 30 gallons.
240.773 Records.

Subpart NN—Losses of Wine in Bond

240.780 Losses by theft.
240.781 Unauthorized voluntary destruction.
240.782 Other losses.
240.783 Losses during fiscal year.
240.784 Calculation.
240.785 Losses in transit.
240.786 Losses by fire or other casualty.

APPLICATION FOR ALLOWANCE

240.787 Preparation and submission.
240.788 Form of application.
240.789 Supporting documents.
240.790 Insurance coverage.

Subpart OO—Return of Unmerchantable Taxpaid Wine to Bonded Wine Cellar

240.800 General.
240.801 Receipt.
240.802 Transfer to general bonded area.
240.803 Reconditioning and removal.
240.804 Taxpayment of additional quantity.
240.805 Records.
240.806 Destruction of returned taxpaid wine.
240.807 Retaxpayment of returned United States wine.

REFUND OF TAX ON UNMERCHANTABLE WINE

240.808 General.
240.809 Refund, credit, or relief.
240.810 Claim for refund or credit.
240.811 Relief.

Subpart PP—Withdrawal of Wine Spirits for Wine Production

240.820 General.
240.821 Who may withdraw.
240.822 Application, Form 257.
240.823 Filing of Form 257.
240.824 Transfer of wine spirits.
240.825 Monthly withdrawals.
240.826 Receipt of wine spirits in packages.

RECEIPT OF WINE SPIRITS BY PIPELINE

240.827 General.
240.828 Transfer of wine spirits by pipeline for immediate use.
240.829 Transfer of wine spirits by pipeline to wine spirits storage tank in wine cellar.

WITHDRAWAL OF WINE SPIRITS IN TANK CARS AND TANK TRUCKS

240.830 General.
240.831 Tank car and tank truck requirements.
240.832 Examination of tank car or tank truck upon arrival at wine cellar.
240.833 Report of gauge at wine cellar.

RECORD AND SUPERVISION

240.834 Disposition of Form 257.
240.835 Waiver of requirements of supervision.

WITHDRAWAL OF WINE SPIRITS FOR USE IN EFFERVESCENT WINE OR SPECIAL NATURAL WINE PRODUCTION

240.836 Withdrawal from distillery or warehouse.
240.837 Withdrawal from wine spirits storage room.

SAMPLES OF WINE SPIRITS

240.838 Limitations.
240.839 Application.

Subpart QQ—Losses of Wine Spirits in Bond

240.850 Taxable losses.
240.851 Insurance coverage.
240.852 All other causes.

DETERMINATION OF LOSSES

240.853 In transit.
240.854 In wine cellar.

CLAIMS FOR LOSSES

240.855 When required.
240.856 When not required.
240.857 Form of claim.
240.858 Supporting documents.
240.859 Filing of claims.

Subpart RR—Disposition of Unused Wine Spirits

240.870 General.
240.871 Application to dispose of wine spirits.
240.872 Transfer to bonded warehouse or wine cellar.
240.873 Taxpayment.
240.874 Disposition of spirits.

Subpart SS—Tax Liability for Wine Spirits Withdrawn for Wine Production

240.880 Charge against proprietor.
240.881 Assessment of tax.

Subpart TT—Production and Storage of Allied Products

Sec.
240.890 Application.
240.891 Segregation.
240.892 Records.

Subpart UU—Records and Reports

240.900 Form 702.
240.901 Form 2050.
240.902 Form 2052.
240.903 Form 702–C.
240.904 Form 675 and Form 1520.
240.905 Prescribed forms.
240.906 Form 2054, wine fermentation record.
240.907 Form 2055, wine reserve inventory record.
240.908 Form 2056, record of still wine.
240.909 Form 2057, record of effervescent wine.
240.910 Form 2058, special natural wine production record.
240.911 Form 2059, record of distilling material or vinegar stock.
240.912 Form 2060, record of wine cases filled.
240.913 Substitute record.
240.914 Sugar record.
240.915 Separate record of materials received and used.
240.916 Varietal and vintage wine records.
240.917 Record of use of acids.
240.918 Other chemicals.
240.919 Record of wine baked.
240.920 Record of taxpaid removals from bond.
240.921 Taxpaid room record.
240.922 Time of making entries.

RETENTION OF RECORDS

240.923 Filing of forms.
240.924 Period of retention.
240.925 Records available for inspection.

Subpart VV—Miscellaneous Provisions

240.940 Exceptions to construction and equipment requirements.
240.941 Exceptions to methods of operation.
240.942 Application.
240.943 Assessment of tax.

Subpart WW—Examination of Premises

240.950 Officer's right of entry and examination.

Subpart XX—Calculations for Wine Production

240.960 Limitations on amelioration for fruits and berries other than currants, gooseberries or loganberries.
240.961 Volume of ameliorating material allowed for each 1,000 gallons of juice or wine for various acid content (except currants, gooseberries, or loganberries).
240.962 Limitations on amelioration for currants, gooseberries, or loganberries.

DETERMINATION OF THE ACIDITY OF JUICE

240.963 Apparatus necessary.
240.964 Solutions necessary.
240.965 Use and care of the burette.
240.966 Use and care of the pipette.
240.967 Selection of sample.
240.968 Measuring the sample of juice.
240.969 The titration.
240.970 Examples.
240.971 Precautions for the titration.

DETERMINATION OF TOTAL SOLIDS AND SUGAR SOLIDS

240.972 Total solids in juice.
240.973 Correction to be applied to the reading of the Brix saccarometer for different temperatures.
240.974 Explanation of Table III.
240.975 Total solids and sugar solids in wine.

USE OF DRY SUGAR TO CORRECT JUICE (OTHER THAN GRAPE) TO 23 DEGREES BRIX

Sec.
240.976 Instructions.
240.977 Example.
240.978 Pounds of commercial dextrose or cane or beet sugar required to raise one gallon of juice to 23 degrees Brix and the resultant gallonage.

DILUTION OF CONCENTRATED JUICE

240.979 Instructions.
240.980 Gallons of water required to reduce one gallon of concentrated juice to a desired degree Brix.

EBULLIOMETERS

240.981 General characteristics.
240.982 Kinds of ebulliometers authorized.
240.983 Dilution of wine.
240.984 Determining boiling point.
240.985 Care of instrument.
240.986 Alcohol lamp.

BRAUN EBULLIOMETER

240.987 General.
240.988 Determination of boiling point of water.
240.989 Determination of boiling point of diluted wine.
240.990 Reading alcohol percentage.
240.991 Precautions.

JUERST EBULLIOMETER

240.992 Determination of the boiling point of water.
240.993 Determination of the boiling point of the wine.
240.994 Reading of the alcohol table.
240.995 Alcohol table for Juerst's ebulliometer.

LEFCO EBULLIOMETER

240.996 Determination of the boiling point of water.
240.997 Determination of the boiling point of wine.
240.998 Directions for reading alcohol table.
240.999 Alcohol table for Lefco ebulliometer.

MALLIGAND TYPE EBULLIOSCOPES

240.1000 Determination of the boiling point of water.
240.1001 Determination of the boiling point of diluted wine.
240.1002 Care of the instrument.
240.1003 Care of alcohol lamp.

SALLERON-DUJARDIN EBULLIOSCOPE

240.1004 Apparatus.
240.1005 Determination of boiling point of water.
240.1006 Determination of alcohol content of wine.

TAG-TWIN EBULLIOMETER

240.1007 Determining boiling points.
240.1008 Determining percentage of alcohol.

CARE OF THERMOMETERS

240.1009 Precautions.
240.1010 Separation of mercury column.
240.1011 Salleron-DuJardin instructions.
240.1012 Tag-Twin instructions.
240.1013 Malligand instructions.
240.1014 Juerst instructions.

METHOD OF DETERMINING THE QUANTITY OF WINE SPIRITS TO BE ADDED TO WINE TO PRODUCE A DESIRED ALCOHOL CONTENT

240.1015 Determination of the quantity required in wine gallons.
240.1016 Examples of use of formula.
240.1017 Determination of the quantity of wine spirits in pounds.
240.1018 Table for finding the quantity of wine spirits in pounds.
240.1019 Instructions for use of Table VIII.
240.1020 Examples.

RULES FOR FINDING CAPACITY AND CONTENTS OF TANKS

240.1021 Round tanks of uniform dimensions, standing on end.
240.1022 Examples.
240.1023 Round tanks standing on end and larger at bottom than at top, but not bulged in the middle.
240.1024 Examples.
240.1025 Round tanks or casks bulged in the middle.
240.1026 Example.
240.1027 Square or rectangular tanks or vats with perpendicular sides.
240.1028 Square or rectangular tanks or vats larger at the top than at the bottom, or vice versa.
240.1029 Examples.

AUTHORITY: §§ 240.1 to 240.1029 issued under 68A Stat. 917; 26 U. S. C. 7805. Other statutory provisions interpreted or applied are cited to text in parentheses.

SUBPART A—SCOPE

§ 240.1 *Production and removal of wine.* Regulations in this part relate to the production and removal of wine, including special natural wine and effervescent wine, from bonded wine cellars. The regulations cover the establishment and operation of bonded wine cellars for the production, amelioration, sweetening, addition of wine spirits, blending, and other cellar treatment, storage, taxpayment, transfer to customs manufacturing warehouse and removal for exportation, for experimental or research purposes by scientific institutions, for analysis or testing by or for the proprietor of a bonded wine cellar, for use of the Government of the United States, for analysis, testing, research or experimentation by the governments of the several States, for use as distilling material, or for use in the manufacture of vinegar.

§ 240.2 *Forms prescribed.* The Director, Alcohol and Tobacco Tax Division is authorized to prescribe all forms required by this part, including bonds, applications, notices, reports, returns, and records. Information called for shall be furnished in accordance with the instructions on the forms or issued in respect thereto.

SUBPART B—DEFINITIONS

§ 240.10 *Meaning of terms.* As used in this part, except as otherwise indicated in the context, terms shall have the meanings ascribed in this subpart.

§ 240.11 *Agricultural wine.* "Agricultural wine" shall mean wine made from suitable agricultural products other than the juice of grapes, berries, or other fruits.

§ 240.12 *Allied products.* "Allied products" shall mean commercial fruit products and by-products not taxable as wine.

§ 240.13 *Amelioration.* "Amelioration" shall mean the addition to juice or wine, before or during fermentation (in fermenters or intermediate storage), of either water or pure sugar, or a combination of water and pure sugar, to adjust the acid content or to develop alcohol by fermentation.

§ 240.14 *Artificially carbonated wine.* "Artificially carbonated wine" shall mean effervescent wine artificially charged with carbon dioxide.

§ 240.15 *Assistant Regional Commissioner.* "Assistant Regional Commissioner" shall mean the Assistant Regional Commissioner, Alcohol and Tobacco Tax, who is responsible to, and functions under the direction and supervision of, the Regional Commissioner of Internal Revenue.

§ 240.16 *Bonded wine cellar.* "Bonded wine cellar" shall mean premises established under the provisions of subpart C, and shall include premises designated as "bonded winery."

§ 240.17 *Commissioner.* "Commissioner" shall mean the Commissioner of Internal Revenue.

§ 240.18 *Container.* "Container" shall mean any case, cask, barrel, keg, pipeline, tank, tank truck, railroad tank car, or other approved container (except bottles having a capacity of one gallon or less) used to remove wine from bonded wine cellars.

§ 240.19 *Director, Alcohol and Tobacco Tax Division.* "Director, Alcohol and Tobacco Tax Division," shall mean the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Treasury Department, Washington, D. C.

§ 240.20 *District director.* "District director" shall mean the district director of internal revenue.

§ 240.21 *Effervescent wine.* "Effervescent wine" shall mean sparkling wine and artificially carbonated wine.

§ 240.22 *Foreign wine.* "Foreign wine" shall mean wine produced outside the continental United States, Alaska, and Hawaii.

§ 240.23 *Fruit wine.* "Fruit wine" shall mean wine made from the juice of sound, ripe fruit (including berries) other than grapes.

§ 240.24 *Gallon.* "Gallon" or "wine gallon" shall mean a United States gallon of liquid measure equivalent to the volume of 231 cubic inches.

§ 240.25 *General bonded area.* "General bonded area" shall mean the unsegregated portion of the bonded wine cellar not set aside and designated for a particular use.

§ 240.26 *Heavy bodied blending wine.* "Heavy bodied blending wine" shall mean wine made from fruit without added sugar, with or without added wine spirits, and conforming to the definition of natural wine in all respects except as to maximum total solids content.

§ 240.27 *In bond.* "In bond," as applied to wine or wine spirits, shall mean wine or wine spirits possessed or in transit under any bond required by this part.

§ 240.28 *Including.* "Including" shall not be deemed to exclude things other than those enumerated which are in the same general class.

§ 240.29 *Inclusive language.* Words in the plural form shall include the singular and vice versa, and words in the masculine gender shall include the feminine, a trust, estate, partnership, company, or corporation.

§ 240.30 *Intermediate storage.* "Intermediate storage" shall mean storage of wine (including wine held in fermenting tanks) pending completion of amelioration or fermentation.

§ 240.31 *I. R. C.* "I. R. C." shall mean the Internal Revenue Code of 1954.

§ 240.32 *Juice.* "Juice" (or "must") shall mean the unfermented juice of fruit, berries and authorized agricultural products, exclusive of pulp, skins, or seeds.

§ 240.33 *Lees.* "Lees" shall mean the settlings of wine.

§ 240.34 *Natural wine.* "Natural wine" shall mean wine produced in accordance with section 5381, I. R. C., and §§ 240.360 and 240.400.

§ 240.35 *Own production.* "Own production," when used with reference to wine in a bonded wine cellar, shall mean wine produced by fermentation in the same bonded wine cellar.

§ 240.36 *Permanent storage.* "Permanent storage" shall mean storage of wine not held in intermediate storage or in reserve inventory.

§ 240.37 *Proof.* "Proof" shall mean the ethyl alcohol content of a liquid at 60 degrees Fahrenheit, stated as twice the percent of ethyl alcohol by volume.

§ 240.38 *Proof gallon.* "Proof gallon" shall mean the alcoholic equivalent of a United States gallon at 60 degrees Fahrenheit, containing 50 percent of ethyl alcohol by volume.

§ 240.39 *Proprietor.* "Proprietor" shall mean the operator of a bonded wine cellar, and shall include the term "winemaker" when the context so requires.

§ 240.40 *Pure sugar.* "Pure sugar" shall mean pure refined cane or beet sugar, or pure refined anhydrous or monohydrate dextrose, of not less than 95 percent purity calculated on a dry basis: *Provided*, That invert sugar syrup produced from such pure sugar by recognized methods of inversion may be used to prepare any sugar syrup, or solution of water and pure sugar.

§ 240.41 *Regional Commissioner.* "Regional Commissioner" shall mean the Regional Commissioner of Internal Revenue in each of the internal revenue regions.

§ 240.42 *Reserve inventory.* "Reserve inventory" shall mean a quantity of wine, stored and accounted for separately from other wine, held for cellar treatment after removal from fermenters or intermediate storage.

§ 240.43 *Same kind of fruit.* "Same kind of fruit" shall mean, in the case of grapes, all of the several species and varieties of grapes. In the case of fruits other than grapes, this term includes all of the several species and varieties of any given kind: *Provided*, That this shall not preclude a more precise identification of the composition of the product for the purpose of its designation.

§ 240.44 *Sparkling wine.* "Sparkling wine," including champagne, shall mean effervescent wine charged with carbon dioxide, resulting from fermentation of the wine within a closed container or bottle.

§ 240.45 *Special natural wine.* "Special natural wine" shall mean a product, such as vermouth, made pursuant to an approved formula in accordance with the provisions of section 5386, I. R. C., and Subpart S of this part.

§ 240.46 *Specially sweetened natural wine.* "Specially sweetened natural wine" shall mean a product having a sugar solids content in excess of 15 percent by weight and an alcohol content of less than 14 percent by volume, made in accordance with the provisions of section 5385, I. R. C., and Subpart R of this part.

§ 240.47 *Standard agricultural wine.* "Standard agricultural wine" shall mean agricultural wine made within the limitations of Subpart T of this part.

§ 240.48 *Standard wine.* "Standard wine" shall mean natural wine, specially sweetened natural wine, special natural wine and standard agricultural wine, produced in accordance with the provisions of sections 5381, 5385, 5386, and 5387 of the Internal Revenue Code and Subparts P, Q, R, S, and T of this part.

§ 240.49 *Still wine.* "Still wine" shall mean noneffervescent wine.

§ 240.50 *Taxpaid wine.* "Taxpaid wine" shall mean wine on which the tax imposed by section 5041, I. R. C., has been determined, regardless of whether the tax has actually been paid or the payment of tax has been deferred under section 5061, I. R. C.

§ 240.51 *Total solids.* "Total solids" shall mean the degrees Brix of the dealcoholized wine.

§ 240.52 *U. S. C.* "U. S. C." shall mean the United States Code.

§ 240.53 *United States wine.* "United States wine" shall mean wine produced on bonded wine cellar premises in the continental United States, Alaska, and Hawaii.

§ 240.54 *Wine.* "Wine," when used without qualification, includes all still wines, champagne and other sparkling wines, artificially carbonated wine, and special natural wine produced on bonded wine cellar premises.

§ 240.55 *Wine spirits.* "Wine spirits" shall mean spirits or brandy produced, from material authorized for use in fruit distillery operations, at not less than 140 degrees proof and not reduced with water from distillation proof, but may include commercial brandy aged in wood for a period of not less than two years and barreled at not less than 100 degrees proof.

§ 240.56 *Exception.* The definitions in this subpart are prescribed pursuant to the internal revenue laws governing the production and removal of wine, and shall not supersede or affect the requirements set forth in Part 4 of Title 27 of the Code of Federal Regulations, relative to the labeling of wine under the provisions of the Federal Alcohol Administration Act.

Subpart C—Establishment of Premises

§ 240.120 *Bonded wine cellars.* Every person desiring to produce, blend, cellar treat, store, bottle or package untaxpaid wine (other than cider, family wine or experimental wine produced free of tax under section 5042, I. R. C., and Subpart Y of this part) shall provide premises, make application, file bond and receive permission from the assistant regional commissioner to operate a bonded wine cellar.

(68A Stat. 663, 867; 26 U. S. C. 5351, 7302)

§ 240.121 *Wine warehouses.* Any responsible warehouse company or other responsible person desiring to establish warehouse facilities on bonded wine cellar premises for the storage of wine and allied products for credit purposes shall first make application to the assistant regional commissioner and secure approval as provided in § 240.201.

(68A Stat. 663; 26 U. S. C. 5353)

§ 240.122 *Designation of premises.* Premises established in accordance with the provisions of § 240.120 shall be known as bonded wine cellars: *Provided*, That any such premises used in the production of wine may be designated as a bonded winery as provided in § 240.193.

(68A Stat. 663; 26 U. S. C. 5351)

§ 240.123 *Bonded premises heretofore established.* Bonded premises heretofore approved may be continued in operation if the present construction and equipment afford adequate security and protection to the revenue, except that premises operated as bonded field warehouses before the effective date of this part shall on that date be qualified as bonded wine cellars or be discontinued. Premises operated as bonded wine storerooms on the effective date of this part shall on and after such date be designated as bonded wine cellars. Premises operated as bonded wineries shall similarly be designated as bonded wine cellars unless authority is granted under the provisions of § 240.193 to use the designation "bonded winery."

(68A Stat. 919; 26 U. S. C. 7851)

§ 240.124 *Bottling of taxpaid wine.* Every person desiring to bottle taxpaid wine at premises other than a rectifying plant or taxpaid distilled spirits bottling house must establish taxpaid wine bottling house premises in compliance with the provisions of regulations set forth in Part 231, Title 26, of the Code of Federal Regulations.

(68A Stat. 663; 26 U. S. C. 5352)

Subpart D—Use of Bonded Wine Cellars

§ 240.130 *Activity on bonded wine cellar premises.* Except as authorized in this subpart, bonded wine cellar premises must be used exclusively for the production, blending, cellar treatment, storage, bottling, packaging, and removal of wine (including distilling material, vinegar stock, heavy bodied blending wine, Spanish type blending sherry, and similar wine products made from fruit, with or without added wine spirits, and without added sugar) and no materials, liquids, or liquors other than those authorized to be used in such production, etc., may be produced, received, or stored on the bonded premises. Wine not produced in the manner authorized for standard wine, for example, substandard beverage wine, made by the use of water in excess of limitations prescribed for standard wine, may not be produced or stored on premises used for the production or storage of standard wine. Any wine produced in accordance with the requirements for standard wine, which becomes substandard by reason of its condition, may not be retained on such premises unless the condition is corrected.

(68A Stat. 663, 664; 26 U. S. C. 5351, 5361)

§ 240.131 *Segregation of operations.* The proprietor of a bonded wine cellar may be required by the assistant regional commissioner to segregate operations within the premises, by partitions or otherwise, to prevent confusion between operations, to assure proper identification of products, and to protect the revenue.

(68A Stat. 664, 665; 26 U. S. C. 5357, 5365)

§ 240.132 *Commercial fruit products and by-products.* The proprietor of a bonded wine cellar may, under the provisions of Subpart TT of this part, prepare for market and store commercial fruit products and by-products not taxable as wine.

(68A Stat. 664; 26 U. S. C. 5361)

§ 240.133 *Storage of taxpaid wine.* Where wine is to be held on the bonded wine cellar premises after it has been packed for removal for consumption or sale and the tax has been determined thereon in accordance with Subpart AA of this part, the proprietor must store it in a taxpaid room (or rooms) constructed in accordance with § 240.145. Taxpaid wine received on the wine cellar premises for reconditioning, destruction, or return to bond will be deposited in the taxpaid room pending receipt of authority for its disposition. If taxpaid wine of either United States or foreign origin is received on the bonded premises for future removal it will be stored in the taxpaid room. Records of receipt and removal of wine from the taxpaid room will be kept as provided in § 240.921.

(68A Stat. 664, 665; 26 U. S. C. 5361, 5365)

Subpart E—Construction

§ 240.140 *Buildings or rooms of bonded wine cellars.* Bonded wine cellars must be so located, constructed and equipped, subject to approval by the assistant regional commissioner, as to be suitable for the production or storage of wine, and to afford protection of the revenue. The buildings, outside tanks, or rooms in which wines are stored or treated must be securely constructed of substantial material. All doors, windows, or other openings, must be so arranged that they may be locked or fastened, and must be kept locked in the absence of the proprietor or his agents. Open fermenting tanks, except those used exclusively for the production of distilling material, must be under a roof or other suitable covering, but need not be enclosed in a building. Closed tanks for storage of wine may be located outside of buildings on the bonded premises, and unless the premises are enclosed by a fence, a substantial fence around the tanks must be provided. Except for necessary openings for ventilation and for the passage of water, electric, sewer, or similar lines, the wine cellar must be separated from adjoining buildings or rooms by solid unbroken partition: *Provided*, That where a bonded wine cellar, a fruit distillery, registered distillery, internal revenue bonded warehouse, industrial alcohol plant, taxpaid wine bottling house, taxpaid distilled spirits bottling house, rectifying plant, another bonded wine cellar, or a wine vinegar plant are located in contiguous buildings or rooms, pipelines may be installed for the transfer of wine or wine spirits, and doors may be placed in the partitions separating the bonded wine cellar from such premises, or separating a bonded wine cellar from a contiguous taxpaid room operated by the proprietor.

(68A Stat. 664; 26 U. S. C. 5357)

§ 240.141 *Means of ingress and egress.* The entrance door of a bonded wine cellar shall lead directly from a public street or open yard or from the yard of the bonded premises or from a public hall or other common passageway leading directly to a public street or open yard. The public halls or common passageways must, in fact, be used by the public or by other tenants or persons.

(68A Stat. 664; 26 U. S. C. 5357)

§ 240.142 *Wine spirits storage room.* Where wine spirits are to be received in packages at a bonded wine cellar for use in wine production, a wine spirits storage room must be provided except where the wine spirits are withdrawn under the provisions of §§ 240.836 and 240.837. The room must be sufficiently large to permit the storage of all wine spirits to be received or possessed at any one time. The room must be securely constructed of substantial material so as to prevent unlawful access to the wine spirits. A sign must be placed over the entrance door of the room bearing the words "Wine Spirits Storage Room." Where wine spirits are to be stored in wine spirits storage tanks, as provided in §§ 240.829 and 240.830, such tanks need not be located within the wine spirits storage room.

(68A Stat. 664; 26 U. S. C. 5357)

§ 240.143 *Government office.* Where wine spirits are to be used in the production of wine, other than use in small quantities for dosages or preparation of essences, the proprietor shall provide and maintain on the wine cellar premises in a convenient location for the exclusive use of internal revenue officers, a securely constructed, well-lighted, heated, and ventilated office of suitable dimensions: *Provided*, That where the proprietor operates a fruit distillery or an internal revenue bonded warehouse on adjacent premises, and a Government

office conforming to the requirements specified in this section is provided on such premises, and such office is so located as to be suitable for the use of internal revenue officers assigned at the wine cellar, a separate Government office need not be provided on the wine cellar premises. The Government office shall be equipped with a desk, chair, file case, and such other furniture as may be necessary for the keeping of Government records; and with toilet and lavatory facilities, unless suitable facilities, conveniently located outside the Government office, are made available for the use of internal revenue officers. The door of the Government office shall be equipped with a hasp and staple for locking with a Government lock.

(68A Stat. 664; 26 U. S. C. 5357)

§ 240.144 *Government cabinet.* There shall be provided in the Government office a metal cabinet of adequate strength and size, suitably equipped for locking with a Government seal lock, for use in safeguarding Government seals, keys, and other Government property. Each such cabinet shall contain shelving or compartments of proper size for the filing of Government records.

(68A Stat. 664; 26 U. S. C. 5357)

§ 240.145 *Taxpaid room.* If a room is provided on the bonded wine cellar premises for the storage and handling of taxpaid wine, it must be separated from the remainder of the premises by partitions of wire netting or other material adequate to insure segregation of the operations. A sign must be placed over the entrance door bearing the words "Taxpaid Room." The door may open into the general bonded area, or to the outside of the premises.

(68A Stat. 664, 665; 26 U. S. C. 5357, 5365)

SUBPART F—EQUIPMENT

§ 240.160 *Location of tanks.* Tanks used for the storage or treatment of wine must be located within wine cellar buildings, except as provided in § 240.140. All fermenters, storage tanks, wine spirits storage tanks, bottling tanks, and other containers, must be so arranged and located as to permit ready examination and determination of their contents by inspecting officers. Tanks to be used for the addition of wine spirits to wine must be so constructed as to permit examination of every part thereof, and so arranged as to leave an open space of not less than four feet between the top of the tank and the ceiling or roof above.

(68A Stat. 664; 26 U. S. C. 5357)

§ 240.161 *Catwalks for tanks.* Where necessary in order to afford ready accessibility, all wine spirits addition tanks, wine spirits storage tanks, wine spirits measuring tanks, and weighing tanks, must be provided with suitable stairs and catwalks. Valves for control of wine spirits must be readily accessible.

(68A Stat. 664; 26 U. S. C. 5357)

§ 240.162 *Capacity of tanks.* The proprietor must accurately determine the capacity of all tanks and other containers on the bonded wine cellar premises. The capacity per inch of depth of all tanks of uniform dimensions, and the capacity for every inch of depth of each measuring tank, bottling tank, and wine spirits addition tank, of irregular dimensions, or lying on its side, must also be accurately determined by the proprietor. Rules for determining the capacities of tanks are set forth in Subpart XX of this part.

(68A Stat. 664, 680; 26 U. S. C. 5357, 5552)

§ 240.163 *Markings on fermenting and storage tanks.* Each tank used for the fermentation or storage of wine or for addition of wine spirits to wine will be marked with a permanent serial number and the capacity in wine gallons. Tanks of uniform dimensions from top to bottom shall be marked in addition with the capacity per inch of depth. Each tank will be marked to show its current use, either by permanent markings or by removable signs of durable materials. The use will be shown as "Fermenting Tank" (or "Fermenter"), "Intermediate Storage Tank," "Reserve Storage Tank," "Storage Tank," or "Wine Spirits Addition Tank," and may be abbreviated to the initial letters if desired. Notification to the assistant regional commissioner is not required when changing the use and designation of such tanks, but only tanks approved for the storage of wine may be used for reserve storage or permanent storage, and only tanks approved for use in the addition of wine spirits to wine, as provided in § 240.198 may be used for that purpose. A single series of numbers will be used for all fermenting, storage, and wine spirits addition tanks, except that separate series, preceded by an identifying letter, may be used for tanks in different buildings or rooms, if desired.

(68A Stat. 664; 26 U. S. C. 5357)

§ 240.164 *Markings on other tanks.* Tanks on the bonded wine cellar premises, other than those described in § 240.163, must be permanently marked to show their use, such as, "Bottling Tank", "Taxpayment Tank", "Vermouth Processing Tank", "Grape Concentrate Storage Tank", or "Amelioration Measuring Tank". Abbreviations may be used if the abbreviations distinguish between the various kinds of tanks. Each tank will be permanently marked with a serial number and its capacity in wine gallons, and if the tank is of uniform dimensions from top to bottom, the capacity per inch of depth will also be marked on the tank. A separate series of numbers will be used for each kind of tank.

(68A Stat. 664; 26 U. S. C. 5357)

§ 240.165 *Markings on puncheons and barrels.* A permanent serial number and the capacity in wine gallons must be marked on puncheons or similar containers if of 60 gallons capacity or more, as in the case of storage tanks. A permanent serial number need not be marked on barrels or puncheons of less than 60 gallons capacity used as storage containers but the capacity in wine gallons must be permanently marked on each such container.

(68A Stat. 664; 26 U. S. C. 5357)

§ 240.166 *Wine spirits storage tanks, weighing tanks, and measuring tanks.* Where wine spirits are to be received by pipeline not for immediate use in wine production, or by tank car or tank truck, wine spirits storage tanks shall be provided in the wine cellar. Wine spirits storage tanks shall be constructed of metal and be of uniform dimensions from top to bottom. If a weighing tank is to be used, it must be of suitable size with suitable and accurate scales. If a measuring tank is to be used for measuring wine spirits, it must be of suitable size and must be accurately calibrated.

(68A Stat. 664, 680; 26 U. S. C. 5357, 5552)

§ 240.167 *Securing of wine spirits storage tanks, weighing tanks, and measuring tanks.* The manheads, inlets, outlets, and other openings of wine spirits storage tanks, weighing tanks, and measuring tanks must be provided with facilities for locking, or other secure fastening and sealing. The tanks may be permanently connected with pipelines for the conveyance of air. Each such pipeline must be equipped with a control valve which may be locked, and must also be equipped with a check valve located near the point of entry to the tank in order to effectively prevent the extraction of spirits from the tank.

(68A Stat. 680; 26 U. S. C. 5552)

§ 240.168 *Measuring devices.* Wine spirits storage tanks, weighing tanks, measuring tanks, and wine spirits addition tanks shall be equipped with floats and counterweights, or similar devices whereby the actual contents will be accurately indicated.

(68A Stat. 680; 26 U. S. C. 5552)

§ 240.169 *Wine spirits pipelines.* Pipelines used for the conveyance of wine spirits from fruit distilleries and internal revenue bonded warehouses to wine spirits storage tanks, measuring tanks, weighing tanks, and wine spirits addition tanks shall be constructed in accordance with the requirements of regulations prescribed in Part 221 and Part 225, respectively, of Title 26, Code of Federal Regulations. If wine spirits are to be received by tank car or tank truck, a secure pipeline must be provided from the unloading point to the weighing tank, measuring tank, or wine spirits storage tank. Where wine spirits are stored in wine spirits storage tanks, a fixed pipeline, unbroken except for necessary short hose connections to pumps or weighing tanks, must be provided from the wine spirits storage tank to the wine spirits addition tank. All joints in such pipelines must be brazed, welded, or otherwise permanently joined. Valves, suitably equipped for locking, must be provided to control the flow of the wine spirits from or into each tank. All pipelines for wine spirits shall be painted black.

(68A Stat. 680; 26 U. S. C. 5552)

§ 240.170 *Taxpayment tank.* If wine is to be removed by pipeline upon determination of tax, one or more closed tanks must be provided in the bonded wine cellar for measurement of the wine. Such tank or tanks must be accurately calibrated, equipped with a measuring device whereby the contents will be accurately indicated, and approved before use.

(68A Stat. 680; 26 U. S. C. 5552)

§ 240.171 *Taxpaid wine pipeline.* The pipeline used to transfer taxpaid wine from the bonded wine cellar to a bottling house or rectifying plant must be a fixed unbroken line of permanent character, securely constructed and connected, and so arranged as to be exposed to view throughout its entire length. The pipeline must be permanently connected with the taxpayment tank, or tanks, required by § 240.170. The valves in such pipeline must be equipped for locking. The pipeline must be shown on the bonded wine cellar plat.

(68A Stat. 666, 680; 26 U. S. C. 5368, 5552)

§ 240.172 *Other wine pipelines.* Where it is desired to transfer wine by pipeline to adjacent bonded premises such as bonded wine cellars, fruit distilleries, or vinegar plants, the pipeline provided for the transfer must be securely constructed, unbroken, and accessible for examination throughout its length. The pipeline must be shown on the wine cellar plat.

(68A Stat. 664; 26 U. S. C. 5357)

§ 240.173 *Other equipment, instruments and measures.* The proprietor of each bonded wine cellar must provide at his own expense appropriate and accurate instruments and measures for the testing and measuring of wine, including in all cases equipment for determining the alcohol content and volume of wine removed. He must also provide an accurate measuring rod or steel tape for ascertaining the capacity and contents of tanks and other storage containers, and scales and measures for weighing and measuring the materials received and used in the production of wine. However, where material is used immediately upon receipt, the shipper's weight or public weighmaster certificates of weight showing gross weight, tare, and net weight, may be accepted in lieu of weighing materials at the wine cellar.

(68A Stat. 664; 26 U. S. C. 5357)

§ 240.174 *Test weights.* Where wine is taxpaid by weight, or wine spirits are gauged by weight, the proprietor shall provide at the bonded wine cellar a set of ten fifty-pound cast iron test weights, which shall be certified by the National Bureau of Standards, or State department of weights and measures, as conforming to Class C requirements of the National Bureau of Standards, except where the proprietor has provided such test weights at an adjacent distillery or internal revenue bonded warehouse. The assistant regional commissioner may waive the requirement for test weights at a bonded wine cellar if the proprietor has his scales tested annually, or at such more frequent interval as the assistant regional commissioner may require, by responsible scale companies or other qualified persons.

(68A Stat. 680; 26 U. S. C. 5552)

SUBPART G—QUALIFYING DOCUMENTS

§ 240.190 *Application, Form 698.* Every person desiring to establish a bonded wine cellar shall file application on Form 698, in triplicate, with the assistant regional commissioner of the region in which the bonded wine cellar is located, for approval of the premises. Except as provided in § 240.199, in the case of amended or supplemental applications, all the information required by this part and by the instructions on the form or issued in respect thereto shall be furnished. Application on Form 698 (including all attachments and inserts) shall contain or be verified by a written declaration that it is made under the penalties of perjury. Such applications must be numbered serially, commencing with "1," and continuing in regular numerical sequence for all applications thereafter filed, whether amended or supplemental, and must indicate the purpose for which filed. The application must disclose whether the premises will be used for the production and storage of standard wines and other wines which may be made and stored on standard wine premises, or whether wines not authorized on standard wine premises will be produced or stored. All data, written statements, and other documents submitted in support of the application, shall be deemed to be a part thereof.

(68A Stat. 664, 749; 26 U. S. C. 5356, 6065)

§ 240.191 *Permit required.* The Federal Alcohol Administration Act (49 Stat. 978; 27 U. S. C. 203) and regulations issued pursuant thereto in Part 1, Title 27, Code of Federal Regulations require that any person, intending to engage in the business of producing or blending wine or purchasing wine for resale at wholesale, obtain a permit therefor. A state, a political subdivision of a state, or an officer or employee of a state or political subdivision acting in his official capacity is exempted from this requirement. Application for the permits shall be filed with the assistant regional commissioner at the time of filing of the original application, Form 698.

§ 240.192 *Operating name.* The name under which the bonded wine cellar is to be operated will be shown on Form 698. If the bonded wine cellar is to be operated under a trade name, the name of the proprietor must be shown in conjunction therewith. Bonded wine cellars may not be operated simultaneously or alternately under two or more trade names for the production of wine; however, two or more trade names may be used simultaneously or alternately for bottling or packing wine as provided in § 240.562. Any trade names to be used for bottling or packing of wine must be shown on the permit and the Form 698.

(68A Stat. 664; 26 U. S. C. 5356)

§ 240.193 *Designation as bonded winery.* If the activities to be conducted on the bonded wine cellar premises are such that a wine producer's basic permit is required under the Federal Alcohol Administration Act and regulations, the applicant may submit with Form 698 a letter application, in triplicate, for designation of the premises as a bonded winery. If a wine producer's basic permit has been issued to the applicant and the premises designated a bonded winery, but thereafter the wine producer's basic permit is revoked for lack of use or is replaced with a wine blender's basic permit, the designation of the premises shall be changed to bonded wine cellar.

(68A Stat. 664; 26 U. S. C. 5351)

§ 240.194 *Location of premises.* The location of the bonded wine cellar must be stated as explicitly as possible on Form 698. If located in a city or other municipality, the name thereof, and the street and number (if any) must be given. If otherwise located, the name of the county and the nearest post office, with the distance and direction therefrom, and the name or number of the road or highway on which situated, shall be given.

(68A Stat. 664; 26 U. S. C. 5356)

§ 240.195 *Description of premises.* The lot or tract of land constituting the bonded wine cellar premises must be described on Form 698 by directions and distances with sufficient particularity to enable internal revenue officers to readily determine the bounds of the bonded premises. Separate portions of bonded wine cellar premises need not be contiguous if the assistant regional commissioner finds such noncontiguous portions are reasonably adjacent to one another and operations of the noncontiguous portions as a single bonded wine cellar will not afford an undue jeopardy to the revenue.

(68A Stat. 664; 26 U. S. C. 5356, 5357)

§ 240.196 *Description of buildings and rooms.* All buildings on the bonded wine cellar premises shall be accurately described on Form 698. If the premises consist of one or more entire buildings, each building shall be described as to size, material of which constructed, and the purpose for which it will be used. If the premises consist of a part of a building, in addition to giving the size of the building and material of which constructed, there shall be described separately the rooms or floors constituting the bonded premises and the walls or floors separating the premises from adjoining portions of the building, and the activities conducted in adjoining and adjacent portions. The means of egress and ingress shall also be described.

(68A Stat. 664; 26 U. S. C. 5356)

§ 240.197 *Description of equipment.* All equipment, including tanks, crushing and pressing equipment, instruments and measures for testing and measuring wine must be described on the Form 698. Each tank shall be listed by serial number and capacity, and where tanks are of such shape that it is practicable to determine their capacity from inside measurements, as described in Subpart XX of this part, there must be attached to each copy of Form 698 a table showing the serial number and capacity of each such tank, together with such measurements. Where tanks are of such shape that it is impracticable to determine the capacities from inside measurements, the method used in determining the capaci-

ties thereof must be furnished in lieu of such measurements. Barrels or other readily portable containers under sixty gallons capacity need not be listed but the approximate number of such containers used for the storage of wine shall be shown. Unless required by the assistant regional commissioner, hoses, filters, pumps, pasteurizers, coolers, and similar equipment need not be listed on the Form 698.

(68A Stat. 664; 26 U. S. C. 5356)

§ 240.198 *Wine spirits addition tanks.* If tanks are to be used for the addition of wine spirits to wine, a separate gauge sheet, in triplicate, will be filed with Form 698 for each such tank identifying the tank by serial number and capacity and showing the capacity for each inch of depth from a specified gauge point. If the tank is found to be accurately calibrated and suitably located for the purpose intended, one copy of the gauge sheet bearing the approval of the assistant regional commissioner will be returned to the proprietor with Form 698 as authority for use of the tank in the addition of wine spirits and for the information of internal revenue officers supervising the operation.

(68A Stat. 664; 26 U. S. C. 5356)

§ 240.199 *Amended and supplemental applications.* Amended and supplemental applications on Form 698 may be executed in skeleton form, except as to the items amended or supplemented. All other items which are correctly set forth in prior applications and remain unchanged may be incorporated in the amended or supplemental application by reference to the respective application previously filed in which the item is fully and correctly set forth. Such incorporation by reference shall be made by entering for such item in the space provided therefor the statement "No change since filing Form 698, Serial No. _____," (the number being inserted), and the date of such form.

(68A Stat. 664; 26 U. S. C. 5356)

§ 240.200 *New application may be required.* The assistant regional commissioner may at any time, in his discretion, require the filing of a new application on Form 698.

(68A Stat. 664; 26 U. S. C. 5356)

§ 240.201 *Bonded wine warehouse application.* A person desiring to establish a bonded wine warehouse under the provisions of § 240.121 shall file an application in letter form, in quadruplicate, disclosing his name and address, the name and address of the bonded wine cellar, the approximate area comprising the bonded warehouse, and the approximate storage capacity in gallons. The letter application shall be accompanied by a signed statement in triplicate, from the proprietor of the bonded wine cellar requesting the establishment of such warehouse, and by consent of his surety thereto, in accordance with the provisions of § 240.231.

(68A Stat. 663; 26 U. S. C. 5353)

§ 240.202 *Individual owners, copartnerships, or associations.* Where application, Form 698, is filed by an individual owner, copartnership, or association, the name and address of every person interested in the bonded wine cellar, whether active, passive, or silent, must be given on Form 698: *Provided*, That if there are more than twenty members of a copartnership or association, only the names and addresses of those holding the twenty largest interests in the business need be shown. If there are articles of partnership or association, copies thereof, in triplicate, must be submitted with the Form 698.

(68A Stat. 663; 26 U. S. C. 5351)

§ 240.203 *Corporate documents.* Where application, Form 698, is filed by a corporation, there must be filed with the original or initial application properly certified copies, in triplicate, of the following documents: (a) Articles of incorporation; (b) certificate of incorporation; (c) certificate authorizing the corporation to operate in the State where the bonded wine cellar is located, if other than that in which incorporated; (d) extracts of the minutes of meetings of the board of directors authorizing certain officers or other persons to sign for the corporation and specifying what documents may be signed; and (e) a list of the names and addresses (business and residence) of the officers, directors, and stockholders as required by § 240.204. Where these documents have been filed with the assistant regional commissioner in connection with qualification of other premises in the same region, and statement to that effect is made on Form 698, additional copies of the documents will not be required.

§ 240.204 *List of stockholders.* In the case of corporations and similar legal entities, there must be submitted with Form 698 at the commencement of business, and annually thereafter on May 1, a list, in triplicate, giving the names and addresses (business and residence) of all officers, directors, stockholders and other persons interested in the corporation, or other legal entity, and the amount and nature of the stock holding or other interests of each, whether such interest appears in the name of the interested party or in the name of another for him: *Provided*, That if there are more than twenty holders of any class of stock, only the names, addresses and holdings of the twenty persons having the largest ownership or other interest in each of the classes of stock need be listed.

§ 240.205 *Power of attorney, Form 1534.* If the application or other qualifying documents are signed by an attorney in fact for an individual, partnership, association, or corporation, or by one of the members for a copartnership, or association, or, in the case of a corporation, by an officer or other person not authorized to sign by the corporate documents described in § 240.203, such application or other qualifying documents must be supported by a duly authenticated copy of the power of attorney conferring authority upon the person signing the document to execute the same. Such powers of attorney will be executed on Form 1534, in triplicate, and submitted to the assistant regional commissioner.

§ 240.206 *Execution of power of attorney.* Where the principal giving the power of attorney is an individual, it must be executed by him in person, and not by an agent. In the case of a copartnership, or association, powers of attorney authorizing one or more of the members, or another person, to execute documents on behalf of the copartnership or association must be executed by all of the members constituting the copartnership or association. However, if one or more members less than the whole number constituting the copartnership or association have been delegated the authority to appoint agents or attorneys in fact, the power of attorney may be executed by such member or members provided it is supported by a duly authenticated copy, in duplicate, of the document conferring authority upon the member or members to execute the same. Where, in the case of a corporation, powers of attorney are executed by an officer thereof, such documents must be supported by copies of the authorization, in triplicate, of such officer so to do, certified by the secretary or assistant secretary of the corporation, under the corporate seal, if any, to be true copies.

§ 240.207 *Duration of power of attorney.* Powers of attorney authorizing the execution of documents on behalf of a person operating, or intending to operate, a bonded wine cellar, if not limited as to duration, shall continue in effect until written notice, in duplicate, of the revocation of such authority is received by the assistant regional commissioner, unless terminated by operation of law.

§ 240.208 *Bond, Form 700.* Every person filing application to establish a bonded wine cellar shall file bond, Form 700, in triplicate, executed in accordance with Subpart H of this part, with the assistant regional commissioner. No person shall commence or continue in such business, or produce wine (except for family use, or experimental or research use, as provided in Subpart Y of this part), nor shall any wine be received in bond, or wine spirits be withdrawn for use in wine production, until such bond is filed with and approved by the assistant regional commissioner.

(68A Stat. 663; 26 U. S. C. 5354)

§ 240.209 *Plat.* Every person filing application to establish a bonded wine cellar shall file with the assistant regional commissioner an accurate plat of the proposed premises, in triplicate, conforming to the requirements of Subpart J of this part.

§ 240.210 *Additional information.* The assistant regional commissioner may at any time, in his discretion, require the proprietor of the bonded wine cellar to furnish such additional information concerning the establishment or operation of the bonded wine cellar as he may deem necessary.

§ 240.211 *Authority to approve.* The assistant regional commissioner is authorized to approve all applications, bonds, consents of surety and other qualifying documents required by this subpart, whether filed for original establishment, for changes subsequent to establishment, or for discontinuance of the business. Upon approval of the initial application for any premises, the assistant regional commissioner will assign a registry number to the premises.

(68A Stat. 663; 26 U. S. C. 5351)

§ 240.212 *Disposition of documents.* Upon approval of any qualifying documents required by this subpart, the assistant regional commissioner will return one copy to the proprietor. Upon disapproval of a bond or failure of the applicant to qualify for any reason one copy of the Form 698 and all copies of the documents submitted in support of the application will be returned to the applicant.

§ 240.213 *Retention of documents.* The proprietor shall keep in a secure place and filed in an orderly fashion at the bonded wine cellar premises or in an office adjacent thereto, the copies of all approved qualifying documents which have been returned to him by the assistant regional commissioner. Such copies shall be made available, without delay, for the examination of any internal revenue officer.

Subpart H—Bonds and Consents of Surety

§ 240.220 *General requirements.* Every person required to file a bond or consent of surety under this part shall prepare and execute such document on the prescribed form, in triplicate, in accordance with this subpart and the instructions printed on the form or issued in respect thereto, and shall submit it to the assistant regional commissioner.

§ 240.221 *Bond, Form 700.* Each proprietor of a bonded wine cellar shall give bond, Form 700, for the payment of taxes imposed by the United States, including rectification and occupational taxes and penalties and interest, for which the proprietor shall become liable to the United States, respecting wine and wine spirits and the operation of the bonded wine cellar, whether the transaction or operation upon which the liability of the proprietor is based occurred on the bonded wine cellar premises (including transfers between noncontiguous portions thereof), or in transit, and for the faithful compliance, without fraud or evasion, with all requirements of the laws of the United States and regulations made in conformity therewith respecting wine and wine spirits and the operation of the bonded wine cellar. The penal sum of the bond shall be not less than the tax on all wine and wine spirits possessed at the bonded wine cellar (including wine in intermediate storage), in transit to the bonded wine cellar, wine spirits authorized to be withdrawn under approved applications, or wine or wine spirits unaccounted for, at any one time, and the tax on all wine removed for export or for use as supplies on vessels or aircraft, but not exported or otherwise accounted for. The penal sum of the bond shall be not less than $1,000 or more than $50,000, except that where the amount of tax exceeds $250,000, the penal sum of the bond shall be $100,000: *Provided*, That the obligation on Form 700 shall not apply with respect to taxes in excess of $100 which have been determined for deferred payment upon removal of the wine from the bonded wine cellar, or transfer to a taxpaid wine room on the bonded wine cellar premises.

(68A Stat. 663; 26 U. S. C. 5354)

§ 240.222 *Tax deferral bond, Form 2053.* Each proprietor of a bonded wine cellar desiring to remove wine for a taxable purpose, where the tax unpaid at any one time amounts to more than $100, must file a bond, Form 2053, to insure payment of the tax on such wine. The penal sum of the bond shall be not less than the amount of tax determined on wine for which no return, Form 2050, with remittance, has been filed with the district director of internal revenue, pursuant to the requirements of § 240.591, but in no case shall the penal sum of the bond be less than $500. For purposes of determining the penal sum of the bond, the return will be considered filed when delivered with remittance to the office of the district director of internal revenue, or when deposited in the United States mail properly addressed to him.

(68A Stat. 663; 26 U. S. C. 5354)

§ 240.223 *Export bond, Form 186.* If a person other than the proprietor of a bonded wine cellar desires to withdraw wine from bonded wine cellars free of tax for export or for supplies for vessels or aircraft, he must file with the assistant regional commissioner of the region in which the bonded premises are located an export bond on Form 186, in triplicate, in a penal sum equal to the tax on the maximum quantity of wine to be withdrawn for exportation or for supplies on vessels or aircraft, plus the tax on any wine which having been so withdrawn may remain unaccounted for at any one time, but in no case shall the penal sum be less than $500.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.224 *Transportation bond, Form 1580.* The proprietor of a customs manufacturing bonded warehouse, Class 6, desiring to withdraw wine from bonded wine cellars, without payment of tax, for use at his warehouse for manufacture of articles for export, or for rectification and export or shipment in bond to Puerto Rico, shall file with the assistant regional commissioner of the region in which the bonded wine cellars are located a bond on Form 1580, in triplicate, in a penal sum equal to the tax on the maximum quantity of wine to be withdrawn, plus the tax on any wine which having been so withdrawn may remain unaccounted for at any one time, but in no case shall the penal sum be less than $500. The bond shall cover transportation of the wine from the bonded wine cellar to the customs manufacturing warehouse.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.225 *Bond, Form 1676.* The proprietor of a wine vinegar plant desiring to withdraw wine from bonded wine cellars without payment of tax, for use in the manufacture of vinegar shall file with the assistant regional commissioner of the region in which the vinegar plant is located, bond on Form 1676, in triplicate. The penal sum of the bond shall be not less than the tax on all wine to be withdrawn plus the tax on all wine on hand at the vinegar plant which has not been converted into vinegar and all wine in transit to the wine vinegar plant, but in no case shall the penal sum be less than $500. If the proprietor of the wine vinegar plant is also the proprietor of a bonded wine cellar located on adjacent premises, he may file consent of surety, Form 1533, extending the terms of his wine cellar bond as provided in § 240.651, instead of filing bond on Form 1676.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.226 *Corporate surety.* Surety bonds may be given only with surety companies holding certificates of authority from the Secretary of the Treasury as acceptable sureties on Federal bonds, subject to the limitations prescribed by the Secretary in Treasury Department Form 356-Revised, and subject to such amendments as may be issued from time to time. The surety may have no interest whatever in the business covered by the bond.

(68A Stat. 663, 665; 26 U. S. C. 5354, 5362)

§ 240.227 *Two or more corporate sureties.* A bond executed by two or more corporate sureties shall be the joint and several liability of the principal and the sureties: *Provided*, That each corporate surety may limit its liability in terms upon the face of the bond in a definite, specific amount, which amount shall not exceed the limitations prescribed for such corporate surety by the Secretary, as set forth in Treasury Department Form 356. When the sureties so limit their liability, the aggregate of such limited liabilities must equal the required penal sum of the bond.

(68A Stat. 663, 665; 26 U. S. C. 5354, 5362)

§ 240.228 *Powers of attorney.* Powers of attorney, and other evidence of appointment of agents and officers to execute bonds on behalf of corporate sureties are required to be filed with, and passed upon by, the Surety Bonds Branch, Bureau of Accounts, Treasury Department. Such powers, and other evidence of appointment need not be filed with or submitted to assistant regional commissioners.

§ 240.229 *Collateral security.* Bonds required by this part may be secured by collateral in the form of bonds or notes of the United States, or other obligations which are unconditionally guaranteed as to both interest and principal by the United States, in place of corporate surety. Bonds and notes of the United States, which are nontransferable or the hypothecation of which will not be recognized by the Treasury Department, may not be pledged and deposited as security in lieu of corporate sureties.

(61 Stat. 646; 6 U. S. C. 15)

§ 240.230 *Deposit of collateral.* Assistant regional commissioners, on receiving bonds or notes, or other obligations, pledged and deposited by principals as collateral security in lieu of surety, shall deposit such securities as required by Department Circular No. 154, Revised (31 CFR, part 225).

(61 Stat. 646; 6 U. S. C. 15)

§ 240.231 *Consents of surety.* Consents of surety to a change in the terms of a bond must be executed on Form 1533, in triplicate, by the principal and all sureties with the same formality and proof of authority to execute as was required for the execution of bonds. Form 1533 will be used by obligors on collateral bonds as well as those on surety bonds. The Form 1533 must properly identify the bonds affected thereby and state specifically and precisely what is covered by the extended terms thereof. The consent may be executed for the surety company by an agent or attorney in fact duly authorized so to do by power of attorney filed by the surety with the appropriate assistant regional commissioner, or the consent may be executed by the home office officials of such surety.

(68A Stat. 663, 665; 26 U. S. C. 5354, 5362)

§ 240.232 *Strengthening bonds.* In all cases where the penal sum of the bond on file and in effect is not sufficient, computed as prescribed by law and this part, the principal may give an additional or strengthening bond in a sufficient penal sum, provided the surety thereon is the same as on the bond already on file and in effect; otherwise a new bond covering the entire liability will be required. Such strengthening bonds being filed to increase the bond liability of the principal and the surety are in no sense substitute bonds, and the assistant regional commissioner will refuse to approve any strengthening bond where any notation is made thereon intended, or which may be construed, as a release of any former bond, or as limiting the amount of either bond to less than its full penal sum. Strengthening bonds must show the current date of execution and the effective date in the blank spaces provided therefor. Such bonds must have marked thereon, by the obligors at the time of execution, "Strengthening Bond."

(68A Stat. 663, 665; 26 U. S. C. 5354, 5362)

§ 240.233 *New bond.* When, in the opinion of the assistant regional commissioner, the interests of the Government demand it, or in any case where the security of the bond becomes impaired in whole or in part for any reason, the principal will be required to give a new bond. A new bond shall be required immediately in the case of the insolvency of a corporate surety. Executors, administrators, assignees, receivers, trustees, or other persons acting in a fiduciary capacity, continuing or liquidating the business of the principal, must execute and file a new bond or obtain the consent of the surety or sureties on the existing bond or bonds. Where a bond is found to be not acceptable, the principal shall be required to file immediately a new and satisfactory bond, or discontinue business forthwith.

(68A Stat. 663, 665; 26 U. S. C. 5354, 5362)

§ 240.234 *Superseding bond.* Where a new bond is submitted by the principal to supersede a bond or bonds then in effect, and such superseding bond has been approved, the superseded bond shall be released as to transactions occurring wholly subsequent to the effective date of the superseding bond and notice of termination of the superseded bond will be issued as provided in Subpart I of this part. Superseding bonds must show the current date of execution and the date they are to be effective and each such bond shall have marked thereon, by the obligors at the time of execution, "Superseding Bond."

(68A Stat. 663, 665; 26 U. S. C. 5354, 5362)

APPROVAL OR DISAPPROVAL OF BONDS

§ 240.235 *Authority.* Assistant regional commissioners are authorized to approve or disapprove all bonds and consents of surety required by this part.

(68A Stat. 680; 26 U. S. C. 5551)

§ 240.236 *Disapproval.* Bonds submitted on Form 700 or Form 2053, or consents of surety relative to such bonds, may be disapproved if the individual, firm, partnership, corporation, or association giving the same, or owning, controlling, or actively participating in the management of the bonded wine cellar of the individual, firm, partnership, corporation, or association, giving the same, shall have been previously convicted in a court of competent jurisdiction of (a) any fraudulent noncompliance with any provision of any law of the United States, if such provision relates to internal revenue or customs taxation of distilled spirits, wine, or beer, or if such offense shall have been compromised with the individual, firm, partnership, corporation, or association, upon payment of penalties or otherwise, or, (b) any felony under the law of any State, Territory, or the District of Columbia, or the United States, prohibiting the manufacture, sale, importation or transportation of distilled spirits, wine, beer, or other intoxicating liquor.

(68A Stat. 680; 26 U. S. C. 5551)

§ 240.237 *Appeal to Director.* Where a bond or consent of surety is disapproved by the assistant regional commissioner, the person giving the bond may appeal such disapproval to the Director, Alcohol and Tobacco Tax Division.

(68A Stat. 680; 26 U. S. C. 5551)

§ 240.238 *Disapproval by Director final.* The disapproval by the Director, Alcohol and Tobacco Tax Division upon appeal, of any bond or consent of surety with respect to the commencement or continuance of the operation of a bonded wine cellar shall be final.

(68A Stat. 680; 26 U. S. C. 5551)

SUBPART I—TERMINATION OF BONDS

§ 240.250 *Termination of bonds, Form 700 or 2053.* The wine cellar bond, Form 700, or tax deferral bond, Form 2053, will be terminated as to future liability (a) pursuant to application by the surety as provided in § 240.252; (b) pursuant to approval of a superseding bond, as provided in § 240.256; (c) in the case of Form 2053, upon discontinuance of removals under a tax deferral bond, as provided in § 240.256; or (d) upon discontinuance of business by the principal and removal of all wine and wine spirits from the wine cellar, as provided in § 240.256.

(68A Stat. 663; 26 U. S. C. 5354)

§ 240.251 *Termination of bonds, Form 186, Form 1580, or Form 1676.* Bonds on Form 186, Form 1580, or Form 1676, covering the removal of wine for export, for transfer to customs manufacturing bonded warehouses, or for transfer to a wine vinegar plant, respectively, will be terminated as to future liability (a) pursuant to application by the surety as provided in § 240.252; (b) pursuant to approval of a superseding bond as provided in § 240.257; or (c) upon discontinuance of the business covered by the bond as provided in § 240.257.

(68A Stat. 665; 26 U. S. C. 5362)

APPLICATION OF SURETY FOR RELIEF FROM BOND

§ 240.252 *Application by surety.* A surety on any bond required by this part may at any time, in writing, notify the principal and the assistant regional commissioner in whose office the bond is on file, that he desires after a date named, which shall be at least 60 days after the date of notification, to be relieved of liability under the bond. The notice shall be executed in triplicate by the surety, who shall deliver one copy to the principal, and two copies to the assistant regional commissioner. This notice may not be given by an agent of the surety unless it is accompanied by a power of attorney duly executed by the surety authorizing him to give such notice, or by a verified statement that such power of attorney is on file with the Department. The surety must also file with the assistant regional commissioner an acknowledgment, or other proof of service, of such notice on the principal.

(68A Stat. 663, 665; 26 U. S. C. 5354, 5362)

§ 240.253 *Extent of relief, Form 700.* If notice has been filed as provided in § 240.252 and is not thereafter in writing withdrawn, the rights of the principal as supported by the bond, Form 700, shall be terminated on the date named in the notice and the surety shall be relieved from liability for wine produced at, and for wine and wine spirits consigned to, the bonded wine cellar wholly subsequent to the date named in the notice. If the proprietor files a valid superseding bond on Form 700 prior to the date named in the surety's notice, the surety shall be relieved from liability for wine and wine spirits on hand, or in transit to the wine cellar, on and after the effective date of the superseding bond. If the principal fails to file a superseding bond, the surety, notwithstanding his release from liability as specified above, shall continue to remain liable under the bond for all wine and wine spirits on hand or in transit to the bonded wine cellar on the date stated in his notice, until such wine and wine spirits have been lawfully disposed of, or a new bond has been filed by the principal covering the liability.

(68A Stat. 663; 26 U. S. C. 5354)

§ 240.254 *Extent of relief, Form 2053.* If notice, filed as provided in § 240.252, is in respect to bond on Form 2053 and is not in writing withdrawn, the surety shall be relieved of liability for the tax on any wine removed from the bonded wine cellar after the date named in the notice. The surety shall continue to be liable for the tax on wine removed for consumption or sale on or before the date named in the notice, until all such tax is fully paid.

(68A Stat. 663; 26 U. S. C. 5354)

§ 240.255 *Extent of relief, Form 186, Form 1580 and Form 1676.* If notice has been filed as provided in § 240.252 in respect to a bond on Form 186, Form 1580 or Form 1676 and is not in writing withdrawn, the surety shall be relieved of liability for tax on wine withdrawn for export, for transfer to a customs manufacturing bonded warehouse, or for manufacture of vinegar, respectively, after the date stated in the notice. Where such withdrawals are made wholly on or before the date named in the notice, the surety shall remain liable for the tax on wine so withdrawn, until the wine is fully accounted for.

(68A Stat. 665; 26 U. S. C. 5362)

NOTICE OF RELEASE OR TERMINATION

§ 240.256 *Release or termination of Form 700 or Form 2053.* When the proprietor of a bonded wine cellar discontinues business and the notice of discontinuance has been approved, the assistant regional commissioner will issue notification of release of bond, Form 1491, and will forward copies to the principal and to the surety; or, in the case of bond, Form 2053, notification of release of bond, Form 1491, will be issued upon receipt from the proprietor of written advice that he has discontinued removals of wine requiring a tax deferral bond. When a valid superseding bond has been approved, the assistant regional commissioner will issue notice of bond termination, Form 1490, and will forward copies to the principal and to the surety.

(68A Stat. 663; 26 U. S. C. 5354)

§ 240.257 *Release or termination, Form 186, Form 1580 or Form 1676.* When the principal on a bond, Form 186, Form 1580 or Form 1676, notifies the assistant regional commissioner that he has discontinued the withdrawal of wine free of tax for exportation, for transfer to a customs manufacturing bonded warehouse, or for use in the manufacture of vinegar, respectively, the assistant regional commissioner will issue notification of release of bond, Form 1491. When a superseding bond on Form 186, Form 1580, or Form 1676 is approved by the assistant regional commissioner, he will issue notice of bond termination, Form 1490, for the superseded bond.

(68A Stat. 665; 26 U. S. C. 5362)

Release of Collateral

§ 240.258 *Release of collateral, Form 700 or Form 2053.* The release of collateral pledged and deposited with the United States to support bonds required by this part will be in accordance with the provisions of Department Circular No. 154, Revised, (31 CFR Part 225) subject to the conditions governing the issuance of notices on Forms 1490 and 1491 of the termination of such bonds. Upon issuance of notice of the termination of a bond, Form 700 or Form 2053, supported by collateral security, the assistant regional commissioner will fix the date or dates on which a part or all of the security may be released. In fixing such date, which ordinarily will be not less than six months from the date of determination that there is no outstanding liability against the bond, the assistant regional commissioner will satisfy himself that the interests of the Government will not be jeopardized. Collateral pledged and deposited to support a bond, Form 700 or Form 2053, will not be released by the assistant regional commissioner until liability under the bond has been terminated. At any time prior to the release of such collateral security, the assistant regional commissioner may, in his discretion, and for proper cause, further extend the date of release of the security for such additional length of time as in his judgment may be appropriate.

(61 Stat. 646; 6 U. S. C. 15)

§ 240.259 *Release of collateral, Form 186, Form 1580 or Form 1676.* Collateral pledged and deposited to support a bond on Form 186, Form 1580 or Form 1676 will ordinarily be released by the assistant regional commissioner upon issuance of Notice of Release of the Bond, Form 1491, provided all liabilities under the bond have been satisfied.

(61 Stat. 646; 6 U. S. C. 15)

SUBPART J—PLAT

§ 240.270 *Plat required.* Every person intending to establish a bonded wine cellar must, as required by § 240.209, file an accurate plat of the premises, in triplicate, with the assistant regional commissioner.

§ 240.271 *Preparation.* The plat of a bonded wine cellar must be furnished on sheets of white paper of a good quality, or tracing cloth, or sensitized linen, 15 x 20 inches outside measurement, with a clear margin of at least one inch on each side of the drawing, lettering, or writing. Plats may be original drawings or reproductions made by the "ditto process," or by blue, brown, or black line lithoprint, if such reproductions are clear and distinct. The cardinal points of the compass shall be indicated on each sheet. Where more than one sheet is required for an accurate plat, each sheet shall be identified by a number.

§ 240.272 *Depiction of premises.* The plat must show the outer boundaries of the premises in contrasting color. The location and size of each building, and the purpose for which each will be used will be shown. If the bonded premises consist of only a room or floor of a building, the precise location of the room or floor, together with the means of access to a public street or yard, or to a public hall or elevator shaft leading to a public street or yard, must be shown. The first floor exterior doors and windows of each building on the premises will be shown on the plat. The surrounding driveways, streets and sidings also shall be indicated.

§ 240.273 *Contiguous or adjacent premises.* Where a distillery, internal revenue bonded warehouse, industrial alcohol plant or warehouse, taxpaid distilled spirits bottling house, taxpaid wine bottling house, rectifying plant, wine vinegar plant, or another bonded wine cellar, is maintained on contiguous or adjacent premises, the relative position of such premises and the bonded wine cellar, and all pipeline connections for transfer of wine and wine spirits between the premises, must be shown on the plat. The pipeline used for conveying wine spirits from the distillery or warehouse to the bonded wine cellar, or for transfer of wine spirits within the bonded wine cellar premises shall be shown in black on the plat. Pipelines for the conveyance of wine between noncontiguous portions of the bonded wine cellar will be shown.

§ 240.274 *Certificate of accuracy.* The plat shall bear a certificate of accuracy in the lower right-hand corner of each sheet, signed by the proprietor, the draftsman, and the assistant regional commissioner, substantially in the following form:

_____
(Name of proprietor)

_____
(Registry number)

_____
(Address)

Accuracy certified by:

_____
(Name and capacity—for the proprietor)

_____
(Draftsman) (Date)

Approved: _____

Assistant Regional Commissioner

SUBPART K—REQUIREMENTS GOVERNING CHANGES IN NAME, PROPRIETORSHIP AND CONTROL

§ 240.280 *General requirements.* Notice must be given, as provided in this subpart, to the assistant regional commissioner in case of any change in the name, ownership, management, control, or any persons interested in the business of the bonded wine cellar.

(68A Stat. 664; 26 U. S. C. 5356)

CHANGE IN INDIVIDUAL, FIRM, OR CORPORATE NAME

§ 240.281 *Amended application, Form 698, and amended basic permit.* Where there is a change in the individual, firm, or corporate name of the proprietor, the proprietor must submit to the assistant regional commissioner an amended notice on Form 698, in triplicate, covering the new name, which application must be approved before operations may be commenced under the new name. He must also procure from the assistant regional commissioner an amended basic permit under the Federal Alcohol Administration Act authorizing operation of the premises under the new name.

(68A Stat. 664; 26 U. S. C. 5356)

§ 240.282 *Amended articles of incorporation, etc.* Where there is a change in the corporate name of the proprietor, he must submit to the assistant regional commissioner certified copies, in triplicate, of the amended articles of incorporation, and the amended certificate of incorporation issued under the laws of the state in which incorporated covering

the change in the corporate name. If the operations are conducted in a state other than the state in which incorporated, there must also be submitted to the assistant regional commissioner certified copies, in triplicate, of the amended certificate issued under the laws of the state in which the operations are conducted authorizing the corporation to operate under its new name in such state. If documents other than those specified are required under the laws of the state to effect a change in the name of the corporation, certified copies, in triplicate, of such documents must be submitted.

(68A Stat. 664; 26 U. S. C. 5356)

§ 240.283 *Amended articles of copartnership or association.* Where there is a change in the name of a copartnership or association, the proprietor must submit to the assistant regional commissioner certified copies, in triplicate, of the amended articles of copartnership or association, if any.

(68A Stat. 664; 26 U. S. C. 5356)

§ 240.284 *Records.* Where there is a change in the individual, firm, or corporate name, the proprietor must keep the prescribed records and submit the required reports under the new name.

(68A Stat. 666; 26 U. S. C. 5367)

CHANGE IN PROPRIETORSHIP

§ 240.285 *Nonfiduciary successor.* If a change in proprietorship of the bonded wine cellar is brought about otherwise than by appointment of an administrator, executor, receiver, trustee, or other fiduciary, the successor must qualify in the same manner as the proprietor of a new bonded wine cellar, except that he may adopt the plat of the predecessor, as provided in § 240.290.

(68A Stat. 663, 664; 26 U. S. C. 5354, 5356)

§ 240.286 *Fiduciary.* If the bonded wine cellar is to be operated by an administrator, executor, receiver, trustee, assignee, or other fiduciary, the fiduciary must comply with provisions of Subpart G of this part to the extent that such provisions are applicable, except that in lieu of filing a new bond and a new plat, the fiduciary may furnish a consent of surety extending the terms of his predecessor's bond, and may adopt the plat of such predecessor. The fiduciary must furnish certified copies, in triplicate, of the order of the court, or other pertinent documents, showing his qualification as such fiduciary. The effective date of the qualifying documents filed by a fiduciary must be the same as the date of the court order, or the date specified therein for him to assume control. If the fiduciary was not appointed by the court, the date of his assuming control must coincide with the effective date of the qualifying documents filed by him.

(68A Stat. 663, 664; 26 U. S. C. 5354, 5356)

§ 240.287 *Exception.* Where the fiduciary has been appointed to liquidate the business of a bonded wine cellar, (i. e., to dispose of the wine on hand, including any cellar treatment necessary to put the wine in merchantable condition) and does not intend to produce wine, or use wine spirits, or receive wine in bond from other bonded premises, he may, upon filing a statement to such effect, or a copy of the court order directing him to so liquidate the business, with the assistant regional commissioner, be exempt from qualifying as the proprietor of the bonded wine cellar, as required in § 240.286, provided a consent of surety wherein the surety and the fiduciary agree to remain liable on the bond, is filed.

§ 240.288 *Failure of receiver or trustee of bonded wine cellar to qualify.* In the event a receiver in bankruptcy or a trustee fails to qualify as required herein within a reasonable time, the assistant regional commissioner will request the United States attorney to petition the court under whose jurisdiction the receiver or trustee is functioning to direct the receiver or trustee to comply with the above requirements.

§ 240.289 *Consent of surety.* The consent of surety extending the terms of the predecessor's bond to cover operation of the bonded wine cellar by a fiduciary must conform to the requirements of § 240.231 and be executed by both the fiduciary and the surety.

(68A Stat. 663; 26 U. S. C. 5354)

§ 240.290 *Plat.* The adoption by a successor of the plat of his predecessor shall be in the form of a certificate, in triplicate, in which shall be set forth the name of the predecessor, registry number and address of the bonded wine cellar, the date of preparation, and the date of approval of the plat, and a certification as to the accuracy of the plat adopted.

§ 240.291 *Approval required.* Operation of a bonded wine cellar may not be commenced by a successor until the qualifying documents required by this subpart have been approved by the assistant regional commissioner.

(68A Stat. 663; 26 U. S. C. 5351)

§ 240.292 *Successor to bonded wine cellar with bonded wine warehouse.* Where a bonded wine warehouse has been established at a bonded wine cellar under the provisions of § 240.201, and it is desired to continue the operation of the bonded wine warehouse subsequent to a change in proprietorship of the bonded wine cellar, it will be necessary for the proprietor of the bonded wine warehouse to file a new letter of notice, accompanied by a statement from the new proprietor (applicant) of the bonded wine cellar requesting the continuation of such warehouse, and by consent of his surety thereto.

(68A Stat. 663; 26 U. S. C. 5353)

OTHER CHANGES IN PROPRIETORSHIP OR CONTROL

§ 240.293 *Change in partnership.* The withdrawal of one or more members of a partnership, or the taking in of a new partner, whether active or silent, shall constitute a change in proprietorship. Likewise, except as provided in § 240.294, the death, bankruptcy, or adjudicated insolvency of one or more of the copartners results in a dissolution of the partnership and, consequently, a change in proprietorship. Where such a change in proprietorship of the premises occurs, the successor must qualify in the same manner as a new applicant, except that he may adopt the plat on file as provided in § 240.290.

(68A Stat. 663; 26 U. S. C. 5351)

§ 240.294 *Exception.* Where under the laws of the particular state the partnership is not terminated on the death or insolvency of a partner, but continues until the liquidation of the partnership affairs is completed, and the surviving partner has the exclusive right to the control and possession of the partnership assets for the purpose of liquidation and settlement, such surviving partner may continue to operate the wine cellar for such purpose under the prior qualification of the partnership, and the bond already on file will be considered sufficient: *Provided*, That a consent of surety wherein the surety and the surviving partner agree to remain liable on the bond is filed. If such surviving partner acquires the business upon the settlement of the partnership he must qualify in his own name from the date of acquisition and give a new bond on Form 700. The same rule shall apply where there is more than one surviving partner.

§ 240.295 *Reincorporation.* Where a corporation is reorganized and a new charter or certificate of incorporation is secured, the new corporation must qualify in the same manner as a new applicant, except that the new corporation may adopt the plat of the predecessor.

(68A Stat. 663; 26 U. S. C. 5351)

§ 240.296 *Changes in stockholders of a corporation.* Changes in stockholders of a corporation do not constitute a change in proprietorship, but in case changes in stockholdings or other interests result in a change in control of the corporation, written notice must be given the assistant regional commissioner within ten days. The notice shall be filed in triplicate, shall describe the changes in stockholding or other interest, and shall be accompanied by a new list of stockholders, prepared as required by § 240.204.

SUBPART L—REQUIREMENTS GOVERNING CHANGES IN LOCATION, PREMISES, AND EQUIPMENT

§ 240.310 *Change in location.* Where there is a change in the location of a bonded wine cellar, the proprietor must comply with all applicable provisions of Subpart G of this part, except that in lieu of the filing of new bonds, Form 700 and Form 2053, the proprietor may furnish consent of surety on Form 1533 in accordance with § 240.231, extending the terms of the bonds for the former location to cover operation of the bonded wine cellar at the new location.

(68A Stat. 663, 664; 26 U. S. C. 5354, 5356)

§ 240.311 *Change in premises.* Where the bonded wine cellar is to be extended or curtailed, the proprietor must file with the assistant regional commissioner an amended application, Form 698, and amended plat of the premises. The additional facilities covered by the extension may not be used for the proposed purposes, and the portion to be excluded by curtailment may not be used for other than the previously approved purposes prior to approval of the application, Form 698, and plat.

(68A Stat. 664; 26 U. S. C. 5356)

§ 240.312 *Changes in construction, use, and equipment.* Where a change is to be made in the construction, or use, or equipment, of a bonded wine cellar that will affect the accuracy of the Form 698, or plat, such as the removal or addition of tanks, changes in the measurement and capacity of tanks, or in the size of rooms, the proprietor shall make report thereof, in triplicate, to the assistant regional commissioner. The reports shall be serially numbered by the proprietor. Upon approval, the assistant regional commissioner will return one copy of the report to the proprietor for attachment to the copy of Form 698 retained at the bonded premises, forward one copy to the Director, Alcohol and Tobacco Tax Division, and retain one copy in his office for filing with Form 698. The assistant regional commissioner may at any time require the filing of a new application or plat.

(68A Stat. 664; 26 U. S. C. 5356)

§ 240.313 *Approval required.* No change shall be made in any wine pipeline not wholly on the bonded wine cellar premises, the wine spirits storage room, wine spirits storage tanks, or any pipelines for the conveyance of wine spirits, prior to the approval of such changes by the assistant regional commissioner or other designated officer. Application to make changes requiring such approval will be filed in letter form, in triplicate, with the internal revenue officer assigned to the premises, unless there is no internal revenue officer so assigned or otherwise available, in which case the application will be filed with the assistant regional commissioner. Each letter application will be serially numbered, will identify the premises by name and registry number, and will describe in detail the changes to be made. A sketch should accompany the application where it will be helpful to an understanding of the changes desired. Sealed connections must not be broken by the proprietor for any reason, except in cases of emergency, and then only after notifying the internal revenue officer, if any, or the assistant regional commissioner.

SUBPART M—DISCONTINUANCE OF BUSINESS

§ 240.320 *Notice.* When the proprietor desires to discontinue operation of the bonded wine cellar, all wine and wine spirits must be lawfully removed from the premises or destroyed, and any outstanding approved Forms 257 authorizing the transfer of wine spirits to the wine cellar must be procured from the distillery or warehouse to which they were sent and returned to the assistant regional commissioner for cancellation. When such disposition has been made of all wine, wine spirits, and outstanding Forms 257, the proprietor shall file notice of discontinuance by letter, in triplicate, with the assistant regional commissioner, stating therein that the premises

are to be discontinued, and giving the date the discontinuance is to be effective. The proprietor shall certify in the letter that (a) all wine and wine spirits have been lawfully removed from the premises or destroyed, (b) that there are no wines or wine spirits in transit to the bonded premises, and (c) that there are no outstanding Forms 257 in his possession, or at any distillery or bonded warehouse, authorizing the transfer of wine spirits to his bonded premises. If the premises are being transferred to a successor, that fact and the name of the successor should be stated in the letter of notification.

§ 240.321 *Final report, Form 702.* After all wine produced or received, and all wine spirits received for use in wine production, have been lawfully disposed of, the proprietor will submit a report on Form 702 showing no wine or wine spirits on hand, which report shall be marked "Final."

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.322 *Discontinuance of bonded wine warehouse.* Where a bonded wine warehouse is to be discontinued, a letter of notification, in triplicate, will be sent to the assistant regional commissioner by the proprietor of the warehouse advising of such discontinuance and stating therein the name, registry number and address of the bonded wine cellar, and date of discontinuance.

(68A Stat. 663; 26 U. S. C. 5353)

SUBPART N—SPECIAL (OCCUPATIONAL) TAXES

§ 240.340 *Wholesale and retail liquor dealer.* Except as provided in § 240.341, proprietors of bonded wine cellars who sell wines must file returns on Form 11, special tax return, and pay special (occupational) tax as a wholesale liquor dealer or retail liquor dealer, or both, in accordance with Part 194, Title 26, of the Code of Federal Regulations.

(68A Stat. 618, 620, 621, 624, 846; 26 U. S. C. 5111, 5112, 5121, 5122, 5142, 7011)

§ 240.341 *Exemption of proprietor.* Qualified proprietors of bonded wine cellars who sell wine of their own production at the bonded premises where it is made, or at the general business office of such proprietor, are exempt from special taxes as wholesale or retail dealers; but no proprietor shall be exempt from such special taxes for sale of wine at more than one place. The term "own production" for purposes of this subpart is held to include wine produced by the proprietor, as follows:

(a) Still wine produced by fermentation;

(b) Champagne and sparkling wine, and artificially carbonated wine produced by him;

(c) Special natural wines produced by him; and

(d) Still wine produced by such blending or other cellar treatment of purchased wine as changes the characteristics of the wine.

Sale of finished wine purchased from others does not come within the exemption. Where the claim is made that purchased wine has been so blended or treated as to become wine of the proprietor's own production as defined in this section, cellar records of the blending or cellar treatment must be maintained.

(68A Stat. 619; 26 U. S. C. 5113)

§ 240.342 *Place of exemption.* Unless the exemption is claimed elsewhere by the proprietor, it will be presumed that the exemption is claimed at the bonded wine cellar where the wine is made. Where the exemption is claimed for a place other than the bonded wine cellar, special tax must be paid at the bonded wine cellar, if sales are made thereat.

(68A Stat. 619; 26 U. S. C. 5113)

§ 240.343 *Annual special tax.* The special tax year commences on July 1 and ends on June 30 of the next year. All persons liable for special tax must file Form 11 with the district director of internal revenue, and pay the special tax to him not later than July 31 of each year. If the Form 11, with remittance, is not actually received by the district director on or before the last day of the month, the date of the postmark stamped on the cover in which such return is mailed, if made by a United States post office, shall be deemed to be the date of filing.

(68A Stat. 624, 846, 895; 26 U. S. C. 5142, 5143, 7011, 7502)

§ 240.344 *Business commenced after July 31.* Where business is commenced after July 31, the tax will be prorated from the first day of the month in which business was commenced to June 30 following. In such case, if the Form 11, with remittance, is not actually received by the district director of internal revenue on or before the last day of the month in which the business was commenced, the date of the postmark stamped on the cover in which such return is mailed, if made by a United States post office, shall be deemed to be the date of filing.

(68A Stat. 624, 846; 26 U. S. C. 5143, 7011)

SUBPART O—PRODUCTION OF WINE

§ 240.350 *Kinds of wine authorized.* The following kinds of wine may be produced on bonded wine cellar premises:

(a) Natural wine, including sparkling wine and artificially carbonated wine, produced in accordance with Subparts P, Q, and W of this part;

(b) Specially sweetened natural wine, produced in accordance with Subpart R of this part;

(c) Special natural wine, produced in accordance with Subpart S of this part;

(d) Agricultural wine, produced in accordance with Subpart T of this part; and

(e) Wine other than standard wine, produced in accordance with Subpart U of this part.

(68A Stat. 664, 668, 669, 670, 671; 26 U. S. C. 5361, 5382, 5383, 5384, 5385, 5386, 5387)

§ 240.351 *Production on standard wine premises.* Wine in categories (a), (b), (c), and (d) of § 240.350 may be produced in standard bonded wine cellars. In addition thereto, heavy bodied blending wine, Spanish type blending sherry or similar wine products, high fermenta-

tion wine, distilling material, and vinegar stock, which are in category (e) of § 240.350, may be produced on premises where standard wine is made.

(68A Stat. 664, 665; 26 U. S. C. 5361, 5364)

§ 240.352 *Other wine production.* Wine in category (e) of § 240.350, other than the kinds named in § 240.351, may be produced only on bonded wine cellar premises not used for the production of standard wine. In the production of such wine, sugar and water may be used without observing the limitations prescribed for standard wine: *Provided*, That the wine must have a basic character derived from the primary wine-making material. The aggregate weight of the sugar used before and during fermentation must be less than the weight of the primary wine producing material. Molasses, malts, cereals, and grains may not be used in the production of wine.

(68A Stat. 664, 665; 26 U. S. C. 5361, 5364)

§ 240.353 *Concentrated fruit juice.* Concentrated fruit juice restored to its original density, or as otherwise provided in this section, will be regarded as fruit juice for the purpose of standard wine production. In the case of concentrated juice derived from fruit juice of an original density of more than 22 degrees Brix, the concentrated juice may be diluted with water to its original density or to not less than 22 degrees Brix. In the case of concentrated fruit juice derived from a fruit juice of less than 22 degrees Brix, the concentrated juice may be diluted with water to its original density or to not more than 22 degrees Brix. Where the original density is to be restored with water, the proprietor must procure a certificate from the producer of the concentrate showing the kind of fruit juice from which it was made and giving the total solids content of the original juice and of the concentrate in degrees Brix. Concentrated fruit juice may be used for sweetening wine or juice made from the same kind of fruit as provided in this part. No concentrated fruit juice, or juice which has been concentrated and reconstituted, shall be used in standard wine production if at any time it was concentrated to more than 80 degrees Brix.

(68A Stat. 668; 26 U. S. C. 5382)

§ 240.354 *Sugar.* If sugar is to be used in the production of standard wine, only pure refined cane or beet sugar, or pure refined anhydrous or monohydrate dextrose, of not less than 95 percent purity calculated on a dry basis, may be used. If a solution of water and pure sugar is to be used, invert sugar syrup produced from pure sugar by recognized methods of inversion may be used in the preparation of such solution.

(68A Stat. 672; 26 U. S. C. 5392)

§ 240.355 *Exemption from rectification tax.* The cellar treatment of wine as authorized by this part is exempt from rectification tax. Treatment not authorized by this part, which changes the basic composition of the wine or results in the production of any imitation or compound wine, subjects the wine to rectification tax, unless the proprietor shows, to the satisfaction of the assistant regional commissioner, that such treatment was not knowingly used in violation of law.

(68A Stat. 672, 695; 26 U. S. C. 5391, 5661)

§ 240.356 *Use of essences, flavors or colors prohibited.* Essences, flavoring or coloring materials may not be used in the production of wine on bonded wine cellar premises, except special natural wine, and honey wine, produced in accordance with provisions of Subpart S and Subpart T of this part, respectively. The use of such materials in other wine results in the production of an imitation or compound wine, with liability to rectification tax, and is permitted only on the premises of a rectifying plant.

(68A Stat. 616, 671; 26 U. S. C. 5082, 5386, 5387)

SUBPART P—PRODUCTION AND TREATMENT OF NATURAL GRAPE WINE

§ 240.360 *General.* Natural grape wine is the product of the juice of sound, ripe grapes, made with cellar treatment authorized by this part and having a total sugar or total solids content subject to limitations stated in this subpart, but the total solids content of the wine shall in no case exceed 21 percent by weight.

(68A Stat. 668, 669; 26 U. S. C. 5381, 5382, 5383)

Production Without the Use of Sugar

§ 240.361 *Materials.* In the production of natural grape wine without the use of sugar, no materials may be added to the juice or crushed grapes at the time of starting fermentation, except:

(a) Water to reduce the juice to not less than 22 degrees (Brix) of total solids;

(b) Yeast, or yeast cultures grown in grape juice, to any extent desired; or

(c) Yeast foods, sterilizing agents, or other fermentation adjuncts under the provisions of §§ 240.529 and 240.530.

(68A Stat. 668, 669; 26 U. S. C. 5381, 5382, 5383)

§ 240.362 *Crushing and fermentation.* Water added at the time of crushing, including that necessary to flush equipment, may not reduce the density of the juice below 22 degrees Brix, in the production of natural wine: *Provided*, That if the total solids content of the juice is less than 23 degrees Brix, water used to flush equipment shall reduce the total solids content of the juice less than one degree Brix. (This limitation does not apply where water is used in the production of wine from high acid grapes; however, the limitations stated in § 240.366 are applicable.) Upon removal of wine from fermenters, the quantity of liquid will be determined accurately and recorded as wine produced. This removal must be made within 15 days after the deposit of the material in fermenters, unless the proprietor desires to hold the wine for completion of fermentation, in which case the wine must be considered in intermediate storage. The period of intermediate storage may not exceed six months, unless such period is extended by the assistant regional commissioner upon a showing of necessity.

(68A Stat. 666, 668; 26 U. S. C. 5367, 5382)

§ 240.363 *Use of grape juice and concentrated grape juice for sweetening.* Natural grape wine may be sweetened by the addition of concentrated or unconcentrated grape juice, the only limitation being that the total solids content of the finished wine may not exceed 21 percent by weight. If wine spirits are added, the wine may be sweetened with juice or concentrated juice either before or after the addition of wine spirits.

(68A Stat. 668; 26 U. S. C. 5382)

§ 240.364 *Acids.* Acids of the kinds occurring in grapes may be used to correct natural deficiencies in the fruit, or juice, or wine made therefrom. Where the juice or wine has a fixed acid content less than five parts per thousand (calculated as tartaric acid), acid may be added to bring the content up to five parts per thousand, if the proprietor considers the juice or wine deficient in acid. Where the producer of the juice or wine, as the result of analysis or organoleptic test, deems there is a natural deficiency in acid regardless of acid content, acid may be added by him to increase such content not to exceed two parts per thousand, including all acid previously added. Where ameliorating material, as authorized in § 240.366, is used in the production of grape wine, no acid may be used to correct deficiencies; however, citric acid may be used for stabilizing any grape wine, as provided in § 240.526. Only tartaric, citric, or malic acid may be added to the juice or wine of grapes to correct natural deficiencies. If it is desired to use other acids, the requirements of § 240.530 should be followed. Record of the use of acid under the provisions of this section shall be kept in accordance with § 240.917.

(68A Stat. 668; 26 U. S. C. 5382)

Production With the Use of Sugar

§ 240.365 *Materials.* In the production of natural wine from grapes having a fixed acid content over five parts per thousand, water, pure dry sugar, or a combination of water and pure dry sugar may be added, subject to the limitations set forth in § 240.366. No other materials may be used at the time of starting fermentation, except:

(a) Yeast, or yeast cultures grown in grape juice, to any extent desired; or

(b) Yeast foods, sterilizing agents, or other fermentation adjuncts, under the provisions of §§ 240.529 and 240.530.

(68A Stat. 669; 26 U. S. C. 5383)

§ 240.366 *Limitations on amelioration.* In producing wine from grapes or grape juice having a high acid content, there may be added to the juice or to the wine, or to both, ameliorating material consisting of either water, or pure dry sugar, or a combination of water and pure dry sugar, in such total volume as may be necessary to reduce the natural fixed acid content of the mixture of juice and such ameliorating material to a minimum of five parts per thousand. The acid content shall be determined before fermentation, and calculated as tartaric acid. The volume of the ameliorating material shall not exceed 35 percent of the total volume of the ameliorated juice or wine (calculated exclusive of pulp). The ameliorating material may be added before or during fermentation, in fermenters or in intermediate storage. If a mixture of water and pure dry sugar is to be used, invert sugar syrup may be used in place of part or all of such mixture. See Subpart XX of this part for tables showing the maximum quantity in gallons of ameliorating material that may be added to each 1000 gallons of juice (exclusive of pulp) based on the acid expressed in parts per thousand of tartaric acid.

(68A Stat. 669, 26 U. S. C. 5363)

§ 240.367 *Record of production.* Upon completion of fermentation and removal from fermenters, the quantity of liquid will be determined accurately and recorded as wine produced. This removal must be made within 15 days after the deposit of the material in fermenters, unless the proprietor desires to hold the wine for completion of amelioration or fermentation, in which case the wine must be considered in intermediate storage and recorded as produced upon removal therefrom. The period of intermediate storage may not exceed six months, unless such period is extended by the assistant regional commissioner upon a showing of necessity.

(68A Stat. 666, 669; 26 U. S. C. 5367, 5383)

§ 240.368 *Sweetening in permanent storage.* Any natural grape wine produced under the provisions of § 240.361 or § 240.365 and containing less than 10 percent by weight of sugar solids, may be sweetened with pure dry sugar or concentrated or unconcentrated grape juice in permanent storage. After sweetening, the wine may not have a sugar solids content in excess of 10 percent by weight. If any sugar has been added, and the alcohol content after sweetening must be less than 14 percent by volume.

(68A Stat. 668, 669; 26 U. S. C. 5382, 5383)

§ 240.369 *Reserve inventory.* High acid grape wine produced as provided in § 240.366 must be transferred to reserve inventory if it is desired to add wine spirits, or to sweeten it without regard to the 10 percent limitation stated in § 240.368. Likewise, wine produced under the provisions of § 240.361 must be transferred to reserve inventory if both sugar and wine spirits are to be added. The transfer will be accomplished by making the proper entries in the reserve inventory record prescribed by § 240.907, and by marking the containers of the wine transferred with the letters "RS."

(68A Stat. 669; 26 U. S. C. 5383)

§ 240.370 *Sweetening of grape wine in reserve inventory.* At the time of transfer of any lot of wine to reserve inventory, the sugar balance of the reserve inventory account will be credited with an amount of dry sugar equivalent to the volume of authorized ameliorating material available to the lot of wine but not used at the time of transfer, calculated at the rate of thirteen and one-half pounds of dry sugar for each gallon of unused ameliorating material. In addition, the sugar balance will be credited with nine-tenths pound of dry sugar for each gallon of wine so transferred and such unused ameliorating material combined. The entries will be made according to the detailed instructions on Form 2055. Pure dry sugar may be used to sweeten grape wine in reserve, in any amount not exceeding the available sugar balance. Wine in reserve may also be sweetened with grape juice or concentrated grape juice, the only limitation being that the finished wine may not have a total solids content in excess of 21 percent by weight. No additional sugar credit will be allowed for grape juice or concentrated grape juice used for sweetening wine in reserve.

(68A Stat. 669; 26 U. S. C. 5383)

§ 240.371 *Limitations on grape wine in reserve inventory.* Grape wine while in reserve inventory:

(a) may not be blended except with other grape wine in reserve inventory;

(b) may not be ameliorated;

(c) may not be used in the production of effervescent wine;

(d) may not be used in the production of specially sweetened natural wine;

(e) may not be used in the production of special natural wine; and

(f) may not be removed from the premises.

(68A Stat. 669; 26 U. S. C. 5383)

§ 240.372 *Transfer of wine from reserve inventory.* Wine may be transferred from reserve inventory at any time for storage, finishing, use in the production of wine of another class, removal from the premises, or other authorized purposes. The transfer will be accomplished by making the prescribed entries in the reserve inventory account and removing the letters "RS" from the storage containers. Before removing any lot of wine from reserve, the reserve inventory account will be balanced and the average sugar credit per gallon determined according to instructions issued in respect thereto. The average sugar credit per gallon will be multiplied by the number of gallons of wine to be withdrawn and the quantity thus determined deducted from the sugar balance. At the time of withdrawal from reserve, natural grape wine shall have an alcohol content of less than 14 percent by volume and a total solids content not in excess of 21 percent by weight, except that if wine spirits have been added and the alcohol content is 14 percent by volume or more, the sugar solids content shall not exceed 15 percent by weight. These limitations as to alcohol and solids contents shall not apply where wine is withdrawn from reserve for the production of specially sweetened wines under the provisions of Subpart R of this part. Wine once withdrawn from reserve inventory may not again be entered into reserve inventory.

(68A Stat. 669; 26 U. S. C. 5383)

§ 240.373 *High acid grape wine not transferred to reserve inventory.* Wine produced under the provisions of § 240.366 need not be entered into reserve inventory, provided:

(a) no wine spirits are to be added;

(b) the wine is not to be sweetened, or is to be sweetened as provided in § 240.368; or

(c) the wine is to be used in the production of specially sweetened natural wine under Subpart R of this part.

(68A Stat. 669; 26 U. S. C. 5383)

Addition of Wine Spirits

§ 240.374 *General.* Grape wine spirits may be added to natural grape wine produced within the limitations of § 240.361 or § 240.366. The addition of such spirits to wine made under the provisions of § 240.366 may be effected only while the wine is in reserve inventory. The wine spirits will be procured as provided in Subpart PP of this part and will be added to the wine under the supervision of an internal revenue officer. The proprietor will advise the assistant regional commissioner, or other designated officer, in sufficient time that an internal revenue officer may be assigned. The assistant regional commissioner, in his discretion, may permit the addition of wine spirits without supervision.

(68A Stat. 666, 667, 668; 26 U. S. C. 5366, 5373, 5382)

§ 240.375 *Application for release of wine spirits.* Prior to the addition of wine spirits, the wine will be placed in tanks (approved for the addition of wine spirits) located, equipped, and calibrated as provided in Subpart F of this part. The proprietor will accurately measure the wine, determine its alcohol content, the proof of the wine spirits to be added, calculate the quantity of wine spirits required (in accordance with instructions in Subpart XX of this part), and enter the details on Form 275, prepared in triplicate. Forms 275 will be serially numbered, commencing with "1" on July 1 of each year. The alcohol content of the wine after the addition of wine spirits must not exceed 24 percent. The proprietor will certify on Form 275 that the wine has been produced in accordance with the requirements of this subpart and is eligible for the addition of wine spirits, and will make application for the release of the quantity of wine spirits desired by delivering one copy of Form 275 to the internal revenue officer. In the discretion of the internal revenue officer, a sample of the wine may be taken before addition of the wine spirits.

(68A Stat. 666, 667; 26 U. S. C. 5367, 5373)

§ 240.376 *Gauge of wine spirits.* If the wine spirits to be used are on deposit in the bonded wine cellar, or are received immediately prior to use from a distillery or warehouse not adjacent to the bonded wine cellar, the proprietor, under the supervision of the internal revenue officer, will gauge the wine spirits released to him for use in wine production and will prepare a report of the gauge on Form 1520, in triplicate, appropriately modified. A copy of such Form 1520 shall be attached to each copy of Form 275.

(68A Stat. 666; 26 U. S. C. 5367, 5368)

§ 240.377 *Wine spirits in tanks.* If the wine spirits are in a wine spirits storage tank on the bonded wine cellar premises, the proprietor will determine the quantity used, by volume gauge or by weight, and the proof of the spirits. Upon completion of the transfer of wine

spirits from the wine spirits storage tank to the wine spirits addition tank, the internal revenue officer will lock the wine spirits storage tank. If the wine spirits are received by pipeline from an adjacent fruit distillery or internal revenue bonded warehouse, and are run directly into the wine spirits addition tank, the gauge of the spirits made on the adjacent premises will be used. The internal revenue officer at the adjacent premises will deliver two copies of Form 1520 to the proprietor of the bonded wine cellar for attachment to Form 257, as provided in § 240.834.

(68A Stat. 666, 667; 26 U. S. C. 5368, 5373)

§ 240.378 *Wine spirits in packages.* If the wine spirits to be used are in packages, the proprietor will remove from the wine spirits storage room, under the supervision of the internal revenue officer, a sufficient number of such packages to furnish the quantity of wine spirits indicated on Form 275. The proprietor will gauge (proof and weigh) each package except that if a metal gauging tank accurately calibrated or mounted on scales is provided, the contents of the packages may be run into the gauging tank and a bulk gauge obtained by weight or by volume. If the packages have been received from a contiguous fruit distillery or internal revenue bonded warehouse for immediate use, the packages need not be regauged in the bonded wine cellar unless there is some indication that the contents of the packages may not be in agreement with the withdrawal gauge. If the quantity of wine spirits required is not approximately equal to the contents of a number of whole packages, a portion of one package may be used and the remnant package returned to the wine spirits storage room. The proprietor, under the supervision of the internal revenue officer, will weigh and proof the remnant package and will attach to it a label showing the date of gauge, serial number of the Form 275, the gross weight, and proof. The remnant must be used at the first opportunity.

(68A Stat. 666, 667; 26 U. S. C. 5366, 5367, 5368, 5373)

§ 240.379 *Report of addition of wine spirits.* After the wine spirits have been added to the wine, the proprietor will thoroughly agitate the contents of the tank to assure a complete mixture of the wine and wine spirits. He will then measure the quantity of wine in the tank, take three representative samples of the wine, and test one for alcohol content. He will record on Form 275 the result of his measurement and test and the quantity of wine spirits added as shown by Form 1520. The original of Form 275 (with Form 1520, if the wine spirits have been regauged) will be forwarded promptly to the assistant regional commissioner and the other retained for the proprietor's files. The quantity of wine and wine spirits used, and the quantity of wine resulting from addition of wine spirits, will be entered in the cellar records.

(68A Stat. 666, 667, 668; 26 U. S. C. 5367, 5373, 5382)

§ 240.380 *Samples.* Two samples of each tank of wine to which wine spirits have been added will be delivered to the internal revenue officer. Each sample will be not less than one pint.

§ 240.381 *Addition of wine spirits to other grape wine.* The provisions of §§ 240.374 to 240.380 shall be followed where proprietors desire to use wine spirits in the production of heavy bodied blending wine, Spanish type blending sherry and similar products produced under the provisions of Subpart U of this part.

(68A Stat. 664, 667, 668; 26 U. S. C. 5361, 5373, 5382)

§ 240.382 *Addition of wine spirits to juice or concentrated juice.* Wine spirits may be added to the juice or concentrated juice of grapes in the same manner as to wine, as provided in §§ 240.374 to 240.380. The alcohol content of the juice or concentrated juice shall not exceed 24 percent by volume after the addition of wine spirits. Juice or concentrated juice to which wine spirits have been added is not wine, but shall be accounted for as wine, and may be used only in the production of wine on standard wine premises.

(68A Stat. 667, 668; 26 U. S. C. 5373, 5382)

§ 240.383 *Storage of juice and concentrated juice to which wine spirits have been added.* Grape juice or concentrated grape juice to which wine spirits have been added will be stored in wine storage tanks plainly marked to show the nature of their contents, including the percentage of alcohol by volume, with a tolerance of one percent allowed. Juice or concentrated juice to which wine spirits have been added will be included in the appropriate tax classification of any wine inventory, but will be properly identified. It will be reported on Form 702 as wine, but a separate record similar to that required in § 240.484, for heavy bodied blending wine shall be maintained.

(68A Stat. 668; 26 U. S. C. 5382)

OTHER CELLAR TREATMENT

§ 240.384 *Baking of wine.* Wine may be baked on bonded wine cellar premises. Wooden storage tanks used for the addition of wine spirits may not be used for baking. The baking record required by § 240.919 must be maintained. (See § 240.521 for additional requirements regarding sun baking).

(68A Stat. 668; 26 U. S. C. 5382)

§ 240.385 *Production of Flor sherry wine.* Proprietors desiring to produce sherry wine by the Flor process may add wine spirits to such wine at two different times, once before and once after the Flor treatment. A statement of process on Form 698–Supplemental, in quadruplicate, giving details of the production process, shall be filed with the assistant regional commissioner and approved prior to the commencement of production. Where the proprietor has on file on the effective date of this part approved formulas covering the production of Flor sherry wine, new formulas need not be filed unless requested by the assistant regional commissioner. If wine spirits are to be added at two different times a record shall be kept showing dates and quantities of first addition of wine spirits for Flor sherry production, inoculation with Flor sherry yeast and a record showing storage and movement of the wine to the time of the second addition of wine spirits. In case wine spirits are to be added only once, no separate record is required. Gypsum (calcium sulphate) may be used in the production of sherry wine by the Flor process, provided the finished wine contains no more than two grams of gypsum per 1,000 ml. of wine.

(68A Stat. 667, 668; 26 U. S. C. 5373, 5382)

§ 240.386 *Blending.* Natural grape wines may be blended with each other, or with heavy bodied blending wine produced under the provisions of Subpart U of this part, or with concentrated or unconcentrated grape juice to which wine spirits have been added. If the resultant product is to be a natural grape wine, the total solids content may not exceed 21 percent by weight. Concentrated or unconcentrated grape juice to which wine spirits have been added may not contribute as much as one-half the volume of any finished wine.

(68A Stat. 668; 26 U. S. C. 5382)

SUBPART Q—PRODUCTION AND TREATMENT OF NATURAL FRUIT WINE

§ 240.400 *General.* Natural fruit wine is the product of the juice of sound ripe fruit or berries (other than grapes), made with such cellar treatment as is authorized in this part, and containing not more than 21 percent by weight of total solids.

(68A Stat. 668, 670; 26 U. S. C. 5381, 5384)

PRODUCTION WITHOUT THE USE OF SUGAR

§ 240.401 *Materials.* In the production of natural fruit wine (made without sugar) no material may be added to the juice or crushed fruit at the time of starting fermentation, except:

(a) Yeast, or yeast cultures grown in juice of the same kind of fruit, to any extent desired; and

(b) Yeast foods, sterilizing agents, or other fermentation adjuncts under the provisions of §§ 240.529 and 240.530.

(68A Stat. 668; 26 U. S. C. 5381)

§ 240.402 *Crushing and fermentation.* Water added at the time of crushing, including that necessary to flush equipment, may not reduce the density of the juice below 22 degrees Brix, in the production of natural fruit wine: *Provided*, That if the total solids content of the juice is less than 23 degrees Brix, water used to flush equipment shall reduce the total solids content of the juice less than one degree Brix. (This limitation does not apply where water is used in the production of wine from high acid fruit; however, the limitations stated in § 240.407 are applicable.) Upon removal of wine from fermenters, the quantity of liquid will be determined accurately and recorded as wine produced. This removal must be made within 15 days after the deposit of the material in fermenters, unless the proprietor desires to hold the wine for completion of fermentation, in which case the wine must be considered in intermediate storage. The period of intermediate storage may not exceed six months, unless such period is extended by the assistant regional commissioner upon a showing of necessity.

(68A Stat. 666, 668; 26 U. S. C. 5367, 5382)

§ 240.403 *Use of juice and concentrated juice for sweetening.* Natural fruit wine may be sweetened by the addition of concentrated or unconcentrated juice made from the same kind of fruit, the only limitation being that the finished wine may not have a total solids content in excess of 21 percent by weight. If wine spirits are added, the wine may be sweetened with juice or concentrated juice either before or after the addition of wine spirits.

(68A Stat. 668; 26 U. S. C. 5382)

§ 240.404 *Acids.* Acids of the kinds occurring in a fruit may be used to correct natural deficiencies in the fruit, or juice, or wine made therefrom. Where the juice or wine has a fixed acid content less than five parts per thousand (calculated as malic acid for apples and citric acid for other fruits or berries), acid may be added to bring the acid content up to five parts, if the proprietor considers the juice or wine deficient. Where the producer of the juice or wine, as the result of analysis or organoleptic test, deems there is a natural deficiency in acid regardless of acid content, acid may be added by him to increase such content not to exceed two parts per thousand, including all acid previously added. Where ameliorating material, as authorized in § 240.407, is used in the production of fruit wine, no acid may be used to correct deficiencies. Only malic acid may be added to apple wine, only citric acid to citrus fruit wine, and only citric or malic acid to other fruit wines to correct natural deficiencies. If it is desired to use other acids, the requirements of § 240.530 should be followed. Record of the use of acid under the provisions of this section shall be kept in accordance with § 240.917.

(68A Stat. 668; 26 U. S. C. 5382)

PRODUCTION WITH THE USE OF SUGAR

§ 240.405 *Materials.* In the production of natural fruit wine from fruit or berries by a method other than that described in §§ 240.401 through 240.404, water, pure sugar, or a combination of water and pure sugar, may be added, subject to the limitations set forth in §§ 240.406 and 240.407. No other materials may be used at the time of starting fermentation, except:

(a) Yeast, or yeast cultures, grown in juice of the same kind of fruit, to any extent desired; and

(b) Yeast foods, sterilizing agents, or other fermentation adjuncts under the provisions of §§ 240.529 and 240.530.

(68A Stat. 670; 26 U. S. C. 5384)

§ 240.406 *Ameliorating and sweetening with dry sugar only.* Wine made from fruit or berries, other than grapes, or from mixtures (which may include grapes) of two or more fruits or berries, may be ameliorated or sweetened by the addition of dry sugar only, provided:

(a) The alcohol content of the wine after fermentation, or after complete fermentation and sweetening, shall be less than 14 percent by volume; and

(b) The total solids content of the finished wine shall not exceed 21 percent by weight.

The sweetening must be done in permanent storage and wine spirits may not be added.

(68A Stat. 670; 26 U. S. C. 5384)

§ 240.407 *Limitations on other amelioration.* In producing wine from fruit other than grapes, or from mixtures (which may include grapes) of two or more fruits, the juice may be ameliorated by adding a sufficient quantity of pure dry sugar to adjust the juice to a total solids content prior to fermentation of not more than 23 degrees Brix. Thereafter, there may be added to the juice or to the wine, or to both, ameliorating material consisting of either water, or pure dry sugar, or a combination of water and pure dry sugar, in such total volume as may be necessary to reduce the natural fixed acid content of the mixture of juice and such ameliorating material to a minimum of five parts per thousand. The acid content shall be determined before fermentation, and calculated as malic acid for apple wine and as citric acid for other fruit wine. The volume of the ameliorating material shall not exceed 35 percent of the total volume of the ameliorated juice or wine (calculated exclusive of pulp), except that in the case of wine made exclusively from loganberries, currants, or gooseberries, the volume limitation shall be 60 percent. In determining the amount of ameliorating material permitted, the volume of the juice obtained after correction with dry sugar within the 23 degrees limitation shall be used as a basis for the calculation. The ameliorating material may be added before or during fermentation, in fermenters or in intermediate storage. If a mixture of water and pure dry sugar is to be used, invert sugar syrup may be used in place of part or all of such mixture. See Subpart XX of this part for tables showing the maximum quantity in gallons of ameliorating material that may be added to each 1,000 gallons of juice (exclusive of pulp) based on the acid expressed in parts per thousand.

(68A Stat. 670; 26 U. S. C. 5384)

§ 240.408 *Record of production.* Upon completion of fermentation and removal from fermenters, in the production of wine under the provisions of § 240.406 or 240.407, the quantity of liquid will be determined accurately and recorded as wine produced. This removal must be made within 15 days after deposit of the material in fermenters, unless the proprietor desires to hold the wine for completion of amelioration or fermentation, in which case the wine must be considered in intermediate storage and recorded as produced upon removal therefrom. The period of intermediate storage may not exceed six months, unless such period is extended by the assistant regional commissioner upon a showing of necessity.

(68A Stat. 666, 670; 26 U. S. C. 5367, 5384)

§ 240.409 *Reserve inventory.* Fruit wine ameliorated under the provisions of § 240.407 may be transferred to reserve inventory for sweetening or, in the case of wine made from a single kind of fruit, the addition of wine spirits. Separate reserve inventories will be established for each kind of fruit wine. The treatment of fruit wine while in reserve inventory will be subject to the same limitations and allowances applicable to grape wine, as provided in §§ 240.369 through 240.372. The reserve inventory account required by those sections will be maintained separately for each kind of wine and the credits and balancing of the account will be calculated in the same manner as for grape wine, except that wines made exclusively from loganberries, currants, or gooseberries shall be credited with unused ameliorating material on the basis of a 60 percent allowance instead of 35 percent. At the time of withdrawal from reserve inventory, fruit wines shall have an alcohol content less than 14 percent by volume (unless wine spirits have been added) and a total solids content not in excess of 21 percent by weight. The limitations as to alcohol shall not apply where wine is withdrawn from reserve for the production of specially sweetened wine under the provisions of Subpart R of this part.

(68A Stat. 669, 670; 26 U. S. C. 5383, 5384)

§ 240.410 *Fruit wine not transferred to reserve inventory.* Wine produced under the provisions of § 240.407 need not be entered into reserve inventory: *Provided:*

(a) No wine spirits are to be added;

(b) The wine is not to be sweetened after removal from fermenters or intermediate storage; or

(c) The wine is to be used in the production of specially sweetened wine under Subpart R of this part.

(68A Stat. 670; 26 U. S. C. 5384)

§ 240.411 *Addition of wine spirits.* To fruit wine produced from one kind of fruit under the provisions of § 240.401 or 240.407, wine spirits from the same kind of fruit may be added according to the procedures prescribed in §§ 240.374 through 240.380. Wine spirits may not be added to fruit wine made from mixtures of two or more fruits. In the case of wine produced under the provisions of § 240.407 wine spirits may be added only while the wine is in reserve inventory. Where the proprietor desires to add wine spirits made from the same kind of fruit to juice or concentrated juice, the provisions of §§ 240.382 and 240.383 (relative to the addition of wine spirits to grape juice or concentrated grape juice) shall be followed.

(68A Stat. 667, 668; 26 U. S. C. 5373, 5382)

§ 240.412 *Blending.* A natural fruit wine may be blended with another natural fruit wine made from the same kind of fruit, or with heavy bodied blending wine made from the same kind of fruit (produced under the provisions of Subpart U of this part), or with concentrated or unconcentrated juice of the same fruit, to which wine spirits have been added. If the resultant product is to be a natural fruit wine, the total solids

content may not exceed 21 percent by weight. Concentrated or unconcentrated fruit juice to which wine spirits have been added may not contribute as much as one-half of the volume of any finished wine.

(68A Stat. 668; 26 U. S. C. 5382)

SUBPART R—SPECIALLY SWEETENED NATURAL WINE

§ 240.430 *Production.* Specially sweetened natural wine is produced by adding to natural wine (including unfinished natural wine containing 14 percent or more of alcohol) of the proprietor's own production sufficient dry sugar, or juice, or concentrated juice of the same kind of fruit, separately or in combination, so that the finished product has a sugar solids content in excess of 15 percent by weight, a total solids content not over 35 percent by weight, and an alcohol content less than 14 percent by volume. The containers of unfinished natural wine having an alcohol content of 14 percent or more, held in permanent storage for the production of specially sweetened wine, will be marked to show the intended use. Natural wine containing added wine spirits may be used in the production of specially sweetened natural wine; however, wine spirits may not be added to specially sweetened natural wine. Wine may be withdrawn from reserve inventory for use in the production of specially sweetened natural wine without regard to the alcohol or solids content of the wine at the time of withdrawal.

(68A Stat. 671; 26 U. S. C. 5385)

§ 240.431 *Blending.* Specially sweetened natural wines from the same kind of fruit may be blended with each other or with additional natural wine, or heavy bodied blending wine (including juice or concentrated juice to which wine spirits were added) from the same kind of fruit, in the further production of specially sweetened natural wine only.

(68A Stat. 671; 26 U. S. C. 5385)

SUBPART S—SPECIAL NATURAL WINE

§ 240.440 *Materials.* Special natural wine is a flavored wine made on bonded wine cellar premises from a base of natural wine. The flavoring added may include herbs, spices, fruit juices, natural aromatics, natural essences, or other natural flavorings, in such quantities or proportions that the resulting product derives a distinctive flavor from their use, and may be distinguished from natural wine not so treated. Fruit juices may not be used to give to one natural wine the flavor of another, but may be used together with herbs, spices, etc., to produce a wine having a distinctive flavor. In addition to flavoring material, caramel may be added for coloring, and sugar, sugar syrup, or water, may be added to the extent permitted by §§ 240.443 and 240.444. If effervescent special natural wine is to be produced, either naturally or by artificial carbonation, the requirements of Subpart W of this part, as well as the requirements of this subpart, must be followed.

(68A Stat. 671; 26 U. S. C. 5386)

§ 240.441 *Formula required.* Before producing any special natural wine, the proprietor must receive approval of the formula by which it is to be made. The formula and process will be described on Form 698—Supplemental, which will be filed, in quadruplicate, with the assistant regional commissioner. Two samples, not smaller than one pint each, of the finished special natural wine will be submitted with the formula. The samples will be taken to be representative of the finished product, and any material change in the flavor or other characteristics from those of the approved sample will require the filing of a new formula, even though the ingredients may be the same. All ingredients used will be shown on Form 698—Supplemental, and in the case of the basic wine, fruit juices, essences, sugar, water, or other soluble ingredients, the quantities required to make 1,000 gallons of special natural wine will be stated. In the case of roots, herbs, or similar materials, the quantity need not be stated, but each ingredient will be listed. The process of production will be stated in detail.

(68A Stat. 671; 26 U. S. C. 5386)

§ 240.442 *Formulas previously approved.* Where the proprietor has filed and received approval of a formula for the production of special natural wine prior to the effective date of this part, he may continue the manufacture of such wine without filing a new formula: *Provided,* That there has been no material change in the characteristics of the wine since approval of the original formula and sample.

(68A Stat. 671; 26 U. S. C. 5386)

§ 240.443 *Production by fermentation.* If, in the production of special natural wine, the flavoring materials are added before or during fermentation, adequate precautions must be taken to prevent the accidental flavoring of other wine by contamination. Special natural wine made under this section may be ameliorated with sugar, water, or a combination of sugar and water (or invert sugar syrup) in the same manner and to the same extent as natural wine made from the same fruit, as provided in subpart P of this part in the case of grape wine, or Subpart Q of this part in the case of fruit wine. Special natural wine may not be entered into reserve inventory, nor may wine spirits be added to special natural wine, except the wine spirits contained in authorized essences made on bonded wine cellar premises as provided in § 240.446, or approved essences made elsewhere. Retsina wine is an example of special natural wine made under this section. Upon removal of the wine from fermenters the quantity of liquid will be determined accurately and recorded as wine produced. This removal must be made within 15 days after the deposit of the material in fermenters, unless the proprietor desires to hold the wine for completion of fermentation or amelioration, in which case the wine must be considered in intermediate storage and recorded as produced upon removal therefrom. The period of intermediate storage may not exceed six months unless such period is extended by the assistant regional commissioner upon a showing of necessity.

(68A Stat. 666, 671; 26 U. S. C. 5367, 5386)

§ 240.444 *Use of natural wine in production of special natural wine.* If flavoring materials are not to be added before or during fermentation, as provided in § 240.443, they may be added only to natural wine for the production of special natural wine. Any natural wine produced as provided in Subparts P and Q of this part may be used for this purpose. Caramel, sugar, or sugar-water solution of not less than 60 degrees (Brix), may be used in special natural wine made under this section. Water may be used for the purpose of facilitating the extraction of flavor from herbs and adjustment of the alcohol content of vermouth to a precise percentage. The amount of water so used shall not be in excess of 10 percent of the volume of vermouth to which it is added. Heavy bodied blending wine (including juice or concentrated juice to which wine spirits have been added) may be used in the production of special natural wine if its use is specified in the formula. Special natural wine may be made in wine storage tanks; however, if the production process requires more than one day for completion, or if maceration and steeping are a part of the process, processing tanks must be provided for the production of special natural wine. Precautions must be taken in the cleaning of tanks and equipment, or by providing separate tanks and equipment, to prevent the accidental flavoring of other wine by contamination.

(68A Stat. 671; 26 U. S. C. 5386)

§ 240.445 *Essences.* Essences or extracts (preparations of natural constituents extracted from fruits, herbs, berries, etc.) may be used in the production of special natural wine. The essences may be produced on the bonded wine cellar premises or elsewhere, as provided in §§ 240.446 and 240.447. Where essences contain distilled spirits, the essences used may not increase the volume of the special natural wine more than 10 percent nor its alcohol content more than 4 percent by volume.

(68A Stat. 671; 26 U. S. C. 5386)

§ 240.446 *Essences produced on the premises.* Essences produced on bonded wine cellar premises may be made by the use of wine, taxpaid wine spirits, taxpaid ethyl alcohol, or wine spirits withdrawn tax-free under the provisions of Subpart PP of this part. The description of the process of production of the essence may be included as a part of the formula for production of the special natural wine, or a separate formula on Form 698—Supplemental may be filed covering production of the essence. If a separate formula is filed for the essence, the use of the essence by formula number will be shown on the Form 698—Supplemental covering the special natural wine in which it is to be used. If essences are to be made in quantities greater than required for individual lots of special natural wines, and stored on the premises, separate formulas for the essences must be filed. Essences made on bonded wine cellar premises by the use of tax-free wine spirits may not be removed from the premises where made, but must be used in the production of special natural wine on such premises. Form 698—Supplemental, covering the production of essences will be filed in the same manner as for the production of special natural wine, except that samples of essences shall be not less than four ounces each.

(68A Stat. 671; 26 U. S. C. 5386)

§ 240.447 *Essences made elsewhere.* An essence made elsewhere than on bonded wine cellar premises may be used in the production of special natural wine, provided the manufacturer of the essence secures approval for its use. The manufacturer will file a statement, in duplicate, of the materials and processes used in the manufacture of the essence, with the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington, D. C. A sample, not less than four ounces in amount, will be submitted with the statement. The essence will be identified by the name of the manufacturer, and the name of the essence, or an identifying number. A separate statement and sample must be submitted for each essence to be used for special natural wine production. The Director, Alcohol and Tobacco Tax Division, will notify the manufacturer of approval or disapproval of the essence for use in wine production. If approved, the proprietor of a bonded wine cellar may describe the essence on Form 698—Supplemental by manufacturer and name or number, without submitting additional samples of the essence.

(68A Stat. 671; 26 U. S. C. 5386)

§ 240.448 *Blending.* Special natural wines of the same class and kind may be blended with each other, and with heavy bodied blending wine, or natural wine of the same kind of fruit, in the further production of special natural wine. Where the proprietor desires to blend a special natural wine produced under one formula with a special natural wine produced under another formula, he may do so only pursuant to an approved formula authorizing such blending: *Provided,* That where two or more formulas have been approved for the production of the same type of special natural wine, as for example, sweet vermouth produced under two or more formulas, or lightly flavored dry vermouth produced under two or more formulas, the products may be blended without obtaining prior approval or submission of an additional formula.

(68A Stat. 671; 26 U. S. C. 5386)

SUBPART T—AGRICULTURAL WINE

§ 240.460 *General.* Agricultural wine may be made on bonded wine cellar premises from suitable agricultural products other than the juice of fruit. Water or pure sugar, or both, may be used within the limitations of this subpart in the production of standard agricultural wine. Agricultural wine may not be flavored or colored, except that hops may be used in the production of honey wine; wine spirits may not be used in the production of such wine; and a wine made from one agricultural product may not be blended with a wine made from another agricultural product. Agricultural wine made with sugar other than pure sugar or with sugar or water in excess of the limitations of this subpart may not be made or stored on standard wine premises.

(68A Stat. 671; 26 U. S. C. 5387)

PRODUCTION

§ 240.461 *Raisin wine.* In the production of wine from raisins, sufficient water may be added to restore the moisture content of the fresh grape. (As a rule, three parts of water by weight to each part of raisins will restore the moisture content.) If it is desired not to restore the raisins to the moisture content of the fresh grape, or if such moisture content is not known, sufficient water may be added to reduce the density to 22 degrees Brix. After such addition of water, the resulting liquid may be ameliorated with either water or pure dry sugar, or a combination of water and pure dry sugar, in such total volume as may be necessary to reduce the natural fixed acid content of the mixture to a minimum of five parts per thousand, but in no event may the volume of the ameliorating material exceed 35 percent of the total volume of the ameliorated juice or wine (calculated exclusive of pulp). Pure dry sugar may be used for sweetening. The finished product shall have an alcohol content of less than 14 percent after complete fermentation or complete fermentation and sweetening, and the total solids content shall be not over 35 degrees (Brix). If the finished wine has a total solids content of more than 21 degrees Brix, it must be removed under a designation showing that it is unusually sweet.

(68A Stat. 671, 672; 26 U. S. C. 5387, 5388)

§ 240.462 *Other dried fruits.* In the production of wine from dried fruit other than raisins, a quantity of water sufficient to restore the moisture content of the fresh fruit may be added. If it is desired not to restore the dried fruit to the moisture content of the fresh fruit, or if such moisture content is not known, sufficient water may be added to reduce the density to 22 degrees (Brix). If the liquid, after restoration, is deficient in sugar, sufficient pure dry sugar may be added to increase the total solids content to 23 degrees (Brix). Thereafter, either water or a combination of water and pure dry sugar, may be added in such total volume as may be necessary to reduce the natural fixed acid content of the mixture to a minimum of five parts per thousand, but in no event may the volume of the ameliorating material exceed 35 percent of the total volume of the ameliorated juice or wine (calculated exclusive of pulp). Pure dry sugar may be added for sweetening. The product shall have an alcohol content less than 14 percent after complete fermentation or complete fermentation and sweetening and a total solids content not more than 35 degrees (Brix). If the finished wine has a total solids content of more than 21 degrees (Brix), it must be removed under a designation showing that it is unusually sweet.

(68A Stat. 671, 672; 26 U. S. C. 5387, 5388)

§ 240.463 *Honey wine.* In the production of wine from honey, a quantity of water may be added to facilitate fermentation, but the density of the mixture of honey and water shall not be reduced below 22 degrees (Brix). Hops may be added in quantities not exceeding one pound for each 1,000 pounds of honey, and pure dry sugar or honey may be added for sweetening. The product shall have an alcohol content less than 14 percent after complete fermentation or complete fermentation and sweetening, and a solids content not more than 35 degrees (Brix). If the finished wine has a total solids content of more than 21 degrees (Brix), it must be removed under a designation showing that it is unusually sweet.

(68A Stat. 671, 672; 26 U. S. C. 5387, 5388)

§ 240.464 *Other agricultural products.* In the production of wine from agricultural products other than those specified in §§ 240.461, 240.462 and 240.463, water and pure dry sugar may be added to the extent necessary to facilitate fermentation: *Provided,* That the total weight of sugar used for fermentation shall be less than the weight of the primary wine-making material and the density of the mixture prior to fermentation shall not be less than 22 degrees (Brix), if water is used. Additional sugar may be used for sweetening, provided the alcohol content of the finished wine after complete fermentation, or after complete fermentation and sweetening, shall be less than 14 percent by volume and the solids content shall not be more than 35 degrees (Brix). If the finished wine has a total solids content of more than 21 degrees (Brix), it must be removed under a designation showing that it is unusually sweet.

(68A Stat. 671, 672; 26 U. S. C. 5387, 5388)

§ 240.465 *Formula required.* Before producing any agricultural wine, the proprietor of the bonded wine cellar must procure approval of the formula and process by which it is to be made. The formula and process will be described in detail on Form 698-Supplemental, which will be filed in quadruplicate with the assistant regional commissioner.

(68A Stat. 671; 26 U. S. C. 5387)

§ 240.466 *Prohibited agricultural products.* Grain, cereals, malts, or molasses may not be used on bonded wine cellar premises. Alcoholic products made with these materials are not wines and may not be produced or stored on bonded wine cellar premises.

(68A Stat. 671; 26 U. S. C. 5387)

SUBPART U—WINE OTHER THAN STANDARD WINE

§ 240.480 *Use of premises.* Except as provided in § 240.481, wine other than standard wine may not be produced or stored on bonded wine cellar premises used for the production or storage of standard wine.

(68A Stat. 665; 26 U. S. C. 5364)

§ 240.481 *Classes of wine other than standard wine.* The following classes of wine are not standard wine:

(a) High fermentation wine, produced as provided in § 240.483;

(b) Heavy bodied blending wine, produced as provided in § 240.484;

(c) Spanish type blending sherry, or similar wine products not for beverage use, produced as provided in §§ 240.484 and 240.485;

(d) Distilling material, produced as provided in § 240.486;

(e) Vinegar stock, produced as provided in § 240.487;

(f) Wines other than those in classes (a), (b), (c), (d) and (e), not produced within the limitations of Subparts P, Q, and T of this part, but within limitations of § 240.352; and

(g) Spoiled wine, of the kind described in § 240.489.

Wines of classes (a), (b), (c), (d), and (e), may be produced, stored, and handled on standard wine premises. Wine of class (f) may not be produced, stored, or handled on standard wine premises. Wine of class (g) may not remain on standard wine premises, except as provided in § 240.489.

(68A Stat. 665; 26 U. S. C. 5364)

§ 240.482 *Formula required.* Each proprietor desiring to produce wine other than standard wine shall first procure approval of the formula by which it is to be made, except that no formula is required for distilling material or vinegar stock. The formula will be filed on Form 698—Supplemental, in quadruplicate, with the assistant regional commissioner, and must show each ingredient to be used, as well as the process of production. Where the proprietor has on file on the effective date of this part approved formulas covering the production of high fermentation wine, heavy bodied blending wine, or Spanish type blending sherry, new formulas need not be filed unless requested by the assistant regional commissioner.

§ 240.483 *High fermentation wine.* High fermentation wine is a wine made within the limitations of Subpart P for grape wine or Subpart Q of this part for fruit wine, except (a) that the alcohol content after complete fermentation or complete fermentation and sweetening is 14 percent or more; (b) that the wine may not be entered in reserve inventory; and (c) that wine spirits may not be added. While high fermentation wine is not a natural wine or a standard wine, it may be produced, stored, and handled on standard wine premises, subject to appropriate marking or labeling.

(68A Stat. 665, 672; 26 U. S. C. 5364, 5388)

§ 240.484 *Heavy bodied blending wine.* Wine made from grapes or other fruit without added sugar, and with or without added wine spirits, may be made for blending purposes with a total solids content in excess of 21 percent. Heavy bodied blending wine is not natural wine or standard wine, but may be produced, stored, and handled on standard wine premises for use in blending with other wine made from the same kind of fruit, or for removal upon payment of tax, not for sale or consumption as beverage wine. A separate record must be kept showing the quantities of heavy bodied blending wine produced, received, used, shipped, and on hand. Upon removal, the shipping containers (and Form 703, if in bond) will be marked "Heavy Bodied Blending Wine—Not for Sale or Consumption as Beverage Wine."

(68A Stat. 664, 665, 672; 26 U. S. C. 5361, 5364, 5388)

§ 240.485 *Spanish type blending sherry.* Blending wine made with partially caramelized grape concentrate may be produced on bonded wine cellar premises, but not for sale or consumption as beverage wine. Wine of a high solids content and dark in color, produced under this section, will be marked "Spanish Type Blending Sherry—Not for Sale or Consumption as Beverage Wine," and other wine containing caramelized concentrate will be designated and marked "Caramelized Blending Wine—Not for Sale or Consumption as Beverage Wine." The particular kind of wine, such as "sherry" may be shown, if desired. A separate record showing the production and disposition of such blending wine must be maintained. Blending wine of this class is not natural wine or standard wine, and may not be blended with natural wine or standard wine except under an approved formula in the further production of this class of blending wine.

(68A Stat. 664, 665, 672; 26 U. S. C. 5361, 5364, 5388)

§ 240.486 *Distilling material.* Wine may be produced on bonded wine cellar premises from grapes and other fruit, natural fruit products, or fruit residues, for the production of distilling material, using any quantity of water desired to facilitate fermentation or distillation. No sugar may be added in the production of distilling material. Distilling material will be reported as produced at the time of removal from fermenting tanks. Lees, filter wash, and other wine residues, may also be accumulated on bonded wine cellar premises for use as distilling material. Such materials will be reported as wine on Form 702 until water is added to facilitate handling or distillation, when the entire quantity, including the water, will be transferred to the distilling material account. If wine is refermented for use as distilling material as provided in Subpart V of this part, the wine will be transferred to the distilling material account at the time fermentation is started, or when water is added to facilitate refermentation.

(68A Stat. 664, 665; 26 U. S. C. 5361, 5364)

§ 240.487 *Vinegar stock.* Vinegar stock may be produced on bonded wine cellar premises with the addition of any quantity of water desired to meet commercial standards for the production of vinegar. Vinegar stock may be made only by the addition of water to wine, or by the direct fermentation of the juice of grapes or other fruit with added water. If produced by direct fermentation with added water, the production will be recorded on cellar records and reported on Form 702 as vinegar stock. If produced by the addition of water to wine, it will be transferred from the wine account to the vinegar stock account at the time of adding the water.

(68A Stat. 664, 665; 26 U. S. C. 5361, 5364)

§ 240.488 *Other wines.* Except as provided in §§ 240.483, 240.486 and 240.487, wine produced with sugar or water beyond the limitations prescribed for standard wine, or wine made with kinds of sugar not permitted in the production of standard wine, may be produced and stored only on premises qualified for that purpose and on which no standard wine is produced or stored. Upon removal, such wine shall be marked or labeled with a designation which will adequately disclose the nature and composition of the wine.

(68A Stat. 665, 672; 26 U. S. C. 5364, 5388)

§ 240.489 *Spoiled wine.* Whenever a standard wine becomes substandard by reason of its condition, the substandard wine will be removed promptly to premises other than standard wine premises, unless the condition is corrected, the wine is removed in due course for distillation, or is destroyed under Government supervision. Among conditions requiring correction or removal are the development of volatile acidity in excess of the maximum prescribed by Part 4 of Title 27, Code of Federal Regulations issued under the Federal Alcohol Administration Act (49 Stat. 477; 27 U. S. C. 201); or in case no maximum volatile acidity is prescribed by those regulations, a volatile acidity calculated as acetic acid and exclusive of sulphur dioxide in excess of 0.14 gram per ml.; or disease or decomposition, which causes the wine to lack the composition, color and other characteristics of standard wine of the same type.

(68A Stat. 665, 668; 26 U. S. C. 5364, 5381)

SUBPART V—REFERMENTATION OF WINE AND WINE LEES

§240.500 *General.* Wine or wine lees may be refermented as provided in this subpart, except that wine or wine lees in which sugar sweetening was used may not be refermented for use as distilling material at a fruit distillery.

(68A Stat. 640; 26 U. S. C. 5215)

§ 240.501 *Application.* When the proprietor desires to refermented wine or wine lees, he will file written application with the assistant regional commissioner or with the internal revenue officer if one is assigned at the premises, setting forth the quantity and alcohol content of wine or wine lees he desires to refermented, the reasons for desiring to refermented, whether the wine or wine lees are to be fermented separately or with other material, and whether the refermented material is to be later removed as wine or as distilling material for use at a fruit distillery. If the wine or wine lees are to be refermented for use as distilling material at a fruit distillery, the application shall specify the date the wine was produced, and, if wine spirits have been added thereto, the date of such addition, and whether sugar sweetening was used in producing the wine: *Provided,* That where it is impracticable to specify the date of production, or addition of wine spirits, the application must establish that no sugar sweetening was used in producing the wine. The operation may not be commenced before approval of the application.

SUBPART W—PRODUCTION OF EFFERVESCENT WINE

§ 240.510 *General.* Sparkling wine and artificially carbonated wine may be made on bonded wine cellar premises. All effervescent wine (wine charged with carbon dioxide) shall be classed as sparkling wine or artificially carbonated wine, and shall be subject to tax as such, regardless of the degree of effervescence or carbonation. Where the effervescence results from fermentation of the wine within a closed container or bottle, the wine shall be classed and taxed as sparkling wine. The use of carbon dioxide gas in the transfer and bottling of bulk sparkling wine is not permitted. Where the wine is carbonated artificially (by injection of carbon dioxide into the wine) it shall be classed and taxed as artificially carbonated wine. Neither the effervescent wine nor the wine used as a base in the production thereof shall have an alcohol content in excess of 14 percent by volume; however, small quantities of wine containing more than 14 percent of alcohol may be used in preparing a dosage for finishing effervescent wine.

(68A Stat. 668; 26 U. S. C. 5382)

§ 240.511 *Segregation of operations.* Where more than one process of producing effervescent wine is employed, the portion of the premises used for the production and storage of wine made by each process (bottle fermented, bulk fermented or artificially carbonated) must be physically segregated by partitions of wire netting or other suitable material from the other portions of the premises used for effervescent wine production. If artificially carbonated wine is produced, all containers of carbon dioxide gas will be stored in the portion of the premises used for the production of artificially carbonated wine.

(68A Stat. 665; 26 U. S. C. 5365)

§ 240.512 *Process and materials.* In preparing still wine for the production of sparkling wine, pure sugar and a small amount of tartaric acid, malic acid (for sparkling apple wine), or citric acid, may be added with yeast or yeast culture to facilitate the process of secondary fermentation or to correct the wine. Fruit syrup, pure sugar, wine, wine spirits, and the acids named above, may be used in preparing a finishing dosage for sparkling wine or carbonated wine. The fruit syrup, wine spirits and wine so used must come from the same kind of fruit as the wine from which the sparkling wine or carbonated wine is made. In the production of effervescent natural wine, taxpaid wine spirits or wine spirits withdrawn tax-free under the provisions of Subpart PP of this part, may be used. Tax-free wine spirits may not be used in the production of effervescent wine which is not natural wine. In the fermentation and finishing of the effervescent wine, the materials specifically authorized in § 240.529 may be used.

(68A Stat. 668; 26 U. S. C. 5382)

§ 240.513 *Statement of process for effervescent wine.* Each proprietor intending to produce sparkling wine or artificially carbonated wine shall submit to the assistant regional commissioner a statement in detail on Form 698—Supplemental showing each process by which he intends to make the product and giving the designation as to kind (class and type) under which he desires to market it. The statement must set forth whether the product will be naturally or artificially carbonated, and if naturally carbonated, whether it will be carbonated in bottles or in tanks or other bulk containers, the kind of wine to be used, and any other materials to be used in connection with secondary fermentation, cellar treatment and finishing of the product. The approximate period of time required to complete production shall also be stated. If more than one process is to be employed, or more than one product is to be made, a separate statement shall be filed for each process and for each product. Each statement of process shall bear the name, registry number, and address of the bonded wine cellar, shall be numbered in serial order beginning with "1" for each bonded wine cellar, shall be filed in quadruplicate, and be approved by the Director, Alcohol and Tobacco Tax Division, before commencing manufacture. Where the proprietor has on file on the effective date of this part approved formulas covering production of effervescent wine, new formulas need not be filed unless requested by the assistant regional commissioner.

(68A Stat. 668, 672; 26 U. S. C. 5382, 5388)

SUBPART X—STORAGE AND FINISHING OF WINE

§ 240.520 *Storage of wine.* Wine must be stored in buildings or tanks on the bonded premises constructed and secured in accordance with the provisions of § 240.140. Wine may be stored in tanks, casks, barrels, cased or uncased bottles, or in any other suitable containers. If fermenting tanks and storage tanks previously used for one class of wine are to be used for wine of another class, the tanks must be carefully cleaned before such use in order to avoid contamination of the wine. It is particularly important that tanks used for special natural wine (flavored wine) be so cleaned or treated that the flavor will not contaminate other wine subsequently placed in the tanks.

§ 240.521 *Sun baking of wine.* Proprietors desiring to bake wine in the sun must provide a secure area on the bonded premises for that purpose. The area provided will be shown on the plat and the means of security described on Form 698.

(68A Stat. 664, 668; 26 U. S. C. 5357, 5382)

§ 240.522 *Marking storage containers.* Each container in which wine is stored shall be marked to show the kind (class and type) and alcohol content of the wine. If the wine was produced under a formula, the formula number must be shown. The alcohol content shall be stated as percentage by volume, with a tolerance of one percent (one and one-half percent in the case of wine containing not over 14 percent alcohol by volume) allowed, provided the alcohol content stated falls within the correct tax classification. Cased bottles need not be marked if the cases containing them are marked as required, and uncased bottles need not be marked if stored in bins or racks which are properly marked.

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.523 *Sterilizing and preserving.* Sterilizing and preserving agents, such as sulphur dioxide, potassium metabisulphite, or sodium metabisulphite, may be used to the extent necessary, provided the sulphur content of the finished wine does not exceed the limits prescribed in Part 4, Title 27, Code of Federal Regulations.

(68A Stat. 668; 26 U. S. C. 5382)

§ 240.524 *Finishing of wine.* In the process of filtering, clarifying, or purifying wine on bonded wine cellar premises, materials, methods, and equipment may be used to remove cloudiness, precipitation, and undesirable odors and flavors, but the addition of any substance foreign to wine which changes the character of the wine, or the abstraction of ingredients which will change its character, to the extent inconsistent with good commercial practice, is not permitted on bonded wine cellar premises. Specifically authorized materials are listed in § 240.529.

(68A Stat. 616, 668; 26 U. S. C. 5082, 5382)

§ 240.525 *Use of tannin.* When fining agents, such as gelatin and isinglass, which require the presence of a certain amount of tannin in grape wine in order to work effectively, are used for clarification of grape wine, and the wine to be clarified does not contain sufficient tannin to permit the fining agents to precipitate completely, a small amount of tannin may be added to the grape wine for the purpose of assisting the fining agents. Tannin may also be added to grape wine after clarification to the extent necessary to raise the tannin content of the wine to that normally contained therein: *Provided,* That white wines in which tannin is used shall not contain more than 0.08 gram of tannin per 100 ml. after clarification, and red grape wine in which tannin is used shall not contain more than 0.3 gram of tannin per 100 ml. after clarification, unless the assistant regional commissioner authorizes a higher tannin content, pursuant to a showing of necessity therefor. Only tannin of a yellowish white or very light brown color, which does not color the wine, may be used in the cellar treatment of wine. The records required by § 240.918 will be kept covering the use of tannin.

(68A Stat. 668; 26 U. S. C. 5382)

§ 240.526 *Stabilizing grape wine.* Grape wine, regardless of acid content, may be stabilized, as a part of the finishing process, by the addition of not more than two pounds of citric acid for each 1,000 gallons of wine. The record required by § 240.917 must be maintained covering the use of citric acid.

(68A Stat. 668; 26 U. S. C. 5382)

the quantities of heavy bodied blending wine, it will be transferred from the wine

No. 230——5

§ 240.527 *Removal of excessive color in white wine.* If color in excess of that normally contained in white wine develops during its production or storage and the proprietor desires to remove such excess color, he will prepare samples representing the wine before and after treatment with activated carbon or other materials and submit such samples, with a sample of the activated carbon or other material used, to the assistant regional commissioner for examination. There will be submitted with the samples a written statement, in duplicate, setting forth (a) the reasons for desiring to so treat the wine, (b) the quantity, kind, and type of wine to be treated, (c) the kind and quantity of material to be used, and (d) the process to be employed. If the chemical analysis of the samples shows that the proposed treatment will remove only the excess color and will not remove any of the usual natural color or other characteristics of the wine, the assistant regional commissioner will authorize the treatment of the wine in question. If the chemical analysis shows that the proposed treatment will remove the natural characteristics of the wine, the assistant regional commissioner will disapprove the application. A separate application with representative samples must be submitted for each lot of wine it is desired to treat.

(68A Stat. 668; 26 U. S. C. 5382)

§ 240.528 *Filter aids.* Inert fibers, pulps, earths, or similar materials, may be used as filter aids in the cellar treatment and finishing of wine. There is no limitation on the use of such inert materials, and no records need be maintained concerning their use. Filter aids which contain active chemical ingredients, or which have been so treated that they may alter the character of the wine, may be used only after compliance with the provisions of § 240.530.

(68 Stat. 668; 26 U. S. C. 5382)

§ 240.529 *Materials authorized for treatment of wine.* The following materials are approved, as being consistent with good commercial practice, for use by proprietors of bonded wine cellars in the production, cellar treatment, or finishing of wine, within the general limitations of § 240.524, or the specific limitations shown in the table, or given in the sections referred to:

Materials	Use	Reference or limitation
Activated carbon	To assist precipitation during fermentation.	§§ 240.361, 240.366, 240.401, 240.405.
	To clarify and purify wine	§ 240.521.
	To remove excess color in white wine.	§ 240.527.
Bentonite (Wyoming clay)	To clarify wine	§ 240.521.
Calcium sulphate (gypsum)	Production of Spanish type or Flor sherry wine.	§ 240.385.
Carbon	To clarify and purify wine	§ 240.521.
Casein	To clarify wine	§ 240.524.
Citric acid	To increase the acidity of wine	§§ 240.364, 240.404.
	To stabilize grape wine	§ 240.526.
Eggs (albumen or yolks)	To clarify wine	§ 240.524.
Gelatin	To clarify wine	§ 240.524.
Gypsum. (*See* calcium sulphate.)		
Isinglass	To clarify wine	§ 240.524.
Malic acid	To increase acidity of wine	§§ 240.364, 240.404.
Nitrogen gas	To maintain pressure during filtering and bottling of sparkling wine. To prevent oxidation of wine.	May not be contained in sparkling or still wine.
Oxygen	In baking sherry wine	May be used provided it does not cause changes in the wine other than those occurring during the usual storage in wooden cooperage over a period of time. Application must be filed.
Phosphates	To start secondary fermentation in manufacturing champagne and sparkling wines.	Small quantity only may be used. (The use of ammonium phosphate, ammonium sulphate or potassium acid phosphate as yeast food in the production of still wine is not permitted.)
Potassium metabisulphite	Sterilizing and preserving wine	§ 240.525.
Sodium caseinate	To clarify wine	§ 240.524.
Sodium metabisulphite	Sterilizing and preserving wine	§ 240.523.
Sulphur dioxide	Sterilizing and preserving wine	§ 240.523.
Sulphuric acid	To effect a favorable yeast development in distilling material.	§ 240.486.
Tannin	Clarifying grape wine	§ 240.525.
Tartaric acid	To increase acidity of grape wine	§ 240.364.
Urea	To facilitate fermentation of wine	§§ 240.361, 240.366, 240.401, 240.405. Not more than 2 pounds per 1,000 gallons of wine.

(68A Stat. 668; 26 U. S. C. 5382)

§ 240.530 *Notice.* If the proprietor desires to use materials or methods not specifically authorized in § 240.529 or elsewhere in this part, he must file notice, in triplicate, with the assistant regional commissioner. The notice will show the name and description of the material or method, the purpose, the manner and the extent to which it is to be used, together with any pertinent information in regard to the material or method. A sample of the material, if any, will be forwarded with the notice. There may be forwarded with the notice any data or written statements tending to show that the proposed use of the material or method is a cellar treatment consistent with good commercial practice. The assistant regional commissioner will forward the notice to the Director, Alcohol and Tobacco Tax Division for a decision regarding the use of the method or material. The proprietor should not use the proposed method or material until receipt of advice that the Director, Alcohol and Tobacco Tax Division has found its use not to be contrary to the provisions of this part.

(68A Stat. 668; 26 U. S. C. 5382)

SUBPART Y—TAXFREE PRODUCTION

PRODUCTION FOR FAMILY USE

§ 240.540 *Registered producer.* A duly registered head of any family may produce annually for family use, and not for sale, not in excess of 200 gallons of wine without payment of tax. This exemption does not authorize the production of wine for such use contrary to state law.

(68A Stat. 610; 26 U. S. C. 5042)

§ 240.541 *Limitations of exemption.* The statutory exemption does not apply to (a) wine made by one person for use of another, whether consumed on the premises or removed therefrom for the family use of the owner; (b) wine produced by a single person unless he is the head of a family; (c) wine produced by a married man living apart from his family; (d) wine made by a partnership or produced at a wine cellar by two or more heads of families jointly; (e) wine produced by a corporation or association; or (f) wine furnished to persons not members of the producer's family.

(68A Stat. 610; 26 U. S. C. 5042)

§ 240.542 *Registration, Form 1541.* Every person (other than the operator of a bonded wine cellar) coming within the exemption and desiring to produce wine for the exclusive use of his family, must prepare Form 1541, registration for production of wine for family use without payment of tax, in duplicate, and send both copies to the assistant regional commissioner of the region in which he resides. Both copies of the form must be sent to the assistant regional commissioner at least five days before commencing production of the wine. The assistant regional commissioner will return one copy of Form 1541, stamped with the date of receipt, to the registrant. Upon production of the wine, the registrant will enter the quantity produced and the date of production on the copy of the form returned to him by the assistant regional commissioner. Such form will be retained at the place of production. A new form must be submitted each succeeding year during which it is desired to produce wine for family use, the year to be reckoned as commencing on July 1 and ending on June 30 following.

(68A Stat. 610; 26 U. S. C. 5042)

§ 240.543 *Removal of wine.* Wine made for family use may not be removed from the premises where made without authority of the assistant regional commissioner.

(68A Stat. 610; 26 U. S. C. 5042)

CIDER

§ 240.544 *General.* The noneffervescent product of normal alcoholic fermentation of apple juice only, without the use of any preservative methods or materials, when produced at a place other than a bonded wine cellar and sold or offered for sale as cider, and not as wine or as a substitute for wine, shall not be subject to tax as wine, nor to the provisions of this part.

(68A Stat. 610; 26 U. S. C. 5042)

EXPERIMENTAL WINE

§ 240.545 *General.* Any university, college of learning, or institution of scientific research may produce, receive, blend, treat, and store wine, without payment of tax, for experimental or research

use, but not for consumption (other than organoleptic tests) or sale, and may receive such wine spirits without payment of tax, as may be necessary for use in the production of such wine. No bond will be required on account of such experimental wine operations, nor for the withdrawal of wine spirits for use in experimental operations.

(68A Stat. 610; 26 U. S. C. 5042)

§ 240.546 *Application.* Each institution desiring to conduct experimental wine operations shall submit an application in letter form in triplicate to the assistant regional commissioner. The application shall include the name and address of the institution, the portion of the premises to be used in experimental wine operations, the security to be afforded the wine on hand, and the nature and extent of the operations to be conducted. If wine spirits are to be used that fact shall be stated together with the estimated annual requirements in proof gallons. A secure place of storage under lock shall be provided for the wine spirits and shall be described in the application.

(68A Stat. 610; 26 U. S. C. 5042)

§ 240.547 *Commencement of operations.* If the assistant regional commissioner approves the application, he will note that fact on all copies of the letter and return one copy to the institution. Upon receipt of the approved letter of application, the experimental wine operations may be commenced. The returned copy will be retained in the files of the institution and will be exhibited on request to internal revenue officers.

(68A Stat. 610; 26 U. S. C. 5042)

§ 240.548 *Procurement of wine spirits.* Where the approved application provides for the use of wine spirits in experimental wine operations, wine spirits may be procured to the extent allowed by the approved application, upon filing of Form 257, appropriately modified, with the assistant regional commissioner.

(68A Stat. 610; 26 U. S. C. 5042)

§ 240.549 *Records.* No reports concerning wine or wine spirits need be filed by institutions engaging in experimental wine operations but records appropriate to the experiments to be conducted will be made and retained available for inspection by internal revenue officers. If wine spirits are used, the records shall show the quantities of wine spirits received and used each day.

(68A Stat. 610; 26 U. S. C. 5042)

§ 240.550 *Discontinuance of experimental wine operations.* When an institution discontinues experimental wine operations, all wine and wine spirits must be disposed of either by their destruction or shipment to premises authorized to receive them. Authorization for such destruction or shipment must be obtained from the assistant regional commissioner prior to destruction or shipment. When such authorized disposition of wine and wine spirits has been completed a letter of notification will be sent to the assistant regional commissioner.

(68A Stat. 610; 26 U. S. C. 5042)

SUBPART Z—CONTAINERS FOR REMOVAL OF WINE

§ 240.560 *Kinds of containers.* Wine may be removed from a bonded wine cellar in casks, barrels, kegs, tanks, tank trucks, railroad tank cars, tank ships, barges, deep tanks of vessels, in cases (when bottled) of any desired size, in uncased demijohns (or bottles) of two gallons or more capacity, and by pipeline, under the limitations in this part. Movement of wine between noncontiguous portions of a bonded wine cellar is not considered a removal of wine.

§ 240.561 *Serial numbers.* All containers used for removing wine from bonded wine cellar premises will be marked with a serial number, commencing with "1" and continuing in order until the number 1,000,000 is reached, when the series may start again with "1". If desired, separate series of numbers preceded by identifying letters may be used for bulk containers and for cases, or for cases filled on different bottling lines. The serial numbers will be placed on the containers at the time of preparing wine for removal from the premises and will be shown on the removal records. Where the method of operation of the bonded wine cellar makes it impracticable to mark the serial numbers on cases of wine at the time of removal, the assistant regional commissioner may, upon written application showing the necessity therefor, authorize the marking of serial numbers on cases of wine at the time of filling the cases: *Provided*, That where cases are so marked, the proprietor must keep Form 2060 covering the filling and serial numbering of the cases. Where the assistant regional commissioner has approved the numbering of cases at the time of filling, and Form 2060 is maintained, the serial numbers of cases need not be shown on the record of tax-paid removals.

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.562 *Marks.* Each cask, barrel, keg, tank, tank truck, railroad tank car, or case, or other approved container, used to remove wine must be marked in a plain and durable manner with the serial number, the name of the proprietor and the registry number and location (by city or town and state) of the wine cellar, the kind (class and type), and the alcohol content of the wine, the contents of the container in wine gallons, and, except for cases, the date of removal or shipment. The kind of wine shall be stated in accordance with Part 4, Title 27 of the Code of Federal Regulations. The formula number shall be marked on bulk containers of special natural wine. When wine is packed or bottled under an authorized trade name other than that under which the bonded wine cellar is operated, such trade name may be marked on the shipping container as the name of the proprietor as authorized in § 240.192. These marks may be cut, printed, or otherwise legibly and durably marked upon the container, or placed upon a label or tag securely affixed to the container. The marks shall be placed upon the head of the package, or the side of the case, or on the prescribed route board attached to the tank truck, tank car, tank ship, barge, or deep tank of a vessel, where they may be readily examined by internal revenue officers.

(68A Stat. 666, 672, 695; 26 U. S. C. 5368, 5388, 5662)

§ 240.563 *Labels and tags.* Labels and tags must be of good quality heavy paper or tag board, and of appropriate size, and the letters and figures thereon must be durable and legible. The label or tag must be affixed with a good adhesive; in the case of wooden containers, with tacks or staples: *Provided*, That where the labels or tags are affixed with a glue impervious to heat or moisture, tacks or staples need not be used.

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.564 *Other marks.* The head of the package, or the side of the case, bearing the prescribed marks shall be known as the "Government Head," and "Government Side," respectively, and shall contain no other marks except those authorized or required by Federal law or regulations: *Provided*, That the name and address of the consignee, brand name, number and size of bottles in cases, bottle label, and other related data, including identifying marks such as lot numbers, which do not conflict with or detract from the prescribed marks, may be shown on the Government head or side of the container.

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.565 *Destruction of marks.* All marks and labels or tags required by this part to be placed on casks, barrels, kegs, tanks, tank trucks, railroad tank cars, tank ships, barges and deep tanks of vessels used as shipping containers of wine, shall be destroyed by scraping or otherwise obliterated, immediately the containers are emptied by the person removing the wine therefrom: *Provided*, That when such packages of wine are emptied and are returned to the proprietor for reuse (refilling), the proprietor's name, address and registry number need not be obliterated, but all other prescribed marks on the packages must be completely destroyed by scraping or otherwise obliterated.

§ 240.566 *Alcohol content.* A statement of the alcohol content of wine in the manner prescribed in Part 4, Title 27, of the Code of Federal Regulations, meets the requirements of § 240.562, except that the alcohol content must be stated in all cases and must show definitely the taxable grade of the wine. Wine may not be marked or labeled as containing 14 percent, 21 percent, or 24 percent alcohol if it contains more than such percentages of alcohol, nor may wine be marked or labeled as containing 13–15 percent, 20–22 percent, or 23–25 percent alcohol.

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.567 *Fractional parts of gallons.* The wine gallon content of tank cars, tank trucks, tank ships, barges, or deep tanks of vessels, will be marked on the containers in whole gallons. The wine gallon content of casks, barrels, kegs, cases, or demijohns, will be marked on the containers in gallons and tenths of gallons. Where markings are in whole

gallons, fractions of a gallon will be converted to the nearest gallon, and five-tenths gallon will be converted to the next full gallon. Similarly, where markings are in tenths of gallons, fractions less than one-tenth will be converted to the nearest one-tenth gallon, and five-hundredth gallon will be converted to the next full one-tenth gallon. Contents of bottles will be stated on the bottle labels in the manner prescribed by Part 4, Title 27, of the Code of Federal Regulations.

(68A Stat. 609, 666; 26 U. S. C. 5041, 5368)

§ 240.568 *Route board on tank trucks and tank cars.* Tank trucks and railroad tank cars used for the transportation of wine, whether in bond, tax-free, or taxpaid, must be equipped with a route board at least 10 x 12 inches in size, to which the prescribed marks or labels can be affixed. Such board shall be of substantial material and shall be attached securely to the truck or car. The route board shall be placed on the tank truck or railroad tank car in a conspicuous and accessible place so as to permit ready inspection by internal revenue officers and destruction of the marks or labels by the person emptying the truck or car.

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.569 *Single compartment trucks and cars.* When wine is removed in single compartment tank trucks or railroad tank cars the entire contents of the tank truck or tank car must be consigned to the same consignee and destination.

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.570 *Multiple compartment trucks and cars.* When wine is shipped in multiple compartment tank trucks or railroad tank cars, the contents may be consigned by compartments to different consignees and destinations: *Provided,* That each compartment is given a separate serial number and separate marks, and a separate route board is attached to the truck or car for each compartment. Where the entire contents of a multiple compartment tank truck or tank car consists of the same kind of wine consigned to the same consignee at the same destination, one serial number and one set of marks will be given to the entire truck or car.

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.571 *Tank ships, barges, and deep tanks of vessels.* Tank ships, barges, and deep tanks of vessels, used for the transportation of wine, whether in bond, tax-free, or taxpaid, must be equipped with route boards similar in construction to those prescribed in § 240.568. Such route board must be affixed to each compartment (if any) of such tank ship, barge, or deep tank or tanks of a vessel. The compartments of tank ships, barges, or deep tanks of vessels shall be marked in the manner provided in § 240.562, insofar as applicable, and in addition shall bear the marks prescribed in § 240.611 where the wine is transferred in bond. The required marks must be destroyed or otherwise obliterated immediately the compartment is emptied. Such in-bond shipments may be made only where the premises of both the consignee and consignor are equipped with suitable facilities, and where the wine is run directly from the storage tanks on the consignor premises into the tank ship, barge, or deep tank of a vessel, and directly from the tank ship, barge, or deep tank of a vessel into storage tanks on the consignee's premises. The provisions of §§ 240.569 and 240.570 concerning the consigning of wine by compartments of tank trucks or tank cars to more than one consignee will govern the consigning of wine in bond in tank ships, barges, or deep tanks of vessels.

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.572 *Application for authority to use tank ships, barges and deep tanks of vessels.* A proprietor desiring to transfer wine in tank ships, barges, and deep tanks of vessels, shall make application therefor, in duplicate, to the assistant regional commissioner. The application may cover a specific lot of wine, or be for continuing authority. Where shipment is to be made to more than one consignee or premises, separate application must be submitted for each such premises. The application must state:

(a) The name and address of the consignee;

(b) The name, serial number, registry number, or other identifying symbol or mark, of each tank ship, barge, or vessel to be used;

(c) The name and address of the carrier;

(d) The course or route to be followed from consignor to consignee premises; and

(e) Whether the premises of both the consignor and consignee are equipped with suitable dock facilities and the wine is to be run directly from storage tanks on the consignor premises into the tank ship, barge, or deep tank or tanks of a vessel and directly from the tank ship, barge, or deep tank or tanks of a vessel into storage tanks on the consignee's premises.

§ 240.573 *Sealing of tanks.* Where wine is transferred in bond in tank ships, barges, and deep tanks of vessels, the manhole covers, outlet valves, and all other openings of the tanks containing the wine shall be equipped with facilities for sealing so that the contents cannot be removed without showing evidence of tampering. Serially numbered seals, dissimilar in marking from cap seals used by the Internal Revenue Service, shall be furnished and affixed by the carrier or proprietor. The serial numbers of the seals used on each shipment shall be reported by the consignor on the Form 703 prepared in accordance with § 240.613.

§ 240.574 *Reused barrels.* Barrels previously used for the storage of distilled spirits may be used by proprietors as storage and shipping containers for wine, provided the barrels are treated to remove distilled spirits from the heads and staves before deposit of wine therein. The spirits extracted from the barrels must be destroyed in each instance. This authorization to use such barrels should not be construed as relieving proprietors from tax liability in event the barrels are not treated to remove distilled spirits therefrom. A person mixing distilled spirits with wine incurs rectification tax liability of 30 cents per proof gallon, and additional wine tax liability if the mixing changes the taxable grade of the wine.

(68A Stat. 616; 26 U. S. C. 5082)

§ 240.575 *Remarking containers received from other premises.* When it is desired to remove for a taxable purpose containers of wine received in bond from other premises, the marks of the premises from which received may be obliterated and replaced with the marks of the taxpaying premises, or the original marks may be allowed to remain in lieu of the marks of the taxpaying premises if the word "Taxpaid," followed by registry number and State of the taxpaying premises, is placed on the same side of the container as the original marks. When containers of wine received in bond are reshipped in bond, the marks of the premises from which received must be canceled or obliterated.

§ 240.576 *Pipeline to or from tank cars or ships.* A pipeline may be used to convey wine from a bonded wine cellar to ships or railroad tank cars or from such conveyances to a bonded wine cellar. The premises of the bonded wine cellar need not be extended to include the entire pipeline. The pipeline may be under ground.

(68A Stat. 680; 26 U. S. C. 5552)

§ 240.577 *Shipments by tank car to and from premises without railroad siding facilities.* If shipment is made in a railroad tank car and the premises of the consignor or consignee, or both, are not equipped with railroad siding facilities, each tank truck or package in which the wine is conveyed to or from the railroad tank car must have affixed thereto a tag giving the name, registry number and address of the consignor, the kind and quantity of wine contained in the tank truck or package, the symbols and number of the railroad tank car to or from which the wine is being transported, whether the wine is taxpaid or shipped in bond, and the name and address of the consignee. The shipping proprietor shall also maintain at the premises a memorandum of all removals from the wine cellar by tank truck to tank cars on the noncontiguous railroad siding. Entry will be made at the time the tank truck is filled; the record shall show the tank car serial number. Remnants returned will be credited to the record so that there will be available to inspecting officers a record covering any wine lost enroute between the wine cellar and a tank car on a noncontiguous railroad siding. Proprietors making shipments to noncontiguous railroad sidings, or receiving from such sidings, shall file a consent of surety on Form 1533 extending the terms of the wine cellar bond, Form 700, to cover the transfer of wine from the bonded wine cellar to and from tank cars on noncontiguous railroad sidings while such cars are being loaded and until all wine is properly laden into the tank cars or returned to the bonded wine cellar premises.

§ 240.578 *Contents of packages and bottles.* Proprietors of bonded wine cellars will be held strictly responsible for the correct determination of the quantity and alcohol content of wine removed. As required by § 240.173, appropriate and accurate measures and instruments for measuring and testing the wine must be provided at each wine cellar. Bottles must be filled as nearly as possible to conform to the amount shown on the label or blown in the bottle to be contained therein, but in no event may the amount of wine contained in any bottle, due to lack of uniformity of the bottles, vary more than two percent from the amount stated to be contained therein; and further in such case there shall be substantially as many bottles overfilled as there are bottles underfilled for each lot of wine bottled.

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.579 *Labeling bottled wine.* When wine is bottled the bottler shall securely affix to each bottle a label showing:

(a) The name and address of the premises, or the name, registry number, and state where the premises are located;

(b) Kind of wine (class and type);

(c) The alcohol content by volume; and

(d) The net contents of the bottle, unless legibly blown in the bottle.

The alcohol content may be stated and the kind shall be stated in accordance with Part 4, Title 27, of the Code of Federal Regulations. When wine is bottled under an authorized trade name, such trade name may be stated as the name of the proprietor as provided in § 240.562. Where wine is bottled for aging, or other storage purposes, the labels need not be affixed until the wine is to be removed, provided the bins or containers in which the bottled wine is stored are marked to show the kind (class and type) and alcohol content of the wine.

(68A Stat. 666, 695; 26 U. S. C. 5368, 5662)

LABELS AND MARKS SUBJECT TO APPROVAL

§ 240.580 *Certificates of approval or exemption.* All persons bottling or packing wine in a bonded wine cellar are required by Part 4, Title 27 of the Code of Federal Regulations, to obtain a certificate of label approval, Form 1649, or a certificate of exemption from label approval, Form 1650, covering the label for the wine. This requirement is applicable to all wine bottled in containers of one gallon or less, and to all wine packaged in barrels, casks, kegs, or other closed containers, for use for sale at retail. The requirement is equally applicable to wine bottled or packaged before or after taxpayment, and to wine packed in barrels, casks, or other large containers, which are marked by stenciling or otherwise instead of being labeled, as such marks are held to constitute the label.

§ 240.581 *Certificates to be exhibited.* All persons holding certificates of label approval, or certificates of exemption from label approval, are required by Part 4, Title 27 of the Code of Federal Regulations, to exhibit upon request such certificates to an internal revenue officer. The original certificate, or duplicate original certificate, must be exhibited to the officer; photoprints, or other copies, are not acceptable for this purpose.

§ 240.582 *Relabeling bottled wine.* Where it is desired to relabel bottled wine received in bond from other bonded premises, application for permission to relabel the wine must be made to the assistant regional commissioner in accordance with Part 4, Title 27 of the Code of Federal Regulations.

§ 240.583 *Proprietor's responsibility.* Full responsibility rests upon the proprietor of a wine cellar to see that all wine bottled or packed by him is labeled in conformity with Part 4, Title 27, of the Code of Federal Regulations, and with this part.

(68A Stat. 666; 26 U. S. C. 5368)

SUBPART AA—TAXPAYMENT OF WINE

§ 240.590 *Time for determination of tax liability.* The tax on wine is to be determined at the time of removal from the bonded wine cellar premises (or transfer to a taxpaid room on the premises) for consumption or sale. Upon determination, the quantity of wine removed will be entered on the record prescribed by § 240.920.

(68A Stat. 609; 26 U. S. C. 5041)

§ 240.591 *Time for payment of tax.* The tax on wine shall be paid by return, Form 2050, which will be filed with remittance for the full amount of tax due as shown by the return. Form 2050 will be prepared in accordance with § 240.901 and the instructions printed on the form or issued in respect thereto, and shall be filed with the district director of internal revenue before the close of the first day succeeding the day covered by the return: *Provided,* That if the first succeeding day is a Saturday, Sunday or legal holiday, the return shall be considered timely filed if it is filed on the next succeeding day which is not a Saturday, Sunday or legal holiday. "Filed" shall mean delivered to the office of the proper district director of internal revenue and by that office received: *Provided,* That if a return is delivered by United States mail, the postmark (if made by a United States post office) on the cover in which such return is mailed, shall be deemed to be the date of delivery. If the tax on wine removed for a taxable purpose on any day is not more than $10, and there are no adjustments increasing the tax so that the total due is more than $10, Form 2050 will not be prepared covering that day's removals. The tax due will be allowed to accumulate until the total for successive days is more than $10, when Form 2050 will be prepared and filed. Before the close of the first day following the end of each month Form 2050 will be prepared and filed with remittance covering the last day or days of the next preceding month even though the amount of tax due is less than $10. Tax may be prepaid, as provided in § 240.593, but the amount so prepaid must be included in the return, Form 2050.

(68A Stat. 614, 895, 896; 26 U. S. C. 5061, 7502, 7503)

§ 240.592 *Failure to pay tax or file return at the time required.* The law provides penalties for failure to pay tax at the time required, for willful refusal to pay such tax and for fraudulent nonpayment of tax. In addition to such penalties, there is a penalty for the delinquent filing of tax returns imposed as an addition to the tax shown by such returns, amounting to 5 percent for each month or fraction thereof of delinquency, not exceeding 25 percent in the aggregate, unless it is shown that such delinquency is due to reasonable cause and not to willful neglect.

(68A Stat. 695, 699, 821; 26 U. S. C. 5061, 5684, 6651)

§ 240.593 *Prepayment of tax.* Where an approved tax deferral bond, Form 2053, is not on file with the assistant regional commissioner, the proprietor must, prior to removal of wine for a taxable purpose, pay the tax due thereon: *Provided,* That tax need not be prepaid where the amount unpaid at any one time does not exceed $100. Where an approved Form 2053 is on file and the proprietor desires to prepay tax in order to remove for a taxable purpose wine, the tax on which is in an amount in excess of the penal sum stated in such form, such payment must be made before the wine is removed: *Provided,* That tax need not be prepaid where the amount unpaid at any one time does not exceed $100 plus the penal sum of the tax deferral bond, Form 2053. Payment must be made by forwarding or delivering to the district director of internal revenue cash, certified check, cashier's check, Treasurer's check, or money order together with the original and one copy of Form 2052, as provided in § 240.902. For the purpose of complying with this section the term "forwarding" shall mean deposit in the United States mail properly addressed to the district director of internal revenue. Prepayment may be made only in respect to wine on which the tax will be determined on the business day covered by the prepayment.

(68A Stat. 614; 26 U. S. C. 5061)

§ 240.594 *Tax on wine.* The following are the rates of tax on wine:

(a) On still wine containing not more than 14 percent of alcohol by volume, 17 cents per wine gallon;

(b) On still wine containing more than 14 percent and not exceeding 21 percent of alcohol by volume, 67 cents per wine gallon;

(c) On still wine containing more than 21 percent and not exceeding 24 percent of alcohol, $2.25 per wine gallon;

(d) On champagne and other sparkling wine, $3.40 per wine gallon; and

(e) On artificially carbonated wine, $2.40 per wine gallon. Wine containing more than 24 percent of alcohol by volume shall be classed as distilled spirits and taxed accordingly. The tax shall be determined and paid on the quantity of wine marked on the containers as provided in §§ 240.562 and 240.567, or (in case of pipeline removals)

on the quantity determined as provided in § 240.597.

(68A Stat. 609; 26 U. S. C. 5041)

§ 240.595 *Marking of containers.* All containers of wine removed taxpaid, except cases, will be marked with the word "Taxpaid" in addition to the marks required by § 240.562: *Provided,* That cases must be so marked when required by § 240.575.

(68A Stat. 666; 26 U. S. C. 5368)

REMOVAL FOR TAXPAYMENT BY PIPELINE

§ 240.596 *General.* The assistant regional commissioner may authorize the removal of wine by pipeline for taxpayment from a bonded wine cellar to a taxpaid distilled spirits bottling house, rectifying plant, or taxpaid wine bottling house, contiguous to, or in the immediate vicinity of the wine cellar. Authorization will be given only if the proprietor has installed pipelines and tanks as prescribed by §§ 240.170 and 240.171.

(68A Stat. 609; 26 U. S. C. 5041)

§ 240.597 *Procedure for determination of tax.* When the proprietor desires to transfer wine to the taxpayment tank, he will make certain that the outlet valve is closed, and open the inlet valve of the taxpayment tank. When the tank is filled, or the desired quantity of wine has been run into the tank, the proprietor will close the inlet valve, accurately determine the quantity of wine in the tank, make entry in his cellar record showing the date, the wine taxpayment tank number; the kind, quantity, and alcohol content of the wine; and the plant to which the wine will be transferred. Immediately the tank has been emptied the proprietor must close the outlet valve. The quantities of wine so removed will be shown in Form 2056 as taxable removals. The quantity of wine removed by pipeline will be recorded to the nearest whole gallon, 5 tenths gallon being converted to the next full gallon.

SUBPART BB—TRANSFER OF WINE IN BOND TO OTHER BONDED WINE CELLARS

§ 240.610 *General.* Wine may be removed for transfer in bond, from one bonded wine cellar to another bonded wine cellar, as provided in this subpart.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.611 *Marking containers.* In addition to the marks required by § 240.562, each container, except cases, of wine transferred in bond from one bonded wine cellar to another shall be plainly marked "Transferred," followed by the registry number and state of the bonded premises to which the wine is shipped. The transfer marks may be abbreviated, as "Trans. BW 100–NY."

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.612 *Transfer of wine by pipeline.* Wine may be transferred in bond between contiguous or adjacent wine cellars by a pipeline constructed and approved as provided in § 240.172, provided one or more accurately calibrated tanks for measuring the wine have been installed in at least one of the bonded wine cellars. The quantity of wine transferred by pipeline will be recorded to the nearest whole gallon, 5 tenths gallon being converted to the next full gallon.

(68A Stat. 665, 680; 26 U. S. C. 5362, 5552)

§ 240.613 *Use of Form 703.* When wine is transferred in bond to other premises the proprietor will prepare Form 703, showing the date of transfer; name, address and registry number of the consignee and of the consignor; the number of cases, packages or tanks; serial numbers; gallons; percentage of alcohol, and kind of wine shipped: *Provided,* That where wine (including distilling material and vinegar stock) is transferred in bond by pipeline to adjacent premises, and commercial records are kept to show details of each such shipment as would appear on a separate Form 703, a monthly Form 703 may be prepared for shipments to each such premises instead of a separate Form 703 for each shipment. The alcohol content of the wine shall be stated on Form 703 as 13 percent, 18 percent, etc., rather than by taxable grade, and the kind of wine shall be stated according to class and type, including vintage and varietal designation if applicable, except in the case of unfinished grape wine, distilling material, or vinegar stock.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.614 *Preparation and handling of Form 703.* Where shipments are made to other premises in the same region, the proprietor will prepare three copies of Form 703 and forward on the date of shipment one copy to the assistant regional commissioner of his region, and two copies to the consignee. Upon receipt of the shipment the consignee will note on both copies of the form any loss in transit or other discrepancy, sign the form, retain one copy, and forward one copy to the assistant regional commissioner before the close of the following business day. When wine is shipped in bond to premises in another region, the consignor will prepare four copies of Form 703, and forward on the date of shipment one copy to the assistant regional commissioner of his region, one copy to the assistant regional commissioner of the region to which the wine is shipped, and two copies to the consignee, who will note on the form any loss in transit or other discrepancy, sign the form, retain one copy, and forward one copy to the assistant regional commissioner of his region.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.615 *Receipt of wine in bond.* When wine is received in bond from other bonded premises, the proprietor of the receiving premises will check the shipment against his copy of Form 703, and will determine by measure or weight the quantity received, and note on his records, as provided in Subpart UU of this part, the quantity actually received, together with the serial numbers, etc.: *Provided,* That packages received without apparent loss need not be measured or weighed. The proprietor shall file his copy of Form 703 at the wine cellar as a permanent record available for inspection by internal revenue officers.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.616 *Losses in transit.* The proprietor of the premises to which the wine is shipped in bond shall be liable under his bond for the tax on the wine lost in transit. The tax on wine lost in transit between bonded wine cellars will be assessed or remitted, in accordance with the provisions of Subpart NN of this part. Where there is a loss in transit from any package or other container, including tank trucks and railroad tank cars, in excess of one percent, or two percent in the case of transcontinental shipments, of the quantity shipped in such container, the consignee shall make application for allowance of the entire quantity lost, in accordance with § 240.785.

(68A Stat. 666; 26 U. S. C. 5370)

§ 240.617 *Reconsignment of in-bond shipments of wine.* When wine is shipped in bond, and while in transit a necessity for reconsignment arises, approval for the reconsignment will be obtained from the assistant regional commissioner, as required by §§ 240.618 and 240.619.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.618 *Reconsignment by consignor.* When the consignor desires to reconsign a shipment of wine, he will obtain the approval of the assistant regional commissioner of the consignor region, then prepare new Form 703 and attach thereto a notice of diversion. The substitute consignee is liable for the tax on all losses sustained in shipment, and must file a consent of surety with the assistant regional commissioner of his region, in accordance with § 240.231, extending the terms of his bond to cover such losses.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.619 *Reconsignment by consignee.* When the consignee desires to reconsign a shipment of wine, he will obtain the approval of the assistant regional commissioner of his region, acknowledge receipt of the full amount on Form 703, at which point the reconsignment is a shipment in bond subject to the requirements of §§ 240.613 to 240.616. The substitute consignee is liable for tax on all losses sustained in shipment, and must file a consent of surety with the assistant regional commissioner of his region, in accordance with § 240.231 extending the terms of his bond to cover such losses.

(68A Stat. 665; 26 U. S. C. 5362)

SUBPART CC—REMOVAL OF WINE FOR USE AS DISTILLING MATERIAL

§ 240.630 *General.* Still wine may be removed free of tax, under the provisions of this subpart, to a fruit distillery, a registered distillery, or an industrial alcohol plant for use as distilling material in the production of spirits. Form 703 will be prepared and handled in accordance with §§ 240.613 through 240.616 for all such removals.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.631 *Pipeline to distillery or alcohol plant.* Where a bonded wine cellar and a fruit distillery, registered distillery or industrial alcohol plant are operated on premises adjacent to a bounded wine cellar, wine for use as distilling material may be transferred by fixed pipeline from tanks in the wine cellar to measuring or storage tanks in the distillery or alcohol plant, or in the case of a fruit distillery, where the distillery measuring tanks are authorized to be installed on the wine cellar premises, the pipeline must extend directly to the chargers of the stills, or to sumps for immediate transfer to the chargers.

(68A Stat. 680; 26 U. S. C. 5552)

§ 240.632 *Special natural wine.* Special natural wine may not be removed for use as distilling material at a fruit distillery.

(68A Stat. 640; 26 U. S. C. 5215)

§ 240.633 *Report of removal.* The removal of wine for use as distilling material will be reported on Form 702. If sparkling wine or artificially carbonated wine is to be used as distilling material, it will be returned to still wine, and so reported on Form 702, and the still wine then removed and reported for use as distilling material.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.634 *Marking of containers.* Each container removed, in addition to bearing the marks required by § 240.562, must be plainly marked "For Distilling Material" and show the kind or nature of the material, as standard grape (apple, peach, etc.) wine, or wine lees, raisin wine, etc., in order that the spirits distilled therefrom may be properly marked as to class and type. Where wine made with sugar other than the kinds, or fermented with sugar in excess of the quantities, authorized for standard wine is removed for distilling material, the composition of the material must be marked on the containers, and such wine may be transferred only to registered distilleries or alcohol plants.

(68A Stat. 640, 666; 26 U. S. C. 5215, 5368)

SUBPART DD—REMOVAL OF STILL WINE FOR MANUFACTURE OF VINEGAR

§ 240.650 *General.* Still wine may be removed from bonded wine cellars, free of tax, for use in the manufacture of vinegar in accordance with provisions of this subpart.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.651 *Removal to adjacent vinegar plant.* Where the proprietor of a bonded wine cellar is also the proprietor of a vinegar plant adjacent to his wine cellar, he may remove still wine free of tax for use in the manufacture of vinegar upon filing of consent of surety, Form 1533, extending the terms of his wine cellar bond to cover removal and use of wine in the manufacture of vinegar.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.652 *Consent of surety.* The required consent of surety, Form 1533, shall be filed in triplicate with the assistant regional commissioner. Upon approval of the consent of surety, removals may be made thereunder from time to time. The reporting of such removals on Form 703 shall be in accordance with §§ 240.613 to 240.616.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.653 *Removal to vinegar plant covered by bond, Form 1676.* Where the proprietor of a vinegar plant files bond on Form 1676 covering the tax on wine shipped to his vinegar plant, and keeps records and makes his vinegar plant premises available for inspection as required in this part, wine may be shipped thereto free of tax. Shipments will be reported on Form 703 in accordance with §§ 240.613 to 240.616.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.654 *Removals by pipeline.* Wine may be transferred from the bonded wine cellar to an adjacent vinegar plant by pipeline constructed as required by § 240.172.

(68A Stat. 665, 680; 26 U. S. C. 5362, 5552)

§ 240.655 *Marking containers.* Each container of wine removed for use in the manufacture of vinegar, in addition to bearing the marks required by § 240.562, will be marked "For Manufacture of Vinegar."

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.656 *Receipt of wine at vinegar plants.* Wine received free of tax for the manufacture of vinegar must be deposited promptly in the vinegar plant. The proprietor of the vinegar plant will execute his receipt on both copies of Form 703, noting any losses in transit, and will forward promptly one copy of Form 703 to the assistant regional commissioner of the region in which the vinegar plant is located. In case the wine is transferred by pipeline, as provided in § 240.654, and a single Form 703 prepared to cover all transfers during the month, Form 703 will be forwarded on or before the tenth day of the following month. The remaining copy of Form 703 will be retained as a part of the vinegar plant records. Losses of wine in transit to wine vinegar plants will be reported as required by Subpart NN of this part.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.657 *Vinegar plant records.* Each proprietor of a vinegar plant to which wine is shipped free of tax for use in the manufacture of vinegar shall keep a record of all wine received and used for the manufacture of vinegar, and of all vinegar produced and disposed of. The record shall show the following data:

(a) The quantity and alcohol content of all wine received, the date of receipt, and the name, registry number, and address of the wine cellar from which received;

(b) The quantity and alcohol content of all wine used in the manufacture of vinegar, and the date of use;

(c) The quantity of vinegar produced, and the date of production. (This quantity will be reported on a 100 grain strength basis and will be determined by multiplying the wine gallons of vinegar produced by the grain strength thereof); and

(d) The names and addresses of all persons to whom vinegar is shipped, the quantity and grain strength thereof shipped to each, and the date of shipment.

"Grain strength" is a measure of the acetic acid content of vinegar, expressed as 10 times the grams of acetic acid per 100 ml.

§ 240.658 *Inspection of vinegar plants.* Proprietors of vinegar plants procuring wine free of tax for use in the manufacture of vinegar must make their premises, and the records kept there in accordance with § 240.657, available for inspection by internal revenue officers during regular business hours.

(68A Stat. 903; 26 U. S. C. 7606)

REMOVAL OF SOURED WINE AS VINEGAR

§ 240.659 *General.* Still wine which has acetified and contains not less than four percent of acetic acid by volume may be removed free of tax pursuant to approved application for use as vinegar, as provided in this subpart.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.660 *Application for removal.* The proprietor of a bonded wine cellar desiring to remove still wine which has acetified and contains not less than four percent of acetic acid by volume will make letter application to the assistant regional commissioner for each lot to be removed, showing the quantity and the acetic acid content. If the application is approved, the soured wine may be removed as vinegar.

§ 240.661 *Marking containers.* Where soured wine is removed as vinegar, the containers will be marked as required by § 240.562, except that in lieu of the kind of wine each container will be marked "Wine Vinegar."

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.662 *Records.* Soured wine removed as vinegar will be so recorded and reported on Form 2056 and Form 702.

(68A Stat. 666; 26 U. S. C. 5367)

SUBPART EE—EXPORTATION OF WINE FREE OF TAX

§ 240.670 *General.* Wine may be removed from bonded wine cellars free of tax for exportation in accordance with the provisions of this subpart. If the proprietor desires to remove wine for exportation free of tax, the wine cellar bond must be in a sufficient penal sum to cover liability for all wine so withdrawn and unaccounted for, as well as other bonded wine cellar operations. If a person other than the proprietor of a bonded wine cellar desires to export such wine, the bond required by § 240.223 shall be filed. For the purposes of this part, wine shall be considered exported when it is removed from bonded wine cellar premises pursuant to an approved application, Form 711, consigned to a foreign destination, laden aboard a vessel or conveyance bound for a foreign destination, the vessel or conveyance has cleared a port of the United States for a foreign destination, and a customs officer has certified to such lading and clearance. The shipment of wine to

foreign trade zones free of tax shall be in accordance with the procedure prescribed in Part 253 of Title 26, Code of Federal Regulations.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.671 *Application and entry, Form 711.* The exporter will execute and file with the assistant regional commissioner an application and entry on Form 711, in quadruplicate, when he desires to withdraw wine for export. Each application, Form 711, must be serially numbered, commencing with "1" on the first day of January of each year. The exporter shall state therein the name, location, and registry number of the premises, a description of the wine to be withdrawn, and the port and shipping route, with request for customs inspection of the wine. If the exporter has complied with the law and regulations in all respects, the assistant regional commissioner will approve each copy of the application and entry, retain one copy, and return three copies to the exporter. Upon receipt of the approved copies of the application and entry, the exporter may withdraw the wine described therein for exportation free of tax. The proprietor of the bonded wine cellar may not ship the wine until the approved Form 711 has been received from the exporter or the assistant regional commissioner.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.672 *Marking containers.* The containers in which the wine is removed must be plainly marked "For Export," in addition to bearing the marks required by § 240.562.

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.673 *Delivery or consignment to collector of customs, wine exported by vessel or aircraft.* The proprietor shall deliver or consign the wine to the collector of customs at the port of export for customs examination, inspection, supervision of lading, and report, as provided in § 240.674. When the shipment arrives at the port of exportation, the exporter or his agent shall file immediately with the collector of customs two copies of the entry, Form 711, one of which will be treated as the customs entry. The other copy of the entry will be retained by the exporter. The entry shall specify the vessel or aircraft by which the wine is to be exported, and the pier at which it will be laden. In every case the entry must be filed with the collector of customs at least six hours prior to lading.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.674 *Customs inspection when exported by vessel or aircraft.* The collector of customs will direct an officer to inspect the wine and determine whether the same agrees in all respects with the description thereof in the entry, Form 711, and to superintend the lading of the wine for exportation. Such officer will carefully examine the contents of any packages which are found broken or tampered with, and will report on both copies of the entry any shortage, and the apparent cause thereof. Upon clearance of the vessel or aircraft, the collector of customs will execute his report and certificate of clearance on each copy of the entry, retain one copy for his entry record, and forward one copy to the assistant regional commissioner.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.675 *Evidence of fraud.* If the customs inspection discloses evidence of fraud, the collector of customs will detain the wine and report the facts forthwith to the assistant regional commissioner within whose region the port of export is located. The assistant regional commissioner will make immediate investigation and take such action as the facts may warrant.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.676 *Delay in lading at port.* If the exporting vessel is not prepared to receive the wine at its arrival at the port of exportation, the collector of customs may permit the wine to remain in the possession of the transportation company for a period not exceeding fifteen days. Storage elsewhere for a like cause not exceeding the same period may be approved by the collector of customs. In event of further delay, the facts will be reported to the assistant regional commissioner who approved the entry, Form 711, and who will issue appropriate instructions concerning the disposition of the wine.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.677 *Bill of lading.* The export bill of lading covering shipment of the wine abroad must identify the wine by showing the name and registry number of the premises from which withdrawn, the serial numbers of the containers, and the quantity of wine. Where the shipment is handled at the port of export by a customs broker acting for the exporter, the broker may be shown as the shipper (consignor) in the export bill of lading. Upon clearance, the exporter will forward a copy of the bill of lading to the assistant regional commissioner of the region in which the bonded wine cellar is located.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.678 *Exportation through frontier port, by railway car, motor truck, or other conveyance.* Where wine is to be shipped by railroad car, motor truck, or other conveyance, through a border port, the wine shall be consigned to the foreign consignee at destination in care of the collector of customs, or deputy collector of customs, at the border port. Two copies of the entry, Form 711, will be forwarded or delivered by the exporter or his agent to the collector or deputy collector at the border port, who will direct one of his officers to inspect the wine upon arrival. If the inspector finds that the wine is intact and corresponds to the entry, the collector or deputy collector will allow the railroad car, motor truck, or other conveyance to proceed to its destination. If there is evidence of loss or the wine does not correspond to the description in the entry, the extent and apparent cause of the loss or other discrepancy will be determined before the car, truck, or other conveyance is allowed to proceed. Upon clearance of the conveyance, the collector or deputy collector will execute his report and certification of clearance on each copy of the entry, retain one copy for his entry record, and forward one copy to the assistant regional commissioner who approved it.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.679 *Exportation in sealed railroad cars or trucks from port of entry through another port.* Where wine is to be exported by rail, or in trucks, through a frontier port, and it is desired to avoid delay of customs inspection at such port, the wine may be entered for exportation at an interior customs port and inspected by a customs officer at that port. After inspecting the wine, the customs officer will seal the car or truck with customs seals and note the car number, or license number of the truck, as the case may be, and the serial number of the customs seals if a numbered seal is used, in his report on both copies of Form 711. The collector of customs will then forward both copies to the customs officer at the frontier port. The wine will be consigned to the foreign consignee in care of the customs officer at the frontier port.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.680 *Inspection at frontier port.* If the customs officer at the frontier port finds upon arrival of the car or truck that the seals are intact and there is no evidence of tampering with the contents, he will allow the car or truck to proceed to its destination without opening. If, however, the customs officer finds that the seals are not intact, or there is other evidence of tampering with the contents, he will open the car or truck, inspect the wine, and make report of his findings and of any loss on Form 711. Upon clearance of the car or truck and contents, the customs officer will execute his certificate of clearance on both copies of Form 711 and return the forms to the collector of customs at the port of entry, who will retain one copy as his entry record, and forward one copy to the assistant regional commissioner who approved it.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.681 *Shipment to American possessions.* Wine may be removed free of tax for shipment to the Panama Canal Zone, Puerto Rico, Virgin Islands, Guam and American Samoa. The provisions of this subpart shall be followed and the forms prescribed shall be used when it is desired to ship wine to these possessions.

(68A Stat. 665, 908; 26 U. S. C. 5362, 7653)

SUBPART FF—WITHDRAWAL OF WINE FREE OF TAX FOR USE ON CERTAIN VESSELS AND AIRCRAFT

§240.690 *Withdrawal free of tax.* Wine may be withdrawn in accordance with the provisions of this section and § 240.691 from bonded wine cellars free of tax for use as supplies on vessels and aircraft as follows:

(a) Vessels or aircraft operated by the United States;

(b) Vessels of the United States employed in the fisheries or in the whaling business, or actually engaged in foreign trade or trade between the Atlantic and Pacific ports of the United States or between the United States and any of its possessions;

(c) Aircraft registered in the United States and actually engaged in foreign trade or trade between the United States and any of its possessions;

(d) Vessels of war of any foreign nation;

(e) Foreign vessels employed in the fisheries or in the whaling business, or actually engaged in foreign trade or trade between the United States and any of its possessions, where such trade by foreign vessels is permitted; or

(f) Aircraft registered in any foreign country and actually engaged in foreign trade or trade between the United States and any of its possessions, where trade by foreign aircraft is permitted, and where the Secretary of the Treasury shall have been advised by the Secretary of Commerce that he has found such foreign country allows, or will allow, substantially reciprocal privileges in respect to aircraft registered in the United States.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.691 *Reciprocating foreign countries.* The Director will advise assistant regional commissioners concerning those foreign countries which will allow, to aircraft registered in the United States and engaged in foreign trade, privileges substantially reciprocal to the privileges allowed herein to aircraft of a foreign country. Assistant regional commissioners may approve applications to withdraw wine for use on aircraft of such countries. Where application is made to withdraw wine free of tax for use on aircraft of other foreign countries, which it is claimed reciprocate similar privileges to aircraft of the United States, the applicant must first establish the right of such withdrawal. In appropriate cases, the applicant should request the Secretary of Commerce to find and advise the Secretary of the Treasury that such foreign country or countries allow, or will allow, substantially reciprocal privileges to aircraft of the United States.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.692 *Procedure.* If wine intended for use on vessels or aircraft is to be removed free of tax by the proprietor of a bonded wine cellar, his bond (Form 700) must be in sufficient penal sum to cover the tax on wine so removed and not accounted for, as well as other bonded wine cellar operations. If wine is to be withdrawn by any other person for such use, he must file bond on Form 186 to cover the tax on wine withdrawn and not accounted for, as well as the tax on wine withdrawn for export under the provisions of Subpart EE of this part. The filing and action on the bond will be as provided in Subpart H of this part.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.693 *Application and entry for use on vessels, Form 711–B.* The applicant will execute and file with the assistant regional commissioner application and entry, Form 711–B, in quadruplicate, when he desires to withdraw wine for use on vessels. The applicant shall state

therein the name, location, and registry number of the premises, a description of the wine to be withdrawn, the name of the vessel and its location, with request for customs inspection of the wine. If the applicant has complied with the law and regulations in all respects, the assistant regional commissioner will approve each copy of the application and entry, retain one copy, and return three copies to the applicant. Upon receipt of the approved copies of the application and entry, the wine may be withdrawn free of tax for the purpose described in the entry.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.694 *Application and entry for use on aircraft, Form 711–B.* The applicant will execute and file with the assistant regional commissioner application and entry, Form 711–B, in quintuplicate, when he desires to withdraw wine for use on aircraft. The applicant shall state therein the name of the airline operating the aircraft and the name and location of the airport from which the aircraft will depart in international travel, with request for customs inspection of the wine. If the applicant has complied with the law and regulations in all respects, the assistant regional commissioner will approve each copy of the application and entry, retain one copy, and return four copies to the applicant. Upon receipt of the approved copy of the application and entry, the wine may be withdrawn free of tax for shipment to the airline at the airport described in the entry.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.695 *Marking of containers.* The containers in which the wine is removed must be plainly marked "For Use on Vessels (or Aircraft) Tax-free," in addition to bearing the marks required by § 240.562.

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.696 *Delivery or consignment of supplies for vessels.* The shipper shall deliver or consign the wine to the collector of customs at the port of lading for customs inspection, supervision of lading, and report, as provided in § 240.698. When the wine arrives at the port of lading, the shipper or his agent shall file immediately with the collector of customs two copies of the entry, Form 711–B, one of which will be treated as the customs entry. The other copy of the entry will be retained by the shipper. The entry shall specify the vessel on which, and the pier at which, the wine will be laden. In every case the entry must be filed with the collector of customs at least six hours prior to lading.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.697 *Delivery or consignment of supplies for aircraft.* The shipper shall deliver or consign the wine to the airline at the airport from which the aircraft will depart in international travel, in care of the collector of customs. Upon receipt of the wine it will be stored at the airport under customs custody until laden as supplies on aircraft. The shipper or his agent shall file immediately with the collector of customs two copies of the entry, Form 711–B, one of which will be treated as the customs entry. The remaining copy of Form 711–B will be forwarded to the airline company at the airport.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.698 *Customs inspection of wine laden on vessels.* The collector of customs will direct an officer to inspect the wine and determine whether the same agrees in all respects with the description thereof in the entry, Form 711–B, and to superintend the lading of the wine on board the vessel specified in the entry. Such officer will carefully examine the contents of any packages which are found broken or tampered with, and will report on both copies of the entry any shortage and the apparent cause thereof. Upon lading of the wine the collector of customs will execute his report and certificate of lading on each copy of the entry, retain one copy for his record, and forward one copy to the assistant regional commissioner who approved it. In event the customs inspection discloses evidence of fraud or there is delay in lading, the collector of customs will proceed in accordance with §§ 240.675 and 240.676, respectively.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.699 *Wine for use as supplies on aircraft.* When an airline desires to withdraw wine from its stock being held at the airport under customs custody, as supplies for a particular aircraft, a requisition in triplicate will be prepared for presentation to the customs officer. The requisition shall show the flight number, the registry number of the aircraft on which the wine is to be laden, the date of departure of the aircraft, and the brand, kind, and quantity of wine. Where the wine is contained in kits which have been previously prepared while the wine is under customs custody, the kit number will also be shown on the requisition. Where the kits are not prepared and the wine is withdrawn for direct lading on aircraft, the requisitions shall be serially numbered in lieu of the insertion of the kit number. When the wine is withdrawn and laden aboard the aircraft, the lading will be verified by the customs officer by an appropriate stamp or notation on the requisition. One copy of the requisition will be retained by the customs officer who certifies to the lading for attachment to the outgoing manifest. The other two copies will be delivered to the airline which will retain both copies until the return of the flight. In case any wine is removed from the aircraft upon its return, appropriate notation will be made on both copies of the requisition retained by the airline and one copy will be delivered to the customs officer for attachment to the incoming manifest. The remaining copy will be retained by the airline.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.700 *Certificate of use for wine used as supplies on aircraft.* When all wine represented by any Form 711–B has been withdrawn from customs custody, and laden and used as supplies on aircraft, the airline will prepare a certificate of use on which are itemized all requisitions for such wine. The certificate shall show the name of the exporter,

the entry number, the brand and kind of wine, and the number of bottles to be accounted for; and, as to each requisition, the requisition (or kit) number, the date laden, the registry number of the aircraft, the country for which the aircraft was cleared, and the number of bottles used. The certificate shall be in substantially the following form:

Name of exporter .....; Entry No. .....
Brand and kind of wine ..... Number of bottles to be accounted for ...

No. of requisition (or kit No.)	Date laden	Registry No. of aircraft	Cleared for (country)	Number of bottles used [1]

[1] The number of bottles shown in this column will represent the difference between the number withdrawn for supplies and the number returned unused as shown by the requisition.

CERTIFICATE OF USE

I hereby certify that the above described wine was withdrawn from stock in customs custody and was laden for use as supplies on aircraft as set forth and that the records of the aircraft show such wine was used outside the continental limits of the United States as supplies on aircraft operated by this company in international travel.

Airline Company
By ---

Capacity

When the form has been completed as to all wine laden and used as supplies, the certificates of use will be executed by the authorized representatives of the airline. The form will be presented to the customs officer at the airport who will verify the form and execute the certificate of inspection and lading on Form 711–B, noting thereon exceptions, if any, such as shortages, breakage, etc. The customs officer will forward both copies of Form 711–B, with the certificate of use attached to the original, to the collector of customs.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.701 *Certificate of receipt of wine for use on vessels.* The shipper shall procure a receipt signed by the master or other authorized officer of the vessel or of the steamship company, in the case of withdrawals for use on vessels, certifying to the receipt of the wine and giving the serial numbers of the containers, and the quantity received. The shipper shall file the receipt with the assistant regional commissioner.

(68A Stat. 665; 26 U. S. C. 5362)

SUBPART GG—TRANSFER OF WINE TO CUSTOMS MANUFACTURING BONDED WAREHOUSE

§ 240.710 *General.* Wine may be removed from bonded wine cellars to customs manufacturing bonded warehouses, Class 6, without payment of tax for use in the manufacture of articles for export, or for rectification and export, or shipment in bond to Puerto Rico. Removal will be made pursuant to application and bond filed by the proprietor of the customs manufacturing bonded warehouse, and approved by the assistant regional commissioner, in accordance with the provisions of this part.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.711 *Application and entry, Form 711–A.* After having given the required bond, as provided in § 240.224 the proprietor of the customs manufacturing bonded warehouse will execute and file with the assistant regional commissioner of the region in which the bonded wine cellar is located six copies of the application and entry, Form 711–A, when he desires to withdraw wine for transfer to his warehouse. The proprietor shall state therein whether he has on file valid bond, Form 1580, in sufficient sum, the name, location, registry number of the bonded wine cellar, and a description of the wine to be withdrawn. If the applicant has complied with the law and regulations in all respects, and the available balance of his bond is sufficient to cover the tax on the wine to be withdrawn, the assistant regional commissioner will approve each copy of the application and entry, retain one copy, return four copies to the applicant, and forward one copy to the proprietor of the bonded wine cellar as his authority to ship the wine described therein to the customs manufacturing bonded warehouse without payment of tax.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.712 *Marking containers.* In addition to the marks required by § 240.562, each container removed shall be plainly marked "For Deposit in Bonded Manufacturing Warehouse, Class 6," followed by the name and location (city or town, and state) of the warehouse, and the date of shipment.

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.713 *Consignment of wine.* The wine must be consigned to the proprietor of the customs manufacturing bonded warehouse in care of the collector of customs of the district in which the warehouse is located. Upon shipment of the wine the proprietor of the bonded wine cellar shall immediately notify the proprietor of the customs manufacturing warehouse, who shall deliver, or forward immediately to the collector of customs his four copies of the entry, Form 711–A.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.714 *Customs inspection.* The collector of customs will direct the proper officer to inspect and gauge, by volume or by weight, the wine upon its arrival at the warehouse, and supervise its deposit therein. When the wine has been inspected, gauged and deposited in the warehouse, the customs officer will execute his certificate on each copy of Form 711–A, and note thereon any loss or other deficiency on the shipment. The officer will retain one copy of the form for his files, deliver one copy to the proprietor of the customs manufacturing bonded warehouse, and forward one copy to the collector of customs for his entry record, and one copy to the assistant regional commissioner who approved it.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.715 *Evidence of fraud.* If the customs inspection discloses evidence of fraud, the collector of customs will detain the wine and report the facts forthwith to the assistant regional commissioner within whose region the customs manufacturing warehouse is located. The assistant regional commissioner will make immediate investigation and take such action as the facts may warrant.

(68A Stat. 665; 26 U. S. C. 5362)

SUBPART HH—REMOVAL OF WINE FOR FEDERAL OR STATE USE

§ 240.720 *General.* Wine may be removed from bonded wine cellars free of tax for use of the Government of the United States or any agency thereof upon receipt of proper governmental order signed by the officer in charge of the department, institution, station, or similar establishment, to which the wine is to be shipped, or other officer duly authorized to sign such order. Wine may also be removed for use by the governments of the several states and Territories and the District of Columbia, or of any subdivision thereof or by any agency of such governments, free of tax, from bonded wine cellars for analysis, testing, research or experimentation, as provided in §§ 240.723 to 240.726.

(68A Stat. 665; 26 U. S. C. 5362)

USE OF THE UNITED STATES

§ 240.721 *Marking containers.* In addition to bearing the marks required by § 240.562, each container in which the wine is removed must be plainly marked "For Use of the United States."

(68A Stat. 665, 666; 26 U. S. C. 5362, 5368)

§ 240.722 *Bill of lading and report of shipment.* Where the wine is shipped by common carrier, the proprietor shall forward a copy of the bill of lading, covering the shipment, with his monthly report on Form 702 for the month in which the shipment is made. The bill of lading must show the name and address of the United States governmental agency to which the wine is shipped, together with the serial numbers of the packages and the quantity and alcohol content of the wine. The governmental order, or copy thereof, must be filed at the wine cellar available for inspection by internal revenue officers.

(68A Stat. 666; 26 U. S. C. 5367)

USE OF STATES, TERRITORIES, AND DISTRICT OF COLUMBIA

§ 240.723 *Application.* Where it is desired to obtain wine for use of States, Territories or the District of Columbia, letter application, in triplicate, shall be filed with the assistant regional commissioner of the region in which the bonded wine cellar is located, by the governmental agency, listing the name, address, and registry number of the wine cellar; the kind, quantity and alcohol content of the wine desired; and the purpose for which the wine is to be used.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.724 *Approval of application.* If the application is approved, the assistant regional commissioner will forward one copy to the bonded wine cellar as authority to make shipment, and return one copy to the applicant.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.725 *Marking containers.* In addition to bearing the marks required by § 240.562, each container in which the wine is removed must be plainly marked "For Use Of," followed by the name of the government subdivision or agency receiving same.

(68A Stat. 665, 666; 26 U. S. C. 5362, 5368)

§ 240.726 *Bill of lading and report of shipment.* Where the wine is shipped by common carrier the proprietor shall forward a copy of the bill of lading, covering the shipment, with his monthly report on Form 702. Report of the shipment will be made by the proprietor in one of the blank lines of the form modified for that purpose. The bill of lading must show the name and address of the governmental agency to which the wine is shipped, together with the serial numbers of the containers, and the quantity and alcohol content of the wine. The copy of the approved application must be filed at the bonded wine cellar available for inspection by internal revenue officers.

(68A Stat. 665, 666; 26 U. S. C. 5362, 5367)

SUBPART II—OTHER TAX-FREE REMOVALS

§ 240.730 *Removal for family use.* Where the head of a family, as defined in § 240.541, operates a bonded wine cellar as an individual owner, wine of his own production, not exceeding 200 gallons per year, may be removed free of tax for use of his family, the year to be reckoned as commencing on July 1. The proprietor must make entries of quantities so removed in his monthly report, Form 702. Wine in excess of the 200 gallons allowance removed from the wine cellar for family use must be reported as a taxable removal.

(68A Stat. 610; 26 U. S. C. 5042)

REMOVAL OF WINE FOR EXPERIMENTAL OR RESEARCH PURPOSES

§ 240.731 *Application.* If a university, college of learning, or institution of scientific research, desires to procure wine from a bonded wine cellar free of tax for experimental or research purposes, the institution shall file an application, in triplicate, in letter form, with the assistant regional commissioner of the region in which the bonded wine cellar is located. The application shall show the name and address of the institution desiring to receive the wine for experimental or research purposes, the kind, quantity, and alcohol content of wine desired, and the nature of the experiments or research to be conducted. The application shall include a stipulation to the effect that the institution withdrawing the wine will be responsible for the tax on the wine if it should be diverted from the intended purpose, either while in transit from the bonded wine cellar to the institution or after receipt.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.732 *Shipment of wine.* If the application is approved, the assistant regional commissioner will forward one copy to the bonded wine cellar as authority for shipment of the wine and will return one copy to the institution filing the application, where it shall be kept available for inspection by internal revenue officers. If the shipment is made by common carrier, the proprietor will attach a copy of the bill of lading, covering the shipment, to his monthly report, Form 702. The shipment will be reported on Form 702 at a blank line appropriately identified to show the purpose of the removal.

(68A Stat. 665, 666; 26 U. S. C. 5362, 5367)

SUBPART JJ—TAX-FREE SAMPLES OF WINE

§ 240.740 *General.* Wine may be removed free of tax from a bonded wine cellar for use by or for the account of the proprietor or his agents, for analysis or testing, organoleptically or otherwise. Wine may also be used on bonded wine cellar premises for testing, tasting, or sampling, free of tax.

(68A Stat. 665, 667; 26 U. S. C. 5362, 5372)

SAMPLES FOR USE OFF BONDED WINE CELLAR PREMISES

§ 240.741 *Application.* A proprietor desiring to remove samples of wine for analysis or testing by a laboratory shall make application, in duplicate, to the assistant regional commissioner. The application may be for the taking of samples from a specified lot or lots of wine, or it may be for continuing authority. The size of each sample should be limited to one quart from each lot to be analyzed or tested, unless the necessity for a larger quantity is established. The application must state the number of samples to be taken, the size thereof, the kind or kinds of wine, the frequency with which the samples will be taken, and the name and address of the laboratory to which the samples are to be sent. If the application is approved, the assistant regional commissioner will retain one copy, and return the other to the proprietor.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.742 *Disposition of samples.* Remnants or residues of samples remaining after laboratory analysis, and which are not retained for laboratory specimens, must be destroyed or returned to the bonded wine cellar. Taxfree samples or residues thereof may not be consumed or sold.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.743 *Records.* Records must be kept of all samples taken for analysis and testing, showing the date of removal, the size of each sample, the kind of wine, and the name and address of the laboratory to which sent. Entries on the records must be made prior to actual removal of the samples from the bonded premises.

(68A Stat. 665, 666; 26 U. S. C. 5362, 5367)

§ 240.744 *Labeling of samples.* Each sample of wine removed for analysis or testing must be labeled "Sample for Analysis Only," and show the name of the proprietor removing the wine, and the kind of wine.

(68A Stat. 665, 666; 26 U. S. C. 5362, 5368)

SAMPLES FOR USE ON BONDED WINE CELLAR PREMISES

§ 240.745 *For analysis.* The proprietor may take samples of wine free of tax for analysis on his bonded wine cellar premises, or in his adjacent off-bond laboratory.

(68A Stat. 667; 26 U. S. C. 5372)

§ 240.746 *For tasting and testing.* The proprietor may take samples of wine free of tax for tasting and testing in his bonded wine cellar. If a room or area is set aside for tasting purposes, a record shall be maintained showing the quantities and kinds of wine transferred to the room or area for tasting.

(68A Stat. 667; 26 U. S. C. 5372)

SUBPART KK—DESTRUCTION OF WINE

§ 240.750 *General.* Wine in a bonded wine cellar may be destroyed by the proprietor without payment of tax, but the wine must be inspected and the destruction supervised by an internal revenue officer, unless the assistant regional commissioner authorizes the proprietor to destroy the wine without inspection and supervision.

(68A Stat. 666; 26 U. S. C. 5370)

§ 240.751 *Application to assistant regional commissioner.* When the proprietor desires to destroy wine and be relieved of tax liability thereon, he will file an application, in duplicate, with the assistant regional commissioner, stating the kind, alcohol content, and approximate quantity of wine which he desires to destroy, and the reason for desiring such destruction. The wine may not be destroyed until authority is received from the assistant regional commissioner.

(68A Stat. 666; 26 U. S. C. 5370)

§ 240.752 *Explanation required.* If part of the volume of the material to be destroyed is not wine, the quantity so destroyed will be reported on the basis of actual wine content of the material, excluding any dilution by water or other substance. The proprietor shall furnish such explanation of the condition of the wine as the assistant regional commissioner may require.

(68A Stat. 666; 26 U. S. C. 5370)

§ 240.753 *Record of destruction.* The proprietor will maintain a record of the quantity destroyed and include the quantity in his monthly report, Form 702.

(68A Stat. 666; 26 U. S. C. 5367, 5370)

SUBPART LL—DISPOSITION OF LEES, INCLUDING FILTER WASH AND OTHER RESIDUES

§ 240.760 *Removal as by-product.* Where it is desired to remove lees from a bonded wine cellar for use as fertilizer, the manufacture of cream of tartar, or other by-products, all wine must be expressed or drained from the lees before removal from the premises. Lees removed for such purposes must not be used as distilling material or received on fruit distillery premises. Application must be filed as required in § 240.762.

(68A Stat. 664; 26 U. S. C. 5361)

§ 240.761 *Removal as distilling material.* Where it is desired to use lees, including filter wash and other residues, as

distilling material, the lees must be removed and reported in the same manner as wine removed for distilling material. When necessary, water may be added to lees before removal as distilling material. Appropriate entry of the quantity of water added to the lees must be made in the proprietor's records, as provided in § 240.486.

(68A Stat. 665; 26 U. S. C. 5362)

§ 240.762 *Application for destruction or removal.* When the proprietor of a bonded wine cellar has a substantial quantity of lees which he desires to destroy or remove other than for use as distilling material, and obtain special allowance therefor, he shall make written application, in duplicate, to the assistant regional commissioner, or to the internal revenue officer if one is assigned at the premises (or is otherwise available) for permission to do so, stating the approximate quantity and alcohol content of the lees, and the nature of the proposed disposition. The lees may not be destroyed or removed until authority has been received.

(68A Stat. 664, 666; 26 U. S. C. 5361, 5370)

§ 240.763 *Record.* When lees are destroyed or removed under Government supervision or authorization, the quantity shall be entered in cellar records and reported on Form 702 as lees destroyed or lees removed, with an explanatory statement showing that the lees were destroyed or removed under supervision or authority of an internal revenue officer. Lees so destroyed or removed will not be included with losses in calculating the percent of wine lost under § 240.783.

(68A Stat. 664, 666; 26 U. S. C. 5361, 5367, 5370)

SUBPART MM—CHANGE OF SPARKLING AND ARTIFICIALLY CARBONATED WINE INTO STILL WINE

§ 240.770 *Conversion into still wine.* Sparkling wine or artificially carbonated wine may be dumped into other containers for use as still wine. Such sparkling wine or artificially carbonated wine must be dumped, in each instance, so as to permit the loss of any effervescence (carbon dioxide) remaining in the wine. If it is desired to destroy sparkling wine or artificially carbonated wine, the procedure described in Subpart KK of this part will be followed.

(68A Stat. 666; 26 U. S. C. 5370)

§ 240.771 *Conversion of 30 gallons or more.* When the proprietor has as many as 30 gallons of effervescent wine which he desires to convert to still wine, he will file application, in duplicate, with the assistant regional commissioner stating the approximate number of gallons and the reason for desiring to convert the wine. The effervescent wine may be converted to still wine when authorized by the assistant regional commissioner.

§ 240.772 *Conversion of less than 30 gallons.* Quantities of less than 30 gallons of effervescent wine may be converted to still wine by the proprietor without notice or supervision: *Provided*, That the assistant regional commissioner may require the proprietor to file applications therefor.

§ 240.773 *Records.* When effervescent wine is converted to still wine, the quantity shall be entered on the proprietor's cellar records and reported on Form 702.

(68A Stat. 666; 26 U. S. C. 5367)

SUBPART NN—LOSSES OF WINE IN BOND

§ 240.780 *Losses by theft.* The tax shall be collected on wine stolen while on bonded wine cellar premises or in transit thereto or therefrom in bond, unless the proprietor, or other person responsible for the tax, establishes to the satisfaction of the assistant regional commissioner that the theft did not occur as the result of connivance, collusion, fraud or negligence on the part of the proprietor or other person responsible for the tax, or the owner, consignor, consignee, bailee, or carrier, or the agents or employees of any of them. Application for allowance of losses of wine by theft shall be filed as provided in this subpart.

(68A Stat. 666; 26 U. S. C. 5370)

§ 240.781 *Unauthorized voluntary destruction.* The tax shall be collected on wine voluntarily destroyed while on bonded wine cellar premises or in transit thereto or therefrom in bond, unless the destruction of the wine was effected in accordance with Subpart KK.

(68A Stat. 666; 26 U. S. C. 5370)

§ 240.782 *Other losses.* Allowance will be made for wine reported lost, otherwise than by theft or destruction, while on bonded wine cellar premises, or in transit thereto or therefrom in bond, if it is shown to the assistant regional commissioner that such loss was in fact sustained. The assistant regional commissioner may require the proprietor of the bonded wine cellar, or other person responsible for the tax, to file an application for allowance of the loss and submit proof as to the cause or causes of such loss.

(68A Stat. 666; 26 U. S. C. 5370)

§ 240.783 *Losses during fiscal year.* Losses on bonded wine cellar premises during the fiscal year, beginning July 1 and ending June 30 will be entered on monthly report, Form 702, as the extent thereof is determined. The proprietor must take actual inventory of all untaxpaid wine on hand in the bonded wine cellar at the close of business June 30 and December 31 of each year. The inventories will be reported on Form 702–C, as required by § 240.903, and losses disclosed by the inventories will be reported on Form 702 for the months of June and December. No application for allowance of loss will be required for losses in production or storage provided (a) there are no circumstances indicating that the wine reported lost, or any part thereof, was unlawfully removed, and (b) that the loss did not exceed three percent of the aggregate quantity of wine on hand at the beginning of the fiscal year and received in bond during the fiscal year, six percent of the still wine produced by fermentation and six percent of the sparkling wine produced by fermentation in bottles, at the bonded wine cellar during the fiscal year.

(68A Stat. 666; 26 U. S. C. 5370)

§ 240.784 *Calculation.* The percentage applicable to each taxable grade of wine shall be calculated separately, unless such calculation is impracticable because of the mixture of different grades by addition of wine spirits or blending during the fiscal year, in which case the percentage will be calculated on the aggregate quantity. Wine removed for use as distilling material soon after production and on which the usual racking, clarifying, and filtering losses are not sustained, will not be included in the calculations.

(68A Stat. 666; 26 U. S. C. 5370)

§ 240.785 *Losses in transit.* Where the loss of wine in transit from any package, case, tank car, or other container shipped in bond to another bonded wine cellar exceeds one percent (two percent on transcontinental shipments) of the quantity so shipped therein, the proprietor of the receiving wine cellar must file with the assistant regional commissioner for his region an application for allowance of the entire loss. The application shall be prepared in accordance with § 240.787 and be attached to the report, Form 702, for the month in which the wine is received. If the loss does not exceed one percent (two percent on transcontinental shipments), application for allowance of the loss will not be required, provided there are no circumstances indicating that the wine lost, or any part thereof, was diverted to an unlawful purpose.

(68A Stat. 666; 26 U. S. C. 5370)

§ 240.786 *Losses by fire or other casualty.* Losses by fire or other casualty, or any other extraordinary or unusual losses, including losses by theft, must be reported immediately to the assistant regional commissioner, or nearest designated internal revenue officer. Such losses shall be entered on Form 702 for the month in which they occur. Application for allowance of loss shall be prepared in accordance with § 240.787, and attached to the report for the month in which the loss is reported.

(68A Stat. 666; 26 U. S. C. 5370)

APPLICATION FOR ALLOWANCE

§ 240.787 *Preparation and submission.* Application for allowance for wine reported lost must be prepared by or at the direction of the proprietor or his duly authorized agent and, except in the case of losses in transit, by fire or other casualty, or any other extraordinary or unusual losses, must be attached to and submitted with report, Form 702, for the month of June, or in the case of discontinuance of the premises or change in proprietorship, attached to the final report. Where for a valid reason the required application cannot be submitted with the Form 702, a statement must be attached to the report setting forth the reason the application cannot be filed at that time, and specifying when it will be filed with the assistant regional commissioner.

(68A Stat. 666; 26 U. S. C. 5370)

§ 240.788 *Form of application.* Application for allowance of losses of wine in bond shall be made on letter size

paper, in duplicate, showing the name and address of the proprietor, and setting forth the following information:

(a) The quantity of wine on which the loss was sustained, the taxable grade, the amount of wine lost, and the percentage of the loss;

(b) Where the application covers losses at a bonded wine cellar during a fiscal year or period of operation, there shall also be stated the quantities of wine on hand at the beginning of the fiscal year, received in bond, and produced during the year. If the percentage of loss is calculated separately by taxable grades, such quantities shall be shown separately by taxable grades. If sparkling wine has been produced, the quantity produced by fermentation in bottles will be stated;

(c) Application covering losses in transit in bond shall show the quantity lost from each container, the serial number thereof, if any, the quantity shipped therein, and the points between which the wine was shipped;

(d) The nature, cause and extent of the loss must be stated specifically and in sufficient detail to disclose all the material facts and circumstances surrounding the loss;

(e) If lost by theft, the facts establishing whether the loss occurred as the result of any negligence, connivance, collusion, or fraud on the part of the proprietor, owner, consignor, consignee, bailee, or carriers, or the employees of any of them, shall be stated; and

(f) If lost by fire or other casualty, whether the proprietor is indemnified or recompensed for the loss, and if so, the amount and nature of such indemnity or recompense. If the proprietor is indemnified for the loss, the application must set forth specifically the market value of the wine less the tax, and the amount of indemnity received.

(68A Stat. 666; 26 U. S. C. 5370)

§ 240.789 *Supporting documents.* Applications for allowance of losses of wine while being transferred by carrier shall be supported whenever possible by a copy of the bill of lading, and statements of the agents of the carrier having personal knowledge of the loss.

(68A Stat. 666; 26 U. S. C. 5370)

§ 240.790 *Insurance coverage.* The remission, abatement, or refund, or credit of, or other relief from, taxes on wine shall be allowed only to the extent that the proprietor is not indemnified or recompensed for such tax.

(68A Stat. 667; 26 U. S. C. 5371)

SUBPART OO—RETURN OF UNMERCHANTABLE TAXPAID WINE TO BONDED WINE CELLAR

§ 240.800 *General.* Taxpaid foreign or United States wine may be received at any bonded wine cellar for reconditioning and reshipment without retaxpayment, or for destruction, and in the case of unmerchantable sparkling wine or artificially carbonated wine produced in the United States, tax may be refunded or credited in accordance with the provisions of this subpart.

(68A Stat. 609, 664; 26 U. S. C. 5044, 5361)

§ 240.801 *Receipt.* The unmerchantable taxpaid wine shall be received and retained off the bonded premises, or in the taxpaid room on the bonded premises, in the containers (including cases) in which it is received, until it is transferred to the general bonded area for reconditioning or destruction, unless otherwise authorized by the assistant regional commissioner, or unless the wine is to be retaxpaid, as provided in § 240.807. The wine may be so retained until a sufficient quantity has been received for economical handling. The containers of each lot of wine returned must be marked so that they may readily be associated with credit memoranda or similar papers covering return of the wine.

(68A Stat. 611, 664; 26 U. S. C. 5044, 5361)

§ 240.802 *Transfer to general bonded area.* When the proprietor desires to transfer the wine from off-bond storage or the taxpaid room on the bonded premises to the general bonded area for reconditioning or destruction, he will notify the assistant regional commissioner, or officer designated by him, of the kind, quantity and alcohol content (taxable grade) of the wine, the date on which he desires to transfer the wine to the general bonded area, and its proposed disposition. Where thirty gallons or more of unmerchantable sparkling wine or artificially carbonated wine, produced in the United States, have been accumulated on which it is desired to obtain refund of or credit for tax, application shall be filed in quadruplicate showing, in addition to the above information, the name, address and registry number of the bonded wine cellar from which the effervescent wine was removed, and the date of removal or taxpayment. The assistant regional commissioner may assign an officer to inspect the wine and supervise its transfer to the general bonded area and conversion or destruction, or he may authorize the proprietor, except where claim for refund or credit is to be filed, to transfer the wine without such inspection and supervision.

(68A Stat. 611, 664; 26 U. S. C. 5044, 5361)

§ 240.803 *Reconditioning and removal.* The returned wine shall be reconditioned and removed from the bonded premises expeditiously. Foreign wine shall be kept separate from United States wine. If necessary to facilitate handling, the proprietor may be authorized to add to United States wine an additional quantity of previously untaxpaid wine, as provided in § 240.804. The containers in which reconditioned wine is placed shall be marked in accordance with § 240.562; and in the case of foreign wine the country of origin shall be marked thereon.

(68A Stat. 664; 26 U. S. C. 5361)

§ 240.804 *Taxpayment of additional quantity.* Where the quantity of United States wine to be reconditioned is less than 500 gallons of any one kind (class and type) of wine, the proprietor may add thereto a sufficient quantity of the same kind of wine to facilitate reconditioning. For this purpose the proprietor shall provide in the bonded premises an accurately calibrated tank. The proprietor shall submit a letter notice, in duplicate, to the assistant regional commissioner, who may detail an officer to supervise the addition of the wine to the returned wine. The notice will specify the kind and quantity of wine being reconditioned, the additional quantity to be taxpaid, and the date it is proposed to taxpay the additional quantity. A copy of the notice, bearing the approval of the assistant regional commissioner, will be returned to the proprietor as his authority to proceed. The untaxpaid wine will be run into the measuring tank, the proprietor will measure the wine, and will enter in his records as a taxable removal the quantity as measured. The returned wine may then be mingled with the wine so measured. The proprietor will report the details of the transaction in part X of Form 702.

§ 240.805 *Records.* The proprietor shall keep a separate record concerning the reconditioning of returned taxpaid wine showing the date of reconditioning, the quantity and taxable grade of the wine reconditioned, the quantity, if any, of wine specially taxpaid for addition to the wine being reconditioned and the serial numbers or other identification of the containers in which the reconditioned wine was placed. In addition the following information will be shown in respect to wine received for reconditioning and removed:

(a) Name and address of the person from whom the wine is received;

(b) Date of receipt;

(c) The kind, quantity and taxable grade of the wine;

(d) The serial numbers or other identifying marks of the containers in which the wine is received;

(e) The name and address of the persons to whom the reconditioned wine is shipped;

(f) Time of shipment; and

(g) The kind, quantity and taxable grade shipped to each. If the information required in regard to receipts and shipments is shown on the taxpaid room record required by § 240.921 the separate record of reconditioning need not include information as to receipt and disposition of the wine.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.806 *Destruction of returned taxpaid wine.* Taxpaid wine which has been received at the bonded wine cellar may be destroyed. Upon destroying the wine the proprietor will forward to the assistant regional commissioner a notice showing the kind of wine, quantity, taxable grade and date of destruction. Unless records showing the receipt of the wine and the person from whom received have previously been made in connection with the regular taxpaid room records required by § 240.921, separate record showing this information will be prepared.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.807 *Retaxpayment of returned United States wine.* Where, because of the quantity involved, or other reason, the proprietor does not recondition the returned United States wine separately,

cations therefor.

or taxpay an additional quantity for adding thereto to facilitate reconditioning, he may return the taxpaid wine to stock in the bonded premises, subject to retaxpayment if removed for a taxable purpose. When wine is so returned, the procedure described in §§ 240.801 to 240.804 should not be followed. Such returned United States wine will be reported on Form 702 with an explanatory notation in part X of the form.

(68A Stat. 664; 26 U. S. C. 5361)

REFUND OF TAX ON UNMERCHANTABLE WINE

§ 240.808 *General.* The tax paid or determined on any sparkling wine or artificially carbonated wine produced in the United States which has been returned to a bonded wine cellar as unmerchantable shall be refunded, or credited, without interest, or the person liable for the tax relieved of such liability, as provided in this subpart.

(68A Stat. 611; 26 U. S. C. 5044)

§ 240.809 *Refund, credit, or relief.* Where sparkling wine or artificially carbonated wine, produced in the United States and removed subject to tax, has been returned to a bonded wine cellar as unmerchantable and for conversion into still wine in accordance with Subpart MM of this part or for destruction in accordance with Subpart KK of this part the proprietor so converting or destroying the wine may obtain refund or credit or the person liable for the tax relieved of such liability: *Provided*, The quantity so received totals thirty wine gallons or more: *And provided further*, That the wine was removed subject to tax on or after January 1, 1955.

(68A Stat. 611; 26 U. S. C. 5044)

§ 240.810 *Claim for refund or credit.* When the conversion or destruction of sparkling wine or artificially carbonated wine has been completed, pursuant to application in amounts totaling thirty wine gallons or more, a claim on Form 843, in duplicate, may be filed with the assistant regional commissioner by the proprietor requesting refund of tax on the unmerchantable wine so converted or destroyed. There shall be attached to each copy of the claim a copy of the application for destruction or conversion of the unmerchantable wine, bearing the certification of the internal revenue officer supervising the conversion or destruction and showing the date of taxpayment of the wine. If the proprietor desires that the amount of tax on the unmerchantable wine be credited against current taxable removals of wine, instead of refunded, he shall take credit on a wine tax return, Form 2050.

(68A Stat. 611; 26 U. S. C. 5044)

§ 240.811 *Relief.* Where a quantity of sparkling wine or artificially carbonated wine removed upon determination of tax is returned to a bonded wine cellar as unmerchantable pursuant to approved application prior to payment of tax, and is converted or destroyed as provided in § 240.809, the person liable for the tax may be relieved of such liability by taking credit for the amount of tax involved on the tax return, Form 2050, on which the tax would otherwise have been paid.

(68A Stat. 611; 26 U. S. C. 5044)

SUBPART PP—WITHDRAWAL OF WINE SPIRITS FOR WINE PRODUCTION

§ 240.820 *General.* The wine spirits authorized for use in wine production shall be produced from the distilling material authorized for use in distillery operations under section 5215, Internal Revenue Code, but shall not be reduced with water from distillation proof, nor be distilled at less than one hundred forty degrees proof: *Provided*, That commercial brandy aged in wood for a period of not less than two years and barreled at not less than one hundred degrees proof shall be deemed wine spirits for purposes of this part.

(68A Stat. 667; 26 U. S. C. 5373)

§ 240.821 *Who may withdraw.* The proprietor of any bonded wine cellar may withdraw and receive wine spirits without payment of tax from any registered fruit distillery or internal revenue bonded warehouse for use in the production of natural wine, or for addition to concentrated or unconcentrated juice for use in wine production, or for such other uses as are authorized in this part. Application for the withdrawal of wine spirits should not be filed until facilities for the receipt, storage or use of the spirits have been approved by the assistant regional commissioner. The proprietor will advise the assistant regional commissioner, or officer designated by him, sufficiently in advance of withdrawals so that an internal revenue officer may be assigned to supervise the receipt of the wine spirits at the wine cellar.

(68A Stat. 667; 26 U. S. C. 5373)

§ 240.822 *Application, Form 257.* Where it is desired to withdraw wine spirits for wine production, either from a fruit distillery or from an internal revenue bonded warehouse, application will be made by the proprietor on Form 257. The proprietor shall specify in the application the approximate desired date of receipt of wine spirits and whether the wine spirits are to be withdrawn in packages, railroad tank cars, tank trucks, or by pipeline, and (a) if the wine spirits are to be withdrawn in railroad tank cars, whether both the bonded wine cellar and the distillery or warehouse from which the wine spirits are to be withdrawn are equipped with suitable railroad siding facilities, pipelines, and tanks for gauging the wine spirits, (b) if the wine spirits are to be withdrawn in tank trucks, whether both the bonded wine cellar and the distillery or warehouse from which the wine spirits are to be withdrawn are equipped with suitable loading and unloading facilities and tanks for gauging the wine spirits, and (c) if the wine spirits are to be withdrawn by pipeline, whether the wine cellar and the distillery or warehouse from which the wine spirits are to be withdrawn are located on adjacent premises and are equipped with suitable tanks, and whether the pipeline has been inspected and approved as required by § 240.169. He shall state in the application the penal sum of the bond, Form 700. The same application may not include wine spirits from more than one distillery or warehouse, or from both a distillery and a warehouse, nor two or more lots to be removed from the same distillery or warehouse at different times, except where the distillery or warehouse is adjacent to the bonded wine cellar, as provided in § 240.825.

(68A Stat. 667; 26 U. S. C. 5373)

§ 240.823 *Filing of Forms 257.* The application shall be filed in triplicate where the bonded wine cellar and the distillery or warehouse are in the same internal revenue region, and in quadruplicate where they are in different regions. Where the wine cellar and distillery or warehouse premises are located in the same region Form 257 will be submitted to the internal revenue officer if one is assigned to the wine cellar, or to an adjacent fruit distillery or internal revenue bonded warehouse. If an internal revenue officer is not assigned to such premises, the application will be submitted to the assistant regional commissioner or to such officer as he may designate. The assistant regional commissioner will notify each designated internal revenue officer of the amount of the proprietor's bond. He will also notify each proprietor concerned where Forms 257 are to be submitted to a designated internal revenue officer. Forms 257 covering inter-region withdrawals will be submitted direct to the assistant regional commissioner of the region in which applicant wine cellar is located.

(68A Stat. 667; 26 U. S. C. 5373)

§ 240.824 *Transfer of wine spirits.* If an application for withdrawal of wine spirits in the same region is approved, all copies will be forwarded by the approving officer to the fruit distillery or the internal revenue bonded warehouse as authority for release of the wine spirits. Upon receipt of the wine spirits at the bonded wine cellar they will be deposited in the wine spirits storage room or tank. If an internal revenue officer is not assigned to the bonded wine cellar, the proprietor will on receipt of the wine spirits request the assistant regional commissioner or designated officer to detail an officer to supervise the deposit or immediate use.

(68A Stat. 667; 26 U. S. C. 5373)

§ 240.825 *Monthly withdrawals.* If the distillery or warehouse and the wine cellar are located on adjacent premises and wine spirits are to be transferred to the bonded wine cellar from time to time during the month, under supervision of an internal revenue officer, the proprietor's application on Form 257 may cover all wine spirits to be transferred to the wine cellar during the month. In such case, if the bond of the proprietor is not in the maximum penal sum, the proprietor shall specify on Form 257 the maximum quantity of wine spirits that will be removed from the distillery or warehouse on any one day, less the quantity on hand unused at the beginning of the day.

(68A Stat. 667; 26 U. S. C. 5373)

§ 240.826 *Receipt of wine spirits in packages.* When packages of wine spirits are received at the bonded wine cellar the proprietor will examine the packages and satisfy himself that the wine spirits are the same as described in Forms 257 and 1520 (received from the distillery or warehouse) and then will deposit the wine spirits in the wine spirits storage room under the supervision of the internal revenue officer. The proprietor, under the supervision of the officer, will gauge any packages which appear to have been tampered with or from which wine spirits appear to have been abstracted or lost. The details of packages so regauged will be reported on Form 1520, in quadruplicate, by the proprietor with a statement setting forth fully the apparent cause of the loss.

(68A Stat. 666, 667; 26 U. S. C. 5368, 5373)

RECEIPT OF WINE SPIRITS BY PIPELINE

§ 240.827 *General.* Where the distillery or warehouse and the bonded wine cellar are located on adjacent premises wine spirits may be transferred from the distillery or warehouse to the wine cellar by pipeline for immediate use in wine production, or may be transferred to wine spirits tanks for subsequent use.

(68A Stat. 634; 667; 26 U. S. C. 5194, 5373)

§ 240.828 *Transfer of wine spirits by pipeline for immediate use.* Wine spirits transferred by pipeline for immediate use may be gauged either by weight or by volume in the distillery or the warehouse. Where the spirits are gauged in the distillery or warehouse, the pipeline shall be directly connected, as provided in § 240.169, with wine spirits addition tanks. The valves in the pipeline will be closed and locked with a Government lock at all times except when necessary to be opened for the transfer of wine spirits. Where the proprietor has placed wine in a wine spirits addition tank and has ascertained the quantity of wine spirits to be added, the wine spirits may be transferred under the supervision of the internal revenue officer.

(68A Stat. 667; 26 U. S. C. 5373)

§ 240.829 *Transfer of wine spirits by pipeline to wine spirits storage tank in wine cellar.* Where it is desired to transfer wine spirits by pipeline to the bonded wine cellar and store such spirits therein prior to use, there must be provided within the wine cellar a suitable storage tank or tanks for storing the wine spirits. The pipeline from the adjacent distillery or warehouse must empty into such tank or tanks as provided in § 240.169. The wine spirits will be transferred under supervision of the internal revenue officer, and if not gauged in the distillery or warehouse, shall be gauged by weight or volume in the bonded wine cellar.

(68A Stat. 667; 26 U. S. C. 5373)

WITHDRAWAL OF WINE SPIRITS IN TANK CARS AND TANK TRUCKS

§ 240.830 *General.* Wine spirits may be withdrawn in railroad tank cars (where shipping and receiving premises have suitable railroad siding facilities) and tank trucks, provided appropriate weighing tanks or tanks suitable for measuring the spirits are provided in both the distillery or warehouse and the bonded wine cellar for gauging the wine spirits, or the wine spirits are transferred in accurately calibrated tank cars or tank trucks with calibration charts available at the distillery or warehouse and the wine cellar, and a closed storage tank (or tanks) of sufficient capacity to hold the wine spirits is provided in the wine cellar. Pipelines for transfer of wine spirits from the tank car or tank truck to the tank in the bonded wine cellar must be provided in accordance with § 240.169.

(68A Stat. 634, 667; 26 U. S. C. 5194, 5373)

§ 240.831 *Tank car and tank truck requirements.* Railroad tank cars and tank trucks used to transport wine spirits for use in wine production must be constructed, marked, filled, labeled, and inspected, in the manner required by regulations in Part 221 or Part 225, as applicable, of Title 26 of the Code of Federal Regulations.

(68A Stat. 634; 26 U. S. C. 5194)

§ 240.832 *Examination of tank car or tank truck upon arrival at wine cellar.* Upon arrival of the tank car or tank truck at the bonded wine cellar, the seals must not be broken or any wine spirits removed except in the presence of the internal revenue officer, who will first carefully examine the car to see whether the seals are intact and whether there is any evidence of loss by leakage or otherwise. The contents of the tank car or tank truck will be gauged by weight or volume at the time of receipt by the proprietor under the supervision of the internal revenue officer. If the tank car or tank truck has been accurately calibrated, and the calibration chart is available at the wine cellar, the wine spirits may be gauged by volume in the tank car or tank truck. In any case where a volume gauge is made, the actual measurements of the depth of the spirits in the gauging tank, tank car, or tank truck, and the temperature of the spirits, will be recorded on Form 1520. The transfer of the wine spirits from the tank car or tank truck to the wine spirits storage tank must be made under the supervision of the internal revenue officer. The label attached to the tank car or tank truck at the distillery or warehouse shall be destroyed by the proprietor immediately the car or truck is emptied.

(68A Stat. 634, 666; 26 U. S. C. 5194, 5366)

§ 240.833 *Report of gauge at wine cellar.* The proprietor will prepare a report of his gauge on Form 1520, in quadruplicate, of the wine spirits received by tank car or tank truck, and will attach a copy of the form to each copy of Form 257 received from the distillery or warehouse. If there is a loss in excess of one percent the proprietor will submit a report to the internal revenue officer supervising the receipt, stating the apparent cause of the loss and all circumstances having a bearing thereon.

(68A Stat. 634; 26 U. S. C. 5194)

RECORD AND SUPERVISION

§ 240.834 *Disposition of Form 257.* When the wine spirits have been deposited in the wine spirits storage room or storage tank, or run directly into a wine spirits addition tank, the proprietor will execute the certificate of deposit on each copy of Form 257 (in case the form covers a single shipment), forward promptly one copy, with Form 1520 attached, to the assistant regional commissioner, and retain the remaining copy as a part of the bonded wine cellar records. In case Form 257 is for monthly withdrawals, the proprietor will acknowledge receipt of the wine spirits on each copy of Form 1520 received from the distillery or warehouse, and attach a copy of Form 1520 to each copy of Form 257. At the end of the month the proprietor will execute the certificate of deposit on each copy of Form 257, forward one copy, with Forms 1520 attached, to the assistant regional commissioner, and retain the remaining copy as a part of his wine cellar records.

(68A Stat. 666; 26 U. S. C. 5368)

§ 240.835 *Waiver of requirements of supervision.* The assistant regional commissioner may waive the requirements that the receipt and use of wine spirits at a bonded wine cellar be supervised by an internal revenue officer. In such case, the wine spirits so received will be gauged by the proprietor and placed under his lock.

(68A Stat. 666; 26 U. S. C. 5366)

WITHDRAWAL OF WINE SPIRITS FOR USE IN EFFERVESCENT WINE OR SPECIAL NATURAL WINE PRODUCTION

§ 240.836 *Withdrawal from distillery or warehouse.* Proprietors of bonded wine cellars engaged in the production of sparkling wine or artificially carbonated wine, or special natural wine, for which wine spirits are required for dosage, or for the preparation of approved essences or similar approved flavorings on the wine cellar premises, may make application on Form 257 in accordance with § 240.822 to withdraw tax-free wine spirits in a quantity not to exceed two packages or 110 wine gallons. If bottled wine spirits are procured, the quantity shall be limited to two cases. Such wine spirits will be received by the proprietor and placed under his lock in a secure room or locker on the bonded premises, and the receipt on Form 257 acknowledged by him. Use of the wine spirits may be permitted without Government supervision. The quantity on hand at any time shall not exceed three packages or three cases. Record of receipt and use will be kept in accordance with Subpart UU of this part and entered on Form 702.

(68A Stat. 667, 668, 671; 26 U. S. C. 5373, 5382, 5386)

§ 240.837 *Withdrawal from wine spirits storage room.* If a proprietor has wine spirits in packages on hand under Government lock in his wine spirits storage room he may, instead of following the procedure in § 240.836, submit to the

internal revenue officer at the premises a written request, in duplicate, to withdraw from such room a quantity of wine spirits not to exceed two packages. If the request is in order the internal revenue officer will release the spirits, and the proprietor will gauge them and prepare Form 1520, in triplicate, under the supervision of the internal revenue officer. The wine spirits will then be released to the proprietor and placed under his lock in a secure room or locker on the bonded premises. One copy of Form 1520 will be retained by the proprietor, one copy of the proprietor's request with a copy of Form 1520 attached will be forwarded to the assistant regional commissioner, and the remaining copy of the request and Form 1520 will be placed in the Government cabinet. Losses of wine spirits disclosed on regauge will be handled in accordance with Subpart QQ of this part. Use of wine spirits so released to the proprietor may be permitted without Government supervision. Record of such use will be kept in accordance with Subpart UU of this part and entered on Form 702.

(68A Stat. 667, 668; 26 U. S. C. 5373, 5382)

SAMPLES OF WINE SPIRITS

§ 240.838 *Limitations.* Samples of wine spirits may be withdrawn, free of tax, from any bonded wine cellar for analysis or testing. A sample may be withdrawn from each lot of wine spirits received, or from each wine spirits storage tank, or from a package representative of a lot of wine spirits on hand in the wine spirits storage room. Each sample shall be not more than one pint in size, and only one sample may be taken from any lot of wine spirits, unless authority is received from the assistant regional commissioner for larger or additional samples, upon a showing of necessity therefor. All spirits produced at the same distillery on the same day, if received in the same shipment, will be considered as constituting a lot of spirits.

(68A Stat. 667; 26 U. S. C. 5373)

§ 240.839 *Application.* The proprietor shall file application, in triplicate, with the internal revenue officer whenever samples of wine spirits are desired. The application shall identify the lot or lots of spirits from which samples are desired, the size of the sample to be withdrawn from each lot, and the disposition to be made of the samples. Remnants or residues of samples remaining after analysis or testing, and which are not retained for laboratory specimens, must be destroyed or returned to the bonded wine cellar for use in wine production.

(68A Stat. 667; 26 U. S. C. 5373)

SUBPART QQ—LOSSES OF WINE SPIRITS IN BOND

§ 240.850 *Taxable losses.* Tax shall be collected on wine spirits: (a) In the case of loss by theft, unless the assistant regional commissioner shall find that the theft occurred without connivance, collusion, fraud, or negligence on the part of the proprietor or other person responsible for the tax, or the owner, consignor, consignee, bailee, or carrier, or the employees of any of them; and (b) in the case of voluntary destruction, unless the proprietor or other person responsible for the tax destroys the spirits under such supervision as the assistant regional commissioner may require.

(68A Stat. 604; 26 U. S. C. 5011)

§ 240.851 *Insurance coverage.* The remission, abatement, refund, credit, or other relief from taxes on wine spirits lost by theft shall be allowed only to the extent that the claimant is not indemnified or recompensed for such tax, by a valid claim of insurance or otherwise.

(68A Stat. 604; 26 U. S. C. 5011)

§ 240.852 *All other causes.* The tax on wine spirits withdrawn for use in wine production, and lost due to causes other than theft or voluntary destruction while being transferred to the wine cellar, or while in the wine cellar, may be remitted as provided in §§ 240.855 and 240.856.

(68A Stat. 604; 26 U. S. C. 5011)

DETERMINATION OF LOSSES

§ 240.853 *In transit.* Losses in transit will be ascertained at the time the wine spirits are received at the wine cellar, as provided in §§ 240.826 and 240.833.

(68A Stat. 604; 26 U. S. C. 5011)

§ 240.854 *In wine cellar.* Losses by theft, or from other causes, in the bonded wine cellar, will be determined and reported at the time the losses are discovered. A physical inventory of wine spirits storage tanks shall be taken at the close of the month during which wine spirits are used in wine production, or upon completion of such use for the month and at any other time required by the assistant regional commissioner or a designated internal revenue officer. Any losses which have not previously been reported will be determined by the inventory. Where a loss is discovered requiring filing of a claim as provided in § 240.855, the proprietor will gauge the contents of the container from which the loss occurred and prepare a report of gauge on Form 1520, in quadruplicate. Three copies of Form 1520 will be delivered to the internal revenue officer at the premises.

(68A Stat. 604; 26 U. S. C. 5011)

CLAIMS FOR LOSSES

§ 240.855 *When required.* Where any loss by theft occurs, claim for remission of tax must be made by the proprietor. Where the loss from any package or railroad tank car or tank truck in transit to the bonded wine cellar exceeds one percent of the quantity shipped therein, claim for remission of tax on the entire quantity lost from the package or railroad tank car or tank truck must be made by the proprietor. Where the loss on any lot of wine spirits transferred to the wine cellar by pipeline exceeds one percent, claim for remission of tax on the entire quantity lost must likewise be made by the proprietor. Where the loss in the wine cellar from any package exceeds one percent of the quantity contained in the package at the time of receipt, or where the loss from storage tanks exceeds one percent of the total quantity contained in such tanks during the month, claim for remission of tax on the entire quantity lost from each such package or from such storage tanks, must be made by the proprietor.

(68A Stat. 604; 26 U. S. C. 5011)

§ 240.856 *When not required.* Where the loss in transit or in the wine cellar does not exceed one percent, calculated in accordance with § 240.855, claim for remission of tax will not be required, provided there are no circumstances indicating that the loss is not allowable under the law.

(68A Stat. 604; 26 U. S. C. 5011)

§ 240.857 *Form of claim.* No special forms have been prescribed for use in filing claims for remission of tax. Such claims shall be made on letter size paper showing the name and address of the claimant and the registry number of the bonded wine cellar, and shall set forth the following information:

(a) The name, registry number, and location of the distillery which produced the wine spirits;

(b) The serial numbers of the packages or other containers from which the wine spirits were lost, the quantity lost from each, and the total quantity of wine spirits covered by the claim;

(c) The total amount of tax for which claim is filed;

(d) The date of the loss, or if such date is not known, the date on which the loss was discovered, and the nature and cause (if known) of the loss, together with all the known material facts and circumstances surrounding the loss;

(e) The name of the carrier, if any;

(f) If lost by theft, the facts establishing whether the loss occurred as the result of any negligence, connivance, collusion, or fraud on the part of the distiller, warehouseman, owner, consignor, consignee, bailee or carrier, or the employees of any of them; and

(g) If lost by theft, whether the claimant is indemnified or recompensed for the loss, and if so, the amount and nature of such indemnity or recompense; the actual value of the wine spirits, less the tax, must be stated explicitly, and certified copies of all policies of insurance or other documents of indemnity covering the wine spirits, must be furnished where required. The claim will be signed by the proprietor or his authorized agent. Immediately above the signature will appear the following statement: "I declare under the penalties of perjury that this claim (including any accompanying statements) has been examined by me and to the best of my knowledge and belief is true and correct."

(68A Stat. 604, 749; 26 U. S. C. 5011, 6065)

§ 240.858 *Supporting documents.* Claims for remission of tax on wine spirits lost while being transferred to a bonded wine cellar shall, if the transfer was made by public carrier, be supported by statements of the agents of the carrier having personal knowledge of the loss, and whenever possible by a copy of the bill of lading. Claims covering losses in the wine cellar must be supported by statements of persons having personal knowledge of the loss.

(68A Stat. 604; 26 U. S. C. 5011)

§ 240.859 *Filing of claims.* Claims for remission of tax on wine spirits lost in transit, or in the bonded wine cellar, must be filed by the proprietor within 30 days of discovery of the loss with the assistant regional commissioner of the region in which the wine cellar is located.

(68A Stat. 604; 26 U. S. C. 5011)

SUBPART RR—DISPOSITION OF UNUSED WINE SPIRITS

§ 240.870 *General.* Wine spirits withdrawn by the proprietor of a bonded wine cellar and not used in wine production may be disposed of by transfer to an internal revenue bonded warehouse or another bonded wine cellar, or by taxpayment and removal to a person authorized to receive such spirits, or may be voluntarily destroyed without payment of tax as provided in § 240.874.

(68A Stat. 604, 667; 26 U. S. C. 5011, 5373)

§ 240.871 *Application to dispose of wine spirits.* Application for permission to transfer wine spirits to an internal revenue bonded warehouse or bonded wine cellar or to taxpay or destroy wine spirits, shall be filed with the assistant regional commissioner. The application, in duplicate, in letter form shall set forth the serial numbers of the packages or storage tanks in which the wine spirits are contained, the kind and quantity of wine spirits involved, the name and registry number of the distiller of the wine spirits, the date of receipt of the wine spirits in the wine cellar, and the reason it is desired to taxpay, destroy, or transfer the wine spirits.

(68A Stat. 667; 26 U. S. C. 5373)

§ 240.872 *Transfer to bonded warehouse or wine cellar.* When it is desired to transfer wine spirits to a bonded warehouse or bonded wine cellar the application shall specify the name, number and location of such premises, and the means or containers by or in which it is proposed to transfer the wine spirits thereto. The application shall also specify whether the proprietor of the designated warehouse or wine cellar has agreed to receive the wine spirits and file consent of surety on his bond, extending the terms of the bond to cover transfer to his premises and storage thereat.

(68A Stat. 667; 26 U. S. C. 5373)

§ 240.873 *Taxpayment.* When it is desired to taxpay the wine spirits, the application shall describe the containers in which the spirits will be removed upon taxpayment and the name and address of the person or persons to whom the spirits will be shipped and whether the spirits will be used for beverage or nonbeverage purposes.

(68A Stat. 667; 26 U. S. C. 5373)

§ 240.874 *Disposition of spirits.* If the application is approved, the proprietor may dispose of the spirits in accordance with the application. In case the spirits are to be destroyed the destruction will be accomplished under such supervision as the assistant regional commissioner may require. If the spirits are to be transferred to another bonded wine cellar or internal revenue bonded warehouse, or taxpaid, the assistant regional commissioner will advise the proprietor regarding the marking of the containers and the reports to be rendered. Prior to such transfer or taxpayment, the wine spirits will be gauged by the proprietor under the supervision of an internal revenue officer.

(68A Stat. 667; 26 U. S. C. 5373)

SUBPART SS—TAX LIABILITY FOR WINE SPIRITS WITHDRAWN FOR WINE PRODUCTION

§ 240.880 *Charge against proprietor.* Proprietors of bonded wine cellars may become liable for the tax on all wine spirits withdrawn for use in wine production, and their bonds must fully cover the internal revenue tax at the rate imposed by law on such wine spirits on hand or in transit, in addition to the tax on wine as provided in § 240.221.

(68A Stat. 667; 26 U. S. C. 5373)

§ 240.881 *Assessment of tax.* Where it appears that wine spirits withdrawn for use in wine production were unlawfully removed, or that the tax may not be remitted on a loss of wine spirits occurring in transit to or in the bonded wine cellar, the assistant regional commissioner will cause the tax to be assessed. Where wine spirits have been used in violation of the provisions of Subchapter F of Chapter 51 of the Internal Revenue Code and the proprietor of the bonded wine cellar does not satisfactorily show that such wine spirits were not knowingly used in violation of the law, the tax thereon will be assessed.

(68A Stat. 672; 26 U. S. C. 5391)

SUBPART TT—PRODUCTION AND STORAGE OF ALLIED PRODUCTS

§ 240.890 *Application.* A proprietor desiring to produce or prepare for market commercial fruit products, or recover by-products (not including volatile fruit-flavor concentrates) and store such products on bonded wine cellar premises must file application, in triplicate, with the assistant regional commissioner setting forth fully the details of the desired activity. Activities permitted will be limited to those in which fruit or fruit juice is the principal material used in production. Such operation may not be commenced before approval has been obtained from the assistant regional commissioner. Wine may not be used in the production of allied products.

(68A Stat. 664; 26 U. S. C. 5361)

§ 240.891 *Segregation.* Allied products will be produced and stored with such degree of segregation from wine operations as may be required by the assistant regional commissioner to prevent jeopardy to the revenue or conflict with wine operations. Equipment used for bottling or packing wine may not be used for bottling or packing allied products at times when wine is being bottled or packed, unless completely separate facilities are provided and the products are kept separate.

(68A Stat. 664; 26 U. S. C. 5361)

§ 240.892 *Records.* The use of fruit, fruit juice or concentrated fruit juice in the production of allied products will be reported on the record of materials received and used required by § 240.915. Fruit juice and concentrated fruit juice will be fully accounted for on that record. Commercial records must be kept showing the production and disposition of other allied products. If sugar is used in allied products, the receipt and use of the sugar so used will be shown on the sugar record required by § 240.914.

(68A Stat. 664; 26 U. S. C. 5361)

SUBPART UU—RECORDS AND REPORTS

§ 240.900 *Form 702.* The proprietor of each bonded wine cellar shall prepare at the close of each month Form 702, in duplicate, verified and signed under the penalties of perjury and, on or before the tenth day of the succeeding month, will forward the original of the report to the assistant regional commissioner. All operations of the bonded wine cellar will be reported in summaries on Form 702 as indicated by the headings of lines and columns, and in accordance with the instructions printed on the form or issued in respect thereto. The information reported on Form 702 will be obtained from the wine cellar records maintained in accordance with the requirements of this part. Where fractional parts of a gallon are involved, they shall be expressed in decimals to the nearest one-tenth gallon, five hundredths gallon being converted to the next full one-tenth gallon.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.901 *Form 2050.* The proprietor of every bonded wine cellar removing wine subject to tax will prepare Form 2050, in triplicate, showing thereon the number of gallons of wine of each tax class so removed during the day covered by the return, the amount of tax due by tax class, and the total tax due. There shall also be shown any increases or decreases in tax due to errors in previous returns, Form 2050, credits for the conversion or destruction of unmerchantable effervescent wine, credit for the prepayment of tax as shown by Form 2052, and amounts of tax due totaling less than $10 on account of removals on previous days when no return, Form 2050, was prepared as provided in § 240.591. Form 2050 will be serially numbered by the proprietor, commencing with "1" on January 1 of each year. Form 2050 shall contain or be verified by a written declaration that it is made under the penalties of perjury. One copy of the form will be retained by the proprietor and the original and one copy of the form, with remittance, will be filed with the district director as provided in § 240.591.

§ 240.902 *Form 2052.* When the proprietor desires to prepay tax, as provided in § 240.593, he shall first prepare Form 2052, in triplicate, covering a specific quantity of wine to be removed on that day. The original and one copy of Form 2052 shall be delivered to the district director of internal revenue or deposited in the United States mail properly addressed to him, together with a remittance as provided in § 240.593, prior to

removal of the wine. Form 2052 will be serially numbered by the proprietor, commencing with "1" on January 1 of each year. Credit for the amount prepaid on Form 2052 will be taken on the tax return, Form 2050, covering removals for a taxable purpose for the day.

§ 240.903 *Form 702–C.* The proprietor of every bonded wine cellar shall make a detailed report on Form 702–C, in duplicate, of each inventory taken by him of all wine on storage at his wine cellar at the close of business on June 30 and December 31 of each year. The original of Form 702–C shall be attached to Form 702 for the month to which it pertains. If at other times complete actual inventories of wine are taken and losses disclosed thereby are reported on the monthly report, Form 702, Form 702–C will be prepared and the original thereof forwarded with the report on Form 702.

(68A Stat. 666; 26 U. S. C. 5367, 5369)

§ 240.904 *Form 275 and Form 1520.* The proprietor of every bonded wine cellar using wine spirits in the production of wine shall prepare Forms 275 and 1520 at the time wine spirits are gauged and added to wine, as prescribed in §§ 240.376 and 240.379.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.905 *Prescribed forms.* All reports required by this part will be made on forms prescribed by the Director, Alcohol and Tobacco Tax Division. Entries will be made as indicated by the headings of the columns and lines and as required by the instructions printed thereon or issued in respect thereto and by this part. Where forms are prescribed for the keeping of cellar records, entries will be made on such records as instructions may provide, except that where substitute records are approved by the assistant regional commissioner, as provided in § 240.913, entries will be made as the assistant regional commissioner may require. Forms for reports, that is, forms which will be filed with the assistant regional commissioner, will be furnished free of cost by him. Prescribed forms for cellar records must be provided at the expense of the proprietor. Samples of such records may be obtained from the assistant regional commissioner for the use of commercial printers for reproducing the forms.

§ 240.906 *Form 2054, wine fermentation record.* Each proprietor engaged in the production of still wine shall maintain a wine fermentation record on Form 2054 showing the details of the fermentation and amelioration of wine. A separate Form 2054 shall be maintained for each kind of fruit or other primary material used in winemaking. Where no sugar is used in the production of wine from a particular kind of fruit, Form 2054 need not be maintained covering the production of wine from that fruit provided the record of materials received and used required by § 240.915 shows the quantity of fruit, juice, or concentrate used for winemaking each day, and in case water is added as permitted by §§ 241.353, 240 361, and 240.402, the total solids content of the juice in degrees Brix is shown before and after addition of the water, and the quantity of water used is recorded.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.907 *Form 2055, wine reserve inventory record.* Each proprietor engaged in the production of wine from grapes or other fruit, with the use of sugar, who desires to reserve wine of his own production for sweetening or the addition of wine spirits shall maintain a wine reserve inventory record on Form 2055, identifying the wine reserved and showing for the entire inventory the sweetening and wine spirits added and the resultant increases in volume. The inventory account will be balanced at the end of each month and whenever wine is withdrawn from reserve or losses are determined. Upon withdrawal of all wine from reserve inventory the account will be closed and a new inventory account opened when next it is desired to reserve wine for sweetening or the addition of wine spirits. A separate reserve inventory and record will be maintained for each kind of fruit. At the end of each month there will be reported on Form 702 the totals for all wine reserve inventories concerning: (a) Wine deposited in reserve; (b) increases in volume by sweetening; (c) increases in volume by the addition of wine spirits; (d) wine withdrawn from reserve; and (e) losses determined.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.908 *Form 2056, record of still wine.* Each proprietor of a bonded wine cellar who produces or receives still wine, other than distilling material or vinegar stock made with excess water, shall maintain a record of still wine on Form 2056, showing the quantities produced, received, removed, or used in effervescent wine production. A separate Form 2056 shall be maintained for each tax class of still wine. In each tax class, transactions for all still wines (including special natural wine but not including distilling material, vinegar stock, or wine in reserve) shall be entered on a single record. At the end of each month the totals shown by Form 2056 shall be reported on Form 702.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.909 *Form 2057, record of effervescent wine.* Each proprietor engaged in the production or receipt of effervescent wine shall maintain Form 2057 showing the details of production, receipt and removal. Separate records will be kept for sparkling wine fermented in bottles, sparkling wine fermented in bulk and artificially carbonated wine, for each kind of fruit. At the end of each month the still wine used in effervescent wine production and the effervescent wine produced and removed will be reported on Form 702.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.910 *Form 2058, special natural wine production record.* Each proprietor producing special natural wine under § 240.444 shall maintain Form 2058 showing the details of production. At the end of each month the total gains and losses in special natural wine production will be reported in part I of Form 702. In addition a separate record shall be maintained showing the receipt and use or other disposition of all herbs, aromatics, essences, or other flavoring materials received for the production of special natural wine. Entries will be made on the record, for which no form is prescribed, daily as the transactions occur. Proprietors producing special natural wine under § 240.443 will not keep Form 2058, but must maintain the separate record of herbs, etc., and in addition must keep the same records as are required in the production of natural wine.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.911 *Form 2059, record of distilling material or vinegar stock.* Each proprietor producing or receiving wine with excess water expressly for use as distilling material or vinegar stock shall maintain Form 2059 showing the amount and kind produced, received and removed. At the end of each month the proprietor shall record the total transactions in part VI of Form 702. Transactions of wine produced expressly for distilling material or vinegar stock will not be recorded on Form 2056.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.912 *Form 2060, record of wine cases filled.* Each proprietor removing wine in cases shall keep Form 2060, record of wine cases filled, showing the number of cases filled daily and the serial numbers, except that if serial numbers of cases are shown on the record of taxpaid removals, Form 2060 need not be maintained.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.913 *Substitute record.* Proprietors of bonded wine cellars, subject to the approval of the assistant regional commissioner, may maintain cellar records in a form other than that prescribed by this subpart, provided such substitute records contain all required information in a form permitting ready examination by internal revenue officers. Proprietors desiring to maintain a substitute record shall submit two copies of the proposed record, with typical entries thereon, to the assistant regional commissioner for approval. If the record is found to be satisfactory, the assistant regional commissioner will note his approval thereon, retain one copy and return the other copy to the proprietor.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.914 *Sugar record.* Each proprietor receiving, storing, and using sugar shall keep a separate record of such receipt and use. The record shall show the date of receipt, from whom received, and the kind and quantity. Invoices covering purchases shall be retained in support of this record. When sugar is used for ameliorating or sweetening purposes, the record shall show the date, kind, and quantity used, and the tank or lot number of wine in which used, except that when sugar is used for sweetening wine in reserve inventory, the tank or lot number need not be shown. The sugar record shall also show sugar used in the production of allied products or removed from the premises. At the close of each month the account shall be balanced and the quantity of each kind of sugar remaining on hand shall be shown in such record.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.915 *Separate record of materials received and used.* Each proprietor producing wine shall maintain a separate record showing the receipt, use or other disposition of basic winemaking materials, such as fruit, juice or concentrated juice. The record must show the date of receipt, the quantity received, the name and address of the person from whom received, and the date of use of the materials. If Form 2054 (or a substitute therefor) is maintained, the quantity of material used in each lot will be identified by lot number in the materials record. Where materials are received from others, the invoices or commercial papers showing the receipt will be retained in chronological order in support of the record. If materials are received off bonded premises and subsequently transferred to the bonded premises, the record will be maintained only with respect to material received on the bonded premises and will show the date of transfer and quantity transferred, but the invoices or commercial papers covering the purchase of the materials will also be kept available for inspection. Where grapes (or other fruit) received on the bonded premises are used in producing juice to be stored for future use or for removal, the record will show the quantities of grapes used and juice produced. Where fruit or juice is used to produce concentrated juice the record will show the quantity of fruit or juice used and the quantity of concentrated juice produced. The record must also show the use or other disposition of the juice or concentrated juice produced. At the close of each month the materials account will be balanced and the totals reported on Form 702.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.916 *Varietal and vintage wine records.* Where a proprietor desires to account for and dispose of wine under varietal or vintage designations, complete tank records, or similar records, must be maintained so that the origin of the wine may be verified.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.917 *Record of use of acids.* Each proprietor adding acid to correct a natural deficiency in juice or natural wine as provided in §§ 240.364 and 240.404 shall keep a record showing date of use, the kind and quantity of acid used, the kinds and quantities of wine in which used, and the fixed acid content of the juice or wine prior to the addition of acid. Where acid is used for the stabilization of wines as provided in § 240.526, the proprietor shall keep a record showing date of use, kind and quantity of acid used, and the kinds and quantities of wines in which used.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.918 *Other chemicals.* Where chemicals, preservatives, or materials other than acids are used in the cellar treatment of wine, as authorized in this part, a complete record of the purchase and receipt thereof must be kept at the bonded wine cellar premises available for inspection by internal revenue officers. The record shall show the kinds and quantities of chemicals and other materials received, the date of receipt, and the names and addresses of persons from whom purchased. Invoices covering purchases shall be retained in support of the record. Record of use of all chemicals except filter aids, inert fining agents, and sulphur dioxide compounds, and the acids listed in § 240.917, shall be maintained, showing the kind, quantity, and date of use, and kind and quantity of wine in which used.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.919 *Record of wine baked.* Where wine is baked on bonded wine cellar premises the proprietor shall keep a complete and up-to-date record showing (a) the serial number of each tank, (b) date wine is placed in the tank, (c) quantity and alcohol content of the wine, (d) date baking commenced, (e) date baking completed, (f) date wine removed from tank, and (g) quantity of wine removed and alcohol content thereof. In case wine is baked in barrels or puncheons, the record may be maintained on the basis of groups of such containers filled at one time, rather than for each individual container.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.920 *Record of taxpaid removals from bond.* Proprietors of bonded wine cellars removing wine from bond for consumption or sale on determination of tax shall keep a separate record of wine so removed and make entries therein at the time of removal either to the taxpaid room or for direct shipment. The record must show the date of removal, the name and address of the person to whom shipped, the kind (class and type) and quantity of wine, alcohol content (taxable grade), and serial numbers: *Provided*, That if the serial numbers are placed on the cases at the time of filling and Form 2060 is maintained, the assistant regional commissioner may authorize the proprietor to omit serial numbers from the record of tax paid removals as provided in § 240.561. On sales of one case or less the name and address of the consignee need not be shown. Where the proprietor keeps copies of invoices or other commercial records covering shipments as provided above, and they are kept in chronological order available for inspection and in such manner that the required information may be readily ascertained therefrom by internal revenue officers, the separate record may show the total quantity shipped each day in lieu of the details of each shipment.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.921 *Taxpaid room record.* Where a taxpaid room has been provided in accordance with § 240.145 or is maintained off the bonded premises, the proprietor shall maintain a separate record at such taxpaid room, showing the quantities, serial numbers, kind and alcohol content (taxable grade) of wine received thereat and shipped therefrom, including the dates of receipt and shipment, and the names and addresses of the persons to whom shipped, and the quantities, kind and alcohol content (taxable grade) of wine shipped to each: *Provided*, That on sales of one case or less the name and address of the consignee need not be shown. Where the proprietor keeps copies of invoices or other commercial records covering shipments from the taxpaid room as provided above respecting shipments, and they are kept in chronological order available for inspection and in such manner that the required information may be readily ascertained therefrom by internal revenue officers, the separate record may show the total quantity shipped each day in lieu of the details of each shipment. Where shipments of taxpaid wine are made directly from the bonded wine cellar premises and from the taxpaid room, and the sales record (invoices) does not distinguish between such sales, the proprietor shall then maintain a daily record of the balances of wine remaining in the taxpaid room. Where the proprietor has been authorized to omit serial numbers from the record of taxpaid removals, as provided in § 240.561, serial numbers may likewise be omitted from the taxpaid room record.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.922 *Time of making entries.* All operations and transactions must be entered on daily records or commercial papers on the day on which the transaction occurs, except where records are posted from work orders prepared at the time the transaction occurs, entries may be deferred until the next succeeding business day. If required records are posted from other records, the proprietor shall keep the original of the other record.

(68A Stat. 666; 26 U. S. C. 5367)

RETENTION OF RECORDS

§ 240.923 *Filing of forms.* The proprietor shall file his retained copies of reports and records separately by form number, in chronological order, in bound or other secure form. Form 702–C shall be filed with the Form 702 to which it pertains.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.924 *Period of retention.* All records, including all monthly reports and all separate records (or commercial papers kept in lieu thereof) must be retained by the proprietor for a period of three years: *Provided*, That the assistant regional commissioner or the Director, Alcohol and Tobacco Tax Division may require records to be kept an additional period of not exceeding three years in any case where such retention is deemed necessary or advisable.

(68A Stat. 666; 26 U. S. C. 5367)

§ 240.925 *Records available for inspection.* All records required to be kept at the bonded wine cellar shall be subject to inspection by internal revenue officers at any reasonable hour, and shall be filed in such manner that they may be readily inspected by the officers.

(68A Stat. 666; 26 U. S. C. 5367)

SUBPART VV—MISCELLANEOUS PROVISIONS

§ 240.940 *Exceptions to construction and equipment requirements.* The Director, Alcohol and Tobacco Tax Division, may approve details of construction and equipment in lieu of those specified in this part where it is shown that it is impracticable to conform to the prescribed specifications, and the proposed construction and equipment will afford as much or more security and protection to the revenue as is intended by the specifications prescribed in this part and where such variations will not be contrary to any provision of law. Where it is proposed to substitute construction and equipment for that for which specifications are prescribed, prior approval must be obtained in accordance with the provisions of § 240.942.

§ 240.941 *Exceptions to methods of operation.* The Director, Alcohol and Tobacco Tax Division, may, in case of emergency, approve methods of operation other than those provided for by this part, where it is shown that variations from the requirements are necessary, will not hinder the effective administration of this part, will not jeopardize the revenue, and where such variations are not contrary to any provision of law. Where it is proposed to employ methods of operation other than those provided for by this part, prior approval must be obtained in accordance with the provisions of § 240.942.

§ 240.942 *Application.* A proprietor who proposes to employ methods of operation or construction or to install equipment, other than as provided in this part, shall submit a letterhead application so to do, in triplicate, to the assistant regional commissioner. Such application shall describe the proposed variations and state the need therefor. Where variations in construction and equipment cannot be adequately described in the application, drawings or photographs shall also be submitted. The assistant regional commissioner will make such inquiry as is necessary to determine the necessity for the variations and whether approval thereof will hinder the effective administration of this part or result in jeopardy to the revenue. On completion of the inquiry, the assistant regional commissioner will forward two copies of the application to the Director, Alcohol and Tobacco Tax Division, together with a report of his findings and his recommendation.

§ 240.943 *Assessment of tax.* If an investigation or an examination of records discloses that liability for wine tax, distilled spirits tax, rectification tax, or occupational tax, has been incurred by the proprietor of a bonded winery or a bonded wine cellar, the assistant regional commissioner will notify the proprietor by letter of the basis and the amount of the proposed assessment in order to afford him an opportunity to submit a protest, with supporting facts, within thirty days, or to request a conference with regard to the tax liability.

SUBPART WW—EXAMINATION OF PREMISES

§ 240.950 *Officer's right of entry and examination.* Internal revenue officers have authority under the law to inspect at any reasonable hour the records, stocks, and premises of bonded wine cellars (including any portion of the premises designated as bonded wine warehouse) to determine that all provisions of the internal revenue laws and regulations are being complied with. Officers desiring to make inspections will identify themselves by exhibiting credentials. Any denial of or interference with such inspection by the proprietor, his agents, or employees, is a violation of law and will be reported as such for appropriate action.

(68A Stat. 872, 903; 26 U. S. C. 7342, 7606)

SUBPART XX—CALCULATIONS FOR WINE PRODUCTION

§ 240.960 *Limitations on amelioration for fruits and berries other than currants, gooseberries or loganberries.* If the acid of the juice does not exceed 5 grams per thousand ml., no addition of water is allowed, except that sufficient water may be added to reduce the total solids content to 22 degrees Brix, regardless of acid content. The acid content shall be calculated before fermentation and as tartaric acid in the case of grape wine, as malic acid in the case of apple wine, and as citric acid for other fruit and berry wines. If the acid of the juice is in excess of 5 grams per thousand ml., the addition of ameliorating material is allowed in sufficient quantity to reduce the acid to not less than 5 grams per thousand ml: *Provided,* That in no event shall the volume of such ameliorating material exceed 35 percent of the total volume of such ameliorated juice.

§ 240.961 *Volume of ameliorating material allowed for each 1,000 gallons of juice for various acid content (except currants, gooseberries, or loganberries).*

TABLE I

DETERMINATION OF THE ACIDITY OF JUICE

§ 240.963 *Apparatus necessary.* (a) Burette, 50 ml., graduated to $\frac{1}{10}$ ml.; (b) Burette stand; (c) Transfer pipettes, 5, 10, and 20 ml.; (d) Medicine dropper; (e) Stirring rods; (f) Glass funnels, 90 mm. (approx. 3.6" inside diameter, 160 mm. stem approx. 6.3"); (g) Flasks (Erlenmeyer approx. 500 ml.); (h) Graduated cylinder (100 ml.); (i) Beakers, 250 ml.; (j) Absorbent cotton; (k) Porcelain dishes, 7" or 8" in diameter; and (l) Filter paper (folded, No. 12, 24-0 cms.). (Note.—When pipettes, burettes, or flasks marked "cc.," instead of "ml.," are used, the same quantities should be measured, the units of measure "ml." and "cc." being the same for practical purposes.)

§ 240.964 *Solutions necessary.* (a) N/10 sodium hydroxide, exact.

(b) Indicator, phenolphthalein solution. 1 gram per 100 ml. of neutral alcohol.

§ 240.965 *Use and care of the burette.* Before using the burette the stopcock should be greased while dry with a very little vaseline or stopcock grease. It should then be washed thoroughly inside with a soapy-water solution and rinsed thoroughly, first with water and then twice with the N/10 sodium hydroxide, care being taken that all of the interior of the burette comes in contact with the rinsing liquid. The burette is then filled to the top with N/10 sodium hydroxide, placed in a stand, and after standing for a minute the level of the liquid is brought exactly to the 0 mark by opening the stopcock. The instrument is now ready for use. After using the burette it should be emptied, washed with water, and placed inverted in the stand, with the cock open until needed again. Under no condition should the N/10 sodium hydroxide be permitted to remain in the burette overnight.

§ 240.966 *Use and care of the pipette.* The pipette is used to measure the amount of juice to be used for ascertaining the quantity of acid. The juice is sucked with the mouth into the pipette until the level of the liquid is about an inch above the mark, the finger is quickly placed over the end, and the juice allowed to flow out slowly until the mark is reached. The pipette now holds the amount of juice needed for the acid determination. The contents should then be run into the porcelain dish. A little practice makes the operation of the pipette very easy. Before using the pipette it should always be rinsed thoroughly with the juice to be tested, and after using should be washed with water.

§ 240.967 *Selection of sample.* Endeavor to obtain a sample representative of the whole lot or container of juice to be tested. If the juice can not be mixed thoroughly, take equal portions from different parts of the container and then mix these portions thoroughly. A sufficient amount is then filtered through a small pad of absorbent cotton or filter paper placed in the funnel, using a flask to catch the filtered juice.

§ 240.968 *Measuring the sample of juice.* Before measuring the sample of juice, remove the gas (CO_2) contained in the sample by placing the hand tightly over the mouth of the flask and shaking vigorously for about half a minute. Let the gas escape and repeat the operation several times until the gas has been removed. This is important, for the reason that this gas has acid properties which would affect the result and because it is impossible to measure correctly a juice containing gas.

§ 240.969 *The titration.* Place 250 or 300 ml., or more, of distilled water in the large porcelain dish and neutralize with the N/10 sodium hydroxide solution to a distinct pink color, using 1 medicine dropper of the phenolphthalein indicator solution. The quantity of sample of juice to be measured and titrated depends on the depth of the color of the juice; it is generally 5 ml. for deeply colored red juice and 10 ml. or less for white juice. Measure the sample of juice accurately in the proper pipette and run it into the neutralized distilled water in the porcelain dish. Then titrate rapidly by running the standard N/10 sodium hydroxide solution from the burette into the diluted sample contained in the porcelain dish, stirring continuously, until a distinct pink color has been obtained. The number of ml. of the N/10 sodium hydroxide solution required to produce the desired color should then be read on the burette. To determine the amount of acid, in grams per thousand ml., contained in grape juice, divide the burette reading by the number of ml. of the sample taken and multiply by the factor 7.5. The result is the number of grams of acid calculated as tartaric in 1,000 ml. of the juice. For all berry wines, multiply by the factor 7.0, and for apple wine multiply by 6.7, to obtain the grams of acid calculated as citric and malic, respectively, contained in 1,000 ml. of juice.

§ 240.970 *Examples.* A 10 ml. sample of a white juice (grape) gave a burette reading of 6.4 ml. Calculate the acid content

$6.4 \div 10 \times 7.5 = 4.8$ grams per 1,000 ml.

A 5.0 ml sample of a red juice (grape) gave a burette reading of 4.2 ml. Calculate the acid content

$4.2 \div 5 \times 7.5 = 6.3$ grams per 1,000 ml.

A 5.0 ml. sample of blackberry juice gave a burette reading of 5.8 ml. Calculate the acid content

$5.8 \div 5 \times 7.0 = 8.12$ grams per 1,000 ml.

§ 240.971 *Precautions for the titration.* When placing the N/10 sodium hydroxide solution in the burette read the lowest part of the meniscus (or quarter moon) as the level of the liquid, and take the same level in the final reading. Remember these facts: The bottle containing the N/10 sodium hydroxide must always be kept stoppered when not in use and nothing should be allowed to enter this bottle; if some of the N/10 sodium hydroxide in the burette is not needed, throw it away—do not pour it back into the bottle.

DETERMINATION OF TOTAL SOLIDS AND SUGAR SOLIDS

§ 240.972 *Total solids in juice.* Use a Brix saccharometer. Pour as much juice into a glass cylinder as is necessary to float the saccharometer, which should be carefully lowered into the juice in such a way that the surface of the stem above the liquid is not moistened. The instrument should float freely and not touch the bottom or walls of the cylinder. Read the scale on the stem at the intersection of the surface of the liquid. Remove the saccharometer and determine the temperature of the juice. Make correction for temperature according to Table III.

§ 240.973 *Correction to be applied to the reading of the Brix saccharometer for different temperatures.* This table shows the correction to be applied to the reading of the Brix saccharometer at different temperatures, in case the saccharometer is calibrated to read correctly at 60 degrees Fahrenheit. If the saccharometer is calibrated for a different temperature, other correction tables must be used, or the liquid brought to the proper temperature before using the saccharometer.

TABLE III

	Temperature	Degree Brix																			
		1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	18	19	20	21

N. B. The correction for indications between 21° and 30° Brix and 50° and 70° F. temperature may be made by adding 0.005 to each correction given in the above table, column 21°, for each increase in degree Brix. For instance, 25° Brix 79° F., correction to be added to column 21° and 70°, 0.02 + 0.38 = 0.40.

§ 240.974 *Explanation of Table III.* Where the temperature of the juice is other than 60 degrees Fahrenheit, the saccharometer reading of the juice must be corrected for temperature according to this table, in order to determine the true Brix of the juice. When the temperature of the juice is below 60 degrees Fahrenheit, the correction shown by the table should be deducted from the saccharometer reading, and when the temperature of the juice is above 60 degrees Fahrenheit the indicated correction should be added to the reading. For example, if the saccharometer reading is 20 degrees Brix and the temperature is 75 degrees F., Table III shows that correction for this reading and temperature is 0.58, which should be added to the reading. Therefore, 20°+0.58°=20.58° total solids.

§ 240.975 *Total solids and sugar solids in wine.* Total solids content of wine means the degrees Brix of the dealcoholized wine, and is approximately equal to the percent of solids by weight in the dealcoholized wine. The total solids may be determined by dealcoholizing a measured volume of wine, restoring to the original volume with water, and determining the degrees Brix of this solution according to the instructions in §§ 240.972 to 240.974. An approximate value for the sugar solids content of wine (percent of sugar by weight of the dealcoholized wine) may be obtained by subtracting 2 from the degrees Brix as determined above. For accurate determination of the sugar solids content of wine, use the method described in Official Methods of Analysis of the Association of Official Agricultural Chemists, Seventh Edition, 1950, Chapter 11.

USE OF DRY SUGAR TO CORRECT JUICE (OTHER THAN GRAPE) TO 23 DEGREES BRIX

§ 240.976 *Instructions.* § 240.978 (Table IV) shows the pounds of dry sugar required to raise the total solids content of one gallon of juice to 23 degrees Brix with commercial dextrose (1 molecule of water of crystallization) or cane or beet sugar. This table should be used in determining the quantity of dry sugar that may be added to fruit and berry juice to correct natural deficiencies in the juice.

§ 240.977 *Example.* Find the amount of dry cane sugar required to raise the total solids content of 500 gallons of juice from 12 degrees Brix to 23 degrees Brix, and the resultant gallonage.

(a) Find the figure 12 in the left hand column of Table IV.

(b) Opposite the figure 12, the pounds of cane sugar required for each gallon of juice is found in the fourth column, and is 1.2475.

(c) 1.2475×500=623.75 pounds of cane sugar.

(d) Opposite the figure 12, the resultant gallonage for each gallon of juice is found in the last column on the right, and is 1.0924.

(e) 1.0924×500=546.2 gallons of corrected juice.

§ 240.978 *Pounds of commercial dextrose or cane or beet sugar required to raise one gallon of juice to 23 degrees Brix and the resultant gallonage.*

TABLE IV

DILUTION OF CONCENTRATED JUICE

§ 240.979 *Instructions.* Section 240.980 (Table V) shows the gallons of water required to reduce one gallon of concentrated juice to a desired degree Brix, according to the Brix of the concentrated juice and the Brix to which it is desired to reduce the concentrated juice. When it is desired to produce standard wine from concentrated juice in accordance with § 240.353, Table V should be used in calculating the quantity of water required to reduce the concentrate to the original Brix of the juice or to 22 degrees Brix.

§ 240.980 *Gallons of water required to reduce 1 gallon of concentrated juice to a desired degree Brix.*

TABLE V

Explanation.—Reduce concentrate from 70° to 20° Brix. Opposite 70 Brix for concentrate and in column 20 Brix is 3.4791, which is the gallons of water required for each gallon of concentrate.

Brix of concentrate	Brix desired after dilution								
	18	19	20	21	22	23	24	25	26
	Gallons of water required per gallon of concentrate								
62	3.1834	2.9473	2.7349	2.5426	2.3678	2.2083	2.0620	1.9274	1.8032

EBULLIOMETERS

§ 240.981 *General characteristics.* Ebulliometers are instruments for determining the percent of alcohol in solution in water, but when proper dilution is made because of dissolved sugar, they can be used to ascertain the alcohol content of wines. Alcoholic solutions boil at lower temperatures than water, and ebulliometers determine differences in boiling points, which are referred to tables or sliding scales to find the corresponding percentage of alcohol. Because boiling points are affected by atmospheric changes, the boiling point of water should be determined several times a day.

§ 240.982 *Kinds of ebulliometers authorized.* The Malligand (with shield), E. B. Torino (with shield), Arnoldo-Sala (with shield), and L'Ebulliometer Levesque (with shield) ebulliometers have been approved for testing wine. All of these ebulliometers are of the Malligand type, and the directions for their use are the same. The Juerst, Tag-Twin (with shield), Lefco, Salleron-DuJardin, and Braun ebulliometers have also been approved for testing wine. Directions for the use of all of these instruments are outlined in the following sections.

§ 240.983 *Dilution of wine.* It is a general rule that all wines should be diluted before testing so that the difference between the boiling point of water and that of the wine is not greater than 4. The error in the indicated percent alcohol will then be less than 0.1 percent regardless of sugar content and for practical purposes is negligible. Dilutions should be made by measuring 100 ml., 50 ml., or 20 ml. of the wine with a pipette and running it into a 200 ml. narrow-necked, volumetric flask. Then add sufficient water of the same temperature as the wine to bring the liquid to precisely the 200 ml. mark on the flask. This gives a sufficient quantity for the test and for rinsing the boiler prior to making the test. The wine and water should be thoroughly mixed. When pipettes or flasks marked "cc.," instead of "ml." are used, the same quantities should be measured, the units of measure "ml." and "cc." substantially being the same. The wine should not be diluted to a greater extent than that necessary to bring the boiling point of the diluted wine within 4 degrees of the boiling point of water, but one of the quantities of wine (100 ml., 50 ml., or 20 ml.) specified above should always be used. The degree of dilution required will depend upon the sugar and alcohol content of the wine. Experience in testing various types of wine will usually indicate the degree of dilution required. When a test shows a difference of more than 4 between the boiling point of water and that of the diluted wine, it is necessary to make another test, using a lesser quantity of wine. In measuring the quantity of wine to be diluted for testing, a pipette of the same size (capacity) as the quantity of wine to be diluted must be used and the wine measured precisely to the mark. In adding water for dilution, care must be used to fill the flask precisely to the 200 ml. line. Inaccurate dilution is one of the principal causes of incorrect tests. Because of the dilution, where 100 ml. of wine is used, the percentage of alcohol indicated by the test must be multiplied by 2; where 50 ml. of wine is used, the result must be multiplied by 4; and where 20 ml. of wine is used, the result must be multiplied by 10.

§ 240.984 *Determining boiling point.* Before each test to determine the boiling point of water or diluted wine, the boiler should first be drained of any liquid that may remain therein and then rinsed with a portion of the liquid (water or diluted wine) to be tested. After such rinsing, the boiler should be thoroughly drained before another portion of the material (water or diluted wine) to be tested is poured into the boiler. The rinsings should not be used to make the test. In determining the boiling point of water, when steam comes out of the top of the instrument, which indicates that the water has started to boil, watch the thermometer. The point at which the mercury remains constant is the boiling point of the water. In determining the boiling point of diluted wine, when the mercury in the thermometer begins to rise, readings should be made every 15 seconds and written on a slip of paper. The point at which the mercury remains stationary for several consecutive observations is the boiling point of the diluted wine. Readings should be estimated between the smallest divisions of the thermometer scale. For example, if the thermometer scale is in tenths of a degree and the top of the mercury column is between two of the lines, the difference should be estimated and read accordingly, as 98.95 degrees, and such reading used in referring to the table or sliding scale. Inaccurate thermometer readings are a principal cause of incorrect results.

§ 240.985 *Care of instrument.* Cleanliness of the boiler is important because scale or residue will cause bumping and produce rapid fluctuations of the thermometer, which make correct readings impossible. The boiler should be flushed several times with water after each determination. After about 50 determinations, an approximately 2 percent solution of caustic soda should be put in the boiler and boiled for about one minute. The boiler should then be flushed thoroughly with water, after which two determinations of the boiling point of water should be made. If these readings do not agree, more washing of the boiler with water is required. When attaching the condenser to the boiler, be sure the washer is placed on the connection between the condenser and the boiler, and see that the condenser is screwed tightly to the boiler before using; otherwise, leakage will occur and the reading will be incorrect.

§ 240.986 *Alcohol lamp.* The alcohol lamp must be kept clean and well filled with denatured alcohol. From time to time the lamp must be emptied, cleaned out, and refilled with clean denatured alcohol. The wick should be kept in good condition. The tip should be trimmed where it becomes burned through a scanty supply of alcohol, and the wick should be replaced as soon as it becomes too short to reach well down into the alcohol. The flame of the lamp (or gas burner, if used instead of the lamp) should be shielded from drafts and should be adjusted so that about eight minutes elapse before the thermometer begins to rise when the boiler contains water or diluted wine. Do not force rapid boiling. Do not continue heating after the condenser has become very warm.

BRAUN EBULLIOMETER

§ 240.987 *General.* The percentage of alcohol content is read by means of the alcohol percentage calculator included with the instrument. The revolving disk of the calculator is graduated in degrees centigrade corresponding to the graduations on the thermometer. The graduations on the outer circle of the calculator represent per-

centages of alcohol by volume. Attach the condenser to the threaded opening on top of the ebulliometer. Place the instrument on a level table and shield it from drafts which may cause unsteady temperature conditions.

§ 240.988 *Determination of boiling point of water.* Fill the graduated measuring glass with water up to the line marked "25 ml." Pour this quantity of water into the instrument through the opening provided for the thermometer at the top of the ebulliometer. Now place the thermometer in this opening, being sure that rubber stopper fits snugly. Fill the condenser jacket with water. Light the alcohol burner and place it in the fork of the ebulliometer directly under the circular chimney. Adjust the length of the lamp wick so that the point of the flame will hit the horizontal tube. The rising temperature of the water will be indicated by the thermometer. When the water reaches its boiling point the thermometer reading will remain constant. Read this boiling point temperature accurately. Take the calculator and set the revolving disk so that the figure on it corresponding to the boiling point of the water is exactly opposite the zero mark on the outer circle. Clamp the disk firmly in this position by means of the screw in the center of the disk. Drain the water completely from the instrument through the petcock at the front. Empty the water from the condenser. Remove the thermometer from the instrument. Cool the instrument and thermometer to room temperature.

§ 240.989 *Determination of boiling point of diluted wine.* Be sure that all water previously used in cylinder is removed before putting in diluted wine. Rinse the instrument thoroughly with a portion of the diluted wine to be tested and drain carefully. Fill measuring cylinder up to 50 ml. mark with another portion of the diluted wine. Pour this 50 ml. of diluted wine into the instrument and replace condenser and thermometer. Fill condenser with cool water and apply heat to instrument by means of the burner as before. Continue heat until thermometer reading becomes constant. Heating should not be continued after the condenser has become very warm. Read thermometer accurately. This reading is the boiling point of the diluted wine.

§ 240.990 *Reading alcohol percentage.* Locate the boiling point of the diluted wine on inner disk. Read exactly opposite this graduation mark the percentage content on the outer circle. This gives the percentage of alcohol by volume in the diluted wine. This result should be multiplied by 2, 4, or 10, according to the ratio of water used to dilute the wine.

§ 240.991 *Precautions.* In using the ebulliometer, the following precautions should be observed:

(a) Always be sure that condenser is screwed tightly to the instrument body, and that rubber stopper on the thermometer is fitted snugly in the proper opening on top of the instrument.

(b) Be sure that exactly 50 ml. of water or diluted wine is accurately measured and that the entire 50 ml. is poured in the instrument.

(c) Always be sure that measuring glass and instrument are clean and free of liquid before adding either water or wine.

(d) Be sure that rotating disk is always clamped securely after setting for boiling point of water and that this setting is not changed before reading the boiling point of diluted wine and the alcohol content.

(e) Be sure that thermometer shows constant temperature before reading boiling points.

JUERST EBULLIOMETER

§ 240.992 *Determination of the boiling point of water.* Rinse the instrument twice with ordinary water. In doing so pour an approximate glass tube full of water through one of the openings into the ebulliometer. Take the instrument in your left hand and close the two openings on top of the instrument with the index and middle fingers, shake slightly and empty. Now measure in the glass tube as much water as is indicated by the top mark and pour it into the ebulliometer. Fasten the empty condenser to the ebulliometer. Place the thermometer into the opening in front of the condenser. The lamp, which is to be filled with denatured alcohol, should now be lit and put under the instrument. In order to protect the thermometer from heat, the little shield should always be fastened to the top of the heating tubes. Within about eight or nine minutes the mercury in the thermometer commences to rise. When steam comes out of the top of the condenser, indicating that the water has commenced to boil, watch the thermometer until the mercury remains stationary. The temperature at which the water boils is then noted.

§ 240.993 *Determination of the boiling point of the wine.* After the boiling point of the water has been determined, remove the thermometer, empty the ebulliometer, drain it through the draining cock and blow out any liquid which may have remained in the condenser and in the instrument. Rinse the ebulliometer twice with 50 ml. of the diluted wine which is to be tested. Drain the instrument through the draining cock. Fill the glass tube to the top mark with the diluted wine, which must be well decarbonated, and pour it into the ebulliometer through the thermometer opening. Insert the thermometer. Fill the condenser with water. Light the alcohol lamp. When the mercury remains stationary, which will be after 10 or 12 minutes from the time the alcohol lamp has been lit, the temperature should be read and noted.

§ 240.994 *Reading of the alcohol table.* Example: The boiling point of water was found to be 10.00 and that of the diluted wine 6.00. Subtract the one figure from the other and look up the corresponding percentage of alcohol by volume in Table VI.

For instance:
10.00—(Boiling point of water).
6.00—(Boiling point of diluted wine).
4.00—(Difference of the two boiling points).

According to the above difference of 4.00, we find in Table VI the corresponding percentage of 4.53 percent alcohol by volume, which, multiplied by 2, because of the dilution (addition of an equal part of water to the wine tested), shows that the wine contains 9.06 percent of alcohol by volume.

§ 240.995 *Alcohol Table for Juerst's ebulliometer.*

LEFCO EBULLIOMETER

§ 240.996 *Determination of the boiling point of water.* Fill the lamp with denatured alcohol. Rinse the ebulliometer boiler with water by pouring through the thermometer opening. Measure in the glass tube the quantity of water indicated by the graduation and pour it into the ebulliometer. Place the thermometer in position. Light the lamp and place it under the small tube. Within about eight or nine minutes the mercury in the thermometer commences to rise. When steam comes out of the top of the instrument (which indicates that the water has commenced to boil) and the mercury becomes stationary, read the thermometer; it is the boiling point of the water. Do not put any water into the condenser jacket while determining the boiling point of the water.

§ 240.997 *Determination of the boiling point of wine.* Open the cock, empty the boiler, rinse it with some of the diluted wine to be tested, and blow out any remaining liquid in the condenser and boiler. The procedure then is the same as given above for determining the boiling point of water, except that in this case water is used in the condenser jacket. Heating should not be continued after the condenser has become very warm.

§ 240.998 *Directions for reading alcohol table.* Determine the boiling point of the water. Determine the boiling point of the diluted wine. Should the observed boiling point of water be greater than 100 degrees centigrade, then subtract 100 degrees from this boiling point. Subtract the difference from the observed boiling point of the diluted wine. This is the corrected boiling point of the diluted wine.

Example:
Boiling point of water=100.50° C.
100.50°−100.00°=0.50° C.
Observed boiling point of the diluted wine=97.70° C.
97.70°−0.50°=97.20° C., the corrected boiling point of the diluted wine.
Refer to Table VII, and opposite 97.20° C. find the alcohol content of the diluted wine, which is 3.06 percent by volume. 3.06 multiplied by 2, 4, or 10, according to the degree of dilution of the wine tested, will give the percent of alcohol in the undiluted wine.

Should the observed boiling point of water be less than 100 degrees centigrade, then subtract this observed boiling point from 100 degrees centigrade. Add this difference to the observed boiling point of the diluted wine. This is the corrected boiling point of the diluted wine.

Example:
Observed boiling point of water=99.70° C.
100.00° C.−99.70° C.=0.30° C.
Observed boiling point of the diluted wine=96.30° C.
96.30°+0.30°=96.60° C., the corrected boiling point of the diluted wine.
Refer to Table VII, and opposite 96.60° C. find the alcohol content of the diluted wine, which is 3.74 percent by volume. 3.74 multiplied by 2, 4, or 10, according to the degree of dilution of the wine tested, will give the percent of alcohol in the undiluted wine.

§ 240.999 *Alcohol table for Lefco ebulliometer.*

MALLIGAND TYPE EBULLIOSCOPES

§ 240.1000 *Determination of the boiling point of water.* Fill the conical boiler with water to the lower inside ring. Do this carefully, using the pipette which is sent with the instrument. Do not let the thermometer bulb containing the mercury touch the water. Now close the boiler with its cover to which the thermometer is fastened. Screw the cover into the boiler. Fill the lamp with alcohol, set it under the chimney which is fastened to the ring in front, light the lamp and bring the water to a boil. When the water is in full boil, shown by the escaping steam, let the mercury rise until it becomes stationary. Then loosen the screw in the back of the thermometer frame and move the scale so that its "0" line exactly meets the very end of the mercury column, then tighten again the screw in the back so that the scale may not accidentally be moved. The cylindrical cooler is not used during the foregoing part of the process. The "0" point, determined as explained, may be used for two or three hours, unless some atmospheric disturbance should occur in the meantime. Now extinguish the flame, unscrew and remove the cover

and empty the boiler and you are ready to test the wine.

§ 240.1001 *Determination of the boiling point of diluted wine.* First rinse the boiler thoroughly with some of the diluted wine to be tested. Empty the rinsings and then fill with another portion of the diluted wine to the upper ring within the boiler. Screw the cover on again and set the cooler on top, screwing it into the short tube in front of the thermometer frame. Fill the cooler with cold water, but do not pour any water through the narrow tube in the center. Now put the lamp under the chimney again, light it, and bring the diluted wine to a boil. When the mercury column of the thermometer stops rising and has become stationary read from the scale the percentage of alcohol contained in the diluted wine. The test must be stopped if and when the water in the cooler should get warm. The sliding pointer on the thermometer frame helps in easy reading of the scale. After cooler and boiler have been emptied and have cooled off, another test can be made immediately. Again thoroughly rinse the boiler with the diluted wine to be tested and proceed as before. As stated, it is not necessary to determine the "0" point anew for each test. It may for two or three hours remain the same as originally found, unless some atmospheric disturbance has occurred in the meantime. The water in the cooler must not get warm and therefore must be renewed for each test. To prevent foaming of only partly fermented wine, drop one or two drops of oil or a small particle of stearine or tallow on top of the liquid in the boiler before screwing on the cover with the thermometer.

§ 240.1002 *Care of the instrument.* It is most necessary to empty the boiler immediately and thoroughly rinse with clean water and then carefully dry the boiler inside and outside, particularly inside, because wine left in the boiler will form a crust within the heating-ring. The heating-ring is the ring which holds the chimney. It is hollow and open at the two ends where fastened to the boiler. When the boiler is filled the heating-ring also fills. A crust within the heating-ring first slows up and in the end makes impossible the proper working of the instrument. When it takes more and more time to make the liquid boil it is not due to anything else but that a crust has formed within the heating-ring. It is then necessary to thoroughly clean the instrument by boiling water in it, and, while boiling, adding about one-eighth ounce of caustic potash in small pieces to the boiling water. After three or four minutes of boiling, empty the boiler, rinse it several times with clean water, then repeat the caustic-potash treatment and rinsing until the water comes out clear, then finish by carefully and thoroughly drying the boiler inside and outside. Be sure during the entire cleaning process to keep the cover with the thermometer away in a safe place and not to put it on the boiler.

§ 240.1003 *Care of alcohol lamp.* To make sure that the lamp will work properly it must, as far as practicable, be kept well filled with denatured alcohol. When not in use, keep the cap on the lamp. From time to time the lamp must be emptied, cleaned out, and refilled with clean denatured alcohol. Soot may form where the chimney sets on the heating-ring. Remove it, because soot will slow up the working of the instrument. The wick must always be kept in good condition, i. e., at its original height and with plenty of cotton for its entire length.

SALLERON–DUJARDIN EBULLIOSCOPE

§ 240.1004 *Apparatus.* This set of instruments consists of 1 Salleron-DuJardin ebullioscope with reflux condenser, 1 rule with sliding scale for determining the percent of alcohol, 1 alcohol lamp, 1 standardized centigrade thermometer, 1 glass cylinder graduated to read 15 ml., 25 ml., and 50 ml., for accurately measuring the sample to be tested, and 1 plain or mixing glass cylinder of not less than 75 ml. capacity.

§ 240.1005 *Determination of boiling point of water.* Pour 15 ml. of water into the ebullioscope, insert the thermometer, and bring the water to the boiling point. When the mercury becomes stationary, note the temperature and adjust the sliding scale on the rule so that the line indicating the temperature noted will be exactly parallel with the zero mark on the left-hand side of the rule. Now remove the thermometer and empty the water and rinse the ebullioscope thoroughly with some of the diluted wine to be tested.

§ 240.1006 *Determination of alcohol content of wine.* Take 50 ml. of the diluted wine to be tested and pour it into the ebullioscope, fill the reflux condenser with cold water, insert the thermometer, and bring the sample to the boiling point. Heating should not be continued after the condenser has become very warm. When the mercury in the thermometer becomes stationary and the reading noted, refer to the rule, and the reading on the right-hand side parallel with the line on the sliding scale, indicating the temperature noted, will be the alcohol content of the diluted wine, which should be multiplied by 2, 4, or 10, according to the ratio of dilution, to find the alcohol content of the undiluted wine.

TAG-TWIN EBULLIOMETER

§ 240.1007 *Determining boiling points.* Place instrument on a level table and shield from drafts which may cause unsteady temperature conditions. Fill the graduated measuring glass with the diluted wine to be tested up to the top line marked 50 ml. Pour the liquid to be tested in the right-hand receptacle. Now fill the measuring glass up to the 50 ml. mark with water and pour the water into the left-hand container. Fill condenser with water and place it and thermometers in position. The thermometer provided with the sliding scale is for determining the boiling point of the wine, and goes in the right-hand container. The other thermometer, without the scale, is for the water container. Light burner after filling with denatured alcohol. With the chimney in place adjust apparatus so that the flame covers the two circular tubes. Use a low flame in starting, as too rapid boiling may result in a loss of some of the alcohol due to the velocity of the vapor particles. The flame may be increased after the first few minutes, but in no case use the strongest flame. When the temperature indicates that the liquids are near the boiling points, the flame may be reduced again. When the mercury columns in both thermometers reach their highest point and become stationary, and when the readings are steady, observe the mercury column of the thermometer in the receptacle containing the water. Note at what degree the water boils. Then set the sliding scale on the other thermometer so that the zero "0" mark on the sliding scale is at the same reading as the mercury of the thermometer in the receptacle with the boiling water. For instance, if the water registers 100 degrees, move the sliding scale on the other thermometer so that the zero mark of the sliding scale will be at the point of 100 degrees. If the thermometer in the receptacle with the water registers 99.6 degrees, adjust the sliding scale on the other thermometer so that its zero mark will be at 99.6 degrees of the attached thermometer, and so on.

§ 240.1008 *Determining percentage of alcohol.* After the boiling points have been reached, i. e., when the mercury columns in both thermometers have become stationary, keep a small flame burning for about one minute (heating should not be continued after the right-hand condenser has become very warm). Then read on the sliding scale the point corresponding to the top of the mercury column in the right-hand thermometer. That figure on the sliding scale will be the exact percentage of alcohol present in the diluted wine being tested. This figure will then be multiplied by 2, 4, or 10, according to the degree of dilution, to find the percent of alcohol by volume contained in the undiluted wine. The alcohol percentage scale from 1 to 5 percent is graduated in 1/20 parts, each line indicating 1/20 of 1 percent. The remainder of the scale is divided in 1/10 parts, each line indicating 1/10 of 1 percent of alcohol by volume.

CARE OF THERMOMETERS

§ 240.1009 *Precautions.* Thermometers are easily broken. Great care must be exercised in handling and using them to prevent breakage. A thermometer should never be knocked against anything hard, nor dipped into a cold liquid when it is hot or into a hot liquid when it is cold, nor should the bulb

come in contact with a cold surface just after being taken out of the boiler or with a hot surface when it is cold.

§ 240.1010 *Separation of mercury column.* Great care must likewise be used in attempting to reunite the mercury column when it becomes separated, as the thermometer may be broken by any swinging, tapping, chilling, or heating of the instrument employed to unite the separated column. The instructions in §§ 240.1011, 240.1012, 240.1013, and 240.1014 issued by manufacturers for reuniting the mercury columns of thermometers, are quoted for the information of proprietors.

§ 240.1011 *Salleron-DuJardin instructions.* Should the mercury column in the thermometer become separated as a consequence of jolting or handling, it is easy to get the bubbles or portions of mercury back into the proper place by shaking the thermometer like a pendulum, the bulb being held in the hand, the stem upwards against the forearm.

§ 240.1012 *Tag-Twin instructions.* To obtain accurate results, the mercury column in the thermometer must be unbroken. If, for any reason, a separation of the mercury occurs in the column of either thermometer, the mercury can usually be joined in the chamber above the bulb by tapping the thermometer end on a pad of paper or some other solid, but not hard, surface.

§ 240.1013 *Malligand instructions.* Due to rough handling in transportation or some similar cause the mercury column may become divided and portions of it may appear anywhere in the thermometer tube. This can easily be remedied by turning the thermometer upside down and swinging it lightly up and down, to cause the mercury in the tube to move and press forward toward the extreme end of the tube, thus uniting the separated portions on its way. A divided mercury column may sometimes completely fill the bulb at the extreme end of the horizontal tube and if turning and swinging does not unite the mercury, the bulb should be gradually heated by holding it above the flame of the alcohol lamp at a distance of about 2 or 3 inches, slowly moving it a little closer, until the heat makes the mercury rise and the separated portions unite. A little swinging up and down will help. Be careful not to have the flame too high or the bulb too close to the flame, else the bulb will break.

§ 240.1014 *Juerst instructions.* To join mercury column when broken within the capillary:

(a) Warm the bulb in water or oil or in the air high above a gas or alcohol flame. Great care must be taken, especially with high temperature thermometers, not to heat the bulb to a temperature higher than the thermometer is intended to measure. The upper end of a thermometer stem may be warmed over a Bunsen burner, if this is done very gradually. When the thermometer is warmed over a flame, it should be rotated about its axis.

(b) Cool in cold water, ice, a freezing mixture, or CO_2 snow; but such cooling should not be attempted while the thermometer bulb is still hot to the touch.

(c) Tap or strike thermometer on the end. This must be done carefully, particularly when the bulb is only partially filled with mercury and the thermometer is inverted. This tapping may be "soft," as when the thermometer is held vertically and the hand (not the thermometer) is struck on the table, or it may be "sharp," as when the thermometer is held vertically and struck downward on a pad of paper.

(d) Tap on the side of the thermometer "softly" with the hand, or "sharply" with a pencil. Either must be done with care, as there is danger of breaking the stem. Different thermometers require different treatment.

METHOD OF DETERMINING THE QUANTITY OF WINE SPIRITS TO BE ADDED TO WINE TO PRODUCE A DESIRED ALCOHOL CONTENT

§ 240.1015 *Determination of the quantity required in wine gallons.* The quantity of wine spirits required to raise the alcohol content of wine may be determined by use of the following formula:

$$X=\frac{V(C-A)}{B-C}$$

where:

A = the percent of alcohol by volume in the wine before addition of wine spirits;
B = the percent of alcohol by volume in the wine spirits to be used;
C = the desired percent of alcohol by volume in the wine;
V = the number of wine gallons of the wine to be used; and
X = the number of wine gallons of wine spirits to be used.

The percentage of alcohol by volume of wine spirits is one-half the proof of the wine spirits.

§ 240.1016 *Examples of use of formula.*

Example No. 1. How many wine gallons of wine spirits having a percent of alcohol by volume of 90 shall be added to 100 gallons of wine having an alcohol content of 10 percent by volume to produce a wine of 20 percent alcohol by volume?

$A=10$ percent.
$B=90$ percent.
$C=20$ percent.
$V=100$ gallons.

$$X=\frac{100\ (20-10)}{(90-20)}=14.28 \text{ w. g. wine spirits.}$$

Example No. 2. It is desired to increase the alcohol content of 100 gallons of wine containing 11.9 percent alcohol to 20.7 percent with wine spirits containing 90.3 percent alcohol:

$A=11.9$ percent.
$B=90.3$ percent.
$C=20.7$ percent.
$V=100$ gallons.

$$X=\frac{100\ (20.7-11.9)}{(90.3-20.7)}=12.64 \text{ w. g. wine spirits.}$$

§ 240.1017 *Determination of the quantity of wine spirits in pounds.* The pounds of wine spirits required to raise the alcohol content of wine to any percent between 18 and 24 percent, inclusive, with wine spirits of any proof between 167 degrees and 193 degrees, inclusive, may be determined by use of the table in § 240.1018. As indicated by the heading of the table, the percentage of alcohol desired in the wine is shown in the lines in the first column to the left, and the proof of the wine spirits to be used is shown at the top of the other columns.

§ 240.1018 *Table for finding the quantity of wine spirits in pounds.*

TABLE VIII

Proof of wine spirits to be used

Percent alcohol desired in wine	193	192	191	190	189	188	187	186	185	184	183	182	181

§ 240.1019 *Instructions for use of Table VIII.* To find the pounds of wine spirits required, multiply the factor shown at the line for the percentage of alcohol desired in the column for the proof of the wine spirits to be used, by the difference between the percentage of alcohol of the wine before addition of the wine spirits and the percentage desired, then multiply the product by the number of gallons of wine to which the wine spirits are to be added.

§ 240.1020 *Examples.*

Example No. 1. How many pounds of wine spirits of 180 proof shall be added to 10,000 gallons of wine containing 10 percent alcohol to increase the alcohol content of the wine to 20 percent?

0.09918 × (20 − 10) × 10,000 = 9,918 pounds wine spirits required

Example 2. It is desired to raise the alcohol content of 10,000 gallons of wine containing 11.9 percent alcohol to 20.7 percent with wine spirits of 180.6 proof.

Interpolation between columns 181 and 180 is made as follows:

(0.10018 − 0.09927) × 0.6 = 0.000546 difference.

0.10018 − 0.000546 = 0.099634 factor for 180.6 proof wine spirits.

0.099634 × (20.7 − 11.9) × 10,000 = 8,767.79 pounds of wine spirits required.

RULES FOR FINDING CAPACITY AND CONTENTS OF TANKS

§ 240.1021 *Round tanks of uniform dimensions, standing on end.* Ascertain the inside depth of the tank by accurately measuring the same with a rod or steel tape. Ascertain the diameter of the tank (1) by accurately measuring the inside width of the tank with a rod or steel tape, or (2) by measuring the outside circumference of the tank and dividing the same by 3.1416 and deducting from the quotient twice the thickness of the staves or sides of the tank. The result will be the inside diameter of the tank. After determining the depth and diameter of the tank in inches, multiply the diameter by itself and by the depth and by 0.0034, and the product will be the capacity of the tank in gallons.

§ 240.1022 *Examples.* (a) What is the capacity of a tank 120 inches in diameter and 100 inches in depth?

120 × 120 × 100 × 0.0034 = 4,896 gallons, capacity of tank.

(b) The capacity of the tank for 1 inch of depth can be determined by multiplying the diameter by itself and by 0.0034. What is the capacity per inch of depth of the above tank?

120 × 120 × 0.0034 = 48.96 gallons per inch.

(c) Where the tank is partly filled, the liquid contents can be determined by ascertaining the depth of the wine in inches and multiplying same by the capacity of the tank for 1 inch of depth. (The depth of the wine can be ascertained by measuring the same with a rod or steel tape or by measuring the dry inches in the tank and subtracting same from the depth of the tank.)

(d) What are the liquid contents of the above tank if the depth of the wine in it is 75 inches?

75 × 48.96 = 3,672 gallons of wine in tank.

§ 240.1023 *Round tanks standing on end and larger at bottom than at top, but not bulged in the middle.* Ascertain the inside diameter of the tank at the top and at the bottom and the inside depth of the tank in the manner set forth above. (In ascertaining the depth, the rod or tape should be run straight down and not allowed to follow the course of the staves or sides of the tank. All measurements should be in inches.) Add together the square of the top diameter, the square of the bottom diameter, and four times the square of the midway diameter (ascertained by adding the top and bottom diameters together and dividing by 2), and divide the sum by 6, which gives the square of the true mean diameter; multiply this by the depth of the tank, and the product will be the capacity in cylindrical inches. As there are 294 cylindrical inches in a gallon, divide this last product by 294, and the quotient will be the capacity of the tank in gallons.

§ 240.1024 *Examples.* (a) What is the capacity of a tank 108 inches in diameter at the top, 120 inches in diameter at the bottom, and 100 inches in depth?

(108 + 120) ÷ 2 = 114 inches midway diameter.

(108 × 108) + (120 × 120) + (114 × 114 × 4) ÷ 6 = 13,008.

(13,008 × 100) ÷ 294 = 4,424 gallons, capacity of tank.

(b) The following rule is shorter and, though not mathematically correct, is for all practical purposes sufficiently so, unless the tank is much smaller at the top than at the bottom, and may be used in determining the capacity of such tanks: Add the top and bottom diameters, divide the sum by 2, multiply the quotient by itself and by 0.0034 and by the depth of the tank, the result will be the capacity of the tank in gallons.

(108 + 120) ÷ 2 = 114 inches mean diameter.

114 × 114 × 100 × 0.0034 = 4,418 gallons, capacity of tank.

(c) To find the capacity for each foot of depth, subtract the top diameter from the bottom diameter, and divide the difference by the depth in inches to get the decrease in diameter for each inch of depth; multiply the quotient by 12, which gives the decrease in diameter per foot; subtract the product from the bottom diameter to get the diameter at 1 foot of depth from the bottom; add the bottom diameter and the diameter at 1 foot from the bottom, divide the sum by 2, multiply the quotient by itself and by 0.0034. The result will be the capacity of the tank for the first foot of depth.

(120 − 108) ÷ 100 = 0.12 inches, decrease in diameter per inch of depth.

0.12 × 12 = 1.44 inches, decrease in diameter per foot of depth.

120 − 1.44 = 118.56 inches, diameter 1 foot from bottom.

(120 + 118.56) ÷ 2 = 119.28 inches, mean diameter.

119.28 × 119.28 × 0.0034 = 48.37 gallons per inch for first foot.

48.37 × 12 = 580.44 gallons, capacity first foot.

The capacity for the next foot of depth can be ascertained by the same process of taking the diameter at the top of the first foot as the bottom diameter for the calculation. For example, the bottom diameter of the second foot of depth is 118.56 inches, and the top diameter would be 118.56 − 1.44 (decrease in diameter) = 117.12 inches top diameter. By following the above rule the capacity for the second foot is found as follows:

(118.56 + 117.12) ÷ 2 = 117.84 inches.

117.84 × 117.84 × 0.0034 = 47.21 gallons per inch for second foot.

47.21 × 12 = 566.52 gallons capacity for second foot.

Each other foot of depth can be found in the same way, care being used that each calculation is correct.

(d) To find the liquid contents when partly filled, ascertain the decrease in diameter of the tank per inch of depth by subtracting the top diameter of the tank from its bottom diameter and dividing the difference by the depth in inches of the tank, to get the decrease in diameter per inch of depth. Then ascertain the depth in inches of the liquid, and multiply the same by the decrease in diameter per inch of depth, the product will be the difference between the bottom diameter of the tank and the diameter of the tank at the top of the liquid. Then add these two diameters, divide the sum by 2, multiply the quotient by itself and by 0.0034 and by the depth in inches of the liquid. The result will be the gallons of liquid contained in the tank. What are the liquid contents of the above tank if the depth of the wine in it is 75 inches?

(120 − 108) ÷ 100 = 0.12 inch, decrease in diameter per inch.

0.12 × 75 = 9 inches, difference between the bottom and top of wine.

120 − 9 = 111 inches, diameter at top of wine.

(111 + 120) ÷ 2 = 115.5 inches, mean diameter.

115.5 × 115.5 × 0.0034 × 75 = 3,402 gallons, contents.

§ 240.1025 *Round tanks or casks bulged in the middle.* The capacities of casks bulged in the middle can best be determined by filling them with liquid and measuring such liquid (1) with an accurate meter, or (2) in a measuring tank or in a tank of uniform dimensions. The following rule while not mathematically correct may be used in taking inventories of such casks: Ascertain the inside head and middle diameters in the manner set forth under directions for finding the capacity of "Round Tanks of Uniform Dimensions, Standing on End." In doing this care should be used to get the true diameter at the head and at the center of the cask. Where the diameters are determined by taking the circumference and dividing same by 3.1416, the measurements should be made in the exact center of the cask and at the heads rather than at the end of the staves in cases where the staves extend beyond the heads. Add to the head diameter two-thirds of the difference between the head and middle diameter (if the staves are only slightly curved, add only six-tenths of the difference); this gives the mean diameter; multiply the mean diameter by itself and by the inside length, where the cask is lying on its side, or inside height where the cask is standing on one head, and by 0.0034. The result will be the capacity of the cask in gallons.

§ 240.1026 *Example.* A wine cask is 64 inches long, the head diameter is 36 inches, and the center diameter is 42 inches. What is the capacity of the cask?

42−36=6 inches difference in diameter.
(⅔ of 6)+36=40 inches mean diameter.
40×40×64×0.0034=348.16 gallons, capacity of cask.

§ 240.1027 *Square or rectangular tanks or vats with perpendicular sides.* (a) To find the capacity multiply the inside length by the inside breadth and by the inside height and divide by 231, the number of cubic inches in a gallon, the result will be the capacity in gallons of the tank or vat. For example, a rectangular tank is 120 inches long, 108 inches wide, and 100 inches deep. What is its capacity?

(120×108×100) ÷231=5,610 gallons, capacity of tank.

(b) To find the capacity per inch of depth multiply the inside length by the inside breadth and divide by 231; the result will be the capacity per inch of depth. For example, what is the capacity per inch of depth of the above tank?

(120×108) ÷231=56.10 gallons, capacity per inch.

(c) To find the liquid contents when partly filled multiply the depth of the wine in inches by the capacity per inch. For examle, what are the liquid contents of the above tank if the depth of the wine in it is 75 inches?

75×56.10=4,207.5 gallons, contents of tank.

§ 240.1028 *Square or rectangular tanks or vats larger at the top than at the bottom, or vice versa.* Find the mean length by adding the top length and the bottom length and dividing by 2. Find the mean width by adding the top width and the bottom width and dividing by 2. Multiply the mean length by the mean width and by the depth and divide by 231. The result will be the capacity of the tank in gallons.

§ 240.1029 *Examples.* (a) A rectangular tank is 120 inches long at the top and 108 inches at the bottom, 100 inches wide at the top and 90 inches at the bottom, and 72 inches deep. What is its capacity?

(120+108)÷2=114 inches, mean length.
(100+90)÷2=95 inches, mean width.
(114×95×72)÷231=3,375.5 gallons, capacity of tank.

(b) To find the contents when partly filled subtract the top length from the bottom length and divide the difference by the depth; the result will be the difference in length per inch of depth. Multiply the depth of the wine in inches by the difference in length per inch of depth to get the difference in length at the top of the wine and at the bottom of the tank. Add this difference to the bottom length to get the length at the top of the wine. Add the length at the top of the wine and the bottom length and divide by 2 to get the mean length. Find the mean width in the same way. Multiply the mean length by the mean width and by the depth of the wine and divide by 231; the result will be the contents of the tank in gallons. For example, what are the liquid contents of the above tank if the depth of the wine in it is 48 inches?

(120−108)÷72=⅙ inch, difference in length per inch of depth.
48×⅙=8 inches, difference in length top of wine.
108+8=116 inches, length at top of wine.
(108+116)÷2=112 inches, mean length.

The mean width is found in the same way:

(100−90)÷72×48=6⅔ inches, difference in width at top of wine.
(90+6⅔+90)÷2=93⅓ inches, mean width.
(112×93⅓×48)÷231=2,172 gallons, contents of tank.

[F. R. Doc. 54-9419; Filed, Nov. 24, 1954; 2:36 p. m.]

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 907]

[Docket No. AO 212-A8]

HANDLING OF MILK IN THE MILWAUKEE, WISCONSIN, MARKETING AREA

DECISION WITH RESPECT TO A PROPOSED MARKETING AGREEMENT AND A PROPOSED ORDER AMENDING THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Milwaukee, Wisconsin, on July 23, 1954, pursuant to notice thereof which was issued on July 15, 1954 (19 F. R. 4478).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Acting Deputy Administrator, Agricultural Marketing Service on October 26, 1954, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision with respect to certain issues, and an opportunity to file written exceptions thereto. This recommended decision was published in the FEDERAL REGISTER on October 29, 1954 (19 F. R. 6972).

A previous recommended decision (19 F. R. 4998) filed on August 4, 1954, with the Hearing Clerk and a decision of the Secretary filed on August 16, 1954 (19 F. R. 5267), dealt with the issues of this record for a limited period, and provided that further action on the record would be taken for months after November 1954. This decision deals with the same issues with respect to periods following November 1954.

The material issues, findings and conclusions, and general findings of the recommended decision (F. R. Doc. 54-8538; 19 F. R. 6972), are hereby approved and adopted as the findings and conclusions of this decision as if set forth in full herein, subject to following corrections (paragraphs 1 and 2) and addition (paragraph 3):

1. Delete the last sentence in the first paragraph beginning in column 2, page 6972, and substitute therefor the following: "In recognition of the relationship of the markets, class prices in one should follow closely class prices in the other."

2. In the first paragraph beginning in column 3, page 6972, delete the words "September–November period" and substitute therefor the words, "August–November period."

3. Add the following as the second paragraph in column 3, page 6972:

In the recommended decision of October 26, 1954 (19 F. R. 6972) reference was made to the recent recommended decision on proposed amendments to the Chicago milk order in which it was concluded that (a) the Class II differentials in such market should be 45 cents for the December–July period and 70 cents for the August–November period, and (b) the supply-demand limitation of 24 cents per hundredweight should be continued after November. Such Class II differentials and supply-demand adjustment limitation for the Chicago market have now been affirmed by a final decision on the proposed amendments to the Chicago order.

Ruling on exceptions. There were no exceptions received to the recommended decision.

Determination of representative period. The month of August 1954 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order, as amended, regulating the handling of milk in the Milwaukee, Wisconsin, marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for sale in the marketing area specified in such marketing order, as amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the Milwaukee, Wisconsin, Marketing Area," and "Order Amending the Order, as amended, Regulating the Handling of Milk in the Milwaukee, Wisconsin, Marketing Area," which have been decided upon as the detailed and appropriate means of effectating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 23d day of November 1954.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Milwaukee, Wisconsin, Marketing Area

§ 907.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Milwaukee, Wisconsin, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Milwaukee, Wisconsin, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby amended as follows:

1. In § 907.51 (a) delete the proviso and substitute: "*Provided,* That such Class I price differential shall be increased or decreased, respectively, 3 cents for each full percent that the current supply-demand ratio computed pursuant to paragraph (e) of this section is greater or less than 72 percent, but shall not be increased or decreased more than 24 cents due to the supply-demand ratio."

2. In § 907.51 delete paragraph (b) and substitute:

(b) *Class II milk.* The price for Class II milk shall be the basic formula price plus the following amounts as indicated: August, September, October and November, 70 cents; all other months, 45 cents: *Provided,* That such Class II price differentials shall be adjusted by the amount of any adjustment made in the Class I price differential for the same month pursuant to the proviso of paragraph (a) of this section.

[F. R. Doc. 54-9384; Filed, Nov. 26, 1954; 8:51 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

[7 CFR Part 941]

[Docket No. AO-101-A18]

HANDLING OF MILK IN THE CHICAGO, ILLINOIS, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER AMENDING THE ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at Chicago, Illinois, on June 1–4, 7–11, and 14–15, pursuant to notice thereof which was issued on May 20, 1954 (19 F. R. 3028).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Deputy Administrator, Agricultural Marketing Service, on October 22, 1954 (19 F. R. 6929) filed with the Hearing Clerk, United States Department of Agriculture, a recommended decision with respect to certain issues, and an opportunity to file written exception thereto.

A previous recommended decision (19 F. R. 4730) filed on July 28, 1954, by the Deputy Administrator of the Agricultural Marketing Service, and a decision by the Secretary on August 16, 1954 (19 F. R. 5268), dealt with issue No. 1, as listed herein, and certain aspects of issues No. 2 and No. 3. The recommended decision issued on October 22, 1954, dealt with the remaining matters under issues numbered 2 through 16, except for issue No. 5 (prices for milk picked up at the farm by tank trucks), on which action is deferred.

The material issues, findings and conclusions, and general findings of the recommended decision (19 F. R. 6929; F. R. Doc. 54-8476) are hereby approved and adopted as the findings and conclusions of this decision as if set forth in full herein, except as follows:

1. Delete the fifth paragraph beginning in column 2, page 6931 and substitute therefor the following:

The Class I price differentials should be revised but without significant change in their annual average.

2. Delete the 4th and 5th paragraphs beginning in column 3, page 6931 and substitute therefor the following:

The schedule of Class I differentials contained in the recommended decision were $1.10 for the months of August through November and 80 cents for other months. However, the producer association which submitted the original proposal and an association of handlers representing a large proportion of the milk marketed filed exceptions to the schedule of Class I differentials proposed in the recommended decision and requested a different seasonal pattern of differentials which would result in the same annual average. The differentials requested would be $1.10 through August–November, 70 cents March through June, and 90 cents for other months. It was indicated that the latter seasonal pattern would be preferable to that proposed in the recommended decision because it would result in a maximum change of 20 cents in the differential from any one month to another and a price level in the flush production months more nearly competitive with prices locally paid in those out-of-area markets where Chicago handlers have regular sales of Class I milk. Upon review, it is concluded that the latter pattern of differentials will be appropriate under present market conditions and in relation to other order provisions.

3. In the second line of the second full paragraph beginning on page 6937 delete the words "Class I price" and substitute "class prices."

4. After the first full paragraph beginning in the second column on page 6937 insert a paragraph as follows: "In § 941.50, the exception applying to May, June, and July 1954, is obsolete and should be deleted."

Rulings on exceptions. In arriving at the findings and conclusions included in this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions herein are at variance with the exceptions, such exceptions are overruled.

Determination of representative period. The month of August 1954 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, now in effect, regulating the handling of milk in the Chicago, Illinois, marketing area, in the manner set forth in the attached amending order is approved or favored by producers who, during such period, were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Marketing agreements and orders. Annexed hereto and made a part hereof are documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Chicago, Illinois, Marketing Area," and "Order Amending the Order, as amended, Regulating the Handling of Milk in the Chicago, Illinois,

Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision except the attached marketing agreement be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 23d day of November 1954.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Order[1] *Amending the Order, as Amended, Regulating the Handling of Milk in the Chicago, Illinois, Marketing Area*

§ 941.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendment thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Upon the basis of the evidence introduced at each hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Chicago, Illinois, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended, as follows:

1. In § 941.7 (b) delete the word "July" and substitute the word "September."

2. In § 941.40 (b) after the words "plastic cream," delete the words "powdered cream."

3. Delete § 941.40 (c) and substitute the following:

(c) Any milk moved as milk, skim milk, or cream in fluid form from a regulated plant to the establishment of a commercial food or drug processor located within the surplus milk manufacturing area or to an unregulated milk plant so located, which milk plant manufactured during the delivery period butter, cheese, evaporated milk, condensed milk or skim milk, whole milk powder, nonfat dry milk solids, casein, powdered ice cream mix, or powdered cream, shall be classified under § 941.41 as follows:

(1) If the unregulated plant or establishment maintains adequate daily records showing the utilization of the milk, skim milk or cream, it shall be classified according to its use;

(2) If the unregulated plant or establishment maintains adequate daily records showing the utilization of all receipts of milk and milk products, and the milk, skim milk or cream received from the regulated plant are commingled with other receipts, the receipts of milk, or skim milk from the regulated plant shall be allocated according to such daily records, to the available quantity of Class III (a) milk, Class III milk, Class IV milk, Class II milk and Class I milk in that sequence; and any such receipts of cream from the regulated plant shall be allocated to Class IV milk, Class III milk, Class III (a) milk, Class II milk and Class I milk in that sequence;

(3) If such unregulated plant or establishment does not make available to the market administrator adequate utilization records on a daily basis, but does make available to the market administrator adequate utilization records on a monthly basis, the milk or skim milk received from the regulated plant shall be allocated to the available quantity of Class I milk, Class II milk, Class III milk, Class III (a) milk and Class IV milk, in that sequence; and the cream received from a regulated plant shall be allocated to the available quantities of Class II milk, Class III milk, Class III (a) milk, Class IV milk and Class I milk, in that sequence;

(4) If the unregulated plant or establishment described in subparagraphs (1), (2) and (3) of this paragraph, disposes of milk, skim milk or cream in bulk to another unregulated milk plant located within the surplus milk manufacturing area which is engaged in manufacturing one of the products named in this paragraph, the classification of such milk, skim milk or cream shall be ascertained at the second unregulated milk plant in the manner prescribed in subparagraphs (1), (2) or (3) of this paragraph whichever would be applicable to the second unregulated plant; and

(5) If the unregulated plant or establishment described in subparagraphs (1), (2) or (3) of this paragraph, disposes of milk, skim milk or cream in bulk to another unregulated plant located within the surplus milk manufacturing area which is not engaged in manufacturing one of the products named in this paragraph, such milk moved as milk or skim milk shall be classified as Class I milk, and such milk moved as cream in fluid form shall be classified as Class II milk.

4. In § 941.41 (b) after the words "plastic cream," delete the words "powdered cream," and after the words "ice cream mix (liquid" delete the words "or powder."

5. In § 941.51 delete paragraph (d).

6. In § 941.52 (d) delete subparagraph (4).

7. Delete § 941.52 (a) (1) and substitute the following:

(1) The price for Grade A Class I milk, except as set forth in subparagraph (3) of this paragraph, shall be the basic formula price plus the following amount for the delivery periods indicated: August, September, October, and November, $1.10; December, January, February, and July, $0.90; all others, $0.70: *Provided*, That such Class I price differential shall be increased or decreased, respectively, 3 cents for each full percent that the current supply-demand ratio is greater or less than 72 percent, but shall not be increased or decreased more than 24 cents because of the supply-demand ratio.

8. Delete § 941.52 (b) (1) and substitute the following:

(1) The price for Grade A Class II milk, except as set forth in subparagraph (3) of this paragraph, shall be the basic formula price plus the following amount for the delivery periods indicated: August, September, October, and November, $0.70; all others, $0.45: *Provided*, That such Class II price differential shall be adjusted by the amount of any adjustment made in the Class I price differential for the same delivery period pursuant to the proviso of paragraph (a) (1) of this section.

9. In § 941.52 delete paragraph (c) and substitute:

(c) *Class III milk.* The price per hundredweight for Class III milk shall be the higher of the prices resulting from the formula set forth in paragraph (d) of this section and the average (adjusted to the nearest full cent) of the prices per hundredweight reported to have been paid, or to be paid, for such delivery period to farmers for milk containing 3.5 percent butterfat delivered during such delivery period at each of the following listed manufacturing plants or places for which prices are reported to the United States Department of Agriculture or to the market administrator: *Provided*, That the price resulting from the formula set forth in this paragraph shall apply at all times to Class III (a) milk.

Companies and Location

Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.

10. In § 941.52 (d) (3) delete the period at the end of the sentence and add the following: "and adjust to the nearest full cent."

11. In § 941.60 delete the words "and from other handlers."

12. In § 941.67 (a) (1) (i) after the words "skim milk" insert the words "concentrated milk, condensed skim milk."

13. In § 941.71 (f) delete the words "4 cents nor more than 5 cents." and substitute therefor the words "6 cents nor more than 7 cents."

14. In § 941.50 change the comma just preceding the word "except" to a period, and delete the rest of the sentence.

[F. R. Doc. 54-9383; Filed, Nov. 26, 1954; 8:51 a. m.]

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

[7 CFR Part 970]

IRISH POTATOES GROWN IN MAINE

NOTICE OF PROPOSED EXPENSES AND RATES OF ASSESSMENT

Notice is hereby given that the Secretary of Agriculture is considering the approval of the establishment of the dates for fiscal periods and of the expenses and rates of assessment hereinafter set forth which were recommended by the Maine Potato Administrative Committee established pursuant to Marketing Agreement No. 122 and Order No. 70 (7 CFR Part 970; 19 F. R. 5469), regulating the handling of Irish potatoes grown in the State of Maine, issued under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.).

Consideration will be given to any data, views, or arguments, pertaining thereto, which are filed in triplicate with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington 25, D. C., not later than 15 days following publication of this notice in the FEDERAL REGISTER. The proposals are as follows:

§ 970.201 *Fiscal period.* The initial fiscal period shall begin on the effective date of this part, August 30, 1954, and end July 31, 1955, both dates inclusive. Thereafter, each fiscal period shall begin on August 1 of each year and end July 31 of the following year, both dates inclusive.

§ 970.202 *Expenses and rates of assessment.* (a) The reasonable expenses that are likely to be incurred by the Maine Potato Administrative Committee, established pursuant to Marketing Agreement No. 122 and Order No. 70, to enable such committee to perform its functions pursuant to the provisions of the aforesaid marketing agreement and order, during the fiscal period ending July 31, 1955, will amount to $49,895.00.

(b) The rates of assessment to be paid by each handler pursuant to Marketing Agreement 122 and Order No. 70, shall be $1.25 per car, or equivalent thereof, 80 cents per truck load of 25,000 pounds and more, and 50 cents per truck load of less than 25,000 pounds, handled by him as the first handler thereof during said fiscal period.

(c) The terms used in this section shall have the same meaning as when used in Marketing Agreement No. 122 and Order No. 70.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 22d day of November 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 19]

CHEESES; PROCESSED CHEESES; CHEESE FOODS; CHEESE SPREADS; AND RELATED FOODS; DEFINITIONS AND STANDARDS OF IDENTITY

NOTICE OF PROPOSAL TO AMEND DEFINITIONS AND STANDARDS OF IDENTITY FOR CERTAIN CHEESES AND RELATED PRODUCTS

In the matter of amending the definitions and standards of identity for muenster cheese, munster cheese; monterey cheese; pasteurized process cheese food; pasteurized process cheese food with fruits, vegetables, or meats; pasteurized process cheese spread; pasteurized cheese spread; pasteurized process cheese spread with fruits, vegetables, or meats; pasteurized cheese spread with fruits, vegetables, or meats; cold-pack cheese food; and cold-pack cheese food with fruits, vegetables, or meats:

Notice is hereby given that a petition has been filed by the National Cheese Institute, Inc., whose members include manufacturers of cheeses and processed cheeses and assemblers, wholesalers, and distributors of all types of cheese, setting forth proposals to amend the definitions and standards of identity for the cheeses, cheese spreads, and cheese foods enumerated above. Pursuant to the authority of the Federal Food, Drug, and Cosmetic Act (sec. 401, 52 Stat. 1046, as amended by 68 Stat. 54; 21 U. S. C. 341), the Secretary of Health, Education, and Welfare invites all interested persons to present their views in writing regarding the proposals published in this notice, and to submit such comments in quintuplicate prior to the thirtieth day following the publication of this notice in the FEDERAL REGISTER. Written comments should be addressed to the Hearing Clerk, Department of Health, Education, and Welfare, Room 5440, Health, Education, and Welfare Building, Washington 25, D. C.

A. The petitioner's proposals are as follows:

1. It is proposed that § 19.550 *Muenster cheese, munster cheese; identity* be amended in the following respects:

a. In paragraph (a), first sentence, delete the word "pasteurized". The first sentence will then read: "Muenster cheese, munster cheese, is the food prepared from milk and other ingredients specified in this section, by the procedure set forth in paragraph (b) of this section, or by another procedure which produces a finished cheese having the same physical and chemical properties as the cheese produced when the procedure set forth in paragraph (b) of this section is used."

b. In paragraph (a), last sentence, change the number "46" to "45". The last sentence will then read: "It contains not more than 45 percent of moisture, and its solids contain not less than 50 percent of milk fat, as determined by the methods prescribed in § 19.500 (c)."

c. At the end of paragraph (a), add a new sentence reading: "If the milk used is not pasteurized, the cheese so made is cured at a temperature of not less than 35° F. for not less than 60 days."

d. In paragraph (b), first sentence, change the words "is pasteurized" to "may be pasteurized". The first sentence will then read: "Milk, which may be pasteurized or clarified or both, and which may be warmed, is subjected to the action of harmless lactic-acid-producing bacteria, present in such milk or added thereto."

2. It is proposed that § 19.580 *Monterey cheese; identity* be amended in the following respects:

a. In paragraph (a), delete the second sentence reading: "Monterey cheese is made in sizes not exceeding 12 pounds in weight."

b. In paragraph (b), change the fifth and sixth sentences to read: "The curd is drained and placed in a muslin or sheeting cloth, formed into a ball, and pressed; or the curd is placed in a cheese hoop and pressed. Later, the cloth bandage is removed, and the cheese may be covered with paraffin or dipped in vegetable oil, and may have rice flour sprinkled on the surface."

3. It is proposed that in § 19.765 *Pasteurized process cheese food; identity; label statement of optional ingredients*, paragraph (d) be amended by adding "skim-milk cheese for manufacturing" to the list of optional dairy ingredients. The paragraph would then read as follows:

(d) The optional dairy ingredients referred to in paragraph (a) of this section are cream, milk, skim milk, cheese whey, or any mixture of two or more of

these, or any of the foregoing from which part of the water has been removed, albumin from cheese whey, and skim-milk cheese for manufacturing.

4. It is proposed that in § 19.775 *Pasteurized process cheese spread; identity; label statement of optional ingredients*, paragraph (d) be amended by adding "skim-milk cheese for manufacturing" to the list of optional dairy ingredients. The paragraph would then read as follows:

(d) The optional dairy ingredients referred to in paragraph (a) of this section are cream, milk, skim milk, cheese whey, or any mixture of two or more of these, or any of the foregoing from which part of the water has been removed, albumin from cheese whey, and skim-milk cheese for manufacturing.

5. It is proposed that in § 19.787 *Cold-pack cheese food; identity; label statement of optional ingredients*, paragraph (d) be amended by adding "skim-milk cheese for manufacturing" to the list of optional dairy ingredients. The paragraph would then read as follows:

(d) The optional dairy ingredients referred to in paragraph (a) of this section are: Cream, milk, skim milk, cheese whey, or any mixture of two or more of these or any of the foregoing from which part of the water has been removed, skim-milk cheese for manufacturing, and albumin from cheese whey. All optional dairy ingredients used in cold-pack cheese food are pasteurized or made from products which have been pasteurized.

B. The proposed amendments outlined in 3, 4, and 5 would likewise amend the definitions and standards of identity for pasteurized process cheese food with fruits, vegetables, or meats; pasteurized cheese spread; pasteurized process cheese spread with fruits, vegetables, or meats; pasteurized cheese spread with fruits, vegetables, or meats; and cold-pack cheese food with fruits, vegetables, or meats by permitting skim-milk cheese for manufacturing as an optional dairy ingredient. (See §§ 19.770, 19.776, 19.780, 19.781, 19.788, 21 CFR, 1953 Supp.)

The National Cheese Institute also submitted proposals which would permit the bleaching of milk used for making several varieties of cheese and permit the artificial coloring of swiss cheese. These proposals are not published at this time. Additional information has been requested as to the facts that would warrant a conclusion that such proposals would promote honesty and fair dealing in the interest of consumers.

Dated: November 22, 1954.

[SEAL] OVETA CULP HOBBY,
Secretary.

FEDERAL POWER COMMISSION

[18 CFR Part 154]

[Docket No. R-142]

FIXING OF RATES TO BE CHARGED BY INDEPENDENT PRODUCERS FOR NATURAL GAS SOLD IN INTERSTATE COMMERCE FOR RESALE

CONSIDERATION OF PRINCIPLES AND METHODS TO BE APPLIED

NOVEMBER 17, 1954.

1. Notice is hereby given that the Federal Power Commission has under consideration principles and methods to be applied in the fixing of rates to be charged by independent producers of natural gas sold in interstate commerce for resale, or transported in interstate commerce.

2. Necessary to a determination of the rates permitted by the Natural Gas Act to be made, demanded or received by a natural-gas company is the choice of methods to be used in determining the just and reasonable rate for any particular sale. The Commission, recognizing the basic differences between the operations of a producer and those of a pipe-line company, is desirous of securing any information, suggestions or proposals bearing upon the possible effect the several approaches might have upon the public interests towards which the Natural Gas Act is directed.

3. The Commission, therefore, is inviting the submission of suggestions as to the principles and methods to be applied by it in its regulation of the rates to be charged by independent producers for the transportation or sale of natural gas subject to the jurisdiction of the Commission. It does not desire and will not consider in this connection any further argument on matters of jurisdiction, since for this purpose it assumes that the question of jurisdiction is not involved. The Commission requests that there be no reargument of the legal questions decided by the United States Supreme Court on June 7, 1954 in Phillips Petroleum Company v. Wisconsin et al., 347 U. S. 672.

4. This is a matter of national importance and the Commission invites members of the industry, producers, gatherers, interstate pipeline companies, distributors, consumers, groups and associations representative thereof, State commissions, municipalities, and any other interested persons to submit information, data, views, comments or suggestions in writing concerning the problem. Submittals should be addressed to the Secretary, Federal Power Commission, Washington 25, D. C., for receipt not later than December 13, 1954. An original and nine copies of submittals should be filed.

5. Oral argument on these matters will be held before the Commission on December 15, 1954, at 10:00 a. m., e. s. t., in the Commission's Hearing Room, 441 G Street NW., Washington, D. C. Any person desiring to participate in the oral argument shall notify the Secretary of the Commission on or before December 3, 1954 of such intention and of the amount of time desired for presentation of argument.

[SEAL] J. H. GUTRIDE,
Assistant Secretary.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

NOVEMBER 17, 1954.

An application, serial number Anchorage 022363, for the withdrawal from all forms of appropriation under the public land laws, of the lands described below was filed on September 8, 1952, by Civil Aeronautics Administration, Department of Commerce. The purposes of the proposed withdrawal: Maintenance of a radio communication repeater station near Lena Point about 17 miles northwest of Juneau, Alaska.

For a period of 30 days from the date of publication of this notice, persons having cause to object to the proposed withdrawal may present their objections in writing to the Area Administrator, Area 4, Bureau of Land Management, Department of the Interior at Box 480, Anchorage, Alaska. In case any objection is filed and the nature of the opposition is such as to warrant it, a public hearing will be held at a convenient time and place, which will be announced, where opponents to the order may state their views and where proponents of the order can explain its purpose.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER, either in the form of a public land order or in the form of a Notice of Determination if the application is rejected. In either case, a separate notice will be sent to each interested party of record.

The lands involved in the application are:

Beginning at a point about 3.90 chs. (257.4 ft.) north of the north side of the Lena Point Road, at corner No. 7, U. S. Survey No. 2871; thence N. 86° 24' W., 7.925 chs. (523.05 ft.) to Cor. No. 6, U. S. Survey No. 2871; thence S. 00° 02' E., 2.985 chs. (197.01 ft.) to Cor. No. 5, U. S. Survey No. 2871; thence S. 61° 12' W., 0.395 chs. (26.07 ft.) to Cor. No. 4, U. S. Survey No. 2871; thence S. 00° 45' E., 0.037 chs. (2.44 ft.) on line 3-4, U. S. Survey No. 2871 to a point 50 ft. from the center line of Lena Point Road; thence N. 87° 11' W., 15.70 chs. (1,036.20 ft.); thence North 30.713 chs. (2,027.06 ft.) to intersection with line 3-4, U. S. Survey No. 3264, thence S. 63° 31' 30" E., 3.765 chs. (248.49 ft.) to Cor. No. 3, U. S. Survey No. 3264; thence N. 82° 51' E., 11.812 chs. (779.59 ft.) to cor. No. 2, U. S. Survey No. 3264; thence N. 13° 31' W., 0.92 chs. (60.72 ft.) on line 2-1, U. S. Survey No. 3264; thence East 21.011 chs. (1,386.73 ft.); thence South 28.41 chs. (1,875.06 ft.); thence S. 85° 00' W., 12.00 chs. (792.00 ft.) to cor. No. 7, U. S. Survey No. 2871, and point of beginning, comprising 105.96 acres, more or less.

LOWELL M. PUCKETT,
Area Administrator,
Area 4, Alaska.

CALIFORNIA

REDELEGATIONS OF AUTHORITY TO SPECIFIED CLASSES OF EMPLOYEES

NOVEMBER 19, 1954.

Pursuant to authority of Departmental Order 2583, as amended, and Order No. 541, of the Director of the Bureau of Land Management, as amended, the following redelegations of authority are made, to become effective immediately upon publication of this notice in the FEDERAL REGISTER. The authority delegated herein, may not be redelegated.

PART I—GOVERNMENT CONTESTS

SECTION 1. (a) The State Lands and Minerals Staff Officer, the Officer in charge of the Southern Field Group, Los Angeles and the Officer in charge of the Northern Field Group, Sacramento, may initiate Government Contests against claims asserted to public lands and take all necessary actions involving the prosecution of such contests except the presentation of the Government's case at the hearings.

PART II—CLASSIFICATION AND WITHDRAWALS

SECTION 1. (a) The State Lands and Minerals Staff Officer, the Officer in charge of the Southern Field Group, Los Angeles, and the Officer in charge of the Northern Field Group, Sacramento, may take all actions authorized by section 2.5 of Order 541 of Director of Bureau of Land Management.

PART III—MINERALS

SECTION 1. (a) The State Lands and Minerals Staff Officer, the Officer in charge of the Southern Field Group, Los Angeles, and the Officer in charge of the Northern Field Group, Sacramento, may take all actions authorized by section 2.6 of Order 541 of the Director of Bureau of Land Management.

L. T. HOFFMAN,
State Supervisor.

DEPARTMENT OF AGRICULTURE

Commodity Stabilization Service

FIRE-CURED AND DARK AIR-CURED TOBACCO

MARKETING QUOTA REFERENDUM

The Secretary of Agriculture has duly proclaimed, pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, a national marketing quota for fire-cured tobacco and a national marketing quota for dark air-cured tobacco for the marketing year beginning October 1, 1955. A referendum of farmers who were engaged in the production of the 1954 crop of fire-cured tobacco and a referendum of farmers who were engaged in the production of the 1954 crop of dark air-cured tobacco will be held pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, and applicable regulations, to determine whether such farmers are in favor of or opposed to such quotas and to determine whether such farmers are in favor of or opposed to fire-cured and dark air-cured tobacco marketing quotas for the three-year period beginning October 1, 1955.

Registration. The operator on each farm on which fire-cured or dark air-cured tobacco was produced in 1954 should inform his ASC county office of the names and addresses of all persons sharing in the proceeds of such crop in order that their names may be listed on the register of eligible voters. The eligibility to vote of any person may be challenged if his name is not recorded on the registration list.

Eligibility to vote. 1. All persons engaged in the production of the 1954 crop of fire-cured tobacco are eligible to vote in the fire-cured tobacco marketing quota referendum and farmers who were engaged in the production of the 1954 crop of dark air-cured tobacco are eligible to vote in the dark air-cured tobacco marketing quota referendum. Any person who shares in the proceeds of the 1954 crop of fire-cured or dark air-cured tobacco as owner (other than a landlord of a standing-rent or fixed-rent tenant), tenant, or share cropper, is considered as engaged in the production of such crop of tobacco in 1954.

2. If several members of the same family participate in the production of the 1954 crop of fire-cured or dark air-cured tobacco on a farm, the only member or members of such family who shall be eligible to vote shall be the member or members of the family who have an independent bona fide status as operator, share tenant, or share cropper, and are entitled as such to share in the proceeds of the 1954 crop.

3. No person shall be eligible to vote in any community other than the community in which he resides except as follows:

(a) Any person who resides in a community in which there is no polling place shall be eligible to vote at the polling place designated for the community nearest to the community in which he was engaged in the production of fire-cured or dark air-cured tobacco in 1954.

(b) Any person who does not reside in or who will not be present in the county in which he engaged in the production of fire-cured or dark air-cured tobacco in 1954 may obtain a ballot at the most conveniently located polling place and may cast his ballot by signing his name thereto and mailing it to the office of the county committee in which he engaged in the production of tobacco in 1954 not later than the date of the referendum.

4. There shall be no voting by mail (except as provided in paragraph 3 above), by proxy, or by agent, but a duly authorized officer of a corporation, association, or other legal entity, or a duly authorized member of a partnership, may cast its vote.

5. Persons who planted tobacco in the field in 1954 but did not harvest any tobacco on such acreage for any reason except neglect to farm the planted acreage shall be regarded as engaged in the production of tobacco in 1954 and therefore eligible to vote in the referendum. Any farmer who did not plant tobacco in the field shall not be eligible to vote.

6. No person (whether an individual, partnership, corporation, association or other legal entity) shall be entitled to more than one vote in the referendum even though he may have been engaged in the production of tobacco on several farms in the same or in two or more communities, counties, or States in 1954.

7. In the event two or more persons were engaged in producing tobacco in 1954 not as members of a partnership but as tenants in common or joint tenants or as owners of community property, each such person shall be eligible to vote.

Time and place for balloting. The fire-cured tobacco and dark air-cured tobacco marketing quota referenda will be held on Tuesday, December 14, 1954. The place of voting and the hours which the polls will be open for voting in each community will be announced by the ASC County Committee.

Done at Washington, D. C., this 22d day of November 1954. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 54-9353; Filed, Nov. 26, 1954; 8:47 a. m.]

MARYLAND TOBACCO

MARKETING QUOTA REFERENDUM

The Secretary of Agriculture has duly proclaimed, pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, a national marketing quota for Maryland tobacco for the marketing year beginning October 1, 1955. A referendum of farmers who were engaged in the production of the 1954 crop of Maryland tobacco will be held pursuant to the provisions of the Agricultural Adjustment Act of 1938, as amended, and applicable regulations, to determine whether such farmers are in favor of or opposed to such quota and to determine whether such farmers are in favor of or opposed to Maryland tobacco marketing quotas for the three-year period beginning October 1, 1955.

Registration. The operator on each farm on which Maryland tobacco was produced in 1954 should inform his ASC county office of the names and addresses of all persons sharing in the proceedings of such crop in order that their names may be listed on the register of eligible voters. The eligibility to vote of any person may be challenged if his name is not recorded on the registration list.

Eligibility to vote. 1. All persons engaged in the production of the 1954 crop of Maryland tobacco are eligible to vote in the referendum. Any person who shares in the proceeds of the 1954 crop of Maryland tobacco as owner (other than a landlord of a standing-rent or fixed-rent tenant), tenant, or share cropper, is considered as engaged in the production of such crop of tobacco in 1954.

2. If several members of the same family participate in the production of the 1954 crop of Maryland tobacco on a farm, the only member or members of such family who shall be eligible to vote shall be the member or members of the family who have an independent bona fide status as operator, share tenant, or share cropper, and are entitled as such to share in the proceeds of the 1954 crop.

3. No person shall be eligible to vote in any community other than the community in which he resides except as follows:

(a) Any person who resides in a community in which there is no polling place shall be eligible to vote at the polling place designated for the community nearest to the community in which he was engaged in the production of Maryland tobacco in 1954.

(b) Any person who does not reside in or who will not be present in the county in which he engaged in the production of Maryland tobacco in 1954 may obtain a ballot at the most conveniently located county committee office and may cast his ballot by signing his name thereto and mailing it so that the ballot reaches the county committee for the county in which he engaged in the production of tobacco in 1954 not later than the closing hour on the date of the referendum.

4. There shall be no voting by mail (except as provided in paragraph 3 above), by proxy, or by agent, but a duly authorized officer of a corporation, association, or other legal entity or a duly authorized member of a partnership, may cast its vote.

5. Persons who planted tobacco in the field in 1954 but did not harvest any tobacco on such acreage for any reason except neglect to farm the planted acreage shall be regarded as engaged in the production of tobacco in 1954 and therefore eligible to vote in the referendum. Any farmer who did not plant tobacco in the field shall not be eligible to vote.

6. No person (whether an individual, partnership, corporation, association, or other legal entity) shall be entitled to more than one vote in the referendum even though he may have been engaged in the production of tobacco on several farms in the same or in two or more communities, counties, or States in 1954.

7. In the event two or more persons were engaged in producing tobacco in 1954 not as members of a partnership but as tenants in common or joint tenants or as owners of community property, each such person shall be eligible to vote.

Time and place for balloting. The Maryland tobacco marketing quota referendum will be held on Friday, December 17, 1954. The place of voting and the hours which the polls will be open for voting in each community will be announced by the ASC County Committee.

Done at Washington, D. C., this 22d day of November 1954. Witness my hand and the seal of the Department of Agriculture.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

Farmers Home Administration

DESIGNATION OF ACTING OFFICIALS

Pursuant to authority vested in me in section 116 of the order of the Acting Secretary of Agriculture dated December 24, 1953 (19 F. R. 74), regulations of the Administrator of the Farmers Home Administration dated December 29, 1948, authorizing the designation of acting officials of the Farmers Home Administration (13 F. R. 9378) are hereby revised to read as follows:

I. *Authorities.* The following officials of the Farmers Home Administration are authorized to designate acting officials for positions as indicated:

A. *Offices Other Than State and County Offices.* 1. The Administrator will designate the Acting Administrator and acting officials for any other position on his immediate staff.

2. The official in charge of each organizational unit of the National Office in Washington, D. C., and St. Louis, Missouri, is authorized to designate a subordinate employee to serve in an acting capacity in the position of such official.

B. *State and County Offices.* The State Director is authorized to designate an Acting State Director and acting officials for any other position under his jurisdiction.

C. *County Offices Under County Supervisor-Appraisers.* County Supervisor-Appraisers also are authorized to designate Assistant County Supervisors to serve as Acting County Supervisors during the temporary absences of the County Supervisor-Appraiser from the County Office for more than one work day on official business or leave of absence.

II. *Authority of Acting Officials—A. Extent of Authority.* The employee designated to act in a position will have all rights, privileges, duties, and powers delegated to the position of the regular incumbent, including the authority to execute documents incident thereto, provided that this will not include (1) authorities delegated or redelegated to the regular incumbent of the position by special delegation or redelegation (delegations to individuals by name), or (2) appraisal functions in designations of Acting County Supervisors by County Supervisor-Appraisers.

B. *Duration of Designations.* Designations by County Supervisor-Appraisers of Acting County Supervisors will remain in effect until revoked in writing. Other designations will contain their termination date.

C. *Signature of Acting Official.* Documents executed by acting officials in their acting capacity will be signed in their own names, using their temporary titles; for example, "Acting State Director" or "Acting County Supervisor."

III. *Authority of Regular Incumbent.* During the period of the designation of an acting official, the regular incumbent of the position is not divested of the rights, privileges, duties, and powers delegated to his position, and he may exercise any of the authorities delegated to his position, or specially delegated or redelegated to him, provided he is in a duty status at the time. This includes official travel status, and return to duty status during a period of approved leave.

(R. S. 161; 5 U. S. C. 22)

Issued this 18th day of November 1954.

R. B. MCLEAISH,
Administrator.
Farmers Home Administration.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 10379, 11014; FCC 54-1420]

KEY BROADCASTING SYSTEM, INC., AND WAVZ BROADCASTING CORP. (WAVZ)

ORDER AMENDING ISSUES

In re applications of Key Broadcasting System, Incorporated, Bay Shore, New York, Docket No. 10379, File No. BP-8422; the WAVZ Broadcasting Corporation (WAVZ), New Haven, Connecticut, Docket No. 11014, File No. BP-8944; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of November 1954;

The Commission having under consideration a petition filed August 31, 1954, by the Chief, Broadcast Bureau requesting amendment of the hearing issues to take into account the recent changes in the "10 percent rule" as set out in § 3.28 (c) of the rules and to determine whether the proposal of WAVZ Broadcasting Corporation would be in compliance therewith; and having also under consideration the WAVZ opposition filed September 9, 1954;

It appearing, that the amendment of the "10 percent rule," which is the basis of the Bureau's petition, was released subsequent to the time the instant applications were designated for hearing, and that the instant petition was filed and the amendment became effective before any hearings in the proceeding had been held;

It further appearing, that the circumstances differ significantly from those in Latrobe Broadcasters where the original hearing had been held and completed, the record reopened, and the additional hearings completed at the time the Broadcast Bureau's petition to alter the issues and reopen the record to determine compliance with § 3.28 (c) came before the Commission for consideration; and it also appearing that in that case, unlike the present one, the Commission had before it a request for waiver of the rules which was granted for the reasons set forth in the order adopted this date;

It further appearing, that full justification for promulgation of the amended "10 percent rule" and its application to situations like that before us in the instant case has been set out in the Commission's Report and Order released August 11, 1954 in Docket No. 10509 (10 Pike & Fischer RR 1595) and the Memorandum Opinion and Order released November 1, 1954 (FCC 54-1354) in the same proceeding, denying the petition of Western Broadcasting Company, Inc., for a partial stay of the effectiveness of the amended rule;

It further appearing, that the Broadcast Bureau has shown good cause for the late filing of the subject petition to amend the issues;

It is ordered, That the petition of the Broadcast Bureau for amendment of the hearing issues is granted, and the hearing issues are amended by deleting existing Issue No. 7 and substituting the following new Issue No. 7:

7. To determine whether a grant of the application of WAVZ Broadcasting Corporation would be consistent with §§ 3.24 (b) and 3.28 (c) (3) of the Commission's rules.

Released: November 22, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-9371; Filed, Nov. 26, 1954; 8:49 a. m.]

[Docket Nos. 11126, 11127; FCC 54-1412]

MILDRED V. ERNST AND THERMOPOLIS BROADCASTING CO., INC.

ORDER DESIGNATING APPLICATIONS FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Mildred V. Ernst, Thermopolis, Wyoming, Docket No. 11126, File No. BP-9194; Thermopolis Broadcasting Company, Inc., Thermopolis, Wyoming, Docket No. 11127, File No. BP-9294; for construction permits.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 17th day of November 1954;

The Commission having under consideration the above-entitled applications for identical facilities of 1240 kilocycles, 250 watts, unlimited time at Thermopolis, Wyoming; and

It appearing, that both applicants are legally, financially, technically and otherwise qualified to operate the proposed stations; and

It further appearing, that both applications were designated for hearing on August 4, 1954, on issues of whether the proposed operations would cause interference to Station KRAL, Rawlins, Wyoming, and would provide the recommended minimum of interference-free service within their normally protected daytime contours (0.5 mv/m) and that the licensee of Station KRAL was made a party to the proceeding;

It further appearing, that on October 6, 1954, the Commission granted a petition filed by the Thermopolis Broadcasting Company, Inc., for leave to amend its application to specify a frequency of 1050 kilocycles in lieu of 1240; removed the said application from the hearing docket; and retained the application of Mildred V. Ernst in hearing; and

It further appearing, that on October 19, 1954 the Commission granted a petition filed by Mildred V. Ernst for leave to amend her application to submit engineering measurements showing that her proposed operation would cause no interference to Station KRAL and would comply with § 3.28 (c) of the Commission's rules and regulations; and the said application was removed from the hearing docket for further study in light of the

measurements contained in the amendment; and

It further appearing, that the licensee of Station KRAL withdrew its objections to a grant of the application of Mildred V. Ernst because the aforementioned amendment indicated no interference to KRAL; and

It further appearing, that on October 27, 1954, the Thermopolis Broadcasting Company, Inc. amended its application to again request the use of 1240 kilocycles in lieu of 1050; and

It further appearing, that the Commission has made a determination that the above-referenced measurements submitted in the amendment to the application of Mildred V. Ernst are insufficient to show that the subject proposals would not cause interference to Station KRAL; and

It further appearing, that the subject applications are mutually exclusive and that both proposals would cause interference to Station KRAL, Rawlins, Wyoming; and

It further appearing, that the Commission, after consideration of the foregoing, is of the opinion that the subject applications must be redesignated for hearing;

It is ordered, That, pursuant to section 309 (b) of the Communications Act, as amended, the said applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed stations and the availability of other primary service to such areas and populations.

2. To determine whether the operation of the proposed stations would involve objectionable interference with Station KRAL, Rawlins, Wyoming, and, if so, the nature and extent thereof, the areas and population affected thereby, and the availability of other primary service to such areas and population.

3. To determine on a comparative basis, which of the operations proposed in the above-entitled applications would better serve the public interest, convenience and necessity in the light of the evidence adduced and the record made with respect to the significant differences between the two applicants as to:

(a) The background and experience of each of the above-named applicants to own and operate the proposed station.

(b) The proposals of each of the above-named applicants with respect to the management and operation of the proposed station.

(c) The programming service proposed in each of the above-mentioned applications.

It is further ordered, That Rawlins Broadcasting Company, licensee of Station KRAL, Rawlins, Wyoming, is made a party to the proceeding.

Released: November 22, 1954.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

HARLINGEN RADIO SYSTEM

ORDER CONTINUING HEARING

In re application of W. R. Carmean, d/b as Harlingen Radio System, Harlingen, Texas, Docket No. 11208, File No. 2243-C2-P-54; for construction permits for base station and associated mobile units in the Domestic Public Land Mobile Radio Service.

The Commission having before it a motion filed by applicant November 15, 1954, requesting that the hearing herein be continued without date; and

It appearing, that applicant intends to file a Petition for Reconsideration and Grant of his application without a hearing and in the event such petition is denied, to request a dismissal of the application; and

It further appearing, that good cause has been shown for a grant of the Motion and no objection thereto has been filed;

It is ordered, This 22d day of November 1954, that the Motion is granted and the hearing herein now scheduled for December 6, 1954, is continued without date.

[SEAL] MARY JANE MORRIS,
Secretary.

[F. R. Doc. 54-9373; Filed, Nov. 26, 1954; 8:49 a. m.]

[Docket No. 11220]

FEDERAL CONTRACTING CO.

ORDER TO SHOW CAUSE

In the matter of Harold Warren, d/b/a Federal Contracting Co., 16247 Hamilton, Highland Park, Michigan; Order to Show Cause why the License for Special Industrial Radio Station KQD 657 should not be revoked.

There being under consideration the matter of certain alleged violations of the Communications Act of 1934, as amended, and the Commission's Rules in connection with the operation of Station KQD 657 licensed to Harold Warren, doing business as Federal Contracting Co.:

It appearing, that on May 20, 1953, Harold Warren was authorized by the Commission to operate one base station and ten mobile units in the Special Industrial Radio Service governed by Part 11 of the Commission's rules, and was assigned the above call sign; and

It further appearing, that Harold Warren wilfully and knowingly operated station KQD 657 in a manner contrary to the public interest, the terms of the license, the law and the Commission's regulations in the following particulars:

(a) Unauthorized communications in violation of § 11.151 of the rules of the Commission were transmitted on several occasions between August 26, 1954, and August 31, 1954;

(b) The station has been operated in the Detroit Standard Metropolitan Area in violation of § 11.501 of the rules of the Commission; and

It further appearing, that the information coming to the attention of the Commission since the Station KQD 657 was licensed, concerning the purpose for which the Station was intended to be utilized, would have warranted the Commission in refusing to grant the license on the original application;

It is ordered, This 17th day of November 1954 pursuant to the provisions of section 312 (c) of the Communications Act of 1934, as amended, that the said Harold Warren, d/b/a Federal Contracting Co., of Highland Park, Michigan show cause why the aforementioned license should not be revoked and appear and give evidence in respect thereto at a hearing[1] to be held before this Commission at Washington, D. C., on the 17th day of January 1955.

It is further ordered, That the Secretary send a copy of this Order by Registered Mail—Return Receipt requested to the said Harold Warren, d/b/a Federal Contracting Co., 16247 Hamilton, Highland Park, Michigan.

Released: November 19, 1954.

FEDERAL POWER COMMISSION

[Docket No. E-6592]

MONONGAHELA POWER CO. ET AL.

NOTICE OF APPLICATION

NOVEMBER 18, 1954.

In the matters of Monongahela Power Company, the West Maryland Power Company, Clinchfield Coal Corporation, Fairfax Electric Company.

Take notice that on November 18, 1954, a joint application was filed with the Federal Power Commission, pursuant to section 203 of the Federal Power Act, by Monongahela Power Company, incorporated in West Virginia, its subsidiary The West Maryland Power Company, incorporated in Maryland, both with their principal offices at Fairmont, West Virginia, Clinchfield Coal Corporation, incorporated in Virginia with its principal office at Dante, Virginia, and its subsidiary Fairfax Electric Company, incorporated in West Virginia with its principal office at Thomas, West Virginia, seeking an order authorizing the acquisition by Monongahela and West Maryland of all of the electric power transmission and distribution facilities of Clinchfield and Fairfax Companies for the aggregate purchase price stated in the application of $35,000; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before December 1, 1954, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Assistant Secretary.

[F. R. Doc. 54-9346; Filed, Nov. 26, 1954; 8:46 a. m.]

[1] Section 1.402 of the Commission's rules provides that in order to have the opportunity to appear before the Commission at the time and place specified in the order to show cause, the licensee shall within thirty (30) days from the date of the receipt of this order submit a written statement informing the Commission whether said licensee will appear at this hearing and present evidence upon the matter specified, or whether the rights to such a hearing are waived. Waiver of the hearing may be accompanied by a statement setting forth the reasons why the licensee believes that an order of revocation should not be issued. A waiver unaccompanied by such a statement will be deemed to be an admission of the allegations specified in the order to show cause. Failure to respond to this order within the above-mentioned thirty (30) day period or failure to appear at the hearing will be deemed to be a waiver of the right to a hearing and an admission of the allegations specified in the order to show cause.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24FW-846]

EBONY PETROLEUM CORP. OF NEVADA, INC.

ORDER SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

NOVEMBER 22, 1954.

I. Ebony Petroleum Corp., of Nevada, Inc., 1408½ South Fifth Street, Las Vegas, Nevada, having filed with the Commission on July 19, 1954, a Notification on Form 1-A relating to a proposed public offering of 200,000 shares of its $1 par value common stock at $1 per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; the Staff of the Commission having informed the issuer by letters dated July 27 and August 6, 1954, that said Notification and the offering circular filed as part thereof did not appear to comply with the terms and conditions of said Regulation A in the respects therein specified; and

II. The Commission having reasonable cause to believe:

A. That the terms and conditions of Regulation A have not been complied with in respect of such Notification, in that the offering circular, dated July 1954, filed as part thereof contains untrue statements of material facts and fails to state material facts necessary in order to make the statements made, in the light of the circumstances under which they are made, not misleading, particularly with respect to the following:

1. The accuracy of the statement in next to the last paragraph of page 1 of said offering circular that the company holds leases to: 1,222.95 acres in Newton County, 689.25 acres in Jasper County, and 429.00 acres in Liberty County, all in the State of Texas;

2. The failure to disclose the status of leases held by the company and the amount of royalties or encumbrances to which such leases are subject;

3. The failure to disclose that sales have been made in violation of section 5 of the Securities Act of 1933 and at prices lower than the offering price specified in the offering circular;

4. The failure to reflect correctly in the financial statement which is undated and which was filed as a part of the offering circular, the financial condition of the issuer as required by Rule 219 (c) (6) in that, among other things: (a) the assets of the company as stated cannot be reconciled; (b) the capital account cannot be reconciled and does not show the classes of stock, the number of shares of each class authorized, or the number of shares of each class outstanding; (c) cash expenditures are shown as substantially in excess of the aggregate amount of the receipts and liabilities; (d) the statement fails to reflect a contingent liability for shares sold in violation of the Securities Act 1933;

5. The information in the Notification is not responsive to the items of the form and the Notification does not otherwise comply with the terms and conditions of said Regulation A.

B. That the use of said offering circular in connection with the offering of the issuer's securities would operate as a fraud and deceit upon purchasers of said securities.

C. That the terms and conditions of Regulation A have not been complied with in that an offering circular, containing the information specified by Regulation A and otherwise complying with the provisions of the statute and the rules promulgated thereunder, has not been and is not being delivered to offerees and purchasers of the stock as required by Rule 219 (a).

It is ordered, Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933 that the exemption under Regulation A be, and it hereby is, suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

It is further ordered, That this order and notice shall be served upon Ebony Petroleum Corp. of Nevada, Inc., personally or by registered mail or by confirmed telegraphic notice, and shall be published in the FEDERAL REGISTER.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 54-9370; Filed, Nov. 26, 1954; 8:49 a. m.]

[File No. 812-900]

NEW YORK CAPITAL FUND OF CANADA, LTD.

NOTICE OF FILING OF APPLICATION FOR ORDER EXEMPTING CERTAIN PROPOSED TRANSACTIONS

NOVEMBER 19, 1954.

Notice is hereby given that New York Capital Fund of Canada, Ltd. ("New York Capital") of Toronto, Ontario, Canada, a corporation organized under the laws of the Dominion of Canada and a registered open-end investment company, has filed an application pursuant to section 10 (f) of the Investment Company Act of 1940 ("act") for an order exempting New York Capital from the requirements of section 10 (f) of the act with respect to certain transactions.

New York Capital proposes to purchase 50,000 shares of the capital stock (par value 10 Philippine pesos per share) of Philippine Long Distance Telephone Company, at a price of $4.75 per share, from Anglo-Canadian Telephone Company, of Montreal, Quebec, Canada, one of the principal stockholders of Philippine Long Distance Telephone Company. At or about the same time that the proposed sale is expected to take place, Anglo-Canadian Telephone Company is planning to sell by public offering an additional 310,285 shares of the capital stock of Philippine Long Distance Telephone Company. Such shares are proposed to be offered through a group of underwriters with Carl M. Loeb, Rhoades & Co. as principal underwriter.

The application states that Carl M. Loeb, Rhoades & Co. is an affiliated person of New York Capital in that three partners of that firm (Carl M. Loeb, Armand G. Erpf and Clifford W. Michel) are directors of New York Capital, and Armand G. Erpf is also President of the latter company. The application also states that Carl M. Loeb, Rhoades & Co. may be classed as an investment adviser of New York Capital, because it has a contract with Empire Trust Company, the investment adviser of New York Capital, under which Carl M. Loeb, Rhoades & Co. renders investment research assistance and advice to Empire Trust Company and receives as compensation one-fourth of the investment advisory fee paid by New York Capital to Empire Trust Company.

The application states that the proposed purchases would involve no payment of commissions by New York Capital and that the proposed public offering would be at a higher offering price to the extent of the underwriting commissions or discounts involved in the public offering. The presently proposed public offering price for such shares is stated to be $5 60 per share.

The application states that the proposed investment by New York Capital in the shares of Philippine Long Distance Telephone Company has been recommended both by Empire Trust Company and by Stein Roe & Farnham, which also renders investment research and advice to Empire Trust Company and which has no affiliation with Carl M. Loeb, Rhoades & Co. The proposed purchase has also been approved by the

Board of Directors of New York Capital, at a meeting at which only one of the six directors present and voting was a partner in or affiliate of Carl M. Loeb, Rhoades & Co.

The application represents that the shares of Philippine Long Distance Telephone Company are believed to be an excellent investment for New York Capital for the reasons, among other things, that it has a favorable equity ratio, a substantial current rate of growth, and is allowed a relatively high rate of return. The amount of the proposed investment would constitute approximately 1 percent of the total assets of New York Capital.

Section 10 (f) of the act provides that no registered investment company shall knowingly purchase or otherwise acquire, during the existence of any underwriting or selling syndicate, any security (except a security of which such company is the issuer) a principal underwriter of which is an officer, director, investment adviser, or an employee of such registered company, or is a person of which any such officer, director, investment adviser or employee is an affiliated person, subject to certain exceptions not here material. This section also provides that the Commission may, by order upon application, conditionally or unconditionally exempt any transaction from any of the provisions of this section, if and to the extent that such exemption is consistent with the protection of investors.

Notice is further given that any interested person may, not later than November 29, 1954, at 2:00 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission:

[SEAL] ORVAL L. DUBOIS, *Secretary.*

UNITED STATES TARIFF COMMISSION

[Investigation 40]

FESCUE SEED

INVESTIGATION INSTITUTED

The United States Tariff Commission, on this 23d day of November 1954, under the authority of section 7 of the Trade Agreements Extension Act of 1951, as amended, and section 332 of the Tariff Act of 1930, instituted an investigation for the purpose of determining whether, as a result in whole or in part of the customs treatment reflecting concessions granted thereon in the General Agreement on Tariffs and Trade, the following articles are being imported into the United States in such increased quantities, either actual or relative, as to cause or threaten serious injury to the domestic industry producing like or directly competitive articles:

Tariff Act of 1930 Par. No.:	*Description*
763------	Grass and forage crop seeds not specially provided for: Red fescue (festuca rubra) seed, including chewings fescue (festuca rubra var. commutata) seed.

On November 15, 1954, the Commission received an application filed in behalf of the Union County Seed Growers Association, La Grande, Oregon, for an investigation under section 7 of the Trade Agreements Extension Act of 1951, as amended, with respect to creeping red fescue seed provided for in paragraph 763 of the Tariff Act of 1930, as modified. The Commission, however, extended the scope of the investigation to cover imports of all red fescue seed.

Inspection of application. The application for investigation filed in this case is available for public inspection at the office of the Secretary of the Commission, Tariff Commission Building, Eighth and E Streets NW., Washington, D. C., and in the New York Office of the Commission located in Room 437 of the Customhouse, where it may be read and copied by interested persons.

I certify that the above investigation was instituted by the United States Tariff Commission on the 23d day of November 1954.

Issued: November 23, 1954.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29939]

CEMENT FROM LEEDS, ALA., TO DOSAGA, GA.

APPLICATION FOR RELIEF

NOVEMBER 23, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for the Atlantic Coast Line Railroad Company and Central of Georgia Railway Company.

Commodities involved: Cement and related articles, carloads.

From: Leeds, Ala.

To: Dosaga, Ga.

Grounds for relief: Competition with rail carriers, and circuitous routes.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1447, supp. 9.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

BITUMINOUS FINE COAL FROM WESTERN KENTUCKY TO KRANNERT, GA.

APPLICATION FOR RELIEF

NOVEMBER 23, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for the Illinois Central Railroad Company, Louisville and Nashville Railroad Company, and Southern Railway Company.

Commodities involved: Bituminous fine coal, carloads.

From: Mines in western Kentucky.

To: Krannert, Ga.

Grounds for relief: Rail competition, circuity, to maintain grouping, and additional routes.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1414, supp. 13; Illinois Central Railroad Company, I. C. C. No. E-1860, supp. 45.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 29941]

WINDOW GLASS FROM SOUTHWEST TO JACKSONVILLE, TAMPA, AND MIAMI, FLA.

APPLICATION FOR RELIEF

NOVEMBER 23, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Window glass, carloads.

From: Fort Smith, Ark., Henryetta and Okmulgee, Okla., and Shreveport, La.

To: Jacksonville, Tampa and Miami, Fla.

Grounds for relief: Competition with rail carriers, competition with water carriers, market competition, and foreign competition.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 4100, supp. 7.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD, *Secretary.*

[4th Sec. Application 29942]

NAPHTHA FROM PENSACOLA, FLA., TO ANNISTON, ALA.

APPLICATION FOR RELIEF

NOVEMBER 23, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Naphtha or naphtha distillate, in tank-car loads.

From: Pensacola, Fla.

To: Anniston, Ala.

Grounds for relief: Competition with rail carriers, and competition with motor carriers.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1253, supp. 178.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29943]

PEANUTS FROM NORTH CAROLINA AND VIRGINIA TO OFFICIAL AND WESTERN TERRITORIES

APPLICATION FOR RELIEF

NOVEMBER 23, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Peanuts, carloads.

From: Weldon, Garysburg, Gumberry, Seaboard, Margaret, N. C., and Branchville, Va.

To: Points in official and western territories.

Grounds for relief: Competition with rail carriers, circuitous routes, and to maintain grouping.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 887, supp. 159.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

ALUMINUM ARTICLES FROM CHICAGO, ILL., AND RIVERDALE, IOWA, TO SOUTHERN TERRITORY

APPLICATION FOR RELIEF

NOVEMBER 23, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. G. Raasch, Agent, for carriers parties to schedules shown in exhibit A of the application, pursuant to fourth-section order No. 17220.

Commodities involved: Aluminum articles, viz.: angles, bars, beams, pipe, etc., carloads.

From: Chicago, Ill., and Riverdale, Iowa.

To: Points in southern territory.

Grounds for relief: Competition with rail carriers, and circuitous routes.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 29945]

CAST IRON PIPE FROM IRONTON AND PROVO, UTAH TO MONTANA

APPLICATION FOR RELIEF

NOVEMBER 23, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: The Union Pacific Railroad Company for itself and on behalf of carriers parties to schedule listed below.

Commodities involved: Cast iron pipe and fittings, carloads.

From: Ironton, Utah and Provo, Utah.

To: Destinations in Montana.

Grounds for relief: Rail competition, circuity, to apply over short tariff routes rates constructed on the basis of the short line distance formula, and compliance with decision in docket No. 31141.

Schedules filed containing proposed rates; Union Pacific Railroad Company, I. C. C. No. 5285, supp. 47.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

SCRAP PAPER FROM ELIZABETH, MONROE AND WEST MONROE, LA., TO NEWARK, OHIO

APPLICATION FOR RELIEF

NOVEMBER 23, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Paper, scrap or waste, carloads.

From: Elizabeth, Monroe and West Monroe, La.

To: Newark, Ohio.

Grounds for relief: Rail competition, circuity, to apply rates constructed on the basis of the short line distance formula, and additional destination.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3992, supp. 16.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. [No. 31660]

SAND AND GRAVEL, ETC.

ARKANSAS INTRASTATE FREIGHT RATES AND CHARGES

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 16th day of November A. D. 1954.

It appearing, that a petition, dated October 11, 1954, has been filed on behalf of the St. Louis-San Francisco Railway Company and other common carriers by railroad operating to, from, and between points in the State of Arkansas, in interstate and intrastate commerce, averring that in Ex Parte No. 166, Increased Freight Rates, 1947, 269 I. C. C. 33, 270 I. C. C. 81, 270 I. C. C. 93, and 270 I. C. C. 403; Ex Parte No. 168, Increased Freight Rates, 1948, 272 I. C. C. 695, and 276 I. C. C. 9, and Ex Parte No. 175, Increased Freight Rates, 1951, 280 I. C. C. 179, 281 I. C. C. 557, 284 I. C. C. 589, and 289 I. C. C. 395; the Commission authorized carriers subject to the Interstate Commerce Act parties thereto to make certain increases in their freight rates and charges for interstate application throughout the United States; and that increases under such authorizations have been made;

It further appearing, that the petitioners allege that the Arkansas Public Service Commission, has refused to authorize or permit them to apply to the transportation of the following commodities, moving intrastate by railroad in Arkansas, increases in freight rates and charges thereon corresponding to those approved for interstate application in the proceedings above cited:

Sand and gravel, crushed stone, agricultural limestone in open top cars (per items 30 and 1730, Southwestern Lines Tariff No. 162-T);

Cement, as described in items 5 and 10, Southwestern Lines Tariff No. 168-I;

Asphalt rock, stone, etc., coated as described in item 1165, Southwestern Lines Tariff No. 233-E; and

Silica sand in box cars (per item 25, Southwestern Lines Tariff No. 162-T.)

It further appearing, that the petitioners allege that such refusals cause and result in undue and unreasonable advantage, preference, and prejudice as between persons and localities in intrastate commerce, on the one hand, and interstate commerce, on the other hand, and in undue, unreasonable and unjust discrimination against interstate commerce in violation of section 13 (4) of the Interstate Commerce Act;

And it further appearing, that there have been brought in issue by the said petition rates and charges made or imposed by authority of the State of Arkansas:

It is ordered, That in response to the said petition, an investigation be, and it is hereby, instituted, and that a hearing be held therein for the purpose of receiving evidence from the respondents hereinafter designated and any other persons interested to determine whether the rates and charges of the common carriers by railroad, or any of them, operating in the State of Arkansas, for intrastate transportation of property, made or imposed by authority of the State of Arkansas, cause or will cause, by reason of the failure of such rates and charges to include increases corresponding to those permitted by this Commission for interstate traffic in said Ex Parte Nos. 166, 168, and 175, supra, any undue or unreasonable advantage, preference, or prejudice, as between persons or localities in intrastate commerce, on the one hand, and interstate or foreign commerce, on the other hand, or any undue, unreasonable, or unjust discrimination against interstate or foreign commerce, and to determine what rates and charges, if any, or what maximum, or minimum, or maximum and minimum rates and charges shall be prescribed to remove the unlawful advantage, preference, prejudice, or discrimination, if any, that may be found to exist;

It is further ordered, That all common carriers by railroad operating within the State of Arkansas which are subject to the jurisdiction of this Commission be, and they are hereby, made respondents to this proceeding; that a copy of this order be served upon each of the said respondents; and that the State of Arkansas be notified of the proceeding by sending copies of this order and of said petition by registered mail to the Governor of the said State and to the Arkansas Public Service Commission at Little Rock, Ark.;

It is further ordered, That notice of this proceeding be given to the public by depositing a copy of this order in the office of the Secretary of the Commission, at Washington, D. C., for public inspection, and by filing a copy with the Director, Division of the Federal Register, Washington, D. C.;

And it is further ordered, That this proceeding be assigned for hearing at a time and place hereafter to be designated.

By the Commission, Division 1.

[SEAL] GEORGE W. LAIRD, *Secretary.*

FEDERAL REGISTER

VOLUME 19 NUMBER 231

Washington, Tuesday, November 30, 1954

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 900—GENERAL REGULATIONS

SUBPART—GENERAL REGULATIONS APPLICABLE TO THE IMPORTATION OF LISTED COMMODITIES

Notice was published in the FEDERAL REGISTER issue of October 8, 1954 (19 F. R. 6502, 6587) that the Department was giving consideration to the issuance, pursuant to authority contained in the Agricultural Adjustment Act of 1933, as amended, and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), hereinafter referred to as the "act," of proposed general regulations to govern the importation of tomatoes, avocados, mangoes, limes, grapefruit, green peppers, Irish potatoes, cucumbers, and eggplants during periods when regulatory orders are effective under marketing orders, issued pursuant to the act, regulating the handling of such commodities produced in the United States. Currently, only avocados, grapefruit, and Irish potatoes are regulated under marketing order programs but the regulations will be applicable to the other listed commodities when marketing orders become applicable to them.

After consideration of all relevant matters presented including the proposals set forth in the aforesaid notice, the rules and regulations hereinafter set forth, are hereby promulgated.

Sec.

900.150 Definitions.
900.151 General.
900.152 Eligible imports.
900.153 Inspection and certification requirements.
900.154 Reconditioning prior to importation.

AUTHORITY: §§ 900.150 to 900.154 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 900.150 *Definitions* — (a) *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et sec.; 68 Stat. 906, 1047).

(b) *Listed commodity.* "Listed commodity" means each of the following commodities listed in section 8e (7 U. S. C. 608e) of the act:

(1) Tomatoes;
(2) Avocados;
(3) Mangoes;
(4) Limes;
(5) Grapefruit;
(6) Green peppers;
(7) Irish potatoes;
(8) Cucumbers; and
(9) Eggplants.

(c) *Department.* "Department" means the United States Department of Agriculture.

(d) *Administrator.* "Administrator" means the Administrator of the Agricultural Marketing Service of the Department or any other officer or employee of the Agricultural Marketing Service to whom authority has heretofore been delegated, or to whom authority may hereafter be delegated, to act in his stead.

§ 900.151 *General.* (a) The act provides that, whenever a marketing order issued pursuant to section 8c thereof contains any terms or conditions regulating the grade, size, quality, or maturity of any of the agricultural commodities listed in Section 8e thereof that are produced in the United States, the importation into the United States of any such commodity during the period of time such order is in effect shall, with certain exceptions, be prohibited unless it complies with the grade, size, quality, and maturity provisions of such order or comparable restrictions promulgated under the act.

(b) Additional provisions regulating imports of the particular commodities listed in the act may be issued from time to time. The provisions will be published in the FEDERAL REGISTER reasonably in advance of the date on which they will become applicable to imports.

§ 900.152 *Eligible imports.* Whenever, and to the extent that, the importation of any listed commodity is regulated pursuant to section 8e (7 U. S. C. 608e) of the act, such commodity shall not be eligible for importation into the United States under said section 8e unless, in accordance with the provisions of this subpart, it is first inspected to ascertain whether it is in compliance with the applicable, grade, size, quality, and maturity requirements and an inspection certificate is issued therefor which states that the commodity meets

United States import requirements under said section 8e.

§ 900.153 *Inspection and certification requirements.* (a) Any such inspection may be performed, and an inspection certificate issued, by an inspector of the Federal or Federal-State Inspection Service or of such other governmental inspection service as may be designated, or approved, by the Administrator.

(b) In the event the required inspection is performed prior to the arrival of the commodity at the port of entry, the inspection certificate that is issued must show that the inspection was performed at the time of loading the commodity for direct transportation to the United States; and, if the commodity is to be transported by water, the certificate must show that the inspection was performed at the time of loading onto the vessel.

(c) Inspection certificates shall cover only the quantity of the commodity that is being imported at a particular port of entry by a particular importer.

(d) The inspections performed, and certificates issued, by the Federal or Federal-State Inspection Service shall be in accordance with the rules and regulations of the Department governing the inspection and certification of fresh fruits, vegetables, and other products (Part 51 of this title). The cost of any inspection and certification shall be borne by the applicant therefor.

(e) Each inspection certificate issued with respect to any listed commodity to be imported into the United States shall set forth, among other things:

(1) The date and place of inspection;

(2) The name of the shipper, or applicant;

(3) The name of the importer (consignee);

(4) The commodity inspected;

(5) The quantity of the commodity covered by the certificate;

(6) The principal identifying marks on the containers;

(7) The railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and

(8) The following statement, if the facts warrant:

Meets U. S. import requirements under section 8e of the Agricultural Marketing Agreement Act of 1937.

§ 900.154 *Reconditioning prior to importation.* Nothing contained in this subpart shall be deemed to preclude any importer from reconditioning prior to importation any shipment of a listed commodity for the purpose of making it eligible for importation under the act.

Effective time. This subpart shall become effective on November 30, 1954.

It is hereby found that good cause exists for making the provisions of this subpart effective upon publication in the FEDERAL REGISTER in that (a) the basic procedure whereby importations of the listed commodities may be effected in accordance with the provisions of section 8e of the act and the provisions of this subpart should be made known to all interested persons as soon as practicable, and (b) the provisions of this subpart will not become applicable to the importation of any such commodity unless and until notice is given of the specified grade, size, quality, and maturity requirements that must be met in order that the importation may be made.

Dated: November 24, 1954.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 54–9424; Filed, Nov. 29, 1954; 8:50 a. m.]

[Docket No. AO–122–A8]

PART 907—MILK IN MILWAUKEE, WIS., MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 907.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Milwaukee, Wisconsin, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The said order, as amended, and as hereby further amended, and all the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in the said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making effective not later than December 1, 1954 this order amending the order, as amended. This action is necessary in the public interest to reflect the current marketing conditions. Accordingly, any delay in the effective date of this order beyond the aforesaid date will seriously impair the orderly marketing of milk in the Milwaukee, Wisconsin, marketing area. The provisions of the said amendatory order are well known to handlers, a recommended decision in the matter having been issued October 26, 1954, and a final decision having been issued on November 23, 1954. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this amendatory order 30 days after its publication in the FEDERAL REGISTER (see section 4 (c) Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping the milk covered by this order amending the order, as amended, which is marketed within the Milwaukee, Wisconsin, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by by at least two-thirds of the producers who during the determined representative period (August 1954) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Milwaukee, Wisconsin, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 907.51 (a) delete the proviso and substitute: "*Provided*, That such Class I price differential shall be increased or decreased, respectively, 3 cents for each full percent that the current supply-demand ratio computed pursuant to paragraph (e) of this section is greater or less than 72 percent, but shall not be increased or decreased more than 24 cents due to the supply-demand ratio."

2. In § 907.51 delete paragraph (b) and substitute:

(b) *Class II milk.* The price for Class II milk shall be the basic formula price plus the following amounts as indicated: August, September, October, and November, 70 cents; all other months, 45 cents: *Provided*, That such Class II price differentials shall be adjusted by the amount of any adjustment made in the Class I price differential for the same month pursuant to the proviso of paragraph (a) of this section.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 26th day of November 1954, to be effective on and after the 1st day of December 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[F. R. Doc. 54–9467; Filed, Nov. 29, 1954; 8:52 a. m.]

PART 913—MILK IN GREATER KANSAS CITY MARKETING AREA

ORDER SUSPENDING A CERTAIN PROVISION

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress, as amended, and as re-enacted and amend-

ed by the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 1940 ed. 601 et seq.), hereinafter referred to as the "act", and of the order, as amended, regulating the handling of milk in the Greater Kansas City marketing area, hereinafter referred to as the "order", it is hereby found and determined that the provision "and for each minus percentage point in excess of 2 in the net utilization percentage the Class I price shall be decreased 4 cents" appearing in § 913.51 (a) (3) of the order does not tend to effectuate the declared policy of the act with respect to all milk subject to the provisions of the order for the delivery period of December 1954.

It is hereby further found and determined that notice of proposed rule making and public procedure thereon in connection with the issuance hereof is impracticable, unnecessary and contrary to the public interest in that (1) the information upon which this action is based did not become available in sufficient time for such compliance; (2) the issuance of this suspension order affective as set forth below is necessary to reflect current marketing conditions and to facilitate, promote, and maintain the orderly marketing of milk produced for the said marketing area; and (3) this action will serve to maintain the price for Class I milk for December 1954 at approximately present levels. The changes caused by this suspension order will not require of persons affected substantial or extensive preparation prior to its effective date.

It is therefore ordered, That the following provision of the order is hereby suspended with respect to all milk subject to the provisions of the order for the delivery period of December 1954: In § 913.51 (a) (3) the provision "and for each minus percentage point in excess of 2 in the net utilization percentage the Class I price shall be decreased 4 cents".

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Done at Washington, D. C., this 26th day of November 1954, to be effective on and after December 1, 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

[Docket No. AO-101-A18]

PART 941—MILK IN CHICAGO, ILL., MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 941.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), a public hearing was held at Chicago, Illinois, on June 1–4, 7–11, and 14–15, 1954, upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for such milk and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making effective not later than December 1, 1954, this order amending the order, as amended. This action is necessary in the public interest to reflect current marketing conditions. Accordingly, any delay in the effective date of this order beyond the aforesaid date will seriously impair orderly marketing of milk in the Chicago, Illinois, marketing area. The provisions of the said amendatory order are well known to handlers, the public hearing having been held in June 1954, and a final decision having been issued on November 23, 1954. Reasonable time under the circumstances has been afforded persons affected to prepare for its effective date. Therefore, it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this amendatory order 30 days after its publication in the FEDERAL REGISTER (see section 4 (c) Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determination.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping the milk covered by this order amending the order, as amended, which is marketed within the Chicago, Illinois, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order is approved or favored by at least two-thirds of the producers who during the determined representative period (August 1954) were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Chicago, Illinois, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 941.7 (b) delete the word "July" and substitute the word "September."

2. In § 941.40 (b) after the words "plastic cream," delete the words "powdered cream."

3. Delete § 941.40 (c) and substitute the following:

(c) Any milk moved as milk, skim milk, or cream in fluid form from a regulated plant to the establishment of a commercial food or drug processor located within the surplus milk manufacturing area or to an unregulated milk plant so located, which milk plant manufactured during the delivery period butter, cheese, evaporated milk, condensed milk or skim milk, whole milk powder, nonfat dry milk solids, casein, powdered ice cream mix, or powdered cream, shall be classified under § 941.41 as follows:

(1) If the unregulated plant or establishment maintains adequate daily records showing the utilization of the milk, skim milk or cream, it shall be classified according to its use;

(2) If the unregulated plant or establishment maintains adequate daily records showing the utilization of all receipts of milk and milk products, and the milk, skim milk or cream received from the regulated plant is commingled with other receipts, the receipts of milk, or skim milk from the regulated plant shall be allocated, according to such daily records, to the available quantity of Class III (a) milk, Class III milk, Class IV milk, Class II milk and Class I milk, in that sequence; and any such receipts of cream from the regulated plant shall be allocated to Class IV milk, Class III milk, Class III (a) milk, Class II milk and Class I milk, in that sequence;

(3) If such unregulated plant or establishment does not make available to the market administrator adequate utilization records on a daily basis, but does make available to the market administrator adequate utilization records on a monthly basis, the milk or skim milk received from the regulated plant shall be allocated to the available quantity of Class I milk, Class II milk, Class III milk, Class III (a) milk and Class IV milk, in that sequence; and the cream received from a regulated plant shall be allocated to the available quantities of Class II milk, Class III milk, Class III (a) milk, Class IV milk and Class I milk, in that sequence;

(4) If the unregulated plant or establishment described in subparagraphs (1), (2), and (3) of this paragraph, disposes of milk, skim milk or cream in bulk to another unregulated milk plant located within the surplus milk manufacturing area which is engaged in manufacturing one of the products named in this paragraph, the classification of such milk, skim milk or cream shall be ascertained at the second unregulated milk plant in the manner prescribed in subparagraphs (1), (2), or (3) of this paragraph whichever would be applicable to the second unregulated plant; and

(5) If the unregulated plant or establishment described in subparagraphs (1), (2) or (3) of this paragraph, disposes of milk, skim milk or cream in bulk to another unregulated plant located within the surplus milk manufacturing area which is not engaged in manufacturing one of the products named in this paragraph, such milk moved as milk or skim milk shall be classified as Class I milk, and such milk moved as cream in fluid form shall be classified as Class II milk.

4. In § 941.41 (b) after the words "plastic cream," delete the words "powdered cream," and after the words "ice cream mix (liquid" delete the words "or powder."

5. In § 941.51 delete paragraph (d).

6. In § 941.52 (d) delete subparagraph (4).

7. Delete § 941.52 (a) (1) and substitute the following:

(1) The price for Grade A Class I milk, except as set forth in subparagraph (3) of this paragraph, shall be the basic formula price plus the following amount for the delivery periods indicated: August, September, October, and November, $1.10; December, January, February, and July, $0.90; all others, $0.70: *Provided,* That such Class I price differential shall be increased, or decreased, respectively, 3 cents for each full percent that the current supply-demand ratio is greater or less than 72 percent, but shall not be increased or decreased more than 24 cents because of the supply-demand ratio.

8. Delete § 941.52 (b) (1) and substitute the following:

(1) The price for Grade A Class II milk, except as set forth in subparagraph (3) of this paragraph, shall be the basic formula price plus the following amount for the delivery periods indicated: August, September, October, and November, $0.70; all others, $0.45: *Provided,* That such Class II price differential shall be adjusted by the amount of any adjustment made in the Class I price differential for the same delivery period pursuant to the proviso of paragraph (a) (1) of this section.

9. In § 941.52 delete paragraph (c) and substitute:

(c) *Class III milk.* The price per hundredweight for Class III milk shall be the higher of the prices resulting from the formula set forth in paragraph (d) of this section and the average (adjusted to the nearest full cent) of the prices per hundredweight reported to have been paid, or to be paid, for such delivery period to farmers for milk containing 3.5 percent butterfat delivered during such delivery period at each of the following listed manufacturing plants or places for which prices are reported to the United States Department of Agriculture or to the market administrator: *Provided,* That the price resulting from the formula set forth in this paragraph shall apply at all times to Class III (a) milk.

10. In § 941.52 (d) (3) delete the period at the end of the sentence and add the following: "and adjust to the nearest full cent."

11. In § 941.60 delete the words "and from other handlers."

12. In § 941.67 (a) (1) (i) after the words "skim milk" insert the words "concentrated milk, condensed skim milk."

13. In § 941.71 (f) delete the words "4 cents nor more than 5 cents," and substitute therefor the words "6 cents nor more than 7 cents."

14. In § 941.50 change the comma just preceding the word "except" to a period, and delete the rest of the sentence.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 26th day of November 1954, to be effective on and after the 1st day of December 1954.

MISCELLANOUS PROVISIONS

Sec.
988.110 Separability of provisions.
988.111 Agents.

AUTHORITY: §§ 988.0 to 988.111 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

§ 988.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Knoxville, Tennessee, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity, specified in a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order, amending the order, as amended, effective December 1, 1954. Any delay beyond that date in the effective date of this order would unnecessarily postpone needed changes in the order.

The provisions of the said order are well known to handlers. The recommended decision containing all amendment provisions of this order was issued November 1, 1954 (19 F. R. 7182). The decision of the Secretary concerning the proposed amendments was issued November 18, 1954 (19 F. R. 7583). The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. It is hereby found, therefore, that good cause exists for making this order effective December 1, 1954. (Sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.)

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this order amending the order, as amended, which is marketed within the Knoxville, Tennessee, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (September 1954), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Knoxville, Tennessee, marketing area shall be in conformity to and in compliance with the following terms of this order as amended, and as hereby further amended to read as follows:

DEFINITIONS

§ 988.1 *Act.* "Act" means Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 as amended (7 U. S. C. 601 et seq.).

§ 988.2 *Secretary.* "Secretary" means the Secretary of Agriculture or any officer or employee of the United States authorized to exercise the powers and to perform the duties of the Secretary of Agriculture.

§ 988.3 *Department of Agriculture.* "Department of Agriculture" means the United States Department of Agriculture or any other Federal agency as may be authorized by act of Congress or by Executive order to perform the price reporting functions of the United States Department of Agriculture.

§ 988.4 *Person.* "Person" means any individual, partnership, corporation, association, or any other business unit.

§ 988.5 *Knoxville, Tennessee, marketing area.* "Knoxville, Tennessee, marketing area," hereinafter called the "marketing area" means all of the territory within the boundaries of Knox County including the territory within the corporate limits of the City of Knoxville, all of the territory within the corporate limits of the Cities of Alcoa and Maryville in Blount County and all of that part of the Development of Oak Ridge which lies within Anderson County, all in the State of Tennessee.

§ 988.6 *Cooperative association.* "Cooperative association" means any cooperative marketing association of producers which the Secretary determines to be qualified pursuant to the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," and is authorized by its members to make collective sales or to market milk or its products for the producers thereof.

§ 988.7 *Producer-handler.* "Producer-handler" means any person who produces Grade A milk under a dairy farm inspection permit issued by any duly constituted health authority, and who processes milk from his own production, distributing all or a portion of such milk within the marketing area as Class I milk, but who receives no milk from producers.

§ 988.8 *Approved plant.* "Approved plant" means the premises, buildings and facilities of any milk processing or packaging plant from which Grade A milk or skim milk is shipped during the month to a pool plant, or from which Class I milk is disposed of during the month on routes (including routes operated by vendors and sales through plant stores) in the marketing area: *Provided*, That if the appropriate health authority does not permit a portion of such plant to be used for the handling of milk or milk products to be distributed under a Grade A label, such portion of the plant shall not be considered as part of the approved plant.

§ 988.9 *Pool plant.* "Pool plant" means (a) an approved plant from which a volume of Class I milk equal to not less than 50 percent of its receipts of producer milk and milk and skim milk from other pool plants is disposed of during the month on routes (including routes operated by vendors) to retail or wholesale outlets (including plant stores): *Provided*, That not less than 15 percent of such receipts are so disposed of to such outlets in the marketing area; (b) an approved plant from which at least 50 percent of the hundredweight of its producer milk received during the month is shipped in the form of milk, skim milk or cream to a plant qualified pursuant to paragraph (a) of this section and classified as Class I milk: *Provided*, That if such shipments amount to not less than 65 percent of the producer milk of such plant during each of the preceding months of August through February, such plant may, upon written application to the market administrator on or before March 1 of any year be designated as a pool plant for the months of March through July of such year, or (c) from the effective date hereof, through July 1955, any plant not otherwise qualified as a pool plant pursuant to this section, from which Class I milk was disposed of to retail or wholesale outlets in the marketing area during the month of September 1954, which meets the following conditions for the month: (1) The operator of such plant makes application on or before the 10th day of the month requesting designation of such plant as a pool plant for the month; (2) Class I milk is disposed of during the month to retail or wholesale outlets in the marketing area, and (3) the plant was not a non-pool plant pursuant to this order during the previous month.

§ 988.10 *Nonpool plant.* "Nonpool plant" means any milk receiving, manufacturing, processing or bottling plant other than a pool plant.

§ 988.11 *Handler.* "Handler" means (a) any person in his capacity as the operator of an approved plant, (b) a producer-handler or (c) a cooperative association with respect to milk diverted for its account pursuant to § 988.12.

§ 988.12 *Producer.* "Producer" means any person except a producer-handler who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority which milk is received at a pool plant: *Provided*, That if such milk is diverted for his account by a handler from a pool plant to a nonpool plant (a) any day during the months of March through August, or (b) on not more than 10 days during the month in any of the other months of the year, the milk so diverted shall be deemed to have been received by the diverting handler at a pool plant at the location of the plant from which it was diverted.

§ 988.13 *Producer milk.* "Producer milk" means only that skim milk or butterfat contained in milk (a) received at the pool plant directly from producers, or (b) diverted from the pool plant to a nonpool plant in accordance with the conditions set forth in § 988.12.

§ 988.14 *Other source milk.* "Other source milk" means all skim milk and butterfat contained in: (a) Receipts during the month in the form of products designated as Class I milk pursuant to § 988.41 (a) except (1) such products received from other pool plants, or (2) producer milk; and (b) products designated as Class II milk pursuant to § 988.41 (b) (1) from any source (including those from a plant's own production), which are reprocessed or converted to another product in the plant during the month.

§ 988.15 *Base milk.* "Base milk" means milk received by a handler from a producer during any of the months of April through August which is not in excess of such producer's daily average base computed pursuant to § 988.60 multiplied by the number of days in such month.

§ 988.16 *Excess milk.* "Excess milk" means milk received by a handler from a producer during any of the months of April through August which is in excess of base milk received from such producer during such month, and shall include all milk received during such month from a producer from whom no daily average base can be computed pursuant to § 988.60.

MARKET ADMINISTRATOR

§ 988.20 *Designation.* The agency for the administration of this part shall be a market administrator, selected by the Secretary, who shall be entitled to such compensation as may be determined by, and shall be subject to removal at the discretion of, the Secretary.

§ 988.21 *Powers.* The market administrator shall have the following powers with respect to this part:

(a) To administer its terms and provisions;

(b) To receive, investigate, and report to the Secretary complaints of violations;

(c) To make rules and regulations to effectuate its terms and provisions; and

(d) To recommend amendments to the Secretary.

§ 988.22 *Duties.* The market administrator shall perform all duties necessary to administer the terms and provisions of this part, including, but not limited to, the following:

(a) Within 45 days following the date on which he enters upon his duties, or such lesser period as may be prescribed by the Secretary, execute and deliver to the Secretary a bond, effective as of the date on which he enters upon his duties and conditioned upon the faithful performance of such duties, in an amount and with surety thereon satisfactory to the Secretary;

(b) Employ and fix the compensation of such persons as may be necessary to enable him to administer its terms and provisions;

(c) Obtain a bond in a reasonable amount and with reasonable surety thereon covering each employee who handles funds entrusted to the market administrator;

(d) Pay, out of the funds provided by § 988.87, (1) the cost of his bond and of the bonds of his employees, (2) his own compensation, and (3) all other expenses, except those incurred under § 988.88, necessarily incurred by him in the maintenance and functioning of his office and in the performance of his duties;

(e) Keep such books and records as will clearly reflect the transactions provided for herein, and, upon request by the Secretary, surrender the same to such other person as the Secretary may designate;

(f) Publicly disclose at his discretion to handlers and producers, unless otherwise directed by the Secretary the name of any person who, after the day upon which he is required to perform such acts, has not made (1) reports pursuant to § 988.30 or (2) payments pursuant to §§ 988.80 and 988.82;

(g) Submit his books and records to examination by the Secretary and furnish such information and reports as may be required by the Secretary;

(h) Prepare and make available for the benefit of producers, consumers, and handlers such general statistics and information concerning the operation hereof as are necessary and essential to the proper functioning of this part;

(i) Verify all reports and payments by each handler by audit, if necessary, of such handler's records and the records of any other handler or person upon whose utilization the classification of skim milk and butterfat for such handler depends; and

(j) On or before the date specified, publicly announce and notify each handler in writing of the following: (1) The 10th day of each month, the Class I price, and the Class I butterfat differential, both for the current month; (2) the 6th day of each month, the Class II price and the Class II butterfat differential, both for the preceding month; and (3) the 10th day after the end of each month, the uniform price(s), and the producer butterfat differential for the preceding month.

REPORTS, RECORDS AND FACILITIES

§ 988.30 *Reports of receipts and utilization.* On or before the 6th day after the end of each month each handler, except a producer-handler, shall report for each of his approved plants for such month to the market administrator in the detail and on forms prescribed by the market administrator:

(a) The quantities of skim milk and butterfat contained in producer milk including for the months of April through August a statement of the aggregate quantity of base milk;

(b) The quantities of skim milk and butterfat contained in products designated as Class I milk pursuant to § 988.41 (a) (1) received from other handlers;

(c) The quantities of skim milk and butterfat contained in other source milk;

(d) Inventories of products designated as Class I milk pursuant to § 988.41 (a) (1) on hand at the beginning and end of the month; and

(e) The utilization of all skim milk and butterfat required to be reported pursuant to this section, including a separate statement of the disposition of Class I milk outside the marketing area.

§ 988.31 *Other reports.* (a) Each producer-handler shall make reports to the market administrator at such time and in such manner as the market administrator may prescribe:

(b) Each handler, except a producer-handler, shall report to the market administrator in detail and on forms prescribed by the market administrator:

(1) On or before the 20th day after the end of the month for each of his pool plants his producer payroll for such month which shall show for each producer: (i) The total pounds of milk received from such producer or cooperative association, including, for the months of April through August, the total pounds of base and excess milk, (ii) the days on which milk was received from such producer, if less than a full month, (iii) the average butterfat content of such milk, and (iv) the net amount of such handler's payment, to each producer or cooperative association, together with the price paid and the amount and nature of any deductions;

(2) On or before the first day other source milk is received in the form of milk, fluid skim milk or cream at his pool plant(s), his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such product; and

(3) Such other information with respect to his utilization of butterfat and

skim milk as the market administrator may prescribe.

§ 988.32 *Records and facilities.* Each handler shall keep adequate records of receipts and utilization of skim milk and butterfat and shall, during the usual hours of business, make available to the market administrator or his representative such records and facilities as will enable the market administrator to (a) verify the receipts and utilization of all skim milk and butterfat and, in case of errors or omissions, ascertain the correct figures; (b) weigh, sample, and test for butterfat content all milk and milk products handled; (c) verify payment to producers; and (d) make such examination of operations, equipment, and facilities, as are necessary and essential to the proper administration of this part or any amendments thereto.

§ 988.33 *Retention of records.* All books and records required under this part to be made available to the market administrator shall be retained by the handler for a period of three years to begin at the end of the month to which such books and records pertain: *Provided*, That if within such three-year period, the market administrator notifies the handler in writing that the retention of such books and records, or of specified books and records, is necessary in connection with a proceeding under section 8c (15) (A) of the act or a court action specified in such notice, the handler shall retain such books and records, or specified books and records, until further written notification from the market administrator. In either case the market administrator shall give further written notification to the handler promptly, upon the termination of the litigation or when the records are no longer necessary in connection therewith.

§ 988.34 *Reports to cooperative associations.* On or before the 15th day after the end of each month, the market administrator shall report to each cooperative association as described in § 988.88 (b), upon request by such association, the percentage of milk caused to be delivered by such association or by its members which was used in each class by each handler receiving any such milk. For the purpose of this report the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handlers were used in each class.

CLASSIFICATION OF MILK

§ 988.40 *Skim milk and butterfat to be classified.* The skim milk and butterfat at pool plants, which is required to be reported pursuant to § 988.30 shall be classified each month by the market administrator, pursuant to the provisions of §§ 988.41 through 988.46.

§ 988.41 *Classes of utilization.* Subject to the conditions set forth in §§ 988.42 through 988.44, the classes of utilization shall be as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat (1) disposed of in fluid form (except for livestock feed) as milk, skim milk, buttermilk, flavored milk, flavored milk drinks, cream and any cream product, except frozen cream and ice cream mix; (2) in inventory of products designated as Class I milk pursuant to subparagraph (1) of this paragraph; and (3) not specifically accounted for as Class II milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat: (1) Used to produce any item other than those specified in paragraph (a) of this section; (2) disposed of and used for livestock feed; and (3) in shrinkage assigned to Class II milk pursuant to § 988.42.

§ 988.42 *Shrinkage.* The market administrator shall determine the assignment of shrinkage to Class II milk as follows:

(a) Determine the total shrinkage of butterfat and skim milk in the pool plant(s) of the handler;

(b) Multiply the pounds of skim milk and butterfat in producer milk (except milk diverted pursuant to § 988.12) and other source milk by 0.025;

(c) Multiply the pounds of butterfat and skim milk, respectively, determined pursuant to paragraph (a) or (b) of this section, whichever is less, by the percentage of butterfat and skim milk classified pursuant to § 988.41 (a) and (b) (1) and (2) which is in Class II milk. The resulting amounts of skim milk and butterfat shall be classified as Class II milk; and

(d) Assign the shrinkage of skim milk and butterfat classified as Class II milk pro rata to producer milk and other source milk.

§ 988.43 *Responsibility of handlers and reclassification of milk.* All skim milk and butterfat shall be classified as Class I milk, unless the handler who first receives such skim milk or butterfat proves to the market administrator that such skim milk or butterfat should be classified in Class II.

§ 988.44 *Transfers.* (a) Skim milk and butterfat when transferred or diverted by a handler from a pool plant to a pool plant of another handler (except a producer-handler) in the form of products designated as Class I milk pursuant to § 988.41 (a) of this section shall be classified as Class I milk unless the operators of both plants claim utilization thereof in Class II milk in their reports submitted pursuant to § 988.30: *Provided*, That the skim milk or butterfat so assigned to Class II milk shall be limited to the amount thereof remaining in Class II milk in the plant of the transferee-handler after the subtraction of other source milk pursuant to § 988.46, and any additional amounts of such skim milk or butterfat shall be assigned to Class I milk: *And provided further*, That if either or both handlers have received other source milk, the skim milk or butterfat so transferred shall be classified at both plants so as to allocate the greatest possible Class I milk utilization to the producer milk of both handlers.

(b) As Class I milk if transferred to a producer-handler in the form of products designated as Class I milk in § 988.41 (a) (1);

(c) As Class I milk if transferred or diverted in the form of milk, skim milk, or cream to a nonpool plant, except that of a producer-handler, unless (1) the handler claims Class II utilization in his report submitted pursuant to § 988.30, (2) the operator of the nonpool plant maintains books and records showing the utilization of all skim milk and butterfat at such plant which are made available if requested by the market administrator for the purpose of verification, and (3) not less than an equivalent amount of skim milk and butterfat was actually utilized in such plant during the month in the use indicated in such statement: *Provided*, That if upon inspection of the records of such plant it is found that an equivalent amount of skim milk and butterfat was not actually used in such indicated use the remaining pounds shall be classified as Class I milk: *And provided further*, That if such plant disposes of fluid cream to another nonpool plant which conforms with the requirements of subparagraphs (1), (2) and (3) of this paragraph, such cream shall be classified as Class II milk

§ 988.45 *Computation of skim milk and butterfat in each class.* For each month, the market administrator shall correct for mathematical and other obvious errors the monthly report submitted for the pool plant(s) of each handler pursuant to § 988.30 and compute the total pounds of skim milk and butterfat, respectively, in Class I milk and Class II milk for such handler.

§ 988.46 *Allocation of skim milk and butterfat classified.* (a) The pounds of skim milk remaining in each class after making the following computations for the pool plant(s) of each handler for each month shall be the pounds in such class allocated to producer milk received by such handler:

(1) Subtract from the total pounds of skim milk in Class II milk the pounds of skim milk assigned to producer milk pursuant to § 988.42 (d);

(2) Subtract from the total pounds of skim milk in Class I milk the pounds of other source skim milk in products defined as Class I milk pursuant to § 988.41 (a) received in consumer packages from a nonpool plant or the pounds of skim milk classified as Class I milk and transferred during the month to such nonpool plant whichever is less.

(3) Subtract from the pounds of skim milk remaining in Class II milk the remaining pounds of skim milk in other source milk which was not subject to the Class I pricing provisions of an order issued pursuant to the act: *Provided*, That if the pounds of skim milk to be subtracted is greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk;

(4) Subtract from the pounds of skim milk remaining in Class II milk the pounds of skim milk in other source milk which was subject to the Class I pricing provisions of another order issued pursuant to the act: *Provided*, That if the pounds of skim milk to be subtracted is greater than the remaining pounds of skim milk in Class II milk, the balance shall be subtracted from the pounds of skim milk in Class I milk;

(5) Subtract from the remaining pounds of skim milk in Class I milk the pounds of skim milk contained in inventory of products designated as Class I milk pursuant to § 988.41 (a) (1) on hand at the beginning of the month: *Provided*, That if the pounds of skim milk in such inventory are greater than the remaining pounds of skim milk in Class I milk, an amount equal to the difference shall be subtracted from the pounds of skim milk in Class II milk;

(6) Subtract from the remaining pounds of skim milk in each class the skim milk received from the pool plants of other handlers in the form of products designated as Class I milk in § 988.41 (a) (1), according to its classification as determined pursuant to § 988.44 (a);

(7) Add to the remaining pounds of skim milk in Class II milk the pounds of skim milk subtracted pursuant to subparagraph (1) of this paragraph; and

(8) If the remaining pounds of skim milk in both classes exceed the pounds of skim milk contained in producer milk, subtract such excess from the remaining pounds of skim milk in series beginning with Class II milk. Any amount so subtracted shall be known as "overage."

(b) Butterfat shall be allocated in accordance with the same procedure outlined for skim milk in paragraph (a) of this section;

(c) Add the pounds of skim milk and the pounds of butterfat allocated to producer milk in each class, respectively, as computed pursuant to paragraphs (a) and (b) of this section, and determine the percentage of butterfat in each class.

MINIMUM PRICES

§ 988.50 *Basic formula price.* The basic formula price per hundredweight (computed to the nearest cent) to be used in determining the price for Class I milk pursuant to § 988.51 (a) shall be the highest of the prices per hundredweight for milk of 4.0 percent butterfat content computed pursuant to paragraph (a), (b), or (c) of this section, or § 988.51 (b).

(a) To the arithmetical average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 3.5 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the market administrator or to the Department of Agriculture on or before the 6th day after the end of the month:

Company and Location

Borden Co., Mount Pleasant, Mich.
Borden Co., New London, Wis.
Borden Co., Orfordville, Wis.
Carnation Co., Berlin, Wis.
Carnation Co., Chilton, Wis.
Carnation Co., Oconomowoc, Wis.
Carnation Co., Richland Center, Wis.
Carnation Co., Sparta, Mich.
Pet Milk Co., Belleville, Wis.
Pet Milk Co., Coopersville, Mich.
Pet Milk Co., Hudson, Mich.
Pet Milk Co., New Glarus, Wis.
Pet Milk Co., Wayland, Mich.
White House Milk Co., Manitowoc, Wis.
White House Milk Co., West Bend, Wis.

and an amount computed by multiplying the butterfat differential computed pursuant to § 988.85 (a) by 5.

(b) The price per hundredweight computed as follows:

(1) Multiply by 6 the average daily wholesale price per pound of 92-score butter in the Chicago market as reported by the Department of Agriculture during the month;

(2) Add an amount equal to 2.4 times the arithmetical average of the weekly prevailing price per pound of "Twins" during the month on the Wisconsin Cheese Exchange at Plymouth, Wisconsin: *Provided*, That if the price of "Twins" is not quoted on such Exchange the weekly prevailing price per pound of "Cheddars" shall be used; and

(3) Divide by 7, add 30 percent thereof, and then multiply by 4.

(c) The price per hundredweight computed as follows: Multiply by 4.0 the arithmetical average of daily wholesale prices per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the month, add 20 percent thereof, and add to such sum 3¾ cents for each full ½ cent that the arithmetical average of carlot prices per pound of nonfat dry milk solids, spray and roller process, for human consumption, f. o. b. Chicago area manufacturing plants, for the period from the 26th day of the immediately preceding month through the 25th day of the current month by the Department of Agriculture is above 5 cents.

§ 988.51 *Class prices.* Subject to the provisions of §§ 988.52 and 988.53 each handler shall pay producers, at the time and in the manner set forth in §§ 988.80 through 988.86, not less than the prices per hundredweight computed as follows for the respective quantities of Class I milk and Class II milk computed pursuant to § 988.46:

(a) *Class I milk price.* The price per hundredweight for Class I milk for the month shall be the basic formula price for the preceding month, subject to the adjustments provided in subparagraphs (1) and (2) of this paragraph:

(1) Add $1.50;

(2) Add if the utilization percentage calculated pursuant to subparagraph (3) of this paragraph is less than, or subtract if it is more than the base utilization range, an amount determined by multiplying the net utilization percentage calculated pursuant to subparagraph (4) of this paragraph or 12, whichever is less, by the appropriate rate as follows:

Pricing months:	Rate (cents)
December through February and August	2
March through July	1
September through November	4

(3) Calculate a utilization percentage for each month by dividing the net hundredweight of Class I milk disposed of from all pool plants for the first and second preceding months into the total hundredweight of producer milk for the same months, multiplying by 100, and rounding the resultant figure to the nearest whole number.

(4) Calculate a "net utilization percentage" by determining the amount by which the utilization percentage calculated pursuant to subparagraph (3) of this paragraph exceeds the higher figure or is less than the lower figure of the appropriate base utilization range in the following table:

Pricing month	First and second preceding months	Base utilization range
January	November-December	111-114
February	December-January	112-115
March	January-February	113-116
April	February-March	114-118
May	March-April	115-119
June	April-May	120-125
July	May-June	120-125
August	June-July	116-120
September	July-August	114-118
October	August-September	113-116
November	September-October	110-112
December	October-November	110-112

(b) *Class II milk price.* For the months of December through August the price for Class II milk shall be the price determined pursuant to subparagraph (1) of this paragraph rounded to the nearest cent. For all other months it shall be the basic formula price or the price determined pursuant to subparagraph (1) of this paragraph, plus 25 cents, whichever is less.

(1) The arithmetical average of the basic (or field) prices reported to have been paid or to be paid per hundredweight for milk of 4.0 percent butterfat content received from farmers during the month at the following plants or places for which prices have been reported to the Market Administrator or to the Department of Agriculture on or before the 6th day after the end of the month.

Company and Location

Pet Milk Co., Mayfield, Ky.
Pet Milk Co., Bowling Green, Ky.
Pet Milk Co., Greenville, Tenn.
Pet Milk Co., Abingdon, Va.
Carnation Co., Murfreesboro, Tenn.
Carnation Co., Statesville, N. C.
Carnation Co., Galax, Va.
Borden Co., Lewisburg, Tenn.
Borden Co., Chester, S. C.

§ 988.52 *Butterfat differential to handlers.* If the weighted average butterfat test of that portion of producer milk which is classified, respectively, in any class of utilization for a handler, pursuant to § 988.46, is more or less than 4.0 percent, there shall be added to, or subtracted from, as the case may be, the price for such class of utilization, for each one-tenth of 1 percent that such weighted average butterfat test is above or below, respectively, 4.0 percent, a butterfat differential (computed to the nearest 10th of a cent), calculated for each class of utilization as follows:

(a) *Class I milk.* Multiply by 0.13 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the immediately preceding month;

(b) *Class II milk.* Multiply by 0.115 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the month;

Provided, That such butterfat differential shall not exceed the result obtained

cream and any cream product, except or cream to a nonpool plant, except that the pounds of skim milk in Class I milk,

by dividing the Class II price pursuant to § 988.51 (b) by 40.

§ 988.53 *Location differentials to handlers.* For that milk which is received from producers at a pool plant located 50 miles or more from the City Hall in Knoxville, Tennessee, by shortest hard-surface highway distance, as determined by the market administrator, and which is transferred in the form of products designated as Class I milk in § 988.41 (a) (1) to another pool plant and assigned to Class I pursuant to the proviso of this section, or otherwise classified as Class I milk, the price specified in § 988.51 (a) shall be reduced at the rate set forth in the following schedule according to the location of the pool plant where such milk is received from producers:

Distance from the city hall in Knoxville (miles):	Rate per hundredweight (cents)
50 but less than 60	15
For each additional 10 miles or fraction thereof, an additional	1.5

Provided, That for purposes of calculating such location differential, products so designated as Class I milk which are transferred between pool plants shall be assigned to any remainder of Class II milk in the transferee-plant after making the calculations prescribed in § 988.46 (a) (1) through (4) and the comparable steps in § 988.46 (b) for such plant, such assignment to transferor plants to be made in sequence according to the location differential applicable at each plant, beginning with the plant having the largest differential.

DETERMINATION OF BASE

§ 988.60 *Daily average base.* Subject to the rules set forth in § 988.61, the daily average base for each producer shall be an amount calculated by dividing the total pounds of producer milk received from such producer by all handlers during the months of September through February immediately preceding, by the number of days from the first day of delivery by such producer during such months to the last day of February, inclusive, but not less than 120 days: *Provided*, That in the case of a producer whose milk is received at a plant which becomes fully subject to regulation for the first time upon the effective date of this amendment, such base shall be that which would have been calculated for such producer for the entire base forming period beginning September 1, 1954, or that which would have been calculated for the period beginning November 1, 1954, whichever is higher.

§ 988.61 *Base rules.* The following rules shall apply in connection with the establishment of bases:

(a) A base shall apply to deliveries of milk by the producer for whose account that milk was delivered during the base forming period;

(b) An entire base may be transferred by notifying the market administrator in writing before the last day of any month for which such base is to be transferred to the person named in such notice: *Provided*, That if the base is held jointly and such joint holding is terminated, the entire base transferable by any joint holder shall be his portion of such jointly held base as indicated by the joint holders.

§ 988.62 *Announcement of established bases.* On or before April 1, of each year, the market administrator shall notify each producer and the handler receiving milk from such producers of the daily base established by such producer.

DETERMINATION OF UNIFORM PRICES TO PRODUCERS

§ 988.70 *Computation of value of milk.* The value of producer milk received during each month by each handler shall be a sum of money computed by the market administrator as follows: (a) Multiply the pounds of such milk in each class by the applicable class price; (b) add together the resulting amounts; (c) add the amounts computed by multiplying the pounds of overage deducted from each class by the applicable class price; (d) add or subtract, as the case may be, an amount necessary to adjust for errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months; and (e) add an amount calculated by multiplying the hundredweight of skim milk and butterfat subtracted from Class I milk pursuant to § 988.46 (a) (3) and (b) by the rate of payment on unpriced milk determined pursuant to § 988.93 adjusted where required by the location differential applicable at the nearest nonpool plant(s) from which an equivalent amount of other source skim milk or butterfat was received: *Provided*, That if the nonpool plant source of any milk or milk product received at a pool plant is not clearly established such milk or product shall be considered to have been received from a source at the location of the pool plant where it is classified.

§ 988.71 *Computation of uniform price.* For each of the months of September through March the market administrator shall compute the uniform price per hundredweight for producer milk, of 4.0 percent butterfat content, f. o. b. market, as follows:

(a) Combine into one total the values computed pursuant to § 988.70 for all handlers who made the reports prescribed in § 988.30 for such month, except those in default of payments required pursuant to § 988.82 for the preceding month;

(b) Subtract if the average butterfat content of producer milk represented by the values included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 988.85 (a), and multiply the result by the total hundredweight of such milk;

(c) Add an amount equal to the sum of the deductions to be made from producer payments pursuant to § 988.80 (b) (2);

(d) Add an amount representing the cash balance on hand in the producer-settlement fund, less the total amount of contingent obligations to handlers pursuant to § 988.83;

(e) Divide the resulting amount by the total hundredweight of producer milk included in these computations; and

(f) Subtract not less than 4 cents nor more than 5 cents.

§ 988.72 *Computation of uniform prices for base milk and excess milk.* For each of the months of April through August, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk, each of 4.0 percent butterfat content, f. o. b. market, as follows:

(a) Combine into one total the value computed pursuant to § 988.70 for all handlers who made the reports prescribed in § 988.30 for such month, except those in default of payments required pursuant to § 988.82 for the preceding month;

(b) Subtract, if the average butterfat content of producer milk represented by the values included under paragraph (a) of this section is greater than 4.0 percent, or add, if such average butterfat content is less than 4.0 percent, an amount computed as follows: Multiply the amount by which the average butterfat content of such milk varies from 4.0 percent by the butterfat differential computed pursuant to § 988.85 (a), and multiply the result by the total hundredweight of such milk;

(c) Add an amount equal to the sum of the deductions to be made from producer payments pursuant to § 988.80 (b) (2).

(d) Add an amount representing the cash balance on hand in the producer-settlement fund, less the total amount of contingent obligations to handlers pursuant to § 988.83;

(e) Compute the value on a 4.0 percent butterfat basis of the aggregate quantity of excess milk for all handlers included in the computation pursuant to paragraph (a) of this section by multiplying the hundredweight of such milk not in excess of the total quantity of Class II milk included in such computation by the applicable prices for such Class II milk of 4.0 percent butterfat content beginning in series with the lowest price for Class II milk of 4.0 percent butterfat content; multiplying the hundredweight of such milk in excess of the total hundredweight of such Class II milk by the price for Class I milk of 4.0 percent butterfat content, and adding together the resulting amounts;

(f) Divide the total value of excess milk obtained in paragraph (e) of this section by the total hundredweight of such milk, and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 4.0 percent butterfat content received from producers;

(g) Subtract the value of excess milk determined by applying the uniform price obtained in paragraph (f) of this section from the value of all milk obtained in paragraph (d) of this section;

(h) Divide the amount obtained in paragraph (g) of this section by the total hundredweight of base milk included in these computations;

(i) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (h) of this section. The resulting figure shall be the uniform price for base milk of 4.0 percent butterfat content f. o. b. market.

§ 988.73 *Notification of handlers.* On or before the 10th day after the end of each month, the market administrator shall mail to each handler, at his last known address, a statement showing:

(a) The amount and value of his producer milk in each class and the totals thereof;

(b) For the months of April through August the amounts and value of his base and excess milk respectively, and the totals thereof;

(c) The uniform price(s) computed pursuant to §§ 988.71 and 988.72 and the butterfat differential computed pursuant to § 988.85 (a); and

(d) The amounts to be paid by such handler pursuant to §§ 988.82, 988.87, and 988.88 or § 988.92.

PAYMENTS

§ 988.80 *Time and method of payment for producer milk.* (a) On or before the last day of each month each handler shall make payment to each producer for milk received from him during the first 15 days of such month at not less than the Class II price per hundredweight for the preceding month: *Provided*, That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk, the handler shall, if so requested, pay such cooperative association on or before the 2d day before the end of each month an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this paragraph.

(b) On or before the 15th day after the end of each month each handler shall make payment to each producer for milk which was received from him during the month at not less than the uniform price computed pursuant to § 988.71, for the months of September through March, or at not less than the uniform price for base milk computed pursuant to § 988.72 with respect to base milk received from such producer, and at not less than the uniform price for excess milk computed pursuant to § 988.72 with respect to excess milk received from such producer, for the months of April through August, subject to the following adjustment: (1) The butterfat differential pursuant to § 988.85 (a), (2) less location differentials pursuant to § 988.85 (b), (3) less payment made pursuant to paragraph (a) of this section, (4) less marketing service deductions pursuant to § 988.88, (5) less proper deductions authorized in writing by the producer, and (6) adjusted for any error in calculating payment to such individual producer for past months; *Provided*, That if such handler has not received full payment for such month pursuant to § 988.83 he may reduce uniformly per hundredweight for all producers his payments pursuant to this paragraph by an amount not in excess of the per hundredweight reduction in payment from the market administrator: *Provided further*, That the handler shall make such balance of payment to those producers to whom it is due on or before the date for making payments pursuant to this paragraph next following that on which such balance of payment is received from the market administrator: *And provided further*, That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk, the handler shall if so requested pay such cooperative association, on or before the 13th day after the end of each month an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this paragraph.

§ 988.81 *Producer-settlement fund.* The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 988.82, 988.84, and 988.92, and out of which he shall make all payments pursuant to §§ 988.83 and 988.84: *Provided*, That payments due to any handler shall be offset by payments due from such handler.

§ 988.82 *Payments to the producer-settlement fund.* On or before the 12th day after the end of each month each handler shall pay to the market administrator any amount by which the total value of his milk computed pursuant to § 988.70 for such month is greater than the value of milk received by such handler from producers during the month, computed at the applicable minimum uniform prices as specified in §§ 988.71 and 988.72 adjusted for the differentials provided for in § 988.85.

§ 988.83 *Payments out of the producer-settlement fund.* On or before the 13th day after the end of each month, the market administrator shall pay to each handler, any amount by which the total value of his milk computed pursuant to § 988.70 for such month is less than the value of his producer milk received during the month, computed at the applicable minimum uniform prices as specified in §§ 988.71 and 988.72 adjusted for the differentials provided for in § 988.85. If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly per hundredweight such payments and shall complete such payments as soon as the appropriate funds are available.

§ 988.84 *Adjustment of errors in payment.* Whenever verification by the market administrator of payments by any handler discloses errors made in payments to the producer-settlement fund pursuant to § 988.82, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, pursuant to § 988.83, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer or cooperative association for milk received by such handler discloses payment of less than is required by § 988.80, the handler shall pay such balance due such producer or cooperative association not later than the time of making payment to producers or cooperative associations next following such disclosure.

§ 988.85 *Butterfat and location differentials to producers*—(a) *Butterfat differential to producers.* If, during the month, any handler has received, from any producer or cooperative association, milk having an average butterfat content other than 4.0 percent, such handler, in making payments prescribed in § 988.80 (b), shall add to the uniform price(s) per hundredweight paid to such producer or cooperative association for each one-tenth of 1 percent that the average butterfat content of such milk is above 4.0 percent not less than, or may deduct from the uniform price(s) per hundredweight for each one-tenth of 1 percent that the average butterfat content of such milk is below 4.0 percent not more than, an amount computed as follows: Multiply by 0.12 the average daily wholesale price per pound of 92-score butter in the Chicago market, as reported by the Department of Agriculture during the month and adjust to the nearest one-tenth of a cent.

(b) *Location differential to producers.* In making payment to producers pursuant to § 988.80, the uniform price to be paid for producer milk and the uniform price for base milk received at a pool plant located 50 miles or more from the City Hall in Knoxville, Tennessee, by the shortest hard-surfaced highway distance, as determined by the market administrator, shall be reduced according to the location of the pool plant where such milk was received at the following rate:

Distance from the city hall in Knoxville (miles):	Rate per hundredweight (cents)
50 but less than 60	15
For each additional 10 miles or fraction thereof an additional	1.5

§ 988.86 *Statement to producers.* In making payments required by § 988.80 each handler shall furnish each producer or cooperative association with a supporting statement in such form that it may be retained by the producer or cooperative association which shall show:

(a) The month and the identity of the handler and of the producer;

(b) The total pounds and the average butterfat content of milk delivered by the producer including for the months of April through August, the pounds of base milk and excess milk;

(c) The minimum rate or rates at which payment to the producer is required under the provisions of §§ 988.80 and 988.85;

(d) The rate which is used in making the payment if such rate is more than the applicable minimum;

(e) The amount or the rate per hundredweight of each deduction claimed by the handler including any deduction made pursuant to § 988.88, together with a description of the respective deductions; and

(f) The net amount of payment to the producer or cooperative association.

§ 988.87 *Expense of administration.* As his pro rata share of the expense of the administration of this part, each handler shall pay to the market administrator, on or before the 15th day after the end of each month, 4 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to butterfat and skim milk contained in (a) producer milk (including such handler's own production), (b) other source milk at his pool plant(s), and (c) Class I milk disposed of in the marketing area (except to a pool plant) from a nonpool plant not subject to the classification and pricing provisions of another order issued pursuant to the act.

§ 988.88 *Marketing services.* (a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 988.80 (b), shall deduct 6 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to all milk received by such handler from such producer (except such handler's own farm production), during the month, and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such money shall be used by the market administrator to verify weights, samples, and tests of milk received by handlers from such producers during the month and to provide such producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) *Producers' cooperative associations.* In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 15th day after the end of each month, pay over such deductions to the association rendering such services.

§ 988.89 *Termination of obligations.* The provisions of this section shall apply to any obligation under this part for the payment of money irrespective of when such obligation arose, except an obligation involved in an action instituted before December 1, 1951, under section 8c (15) (A) of the act or before a court.

(a) The obligation of any handler to pay money required to be paid under the terms of this order, shall, except as provided in paragraphs (b) and (c) of this section, terminate two years after the last day of the calendar month during which the market administrator receives the handler's utilization report on the milk involved in such obligation, unless within such two-year period the market administrator notifies the handler in writing that such money is due and payable. Service of such notice shall be complete upon mailing to the handler's last known address, and it shall contain but need not be limited to, the following information:

(1) The amount of the obligation;

(2) The month(s) during which the milk, with respect to which the obligation exists, was received or handled; and

(3) If the obligation is payable to one or more producers or to an association of producers, the name of such producer(s) or association of producers, or if the obligation is payable to the market administrator, the account for which it is to be paid.

(b) If a handler fails or refuses, with respect to any obligation under this part, to make available to the market administrator or his representatives all books and records required by this part to be made available, the market administrator may, within the two-year period provided for in paragraph (a) of this section, notify the handler in writing of such failure or refusal. If the market administrator so notifies a handler, the said two-year period with respect to such obligation shall not begin to run until the first day of the calendar month following the month during which all such books and records pertaining to such obligation are made available to the market administrator or his representatives.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, a handler's obligation under this order to pay money shall not be terminated with respect to any transaction involving fraud or willful concealment of a fact, material to the obligation, on the part of the handler against whom the obligation is sought to be imposed.

(d) Any obligation on the part of the market administrator to pay a handler any money which such handler claims to be due him under the terms of this part shall terminate two years after the end of the calendar month during which the milk involved in the claim was received if an underpayment is claimed, or two years after the end of the calendar month during which the payment (including deduction or set-off by the market administrator) was made by the handler if a refund on such payment is claimed, unless such handler, within the applicable period of time, files, pursuant to section 8c (15) (A) of the act, a petition claiming such money.

APPLICATION OF PROVISIONS

§ 988.90 *Producer-handlers.* Sections 988.40 through 988.46, 988.50 through 988.53, 988.60 through 988.62, 988.70 through 988.73, 988.80 through 988.88 shall not apply to a producer-handler.

§ 988.91 *Plants subject to other Federal orders.* A plant specified in paragraph (a) or (b) of this section shall be considered as a nonpool plant except that the operator of such plant shall, with respect to the total receipts and utilization or disposition of skim milk and butterfat at the plant, make reports to the market administrator at such time and in such manner as the market administrator may require (in lieu of the reports required pursuant to §§ 988.30 and 988.31) and allow verification of such reports by the market administrator:

(a) Any pool plant qualified pursuant to § 988.9 (a) which would be subject to the classification and pricing provisions of another order issued pursuant to the act unless the Secretary determines that more Class I milk is disposed of from such plant on routes to retail or wholesale outlets in the Knoxville, Tennessee marketing area than is so disposed of in the marketing area regulated pursuant to such other order.

(b) Any pool plant qualified pursuant to § 988.9 (b) which would be subject to the classification and pricing provisions of another order issued pursuant to the act unless such plant qualified as a pool plant pursuant to the provisions of § 988.9 (b) during the preceding August through February period.

§ 988.92 *Handlers operating nonpool plants.* Sections 988.42 through 988.46; 988.50 through 988.53; 988.70 through 988.73; 988.80 through 988.83; 988.87 and 988.88 shall not apply to a handler in his capacity as the operator of a nonpool plant, except that such handler shall pay to the market administrator on or before the 12th day after the end of each month for deposit into the producer-settlement fund an amount of money computed by multiplying the hundredweight of Class I milk disposed of from his nonpool plant(s) (except any nonpool plant subject to the classification and pricing provisions of another order issued pursuant to the act) during the month to retail or wholesale outlets in the marketing area (including deliveries by vendors or sales through plant stores) by the rate of payment on unpriced milk calculated pursuant to § 988.93.

§ 988.93 *Rate of payment on unpriced milk.* The rate of payment per hundredweight on unpriced Class I milk shall be calculated as follows:

(a) For the months of March through July, subtract the Class II price, adjusted by the Class II butterfat differential, from the Class I price, adjusted by the Class I butterfat differential and the Class I location differential.

(b) For the months of August through February, subtract the uniform price to producers from the Class I price.

EFFECTIVE TIME, SUSPENSION OR TERMINATION

§ 988.100 *Effective time.* The provisions of this part, or any amendments to this part, shall become effective at such time as the Secretary may declare and shall continue in force until suspended or terminated.

§ 988.101 *Suspension or termination.* The Secretary shall suspend or terminate any or all of the provisions of this part, whenever he finds that it obstructs or does not tend to effectuate the declared policy of the act. This part shall, in any event, terminate whenever the provisions of the act authorizing it cease to be in effect.

§ 988.102 *Continuing power and duty of the market administrator.* (a) If, upon the suspension or termination of any or all of the provisions of this part, there are any obligations arising hereunder, the final accrual or ascertainment of which requires further acts by any handler, by the market administrator, or by any other person, the power and duty to perform such further acts shall continue notwithstanding such suspension or termination: *Provided*, That any such acts required to be performed by the market administrator shall, if the Secretary so directs, be performed by such other person, persons, or agency as the Secretary may designate.

(b) The market administrator, or such other person as the Secretary may designate shall (1) continue in such capacity until discharged by the Secretary; (2) from time to time account for all receipts and disbursements and deliver all funds or property on hand together with the books and records of the market administrator, or such person, to such person as the Secretary shall direct; and (3) if so directed by the Secretary execute such assignments or other instruments necessary or appropriate to vest in such person full title to all funds, property, and claims vested in the market administrator or such person pursuant thereto.

§ 988.103 *Liquidation after suspension or termination.* Upon the suspension or termination of any or all provisions of this part, the market administrator or such person as the Secretary may designate shall, if so directed by the Secretary, liquidate the business of the market administrator's office, and dispose of all funds and property then in his possession or under his control, together with claims for any funds which are unpaid or owing at the time of such suspension or termination. Any funds collected pursuant to the provisions of this part, over and above the amounts necessary to meet outstanding obligations and the expenses necessarily incurred by the market administrator or such person in liquidating and distributing such funds, shall be distributed to the contributing handlers and producers in an equitable manner.

MISCELLANEOUS PROVISIONS

§ 988.110 *Separability of provisions.* If any provision of this part, or its application to any person or circumstances, is held invalid, the application of such provision, and of the remaining provisions of this part, to other persons or circumstances shall not be affected thereby.

§ 988.111 *Agents.* The Secretary may, by designation in writing, name any officer or employee of the United States to act as his agent or representative in connection with any of the provisions of this part.

Issued at Washington, D. C. this 26th day of November 1954 to be effective on and after December 1, 1954.

[SEAL] TRUE D. MORSE,
Acting Secretary of Agriculture.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 4]

PART 20—PILOT CERTIFICATES

CHANGES IN WRITTEN AND PRACTICAL TEST PROCEDURES AND REPORTS

The purpose of this supplement is to provide a uniform period of 24 months for the acceptance by the Administrator of reports of the successful completion of examinations or tests by applicants for a private or commercial pilot certificate; to relax the experience requirements prerequisite to taking the instrument written examination; to require a commercial pilot who has not taken a practical test on cross-country flying to demonstrate his competence; and to make certain editorial changes throughout the text of CAM 20.

1. Section 20.26–1 as published in 19 F. R. 2386 on April 23, 1954, is amended by adding a new paragraph (d), to read as follows:

§ 20.26–1 *Demonstration of skill; general (CAA interpretations which apply to § 20.26).* • • •

(d) *Flight test before written is passed.* The private pilot flight test may be taken before or after the written examination. An applicant who takes the flight test before passing the written examination will be issued a written report of the result of the test.

2. Section 20.34–1 as published in 19 F. R. 2387 on April 23, 1954, is amended by deleting the last sentence, beginning, "This report, and reports previously • • •".

3. Section 20.34–2 as published in 19 F. R. 2387 on April 23, 1954, is amended by adding the following: "A passing grade of 70 percent is required. Applicants who pass the written examination will be given a report of the grade achieved."

4. Section 20.36–1 as published in 19 F. R. 2387 on April 23, 1954, is revised to read as follows:

§ 20.36–1 *Demonstration of skill; general (CAA policies which apply to § 20.36).* The commercial pilot flight test may be taken either before or after the written examination. An applicant who takes the flight test before the written examination is passed will be given a written report of the result of the test.

5. Section 20.36–2 as published in 19 F. R. 2387 on April 23, 1954, is amended by adding the following item at the end of the list in Phase I of paragraph (b) (1):

§ 20.36–2 *Flight test; airplanes (CAA policies which apply to § 20.36 (a)).* • • •

Cross-country: Applicants who have not passed the private pilot flight test since August 1, 1951, will be required to demonstrate the competence in cross-country flight planning and flying required for a private pilot certificate by passing Phase II of the private pilot flight test, entitled Cross-country.

6. Section 20.42–1 as published in 19 F. R. 2387 on April 23, 1954, is revised to read as follows:

§ 20.42–1 *Demonstration of aeronautical knowledge (CAA policies which apply to § 20.42 (a)).* (a) The applicant must pass, within five hours at one sitting, the written examination furnished by the Administrator, which consists of three sections: Civil Air Regulations, Meteorology, and Radio Navigation. To pass, a grade of 70 percent must be achieved in each section. A written report of the grades achieved will be issued for each examination taken.

(b) An applicant for an instrument rating who is the holder of a private pilot certificate will not be required to take an additional examination to demonstrate compliance with § 20.34 (a). The portions of 43 and 60 pertaining to instrument flight rules, as well as the navigation and meteorology requirements of § 20.34 (a) are included in the instrument rating written examination.

7. Section 20.42–2 as published in 19 F. R. 2387 on April 23, 1954, is revised to read as follows:

§ 20.42–2 *Prerequisites for taking the instrument written examination (CAA policies which apply to § 20.42 (a)).* An applicant for an instrument rating written examination will be required to show that he meets the requirements of § 20.42 (b) (1); and, in addition, either has (a) at least 30 hours of instrument flight time under actual or simulated instrument flight conditions, or (b) if enrolled in an instrument flight course in a certificated instrument flying school, the written recommendation of the chief flight instructor of that school.

8. The following policy is hereby adopted:

§ 20.60–3 *Period of acceptance for reports of successful completion of examinations and tests (CAA policies which apply to § 20.60).* Reports of the results of oral or written examinations, or of flight tests, issued applicants for pilot certificates and ratings subsequent to June 1, 1954, will be accepted by the Administrator for a period of 24 months from the date of the examination or test reported thereon. Reports issued to an applicant on or before May 31, 1954, and acceptable under policies existing on that date, will continue to be accepted until May 31, 1956.

(Sec. 205, 52 Stat. 984, U. S. C. 425. Interpret or apply secs. 602, 608, 52 Stat. 1007, 1011, as amended; 49 U. S. C. 551, 558)

This supplement shall become effective November 30, 1954.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 54-9439; Filed, Nov. 29, 1954; 8:53 a. m.]

PART 48—OPERATION OF MOORED BALLOONS AND LARGE KITES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 24th day of November 1954.

Currently effective Part 48 applies to moored balloons of a certain size and specification, and sets up certain requirements for the operation of these balloons in order to safeguard air traffic. Recently it has been shown that kites when flown in certain locations or at sufficient altitude can also be a hazard to the flight of aircraft. In fact, large size kites having a 12-foot and 24-foot wing span and constructed of wood and nylon are now being manufactured and sold on a national basis. It has been reported that one of these kites was flown recently at an altitude of 5,000 feet on a civil airway. In view of this, the Board determined that there is a present need for amending Part 48 to apply to kites weighing more than five pounds. No change has been made in the moored balloon requirements.

Interested persons have been afforded an opportunity to participate in the making of this amendment, and due consideration has been given to all relevant matter presented.

Inasmuch as 4 of the 5 sections of the present Part 48 are hereby amended, the entire part is set forth below, including appropriate amendments.

In consideration of the foregoing, the Civil Aeronautics Board hereby revises Part 48 of the Civil Air Regulations (14 CFR Part 48, as amended) effective December 29, 1954, to read as follows:

Sec.
48.1 Scope.
48.2 General.
48.3 Operation requiring permit.
48.4 Operation requiring notice.
48.5 Rapid deflation device.

AUTHORITY: §§ 48.1 to 48.5 issued under sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551.

§ 48.1 *Scope.* This part shall apply to moored balloons having a diameter of more than 6 feet or a gas capacity of more than 115 cubic feet and kites weighing more than 5 pounds when operated anywhere in the United States, including the several States, the District of Columbia, and the several Territories and possessions of the United States, including the territorial waters and the overlying airspace thereof.

§ 48.2 *General.* Moored balloons having a diameter of more than 6 feet or a gas capacity of more than 115 cubic feet or kites weighing more than 5 pounds may be operated without permit from or notice to the Administrator when operated below 150 above the surface at a location more than 5 miles from the boundary of an airport. Kites and balloons of smaller size than specified herein are exempt from compliance with the regulations of this subchapter.

§ 48.3 *Operation requiring permit.* Unless operated under the conditions specified in § 48.2, moored balloons or kites subject to the regulations in this part shall be operated under the authority of and in compliance with the terms and conditions of a permit issued by the Administrator when such kites or moored balloons are operated:

(a) Closer than 500 feet to the base of any cloud, or

(b) During the hours of darkness, or

(c) When ground visibility is less than 3 miles, or

(d) At altitudes more than 500 feet above the surface, or

(e) Within 5 miles of the boundary of an airport.

§ 48.4 *Operation requiring notice.* Unless operated under the conditions specified in § 48.2 or § 48.3, written notice must be submitted to the nearest office of the Civil Aeronautics Administration at least 30 days prior to the date of operation when moored balloons or kites subject to the regulations in this part are operated between 150 and 500 feet above the surface. Such notice shall contain the name and address of the owner and person operating such balloon or kite, the date or dates of such proposed operation, and the location and altitude at which the proposed operation will be conducted.

§ 48.5 *Rapid deflation device.* No moored balloon having a diameter of more than 6 feet or a gas capacity of more than 115 cubic feet shall be operated unless it is equipped with a device or means of automatic and rapid deflation in the event of an escape from its moorings.

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

TITLE 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.238]

PART 2—FEES FOR SERVICES

Sec.
2.1 Schedule of fees.
2.2 Authenticating defined.
2.3 Issuance of uncertified copies.
2.4 Requesting services and forwarding remittances.

AUTHORITY: §§ 2.1 to 2.4 issued under R. S. 161, 213; 5 U. S. C. 22, 166.

CROSS REFERENCES: For fees in connection with passport services, see Part 51 and § 103.1 of this chapter. For fees in connection with visa services, see Part 44 and § 103.1 of this chapter. For the tariff of United States Foreign Service fees covering invoice services, passport services, visa services for aliens, services to vessels and seamen, and miscellaneous notarial and other services, see § 103.1 of this chapter. For regulations concerning deposit of funds, see Part 9 of this subchapter.

§ 2.1 *Schedule of fees.*

Item No.	Description of service	Fee
1	For each search for a record of which an authenticated or certified copy or extract is issued, and for each signed statement of negative result of a search. (The routine servicing of requests of persons having permission to do research in the records under section 181.2 of the Manual of Regulations and Procedures of the Department of State is not to be considered as searching within the meaning of this Item, unless an authenticated copy or extract of a record is issued.)	$0.90
2	For making out and authenticating copies of records in the Department of State, i. e., for copying (by photostat or otherwise) and certifying to correctness without affixing official seal, per sheet. (Fees for search and for official seal, if required, are chargeable separately under Items 1 and 4.)	$1.10
3	The same service as described in Item 2, when performed for any officer of the United States (Federal or State) in a matter relating to the duties of his office	No fee
4	For certifying under official seal to the correctness of copies or extracts made by the Department from its records, for each certification regardless of number of sheets in document. (Fees for search and for copying, if required, are chargeable separately under Items 1 and 2.)	$0.50
5	For authenticating Federal, State or Territorial seals, or for certifying to the official character of officers of the Department of State or of foreign diplomatic or consular officers in the United States, on any document submitted to the Department for that purpose.	$1.50
6	For any service as described in Items 1, 4, or 5 above—	
	(a) Required for official use by an agency of the Federal Government or of any of the States or their subdivisions, or of the District of Columbia or of any of the territories and possessions of the United States	No fee
	(b) Required for the official use of any foreign government, or of an international agency of which the Government of the United States is a member, in circumstances where furnishing the service is an appropriate courtesy	No fee
	(c) Performed in response to a subpoena or other order of a court	No fee
	(d) Performed in providing to a party in interest, one copy of the transcript of a hearing held before a panel, board, or other authority of the Department	No fee
	(e) Performed in providing to a party in interest, for delivery to and retention by an agency of the Federal Government, one copy under seal of a personal document (viz., consular form report of birth, certificate of witness to marriage, or death of an American citizen, etc.)	No fee
	(f) Performed in providing to a near relative or legal representative, one copy under seal of a consular form report of death of an American citizen	No fee

§ 2.2 *Authenticating defined.* (a) For the purposes of Items 1, 2, and 3 in § 2.1, "authenticating" is defined in the sense in which the word was employed in the act of September 15, 1789, from which section 213 of the Revised Statutes (5 U. S. C. 166) is derived, that is to say, certifying to the correctness of a copy of a record, without affixing an official seal. In connection with the derivation of 5 U. S. C. 166 it is to be noted that an amending act of April 23, 1856, had abolished a fee of 25 cents which had originally been prescribed for "authenticating" any paper under seal.

(b) Where used elsewhere in this part, the word "authenticating" is defined in conformity with the Department's present usage as certifying to the genuineness of a seal, or to the official character or position of an official. It is an act done with the intention of causing a document to be admitted in evidence in a court of law or in administrative proceedings before other competent authorities.

§ 2.3 *Issuance of uncertified copies.* (a) Item 2 of § 2.1 prescribes a fee for the combined service of copying and certifying to the accuracy of a record. It is for application in all cases where a record must be especially copied or reproduced, in order to comply with a request.

(b) Item 2 of § 2.1 shall not be construed to impose a fee upon the performance of such customary activities as issuance, without certification of correctness, of copies of records (1) from supplies kept for distribution without charge, such as press releases and information leaflets for visitors; (2) as part of normal and generally reciprocal services performed by the Library of the Department at the request of similar agencies or institutions; or (3) in lieu of or as enclosures to letters with the purpose of saving clerical costs in preparing mail.

§ 2.4 *Requesting services and forwarding remittances.* (a) Request for services, accompanied by remittance of the exact total fee chargeable (as well as by postage stamps or stamped return envelope if registered mail, air mail, or special delivery mail service is desired), should be addressed to the Authentication Officer, Department of State, Washington 25, D. C.

(b) Fees must be paid in full prior to issuance of requested documents. If, because of uncertainty as to existence of a record or of the number of sheets needing to be copied, the exact fee chargeable in a given case is not known in advance, the Authentication Officer will upon request ascertain it and (by form post card or other suitable means) notify the person requesting the service.

(c) Remittances should be in the form either of (1) cash, (2) check or bank draft drawn on a bank in the continental United States, or (3) postal money order. Remittances should be made payable to the order of the Department of State.

Effective date. The charges hereby established will become effective 30 days from the date of publication in the FEDERAL REGISTER. However, prior to the effective date, consideration will be given to any comments pertaining thereto which are submitted to the Department of State in writing.

Dated: November 22, 1954.

For the Secretary of State.

I. W. CARPENTER, Jr.,
Assistant Secretary of State for Personnel and Administration.

[F. R. Doc. 54-9423; Filed, Nov. 29, 1954; 8:50 a. m.]

TITLE 46—SHIPPING

Chapter I—Coast Guard, Department of the Treasury

Subchapter B—Merchant Marine Officers and Seamen

[CGFR 54-47]

PART 10—LICENSING OF OFFICERS AND MOTORBOAT OPERATORS AND REGISTRATION OF STAFF OFFICERS

MISCELLANEOUS AMENDMENTS

A notice regarding proposed changes in the navigation and vessel inspection rules and regulations was published in the FEDERAL REGISTER dated August 20, 1954 (19 F. R. 5315-5319), as Items I to XXVII, inclusive, on the Agenda to be considered by the Merchant Marine Council, and a public hearing was held on September 21, 1954, at Washington, D. C. This document is the second of a series of documents covering the rules and regulations considered at this public hearing.

All the comments, views, and data submitted in connection with the items considered by the Merchant Marine Council at this public hearing have been very helpful to the Coast Guard and are very much appreciated. On the basis of the information received certain proposed regulations were revised. However, acknowledgment of the comments received or reasons why the suggested changes were or were not adopted cannot be furnished since personnel is not available to handle the necessary correspondence. This document contains the amendments based on Item II of the Agenda considered by the Merchant Marine Council.

The amendment to 46 CFR 10.02–5, regarding requirements for original licenses, sets up another acceptable means of establishing citizenship, revises required documentary evidence of service, revises the basis on which credit is given for service on foreign vessels, and cancels requirements regarding professional examinations conducted by Merchant Marine Details abroad.

The amendment to 46 CFR 10.02–7, regarding requirements for raise of grade of license, adds the requirements showing the basis on which credit is given for service on foreign vessels for a raise in grade, and cancels the requirements regarding professional examinations conducted by Coast Guard Merchant Marine Details abroad.

The amendment to 46 CFR 10.20–3 (a) (2) and (3), regarding the general requirements for an applicant for a motorboat operator's license, will require applicants for original motorboat operators' licenses to be able to speak, write, and understand English, except in the Commonwealth of Puerto Rico where Spanish is the recognized and legal language, but such operator who is unable to speak English will have his license limited to the navigable waters of the United States in the vicinity of the Commonwealth of Puerto Rico.

The amendment to 46 CFR 10.05–13, regarding professional requirements for master of Great Lakes steam or motor vessels, revises the requirements to show the minimum tonnage acceptable for an unlimited license in a similar manner to that presently established for masters holding ocean licenses.

The amendment to 46 CFR 10.05–39 (a) revises the minimum service required to qualify an applicant for license as pilot of any class by canceling reference to service in a lower grade while holding a license as second class pilot for a raise in grade to first class pilot. A determination has been made that the only requirement for a raise in grade to first class pilot from second class pilot is that the applicant be 21 years of age or over. All other requirements for the two grades of pilotage are identical.

By virtue of the authority vested in me as Commandant, United States Coast Guard, by Treasury Department Order No. 120, dated July 31, 1950 (15 F. R. 6521), to promulgate regulations in accordance with the statutes cited with the regulations below, the following amendments to the regulations are prescribed which shall become effective 90 days after the date of publication of this document in the FEDERAL REGISTER, except those regulations which provide additional alternate requirements which become effective upon the date of publication of this document in the FEDERAL REGISTER:

SUBPART 10.02—GENERAL REQUIREMENTS FOR ALL DECK AND ENGINEER OFFICERS' LICENSES

1. Section 10.02–5 (c) is amended by revising subparagraph (9) and renumbering to (10) and by adding a new subparagraph (9), which reads as follows:

§ 10.02–5 *Requirements for original licenses.* • • •

(c) *Citizenship.* • • •

(9) For persons deriving citizenship through naturalization of their parents, a Certificate of Citizenship issued by the U. S. Immigration and Naturalization Service is acceptable as documentary evidence of citizenship.

(10) If no one of the requirements set forth in subparagraphs (1) to (9) of this paragraph can be met by the applicant, he should make a statement to that effect, and in an attempt to establish citizenship, he may submit for consideration data of the following character:

(i) Report of the Census Bureau showing the earliest record of age or birth available. Request for such information should be addressed to the Director of the Census, Washington 25, D. C. In making such request, definite information must be furnished the Census Bureau as to the place when the first census was taken after birth of the applicant, giving the name of the street and number of the house, or the names of the cross streets between which the house was located if residing in a city; or the name of the town, township, precinct, magisterial district, militia district, beat or election district if residing in the country; also the names of parents, or the names of other persons with whom residing on the date specified.

NOTE: A census was taken in the following years: June 1, 1860, 1870, 1880, and 1900; April 15, 1910; January 1, 1920; April 1, 1930; April, 1940, and April, 1950. (Records for 1890 are not available.)

(ii) Affidavits of parents, or relatives; or affidavits by two or more responsible citizens of the United States, stating citizenship; school records; immigration records; or insurance policies.

2. Section 10.02–5 (g) is amended by revising subparagraphs (1) and (4) to read as follows:

(g) *Experience or training.* (1) All applicants for original licenses shall present to the Officer in Charge, Marine Inspection, letters, discharges or other

official documents certifying the amount and character of their experience and the names of the vessels on which acquired. The Officer in Charge, Marine Inspection, must be satisfied as to the bona fides of all evidence of experience or training presented and may reject any evidence that he has reason to believe is not authentic or which does not sufficiently outline the amount, type and character of service. Photstatic or certified copies of the aforementioned evidence may be accepted for the purpose of filing with the application. No license shall be considered as satisfactory evidence of any qualifying experience required herein.

• • • • •

(4) Experience and service acquired on foreign vessels is creditable for establishing eligibility for an original license, subject to evaluation by the Commandant to determine that it is a fair and reasonable equivalent to service acquired on merchant vessels of the United States, with respect to grade, tonnage, horsepower, waters and operating conditions. An applicant who has obtained his qualifying experience on foreign vessels is required to submit satisfactory documentary evidence of such service in the forms prescribed by subparagraph (1) of this paragraph, which certify the amount, character and scope of his service in these respects.

3. Section 10.02–5 (h) (3) is canceled.

4. Section 10.02–7 is amended by canceling paragraph (g) (2) and by revising paragraph (f) (6) and adding paragraph (f) (7), reading as follows:

§ 10.02–7 *Requirements for raise of grade of license.* • • •

(f) *Experience or training.* • • •

(6) Experience and service acquired on foreign vessels while holding a valid U. S. Merchant Marine Officer's license is creditable for establishing eligibility for a raise in grade, subject to evaluation by the Commandant to determine that it is a fair and reasonable equivalent to service acquired on merchant vessels of the United States, with respect to grade, tonnage, horsepower, waters and operating conditions. An applicant who has obtained his qualifying experience on foreign vessels is required to submit satisfactory documentary evidence of such service in the forms prescribed by subparagraph (2) of this paragraph which certify the amount, character and scope of his service in these respects.

(7) The fact that an applicant for a raise in grade of license is on probation as a result of action under R. S. 4450, as amended (46 U. S. C. 239), does not itself make such an applicant ineligible, provided he meets all the requirements for such raise in grade. However, a raise in grade of license issued under these circumstances will be subject to the same probationary conditions as were imposed against the seaman's certificates or licenses in proceedings under R. S. 4450, as amended. Any such applicant must file an application for license in the usual manner, and the offense for which he was placed on probation will be considered on the merits of the case in determining his fitness to hold the license applied for. Nothing in the regulations in this part, however, shall be construed to permit an applicant to be examined for a raise in grade of license during any period when a suspension without probation or a revocation imposed pursuant to R. S. 4450, as amended, is effective against his license or certificate.

SUBPART 10.05—PROFESSIONAL REQUIREMENTS FOR DECK OFFICERS' LICENSES (INSPECTED VESSELS)

5. Section 10.05–13 is amended to read as follows:

§ 10.05–13 *Master of Great Lakes steam and motor vessels.* (a) The minimum service required to qualify an applicant for a license as master is listed in this paragraph. In order to be eligible for an unlimited license, an applicant must have acquired his service on vessels of 4000 gross tons or over, except as specified herein.

(1) 1 year's service as first class pilot while acting in the capacity of first mate on Great Lakes steam or motor vessels. (No change in existing regulation.)

(2) 2 years' service as first class pilot while acting in the capacity of second mate on Great Lakes steam or motor vessels.

(3) 4 years' service as first class pilot on Great Lakes steam or motor vessels, one year of which shall have been while acting in the capacity of second mate.

(4) 1 year's service as master of Great Lakes steam or motor vessels of 150 gross tons or under while acting under the authority of a first class pilot's license, for a license as master of Great Lakes steam and motor vessels of not over 1000 gross tons.

(5) 1 year's service as master and/or first class pilot on lakes, bays and sounds steam or motor towing vessels, together with 1 year of service as first class pilot on Great Lakes vessels of over 100 gross tons, for a license as master of Great Lakes towing vessels of not over 750 gross tons.

6. Section 10.05–39 *Pilot* is amended by canceling paragraph (a) (1) and by redesignating subparagraphs (2) and (3) to (1) and (2) so that paragraph (a) reads as follows:

§ 10.05–39 *Pilot.* (a) The minimum service required to qualify an applicant for license as pilot of any class, except for special license as pilot of steam vessels of 10 gross tons and under, is:

(1) 3 years' service in the deck department of any vessel; and,

(i) 25 percent of such service shall have been obtained within the 3 years immediately preceding the date of application; and,

(ii) The required service shall include a minimum number of round trips over the particular waters for which the applicant seeks license as pilot as may be fixed by the Officer in Charge, Marine Inspection, having jurisdiction (Experience on motorboats, as defined by statutes, may be accepted by the Officer in Charge, Marine Inspectiton); and,

(iii) One of the required number of round trips shall have been made within the 6 months immediately preceding the date of application; or,

(2) 2 years' service in the deck department of vessels propelled by machinery, which vessels navigate canals and small lakes like Seneca and Cayuga Lakes in New York State, 1 year of which service shall have been within 2 years immediately preceding the date of application, for a license as pilot of steam vessels of limited tonnage and routes.

SUBPART 10.20—MOTORBOAT OPERATORS' LICENSES

7. Section 10.20–3 (a) is amended by adding subparagraphs (2) and (3), reading as follows:

§ 10.20–3 *General requirements.* (a) • • •

(2) An applicant for a motorboat operator's license must demonstrate his ability to speak, read and understand English as found in the pilot rules, aids to navigation publications, emergency equipment instructions and machinery instructions.

(3) An applicant for a motorboat operator's license to operate motorboats on the navigable waters of the United States in the vicinity of Puerto Rico, who speaks Spanish only, will be issued a license restricted to those waters.

(R. S. 4405, as amended, 4462, as amended, 46 U. S. C. 375, 416. Interpret or apply R. S. 4438, as amended; sec. 2, 29 Stat. 188, as amended, secs. 1, 2, 49 Stat. 1544, sec. 7, 53 Stat. 1147, sec. 17, 54 Stat. 166, as amended; 46 U. S. C. 224, 225, 367, 247, 526p)

Dated: November 19, 1954.

[SEAL] J. A. HIRSHFIELD,
Rear Admiral, U. S. Coast Guard, Acting Commandant.

TITLE 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[T. D. 6113; Regs. 118]

PART 39—INCOME TAX: TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1951

REQUIREMENT FOR FILING INFORMATION RETURNS REPORTING DIVIDENDS PAID BY NATIONAL FARM LOAN ASSOCIATIONS AND PRODUCTION CREDIT ASSOCIATIONS FOR CALENDAR YEARS AFTER 1953

On August 21, 1954, a proposed revision of § 39.148 (a)–1 (b) of Regulations 118 (26 CFR Part 39) appeared in tentative form attached to a notice of proposed rule making published in the FEDERAL REGISTER (19 F. R. 5341). No suggestions having been received from interested persons regarding the proposal, the amendment, as proposed, is hereby adopted, and reads as set forth below.

Section 39.148 (a)–1 (b) of Regulations 118 (26 CFR Part 39), is amended by inserting in the third sentence thereof after the words "described in section 101 (10), (11), (12), or (13)," the following: "or, for calendar years after 1953, in the case of a national farm loan association or a production credit association,".

(53 Stat. 32, 65, 467; 26 U. S. C. 62, 148, 3791)

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

Approved: November 24, 1954.

M. B. FOLSOM,
Acting Secretary of the Treasury.

[F. R. Doc. 54–9418; Filed, Nov. 29, 1954; 8:49 a. m.]

Subchapter C—Miscellaneous Excise Taxes

[T. D. 48; Regs. 5]

PART 151—REGULATIONS UNDER THE HARRISON NARCOTIC LAW, AS AMENDED

NEW PROCEDURE FOR CERTIFICATION OF EXEMPT OFFICIALS AND PROCUREMENT OF NARCOTICS BY SUCH OFFICIALS

Narcotic Regulations 5 (26 CFR Part 151), relating to narcotics subject to the Harrison Narcotic Law, but only as prescribed and made applicable to the Internal Revenue Code of 1939 by Treasury Decision 4884, approved February 11, 1939 (26 CFR, Cum. Supp., p. 5875), are amended as follows:

PARAGRAPH 1. Section 151.90 (Article 90) is amended as follows:

(A) By striking subparagraph (4) of paragraph (d) and

(B) By redesignating subparagraph (5) of paragraph (e) as subparagraph (4) of paragraph (d).

PAR. 2. Section 151.92 (Article 92) is amended to read as follows:

§ 151.92 *Military and naval officers.* Each official of the Army, Navy, Air Force, Public Health Service, or National Guard, who is authorized to procure or purchase narcotic drugs or preparations for official use shall file with the district director of internal revenue for the area in which such person is officially located a certificate on Form 1964 from a superior official showing the name, official address and official status of the person claiming exemption. Each such certificate shall be renewed on or before July 1 of each year. With respect to the procurement of narcotic drugs and preparations by officials of the character indicated, see § 151.94, *Procurement of narcotics.* No exemption certificate shall be required under this section for officials who only prescribe, dispense, or administer narcotic drugs in the course of their official duties.

PAR. 3. Section 151.93 (Article 93) as amended by Treasury Decision 44, approved November 24, 1950, is further amended to read as follows:

§ 151.93 *Civil officers.* Each civil officer of the United States, or the District of Columbia, or of any State, Territory, or insular possession of the United States, or any county, municipality, or other political subdivision, who is engaged in any activity mentioned in the act and who claims exemption from registration and tax under the act, shall file with the district director of internal revenue for the district in which he is located a certificate on Form 1964 from a superior official showing the official status and official address of the person claiming exemption and (a) whether he is to purchase the narcotics or obtain from official stocks and (b) whether or not the officer is to administer or dispense narcotics. Each such certificate shall be renewed on or before July 1 of each year and, except in the case of officials of the United States, shall be accompanied by an inventory on the reverse side of Form 1964 of the narcotic drugs and preparations on hand at the time the certificate is filed.

PAR. 4. Section 151.94 (Article 94) is amended to read as follows:

§ 151.94 *Procurement of narcotics.* (a) When properly notified, as provided in § 151.92 relating to military and naval officers, of the right of an official to exemption with authority to purchase narcotics or, as provided in § 151.93, of the right of a civil officer to exempt status, the district director of internal revenue will assign to such official an exemption identification number. The same number shall be retained throughout all the consecutive periods for which the official is entitled to exemption. To each such official who is certified to the district director as an authorized purchaser of narcotics (except an official of a civil defense organization) will be issued without charge and without additional request, a book of official narcotic order blanks at the time of his original certification. Each order for the purchase of taxable narcotic drugs by such official shall be prepared on one of these order blanks which will be similar to, and will be prepared, filled, filed and otherwise handled in the same manner as official opium order forms supplied to persons registered under the law. (See Chapter V, Articles 62 to 90 and the instructions in the order book). Orders for exempt narcotic preparations (see §§ 151.2 and 151.90) shall not be prepared on such blanks but shall be on official stationery of the institution or agency for which they are being purchased, bearing the exemption identification number assigned to the purchasing official by the district director. Each order, whether on a blank supplied by the district director for taxable narcotics or on the stationery of the agency for exempt narcotic preparations, must be signed by the official named in the certificate filed with the district director and to whom the exemption identification number has been assigned. When an exempt official is replaced by another or for any reason is no longer authorized to make purchases of narcotics for the institution or agency for which previously certified to the district director, the unused official order blanks remaining in his possession or custody shall not be used by his successor but shall be returned to the district director for cancellation, and new forms will be issued to the successor. After using the forms in the first book issued to him, an official can procure additional blanks without charge by making application on Form 679, a copy of which is placed in each book of forms issued.

(b) The exempt status of an official of a civil defense organization will be recognized only during a state of civil defense emergency proclaimed by the President or by concurrent resolution of the Congress as provided by law. Such officials will not procure narcotics through the use of official internal revenue order forms but shall use an order form approved by the Federal Civil Defense Administration. The order form shall bear the signature, title, official address, and exemption identification number of the person executing the form, and will otherwise be handled in the manner prescribed for official internal revenue order forms.

(c) If an official is engaged in a private business or privately practices a profession in which narcotics are manufactured, produced, compounded, sold, dealt in, dispensed, prescribed, administered, or given away, such official shall register and pay the special tax for such private activity, and the narcotic drugs for such private purposes shall be secured upon regular order forms purchased under such registration.

PAR. 5. Section 151.95 (Article 95) is amended to read as follows:

§ 151.95 *Prescriptions.* (a) Prescriptions for narcotic drugs and preparations issued by exempt officials as such, in the course of official medical treatment of persons entitled to such official medical treatment, shall be prepared on official blanks if such blanks are provided, or otherwise on official stationery, and shall bear the signature, title, official address and exemption identification number of the person by whom executed. In the case of persons exempt under § 151.92 to whom no exemption identification number has been issued, the prescription shall bear, in lieu of the exemption identification number, the corps and jacket or serial number of the issuing officer. Such prescriptions issued in the course of official professional practice only and otherwise meeting the requirements of the regulations in this part may be filled by a duly registered druggist although they do not bear a registry number of the issuing practitioner.

(b) This procedure shall not apply in the case of prescriptions written by an exempt official in the treatment of a private patient, i. e., a patient not entitled to receive medical treatment from the physician in the course of the latter's official duties. In prescribing and dispensing narcotic drugs to such private persons, the officer is subject to all the requirements of the Federal narcotic law, including registration and payment of tax, as are imposed upon other physicians conducting private medical practice.

PAR. 6. Section 151.96 (Article 96) is amended by inserting the following new sentence after the first sentence thereof: "In time of a civil defense emergency, the Federal Civil Defense Administration order form may, in addition, be filled by local establishments, such as retail stores, and from Federal sources."

Because the purpose of this Treasury decision is merely to change the procedure to be followed by Government and State officials in applying for exemption and in procuring narcotics, it is found unnecessary to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective

date limitation of section 4 (c) of said act.

This Treasury decision shall be effective on the first day of the first month which commences more than sixty days after publication in the FEDERAL REGISTER.

(53 Stat. 270, 277, 283, 383; 26 U. S. C. 2551, 2559, 2606, 3222)

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.
H. J. ANSLINGER,
Commissioner of Narcotics.

Approved: November 24, 1954.

M. B. FOLSOM,
Acting Secretary of the Treasury.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter I—Office of Defense Mobilization

[Defense Mobilization Order I-14]

DMO I-14—ASSIGNMENT OF DEFENSE MOBILIZATION RESPONSIBILITIES TO THE HOUSING AND HOME FINANCE AGENCY

By virtue of the authority vested in me pursuant to the National Security Act of 1947, as amended; Reorganization Plan No. 3, effective June 12, 1953; the Defense Production Act of 1950, as amended; Executive Order 10480 of August 15, 1953; and in order to facilitate the coordination of Federal policies and programs for current defense activities and readiness for any future mobilization, it is hereby ordered:

1. The Housing and Home Finance Administrator will be responsible for the development and administration of preparedness measures relating to housing and those community facilities for which the Agency has responsibility. Such preparedness measures should be undertaken within a work program which is consistent with the defense mobilization assumptions and objectives for the Government as a whole. It should also take account of the delegation of authority and responsibility from Federal Civil Defense Administration. To assure consistency with the mobilization program as a whole, the proposed work program will be submitted to the Director of the Office of Defense Mobilization for review.

2. The measures for which the Housing and Home Finance Administrator is responsible are as follows:

a. Develop requirements for housing and community facilities construction, repair and rehabilitation in event of mobilization or attack on the United States and translate these needs into resources required.

b. Develop plans for and be prepared to undertake such housing and community facilities programs as will be necessary in event of mobilization or attack on the United States.

c. Under the policy direction and coordination of the Office of Defense Mobilization, develop programs and regulations relating to the financing, rent stabilization, and allocation of housing for varying mobilization assumptions.

d. Develop and maintain plans to insure the continuity of the essential functions of the Housing and Home Finance Agency in event of attack on the United States.

3. The work program to be undertaken by the Housing and Home Finance Agency shall indicate the priority and scope of the work to be carried on in the assigned areas. Periodic reports of programs shall be submitted as requested.

4. This order is not intended to affect any delegation of authority heretofore conferred upon the Housing and Home Finance Administrator.

OFFICE OF DEFENSE MOBILIZATION
ARTHUR S. FLEMMING,
Director.

NOVEMBER 26, 1954.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 967]

[Docket No. AO 170-A8]

HANDLING OF MILK IN SOUTH BEND-LA PORTE, INDIANA, MARKETING AREA

DECISION WITH RESPECT TO PROPOSED MARKETING AGREEMENT AND PROPOSED ORDER AMENDING ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), a public hearing was conducted at South Bend, Indiana, on July 6-7, 1954, pursuant to notice thereof which was issued on June 29, 1954 (19 F. R. 4040).

Upon the basis of the evidence introduced at the hearing and the record thereof, the Acting Deputy Administrator, Agricultural Marketing Service, on November 5, 1954, filed with the Hearing Clerk, United States Department of Agriculture, his recommended decision and opportunity to file written exceptions thereto. This recommended decision was published in the FEDERAL REGISTER on November 10, 1954 (19 F. R. 7298).

A previous recommended decision (19 F. R. 4999) filed on August 4, 1954, with the Hearing Clerk, and a decision of the Secretary filed on August 16, 1954 (19 F. R. 5283) dealt with issue No. 1 and with issue No. 2 on a temporary basis. This decision deals with issues No. 2 through No. 5.

The material issues, findings and conclusions, and general findings of the recommended decision (19 F. R. 7298; F. R. Doc. 54-8866) are hereby approved and adopted as the findings and conclusions of this decision as if set forth in full herein, with the following exceptions:

1. Delete in their entirety the findings and conclusions with respect to Class I price differentials beginning in column 2, page 7298, and substitute therefor the following:

4. *Class I differentials.* Class I differentials over the basic formula price should be revised.

With the base-excess plan of producer payment now in effect, seasonal variations in the Class I differentials should be reduced. Also, the seasonal pattern should be aligned closer to that of the Chicago area. These adjustments should not result in any material change in the annual level of the Class I price.

Official notice is taken of current published reports of the market administrator showing the present supply situation. Production for this area in August was 0.39 percent below a year ago. Production has declined from 15 percent above that of a year ago in January 1954 to slightly under the level of last year in August. But, the record shows that supplies last year were ample and that about the same level of production will fully meet the anticipated needs of the market. Class I sales in July this year were about the same as last year and in August they were nearly 5 percent below August 1953. Under these circumstances there should be no material change in the average annual Class I (fixed) differential over the basic formula price.

The chief concern of both producers and handlers was with a seasonal pattern of fixed differentials that would align prices closer with prices paid by handlers in surrounding market areas. While it was recognized that the adoption of the base-excess plan diminished the need for seasonal variation in the Class I price, parties were agreed that it is necessary to have a seasonal change in the differentials in order to keep the price here reasonably competitive throughout the year with prices in areas with adjoining or over-lapping milksheds. Of these, Chicago is the most influential. To be competitive with Chicago as well as with other markets, the $1.30 differential for fall and early winter months must be continued. Shortening this period from seven to five months conforms more closely with Chicago area pricing. For the months of January and February the Class I differential would be $1.10 and for March through July, $0.90. This would continue the average annual differential the same as at present but adjusts the seasonal pattern closer to that of prices in the Chicago area.

2. The proposed amendment to the order contained in the decision of the Secretary issued August 16, 1954, and the amendment to the order issued effective September 1, 1954 (19 F. R. 5574), did not bring § 967.80 (c) into full conformity with other order changes resulting from the adoption of the base and excess method of paying producers. The language for § 967.80 (c) adopted in the amendment effective September 1, 1954 should be deleted, and the language effective prior to that amendment should be substituted, with a slight change, however, in the heading of the schedule therein which sets forth the rate of advance payments. The column of brackets should be entitled "When the uniform price or base price for the preceding delivery period is:".

Rulings on exceptions. In arriving at the findings and conclusions included in this decision, each of the exceptions received was carefully and fully considered in conjunction with the record evidence pertaining thereto. To the extent that the findings and conclusions herein are at variance with the exceptions, such exceptions are overruled.

Determination of representative period. The month of August 1954 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of an order amending the order, as amended, regulating the handling of milk in the South Bend-La Porte, Indiana, marketing area in the manner set forth in the attached amending order is approved or favored by producers who during such period were engaged in the production of milk for a sale in the marketing area specified in such marketing order, as amended.

Marketing agreement and order. Annexed hereto and made a part hereof are two documents entitled respectively, "Marketing Agreement Regulating the Handling of Milk in the South Bend-La Porte, Indiana, Marketing Area" and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the South Bend-La Porte, Indiana, Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order, as amended, and as hereby proposed to be further amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 24th day of November 1954.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the South Bend-La Porte, Indiana, Marketing Area

§ 967.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of each of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the South Bend-La Porte, Indiana, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act.

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof, the handling of milk in the South Bend-La Porte, Indiana, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 967.51 delete paragraph (a) and substitute the following:

(a) Add to the basic formula price (3.5 percent milk) the following amount for the delivery period indicated: August, September, October, November and December, $1.30; January and February, $1.10; all others $0.90; *Provided,* That such Class I price shall be increased or decreased respectively, 3 cents for each full percent that the current supply-demand ratio is greater or less than 72 percent, but shall not be increased or decreased more than 24 cents due to the supply-demand ratio.

2. In § 967.51 delete paragraph (b) and substitute the following:

(b) Add together the amount computed pursuant to § 967.50 (c) (2) and any amount per hundredweight by which (on a 3.5 percent butterfat basis) the effective basic formula price pursuant to § 967.50 is higher than the price computed pursuant to § 967.50 (c), divide such sum by 0.035, and then add thereto the following amount for the delivery period indicated: August, September, October, November and December, $13.75; all others, $12.00: *Provided,* That such amount for the delivery period indicated shall be increased or decreased, as the case may be, by the amount per hundredweight resulting from the proviso of paragraph (a) of this section divided by 0.035. The resulting amount shall be the price of butterfat in Class I milk.

3. In § 967.52 delete paragraphs (b) and (c), and insert a new paragraph (b) as follows:

(b) The price of skim milk in Class II milk shall be computed by subtracting the hundredweight price of butterfat computed pursuant to paragraph (a) of this section times 0.035, from the price determined pursuant to § 967.50 (a), and divide the remainder by 0.965.

4. Delete § 967.80 (c) and substitute therefor the following:

(c) On or before the 4th day after the end of such delivery period each handler shall pay to each producer, or to a cooperative association authorized to collect payment, not less than the amount per hundredweight provided in the schedule set forth in this paragraph, for milk received from such producer or caused to be delivered to such handler by such cooperative association during the first 15 days of such delivery period: *Provided,* That in the event any producer or cooperative association discontinues shipping to such handler during any delivery period, such partial payments shall not be made and full payment for all milk received from such producer or cooperative association during such delivery period shall be made on or before the 18th day after the end of such delivery period pursuant to paragraphs (a) and (b) of this section:

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, governing proceedings to formulate marketing agreements and marketing orders have been met.

When the uniform price or base price for the preceding delivery period is:	*The amount of the partial payment shall be—*
Under $1.00	$0.00
$1.00 to $1.99	1.00
$2.00 to $2.99	2.00
$3.00 to $3.99	3.00
$4.00 to $4.99	4.00
$5.00 to $5.99	5.00
$6.00 to $6.99	6.00
$7.00 and over	7.00

[F. R. Doc. 54-9426; Filed, Nov. 29, 1954; 8:50 a. m.]

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR (1954) Part 245]

BEER

NOTICE OF PROPOSED RULE-MAKING

Notice is hereby given, pursuant to the Administrative Procedure Act, approved June 11, 1946, that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury. Prior to final adoption of such regulations, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing, in duplicate, to the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Washington 25, D. C., within the period of 15 days from the date of publication of this notice in the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U. S. C. 7805).

[SEAL] T. COLEMAN ANDREWS,
Commissioner of Internal Revenue.

Preamble: 1. These regulations, Part 245, Title 26, of the Code of Federal Regulations, shall, as to facts and circumstances arising on and after January 1, 1955, supersede Regulations 18, 1951 edition (26 CFR (1939) Part 192, 16 F. R. 9382) as amended by Treasury Decisions 6069 (19 F. R. 1929), 6075 (19 F. R. 4025), 6084 (19 F. R. 5059), and 6092 (19 F. R. 5219).

2. These regulations shall not affect any act done or any liability or right accruing or accrued, or any suit or proceeding had or commenced before the effective date of these regulations.

Subpart A—Scope of Regulations

Sec.
245.1 Beer.
245.2 Forms prescribed.

Subpart B—Definitions

245.5 Meaning of terms.
245.6 Assistant Regional Commissioner.
245.7 Beer.
245.8 Bottle and bottling.
245.9 Brewer.
245.10 Brewery.
245.11 Brewing.
245.12 Business day.
245.13 Cereal beverage.
245.14 Commissioner.
245.15 Director, Alcohol and Tobacco Tax Division.
245.16 District Director.
245.17 Gallon.
245.18 Includes and including.
245.19 Inclusive language.
245.20 I. R. C.
245.21 Person.
245.22 Region.
245.23 U. S. C.

Subpart C—Location and Use of Brewery

245.30 Restrictions.
245.31 Use of brewery.
245.32 Storage of bottled beer on which the tax has been paid or determined.

Subpart D—Construction

245.35 Brewery buildings.
245.36 Division of brewery.
245.37 Empty container storage room.
245.38 Government cabinet.

PIPELINE TRANSFERS TO BOTTLING HOUSE

245.39 General.
245.40 Pipelines.
245.41 Other pipelines.
245.42 Facilities for cleaning pipeline.

Subpart E—Equipment

245.50 Tanks and vats.
245.51 Other apparatus and equipment.

Subpart F—Beer Meters

245.55 Meters required.
245.56 Notice of meter shipment.
245.57 Location and installation.
245.58 Strainers.
245.59 Tests, repairs, and adjustments.
245.60 Facilities for meter tests.

Subpart G—Qualifying Documents

245.65 Notice on Form 27-C.
245.66 Description of brewery.
245.67 Description of buildings.
245.68 Description of apparatus and equipment.
245.69 Statement of title.
245.70 Supplemental notice.
245.71 Corporate documents.
245.72 List of stockholders.
245.73 Affidavit.
245.74 Articles of partnership or association.
245.75 Trade name certificate.
245.76 Bottling or packaging under trade name.
245.77 Power of attorney. Form 1534.
245.78 Execution of power of attorney.
245.79 Duration of power of attorney.
245.80 Bond, Form 1566.
245.81 Penal sum of bond.
245.82 Plat.
245.83 Additional information.
245.84 Examination of qualifying documents.
245.85 Return of qualifying documents to brewer or applicant.

Subpart H—Bonds and Consents of Surety

245.90 General requirements.
245.91 Conditions of bond.
245.92 Surety or security.
245.93 Corporate surety.
245.94 Two or more corporate sureties.
245.95 Powers of attorney.
245.96 Interest in business.
245.97 Deposit of collateral.
245.98 Consents of surety.
245.99 Approval required.
245.100 Renewal of bond.
245.101 Authority to approve.
245.102 Cause for disapproval.
245.103 Appeal to Director, Alcohol and Tobacco Tax Division.
245.104 Disapproval of Director, Alcohol and Tobacco Tax Division, final.
245.105 Additional or strengthening bonds.
245.106 New bond.
245.107 Superseding bond.

Subpart I—Plats

245.110 Preparation.
245.111 Description of brewery.
245.112 Conduits or pipelines.
245.113 Certificate of accuracy.
245.114 Revised plats.

Subpart J—Changes in Name, Proprietorship, Control, Location, Premises, and Equipment

CHANGES IN INDIVIDUAL, FIRM, OR CORPORATE NAME

245.120 Notice, Form 27-C.
245.121 Amended articles of incorporation, etc.
245.122 Amended articles of partnership or association.
245.123 Records.
245.124 Marking and branding.

TRADE NAMES

245.125 General.
245.126 Trade name certificate.
245.127 Records.
245.128 Marking and branding.

CHANGES IN PROPRIETORSHIP

245.129 Nonfiduciary successor.
245.130 Fiduciary.
245.131 Consent of surety.
245.132 Plats.
245.133 Approval required.

OTHER CHANGES IN PROPRIETORSHIP OR CONTROL

245.134 Change in partnership.
245.135 Exception, change in partnership.
245.136 Changes in stockholders, officers, and directors of corporation.
245.137 Reincorporation.
245.138 Transfer of business.

CHANGES IN LOCATION, PREMISES, AND EQUIPMENT

245.139 Change in location.
245.140 Changes in premises.
245.141 Changes in equipment, or in construction or use of a room or building.

SPECIAL TAX STAMPS

245.142 Liability; change in name.
245.143 Liability; change in proprietorship.
245.144 Persons having right of succession.
245.145 Liability; change in location.

Subpart K—Termination of Bonds

245.150 Termination of brewer's bond.
245.151 Application of surety for relief from bond.
245.152 Action on application for termination of brewer's bond.
245.153 Notices, Forms 1490 and 1491.
245.154 Release of collateral.

Subpart L—Notice of Discontinuance of Business

245.160 Form of notice.

Subpart M—Special Taxes

245.165 Special tax.
245.166 Special tax return.
245.167 Execution of Form 11.
245.168 Wholesale and retail special tax exemption.
245.169 Sale of bottled beer.
245.170 Wholesale dealer in beer.
245.171 Retail dealer in beer.
245.172 Posting special tax stamp.
245.173 Sale at purchaser's place of business.
245.174 Each place of business taxable.

Subpart N—Tax on Beer

245.180 Rate of tax.
245.181 Persons liable for tax.
245.182 Method of taxpayment.
245.183 Determination of tax on keg beer.
245.184 Determination of tax on bottled beer.
245.185 Tax computations for bottled beer.
245.186 Time of tax determination and payment.

245.187 Handling of a day's gross tax liability of less than $100.
245.188 Evasion of or failure to pay tax.

Subpart O—Marks, Brands, and Labels

245.195 Barrels and cases.
245.196 Bottles.

MORE THAN ONE BREWERY OWNED BY THE SAME PERSON

245.197 Barrels or kegs.
245.198 Cases.
245.199 Rebranding barrels or kegs.
245.200 Tanks, vehicles, and vessels.

Subpart P—Removal of Brewer's Yeast and Other Articles

245.205 Containers and records.
245.206 Malt sirup.

Subpart Q—Transfers to Another Brewery of Same Ownership

245.210 General.
245.211 Kinds of containers.
245.212 Determination of quantity transferred.
245.213 Losses in transit.
245.214 Mingling.
245.215 Report of transfers between breweries.
245.216 Transfers in same region.
245.217 Transfers to other regions.
245.218 Application for remission of tax.

Subpart R—Removals to Contiguous Alcohol Plants

245.225 Beer removed to contiguous alcohol plants.
245.226 Brewery and alcohol plant separate.
245.227 Measuring tanks.
245.228 Cereal beverage.
245.229 Production report.
245.230 Records.
245.231 Supervision by storekeeper-gauger.

Subpart S—Removal of Beer Unfit for Beverage Use

245.235 Removal of sour or damaged beer.
245.236 Packages.
245.237 Application.
245.238 Entry on Form 103.

Subpart T—Beer Returned to Brewery

245.240 Temporary storage of undelivered beer.
245.241 Temporary storage of repossessed bottled beer.
245.242 Recasing or relabeling; application.
245.243 Beer removed from market.

Subpart U—Refund and Credit of Tax or Relief From Liability

245.250 Beer returned for reconditioning, use as material, or destruction.
245.251 Brewer's application; beer removed from market.
245.252 Assignment of inspector.
245.253 Beer lost or destroyed by fire, casualty, or act of God.
245.254 Claims for refund of tax.
245.255 Claims for allowance of credit for tax.

Subpart V—Exportation

245.260 General.
245.261 Exportation of taxpaid beer.
245.262 Exportation without payment of tax.
245.263 Foreign trade zones.
245.264 Evidence of exportation.
245.265 Removal for exportation.
245.266 Marks on containers.
245.267 Consignment to Collector of Customs.
245.268 Notice, Form 1689.
245.269 Shipment to Armed Services.
245.270 Change in consignee.
245.271 Delivery to carrier.
245.272 Return of beer.
245.273 Exportation through border port.
245.274 Certificate by export carrier.
245.275 Delay in lading.
245.276 Examination by customs officer.
245.277 Losses in transit.
245.278 Other evidence of exportation required.
245.279 Application for relief.
245.280 Evidence to support application.
245.281 Assistant Regional Commissioner's action on application.
245.282 Assistant Regional Commissioner's account.
245.283 Tax assessed.
245.284 Brewer's report.

Subpart W—Supplies for Vessels and Aircraft

245.290 General.
245.291 Reciprocating foreign countries.
245.292 Procedure applicable.
245.293 Form 1689.
245.294 Evidence of lading for use.

Subpart X—Beer Procured From Another Brewer

245.300 Notice to Assistant Regional Commissioner.
245.301 Producer's entries on Form 103.
245.302 Receiving brewer's entries on Form 103.
245.303 Form of notice.

Subpart Y—Cereal Beverage

245.305 Production of cereal beverage.
245.306 Method of production.
245.307 Transfer to bottling house.
245.308 Supervision by inspector.
245.309 Special taxes.
245.310 Samples for analysis.
245.311 Packages.
245.312 Cases.
245.313 Labels.
245.314 Unlabeled bottles.
245.315 Products kept separate.
245.316 Record and report of materials used.

Subpart Z—Samples of Beer

245.320 General.
245.321 Application.
245.322 Approval of application.
245.323 Labeling.
245.324 Records.
245.325 Residues of samples.
245.326 Analysis in brewery.
245.327 Taxpayment.

Subpart AA—Miscellaneous Provisions

245.330 Officer's right of entry and examination.

VARIATIONS FROM REQUIREMENTS

245.331 Exceptions to construction and equipment requirements.
245.332 Exceptions to methods of operation.
245.333 Application.

Subpart BB—Records, Reports, and Returns

245.340 Form 2051.
245.341 Form 103.
245.342 Beer tax return, Form 2034.
245.343 Period for which return is filed.
245.344 Time and place of filing.
245.345 Pipeline transfer record.
245.346 Inventory of beer in bottling house.
245.347 Brewery bottling house losses.
245.348 Purchase record.
245.349 Production record.
245.350 Daily record.
245.351 Removal record.
245.352 Daily sales record.
245.353 Timely entry in records.
245.354 Brewer's application to destroy or return beer to brewery.
245.355 Verification.
245.356 Retention of records.

AUTHORITY: §§ 245.1 to 245.356 issued under 68A Stat. 917; 26 U. S. C. 7805. Other statutory provisions interpreted or applied are cited to text in parenthesis.

SUBPART A—SCOPE OF REGULATIONS

§ 245.1 *Beer.* The regulations in this part relate to beer and cereal beverages and cover the location, construction, equipment, and operations of breweries and the qualification of such establishments including the ownership, control, and management thereof.

§ 245.2 *Forms prescribed.* The Director, Alcohol and Tobacco Tax Division, is authorized to prescribe all forms required by this part, including bonds, applications, notices, reports, returns, and records. Information called for shall be furnished in accordance with the instructions on the forms or issued in respect thereto.

SUBPART B—DEFINITIONS

§ 245.5 *Meaning of terms.* When used in this part, where not otherwise distinctly expressed or manifestly incompatible with the intent thereof, terms shall have the meanings ascribed in this subpart.

§ 245.6 *Assistant Regional Commissioner.* "Assistant Regional Commissioner" shall mean the Assistant Regional Commissioner, Alcohol and Tobacco Tax, who is responsible to, and functions under the direction and supervision of, the Regional Commissioner of Internal Revenue.

§ 245.7 *Beer.* "Beer" shall mean beer, ale, porter, stout and other similar fermented beverages (including saké or similar products) of any name or description containing one-half of 1 percent or more of alcohol by volume, brewed or produced from malt, wholly or in part, or from any substitute therefor.

(68A Stat. 612; 26 U. S. C. 5052)

§ 245.8 *Bottle and bottling.* "Bottle" shall mean a bottle, can, or similar container, and "bottling" shall mean the filling of bottles, cans, and similar containers.

(68A Stat. 676; 26 U. S. C. 5416)

§ 245.9 *Brewer.* "Brewer" shall mean the proprietor of a brewery.

§ 245.10 *Brewery.* "Brewery" shall mean the land and buildings described as such in the brewer's notice on Form 27-C, where beer is to be produced and bottled. "Brewery bottling house" shall mean that portion of the brewery set apart by the brewer, and so described on Form 27-C, where beer is to be bottled.

(68A Stat. 674, 675; 26 U. S. C. 5402, 5411)

§ 245.11 *Brewing.* "Brewing" shall mean the production of beer for sale.

§ 245.12 *Business day.* "Business day" shall mean the 24-hour cycle of operations in effect at the brewery, which, if other than the calendar day, is subject to the approval of the Assistant Regional Commissioner, but in no event shall a closing hour earlier than noon be approved. The business day, having been once established, shall be applicable to all records and operations of the brewery, and shall not be changed without prior approval of the Assistant Regional Commissioner.

§ 245.13 *Cereal beverage.* "Cereal beverage" shall mean malt beverage, either fermented or unfermented, which contains, when ready for consumption, less than one-half of 1 percent of alcohol by volume.

§ 245.14 *Commissioner.* "Commissioner" shall mean the Commissioner of Internal Revenue.

§ 245.15 *Director, Alcohol and Tobacco Tax Division.* "Director, Alcohol and Tobacco Tax Division" shall mean the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Treasury Department, Washington, D. C.

§ 245.16 *District Director.* "District Director" shall mean a District Director of Internal Revenue.

§ 245.17 *Gallon.* "Gallon" shall mean the liquid measure containing 231 cubic inches.

(68A Stat. 612; 26 U. S. C. 5052)

§ 245.18 *Includes and including.* "Includes" and "including" shall not be deemed to exclude things other than those enumerated which are in the same general class.

§ 245.19 *Inclusive language.* Words in the plural form shall include the singular and vice versa, and words in the masculine gender shall include the feminine as well as individuals, trusts, estates, partnerships, associations, companies, corporations, and other legal entities.

§ 245.20 *I. R. C.* "I. R. C." shall mean the Internal Revenue Code of 1954.

§ 245.21 *Person.* "Person" shall mean and include an individual, a trust, estate, partnership, association, company, corporation, and other legal entities.

(68A Stat. 911; 26 U. S. C. 7701)

§ 245.22 *Region.* "Region" shall mean an internal revenue region.

§ 245.23 *U. S. C.* "U. S. C." shall mean the United States Code.

SUBPART C—LOCATION AND USE OF BREWERY

§ 245.30 *Restrictions.* A brewery may not be established or operated in any dwelling house, shed, yard, or inclosure connected therewith or on board any vessel or boat, or in any building or on any premises where distilled spirits, alcohol, vinegar, or ether are manufactured, produced, or stored; or where any liquor or beverages (other than beer, cereal beverages, and soft drinks produced and packaged or bottled at the brewery) are kept, sold, or dealt in either at wholesale or retail.

§ 245.31 *Use of brewery.* The brewery shall be used exclusively, except as provided herein, for the purposes of producing and packaging or bottling beer, cereal beverages, soft drinks and other non-alcoholic beverages, vitamins, ice, malt, malt sirup, and other byproducts; of drying spent grain from the brewery; of recovering carbon dioxide and yeast; and of storing bottles, packages, and supplies necessary or incidental to all such operations. The bottling of beer, cereal beverages, soft drinks and other non-alcoholic beverages shall be conducted in the brewery bottling house. Where any brewery was on June 26, 1936, being used by a brewer for purposes other than those described in this subpart, the use of such premises for such other purposes may be continued by such brewer. Subject to such conditions as the Director, Alcohol and Tobacco Tax Division, may prescribe, the brewery may be used for other purposes, not involving the production or storage of alcoholic beverages, which (a) require the use of byproducts or wastage from the production of beer, or utilize buildings, rooms, areas, or equipment not fully employed in the production or bottling of beer, (b) are reasonably necessary to realize the maximum benefit from the premises and equipment and to reduce the overhead of the plant, and (c) will not impede the effective administration of this part: *Provided*, That the Director, Alcohol and Tobacco Tax Division, shall find, upon application made to him through the Assistant Regional Commissioner in each case, that such use will not jeopardize the revenue and is not contrary to the specific provisions of law.

(68A Stat. 675; 26 U. S. C. 5411)

§ 245.32 *Storage of bottled beer on which the tax has been paid or determined.* Bottled beer on which the tax has been paid or determined may not be stored in the brewery: *Provided*, That such beer, if it is undelivered, repossessed from a purchaser, or removed from the market by the brewer before transfer of title thereto to any other person, may be held temporarily pending its removal, destruction, reconditioning, or use as material, as provided in §§ 245.240, 245.241 and 245.243.

(68A Stat. 613, 675; 26 I. R. C. 5057, 5411)

SUBPART D—CONSTRUCTION

§ 245.35 *Brewery buildings.* Brewery buildings must be securely constructed of substantial materials and shall be adjacent or contiguous and so arranged and constructed as to afford adequate protection to the revenue and facilitate inspection by internal revenue officers. If there are buildings or parts of buildings which adjoin the brewery but are not part thereof, they must be separated from the brewery by substantial and unbroken walls and floors: *Provided*, That the Assistant Regional Commissioner may authorize doors or other openings when, in his opinion, such openings will not jeopardize the revenue.

§ 245.36 *Division of brewery.* The brewer shall designate the use of each building, cellar, room, or other division of the brewery by placing a plain and durable sign or legend (descriptive of its use) on or near the entrance thereto. If more than one building, room, etc., is used for the same purpose, alphabetical designations shall be used to further identify such divisions.

§ 245.37 *Empty container storage room.* If empty barrels, kegs, bottles, other containers, or other supplies are stored in the brewery, they must be so stored as to be completely segregated from filled containers. A separate room or building may be provided for that purpose.

§ 245.38 *Government cabinet.* The brewer shall provide a metal cabinet of adequate strength and size, suitably equipped for securing with a Government lock or cap seal, for use in safeguarding locks, keys, seals, and other Government property. Each such cabinet is subject to approval by the Assistant Regional Commissioner.

PIPELINE TRANSFERS TO BOTTLING HOUSE

§ 245.39 *General.* All beer and cereal beverage transferred to the brewery bottling house for bottling must pass through the authorized pipelines and meters.

(68A Stat. 680; 26 U. S. C. 5552)

§ 245.40 *Pipelines.* The pipeline used for the purpose of transferring beer and cereal beverage to the brewery bottling house for bottling must be constructed of metal and be exposed to view throughout its entire length; no opening will be permitted therein except as provided in §§ 245.42, 245.57 and 245.60. The sections of piping, if more than one section is employed, must be securely connected by brazing, sweating, or welding.

(68A Stat. 680; 26 U. S. C. 5552)

§ 245.41 *Other pipelines.* Pipelines for refrigeration, heating, or water, must be so installed that they cannot be used for conveying beer to the brewery bottling house.

(68A Stat. 680; 26 U. S. C. 5552)

§ 245.42 *Facilities for cleaning pipeline.* Where it is desired to clean the beer line to the brewery bottling house by the use of brush, ball, or similar device, a return line approved by the Assistant Regional Commissioner must be provided. Petcocks not larger than one-eighth inch may be installed in pipelines to facilitate draining and cleaning.

(68A Stat. 680; 26 U. S. C. 5552)

SUBPART E—EQUIPMENT

§ 245.50 *Tanks and vats.* The location and construction of each stationary tank, vat, cask, or other container used, or intended for use, as a receptacle for wort or beer, shall be suitable to the intended use and subject to approval by the Assistant Regional Commissioner. Each such tank, vat, cask, or other container shall be permanently marked to show its designated use or uses, and equipped with a suitable measuring device: *Provided*, That in lieu of equipping each tank or container with an individual measuring device, the brewer may provide meters, portable gauge glasses, or other suitable portable devices.

(68A Stat. 680; 26 U. S. C. 5552)

§ 245.51 *Other apparatus and equipment.* All other apparatus and equipment must be so constructed and arranged as to permit ready examination thereof, and shall be marked as to use, serial number, and capacity in barrels of 31 gallons (when applicable) except when specifically exempted from such markings by the Assistant Regional Commissioner.

(68A Stat. 680; 26 U. S. C. 5552)

SUBPART F—BEER METERS

§ 245.55 *Meters required.* Brewers shall be required to provide, at their own expense, approved meters for measuring beer to be packaged or transferred to the brewery bottling house, which meters shall be accessible to internal revenue officers at all hours during which the brewery is operating.

(68A Stat. 680; 26 U. S. C. 5552)

§ 245.56 *Notice of meter shipment.* On the date a meter is shipped to a brewery, the manufacturer shall so advise the Assistant Regional Commissioner of the region wherein the brewery is located, stating the date of shipment and the manufacturer's serial number of the meter. The brewer shall notify the Assistant Regional Commissioner when a meter has been received and is ready for installation. The meter must not be used until it has been tested by an inspector and installed under his supervision. The manufacturer's seals on the meter must remain intact until removed by an inspector and replaced with Government cap seals.

(68A Stat. 680; 26 U. S. C. 5552)

§ 245.57 *Location and installation.* Racking room meters will be installed as near as possible to the racker, and be connected thereto by a metal pipe, in such manner that all beer flowing to the racking machine will pass through the meter. The meter end of the pipe must be welded, sweated, or brazed to a companion flange to be secured to the meter with bolts sealed with Government cap seals. All other joints and fittings in the pipe must be equally secure. Each bottling meter must be installed in such manner that all beer transferred to the brewery bottling house by pipeline, will pass through the meter. The beer line to the brewery bottling house must be brazed, sweated, or welded to a companion flange which shall be fitted to the inlet flange of the meter when the meter is located in the brewery bottling house, and to the outlet flange of the meter when the meter is located elsewhere in the brewery. This companion flange will be bolted to the meter. The flange and all fittings in the pipeline will be sealed with Government cap seals. All meters will be so located that they will be readily accessible for tests and adjustments by internal revenue officers.

(68A Stat. 680; 26 U. S. C. 5552)

§ 245.58 *Strainers.* In order to protect meters from injury from foreign matter, a strainer must be placed in the pipeline ahead of each meter. In order that the strainer may be dismantled for cleaning without Government supervision, it shall not be located in the brewery bottling house.

(68A Stat. 680; 26 U. S. C. 5552)

§ 245.59 *Tests, repairs and adjustments.* When necessary in the opinion of the Assistant Regional Commissioner, he will detail an inspector to test the meter or supervise its dismantling and reassembling for the purpose of cleaning or repair. If a defective meter cannot be repaired without delay, its use must be discontinued and it must be removed. If a replacement meter is not installed immediately, the inspector will, upon removal of the meter, cause the open beer line to be closed by securing the cutoff valve with a Government seal lock or by affixing a Government cap seal. When the repairs are completed or a new meter is installed, the inspector will test the repaired or newly installed meter with a master meter. Minor repairs to the counter mechanism, such as cleaning to facilitate readings, will not necessitate a master meter check. If repair or adjustment of the meter is made, a copy of the meter test report will be given to the brewer. If the continuous counter of the meter is advanced with water during the test, a report thereof will be made on Form 138, in triplicate. One copy thereof will be given to the brewer, one will be filed in the Government cabinet and one forwarded to the Assistant Regional Commissioner. The use of any meter must be discontinued whenever it appears that the revenue will be jeopardized by the continued use of such meter.

(68A Stat. 680; 26 U. S. C. 5552)

§ 245.60 *Facilities for meter test.* The brewer shall provide adequate facilities for master meter tests of all regularly installed meters. The pipelines to all meters will contain removable sections or other facilities, properly secured, to permit the installation of the master meter close to, and in series with, the brewer's meter. The pipelines will also contain an arrangement of valves and by-pass lines for inserting the Government meter and making the test without interfering with pumping operations, unless the brewer elects to stop operations for the meter tests in lieu of making such installations. All such installations must conform with the requirements of § 245.57.

(68A Stat. 680; 26 U. S. C. 5552)

SUBPART G—QUALIFYING DOCUMENTS

§ 245.65 *Notice on Form 27–C.* Every person engaged in, or intending to engage in, the business of a brewer, shall give notice of such intention on Form 27–C, in triplicate, to the Assistant Regional Commissioner. Except as provided in § 245.70 in the case of amended or supplemental notices, all information indicated by the lines of the form and the instructions printed thereon, and required by this part or issued in respect thereto, shall be furnished. The notices shall be numbered serially, commencing with "1" for the original, and continuing in sequence for all amended or supplemental notices thereafter filed. All data, written statements, affidavits, and other documents submitted in support of the notice shall be deemed to be a part thereof.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.66 *Description of brewery.* The lot or tract of land comprising the brewery, and the portion of that lot or tract of land occupied by the brewery bottling house, must be separately described on Form 27–C, by courses and distances, in feet and hundredths thereof or inches, with the particularity required in conveyances of real estate. The continuity of the brewery must be unbroken, except that the continuity will not be considered as broken where the brewery is divided by a public street or highway, or by a railroad right-of-way where the railroad is a common carrier, if the parts of the brewery so divided abut on such street, highway or railroad right-of-way and are opposite or adjacent to each other. In such cases each tract of land constituting the brewery shall be described separately. Nothing in this section shall be construed to prevent the separation of the brewery bottling house into two or more parts or sections.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.67 *Description of buildings.* The notice shall contain a description of all buildings on the land comprising the brewery, the purpose for which each will be used, the size of each, and the material of which constructed. If two or more buildings are used for the same purpose, such buildings shall be given alphabetical designations, following the purpose for which used.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.68 *Description of apparatus and equipment.* The brew kettles, mash tubs, fermenting tanks, storage tanks, and other major equipment used in the production of beer shall be described separately in the notice as to use, serial number, and capacity in barrels of 31 gallons (if applicable). All tanks, bottling apparatus, and other major equipment in the brewery bottling house used for bottling beer shall be described in the notice, separately, as to use, serial number, and, in the case of tanks, capacity in barrels of 31 gallons: *Provided*, That bottling equipment such as pasteurizers, fillers, cappers, etc., which comprise bottling lines need not be described separately but the bottling lines shall be described as to use and serial number, such as "Quart line No. 1," "Can line No. 2," etc.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.69 *Statement of title.* The name and address of the owner of the fee and of any mortgagee, judgment creditor, or other encumbrancer of the land, buildings, or equipment comprising the brewery shall be stated in the notice.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.70 *Supplemental notice.* Amended or supplemental notices, Form 27–C, may be executed in skeleton form, except as to those items amended or supplemented. All other items which are correctly set forth in prior notices, and in which there has been no change since the last preceding notice, may be incorporated by reference to the respective notice previously filed. Such incorporation by reference shall be made by entering for each such item in the space provided therefore, the statement: "No change since filing Form 27–C, Serial No. ---------, dated ----------, 19---."

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.71 *Corporate documents.* There shall be submitted with, and made a part of, the original or initial notice on Form 27–C, given by a corporation to engage in

the business of a brewer, properly certified copies, in triplicate, of the following documents:

(a) Articles of incorporation and amended articles of incorporation.

(b) Certificate of incorporation.

(c) Certificate authorizing corporation to operate in State where brewery is located, if other than that in which incorporated.

(d) Extracts of minutes of meetings of stockholders, showing election of directors.

(e) By-laws.

(f) Extracts of the minutes of meetings of the board of directors showing the election of officers.

(g) Extracts of the minutes of meetings of the board of directors authorizing certain officers or other persons to sign for the corporation.

(h) List of the names and addresses of the officers and directors.

(i) List of stockholders, as provided in § 245.72.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.72 *List of stockholders.* In the case of corporations and similar legal entities, there shall be submitted with Form 27–C and be made a part thereof, at the commencement of business and annually thereafter on May 1, a list of the names and addresses of all stockholders and other persons interested in the corporation or other legal entity and the amount and nature of the stockholding or other interest of each, whether such interest appears in the name of the interested party or in the name of another for him: *Provided*, That where more than 20 persons are interested in the corporation or other legal entity as stockholders or otherwise, there need be furnished only the names and addresses and the amounts and nature of the stockholding or other interest of the 20 persons having the largest ownership or other interest in each of the respective classes of stock or other interest, except where more complete information shall be specifically required by the Assistant Regional Commissioner: *And provided further*, That where there has been no change in the stockholders and other persons interested in the corporation or other legal entity, or in the extent of the stockholding or other interest of such persons, the brewer may furnish annually a certified statement, in triplicate, to that effect in lieu of the prescribed list. Where a corporation operates two or more breweries situated in the same region, or wholly owns one or more subsidiaries operating breweries so situated, and in connection with qualifying for the operation of one of such breweries files a list of stockholders and other persons interested, as prescribed in this subpart, the filing of an additional list for each brewery will not be required, *Provided*, That in lieu of such additional list there is submitted with the brewer's notice, Form 27–C, a certificate, in triplicate, definitely identifying the corporation and plant with whose notice the list of stockholders and other persons interested is filed, and giving the date of the filing thereof.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.73 *Affidavit.* In the case of a corporation, there shall be submitted with each list of stockholders an affidavit, in triplicate, executed by an officer of the corporation authorized so to do, showing the number of shares of each class of stock or other evidence of ownership in the corporation, such as voting trust certificates, authorized and outstanding, the par value thereof, and the voting rights of the respective owners or holders and certifying to the correctness of the list of stockholders or the statement authorized to be furnished with the notice in lieu of such list. In the case of an individual owner or partnership, there shall be submitted with Form 27–C, at the commencement of business and annually thereafter on May 1, an affidavit, in triplicate, giving the name of every person interested or to be interested in the brewery, whether such interest appears in the name of the interested party or in the name of another for him.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.74 *Articles of partnership or association.* In the case of a partnership or association, a certified copy, in triplicate, of the articles of partnership or association, if any, and, where the business is to be conducted under a firm or trade name, a trade name certificate or statement in lieu thereof, in accordance with § 245.75, shall be submitted with and constitute a part of the notice, Form 27–C.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.75 *Trade name certificate.* Where the brewer intends to do business under a firm or trade name, there shall be submitted with and made a part of the notice, Form 27–C, certified copies, in triplicate, of the certificate or other document filed with or issued by State officials under the laws of the State to cover the transaction of business under such firm or trade name. If no certificate or other document is required by the laws of the State, the brewer shall furnish a statement, in triplicate, to that effect.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.76 *Bottling or packaging under trade name.* Where a brewer intends to bottle or package beer under a trade name, or names, other than the name under which he is qualified to operate, he shall include such trade name in Form 27–C, furnish the trade name certificate, or statement in lieu thereof required by section 245.75, and obtain appropriate certificates of label approval where such certificates are required by Part 7 of Title 27 of the Code of Federal Regulations.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.77 *Power of attorney, Form 1534.* If the notice or other qualifying documents are signed by an attorney in fact for an individual, partnership, association, or corporation, or by one of the partners for a partnership or association, or, in the case of a corporation, by an officer or other person not authorized to sign by the corporate documents described in section 245.71 such notice or other qualifying documents shall be supported by a duly authenticated copy of the power of attorney conferring authority upon the person signing the document to execute the same. Such powers of attorney shall be executed on Form 1534, in triplicate, and submitted to the Assistant Regional Commissioner.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.78 *Execution of power of attorney.* Where the principal giving the power of attorney is an individual, it shall be executed by him in person, and not by an agent. In the case of a partnership or association, powers of attorney authorizing one or more of the partners, or another person, to execute documents on behalf of the partnership or association shall be executed by all of the partners constituting the firm. However, if one or more members less than the whole number constituting the firm have been delegated the authority to appoint agents or attorneys in fact, the power of attorney may be executed by such member or members, provided it is supported by a duly authenticated copy, in triplicate, of the document conferring authority upon the member or members to execute the same. Where, in the case of a corporation, powers of attorney are executed by an officer thereof, such documents shall be supported by triplicate copies of the authorization of such officer so to do, certified by the secretary or assistant secretary of the corporation, under the corporate seal, to be true copies.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.79 *Duration of power of attorney.* Powers of attorney authorizing the execution of documents on behalf of a person engaged in, or intending to engage in, the business of a brewer shall continue in effect until written notice, in triplicate, of the revocation of such authority is received by the Assistant Regional Commissioner.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.80 *Bond, Form 1566.* Every person intending to commence or to continue the business of a brewer shall, upon filing his notice of such intention, Form 27–C, and before proceeding with such business, execute bond on Form 1566, in triplicate, in conformity with the provisions of Subpart H of this part, and file the same with the Assistant Regional Commissioner.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.81 *Penal sum of bond.* The penal sum of the brewer's bond shall be equal to the maximum amount of tax which, in the opinion of the Assistant Regional Commissioner, the brewer may become liable to pay during any one calendar month on beer (a) removed for transfer to the brewery from other breweries owned by him, (b) removed free of tax for export or use as supplies on vessels and aircraft and (c) sold, or removed for consumption or sale, calculated at the rate of tax prescribed by law: *Provided*, That the penal sum of any such bond shall not exceed $150,000 nor be less than $1,000.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.82 *Plat.* Every person intending to engage in the business of a brewer must submit to the Assistant Regional Commissioner with, and to be a part of, his notice, Form 27–C, an accurate plat of the brewery, in triplicate, conforming to the requirements of Subpart I of this part.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.83 *Additional information.* The Assistant Regional Commissioner may at any time, in his discretion, require the brewer to furnish such additional information as he may deem necessary to be a part of the notice.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.84 *Examination of qualifying documents.* All documents required by this subpart of persons intending to qualify as brewers, will be subject to examination by the Assistant Regional Commissioner to determine whether they have been properly executed. Such examination may include an inspection of the brewery to determine whether it is properly described and depicted in the notice and plat. Where discrepancies are found in the qualifying documents, the inaccurate or incomplete documents will be returned to the brewer for correction. Where any required document has not been filed, or where errors or discrepancies are found in those filed, or where the documents filed do not show compliance with this part, action thereon will be held in abeyance until the omission, or material errors or discrepancies, have been rectified and there has been full compliance with all requirements.

§ 245.85 *Return of qualifying documents to brewer or applicant.* On approval of the qualifying documents the Assistant Regional Commissioner will forward one copy of the bond, notice, plat, and other qualifying documents to the brewer. If the bond or consent of surety is disapproved by the Assistant Regional Commissioner, all copies thereof and all copies of other qualifying documents will be returned to the applicant, or the brewer.

SUBPART H—BONDS AND CONSENTS OF SURETY

§ 245.90 *General requirements.* Every person required to file a bond or consent of surety under this part shall prepare and execute it on the prescribed form, in triplicate, in accordance with this part and the instructions printed on the form, and shall submit it to the Assistant Regional Commissioner.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.91 *Conditions of bond.* The brewer's bond shall be conditioned that the brewer shall pay, or cause to be paid, to the United States according to the laws of the United States and this part, the taxes, including penalties and interest, for which the brewer shall become liable, on all beer, including all beer removed for transfer to the brewery from other breweries owned by the brewer, and all beer removed free of tax for export or removed for use as supplies on vessels or aircraft, which is not exported or otherwise accounted for, and shall in all respects comply without fraud or evasion with all requirements of law and this part relating to the production and sale of beer. The bond, Form 1566, may be drawn in such manner that if beer is not to be transferred to the brewery from other breweries owned by the brewer or withdrawn for export or for use as supplies on vessels or aircraft, either or both of those provisions may, at the time of execution of the bond, be stricken.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.92 *Surety or security.* Bonds required by this part shall be given with corporate surety or collateral security.

(Sec. 1, 28 Stat. 279; 6 U. S. C. 6; 40 Stat. 1148, as amended; 6 U. S. C. 15)

§ 245.93 *Corporate surety.* Surety bonds may be given only with surety companies holding certificates of authority from the Secretary of the Treasury as acceptable sureties on Federal bonds, subject to the limitations prescribed by the Secretary in Treasury Department Form 356—Revised, and subject to such amendments as may be issued from time to time.

(Sec. 1, 28 Stat. 279; 6 U. S. C. 6)

§ 245.94 *Two or more corporate sureties.* A bond executed by two or more corporate sureties shall be the joint and several liability of the principal and the sureties: *Provided*, That each corporate surety may limit its liability in terms on the face of the bond in a definite, specified amount, which amount shall not exceed the limitations prescribed for such corporate surety by the Secretary, as set forth in Treasury Department Form 356—Revised. When the sureties so limit their liability, the aggregate of such limited liabilities must equal the required penal sum of the bond.

§ 245.95 *Powers of attorney.* Powers of attorney and other evidence of appointment of agents and officers to execute bonds on behalf of corporate sureties are required to be filed with, and passed upon by, the Commissioner of Accounts, Surety Bonds Branch, Treasury Department. Such powers and other evidence of appointment need not be filed with, or submitted to, Assistant Regional Commissioners.

§ 245.96 *Interest in business.* The surety must have no interest whatever in the business covered by the bond.

§ 245.97 *Deposit of collateral.* Bonds or notes of the United States, or other obligations which are unconditionally guaranteed as to both interest and principal by the United States, may be pledged and deposited by principals as collateral security in lieu of corporate sureties in accordance with the provisions of Department Circular No. 154, revised (31 CFR, Part 225): *Provided*, That United States Savings, Defense Savings, and War Savings Bonds issued under the authority of section 22 of the Second Liberty Bond Act, as amended, and other bonds and notes of the United States, which are nontransferable or the hypothecation of which will not be recognized by the Treasury Department, may not be pledged and deposited as security in lieu of corporate sureties.

(40 Stat. 1148, as amended; 6 U. S. C. 15; 68A Stat. 674; 26 U. S. C. 5401)

§ 245.98 *Consents of surety.* Consents of surety to a change in the terms of a bond must be executed on Form 1533 in as many copies as are required of the bond which they affect, by the principal and all sureties with the same formality and proof of authority to execute as are required for the exeeution of bonds. Form 1533 will be used by obligors on collateral bonds as well as those on surety bonds. The Form 1533 must properly identify the bond affected thereby and state specifically and precisely what is covered by the extended terms thereof. The consent may be executed for the surety company by an agent or attorney in fact duly authorized so to do by power of attorney filed by the surety with the appropriate Assistant Regional Commissioner; or the consent may be executed by the home office officials of such corporate surety.

§ 245.99 *Approval required.* No individual, firm, partnership, corporation, or association, intending to commence or to continue the business of a brewer, shall commence or continue such busines until all bonds in respect of such business, required by any provision of law, have been approved by the Assistant Regional Commissioner.

(68A Stat. 680; 26 U. S. C. 5551)

§ 245.100 *Renewal of bond.* No person shall continue in the business of a brewer unless he files a new bond once in four years with the Assistant Regional Commissioner, and the same has been approved. Such bond shall be prepared in accordance with the provisions of this subpart.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.101 *Authority to approve.* Assistant Regional Commissioners are authorized to approve all brewers' bonds and consents of surety relating thereto.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.102 *Cause for disapproval.* Bonds or consents of surety submitted by an individual, firm, partnership, corporation, or association in respect to the business of a brewer may be disapproved if the individual, firm, partnership, corporation, or association giving the same, or owning, controlling, or actively participating in the management of such business of the individual, firm, partnership, corporation, or association giving the same, shall have been previously convicted in a court of competent jurisdiction of:

(a) Any fraudulent noncompliance with any provision of any law of the United States, if such provision related to internal revenue or customs taxation of distilled spirits, wines, or beer, or if such an offense shall have been compromised with the individual, firm, partnership, corporation, or association on payment of penalties or otherwise; or

(b) Any felony under a law of any State, Territory, or the District of Columbia, or the United States, prohibiting

the manufacture, sale, importation, or transportation of distilled spirits, wine, beer, or other intoxicating liquor.

(68A Stat. 680; 26 U. S. C. 5551)

§ 245.103 *Appeal to Director, Alcohol and Tobacco Tax Division.* Where a bond or consent of surety is disapproved by the Assistant Regional Commissioner, the person giving the bond may appeal from such disapproval to the Director, Alcohol and Tobacco Tax Division, who will grant a hearing in the matter if such is requested by the applicant or brewer.

(68A Stat. 680; 26 U. S. C. 5551)

§ 245.104 *Disapproval of Director, Alcohol and Tobacco Tax Division, final.* The disapproval by the Director, Alcohol and Tobacco Tax Division, of any bond or consent of surety with respect to the commencement or continuance of the business of the brewer shall be final.

(68A Stat. 680; 26 U. S. C. 5551)

§ 245.105 *Additional or strengthening bonds.* In all cases where the penal sum of the bond on file and in effect is not sufficient, computed as prescribed by this part, the principal may give an additional or strengthening bond in a sufficient penal sum, provided the surety thereon is the same as on the bond already on file and in effect; otherwise a new bond covering the entire liability will be required. Such additional or strengthening bonds, being filed to increase the bond liability of the principal and the surety, are in no sense substitute bonds, and the Assistant Regional Commissioner will refuse to approve any additional or strengthening bond where any notation is made thereon intended, or which may be construed, as a release of any former bond, or as limiting the amount of either bond to less than its full penal sum. Additional or strengthening bonds must show the current date of execution and the effective date in the blank spaces provided therefor. Such bonds must have marked thereon, by the obligors at the time of execution, "Additional Bond," or "Strengthening Bond."

§ 245.106 *New bond.* A new bond may be required at any time in the discretion of the Director, Alcohol and Tobacco Tax Division, or Assistant Regional Commissioner. A new bond shall be required immediately in the case of the insolvency of a corporate surety. Executors, administrators, assignees, receivers, trustees, or other persons acting in a fiduciary capacity, continuing, or liquidating the business of the principal, must execute and file a new bond or obtain the consent of the surety or sureties on the existing bond or bonds. When, in the opinion of the Director, Alcohol and Tobacco Tax Division, or the Assistant Regional Commissioner, the interests of the Government demand it, or in any case where the security of the bond becomes impaired in whole or in part for any reason whatever, the principal will be required to give a new bond. Where a bond is found to be not acceptable, the principal shall be required to file immediately a new and satisfactory bond, or discontinue business forthwith.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.107 *Superseding bond.* Where a new bond is submitted by the principal to supersede a bond or bonds then in effect, and such superseding bond has been approved, notice of termination of the superseded bond may be issued as provided in Subpart K of this part. Superseding bonds must show the current date of execution and the date they are to be effective, and each such bond shall have marked thereon, by obligors at the time of execution, "Superseding Bond."

SUBPART I—PLATS

§ 245.110 *Preparation.* Every plat shall be drawn to scale and each sheet thereof shall bear a distinctive title, enabling ready identification, and shall show the cardinal points of the compass. The minimum scale of any plat shall be not less than 1/50 inch per foot. Each sheet of the plat shall be numbered, the first sheet being designated number 1, and the other sheets numbered in consecutive order. The dimensions of plats shall be 15 by 20 inches outside measurement, with a clear margin of at least 1 inch on each side of the drawing, lettering, and writing. Plats shall be submitted on sheets of tracing cloth, or sensitized linen and may be original drawings, or reproductions made by the "ditto process," or by blue or brown line lithoprint, if such reproductions are clear and distinct: *Provided*, That reproduction by other equally suitable methods may be approved by the Assistant Regional Commissioner.

§ 245.111 *Description of brewery.* The plat must show the outer boundaries of the brewery and of the portion thereof comprising the brewery bottling house by courses and distances, in feet and hundredths thereof or inches, and the point of beginning of each with respect to its distance and bearings from some near and wellknown landmark, and must contain an accurate depiction of the building, or buildings, located on the premises which comprise the brewery and any driveway, public highway, or railroad right-of-way adjacent thereto or connecting therewith. The brewery bottling house must be distinguished from the other portions of the brewery by a contrasting color or by a legend such as cross hatching, a broken line, etc. When the separation of the brewery bottling house from the remainder of the brewery is not vertical from ground to roof, such additional horizontal and vertical views shall be submitted as will clearly show the separation of the premises. If the premises comprising the brewery are separated by a public highway, or a railroad right-of-way, and the tracts of land comprising such premises, or parts thereof, abut on such highway, or right-of-way, opposite or adjacent to each other, the different tracts will be described separately by courses and distances, in feet and hundredths thereof or inches. If two or more buildings are used, the designated name or use of each will be indicated and all passageways and other openings, if any, and all connecting pipelines used for the conveyance of beer between the same depicted. All pipelines and other connections between the brewery bottling house and other areas of the brewery, or between the brewery and other premises must be indicated on the plat and identified as to use. Where two or more buildings are used for the same purpose, the identification of each building shall include an alphabetical designation, and shall be so shown on the plat. All first floor exterior doors of each building of the brewery will be shown on the plat.

§ 245.112 *Conduits or pipelines.* The conduit or pipeline used for the transfer of beer to the brewery bottling house will be shown in red on the plat, and the details of construction, the manner of securing same, and the location of meters will be shown. All other pipelines connecting the brewery bottling house with other areas of the brewery will be shown on the plat and will be designated as to use. The direction of flow of beer through the pipelines must be indicated by arrows on the plat.

§ 245.113 *Certificate of accuracy.* The plat shall bear a certificate of accuracy in the lower right-hand corner of each sheet signed by the brewer, the draftsman, and the Assistant Regional Commissioner, substantially in the following form:

(Name of brewer)

(Address)

Approved ----------
(Date)

(Assistant Regional Commissioner)

Accuracy certified by:

(Name and capacity—for the brewer)

(Draftsman)

Sheet No. ----------

----------, 19--.
(Date)

§ 245.114 *Revised plats.* A revised sheet of a plat shall bear the same number as the sheet superseded, but will be given a new date. Any additional sheet shall be given a new number in consecutive order, or will be otherwise numbered and lettered in such manner as will permit the filing of all sheets in proper sequence.

SUBPART J—CHANGES IN NAME, PROPRIETORSHIP, CONTROL, LOCATION, PREMISES, AND EQUIPMENT

Changes in Individual, Firm, or Corporate Name

§ 245.120 *Notice, Form 27–C.* Where there is a change in the individual, firm, or corporate name of the brewer, he must submit to the Assistant Regional Commissioner notice on Form 27–C, in triplicate, setting forth the new name, which notice must be approved before operations may be commenced under the new name.

§ 245.121 *Amended articles of incorporation, etc.* Where the brewer is a corporation and there is a change in the corporate name, the brewer must submit to the Assistant Regional Commissioner certified copies, in triplicate, of the amended articles of incorporation and the amended certificate of incorporation issued under the laws of the State in which incorporated, setting forth the change in the corporate name. If the operations are conducted in a State other than the State in which incorporated, there must also be submitted to the Assistant Regional Commissioner certified copies, in triplicate, of the amended certificate issued under the laws of the State in which the operations are conducted authorizing the corporation to operate under its new name in such State.

§ 245.122 *Amended articles of partnership or association.* Where the brewer is a partnership or association and there is a change in the firm name, the brewer must submit to the Assistant Regional Commissioner certified copies, in triplicate, of the amended articles of partnership or association, if any.

§ 245.123 *Records.* Where there is a change in the individual, firm, or corporate name of the brewer, he must keep records and submit reports covering operations under the new name.

(68A Stat. 675; 26 U. S. C. 5415)

§ 245.124 *Marking and branding.* Where there is a change in the individual, firm, or corporate name of the brewer, he will mark and brand barrels, kegs, and cases with the new name in accordance with the provisions of Subpart O of this part.

(68A Stat. 675; 26 U. S. C. 5412)

Trade Names

§ 245.125 *General.* Where the brewery is to be operated under a new trade name or style, the brewer must comply with the provisions of § 245.120, and, in addition thereto, with the requirements of §§ 245.126–245.128.

§ 245.126 *Trade name certificate.* Where the brewery is to be operated under a trade name or style, other than that previously approved, the brewer must submit to the Assistant Regional Commissioner certified copies, in triplicate, of the certificate or other document filed with or issued by State officials under the laws of the State, to cover the transaction of business under such trade name or style. If no such certificate or other document is required by the laws of the State to be filed with or issued by any State official to cover the transaction of business under a trade name, the brewer shall furnish a statement to that effect.

§ 245.127 *Records.* Where the brewery is to be operated under a trade name or style, other than that previously approved, the brewer must make appropriate entries in the brewer's records covering operations under the new trade name.

(68A Stat. 675; 26 U. S. C. 5415)

§ 245.128 *Marking and branding.* Where the brewery is to be operated under a trade name or style, other than that previously approved, the brewer must mark and brand barrels, kegs, and cases with the new trade name in accordance with the provisions of Subpart O of this part.

(68A Stat. 675; 26 U. S. C. 5412)

Changes in Proprietorship

§ 245.129 *Nonfiduciary successor.* If the change in proprietorship of the brewery is brought about otherwise than by appointment of an administrator, executor, receiver, trustee, assignee, or other fiduciary, the successor must likewise qualify in the same manner as the proprietor of a new brewery, except that he may adopt the plat of the predecessor, as provided in this subpart.

§ 245.130 *Fiduciary.* If the brewery is to be operated by an administrator, executor, receiver, trustee, assignee, or other fiduciary, the fiduciary must comply with the provisions of Subparts G, H, and I of this part, to the extent that such provisions are applicable, except that in lieu of filing a new bond and new plat the fiduciary may furnish a consent of surety, extending the terms of his predecessor's bond, and adopt the plat of such predecessor. The fiduciary must also furnish certified copies, in triplicate, of the order of the court, or other pertinent documents, showing his qualifications as such fiduciary. The effective date of the qualifying documents filed by a fiduciary must be the same as the date of the court order, or the date specified therein, for him to assume control. If the fiduciary was not appointed by the court, the date of his appointment must coincide with the effective date of the qualifying documents filed by him.

§ 245.131 *Consent of surety.* The consent of surety extending the terms of the predecessor's bond to cover operation of the brewery by a fiduciary must conform to the requirements of § 245.98 and be executed by both the fiduciary and the surety.

§ 245.132 *Plats.* The adoption by a successor of the plat of his predecessor shall be in the form of a certificate, in triplicate, to be made a part of the notice, in which shall be set forth the name of the predecessor, the address of the brewery, a description of the brewery, the number of each page comprising the plat covered by such certificate, and a statement that the premises comprising the brewery, and the buildings, connecting pipelines, and meters, are correctly described and depicted on such plat.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.133 *Approval required.* Operations shall not be commenced by the successor until the qualifying documents required by the provisions of this subpart have been approved.

(68A Stat. 678; 26 U. S. C. 5551)

Other Changes in Proprietorship or Control

§ 245.134 *Change in partnership.* The withdrawal of one or more members of a partnership or the taking in of a new partner, whether active or silent, shall constitute a change in proprietorship. Likewise, except as provided in § 245.135, the death, bankruptcy, or adjudicated insolvency of one or more of the partners results in a dissolution of the partnership and, consequently, a change in proprietorship. Where such a change in proprietorship of the brewery occurs, the successor must qualify in the same manner as a new applicant, except that the successor may adopt the plat of the predecessor as provided in § 245.132. Operations may not be commenced by the successor until the qualifying documents required by the provisions of this subpart have been approved.

§ 245.135 *Exception, change in partnership.* Where, under the laws of the particular State, the partnership is not terminated on the death or insolvency of a partner, but continues until the termination of the partnership affairs is completed, and the surviving partner has the exclusive right to the control and possession of the partnership assets for the purpose of liquidation and settlement, such surviving partner may continue to operate the brewery for such purpose under the prior qualification of the partnership, and the bond already on file will be considered sufficient, provided a consent of surety, wherein the surety and the surviving partner agree to remain liable on the bond, is filed. If such surviving partner acquires the business upon completion of the settlement of the partnership, he must qualify in his own name from the date of acquisition and give a new bond on Form 1566. The same rule shall apply where there is more than one surviving partner.

§ 245.136 *Changes in stockholders, officers, and directors of corporation.* The sale or transfer of the capital stock of a corporation operating a brewery does not constitute a change in the proprietorship of the brewery. However, where the sale or transfer of capital stock results in a change in the control or management of the business, or where there is any change in the officers or directors, the brewer must give notice thereof, in triplicate, to the Assistant Regional Commissioner within 10 days of such change. Mere changes in stockholders of corporations not constituting a change in control need not be so reported. The Assistant Regional Commissioner must, in the case of changes in officers or directors, be furnished extracts, in triplicate, of the minutes of the meetings showing the election of the new officers within 10 days after such election.

§ 245.137 *Reincorporation.* Where a corporation operating a brewery is reorganized and a new charter or certificate of incorporation is secured, the new corporation must qualify in the same manner as the new proprietor of a brewery, except that the new corporation may adopt the plat of the predecessor.

§ 245.138 *Transfer of business.* When a transfer is made of a brewer's business and the stock on hand, the beer in stock may be transferred untaxpaid and taken up and accounted for by the successor in business who fully qualifies as a brewer.

Changes in Location, Premises, and Equipment

§ 245.139 *Change in location.* Where there is a change in the location of the brewery, the brewer must comply with all applicable provisions of Subparts G,

H, and I of this part, except that in lieu of the filing of a new bond, Form 1566, the brewer may furnish a consent of surety, Form 1533, in accordance with § 245.98 extending the terms of the brewer's bond given for the former location to cover operation of the brewery at the new location.

(68A Stat. 594, 616, 619, 624, 674, 846; 26 U. S. C. 4905, 5091, 5113, 5144, 5401, 7011)

§ 245.140 *Changes in premises.* Where the brewery (or brewery bottling house) is to be extended or curtailed, the brewer must file with the Assistant Regional Commissioner an amended Form 27–C and amended plat. The additional facilities covered by an extension may not be used for the proposed purposes, and the portion to be excluded by a curtailment may not be used for other than the previously approved purposes, prior to approval of Form 27–C.

(68A Stat. 674; 26 U. S. C. 5401)

§ 245.141 *Changes in equipment, or in construction or use of a room or building.* Where the brewer desires to make a change in equipment, or in the construction or use of a room or building, that will affect the accuracy of Form 27–C or of the plat, he will furnish the Assistant Regional Commissioner with written notification, in duplicate, describing specifically the change he proposes to make and when he proposes to commence and complete it: *Provided*, That emergency repairs coming under this category of change may be made without prior notification. Where such emergency repairs are made, the brewer will file immediately a complete report thereof, in duplicate, with the Assistant Regional Commissioner. The Assistant Regional Commissioner may specifically require the immediate filing of an amended Form 27–C and plat where the accuracy of existing documents has been materially affected by any change. The brewer will file an amended Form 27–C and plat on or before May 1 of each year to reflect any changes made during the preceding calendar year which affected the accuracy of Form 27–C and plat and which have not previously been so reported.

(68A Stat. 674; 26 U. S. C. 5401)

SPECIAL TAX STAMPS

§ 245.142 *Liability; change in name.* Where there is a change in the corporate name or firm name, or in the trade name, or names, the brewer must, within 30 days after such change is made, file with the District Director of Internal Revenue an additional return on Form 11, covering the new corporate name, firm name, or trade name or names, as the case may be. The special tax stamp, or stamps, must be forwarded to the District Director for appropriate notation with respect to such change.

(68A Stat. 846; 26 U. S. C. 7011)

§ 245.143 *Liability; change in proprietorship.* Where there is a change in proprietorship of the brewery, the successor must procure the required special tax stamps: *Provided*, That persons having right of succession as provided in § 245.144, may carry on the business for the remainder of the period for which the special tax was paid, if, within 30 days after the date on which such successor begins to carry on the business, a return on Form 11 showing the basis of the succession is filed with the District Director. The person so succeeding to a business for which special tax has been paid and who fails to register such succession as provided in this subpart, is liable for special tax computed from the first day of the calendar month in which he began to carry on such business.

(68A Stat. 624, 846; 26 U. S. C. 5144, 7011)

§ 245.144 *Persons having right of succession.* Under the conditions indicated in § 245.143, the persons having right of succession are as follows:

Death: The widow or child, or executor, administrator, or other legal representative of the taxpayer.

Husband and wife: A husband or wife succeeding to the business of his or her spouse (living).

Insolvency: A receiver or trustee in bankruptcy, or an assignee for benefit of creditors.

Withdrawal from firm: The partner or partners remaining after death or withdrawal of a member.

(68A Stat. 624; 26 U. S. C. 5144)

§ 245.145 *Liability; change in location.* Where there is a change in location, the brewer must, within 30 days after such change is made, file with the District Director an amended return on Form 11 covering the new location of the brewery; otherwise, new special tax stamps must be purchased. The special tax stamp, or stamps, must be forwarded to the District Director for endorsement of the change in location.

(68A Stat. 594, 624, 846; 26 U. S. C. 4905, 5144, 7011)

SUBPART K—TERMINATION OF BONDS

§ 245.150 *Termination of brewer's bond.* The brewer's bond, Form 1566, may be terminated as to future liability (a) pursuant to application by the surety as provided in § 245.151, or (b) pursuant to approval of a superseding bond or (c) discontinuance of business by the principal. Application for termination of a brewer's bond upon approval of a superseding bond or discontinuance of the business, must be filed in duplicate with the Assistant Regional Commissioner.

§ 245.151 *Application of surety for relief from bond.* A surety on any bond required by this part may at any time in writing notify the principal and the Assistant Regional Commissioner in whose office the bond is on file that he desires after a date named, which shall be at least 60 days after the date of the notification, to be relieved of liability under said bond. The notice shall be executed in triplicate by the surety, who shall deliver one copy to the principal and the other two to the Assistant Regional Commissioner, who will retain one copy and transmit the remaining copy to the Director, Alcohol and Tobacco Tax Division. If such notice is not thereafter in writing withdrawn, the rights of the principal as supported by said bond shall be terminated on the date named in the notice, and the surety shall be relieved, in the case of a brewer's bond, Form 1566, from liability for beer produced at, and for beer consigned to, the brewery wholly subsequent to the date named in the notice. This notice may not be given by an agent of the surety unless it is accompanied by a power of attorney duly executed by the surety, authorizing him to give such notice, or by a verified statement that such power of attorney is on file with the Treasury Department. The surety must also file with the Assistant Regional Commissioner an acknowledgment, or other proof of service, of such notice on the principal.

§ 245.152 *Action on application for termination of brewer's bond.* Upon receipt of an application for termination of a brewer's bond as to future liability, in a case where a superseding bond has been approved, or the principal has discontinued business, as provided in § 245.160, the Assistant Regional Commissioner will issue a notice of termination of the bond in accordance with § 245.153, if he finds that the bond may be properly terminated. If the Assistant Regional Commissioner finds that taxes are due and payable, that outstanding assessments, demands for payment of taxes, or other outstanding liabilities chargeable against the bond have not been paid or otherwise settled, or that penalties incurred or fines imposed because of violation of the law or this part during the period covered by the bond have not been satisfied, he will notify the applicant of their nature and amount and will withhold action on the application until all such liabilities are settled.

§ 245.153 *Notices, Forms 1490 and 1491.* Upon approval of the application for termination of a brewer's bond, the Assistant Regional Commissioner will execute Form 1490 where a superseding bond has been approved, or Form 1491, where the principal has discontinued business, in quadruplicate (in quintuplicate if there are two sureties) and will forward one copy to each obligor on the bond.

§ 245.154 *Release of collateral.* The release of collateral pledged and deposited to support bonds required by this part, will be in accordance with the provisions of Department Circular No. 154, revised (31 CFR Part 225), subject to the conditions governing the issuance of notices on Forms 1490 and 1491 of the termination of such bonds. When the Assistant Regional Commissioner determines that there is no outstanding liability against the bond, he will fix the date or dates on which a part or all of the security may be released, which date or dates ordinarily will be not less than six months from the date of such determination. At any time prior to the release of such security the Assistant Regional Commissioner may, in his discretion and for proper cause, further extend the date of release of such security for such additional length of time as in his judgment may be appropriate.

(40 Stat. 1148, as amended; 6 U. S. C. 15)

SUBPART L—NOTICE OF DISCONTINUANCE OF BUSINESS

§ 245.160 *Form of notice.* Where a brewer desires to discontinue business permanently, he will file with the Assistant Regional Commissioner notice thereof on Form 27–C, in triplicate, stating therein the purpose, "Discontinuance of business," and giving the date of the discontinuance. The Assistant Regional Commissioner will, when operations have been properly completed, note his approval on the notice, retain one copy and forward one copy to the Director, Alcohol and Tobacco Tax Division, and one copy to the brewer.

SUBPART M—SPECIAL TAXES

§ 245.165 *Special tax.* Brewers are required to pay, within the calendar month in which they commence operations, the special tax required by section 5091, I. R. C. Special taxes shall become due on the first day of July in each year, or on commencing any trade or business on which such tax is imposed. In the former case, the tax is reckoned for 1 year, and in the latter, it is reckoned proportionately from the first day of the month in which the liability to special tax commenced, to and including the 30th day of June following.

(68A Stat. 624; 26 U. S. C. 5142)

§ 245.166 *Special tax return.* Every person liable to special tax shall render his return on Form 11 with remittance to the District Director of the district in which the business is carried on, at such time within the calendar month in which the special tax liability commences as will enable the District Director to receive such return and remittance not later than the last day of such month.

(68A Stat. 624; 26 U. S. C. 5143)

§ 245.167 *Execution of Form 11.* The return of an individual proprietor shall be signed by the proprietor; the return of a partnership shall be signed by any one of the partners; the return of a corporation shall be signed by any officer. In each case, the person signing the return shall designate his capacity as "individual owner," "member of firm," or in the case of a corporation the title of the officer. Receivers, trustees, assignees, executors, administrators, and other legal representatives who continue the business of a bankrupt, insolvent, deceased person, etc., will indicate the fiduciary capacity in which they act. When a return is signed by an agent or attorney in fact, his signature should be preceded by the name of the principal and be followed by his title. A return signed by a person as agent will not be accepted unless there is filed with the District Director, a power of attorney, authorizing the agent to perform such act. Form 11 must contain or be verified by a written declaration that it has been executed under penalties of perjury.

(68A Stat. 748, 749, 757, 846; 26 U. S. C. 6061, 6065, 6151, 7011)

§ 245.168 *Wholesale and retail special tax exemption.* A brewer is not required to pay special tax as a wholesale or retail dealer in beer if he sells only in hogsheads, barrels, or kegs, whether at the place of production or elsewhere, beer produced by him or purchased and procured by him in his own hogsheads, barrels, or kegs from another brewer, but the quantity of beer so purchased shall be included in calculating the liability to brewers' special tax of both the brewer who manufactures and sells the same and the brewer who purchases the same.

(68A Stat. 619; 26 U. S. C. 5113)

§ 245.169 *Sale of bottled beer.* The special tax liability as brewer does not include the sale of beer in bottles, or the sale of beer produced by other brewers which is not in his own barrels. Brewers who sell such products are required to pay special tax as wholesale or retail dealers in beer, or both, according to the quantities sold.

(68A Stat. 618, 620; 26 U. S. C. 5111, 5121)

§ 245.170 *Wholesale dealer in beer.* Except as provided in Part 194 of this chapter, every person who sells, or offers for sale, beer in quantities of 5 gallons or more, to the same person at the same time, and who does not deal in distilled spirits or wines at wholesale, shall be regarded as a wholesale dealer in beer.

(68A Stat. 618; 26 U. S. C. 5112)

§ 245.171 *Retail dealer in beer.* Except as provided in Part 194 of this chapter, every person who sells, or offers for sale, beer in quantities of less than 5 gallons to the same person at the same time, and does not deal in distilled spirits or wines, shall be regarded as a retail dealer in beer.

(68A Stat. 621; 26 U. S. C. 5122)

§ 245.172 *Posting special tax stamp.* All stamps denoting payment of special tax shall be posted conspicuously in the place of business of the taxpayer.

(68A Stat. 831; 26 U. S. C. 6806)

§ 245.173 *Sale at purchaser's place of business.* Wholesale and retail dealers in beer, who have paid special tax as such, may, without incurring liability for additional special tax, sell beer to wholesale and retail dealers in beer or liquors at the purchaser's place of business.

(68A Stat. 621; 26 U. S. C. 5123)

§ 245.174 *Each place of business taxable.* Liability to special tax is incurred by a brewer at each and every place of business where he carries on any occupation subject to such tax: *Provided*, That, by place of business is meant the entire office, plant or area of the business in any one location under the same proprietorship, and passageways, streets, highways, rail crossings, waterways, or partitions dividing the premises shall not be deemed sufficient separation to require additional special tax, if the various divisions of the premises are otherwise contiguous.

(68A Stat. 624; 26 U. S. C. 5144)

SUBPART N—TAX ON BEER

§ 245.180 *Rate of tax.* All beer brewed or produced and sold, or removed for consumption or sale, is subject to the tax prescribed by section 5051, I. R. C., for every barrel containing not more than 31 gallons, and at a like rate for any other quantity, or for the fractional parts of a barrel authorized and defined by law.

(68A Stat. 611; 26 U. S. C. 5051)

§ 245.181 *Persons liable for tax.* The tax imposed by law on beer (including beer purchased or procured by one brewer from another) shall be paid by the owner, agent, or superintendent of the brewery in which the beer is made: *Provided*, That the tax on beer transferred to a brewery from other breweries owned by the same brewer shall be paid by the owner or his agent or superintendent at the brewery from which the beer is sold or removed for consumption or sale.

(68A Stat. 613, 675; 26 U. S. C. 5054, 5413, 5414)

§ 245.182 *Method of taxpayment.* The tax on beer shall be paid by return on Form 2034, as provided in §§ 245.342–245.344. The tax shall be paid by remittance to the District Director at the time the tax return is rendered and the remittance shall be in cash, or by check or money order made payable to the "District Director of Internal Revenue." In paying the tax a fractional part of a cent shall be disregarded unless it amounts to one-half cent or more, in which case it shall be increased to one cent.

(68A Stat. 614, 777, 778; 26 U. S. C. 5061, 6311, 6313)

§ 245.183 *Determination of tax on keg beer.* In determining the tax on beer removed in kegs, a barrel shall be regarded as being a quantity of not more than 31 gallons. The authorized fractional parts of a barrel are halves, thirds, quarters, sixths, and eighths. Any keg containing one-eighth or less will be accounted and taxpaid as one-eighth; if more than one-eighth and not more than one-sixth, as one-sixth; if more than one-sixth and not more than one-fourth, as one-fourth; if more than one-fourth and not more than one-third, as one-third; if more than one-third and not more than one-half, as one-half; if more than one-half and not more than one barrel, as one barrel; and if more than one barrel and not more than 63 gallons, as two barrels or a hogshead. The provisions of this section requiring the accounting and taxpayment of kegs at the next higher quantity shall not apply where the excess quantity of beer in any such container over the standard quantity does not exceed two percent by volume. The quantities of keg beer removed subject to tax shall be computed to 5 decimal places. The sum of the quantities so computed for any one day will be reduced to 3 decimal places by dropping the numerals in the 4th and 5th decimal places and the tax shall be calculated and paid on such reduced sum.

(68A Stat. 611; 26 U. S. C. 5051)

§ 245.184 *Determination of tax on bottled beer.* The quantities of bottled beer removed subject to tax shall be computed to 5 decimal places in accordance with the table and instructions in § 245.185. The sum of the quantities so computed for any one day will be reduced

to 3 decimal places by dropping the numerals in the 4th and 5th decimal places and the tax shall be calculated and paid on such reduced sum.

(68A Stat. 611; 26 U. S. C. 5051)

§ 245.185 *Tax computations for bottled beer.* Barrel equivalents for various case sizes are as follows:

Number of bottles per case	Fluid contents (ounces) of each bottle	Barrel equivalent
4	64	0.06452
6	64	.09677
12	6	.01815
12	7	.02117
12	8	.02419
12	12	.03629
12	14	.04234
12	30	.09073
12	32	.09677
24	6	.03629
24	7	.04234
24	8	.04839
24	9	.05444
24	10	.06048
24	11	.06653
24	12	.07258
24	13	.07863
24	14	.08468
24	15	.09073
24	16	.09677
24	6	.05444
36	7	.06351
36	8	.07258
48	12	.14516
50	12	.15120

Since the determination of tax liability is based upon a count of cases of bottles, various sized bottles may not be indiscriminately mixed in a case. This shall not be construed as prohibiting cases or bottles of sizes other than those listed in the above table or cases which contain bottles of more than one size where such cases are uniformly filled with a specific number of bottles of each size: *Provided*, That if beer is to be removed in cases or bottles of sizes other than those listed in the above table, the brewer will notify the Assistant Regional Commissioner in advance and request to be advised of the fractional barrel equivalent applicable to the proposed container.

§ 245.186 *Time of tax determination and payment.* The tax on beer shall be determined on sale or removal for consumption or sale. Except as provided in § 245.187, a brewer shall file the tax return with remittance not later than the close of the business day next succeeding that on which the beer was sold or removed for consumption or sale: *Provided*, That when the last day for filing a tax return and remittance falls on Saturday or Sunday, or on a legal holiday (of the particular State or of the District of Columbia wherein the return is required to be filed), the performance of such acts shall be considered timely if they are performed on the next succeeding day which is not a Saturday, Sunday, or legal holiday (of the particular State or of the District of Columbia wherein the return is required to be filed): *And provided further*, That where the return and remittance are delivered by United States mail to the office of the District Director, the official postmark of the United States Post Office stamped on the cover in which the return and remittance were mailed shall be deemed to be the date of delivery. Timely mailing (as evidenced by such postmark) will be treated as timely filing. Postmarks not made by the United States Post Office are not acceptable evidence of time of mailing.

(68A Stat. 613, 731, 895, 896; 26 U. S. C. 5055, 6001, 7502, 7503)

§ 245.187 *Handling of a day's gross tax liability of less than $100.* Notwithstanding the provision of § 245.186 regarding the filing of tax returns daily, a return need not be prepared (nor the remittance of tax made) until the total gross tax (for one or more days) reaches $100, when Form 2034 (with remittance) will be prepared and filed. Before the close of the first business day following the last day of each month, Form 2034 will be prepared and filed with remittance covering the last day or days of the next preceding month even though the amount of tax due is less than $100.

(68A Stat. 614, 675, 681; 26 U. S. C. 5061, 5415, 5555)

§ 245.188 *Evasion of or failure to pay tax.* Evasion or attempted evasion of the tax imposed on beer may subject the brewer to proceedings leading to the forfeiture of all the beer made by him or for him, the utensils and apparatus used in making such beer, and the land and buildings constituting the brewery, and to fine and imprisonment. A brewer who fails to pay such tax, or make a return as required by this part, shall in addition to other penalties provided by law be subject to a penalty of not more than $1,000.

(68A Stat. 696, 699; 26 U. S. C. 5671, 5673, 5684)

SUBPART O—MARKS, BRANDS, AND LABELS

§ 245.195 *Barrels and cases.* The brewer's name or trade name and the place of production must be embossed on, indented in, or otherwise permanently marked on (subject to the approval of the Assistant Regional Commissioner) each metal barrel or keg of beer. The same information must be branded by burning on the side, across the staves, and extending over 60 percent, or more, of the circumference, of each wooden barrel or keg. Such branding must be of sufficient depth and size so that it may not be effaced without leaving traces of scraping or other erasure. The brewer's name or trade name and place of production (city and state) must be shown on each case or other shipping container for bottled beer. No statement concerning payment of internal revenue tax shall appear on such shipping container.

(68A Stat. 675; 26 U. S. C. 5412)

§ 245.196 *Bottles.* Where beer is bottled in the brewery bottling house, the bottle shall show by label or otherwise the name or trade name, the place of production (city and state), the net contents of the container and the nature of the product, such as beer, lager beer, ale, stout, etc. No statement as to payment of internal revenue taxes shall be shown. The labels used by the brewer must be covered by certificates of label approval where required by Part 7 of Title 27 of the Code of Federal Regulations.

(68A Stat. 675; 26 U. S. C. 5412)

MORE THAN ONE BREWERY OWNED BY THE SAME PERSON

§ 245.197 *Barrels or kegs.* Where two or more breweries are owned and operated by the same person, firm, or corporation, barrels or kegs with the name of the brewer and the location of one or more of such breweries branded, embossed, or otherwise permanently marked thereon or indented therein may be used for the removal of beer subject to tax from all such breweries: *Provided*, That whenever a barrel or keg so branded is filled with beer for removal subject to tax, the location (city and state) of the brewery at which the beer was produced, shall be marked on the bung or shown on a label securely affixed to the container. If more than one such brewery is located in the same city, such bung or label shall show the location by street number, city and state.

(68A Stat. 675; 26 U. S. C. 5412)

§ 192.198 *Cases.* The place of production (city and state) must be shown on each case: *Provided*, That where two or more breweries are owned and operated by the same person, firm, or corporation the cases may show the addresses (city and state) of all of such breweries and be used interchangeably.

§ 245.199 *Rebranding barrels or kegs.* No barrel or keg which bears the name of more than one brewer may be used as a container for beer: *Provided*, That where barrels or kegs are purchased by one brewer from another or obtained by other legitimate means, and after the Assistant Regional Commissioner has been notified of the proposed action, the brands on such wooden barrels or kegs may be scraped and the barrels or kegs rebranded by the purchasing brewer, and in the case of metal barrels or kegs, the original marks may be covered by a metal plate so welded to the barrel as to become an integral part thereof, and the required marks may be embossed on, or indented in, such metal plates. The successor to a brewer who has discontinued business may place additional marks and brands on the barrels and kegs, in accordance with § 245.195, which indicate the successorship without removing the marks and brands of the predecessor.

(68A Stat. 675; 26 U. S. C. 5412)

§ 245.200 *Tanks, vehicles, and vessels.* Each tank, tank car, tank truck, tank ship, barge, or deep tank of a vessel, used for transferring beer from one brewery to another brewery belonging to the same brewer, as provided in § 245.211, must be plainly and durably marked with the brewer's name, the address of the brewery from which the beer was removed, the address of the brewery to which transferred, the date of shipment, and the quantity transferred (expressed in barrels). The marks may be placed on a suitable label securely affixed to the route board of such containers.

(68A Stat. 675; 26 U. S. C. 5414)

SUBPART P—REMOVAL OF BREWER'S YEAST AND OTHER ARTICLES

§ 245.205 *Containers and records.* Brewer's yeast, in liquid or solid form containing not less than 10 percent solids (as determined by the methods of analysis of the American Society of Brewing Chemists), may be removed from the brewery in barrels, tank trucks, or other suitable containers, or by pipeline. If removed in containers, the containers must bear labels giving the name and location of the brewery, and the words "Brewer's Yeast." If removed by pipeline, the pipeline will be indicated on the plat and described in the Form 27–C, and the premises receiving the product will be subject to inspection by internal revenue officers during ordinary business hours. The brewer must keep records open for inspection by internal revenue officers showing the quantity and date of removal, and the name and address of the consignee. Brewer's yeast may be removed for sale to other brewers for use in the production of beer and to other concerns for the preparation of stock foods and medicinal products, or for any other legitimate purposes.

(68A Stat. 675; 26 U. S. C. 5411)

§ 245.206 *Malt sirup.* Records shall be kept by the brewer of all malt and malt sirup removed from the brewery. Such records must show the quantity of each lot removed, together with the name and address of the person to whom shipped or delivered. The records must be available for inspection by internal revenue officers.

(68A Stat. 675; 26 U. S. C. 5411)

SUBPART Q—TRANSFERS TO ANOTHER BREWERY OF SAME OWNERSHIP

§ 245.210 *General.* In accordance with the provisions of this part, beer may be removed from one brewery for transfer to another brewery belonging to the same brewer, without payment of tax, and may be mingled with the beer of the second brewery.

(68A Stat. 675; 26 U. S. C. 5414)

§ 245.211 *Kinds of containers.* Beer may be transferred without payment of tax, from one brewery to another brewery belonging to the same brewer (a) in bottles and cases; (b) in the brewer's hogsheads, barrels, or kegs; or (c) in tanks, tank cars, tank trucks, tank ships, barges, or deep tanks of vessels provided the breweries are equipped with suitable railroad siding facilities or dock facilities, as applicable, and subject to such limitations and conditions as may be imposed by the Assistant Regional Commissioner. All such containers shall be marked, branded, or labeled as provided in §§ 245.195 to 245.200.

(68A Stat. 675; 26 U. S. C. 5414)

§ 245.212 *Determination of quantity transferred.* The quantity of beer shipped will be determined by the brewer at the time of removal from the consignor brewery and the quantity received will be determined at the time of receipt at the consignee brewery. Before any beer is transferred by tank, tank car, tank truck, tank ship, barge, or deep tanks of vessels, the brewer must satisfy the Assistant Regional Commissioner(s) that both the shipping and receiving breweries are so equipped that the quantities to be shipped and delivered in such bulk conveyances can be accurately determined.

(68A Stat. 675; 26 U. S. C. 5414)

§ 245.213 *Losses in transit.* The brewer is liable under the bond of the brewery to which the beer is transferred for the tax on beer lost in transit. Such liability may be remitted if such beer is lost other than by theft.

(a) *Losses allowable without claim.* Where such loss does not exceed 1 percent of the quantity shipped, application for allowance of the loss or report of loss will not be required provided there are no circumstances indicating that the beer lost, or any part thereof, was stolen or otherwise diverted to an unlawful purpose.

(b) *Losses requiring claim.* Where such loss exceeds 1 percent of the quantity shipped, the brewer shall submit an application under the penalties of perjury for remission of the tax on the entire loss to the Assistant Regional Commissioner of the region in which the receiving brewery is located. Such application shall be prepared and submitted in accordance with the provisions of § 245.218.

(c) *Losses requiring immediate report.* A loss by fire or other casualty, or any other unusual loss, including a loss by theft, must be reported to the Assistant Regional Commissioner immediately it becomes known.

(68A Stat. 613, 675; 26 U. S. C. 5057, 5414)

§ 245.214 *Mingling.* Beer transferred without payment of tax from one brewery to another brewery belonging to the same brewer may be mingled with beer of the receiving brewery: *Provided*, That (a) beer transferred in hogsheads, barrels, or kegs must be received in the racking room or keg beer storage room of the receiving brewery; (b) bottled beer must be received in the brewery bottling house; and (c) bulk beer transferred in tanks, vehicles, or vessels must be received in brewery tanks not located in the bottling department: *And provided further*, That such beer having been so received and accounted for in the records of the consignee brewery may be handled thereafter in accordance with the requirements of this part relating to beer produced in such brewery.

(68A Stat. 675; 26 U. S. C. 5414)

§ 245.215 *Report of transfers between breweries.* When beer is transferred without payment of tax from one brewery to another brewery belonging to the same brewer, the consignor brewery shall render notice thereof on the date of shipment on Form 2035 as provided in §§ 245.216 and 245.217. The quantity transferred will be entered on Forms 2051 and 103 of the shipping brewery. Similarly, the quantity received will be reported on Forms 2051 and 103 of the receiving brewery. Any discrepancy between the quantity shipped and the quantity received will be reported on Form 2035 in accordance with §§ 245.216 and 245.217.

(68A Stat. 675; 26 U. S. C. 5414)

§ 245.216 *Transfers in same region.* When beer is transferred from one brewery to another brewery belonging to the same brewer and located in the same region, the brewer shall prepare Form 2035, in quadruplicate, and forward, on the day of shipment, one copy to the Assistant Regional Commissioner of his region and two copies to the receiving brewery. One copy will be retained in the files of the shipping brewery. When the beer is received, the receiving brewery will enter on the two copies of Form 2035 the actual quantity received and any discrepancy between the quantities shipped and received. One copy of the form will be promptly forwarded to the Assistant Regional Commissioner and the other copy retained in the files of the receiving brewery.

(68A Stat. 675; 26 U. S. C. 5414)

§ 245.217 *Transfers to other regions.* When beer is transferred to a brewery located in another region, the brewer shall prepare Form 2035, in quintuplicate, and forward, on the day of shipment, one copy to the Assistant Regional Commissioner of the shipping region, one copy to the Assistant Regional Commissioner of the receiving region, and two copies to the receiving brewery. The remaining copy will be retained in the files of the shipping brewery. When the beer is received, the receiving brewery will enter on the two copies of Form 2035 the actual quantity received and any discrepancy between the quantities shipped and received. One copy of the form will be promptly forwarded to the Assistant Regional Commissioner of the receiving region and the other retained in the files of the brewery. On receipt of the Form 2035 showing the actual quantity received, the Assistant Regional Commissioner of the receiving region will complete the Form 2035 received from the brewer at the time of shipment and forward it to the Assistant Regional Commissioner of the shipping region.

(68A Stat. 675; 26 U. S. C. 5414)

§ 245.218 *Application for remission of tax.* Application for remission of tax on beer lost in transit between breweries of the same ownership shall be prepared by the brewer or his duly authorized agent and submitted with Form 103 of the receiving brewery for the month in which the shipment is received. Where the loss is by casualty, the application shall be submitted with the Form 103 for the month in which the loss is discovered. Where, for valid reason, the required application cannot be submitted with such report, a statement shall be attached to the monthly report setting forth the reason why the application cannot be filed at that time and specifying when it will be filed. No claim shall be allowed unless such application is filed with the Assistant Regional Commissioner within 6 months after the date of loss. The application shall set out:

(a) The date and serial number of the shipment (as shown on the transfer paper).

(b) The quantity of beer lost (number and size of packages and their equivalent in barrels).

(c) The percent of loss.

(d) The specific cause of the loss.

(e) The nature of the loss (leakage, breakage, casualty, etc.).

Full details shall be furnished on losses due to casualty or accident, supported if possible, by statements of the carrier or other parties having personal knowledge of the loss.

(68A Stat. 613, 675; 26 U. S. C. 5057, 5414)

SUBPART R—REMOVALS TO CONTIGUOUS ALCOHOL PLANTS

§ 245.225 *Beer removed to contiguous alcohol plants.* Beer to be used as distilling material may be conveyed by pipeline without taxpayment from the brewery where produced to an industrial alcohol plant contiguous to the brewery.

(68A Stat. 658, 675; 26 U. S. C. 5309, 5412)

§ 245.226 *Brewery and alcohol plant separate.* The brewery and the industrial alcohol plant must be separate and distinct. If the industrial alcohol plant is in a portion of a building in which the brewery is situated or is in a separate building immediately adjoining a brewery building, they must be separated by substantial unbroken walls from cellar to roof, on the lines of the premises on all floors, with the exception only that necessary openings will be permissible to allow the conveyance of beer, water, and carbon dioxide gas by pipes, and to permit the use of the same heat, light, and power plants in the conduct of both industries. Necessary openings will also be permitted in such partitions for the passage of pipes for the return of the residue after distillation for finishing as cereal beverage in the brewery.

(68A Stat. 658; 26 U. S. C. 5309)

§ 245.227 *Measuring tanks.* Necessary measuring tanks, with a 24-hour capacity for each, must be provided, either in the brewery or industrial alcohol plant, for the determination of the quantity of beer transferred, and records must be made thereof at the brewery and at the industrial alcohol plant. Each such measuring tank must be calibrated and provided with a suitable measuring device and the outlet must be equipped for locking with a Government seal lock. A meter to be approved by the Assistant Regional Commissioner may be provided in lieu of measuring tanks.

(68A Stat. 658; 26 U. S. C. 5309)

§ 245.228 *Cereal beverage.* The residue, which is to be used in making cereal beverage, may be transferred from the industrial alcohol plant premises to the brewery by means of packages unlike those ordinarily used for containing beer. If like packages are used, they must be equipped in the manner required where beer packages are used for containing nontaxable beverages removed from a brewery. Such residue may be transferred from the industrial alcohol plant to the brewery by means of a separate pipeline which must be visible throughout its entire length. The residue must be kept separate and distinct from taxable products of the brewery, and if the same apparatus is to be used for cereal beverage and beer it must be used at separate and distinct times for the two products.

(68A Stat. 658; 26 U. S. C. 5309)

§ 245.229 *Production report.* The beer conveyed to a contiguous alcohol plant shall be reported as produced by the brewer and so entered on Forms 2051 and 103.

(68A Stat. 658; 26 U. S. C. 5309)

§ 245.230 *Records.* Credit shall be taken on Forms 2051 and 103 for the quantity of beer removed as distilling material. Any residue returned from the industrial alcohol plant to the brewery for finishing as cereal beverage shall be accounted for as received, on Form 66.

(68A Stat. 658; 26 U. S. C. 5309)

§ 245.231 *Supervision by storekeeper-gauger.* The storekeeper-gauger assigned to supervise the operations of the industrial alcohol plant will also supervise the removal of the beer from the brewery to such industrial alcohol plant. Such removals shall be made only at times when the storekeeper-gauger is available to provide the required supervision.

(68A Stat. 658; 26 U. S. C. 5309)

SUBPART S—REMOVAL OF BEER UNFIT FOR BEVERAGE USE

§ 245.235 *Removal of sour or damaged beer.* When beer has become sour or damaged, so as to be incapable of use as such, a brewer may remove such beer from his brewery without payment of tax, for manufacturing purposes, in accordance with the provisions of this subpart.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.236 *Packages.* A brewer may remove sour or damaged beer in casks, or other packages, containing not less than one barrel each and unlike those ordinarily used for packaging beer. The nature of the contents shall be marked on such casks or other packages.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.237 *Application.* Before removing sour or damaged beer, the brewer shall apply to the Assistant Regional Commissioner for permission to make such removal, stating the quantity, type, condition, and proposed disposition of the beer. The Assistant Regional Commissioner, before granting permission for removal, may assign an inspector to inspect and identify the spoiled beer and to secure samples thereof for submission to the Government chemist. If the chemist's report of analysis shows the beer to be unsuitable for use as such, the Assistant Regional Commissioner will notify the brewer in writing that it may be removed. The Assistant Regional Commissioner may authorize such removal without inspection and sampling where he is satisfied that the revenue will not be jeopardized thereby.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.238 *Entry on Form 103.* Sour or damaged beer shall be removed from the brewery without passing through the meter and racking machine. Credit entry therefor must be made in the "Beer Summary" on Form 103.

(68A Stat. 612; 26 U. S. C. 5053)

SUBPART T—BEER RETURNED TO BREWERY

§ 245.240 *Temporary storage of undelivered beer.* Undelivered beer returned to the brewery may be held in temporary storage pending its removal again for sale. Such beer must be kept completely segregated from all other beer and be immediately accessible for examination by internal revenue officers. Undelivered beer must be the first of its kind, type, and container size removed: *Provided,* That beer in barrels and kegs may be held for not more than 5 days for refrigeration, after which it must be the first of its kind, type, and container size removed. Entry will not be made on Form 2051 for such beer while in temporary storage. The brewer must show on his commercial records the quantity of such beer returned to the brewery each day and the quantity remaining on hand. Such records must be supported by credits against loading slips or other commercial papers.

(68A Stat. 675; 26 U. S. C. 5411)

§ 245.241 *Temporary storage of repossessed bottled beer.* Bottled beer on which the tax has been determined or paid, and which is repossessed from the purchaser thereof, may be returned to the brewery bottling house and held in temporary storage pending its destruction, reconditioning, or use as material. Such beer must be completely segregated from all other beer, be identified as repossessed beer, and be immediately accessible for examination by internal revenue officers. No refund, credit, or remission of tax will be allowed on such beer, and such beer, after reconditioning, shall again be subject to the tax imposed by law. Immediately upon receipt the quantity of beer must be taken into account in the "Statement of Transactions in Beer" on Form 2051 and upon destruction, reconditioning, or use as material, an entry of the quantity involved must be made in the same statement. Similar special entries must be made in the "Beer Summary" on Form 103. Destruction, reconditioning, or use as material, may be effected only in accordance with the provisions of § 245.354.

(68A Stat. 675; 26 U. S. C. 5411)

§ 245.242 *Recasing or relabeling; application.* A brewer desiring to receive bottled beer on which the tax has been paid or determined, for recasing or relabeling in the brewery bottling house, must submit an application, in triplicate, with the Assistant Regional Commissioner, for permission so to do, stating the approximate quantity of beer and the date on which it is to be received for such reconditioning. The Assistant Regional Commissioner may assign an officer to supervise the receipt, recasing or relabeling, and removal of the beer or authorize such actions without supervision where he is satisfied that the revenue will not be jeopardized thereby. The brewer may submit his application directly to an inspector at the brewery, who may thereupon supervise the operation. The beer must be recased or relabeled promptly after receipt at the brewery bottling house, be kept apart from all other beer, and be immediately removed from the bottling house after completion of the recasing or relabeling. If a brewer desires to hold small quantities of beer returned for recasing or relabeling until a sufficient quantity has been accumulated for economical handling, or if it is not otherwise feasible to recase or relabel returned beer immediately, such beer must be stored on premises other than the brewery. The brewer will file at the brewery one copy of the application as completed by the supervising officer or by the Assistant Regional Commissioner when supervision is not required. The quantity of beer so received and disposed of shall not be entered on Forms 2051 or 103.

(68A Stat. 675; 26 U. S. C. 5411)

§ 245.243 *Beer removed from market.* Beer on which the tax has been paid or determined, which is removed from the market before transfer of title thereto to any other person, may be returned to the brewery for destruction, reconditioning, or use as brewing material. Immediately upon receipt, the quantity of such beer must be taken into account in the "Statement of Transactions in Beer" on Form 2051, and when destroyed, reconditioned, or used as material, appropriate entries shall be made in the same statement. Similar special entries must be made in the "Beer Summary" on Form 103. When such beer is used as brewing material, the quantity so used must be entered on Form 2051 as materials received, in one of the unused columns, the heading of which should be marked "Returned Beer Salvaged". Entry of the quantity and balling shall also be made on Form 2051 under materials used in an unused column which should be headed "Salvaged Beer". Such salvaged beer used as brewing material shall also be reported in the "Summary of Materials" on Form 103. All such beer received at the brewery may be stored temporarily therein pending its disposition but must be completely segregated from all other beer, be identified as beer removed from the market without transfer of title, and be immediately accessible for inspection by internal revenue officers. The destruction, reconditioning, and use as material, of the beer, may be effected only in accordance with the provisions of §§ 245.251 and 245.252.

(68A Stat. 675; 26 U. S. C. 5411, 5415)

SUBPART U—REFUND AND CREDIT OF TAX OR RELIEF FROM LIABILITY

§ 245.250 *Beer returned for reconditioning, use as material, or destruction.* The tax paid by a brewer on beer produced by him in the United States may be refunded or credited to him (without interest), or, if the tax has not been paid, he may be relieved of liability therefor, if such beer is removed from the market before the transfer of title thereto to any other person, and such beer is returned to the brewery for reconditioning, for use as material, or is destroyed, as required by this part. Such beer may be returned to the brewery and held in temporary storage as provided in § 245.243. The destruction of such beer or its reconditioning or use as material, may be effected only in accordance with the provisions of §§ 245.251 and 245.252.

(68A Stat. 613; 26 U. S. C. 5057)

§ 245.251 *Brewer's application: beer removed from market.* When a brewer possesses returned taxpaid beer (or beer on which the tax has been determined) in his brewery or elsewhere, which he desires to destroy, recondition, or use as material, and such beer was removed from the market by the brewer before transfer of title thereto to any other person, he shall make written application, in triplicate, to the Assistant Regional Commissioner for permission so to do: *Provided,* That such application may be submitted directly to an inspector at the brewery who may thereupon supervise the destruction or removal of the beer from its containers for reconditioning or use as material. The application shall contain or be verified by a written declaration that it is made under the penalties of perjury and shall set forth the following information:

(a) The number and sizes of kegs and their total equivalent in barrels; or if in cases, the number of cases, the number and size in ounces of the bottles comprising the cases and the equivalent in barrels of the total contents of the cases.

(b) The date on which the beer was removed subject to tax, and, if the tax has been paid, the date and place of taxpayment.

(c) The date on which the beer was removed from the market.

(d) A statement that title to the beer has never passed to any other person.

(e) A notation with respect to each item or lot indicating whether the beer is to be destroyed, or whether it is to be returned for reconditioning or for use as brewing material.

(f) The percent of alcohol by volume and, if removed for use as material, the percent of balling.

(g) If returned for reconditioning, the reason such reconditioning is necessary.

(h) If to be destroyed, the location at which the brewer desires to accomplish destruction and, if not at the brewery, the reason for destruction elsewhere.

(68A Stat. 613; 26 U. S. C. 5057)

§ 245.252 *Assignment of inspector.* Upon receipt of the brewer's application, the Assistant Regional Commissioner will assign an inspector to verify the statements therein and to witness the destruction of the beer or its removal from containers for reconditioning or use as material, unless the Assistant Regional Commissioner determines that such supervision is unwarranted because of the small quantity of beer involved and such action will not jeopardize the revenue. In such case he shall approve the application without the assignment of an inspector. Special assignment of an inspector will not be made unless it is essential to return the beer for immediate reconditioning. If the brewer desires to destroy such beer at some place other than the brewery and such place is not readily accessible to an inspector, the Assistant Regional Commissioner may require that the beer be moved to a more convenient location.

(68A Stat. 613; 26 U. S. C. 5057)

§ 245.253 *Beer lost or destroyed by fire, casualty, or act of God.* In accordance with the provisions of this part the tax paid by any brewer on beer produced in the United States may be refunded or credited (without interest), or, if the tax has not been paid, the liability may be remitted, if such beer is lost other than by theft, or is destroyed by fire, casualty, or act of God, before transfer of title thereto to any other person. A brewer who sustains such loss and desires to file a claim for refund, credit, or remission of tax, shall, upon learning of such loss, immediately notify the Assistant Regional Commissioner of the nature, cause, and extent of the loss, and the place where such loss occurred. Statements of witnesses or other supporting documents should be furnished, if available. When such notice, and supporting documents where furnished, are received by the Assistant Regional Commissioner, he will examine the reasons for the described loss and will cause such investigation to be made or require such additional evidence to be submitted as he may deem necessary for use in connection with the claim when it is submitted. The tax liability on excessive losses of beer from transfers between breweries of the same ownership may be remitted as provided in § 245.213.

(68A Stat. 613; 26 U. S. C. 5057)

§ 245.254 *Claims for refund of tax.* A claim for refund of tax paid on beer removed from the market by the brewer before the transfer of title thereto to any other person, which beer has been returned to the brewery for reconditioning or for use as material, or destroyed, as provided in this part, will be made on Form 843. A claim for refund of tax paid on beer lost, other than by theft, or destroyed by fire, casualty, or act of God, before the transfer of title thereto to any other person, will also be filed on Form 843. Any such claim must be filed with the Assistant Regional Commissioner having jurisdiction over the region in which the tax was paid, within 6 month after the date of such removal from the market, loss, or destruction by fire, casualty, or act of God. Such claims will not be allowed if filed after the prescribed time or if the claimant was indemnified by insurance or otherwise in respect of the tax.

(68A Stat. 613; 26 U. S. C. 5057)

§ 245.255 *Claims for allowance of credit for tax.* In lieu of filing a claim for refund of tax as provided in § 245.254, a brewer, under the circumstances enumerated in that section, may file with the Assistant Regional Commissioner having jurisdiction over the region in which the tax was paid, a claim for allowance of credit for the tax paid. Any such claim shall be prepared in triplicate, be on the brewer's letterhead, and shall contain or be verified by a written

declaration that it is made under the penalties of perjury. Where the claim concerns beer destroyed or returned to the brewery for reconditioning or for use as material, the claim shall recite the pertinent details in connection with the transaction and shall make specific reference to the application filed in connection therewith pursuant to § 245.251. Where the claim concerns beer lost, other than by theft, or destroyed by fire, casualty, or act of God, the claim must likewise recite the pertinent details in connection with the loss or destruction and make specific reference to the written notification to the Assistant Regional Commissioner required by § 245.253. All such claims shall include a statement of the brewer's reasons for believing that the credit should be allowed. The brewer may not anticipate allowance of a credit or make an adjusting entry therefor in a tax return pending consideration and action on the claim by the Assistant Regional Commissioner. When written notification of allowance of the credit or any part thereof is received from the Assistant Regional Commissioner, the brewer may make a proper adjusting entry and explanatory statement in the next subsequent beer tax return (or returns) to the extent necessary to exhaust the credit. A claim for allowance of credit for tax paid on beer must be filed within 6 months after the date of removal from the market, loss, or destruction by fire, casualty, or act of God. A claim will not be allowed if filed after the prescribed time or if the brewer was indemnified by insurance or otherwise in respect of the tax.

(68A Stat. 613; 26 U. S. C. 5057)

SUBPART V—EXPORTATION

§ 245.260 *General.* An exportation is a severance of goods from the mass of things belonging to the United States with the intention of uniting them to the mass of things belonging to some foreign country. The export character of any shipment will be determined by the intention with which it is made, and it assumes an export character only when destined for use in a foreign country. Evidence of exportation, as provided in § 245.264, is required. In every case where a shipment is made, which is not a bona fide exportation, the tax due thereon will be assessed.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.261 *Exportation of taxpaid beer.* When beer brewed or produced in the United States is exported or used as supplies on the vessels and aircraft described in section 309 of the Tariff Act of 1930, as amended (19 U. S. C. 1309), the brewer thereof shall be allowed a drawback, in accordance with the provisions of Part 252 of this title, equal in amount to the tax found to have been paid on such beer.

(68A Stat. 613; 26 U. S. C. 5056)

§ 245.262 *Exportation without payment of tax.* Beer may be removed from a brewery, without payment of tax, for export to a foreign country. The provisions of this part and the forms prescribed in respect to the removal of beer without payment of tax for exportation to foreign countries, apply to like removals and shipments to Puerto Rico, Guam, American Samoa, the Virgin Islands of the United States, and the Panama Canal Zone. Beer removed from a brewery for shipment to Hawaii, Alaska, Kingman's Reef, the Midway Islands, or Wake Island must be taxpaid in the same manner as beer sold or removed for consumption or sale in the United States.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.263 *Foreign trade zones.* Beer may be removed from a brewery without payment of tax for deposit in a foreign trade zone and taxpaid beer, brewed or produced in the United States, may be so deposited by the brewer thereof with benefit of drawback, in accordance with the provisions of Part 253 of this title.

(48 Stat. 999, 68A Stat. 612, 613; 19 U. S. C. 81c, 26 U. S. C. 5053, 5056)

§ 245.264 *Evidence of exportation.* Exportation of beer may be evidenced by (a) a copy of the export bill of lading executed, as described in § 245.271, by the export carrier, or (b) a certificate by the agent or representative of the export carrier, or by a proper United States customs officer showing that the beer has been laden for export, or (c) a certificate signed by the port transportation officer or the commanding officer of a supply base showing that the beer will be delivered only for consumption or use by the Armed Forces of the United States outside the jurisdiction of the internal revenue laws of the United States: *Provided,* That where the evidence of exportation described above is not furnished, or where deemed necessary to protect the revenue, the Assistant Regional Commissioner may require the submission of other evidence of exportation as provided in § 245.278.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.265 *Removal for exportation.* The quantity of beer removed for exportation in kegs or barrels or in bottles pursuant to Form 1689 will be entered on Forms 2051 and 103. Beer may be so removed only for immediate exportation and may not be returned to a brewery unless authorized under the provisions of § 245.272.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.266 *Marks on containers.* In addition to the marks and brands prescribed in § 245.195, each keg, barrel, case, crate, or other package containing beer to be exported under the provisions of this part, without the payment of tax, must plainly and legibly show the words: "Beer for Export—Lot No. --------", in letters and figures of not less than three-fourths of an inch in height. The lot number assigned must correspond with the serial number of Form 1689.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.267 *Consignment to Collector of Customs.* Every shipping container of beer destined for foreign countries or the insular possessions beyond the territorial waters of the United States must be consigned to the Collector of Customs at the port of exportation, and the brewer should notify his agent of such shipment. Where such containers are destined for contiguous foreign territory the shipments shall be consigned to the foreign consignee at destination and must be marked in care of the Collector or deputy collector of customs at the border port of exit: *Provided,* That beer removed for export and intended for the use of, or consumption by, the Armed Services of the United States will be consigned to the commanding officer or supply officer at the supply base or other place of delivery, as provided in § 245.269.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.268 *Notice, Form 1689.* The brewer shall prepare notice on Form 1689, in quadruplicate, for each withdrawal of beer intended for export without payment of tax. Each Form 1689 shall be given a serial number and the details shall be filled in completely and legibly by the brewer in accordance with the instructions on the form. The name or number of the vessel or vehicle on which the shipment will be carried from the exterior limits of the United States, if unknown to the brewer, will be filled in by the agent of the brewer at the port of exportation, who will sign the request for customs inspection as the agent for the exporter. On removing beer for export, the brewer shall file two copies of the notice with the Collector of Customs of the port of exportation, or of the border port through which a shipment is made to contiguous foreign territory, file one copy with the Assistant Regional Commissioner of the region in which the brewery is located, and retain one copy in the files at the brewery. If the place of production is located at some place other than the port of exportation, and the shipment is to be exported by vessel immediately, the brewer shall forward two copies of the Form 1689 to his agent at the port of exportation. The two copies of the Form 1689 must reach the agent in sufficient time for him to file them with the Collector of Customs of the port at least six hours prior to lading. The agent shall see that the name of the exporting vessel is properly entered in the Form 1689 giving the location of the pier where it will be laden, and shall subscribe his name as agent for the exporter.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.269 *Shipment to Armed Services.* On removing beer without payment of tax for export to the Armed Services of the United States, the brewer shall consign the shipment to the commanding officer or supply officer at the supply base or other place of delivery. One copy of the notice on Form 1689 shall be transmitted to such officer and one copy shall be sent to the Assistant Regional Commissioner of the region from which the beer is shipped. Form 1689 will be modified to show that the beer is consigned to a commanding officer or supply officer of the Armed Services of the United States and the location of the supply base or place of delivery. When the beer is received, the officer to whom consigned, or other authorized supply officer, at the supply base or other place of delivery, will, in the space designated "Certificate of Inspection and Lading," on Form 1689, receipt for the number of cases received, and state that "The beer will be shipped or delivered only for consumption or use outside the jurisdiction of the internal revenue laws of the United States." The commanding officer or supply officer will return the Form 1689 direct to the Assistant Regional Commissioner who will credit the brewer's export account for the quantity of beer receipted for on Form 1689.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.270 *Change in consignee.* Where a change of consignee is desired after removal of the beer, the brewer shall notify the appropriate Collector of Customs and forward a copy of such notification to the appropriate Assistant Regional Commissioner.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.271 *Delivery to carrier.* The brewer, upon removal of beer for export without payment of tax, will deliver such beer either to the carrier or directly for customs inspection. If the place of production is located at the port of exportation, he will deliver the beer directly for customs inspection and supervision of lading, and will promptly forward a copy of the export bill of lading to the Assistant Regional Commissioner. If the place of production is located elsewhere than at the port of exportation, he will deliver the beer to the carrier for transportation to the port of exportation, and promptly forward one copy of the bill of lading covering such transportation to the Assistant Regional Commissioner of the region from which the beer was shipped. After the beer has been delivered to the export carrier, the brewer, or his agent, will forward a copy of the export bill of lading to the Assistant Regional Commissioner of the region from which the beer was shipped. The export bill of lading will not be accepted as evidence of exportation unless it has been executed by the export carrier to show that the beer has been accepted by such carrier for delivery to a foreign destination.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.272 *Return of beer.* Beer removed for export without payment of tax may be returned to the brewery from which removed if lading of the beer is delayed more than 30 days, or for such additional time as the Assistant Regional Commissioner may approve, as provided in § 245.275, or where the brewer has other good cause for such return. The brewer will request the Collector of Customs to release the beer for return to the brewery and, upon such release, the Collector of Customs will endorse his approval of the action taken, on both copies of Form 1689 covering the beer, and return the forms to the brewer. Upon return of the beer to the brewery, the brewer will record the quantity of beer as a special entry on Form 2051, mark the two copies of Form 1689 returned by the Collector of Customs, "Cancelled— returned to brewery," and forward one copy to the Assistant Regional Commissioner. The total quantity of beer involved in all export shipments returned during any calendar month shall be reported as a special entry on Form 103.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.273 *Exportation through border port.* In case of exportation through a border port to contiguous foreign territory, the bill of lading will cover transportation to the foreign destination, and must show the routing, particularly the carrier which will deliver the shipment of beer for customs inspection at the border; also that the beer was sent in care of the Collector of Customs or a deputy collector of customs at the border port: *Provided,* That where a through bill of lading is not obtainable, separate bills of lading covering the shipment from the place of production to the border port and from the border port to the foreign destination will be procured. A copy of the through bill of lading, or copies of the separate bills of lading, as the case may be, will be transmitted by the brewer or his agent immediately to the Assistant Regional Commissioner of the region from which the beer was shipped. Where a copy of a separate bill of lading covering the shipment from the border port to the foreign destination, and executed by the export carrier, is not obtainable, the brewer may procure a certificate by an agent of such carrier, as described in § 245.274, and transmit such certificate to the Assistant Regional Commissioner.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.274 *Certificate by export carrier.* A certificate, executed under the penalties of perjury, by an agent or representative of the export carrier, may be furnished by a brewer as evidence of exportation. The certificate must contain a description of the shipment, including the lot number, name of the exporter and of the consignee, date received and place where received by such carrier, and the name of the carrier from which received.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.275 *Delay in lading.* If beer to be exported without payment of tax arrives at the port of exportation before the vessel is prepared to receive it, such beer may remain in the custody of the transportation company, with the consent of such company, for a period of not more than 30 days until released by permit issued by the Collector of Customs. Storage elsewhere for like cause and not exceeding the same period must be with the approval of the Collector of Customs. In the event of any further delay, the facts shall be reported to the Assistant Regional Commissioner of the region from which the shipment was made. If further delay is not approved by the Assistant Regional Commissioner, he will request the Collector of Customs to release the beer for immediate return to the brewery from which removed. Such return shall be in accordance with the provisions of §245.272, insofar as applicable.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.276 *Examination by customs officer.* The Collector of Customs with whom the Form 1689 has been filed shall fill in on each copy of such form the order for inspection and lading. The inspector of customs shall carefully examine the packages of the beer described in the form. He shall examine the contents of such packages as are found broken or tampered with, or which he is led to suspect do not contain the beer originally packed therein, and make a special report thereon. The inspector of customs shall note in his report any deficiency in quantity or discrepancy between the article inspected and that described in the form. After having complied with the order of inspection and after the beer has been duly laden on board the exporting vessel or car, the inspector of customs shall complete and sign the certificate of inspection and lading on each copy of the Form 1689. If the inspector of customs discovers any evidence of fraud, as distinguished from losses by leakage, minor pilferage or theft in transit, he shall detain the goods and notify the Collector of Customs, who shall inform the Assistant Regional Commissioner of the region in which the port is located. The Assistant Regional Commissioner shall take appropriate action to dispose of the matter in accordance with the provisions of § 245.277.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.277 *Losses in transit.* Where a large or unusual loss in transit is reported, the Assistant Regional Commissioner will cause an immediate investigation to be made. Unless it is found that such loss resulted from fraud by the brewer or theft, it will be allowed as provided in § 245.282. Where the investigation discloses evidence that the loss resulted from theft or from fraud by the brewer, the Assistant Regional Commissioner will propose an assessment against the brewer as provided in § 245.283.

(68A Stat. 611, 612; 26 U. S. C. 5051, 5053)

§ 245.278 *Other evidence of exportation required.* Where the data submitted as evidence of exportation are not satisfactory to the Assistant Regional Commissioner, or where evidence of exportation as prescribed in § 245.264, is not filed, the Assistant Regional Commissioner of the region from which the beer was shipped will require the brewer to furnish other evidence of exportation or proof of loss on land or at sea, as provided in §§ 245.279 and 245.280.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.279 *Application for relief.* When a brewer, from causes beyond his control, is unable to furnish the evidence of exportation required by § 245.264 within 90 days, he may file an application for relief setting forth the reasons why such evidence cannot be obtained. The application must recite the facts connected with the exportation, showing the date and lot number of the shipment, the kind and quantity of the beer shipped, the name of the consignee, the name of the port to which shipment was made, and the name of the export carrier. The application shall also show

without payment of tax for exportation

toms at the port of exportation, and the

or other place of delivery, will, in the

gional Commissioner. The total quan-

rier. The application shall also show

that failure to furnish the required evidence was not due to any lack of diligence on the part of the applicant or his agents, and that he is unable to produce any better evidence than that submitted with his application.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.280 *Evidence to support application.* Each application for relief shall be supported by such collateral evidence as the brewer is able to submit. The evidence may consist of original or verified copies of letters from consignees acknowledging receipt of the shipment; the sales accounts and payments for the shipments; copies of delivering carriers' bills whereon consignees have acknowledged receipt of shipments; affidavits of insurance companies, masters of vessels, railroad officials, and others having knowledge of losses on land or sea after exportation; or any other competent evidence the brewer is able to obtain. Letters and documents in a foreign language must be accompanied by sworn translations and when the letters fail to identify sufficiently the goods the original sales account must be produced.

(68A Stat 612; 26 U. S. C. 5053)

§ 245.281 *Assistant Regional Commissioner's action on application.* The Assistant Regional Commissioner receiving such application and evidence shall examine same and endorse thereon his approval or disapproval and if satisfied as to its validity will enter proper credit in the export account.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.282 *Assistant Regional Commissioner's account.* The Assistant Regional Commissioner will keep an account of all beer removed by a brewer for export without payment of tax. The brewer will be charged with the internal revenue tax at the rate imposed by law on beer for each lot of beer so removed. Credit will be given on beer for which satisfactory evidence of export is filed with the Assistant Regional Commissioner and for losses of beer in transit where there is no evidence that such losses resulted from fraud by the brewer or theft.

(68A Stat. 611, 612; 26 U. S. C. 5051, 5053)

§ 245.283 *Tax assessed.* If losses which occur in transit are due to fraud by the brewer or theft, or if evidence of exportation or proof of loss on land or at sea, satisfactory to the Assistant Regional Commissioner, is not furnished within a reasonable time (not to exceed 6 months), an assessment shall be made against the brewer in a sufficient amount to cover the tax on the quantity of beer not satisfactorily accounted for.

(68A Stat. 611, 612; 26 U. S. C. 5051, 5053)

§ 245.284 *Brewer's report.* Each brewer shall record on Form 2051 the quantity of beer withdrawn and exported without payment of tax, and report the total quantity of beer so removed during the month, on Form 103.

(68A Stat. 612; 26 U. S. C. 5053)

SUBPART W—SUPPLIES FOR VESSELS AND AIRCRAFT

§ 245.290 *General.* Beer may be removed from breweries without payment of tax for use as supplies on vessels and aircraft as follows:

(a) Vessels or aircraft operated by the United States;

(b) Vessels of the United States employed in the fisheries or in the whaling business, or actually engaged in foreign trade or trade between the Atlantic and Pacific ports of the United States or between the United States and any of its possessions;

(c) Aircraft registered in the United States and actually engaged in foreign trade or trade between the United States and any of its possessions;

(d) Vessels of war of any foreign nation;

(e) Foreign vessels employed in the fisheries or in the whaling business, or actually engaged in foreign trade or trade between the United States and any of its possessions, where such trade by foreign vessels is permitted; or

(f) Aircraft registered in any foreign country and actually engaged in foreign trade or trade between the United States and any of its possessions, where trade by foreign aircraft is permitted, and where the Secretary of the Treasury shall have been advised by the Secretary of Commerce that he has found such foreign country allows, or will allow, substantially reciprocal privileges in respect to aircraft registered in the United States.

(46 Stat. 690 as amended; 68A Stat. 612; 19 U. S. C. 1309, 26 U. S. C. 5053)

§ 245.291 *Reciprocating foreign countries.* The Director, Alcohol and Tobacco Tax Division, will advise Assistant Regional Commissioners concerning those foreign countries which will allow, to aircraft registered in the United States and engaged in foreign trade, privileges substantially reciprocal to the privileges allowed herein to aircraft of a foreign country. Where a brewer proposes to withdraw beer without payment of tax for use on aircraft of other foreign countries, which it is claimed reciprocate similar privileges to aircraft of the United States, the brewer must first establish to the satisfaction of the Assistant Regional Commissioner the right of such withdrawal. In appropriate cases, the brewer should request the Secretary of Commerce to find and advise the Secretary of the Treasury that such foreign country or countries allow, or will allow, substantially reciprocal privileges to aircraft of the United States.

(46 Stat. 690 as amended; 19 U. S. C. 1309)

§ 245.292 *Procedure applicable.* The removal, shipment, examination by customs officers, and evidence of lading on vessels and aircraft, of beer from a brewery for use as supplies will, so far as applicable, follow the procedure of Subpart V of this part, concerning the exportation, without payment of tax, of beer.

(46 Stat. 690, as amended; 68A Stat. 612; 19 U. S. C. 1309; 26 U. S. C. 5053)

§ 245.293 *Form 1689.* Notice will be filed on Form 1689, for the removal of beer without payment of tax from a brewery for use as supplies on vessels and aircraft.

(46 Stat. 690, as amended; 68A Stat. 612; 19 U. S. C. 1309, 26 U. S. C. 5053)

§ 245.294 *Evidence of lading for use.* When beer has been laden on board a vessel or aircraft for use as ship's supplies or supplies for aircraft, there must be submitted promptly to the Assistant Regional Commissioner an affidavit or statement made under the penalties of perjury, of the master or other officer of the vessel or aircraft on which the articles were laden, having knowledge of the facts, showing that the beer has been laden and will be used on board the vessel or aircraft, and that no portion thereof has been or will be unladen in the United States or any of its territories or possessions: *Provided,* That such affidavit will not be required, in the case of any shipment, where the beer has been laden on vessels of war, or where the amount of tax on the beer does not exceed $100. On receipt of a satisfactory affidavit (if required) the Assistant Regional Commissioner will enter proper credit in the export account. In the case of beer laden on vessels of war, or in the case where the amount of tax on the beer does not exceed $100, credit will be given at the time of receipt of the certificate of inspection and lading executed by the inspector of customs, as provided in § 245.276.

(68A Stat. 612; 26 U. S. C. 5053)

SUBPART X—BEER PROCURED FROM ANOTHER BREWER

§ 245.300 *Notice to Assistant Regional Commissioner.* Upon written notice to the Assistant Regional Commissioner of his intention so to do, a brewer may obtain from another brewer beer finished and ready for sale. The brewer who procures such beer may furnish his own barrels and kegs, branded with his name and the place where his brewery is situated, to be filled with the beer so procured, and to be so removed. The tax on such beer shall be paid by the producing brewer as provided in Subpart N.

(68A Stat. 675; 26 U. S. C. 5413)

§ 245.301 *Producer's entries on Form 103.* The producer of the beer will show in red ink in a footnote on Form 103, or on an attachment thereto, for the month in which the beer is removed, the quantity involved and the name and address of the receiving brewer.

(68A Stat. 675; 26 U. S. C. 5413)

§ 245.302 *Receiving brewer's entries on Form 103.* The receiving brewer will show in a footnote on Form 103, or on an attachment thereto, for the month in which the beer is received, the quantity received and the name and address of the producing brewer. When the beer thus acquired, or any portion thereof, is disposed of, the receiving brewer will make appropriate entries in a footnote on Form 103, or on an attachment thereto, in red ink and in the following form:

Sold, in addition to the above, ---------- barrels of beer received from ----------

---

(Name of brewer) (City) (State)

The transactions will not be taken into account on Forms 2051 or 103 of the receiving brewer. The details of each such transaction will be entered in the daily sales record of each of the brewers.

(68A Stat. 675; 26 U. S. C. 5413)

§ 245.303 *Form of notice.* A brewer who intends to procure beer from another brewer will furnish a notice of such intent to the Assistant Regional Commissioner of the region in which the receiving brewery is located. If the brewer from whom the beer is procured is located in another region, an additional copy of the notice will be prepared and sent to the Assistant Regional Commissioner of the region in which the producing brewer is located. Such notices shall be filed with the respective Assistant Regional Commissioners sufficiently in advance to insure the receipt of the notices before such beer is removed from the producing brewery. The form of such notice should be as follows:

---, ----------, 19 --

(City) (State)

To the Assistant Regional Commissioner, ----------Region, Alcohol and Tobacco Tax, Internal Revenue Service:

Sir: You are hereby notified that I intend to procure not more than ---------- barrels of beer from ----------

(Name of brewer, city and state)

brewer, and that I intend to furnish my own barrels and kegs, branded with my name, for the reception of such beer, said barrels and kegs to be delivered from the premises of said brewer ---------- 19--, and from time to time until ----------, 19--.

(Brewer)

(68A Stat. 675; 26 U. S. C. 5415)

SUBPART Y—CEREAL BEVERAGE

§ 245.305 *Production of cereal beverage.* Duly qualified brewers who produce fermented liquor containing, when ready for consumption, less than one-half of 1 percent of alcohol by volume, may remove such cereal beverage without tax-payment, even though it may at some stage of its manufacture contain alcohol in excess of such amount. Such cereal beverage and any unfermented product prepared from malt, hops, and a grain product may be produced on the same premises where beer is produced.

(68A Stat. 675; 26 U. S. C. 5411)

§ 245.306 *Method of production.* The method of producing cereal beverage must be such that the alcoholic content will not increase while in the original package or container after being removed from the place of production. The burden is on the brewer not only to determine that the cereal beverage he removes untaxpaid for consumption or sale is within the alcoholic content limitation, but also to insure that the condition of the product is such that an increase in the alcoholic content cannot take place after its removal from the brewery, sufficient to remove it from the cereal beverage class. In any instance where cereal beverage containing alcohol in excess of the limit is found on the market the producing brewer will be held liable to the tax thereon as beer. A brewer who evades or attempts to evade the tax by removing beer as cereal beverage will be liable to prosecution.

(68A Stat. 611, 675, 696; 26 U. S. C. 5051, 5411, 5671, 5672)

§ 245.307 *Transfer to bottling house.* Cereal beverage transferred to the brewery bottling house must pass through the pipeline and meter used for the transfer of beer. Before making such transfer of cereal beverage the brewer shall submit a letterhead application so to do, in duplicate, to the Assistant Regional Commissioner. Upon receipt of the brewer's application, the Assistant Regional Commissioner may assign an inspector to supervise the transfer or authorize such transfer without supervision where he is satisfied that the revenue will not be jeopardized thereby. If the transfer is made without supervision, the brewer shall record the readings of the continuous counter of the meter, before and after the transfer, and the total quantity (in whole barrels) transferred, on his copy of the approved application. The brewer shall retain such approved application as a part of the file of Forms 138 maintained at the brewery for the use of internal revenue officers.

(68A Stat. 675, 680; 26 U. S. C. 5411, 5552)

§ 245.308 *Supervision by inspector.* Where an inspector is assigned to supervise the transfer of cereal beverage to the brewery bottling house, he will examine such cereal beverage, determine its alcoholic content by ebulliometer test, and record the reading of the continuous counter of the meter, prior to such transfer. The inspector will remain in the brewery during the period of transfer to see that no liquids other than the contents of the tanks of cereal beverage examined and tested are removed to the brewery bottling house. The inspector shall report on Form 138, Part I, prepared in triplicate, the quantity (in whole barrels) of cereal beverage which passed through the meter, noting thereon the continuous counter readings of the meter before and after the transfer. One copy of the form will be placed in the Government cabinet, one copy will be given to the brewer, and one copy will be forwarded immediately to the Assistant Regional Commissioner.

(68A Stat. 675, 680; 26 U. S. C. 5411, 5552)

§ 245.309 *Special taxes.* Persons selling or offering for sale, as cereal beverages, malt liquors containing one-half of 1 percent or more of alcohol by volume, will be held liable to special tax as dealers in beer and the packages with their contents will be subject to seizure and forfeiture.

(68A Stat. 618, 620, 696; 26 U. S. C. 5111, 5121, 5671)

§ 245.310 *Samples for analysis.* Internal revenue officers having reason to suspect that any beverage claimed to be nontaxable as cereal beverage is, in fact, taxable as beer, shall take samples for analysis.

(68A Stat. 903; 26 U. S. C. 7606)

§ 245.311 *Packages.* Cereal beverage when removed from the brewery in bulk must be contained in packages unlike those ordinarily used for packaging beer: *Provided,* That regular beer cooperage may be used, if the head of the barrel is durably painted in a solid color, with conspicuous lettering in a contrasting color, reading: "Nontaxable as beer. Less than half of 1 percent of alcohol by volume." The word "Nontaxable" shall be not less than 1½ inches high and of proportionate width, the remaining words to be not less than one-half inch high and of proportionate width. The name or trade name of the producer and the place of production (city and state) must also be legibly marked on the package. The hoops, or the space between hoops at each end, must be durably painted in white.

(68A Stat. 675; 26 U. S. C. 5411)

§ 245.312 *Cases.* The name or trade name of the producer, the place of production (city and state), and the nature of the product must be shown on each case or other similar shipping container for bottled cereal beverage.

(68A Stat. 675; 26 U. S. C. 5411)

§ 245.313 *Labels.* Bottles containing cereal beverages not taxable as beer are required to have a label setting forth the following information:

(a) Name of the brewer.

(b) The location of the brewery by city and state, or street number, city, and state, if the brewer operates more than one brewery in the same city.

(c) Distinctive name of the beverage, if any.

(d) "Nontaxable as Beer Under Federal Law."

The label may contain other statements desired by the brewer if they are not inconsistent with the requirements of this section.

(68A Stat. 675; 26 U. S. C. 5411)

§ 245.314 *Unlabeled bottles.* The payment of special tax as dealer in beer will be required of all persons selling or offering for sale any unlabeled bottle or other package, the contents of which has the flavor or appearance of beer, and which is manifestly beer or an imitation beer, regardless of the alcoholic content thereof.

(68A Stat. 618, 621; 26 U. S. C. 5112, 5122)

§ 245.315 *Products kept separate.* Brewers who also produce cereal beverages not taxable as beer shall keep the finished products, taxable and nontaxable, separate and distinct one from the other.

(68A Stat. 675; 26 U. S. C. 5411)

§ 245.316 *Record and report of materials used.* Materials used at breweries in the production of cereal beverages shall be included in the quantities of materials recorded on Forms 2051 and 103 as used in the production of beer and shall not be shown separately. Breweries producing cereal beverages will

keep records and render reports on Form 66 in accordance with instructions printed thereon.

(68A Stat. 675; 26 U. S. C. 5415)

SUBPART Z—SAMPLES OF BEER

§ 245.320 *General.* Brewers may remove samples of beer from the brewery, without payment of tax, as provided in §§ 245.321–245.325, to a laboratory for analytical purposes (including organoleptic examination) to determine the character or quality of the product.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.321 *Application.* Whenever a brewer desires to remove samples of beer without payment of tax, for analytical purposes, he shall file application, in duplicate, with the Assistant Regional Commissioner. The application shall be serially numbered, beginning with "1" and running consecutively thereafter. The application shall set forth specifically the size, kind, and number of samples to be removed, the period during which the samples will be removed, and the name and address of the laboratory to which the samples will be removed for analysis. Where it is desired to remove samples regularly the application may be made for that purpose. The number and size of the samples must be restricted to the minimum necessary for the purpose. A statement of the necessity for the analysis of samples and for the number and size of such samples shall be incorporated in the application. The brewer shall also incorporate in the application a statement that the samples covered thereby will not be used for purposes other than laboratory analysis.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.322 *Approval of application.* The Assistant Regional Commissioner, on approval or disapproval of the application, shall return one copy to the brewer and retain the original in his office. Any approved application may be terminated if the Assistant Regional Commissioner determines that such action is warranted: *Provided,* That, except in cases involving willfulness or where the public interest requires otherwise, the brewer shall be notified in writing of the facts or conduct warranting such action and be accorded an opportunity to demonstrate or achieve compliance with all lawful requirements.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.323 *Labeling.* Each bottle or other immediate container of beer to be removed, without payment of tax, for analytical purposes shall be labeled to show the nature and quantity of the contents, the name and address of the laboratory to which it will be removed, and the name and address of the brewer. The label shall bear the statement, "Sample for laboratory analysis only—not for sale or beverage use."

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.324 *Records.* A separate record shall be maintained showing by date, the quantity of beer removed pursuant to an approved application and the serial number of such application. Credit entry for the total quantity so removed during the month must be made in the "Beer Summary" on Form 103.

(68A Stat. 612, 675; 26 U. S. C. 5053, 5415)

§ 245.325 *Residues of samples.* Residues or remnants of samples remaining after laboratory analysis, or unused samples, which are not to be retained as laboratory specimens or for comparative purposes must be destroyed or returned to the brewery. The samples or the residues thereof may not, in any event, be sold, or disposed of otherwise.

(68A Stat. 612; 26 U. S. C. 5053)

§ 245.326 *Analysis in brewery.* Applications need not be filed where samples are to be taken for analysis in the brewer's laboratory located in the brewery.

§ 245.327 *Taxpayment.* Any samples of beer removed or used otherwise than as authorized in §§ 245.320–245.326 shall be subject to taxpayment in accordance with this part.

(68A Stat. 611; 26 U. S. C. 5051)

SUBPART AA—MISCELLANEOUS PROVISIONS

§ 245.330 *Officer's right of entry and examination.* An internal revenue officer may enter, in the daytime, a brewery or any place where beer is stored, and when such premises are open at night, he may enter them while so open, in the performance of his official duties. Internal revenue officers will make inspections at such frequency and with such thoroughness as necessary to determine that operations are being conducted in accordance with the law and this part. The owner of any building or place where beer is produced, made, or kept, or person having the agency or superintendence of such premises, who refuses to admit an internal revenue officer, or refuses to permit him to examine such beer, shall, for every such refusal, forfeit $500.

(68A Stat. 872, 903; 26 U. S. C. 7342, 7606)

VARIATIONS FROM REQUIREMENTS

§ 245.331 *Exceptions to construction and equipment requirements.* The Director, Alcohol and Tobacco Tax Division, may approve details of construction and equipment in lieu of those specified in this part where it is shown that it is impracticable to conform to the prescribed specifications, and the proposed construction and equipment will afford as much or more security and protection to the revenue as is intended by the specifications prescribed in this part and where such variations will not be contrary to any provision of law. Where it is proposed to substitute construction and equipment for that for which specifications are prescribed, prior approval must be obtained in accordance with the provisions of § 245.333. Breweries heretofore established may continue to operate if the present construction and equipment afford adequate security and protection to the revenue. The Director, Alcohol and Tobacco Tax Division, or Assistant Regional Commissioner may at any time require the brewer to make changes in construction and equipment conforming to this part, if deemed necessary to protect the revenue.

(68A Stat. 680; 26 U. S. C. 5552)

§ 245.332 *Exceptions to methods of operation.* The Director, Alcohol and Tax Division, may, in case of emergency, approve methods of operation other than those provided for by this part, where it is shown that variations from the requirements are necessary, will not hinder the effective administration of this part, will not jeopardize the revenue and where such variations are not contrary to any provision of law. Where it is proposed to employ methods of operations other than those provided for by this part, prior approval must be obtained in accordance with the provisions of § 245.333.

(68A Stat. 675; 26 U. S. C. 5411)

§ 245.333 *Application.* A brewer who proposes to employ methods of operation or construction or to install equipment, other than as provided in this part, shall submit a letterhead application so to do, in triplicate, to the Assistant Regional Commissioner. Such application shall describe the proposed variations and state the need therefor. Where variations in construction and equipment cannot be adequately described in the application, drawings or photographs shall also be submitted. The Assistant Regional Commissioner will make such inquiry as is necessary to determine the necessity for the variations and whether approval thereof will hinder the effective administration of this part or result in jeopardy to the revenue. On completion of the inquiry, the Assistant Regional Commissioner will forward two copies of the application to the Director, Alcohol and Tobacco Tax Division, together with a report of his findings and his recommendation.

(68A Stat. 681; 26 U. S. C. 5556)

SUBPART BB—RECORDS, REPORTS, AND RETURNS

§ 245.340 *Form 2051.* The brewer shall keep Form 2051 at the brewery, recording daily thereon the quantity of each kind of material received at the brewery, the quantity used in the production of beer, the quantity of beer produced therefrom, the quantity of beer sold or removed from the brewery for consumption or sale, the quantity of beer bottled and other information as indicated by the headings of the various columns and lines of the form and in accordance with the instructions printed thereon, or issued in respect thereto, and as required by this part. Specimen copies of Form 2051 will be furnished brewers by Assistant Regional Commissioners. Such forms shall be provided by brewers at their own expense but must be in the prescribed form: *Provided,* That Assistant Regional Commissioners may authorize brewers to modify the prescribed record to adapt its use to tabulating or other mechanical equipment, or to the brewer's operations, or to provide additional information, where such modifications do not detract from the clarity and purpose of the record or interfere with its ready interpretation and use by internal revenue officers.

(68A Stat. 675, 681; 26 U. S. C. 5415, 5555)

§ 245.341 *Form 103.* A monthly report of brewery operations shall be prepared by each brewer on Form 103. It will contain a summary of the brewery operations recorded on Form 2051 and will be prepared as indicated by the headings of the various columns and lines of the form and in accordance with the instructions printed thereon, or issued in respect thereto, and as required by this part. Such monthly report shall be prepared in duplicate and each copy signed by the brewer or his duly authorized agent. The original shall be forwarded to the Assistant Regional Commissioner not later than the fifth day of the month succeeding that for which rendered. The duplicate copy will be retained by the brewer and filed as a permanent record at the brewery.

(68A Stat. 675, 681; 26 U. S. C. 5415, 5555)

§ 245.342 *Beer tax return, Form 2034.* The quantities of keg and bottled beer sold or removed for a taxable purpose and the aggregate quantity thereof must be reported in the tax return, Form 2034, prepared in quadruplicate and as indicated by the headings of the various columns and lines of the form and in accordance with the instructions printed thereon, or issued in respect thereto, and as required by this part. All entries in the return must be fully supported by accurate and complete records.

(68A Stat. 614, 681; 26 U. S. C. 5061, 5555)

§ 245.343 *Period for which return is filed.* A tax return on Form 2034 is required for each day on which beer is sold or removed for a taxable purpose: *Provided,* That where the gross tax liability for any one day is less than $100, the preparation of the tax return and the payment of the tax due may be delayed until such day as the total gross tax liability (for one or more days) reaches $100: *And provided further,* That where such gross tax liability is less than $100 at the close of the last business day of a calendar month, the tax return shall be prepared and transmitted to the District Director (together with a remittance for the net tax then due).

(68A Stat. 614, 675, 681; 26 U. S. C. 5061, 5415, 5555)

§ 245.344 *Time and place of filing.* A tax return on Form 2034 must be rendered not later than the close of the business day next succeeding the period for which such return is rendered except as provided in § 245.186. The original and one copy of the return shall be transmitted to the District Director, who will indicate thereon receipt of the remittance, retain the original, and forward one copy to the Assistant Regional Commissioner. The brewer shall send one of his retained copies to the Assistant Regional Commissioner with the appropriate monthly report on Form 103 and file the remaining copy as a part of the Government records at the brewery.

(68A Stat. 614, 675, 681; 26 U. S. C. 5061, 5415, 5555)

§ 245.345 *Pipeline transfer record.* All beer transferred to the brewery bottling house for bottling must be shown in a daily record to be maintained in bound form at the brewery. The quantity of beer transferred will be recorded on the basis of meter readings as shown by the continuous counter. The setback counter may be used by the brewer for checking continuous counter readings, and upon completion of the day's run it shall be set at zero. Credits for water used in meter tests and for cereal beverage transferred shall also be shown in such record.

(68A Stat. 675, 681; 26 U. S. C. 5415, 5555)

§ 245.346 *Inventory of beer in bottling house.* An actual inventory of bulk and bottled beer in the brewery bottling house shall be established as frequently as the brewer's operations may permit, and in any event shall be taken at least once during each calendar month. If the quantities of bulk and bottled beer shown by actual inventory as being on hand are less than the quantities indicated by brewery records as being on hand, the difference must be reported in the "Beer Summary" on Form 103 as a shortage disclosed by actual inventory. If the inventory discloses that the quantities actually on hand are greater than the quantities indicated by brewery records as being on hand, the difference must be reported in the "Beer Summary" on Form 103 as an overage disclosed by actual inventory. The quantities shown as on hand by actual inventory shall also be reported on Form 103. Work sheets used in establishing an actual inventory shall be appropriately identified and retained in the brewery available for examination by internal revenue officers. Undelivered taxpaid beer temporarily held in the brewery bottling house and cereal beverage shall be inventoried at the same time and reported on separate inventories on Form 2051, but the totals thereof shall not be included in the inventory of beer in the bottling house reported on Form 103.

(68A Stat. 675, 681; 26 U. S. C. 5415, 5555)

§ 245.347 *Brewery bottling house losses.* Where a brewer desires to keep shortages disclosed by actual inventory at a minimum by taking credit currently for actual losses sustained in the brewery bottling house due to breakage, casualty, or other unusual cause, a record of daily losses showing the cause or causes thereof must be maintained by the brewer available for ready examination by internal revenue officers: *Provided,* That where a loss in a substantial amount is sustained due to a casualty, an immediate report thereof must be made to the Assistant Regional Commissioner, or to an inspector if one is at the brewery at the time the casualty is discovered. The Assistant Regional Commissioner will cause such investigation to be made as the facts and circumstances warrant. Where the extent of a loss is established, the quantity shall be reported on Forms 2051 and 103.

(68A Stat. 675, 681; 26 U. S. C. 5415, 5555)

§ 245.348 *Purchase record.* Purchase invoices for brewing materials received by the brewer shall be maintained at the brewery for ready examination by internal revenue officers.

(68A Stat. 675, 681; 26 U. S. C. 5415, 5555)

§ 245.349 *Production record.* Each brewer shall keep a daily record of each brew showing the business day on which the brew was started, the quantities of materials used therein by kinds, the quantity of wort produced therefrom as determined by actual measurement in the settling tank, and the balling of such wort. The quantity of water, if any, added after production has been determined, shall also be entered in this record.

(68A Stat. 675, 681; 26 U. S. C. 5415, 5555)

§ 245.350 *Daily record.* Each brewer shall keep a daily record of all packages filled with beer and cereal beverages transferred through the racking meter; the number of packages of each size sold or removed from the brewery for consumption or sale; the quantity of untaxpaid keg and bottled beer set aside for consumption at the brewery; the quantity of untaxpaid beer returned to brewery stock from leaking packages; the quantity of repossessed beer on which the tax has been determined or paid and returned to brewery stock; and the quantity of beer on which the tax has been determined or paid which is returned to brewery stock and which the brewer removed from the market before transfer of title thereto to any other person.

(68A Stat. 675, 681; 26 U. S. C. 5415, 5555)

§ 245.351 *Removal record.* Each brewer must keep at the brewery a daily summary record of the removals of bottled beer and cereal beverage by kind, number and size of container (if cases, the number and size of bottles). This record must show the quantities of such products removed from the brewery, the quantities sold or exported, and the quantities lost by breakage or otherwise after removal while still owned by the brewer. The record must also show the quantities of beer and cereal beverage on hand in off-premises storage: *Provided,* That this requirement shall not be applicable where the brewer maintains at the off-premises place of storage, available for examination, a complete record of receipts and sales at such premises. No separate record need be set up to comply with this section if current commercial records kept by the brewer, showing the required data, are summarized to reflect the totals of each day's transactions in a manner satisfactory to the Assistant Regional Commissioner.

(68A Stat. 675, 681; 26 U. S. C. 5415, 5555)

§ 245.352 *Daily sales record.* Each brewer must keep at the brewery, and available for inspection at all times, a daily sales record, showing in detail the number and kind of packages, such as hogsheads, barrels, half-barrels, cases, etc., of beer and cereal beverages sold or removed, the names and addresses of the purchasers, and the amounts sold to each such purchaser.

(68A Stat. 675, 681; 26 U. S. C. 5415, 5555)

§ 245.353 *Timely entry in records.* All entries in records, reports, and returns, shall be made not later than the close of the business day next succeeding the day on which the transactions occur: *Provided*, That, when the last day for making such entries falls on Saturday, Sunday, or on a legal holiday (of the particular State or of the District of Columbia wherein the brewery is located), such entries shall be considered timely if they are made on the next succeeding day which is not a Saturday, Sunday, or legal holiday (of the particular State or District of Columbia wherein the brewery is located).

(68A Stat. 675, 896; 26 U. S. C. 5415, 7503)

§ 245.354 *Brewer's application to destroy or return beer to brewery.* When a brewer has beer in the brewery bottling house which has not been removed therefrom, or beer which has been repossessed from a purchaser, which he desires to destroy, recondition or use as material, he shall make written application, in triplicate, to the Assistant Regional Commissioner stating the approximate quantity of such beer, whether it is repossessed beer or beer which has not been removed from the bottling house, and what disposition he desires to make of it. Upon receipt of the application the Assistant Regional Commissioner may detail an inspector to supervise the destruction of such beer or its removal from the containers in which packaged for reconditioning or use as material, or authorize such action without supervision where he is satisfied that the revenue will not be jeopardized thereby. The brewer may submit his application directly to an inspector at the brewery, who may thereupon supervise the operation. The brewer will file at the brewery one copy of the application as completed by the supervising officer or by the Assistant Regional Commissioner when supervision is not required. The brewer must report the quantity of beer so destroyed, reconditioned, or used as material, on Forms 2051 and 103.

(68A Stat. 675, 681; 26 U. S. C. 5411, 5415, 5555)

§ 245.355 *Verification.* All records, reports, returns, and forms which require a signature shall contain or be verified by a written declaration that they are made under penalties of perjury.

(68A Stat. 748, 749; 26 U. S. C. 6061, 6065)

§ 245.356 *Retention of records.* A brewer shall retain all records reflecting his operations, at the brewery for a period of not less than two years. Such records shall be readily available for examination and taking abstracts therefrom by internal revenue officers.

(68A Stat. 675; 26 U. S. C. 5415)

PROCEDURES UNDER ANTIDUMPING ACT, 1921, AS AMENDED

NOTICE OF PUBLIC HEARING

A proposed amendment to the regulations under the Antidumping Act was published in the FEDERAL REGISTER dated November 4, 1954 (19 F. R. 7157).

All parties interested are hereby notified that they may be present and be heard in connection with this proposed amendment at a public hearing to be held in Room 4121, Treasury Building, Fifteenth Street and Pennsylvania Avenue, NW., Washington, D. C., beginning at 2 p. m., e. s. t., on the 16th day of December 1954.

Interested parties desiring to appear at the public hearing shall notify in writing the Commissioner of Customs at his office in the Bureau of Customs, Washington 25, D. C., stating the name(s) of the person(s) who will appear and the approximate length of time required for presentation of views and opinions. Parties will be heard in the order in which their requests are submitted.

Dated at Washington, D. C., November 26, 1954.

[SEAL] D. B. STRUBINGER,
Acting Commissioner of Customs.

FEDERAL RESERVE SYSTEM

[12 CFR Part 201]

[Reg. A]

ADVANCES AND DISCOUNTS BY FEDERAL RESERVE BANKS

NOTICE OF PROPOSED RULE MAKING

The Board of Governors of the Federal Reserve System is considering the revision of Part 201 (Regulation A) issued pursuant to authority cited at 12 CFR Part 201, relating to advances and discounts by Federal Reserve Banks.

While this revision of Part 201 makes certain changes in the language of the Part itself, the most important change is the revision of the Foreword (General Principles). The revised Foreword is designed merely to restate and clarify certain guiding principles which are observed by the Federal Reserve Banks in making advances and discounts in accordance with the applicable provisions of the Federal Reserve Act and of Part 201. The revision is not intended to further restrict or restrain access by member banks to the credit facilities of the Federal Reserve Banks.

This notice is published pursuant to section 4 of the Administrative Procedure Act and section 2 of the Rules of Procedure of the Board of Governors of the Federal Reserve System (12 CFR 262.2). The proposed changes are authorized under the authority cited at 12 CFR Part 201.

To aid in the consideration of this matter the Board will be glad to receive from interested persons any relevant data, views or arguments. Although such material may be sent directly to the Board, it is preferable that it be sent to the Federal Reserve Bank of the district which will forward it to the Board to be considered. All such material should be submitted in writing to be received not later than January 3, 1955.

The proposed revision of Part 201 is as follows:

PART 201—ADVANCES AND DISCOUNTS BY FEDERAL RESERVE BANKS

Sec.
201.0 Foreword; general principles.
201.1 Introduction.
201.2 Advances to member banks.
201.3 Discount of notes, drafts and bills for member banks.
201.4 General requirements as to advances and discounts.
201.5 Paper acquired from nonmember banks.
201.6 Discounts for Federal Intermediate Credit Banks.

§ 201.0 *Foreword; general principles.* (a) A principal function of the Federal Reserve Banks under the law is to provide credit assistance to member banks, through advances and discounts, in order to accommodate commerce, industry, and agriculture. This function is administered in the light of the basic objective which underlies all Federal Reserve credit policy, i. e., the advancement of the public interest by contributing to the greatest extent possible to economic stability and growth.

(b) The Federal Reserve System promotes this objective largely by influencing the availability and cost of credit through action affecting the volume and cost of reserves available to the member banks. Through open market operations and through changes in reserve requirements of member banks, the Federal Reserve may release or absorb reserve funds in accordance with the credit and monetary needs of the economy as a whole. An individual member bank may also obtain reserves by borrowing from its Federal Reserve Bank at a discount rate which is raised or lowered from time to time to adjust to the credit and economic situation. The effects of borrowing from the Federal Reserve Banks by individual member banks are not localized, as such borrowing adds to the supply of reserves of the banking system as a whole. Therefore, use of the borrowing facility by member banks has an important bearing on the effectiveness of System credit policy.

(c) Access to the Federal Reserve discount facilities is granted as a privilege of membership in the Federal Reserve System in the light of the following general guiding principles.

(d) Federal Reserve credit is generally extended on a short-term basis to a member bank in order to enable it to adjust its asset position when necessary because of developments such as a sudden withdrawal of deposits or seasonal requirements for credit beyond those which can reasonably be met by use of the bank's own resources. Federal Reserve credit is also available for longer periods when necessary in order to assist member banks in meeting unusual situations, such as may result from national, regional, or local difficulties or from exceptional circumstances involving only particular member banks. Under ordinary conditions, the continuous use of Federal Reserve credit by a member bank over a considerable period of time is not regarded as appropriate.

(e) In considering a request for credit accommodation, each Federal Reserve Bank gives due regard to the purpose of the credit and to its probable effects upon the maintenance of sound credit conditions, both as to the individual institution and the economy generally. It keeps informed of and takes into account the general character and amount of the loans and investments of the member bank. It considers whether the bank is borrowing principally for the purpose of obtaining a tax advantage or profiting from rate differentials and whether the bank is extending an undue amount of credit for the speculative carrying of or trading in securities, real estate, or commodities, or otherwise.

(f) Applications for Federal Reserve Credit accommodations are considered by a Federal Reserve Bank in the light of its best judgment in conformity with the foregoing principles and with the provisions of the Federal Reserve Act and this part.

§ 201.1 *Introduction.* This part is based upon and issued pursuant to various provisions of the Federal Reserve Act. The part is applicable to the following forms of borrowing from a Federal Reserve Bank: (a) advances to member banks on their own notes secured (1) by direct obligations of the United States, by paper eligible for discount or purchase by Federal Reserve Banks, or by obligations of certain corporations owned by the United States, or (2) by other security which is satisfactory to the Federal Reserve Bank; (b) discounts for member banks of commercial, agricultural and industrial paper and bankers' acceptances; and (c) discounts for Federal Intermediate Credit banks.

§ 201.2 *Advances to member banks*—(a) *Advances on Government obligations.* Any Federal Reserve Bank may make advances, under authority of section 13 of the Federal Reserve Act, to any of its member banks for periods not exceeding fifteen days [1] on the promissory note of such member bank secured (1) by the deposit or pledge of bonds, notes, certificates of indebtedness, or Treasury bills of the United States, or (2) by the deposit or pledge of debentures or other such obligations of Federal Intermediate Credit banks having maturities of not exceeding six months from the date of the advance.[2]

(b) *Advances on eligible paper.* (1) Any Federal Reserve Bank may make advances, under authority of section 13 of the Federal Reserve Act, to any of its member banks for periods not exceeding ninety days [3] on the promissory note of such member bank secured by such notes, drafts, bills of exchange, or bankers' acceptances as are eligible for discount by Federal Reserve Banks under the provisions of this part or for purchase by such banks under the provisions of the Federal Reserve Act.

(2) In the event notes which evidence loans made pursuant to a commodity loan program of the Commodity Credit Corporation and which comply with the maturity requirements of paragraph (a) of § 201.3 have been deposited in a pool of notes operated by the Commodity Credit Corporation, the certificate of interest issued by the Commodity Credit Corporation which evidences the deposit of such notes may be accepted as security for an advance made to a member bank under this paragraph.

(c) *Advances on other security under section 10 (b) of the Federal Reserve Act.* Any Federal Reserve Bank may make advances, under authority of section 10 (b) of the Federal Reserve Act, to any of its member banks upon the latter's promissory note secured to the satisfaction of such Federal Reserve Bank regardless of whether the collateral offered as security conforms to eligibility requirements under other provisions of this part. The rate on advances made under the provisions of this paragraph shall in no event be less than one-half of 1 percent per annum higher than the highest rate applicable to discounts for member banks under the provisions of sections 13 and 13a of the Federal Reserve Act in effect at such Federal Reserve Bank. Such an advance must be evidenced by the promissory note of such member bank payable either (1) on a definite date not more than four months after the date of such advance, or (2) at the option of the holder on or before a definite date not more than four months after the date of such advance.

§ 201.3 *Discount of notes, drafts and bills for member banks* [4]—(a) *Commercial, agricultural and industrial paper.* Any Federal Reserve Bank may discount for any of its member banks, under authority of sections 13 and 13a of the Federal Reserve Act, any note, draft, or bill of exchange which meets the following requirements:

(1) It must be a negotiable note, draft, or bill of exchange, bearing the endorsement of a member bank, which has been issued or drawn, or the proceeds of which have been used or are to be used, in producing, purchasing, carrying or marketing goods [5] in one or more of the steps of the process of production, manufacture, or distribution, or in meeting current operating expenses of a commercial, agricultural or industrial business, or for the purpose of carrying or trading in direct obligations of the United States (i. e., bonds, notes, Treasury bills or certificates of indebtedness of the United States);

(2) It must not be a note, draft, or bill of exchange the proceeds of which have been used or are to be used for permanent or fixed investments of any kind, such as land, buildings or machinery, or for any other fixed capital purpose;

(3) It must not be a note, draft, or bill of exchange the proceeds of which have been used or are to be used for transactions of a purely speculative character or issued or drawn for the purpose of carrying or trading in stocks, bonds or other investment securities except direct obligations of the United States (i. e., bonds, notes, Treasury bills or certificates of indebtedness of the United States);

(4) It must have a maturity at the time of discount of not exceeding ninety days, exclusive of days of grace, except that agricultural paper as defined in this section may have a maturity of not exceeding nine months, exclusive of days of grace; but this requirement is not applicable with respect to bills of exchange payable at sight or on demand of the kind described in paragraph (b) of this section.

(b) *Bills of exchange payable at sight or on demand.* Any Federal Reserve Bany may discount for any of its member banks, under authority of section 13 of the Federal Reserve Act negotiable bills of exchange payable at sight or on demand which (1) bear the endorsement of a member bank, (2) grow out of the domestic shipment or the exportation of nonperishable, readily marketable staples,[6] and (3) are secured by bills of lading or other shipping documents conveying or securing title to such staples. All such bills of exchange shall be forwarded promptly for collection, and demand for payment shall be made promptly, unless the drawer instructs that they be held until arrival of such staples at their destination, in which event they must be presented for pay-

[1] Under the last paragraph of section 13 of the Federal Reserve Act, a Federal Reserve Bank has authority to make advances for periods not exceeding 90 days to individuals, partnerships, and corporations (including member and nonmember banks) on their promissory notes secured by direct obligations of the United States. However, advances to member banks on the security of direct obligations of the United States are normally for short periods of not exceeding 15 days; and it is not the practice to make advances to others than member banks except in unusual or exigent circumstances.

[2] Such advances may also be made on notes secured by the deposit or pledge of Federal Farm Mortgage Corporation bonds issued under the Federal Farm Mortgage Corporation Act.

[3] However, borrowings by member banks are generally for short periods.

[4] Even though paper is not eligible for discount by a Federal Reserve Bank for a member bank under the provisions of this part, it may be used as security for an advance by a Federal Reserve Bank to a member bank under the terms and conditions of paragraph (c) of § 201.2 if it constitutes security satisfactory to the Federal Reserve Bank.

[5] As used in this part the word "goods" shall be construed to include goods, wares, merchandise, or agricultural products, including livestock.

[6] A readily marketable staple within the meaning of this part means an article of commerce, agriculture, or industry of such uses as to make it the subject of constant dealings in ready markets with such frequent quotations of price as to make (a) the price easily and definitely ascertainable and (b) the staple itself easy to realize upon by sale at any time.

ment within a reasonable time after notice of such arrival has been received. In no event shall any such bill be held by or for the account of a Federal Reserve Bank for a period in excess of ninety days.

(c) *Banker's acceptances.* Any Federal Reserve Bank may discount for any of its member banks a banker's acceptance [7] which bears the endorsement of a member bank and (1) which grows out of transactions involving the importation or exportation of goods, the shipment of goods within the United States, or the storage of readily marketable staples,[8] as such transactions are more fully described in subparagraphs (1), (2), and (3), respectively, of paragraph (a) of § 203.1 [9] of this subchapter or (2) which has been drawn by a bank or banker in a foreign country or dependency or insular possession of the United States for the purpose of furnishing dollar exchange as provided in § 203.2 of this subchapter: *Provided,* That any such acceptance shall have a maturity at the time of discount of not more than 90 days' sight, exclusive of days of grace, except that an acceptance drawn for agricultural purposes and secured at the time of acceptance by warehouse receipts or other such documents conveying or securing title covering readily marketable staples may be discounted with a maturity at the time of discount of not more than six months' sight, exclusive of days of grace: [10] *And provided further,* That acceptances for any one customer in excess of 10 per cent of the capital and surplus of the accepting bank must remain actually secured throughout the life of the acceptance.[11]

(d) *Construction loans.* In addition to paper of the kinds specified above, any Federal Reserve Bank may discount for any of its member banks, under authority of section 24 of the Federal Reserve Act, a negotiable note which (1) represents a loan made to finance the construction of a residential or a farm building whether or not secured by lien upon real estate, (2) is endorsed by such member bank, (3) is accompanied by a valid and binding agreement, entered into by a person [12] acceptable to the discounting Federal Reserve Bank, requiring such person to advance the full amount of the loan upon the completion of the construction of such residential or farm building, and (4) matures not more than six months from the date such loan was made and not more than ninety days from the date of such discount by such Federal Reserve Bank, exclusive of days of grace.

(e) *Agricultural paper.* Agricultural paper, within the meaning of this part, is a negotiable note, draft, or bill of exchange issued or drawn, or the proceeds of which have been or are to be used, for agricultural purposes, including the production of agricultural products, the marketing of agricultural products by the growers thereof, or the carrying of agricultural products by the growers thereof pending orderly marketing, and the breeding, raising, fattening, or marketing of livestock.

(f) *Paper of cooperative marketing associations.* Notes, drafts, bills of exchange, or acceptances issued or drawn by cooperative marketing associations composed of producers of agricultural products are deemed to have been issued or drawn for an agricultural purpose within the meaning of the foregoing definition of "agricultural paper", if the proceeds thereof have been or are to be used by such association in making advances to any members thereof for an agricultural purpose, in making payments to any members thereof on account of agricultural products delivered by such members to the association, or to meet expenditures incurred or to be incurred by the association in connection with the grading, processing, packing, preparation for market, or marketing of any agricultural product handled by such association for any of its members. In addition, any other paper of such associations which complies with the applicable requirements of this part may be discounted. Paper of cooperative marketing associations the proceeds of which have been or are to be used (1) to defray the expenses of organizing such associations, or (2) for the acquisition of warehouses, for the purchase or improvement of real estate, or for any other permanent or fixed investment of any kind, is not eligible for discount, even though such warehouses or other property is to be used exclusively in connection with the ordinary operations of the association.

(g) *Factors' paper.* Notes, drafts, and bills of exchange of factors issued as such for the purpose of making advances exclusively to producers of staple agricultural products in their raw state are eligible for discount with maturities not in excess of ninety days, exclusive of days of grace.

(h) *Collateral securing discounted paper.* Any note, draft, or bill of exchange eligible for discount is not rendered ineligible because it is secured by the pledge of goods or collateral of any nature, including paper ineligible for discount.

(i) *Determination of eligibility.* (1) A Federal Reserve Bank shall take such steps as may be necessary to satisfy itself as to the eligibility of any paper offered for discount. Compliance of paper with the provisions of paragraph (a) (2) of this section may be evidenced by a statement which adequately reflects the borrower's financial worth and evidences a reasonable excess of quick assets over current liabilities, or such compliance may be evidenced in any other manner satisfactory to the Federal Reserve Bank.

(2) The requirement of this section that a note be negotiable shall not be applicable with respect to any note evidencing a loan which is made pursuant to a commodity loan program of the Commodity Credit Corporation and which is subject to a commitment to purchase by the commodity Credit Corporation or with respect to any note evidencing a loan which is in whole or in part the subject of a guarantee or commitment made pursuant to section 301 of the Defense Production Act of 1950 as amended.

(j) *Limitations.* (1) The aggregate of notes, drafts, and bills upon which any person, copartnership, association, or corporation is liable as maker, acceptor, endorser, drawer, or guarantor, discounted for any member bank shall at no time exceed the amount for which such person, copartnership, association, or corporation may lawfully become liable to a national bank under the terms of section 5200 of the Revised Statutes of the United States, as amended.

(2) The law forbids a Federal Reserve Bank to discount for any State member bank notes, drafts, or bills of exchange of any one borrower who is liable for borrowed money to such State member bank in an amount greater than that which could be borrowed lawfully from such State member bank were it a national bank.

§ 201.4 *General requirements as to advances and discounts*—(a) *Applications for advances or discounts.* (1) Every application by a member bank for an advance to such bank or for the discount of paper must contain a certificate of such bank, in form to be prescribed by the Federal Reserve Bank, that the security offered for the advance or the paper offered for discount, as the case may be, has not been acquired from a nonmember bank (otherwise than in accordance with § 201.5) or, if so acquired, that the applying member bank has received permission from the Board of Governors of the Federal Reserve System to obtain advances from the Federal Reserve Bank on security so acquired or to discount with the Federal Reserve Bank paper acquired from nonmember banks.

(2) Every such application shall also contain a notation by the member bank as to whether it has on file a statement which adequately reflects the financial worth of a party primarily liable on the paper offered as security for an advance or for discount or of the person from whom the member bank acquired such paper if such person is legally liable thereon.

(3) Every application of a State member bank for the discount of paper must contain a certificate or guaranty to the effect that the borrower is not liable and will not be permitted to become liable to such bank for borrowed money during the time his paper is under discount with the Federal Reserve Bank in an amount greater than that which could be borrowed lawfully from such State bank were it a national bank.

(b) *Financial statements.* In order to determine whether security offered for an advance or paper offered for discount is eligible and acceptable, any Federal Reserve Bank may require that there be filed with it statements, or certified copies thereof, which adequately reflect the financial worth (1) of one or more parties to any obligation offered as security for an advance or to any note, draft, or bill of exchange offered for discount and (2) of any corporations or firms affiliated with or subsidiary to such party or parties. A Federal Reserve Bank may in any case require such other information as it deems necessary.

(c) *Other information.* Each Federal Reserve Bank is required by law to keep itself informed of the general character and amount of the loans and investments of its member banks with a view to ascertaining whether undue use is being made of bank credit for the speculative carrying of or trading in securities, real estate, or commodities, or for any other purpose inconsistent with the maintenance of sound credit conditions; and, in determining whether to grant or refuse advances or discounts, the Federal Reserve Bank is required to give consideration to such information. Each Federal Reserve Bank may require such information from its member banks as it may deem necessary in order to determine whether such undue use of bank credit is being made and whether the granting of any requested credit accommodation would be consistent with the general principles applicable to extensions of credit under this part.

(d) *Amount of collateral.* In connection with any advance or discount under this part, a Federal Reserve Bank may require such collateral as it may deem advisable or necessary; but it is expected that the Federal Reserve Bank in determining the amount of collateral will give due regard to the public welfare and the general effects that its action may have on the position of the member bank, on its depositors, and on the community; and in general a Federal Reserve Bank should limit the amount of collateral it requires to the minimum consistent with safety.

§ 201.5 *Paper acquired from nonmember banks*—(a) *Prohibition upon acceptance of nonmember bank paper.* Except with the permission of the Board of Governors of the Federal Reserve System, no Federal Reserve Bank shall accept as security for an advance or discount any assets acquired by a member bank from, or bearing the signature or endorsement of, a nonmember bank, except assets otherwise eligible which were purchased by the offering bank on the open market or otherwise acquired in good faith and not for the purpose of obtaining credit for a nonmember bank.

(b) *Applications for permission.* An application for permission to use as security for advances assets acquired from nonmember banks or to discount paper acquired from nonmember banks shall be made by the member bank which desires to offer such assets as security or such paper for discount and shall state fully the facts which give rise to such application and the reasons why the applying member bank desires such permission. Such application shall be addressed to the Board of Governors of the Federal Reserve System but shall be submitted by the member bank to the Federal Reserve Bank of the district, which will forward it promptly to the Board of Governors of the Federal Reserve System with its recommendation.

(c) *Paper acquired from Federal Intermediate Credit banks.* The Board of Governors of the Federal Reserve System hereby grants permission to Federal Reserve Banks to make advances to member banks upon the security of paper or assets bearing the signature or endorsement of, or acquired from, Federal Intermediate Credit banks or to discount for member banks paper bearing such a signature or endorsement or so acquired, if otherwise eligible under the law and this part.

§ 201.6 *Discounts for Federal Intermediate Credit Banks*—(a) *Kinds and maturity of paper.* Any Federal Reserve Bank, under authority of section 13a of the Federal Reserve Act, may, with the permission of the Board of Governors, discount for any Federal Intermediate Credit bank (1) agricultural paper as defined in § 201.3, or (2) notes payable to such Federal Intermediate Credit bank covering loans or advances made by it pursuant to the provisions of section 202 (a) of Title II of the Federal Farm Loan Act, which are secured by notes, drafts, or bills of exchange eligible for discount by Federal Reserve Banks. Any paper discounted for a Federal Intermediate Credit bank must bear the endorsement of such bank and must have a maturity at the time of discount of not more than nine months, exclusive of days of grace.

(b) *Limitations.* No Federal Reserve Bank shall discount for any Federal Intermediate Credit bank any paper which bears the endorsement of any nonmember State bank or trust company which is eligible for membership in the Federal Reserve System under the terms of section 9 of the Federal Reserve Act. In acting upon applications for the discount of paper for Federal Intermediate Credit banks, each Federal Reserve Bank shall give preference to the demands of its own member banks and shall have due regard to the probable future needs of its own member banks.

BOARD OF GOVERNORS OF THE FEDERAL RESERVE SYSTEM,
[SEAL] S. R. CARPENTER,
Secretary.

[F. R. Doc. 54-9407; Filed, Nov. 29, 1954; 8:47 a. m.]

[7] A banker's acceptance within the meaning of this part is a draft or bill of exchange, whether payable in the United States or abroad and whether payable in dollars or some other money, accepted by a bank or trust company or a firm, person, company, or corporation engaged generally in the business of granting bankers' acceptance credits.

[8] In the case of an acceptance growing out of the storage of readily marketable staples, the bill must be secured at the time of acceptance by a warehouse, terminal, or other similar receipt, conveying security title to such staples, issued by a party independent of the customer or issued by a grain elevator or warehouse company duly bonded and licensed and regularly inspected by State or Federal authorities with whom all receipts for such staples and all transfers thereof are registered and without whose consent no staples may be withdrawn; and the acceptor must remain secured throughout the life of the acceptance. If the goods are withdrawn from storage before maturity of the acceptance or retirement of the credit, a trust receipt or other similar document covering the goods may be substituted in lieu of the original document, provided that such substitution is conditioned upon a reasonably prompt liquidation of the credit; and, to this end, it should be required, when the original document is released, either that the proceeds of the goods will be applied within a specified time toward a liquidation of the acceptance credit or that a new document, similar to the original one, will be resubstituted within a specified time.

[9] The bill itself should be drawn so as to evidence the character of the underlying transaction, but if it is not so drawn evidence of eligibility may consist of a stamp or certificate affixed by the acceptor in form satisfactory to the Federal Reserve Bank.

[10] No acceptance discounted by a Federal Reserve Bank should have a maturity in excess of the usual or customary period of credit required to finance the underlying transaction or of the period reasonably necessary to finance such transaction; and no acceptance growing out of the storage of readily marketable staples should have a maturity in excess of the time ordinarily necessary to effect a reasonably prompt sale, shipment, or distribution into the process of manufacture or consumption.

[11] In the case of the acceptances of member banks this security must consist of shipping documents, warehouse receipts, or other such documents, or some other actual security growing out of the same transaction as the acceptance, such as documentary drafts, trade acceptances, terminal receipts, or trust receipts which have been issued under such circumstances, and which cover goods of such a character, as to insure at all times a continuance of an effective and lawful lien in favor of the accepting bank, other trust receipts not being considered such actual security if they permit the customer to have access to or control over the goods.

[12] Such person may be the member bank offering the note for discount or any other individual, partnership, association or corporation.

FARRELL LINES, INC.

REGISTRATION OF HOUSE FLAG AND FUNNEL MARK

NOVEMBER 24, 1954.

The Commissioner of Customs by virtue of the authority vested in him and in accordance with § 3.81 (a), Customs Regulations (19 CFR 3.81 (a)), has registered the house flag and funnel mark of Farrell Lines, Inc., as described below:

(a) *House flag.* The house flag is rectangular in shape, the fly is 1½ times the height of the hoist, the field of the fly consists of a white St. Andrews Cross superimposed upon an alternate blue and red field. The upper and lower segments of the field are red, the inner and outer segments of the field are blue. The width of the St. Andrews Cross is ⅛ the height of the hoist.

(b) *Funnel mark.* The funnel mark is to appear on a round funnel of buff. At the top of the funnel there is a black band which extends from the top of the funnel down a distance equal to ⅛ the width of the funnel. Three feet below

this black band there is superimposed the above-described house flag which is centered in relation to the width of the funnel. The length of the funnel mark is ½ the width of the funnel and the height is ⅔ of the length of the funnel mark. The mark consists of a St. Andrews Cross superimposed upon an alternate blue and red field. The upper and lower segments of the field are red, the inner and outer segments of the field are blue. The width of the St. Andrews Cross is ⅙ the height of the mark.

Colored scale replica drawings of the house flag and funnel mark are on file with the Federal Register Division.

[SEAL] RALPH KELLY,
Commissioner of Customs.

Office of the Secretary

FOREST SERVICE

ASSIGNMENT OF FUNCTIONS; FEDERAL-STATE RELATIONS

The statement of delegations of authority and assignment of functions (19 F. R. 74), as amended, is further amended by revising section 300i to read as follows:

SEC. 300. *Assignment of functions.*
* * *

i. The responsibility, under such general principles, criteria and procedures as may be established by the Soil Conservation Service, for making preliminary examinations and surveys under the flood prevention program (Flood Control Act of 1936, as amended and supplemented), for conducting surveys and investigations under the small watershed protection program (item for Watershed Protection in the Department of Agriculture Appropriation Act, 1954), for making surveys, investigations and studies under the program for flood prevention and agricultural phases of the conservation, development, utilization, and disposal of water (Watershed Protection and Flood Prevention Act), and for the collection of data necessary to the preparation of comprehensive river basin reports in the watershed or basin for the following: All national forests and other lands administered by the Forest Service; range lands within national forest boundaries and range lands adjacent to national forests which are administered in conjunction with such forests under formal agreement with the owner or lessee; and other forest lands except that the determination as to what lands are to be in forest or woodlands shall be the responsibility of the Soil Conservation Service.

Done at Washington, D. C., this 23d day of November 1954.

[SEAL] RALPH S. ROBERTS,
Administrative Assistant Secretary.

Federal Maritime Board

MEMBER LINES OF ATLANTIC CONFERENCE

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 7840-25 between the member lines of the Atlantic Conference, modifies the basic agreement of that conference (No. 7840) to provide (1) that the Secretary will arrange for a periodic examination of the appropriate documents of the member lines connected with passenger traffic for the purpose of determining strict compliance by the lines of the terms and conditions of the agreement; (2) that the confidential report of such examination of the Secretary will be circulated among the members; (3) that in case of finding of an infraction of the terms and conditions of the agreement by any member line, such report will be submitted to three representatives of the member lines to be selected by ballot, for adjudication and penalty as set forth in the agreement.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: November 24, 1954.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

AGUSTIN CALVO

NOTICE TO SHOW CAUSE WHY CERTIFICATE OF REGISTRATION SHOULD NOT BE CANCELED

Notice is hereby given that at a session of the Federal Maritime Board held at its office in Washington, D. C., the 17th day of November 1954, the Board entered the following order:

Whereas, Agustin Calvo, pursuant to General Order 72, was issued freight forwarder Certificate of Registration No. 879 on July 28, 1950; and

Whereas, the Board has, by registered letter dated September 24, 1954, and by one previous communication requested this registrant to furnish certain information in connection with his forwarding activities pursuant to § 244.3, General Order 72 (46 CFR Part 244); and

Whereas, both communications addressed to this registrant have been returned by the post office as undeliverable; and

Whereas, the Board has no knowledge of the whereabouts of this registrant, and cannot, therefore, exercise proper regulatory authority over him; and

Whereas, it appears that this registrant is no longer in the business of freight forwarding at his last known address.

It is ordered, That this registrant show cause in writing or, if requested by registrant, at a public hearing within thirty (30) days from the date of publication hereof in the FEDERAL REGISTER why his freight forwarder Certificate of Registration No. 879 should not be cancelled for the reasons above stated; and

It is further ordered, That a copy of this order be sent by registered mail to this registrant at his last known address; and

It is further ordered, That this order be published in the FEDERAL REGISTER.

Dated: November 24, 1954.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

DOCUMENTATION & SERVICE CO.

NOTICE TO SHOW CAUSE WHY CERTIFICATE OF REGISTRATION SHOULD NOT BE CANCELLED

Notice is hereby given that at a session of the Federal Maritime Board held at its office in Washington, D. C., the 17th day of November 1954, the Board entered the following order:

Whereas, James V. Ferreras, pursuant to General Order 72, was issued freight forwarder Certificate of Registration No. 407 on August 22, 1951; and

Whereas, the Board has, by registered letter dated September 27, 1954, and by numerous previous communications requested this registrant to furnish certain information in connection with his forwarding activities pursuant to § 244.3, General Order 72 (46 CFR Part 244); and

Whereas, the last communication addressed to this registrant has been returned by the post office as undeliverable and other communications addressed to him beginning on June 5, 1952, have remained unanswered; and

Whereas, the Board has no knowledge of the whereabouts of this registrant, and cannot, therefore, exercise proper regulatory authority over him; and

Whereas, it appears that this registrant is no longer in the business of freight forwarding at his last known address;

It is ordered, That this registrant show cause in writing or, if requested by registrant, at a public hearing within thirty (30) days from the date of publication hereof in the FEDERAL REGISTER why his freight forwarder Certificate of Registration No. 407 should not be cancelled for the reasons above stated; and

It is further ordered, That a copy of this orer be sent by registered mail to this registrant at his last known address; and

It is further ordered, That this order be published in the FEDERAL REGISTER.

Dated: November 24, 1954.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

FEDERAL POWER COMMISSION

[Docket Nos. G-2671, G-2672, G-2673]

BLALACK & WALTER

NOTICE OF APPLICATION AND ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

Take notice that Blalack & Walter, a partnership consisting of Joe Blalack and W. R. Walter (Applicant), with a principal office in Longview, Texas, filed on September 7, 1954, applications under Docket Nos. G-2671, G-2672 and G-2673 for certificates of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas in interstate commerce as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in their applications filed therein.

Applicant produces natural gas in (1) Carthage Field, Panola County, Texas, Ivy Gas Unit, (2) Carthage Field, Panola County, Texas, Jernigan Gas Unit and in (3) South Hallsville Field, Harrison County, Texas, which they sell to Arkansas Louisiana Gas Company at the well-head for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of December 1954. The application is on file with the Commission for public inspection.

These matters are ones that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that (1) notice of the applications and order fixing date of hearing be published simultaneously, and (2) the proceedings at Docket Nos. G-2671, G-2672, and G-2673 be consolidated for the purposes of hearing.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, (a) the proceedings at Docket Nos. G-2671, G-2672, and G-2673 be and are hereby consolidated for the purposes of hearing and (b) a hearing be held on December 15, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the applications in the consolidated proceedings: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: November 17, 1954.

Issued: November 19, 1954.

By the Commission.

[SEAL] J. H. GUTRIDE,
Assistant Secretary.

[F. R. Doc. 54-9389; Filed, Nov. 29, 1954; 8:45 a. m.]

[Docket No. G-2691]

RODNEY DELANGE AND O. NEATHERY, JR.

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Rodney DeLange and O. Neathery, Jr. (Applicants), independent producers of natural gas with a principal office in San Antonio, Texas, filed on September 8, 1954, application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in their application filed herein.

Applicants produce natural gas in Goliad County, Texas (Dreier Lease—Maetze Field) which they sell to Trunkline Gas Company under contract dated October 1952, for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 7th day of December 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 17, 1954, at 10:15 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: November 17, 1954.

Issued: November 19, 1954.

By the Commission.

[SEAL] J. H. GUTRIDE,
Assistant Secretary.

[Docket No. G-2735]

GLADSTONE GASOLINE CO., INC.

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Gladstone Gasoline Company, Inc. (Applicant), a Delaware corporation with its principal office in Shreveport, Louisiana, filed on September 13, 1954, application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in its application filed herein.

Applicant owns non-operating interests in natural gas produced in the North Lansing Field, Gregg and Harrison Counties, Texas, and which is sold to Arkansas Louisiana Gas Company and in the Willow Springs Gas Field, Gregg County, Texas, which it sells to Texas Eastern Transmission Corporation for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of December 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that (a) notice of the application and order fixing date of hearing be published simultaneously and (b) the application be disposed of as requested by Applicant in accordance with the shortened procedure rule (§ 1.32) of the Commission's rules of practice and procedure.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 16, 1954, at 10:00 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however*, That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.32 of the Commission's rules of practice and procedure.

Adopted: November 17, 1954.

Issued: November 19, 1954.

SINKING CREEK OIL & GAS CO.

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Sinking Creek Oil & Gas Company (Applicant), a partnership with its principal office in Glenville, West Virginia, filed on September 27, 1954, application, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in its application filed herein.

Applicant produces natural gas in the Sinking Creek Field, Dekalb District, Gilmer County, West Virginia, which it sells to Equitable Gas Company for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 8th day of December 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 14, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceeding pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: November 17, 1954.

Issued: November 19, 1954.

By the Commission.

[SEAL] J. H. GUTRIDE, *Assistant Secretary.*

[Docket No. G-3157]

LAURENCE CORBETT KELLY

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Laurence Corbett Kelly (Applicant), an individual with principal office in Beverly Hills, California, filed on September 27, 1954, application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in its application filed herein.

Applicant produces natural gas in the Blanco Field in San Juan County, New Mexico, which he sells to El Paso Natural Gas Company for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 8th day of December 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 14, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceeding pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: November 17, 1954.

Issued: November 19, 1954.

By the Commission.

[SEAL] J. H. GUTRIDE, *Assistant Secretary.*

[Docket No. G-3167]

RAYMOND KIGHT

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Raymond Kight (Applicant), an individual whose address is Glenville, West Virginia, filed an application on September 27, 1954, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in his application filed herein.

Applicant produces natural gas in the Cedar Creek Field, Dekalb District, Gilmer County, West Virginia, which he sells to Carnegie Natural Gas Company for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 9th day of December 1954. The application is on file with the Commission for public inspection.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 16, 1954, at 9:50 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

Adopted: November 17, 1954.

Issued: November 19, 1954.

By the Commission.

PAN AMERICAN PRODUCTION CO.

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Pan American Production Company (Applicant), a Delaware corporation with its principal office in Houston, Texas, filed on September 29, 1954, application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in his application filed herein.

Applicant produces natural gas in South Bayou Mallet Field, Acadia Parish, Louisiana, which it sells to Texas Northern Gas Corporation for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of December 1954. The application is on file with the Commission for public inspection.

Applicant requests that the application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure.

The Commission finds: It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 16, 1954, at 10:15 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure.

LOUIS J. RONSSEL

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

Take notice that Louis J. Ronssel (Applicant), an individual with his principal office in New Orleans, Louisiana, filed on September 30, 1954, an application for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing Applicant to make sales of natural gas as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in his application filed herein.

Applicant produces natural gas in South Bayou Mallet Field, Acadia Parish, Louisiana, which it sells to Texas Northern Gas Corporation for resale in interstate commerce.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 6th day of December 1954. The application is on file with the Commission for public inspection.

Applicant requests that the application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure.

The Commission finds:

(1) It is proper and consistent with the public interest that notice of the application and order fixing date of hearing be published simultaneously.

(2) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)). Applicants having requested that their application be heard under the shortened procedure provided for by the aforesaid rule for noncontested proceedings: *Provided, however,* That no request to be heard, protest or petition is filed raising an issue of substance.

The Commission orders: Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 17, 1954, at 9:50 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

Adopted: November 17, 1954.

Issued: November 19, 1954.

By the Commission.

[Docket No. G-4373]

EL PASO NATURAL GAS CO.

NOTICE OF APPLICATION AND ORDER FIXING DATE OF HEARING

El Paso Natural Gas Company (Applicant), a Delaware corporation with its principal place of business in El Paso, Texas, filed an application on October 25, 1954, with the Federal Power Commission, for a certificate of public convenience and necessity, pursuant to section 7 (c) of the Natural Gas Act, authorizing the construction and operation of facilities for the transportation and sale of natural gas as hereinafter described and as more fully described in the application on file with the Commission for public inspection.

Applicant proposes to construct and operate: (1) Approximately 1.3 miles of 2⅜-inch pipe line in Cochise County, Arizona, from a point of connection with its Huachuca line to a point adjacent to Fry, Arizona, together with necessary metering facilities at the Fry City Gate; (2) a tap in Maricopa County, Arizona, on Applicant's Phoenix power plant line, together with necessary regulating equipment to deliver gas for the St. John's Indian Mission; and (3) a tap in Pima County, Arizona, on Applicant's 6⅝-inch Tucson line, together with necessary metering facilities at the Alvernon City Gate near Tucson, Arizona.

The proposed facilities will enable Applicant to sell and deliver natural gas: (1) To Arizona Public Service Company for resale at Fry, Arizona, and at the St. John's Indian Mission near Laveen, Arizona; and (2) to the Tucson Gas, Electric Light and Power Company for resale in the suburban area of Estrella adjacent to the City of Tucson, Arizona. The estimated cost of the proposed facilities is $18,843 and their financing is to be out of Applicant's available treasury funds.

Applicant has requested that its application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure.

The Commission finds:

(1) It is appropriate, reasonable, and in the public interest in carrying out the provisions of the Natural Gas Act, and good cause exists, to give due notice of the application filed herein, including publication in the FEDERAL REGISTER, and to hold a public hearing in the above-entitled proceeding, all as hereinafter provided and ordered.

(2) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)), Applicant having requested that its application be heard under the shortened procedure provided for by the aforesaid rule for noncontested proceedings: *Provided, however,* That no request to be heard, protest or petition is filed raising an issue of substance.

The Commission orders:

(A) Due notice be given, including publication in the FEDERAL REGISTER, of this notice of application and order.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7, 15 and 16 of the Natural Gas Act, and the Commission's general rules and regulations, including rules of practice and procedure (18 CFR, Chapter I), a hearing be held on December 13, 1954, at 9:30 a. m., e. s. t., in a Hearing Room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceedings pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure (18 CFR 1.32 (b)).

(C) Protests or petitions to intervene may be filed with the Commission in accordance with §§ 1.8 and 1.10 of its rules of practice and procedure (18 CFR 1.8 and 1.10) on or before December 8, 1954.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.37 (f)).

Adopted: November 17, 1954.

Issued: November 19, 1954.

By the Commission.

[SEAL] J. H. GUTRIDE,
Assistant Secretary.

OFFICE OF DEFENSE MOBILIZATION

[ODM (DPA) Request 55; DPAV-53]

REQUEST TO PARTICIPATE IN FORMATION AND ACTIVITIES OF AN INTEGRATION COMMITTEE ON CRITICAL QUARTZ CRYSTALS

Pursuant to section 708 of the Defense Production Act of 1950, as amended, the request set forth below to participate in the formation and activities of an Integration Committee on Critical Quartz Crystals in accordance with the voluntary plan entitled, "Plan and Regulations of Signal Corps Governing the Integration Committee on Critical Quartz Crystals," was approved by the Attorney General, after consultations with respect thereto between the Attorney General, the Chairman of the Federal Trade Commission, and the Director of the Office of Defense Mobilization, and was accepted by the companies listed below.

This voluntary plan provides for the formation and activities of an Integration Committee on Critical Quartz Crystals to facilitate the exchange of information between the contractors and generally to achieve close cooperation in the solution of production problems by all concerned. The voluntary plan has been approved by the Director of the Office of Defense Mobilization and found to be in the public interest as contributing to the national defense.

CONTENTS OF REQUEST

You are requested to participate in the formation and activities of an Integration Committee on Critical Quartz Crystals in accordance with the voluntary plan entitled "Plan and Regulations of Signal Corps Governing the Integration Committee on Critical Quartz Crystals," a copy of which is enclosed.

In my opinion your participation in the activities of this Committee will assist in the accomplishment of our national defense program.

The Attorney General has approved this request after consultation with respect thereto between his representatives, representatives of the Chairman of the Federal Trade Commission and my representatives, pursuant to section 708 of the Defense Production Act of 1950, as amended.

I have approved the voluntary plan and have found it to be in the public interest as contributing to the national defense. You will become a participant therein upon notifying me in writing of your acceptance of this request. Will you kindly also send two copies of your acceptance to the Procurement Division, Production Branch, Office of the Assistant Chief of Staff, G-4, United States Army, Pentagon Building, Washington 25, D. C.

Immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act will be given upon such acceptance, provided that the activities of the Integration Committee on Critical Quartz Crystals and your participation therein are within the limits set forth in the voluntary plan.

Your cooperation in this matter will be appreciated.

Sincerely yours,

ARTHUR S. FLEMMING,
Director.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 29950]

DRIED BEANS, PEAS AND LENTILS FROM THE WEST TO SOUTHWESTERN TERRITORY

APPLICATION FOR RELIEF

NOVEMBER 24, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedules listed below.

Commodities involved: Beans, peas and lentils, dried, carloads.

From: Points in Colorado, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, Oregon, South Dakota, Utah, and Wyoming.

To: Destinations in southwestern territory, including Kansas, Missouri, and New Mexico, Vicksburg and Natchez, Miss., and Memphis, Tenn., etc.

Grounds for relief: Rail competition, circuity, competition with motor carriers, and to maintain grouping.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 4046, supp. 70; W. J. Prueter, Agent, I. C. C. No. A-3885, supp. 25.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Secretary.

[4th Sec. Application 29951]

FERTILIZER AND ANHYDROUS AMMONIA FROM SOUTHWESTERN TERRITORY AND KANSAS TO HOWELL'S TRANSFER, GA., AND MAXINE, ALA.

APPLICATION FOR RELIEF

NOVEMBER 24, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Fertilizer and fertilizer materials and anhydrous ammonia, carloads.

From: Specified points in southwestern territory, also Military and Parsons, Kans.

To: Howell's Transfer, Ga., and Maxine, Ala.

Grounds for relief: Rail competition, circuity, market competition, to maintain grouping, and additional destinations.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 4112, supp. 28.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29952]

SCRAP IRON FROM THE SOUTH TO MT. VERNON, OHIO

APPLICATION FOR RELIEF

NOVEMBER 24, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Scrap iron and steel, carloads.

From: Points in southern territory.

To: Mt. Vernon, Ohio.

Grounds for relief: Rail competition, circuity, to apply rates constructed on the basis of the short line distance formula, and additional destination.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1329, supp. 58.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emer-

gency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 29954]

CRUDE RUBBER FROM TEXAS AND LOUISIANA TO GUNTERSVILLE, ALA.

APPLICATION FOR RELIEF

NOVEMBER 24, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedules listed below.

Commodities involved: Crude rubber, viz: artificial, synthetic or neoprene, carloads.

From: Specified points in Texas and Louisiana.

To: Guntersville, Ala.

Grounds for relief: Rail competition, circuity, to apply rates constructed on the basis of the short line distance formula, and additional destination.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3967, supp. 405; F. C. Kratzmeir, Agent, I. C. C. No. 4087, supp. 42.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. [4th Sec. Application 29955]

BANANAS FROM NEW ORLEANS AND CHALMETTE, LA., TO MEMPHIS, TENN.

APPLICATION FOR RELIEF

NOVEMBER 24, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to Agent W. P. Emerson, Jr.'s tariff I. C. C. No. 4141, pursuant to fourth-section No. 16101.

Commodities involved: Bananas, carloads.

From: New Orleans and Chalmette, La., and points taking same rates.

To: Memphis, Tenn.

Grounds for relief: Competition with rail carriers, circuitous routes, and operation through higher-rated territory.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

[4th Sec. Application 29956]

BITUMINOUS FINE COAL FROM MINES IN ILLINOIS TO CHICAGO, ILL.

APPLICATION FOR RELIEF

NOVEMBER 24, 1954.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: Litchfield and Madison Railway Company for itself and on behalf of carriers parties to schedule listed below.

Commodities involved: Bituminous fine coal, carloads.

From: Mines in Illinois.

To: Chicago, Ill., and points taking same rates.

Grounds for relief: Rail competition, circuity, market competition, and to meet intrastate rates.

Schedules filed containing proposed rates: Litchfield and Madison Railway Company, I. C. C. No. 441, supp. 13.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.
